1.0 GENERAL INFORMATION
1.0 GENERAL INFORMATION

1.1 System Overview

The Voucher Management System (VMS) supports the information management needs of the Housing Choice Voucher Program (HCVP) and management functions performed by the Financial Management Division (FMD) and the Financial Management Center (FMC) of Public and Indian Housing and the Real Estate Management Center (PIH-REAC). This system’s primary purpose is to monitor and manage Public Housing Agency (PHA) use of vouchers. VMS collects PHA data that enables HUD to fund, obligate, and disburse funding in a timely manner based on actual PHA use.

The web-based VMS application facilitates electronic submission of monthly program data by the PHAs which in turn, makes the data accessible to users in PIH-REAC, FMD, FMC, Field Offices (FO), and Headquarters (HQ). Currently, users can generate and print or download PHA monthly reports, but PIH personnel perform all budgeting and funding activities manually. The long-term goal of the VMS project is to integrate budgeting and funding activities into the VMS application and automate the currently manual tasks. Automation will be accomplished by implementing electronic entry of all relevant data, automatic data calculations, complex report generation, and automated business workflows including an online approval process.

1.2 Technical Support

1.3 Organization of the Manual

This manual has been organized to familiarize the reader with the Voucher Management System. It introduces each step in the use of VMS for the user. It is organized logically from Registration, Login/Logoff procedures, Navigating to the desired screens, PHA entry, validation and submission of HCV Voucher related data, Correction of prior month submissions, (HUD User) review and approval of pending Hard Edits, Generating reports and prints. For a summary outline of this organization, review the Table of Contents.

Note: Some of the screen prints in this manual are quite detailed. In order to better see the “fine print” you can expand the size of the page using the Zoom controls located on the top bar of the display.
1.4 Contingencies and Alternate Modes of Operation

Because of the nature of its operation, VMS has no need for contingencies or alternate modes of operation from the user’s point of view. Any interruption in power or connection simply requires that the user begin an operation over again.
2.0 GETTING STARTED

3.1 Manage PHA Data

This link is generally accessed by PHA users. Users in the housing choice voucher program and are required to maintain financial reports in accordance with accepted accounting standards in order to permit timely and effective audits. The financial records identify the amount of annual contributions that are received and disbursed by the PHA. The Voucher for Payment of Annual Contribution and Operating Statement, Form HUD 52681-B, is used by HUD to approve actual PHA program expenses for the PHA Fiscal year, and is the basis for reviewing PHA financial estimates for the subsequent fiscal year. This form is also used in conjunction with the Disaster Information System to complete the settlement processed when a Disaster Program has terminated.

PHAs are advised not to wait until the final day of the collection period to submit their data. Doing so may result in a delayed transmission of the data to HUD that could impact a PHA’s funding. Failure to submit the data results in a PHA being sanctioned as a non-submitter. Incomplete submission and/or non-submissions could also affect the PHA’s future years funding. PHAs need to follow the submission timeframes established by the Financial Management Center on the submission periods.

3.2 Navigate to Desired Monthly Submission

Click on “Enter PHA Data Tabs” link under the heading “Manage PHA Data” located on the left side navigational menu of the VMS Home Page.

**VMS Home Screen**

*NOTE: Depending on the number of agencies you have associated with your User ID, you will see one of the two following screens. Single PHA users use the next screen, where multiple users will see the screen with the Enter PHA Code and Select PHA State*

A user with multiple PHA Codes either enters the PHA code directly in the first box, or selects the state code from the drop-down menu, then selects the PHA name from the next drop down menu, and then clicks “Go”.

3.3 Enter, Modify, View Data

**NOTE:** HAP expenses are entered under the month for which they are applicable, regardless of the month in which they are actually paid. HAP expenses are only entered after the payment has been made.

**NOTE:** You may view and print completed submissions (Status of Submitted, Pending Hard Edit, Hard Edit Approved), but you are not allowed to alter them. You must use the Prior Month Correction (PMC) process to alter them.

### 3.3.2 Key Data into Fields

Enter data into each appropriate field of the tab. You may navigate from field to field using the Tab key on your keyboard, or by positioning your cursor in the white box of the field. Some fields are shown as gray. These will be calculated or provided by the system, and are not data entry fields.
3.3.3 Question Marks Provide Help

Next to each editable field is a red Question Mark (?) in a yellow circle. If you click on the question mark, an explanation of the field will appear, as shown below.

3.3.4 Reset Button

Every data entry Tab has a “Reset” button. Pressing this button will cause all the data you have entered since the last “Save” to be reset to the way the tab looked before the last “Save”. If you haven’t yet saved any data, the screen will be reset to all blanks.
3.4 Validate Data

Once the data has been entered completely for a tab, click the “Validate” key at the bottom of the screen to check for data entry errors.

The Validate Data function is crucial to the integrity of the data entered by the user prior to saving and submitting to the database. VMS verifies the apparent validity of the data via a series of steps, first checking for proper format, second comparing the amounts fall within “reasonable” ranges, then where possible comparing related fields to insure completeness and consistency against a list of business rules. Where inaccuracies are found, the system will generate error messages.

