

CHANGES TO SECURE SYSTEM WEB ADDRESS (URL)

As a result of security upgrades, the Secure Systems URL has changed to the following:

https://www11.hud.gov/HUD_Systems/index.cfm

If you access Secure Systems using a bookmark, please change the bookmark to the new URL. The system, for a short time, will automatically switch over to the new URL if the "old" URL is used to access Secure Systems. However, continued use of the "old" URL will eventually result in an error message.

HUD has implemented "Strong" password requirements for Multifamily Housing applications, including REMS. The requirements for passwords are:

- Be at least 6 characters long
- Not be longer than 8 characters long
- Must contain at least 1 UPPER CASE letter
- Must contain at least 1 lower case letter
- Must contain at least 1 number or special character

Passwords must be changed every 60 days.

The Secure Systems Link contained on the REAC Homepage reflects the new URL. Accordingly, no action is necessary if you access Secure Systems through the On-Line Systems Page.