The order in which the fields are validated is as follows:

- First, a simple check (basic validation) to make sure the field is present if mandatory, and is numeric (for a numeric field), with no special characters embedded.
- Second, a check for Hard Edits, against the Hard Edit criteria listed below in this section,
• Third, a cross validation check, if two fields must accompany each other, such as Litigation and Litigation HAP, which must both be present if one of the fields is present.

If a field fails all three types of validation checks, only the first type of error will appear. When this error is corrected, if the field still fails the other two types, only the second type of error will appear. If the field fails the third type of validation once the second type is corrected, only then will the third, cross-validation error appear.

3.4.1 Basic Validation

3.4.1.1 Mandatory Field Check

The required fields are:

• HCV- All Unrestricted Net Position Funds as of the Last Day of the Month the First of Month
• HCV- Number of Vouchers Under Lease (HAP Contract) on the last day of the Month
• HCV- Unrestricted Net Position (UNP) as of the Last Day of the Month
• HCV- Restricted Net Position Funds (RNP) as of the Last Day of the Month
• HCV- Cash/Investment as of the Last Day of the Month - Voucher Program Only
• Administrative Expenses (Mandatory for Non MTW PHAs only, field will accept 0 for MTW PHAs)
• MTW - HCV Administrative Expenses (Mandatory for MTW PHAs only, field will accept 0 for Non MTW PHAs)

The system will perform a simple check and the error message below will display if validation fails.

![VMS Required Field Error Message]

3.4.1.2 Numeric Check

The system will perform a simple check for numeric data with no special character embedded and the message error message below will display if validation fails.

![VMS Required Field Error Message]
3.4.2 Hard Edit Validation

NOTE: During the validation process, data entered is validated against specific business rules associated with hard edits. The system prevents the user from submitting data that fails to meet the business rules. Data that fails a hard edit is not necessarily incorrect – the data may fall outside reasonable ranges. The PHA can either correct the data, or explain it. If you opt to explain it, you will be able to submit data with a status of “Pending Hard Edit”. To complete this submission, approval by the PHA’s Financial Analyst is required. The Financial Analyst can generate a report of submissions containing Hard Edit explanations. The Financial Analyst must review and either approve or disapprove the submission.

3.4.2.1 Hard Edit Error Messages

The following fields of the monthly UML data will be compared to the ACC unit data. If the entered data fails the criteria for hard edits, an error message will display and you will need to make the correction OR enter a comment from the drop-down box or a personalized comment to explain why the data is correct as submitted. 3.4.3 Cross Validation
If any of the entered data items fail validation, the following System Message will be displayed at the top of the form warning you that there may be errors with the entered data. Explanatory messages will appear under the erroneous fields.
Above are examples of errors found during the cross validation comparison of fields. For every UML field that has a corresponding HAP field, if one contains an amount, they must both contain amounts.

### 3.4.3.1 Fields Subject to Cross Validation

3.4.4 Save Data

After the Validation step, if the data passed all the validation steps, messages will appear telling you that the data is valid and reminding you to save the data.

**VMS System Message – The Tab is valid and can be saved**

The “Save” button will then display

**VMS Data entry screen – Save Button**

You may save your data by clicking on the “Save” button at the bottom of the tab. You should always save it before continuing on to a different tab. When you save the data, the validation logic is automatically triggered. If any other errors are found, the data is not saved, you must correct the fields with error messages before any of the data on the tab will be saved. If you sign out of the session before correcting the erroneous fields, all of the data you keyed on that tab will be lost.

When all errors are corrected, the message below will display and you can move on to the next tab.

**VMS System Message – This Tab was saved successfully**
3.5 Point-of-Contact Pre-Population and Email Feature

The PHA Information Tab differs from the other data entry tabs in two significant ways:

1. Much of the data on this Tab is pre-populated.
   - Initial HA information is supplied from the PIC database.
   - PHA Contact Information is initially entered by the PHA user. Once PHA Contact Information has been entered, it will stay, pre-populating the fields of this Tab for new submissions until someone enters different information in the fields.

2. There are hyperlinks in the Program Area FMC and Program Area Field Office sections of the Tab which help the user to draft and send an email to the FMC FA or Field Office point of contact.

The notations on the example screen below explain where the data comes from for pre-populated fields. The PHA contact information can be changed by the PHA user. Once changed, the data will remain and continue to re-populate the fields for subsequent months.

Pre-populated Point of Contact Fields and Hyperlinks

When you click on the Point of Contact FMC hyperlink, the following screen appears:
(A similar screen appears for the Point of Contact Field Office hyperlink)

FMC Point of Contact Email Page

This allows the PHA user to draft an Email to the FMC Point of Contact (POC) and have it sent. The FMC POC User-ID is pre-populated. The sender fills in the rest. The buttons at the bottom of the page are:

- **Back**: returns to the PHA Information Tab
- **Reset**: erases all data entered by the sender
- **Submit**: checks the message for errors. If no errors, the message is displayed for review:

Email message Review Page

The user can click **“Send Email”** to send the message, or click **“Back”** to return to the previous page.
3.6 Submit Monthly Data

After the data has been entered into the VMS system and everyone concerned is satisfied that data is correct, you will need to submit the Monthly Voucher Data by opening the “Submission” tab and clicking the “Submit” button.

Navigate to the desired month’s 52681-B form as described in the Manage PHA Data Section 4.1. Then click on the “Submission” tab button at the top, a two-part Submission tab will appear, displaying Validation History and Submission History.

Click on the “Submit” button at the bottom of the screen and the following screen will display:
Press the “Submit” button on this screen. The system will display a blue window requesting that you certify that the submission data is correct, and complete, and that it does not contain as an expense Portability payments from another Housing Authority.

By clicking on the “OK” button, you are certifying the accuracy of the monthly submission. If you are not sure the document is ready to be submitted, click on the “Cancel” button, and you will be returned to the previous screen.

If you pressed the “OK” button, and if your Monthly Submission passes a final validation check, the following screen will display. At the top will be a System Messages window with a message stating that the submission process is complete, and that the Voucher data was successfully submitted.

Press the “Continue” button to return to the List of Submissions page.

You may press the “Print Format” button if you wish to print the submission data, after you have received the window confirming that your submission was successful.

If you pressed the “OK” button, and if your Submission did not pass the final validation check, the screen below will display. The System Message at the top alerts you that the submission
process was not successful, and instructs you to return to each tabbed page to correct errors and re-validate the page.

Click on the “Cancel” button. You will be returned to the List of Submissions page.

If you discover that the data is incorrect before submitting the month, you can cancel the process. Scroll down to the bottom of the Submit Month page and click the Cancel button. You will be returned to the List of Submissions page. Status for the cancelled month submission will not change. If data was previously saved, status will be “Saved”, if data was not saved, status will be “Not Entered”.

If PHA has additional months to submit, they would continue with the Submit Month process until all months have been submitted successfully and display "Submitted" or "Submitted – Hard Edit Approved" in the status column.

**NOTE:** A PHA cannot submit subsequent months until the prior month is actually submitted and accepted by HUD.
NOTE: Once the Month is submitted and accepted by HUD, the PHA can select another month to enter, edit and submit data available, otherwise the user can log out of VMS (Section 2.4) if finished with the transaction.

The PHA should notify the FA when a monthly submission with a “Pending Hard Edit status” is made. The Financial Analyst will then access the PHA’s submission, approve or disapprove the submission, and trigger the automatic notification to the PHA.

APPROVED SUBMISSION: Approval will trigger an ‘approved email notification’ to be sent to the PHA. The FA can notify the PHA why the submission was approved by entering comments in the comment field of the Review and Approval page. These comments will be included in the email notification. An approval means the submission for that month is completed.

DISAPPROVED SUBMISSION: Disapproval will trigger a ‘disapproved email notification’ to be sent to the PHA. The FA can notify the PHA why the submission was disapproved by entering comments in the comment field of the Review and Approval page and this would be included in the email notification. The PHA will have to edit the original submission, resubmit/correct the data, and notify the FA of the resubmission.

NOTE: An approval or disapproval on a submission by an FA will trigger an email notification being sent to the PHA. The email notifications are sent from the VMS automated email system which is not monitored for responses. PHA users should not respond to this email notification. Please contact your FA directly if you have questions. The email notification contains the following: PHA Number, PHA Name, Contact Point and Submission Month and Year and will be sent to the Point of Contact email address and CC to the official email address on Form 52681-B

If a submission is disapproved by the FA and the PHA resubmits the form without making any change to the original submission, a popup warning message as below will display

Press the “OK” button on this screen. The system will display a blue window requesting that you certify that the submission data it is true, correct, and complete, and that it does not contain as an expense Portability payments from another Housing Authority.
If you pressed the “OK” button, and if your Monthly Submission passes a final validation check, the following screen will display. At the top will be a System Messages window with a message stating that the submission process is complete, and that the Voucher data was successfully submitted.

3.6.1 Validation History

The Validation History section of the Submission Tab will display Hard Edit validation for the Form and a Prior Month Correction (PMC), a column on the far left identifies a Form or PMC Hard Edit.

### 3.7 Print Monthly Submission

All PHA users may View/Print Monthly data regardless of whether or not the month has been submitted. The Read-Only HUD users can only View/Print submitted monthly data. There are a number of print options, outlined below:

#### 3.7.1 Individual Tab Prints

Each of the 5 data entry tabs has a button at the bottom to print that tab only: The data of the entire Tab will be formatted into a PDF report, which can be saved or printed. Prior to creating the report, the Tab must have first been validated and saved.

Below are an example of a Tab print button and the PDF format print of that entire Tab:
3.7.2 VMS Additional Expense/Comment Print Page

The complete comments entered in the COMMENTS field on TAB 3 (Expense/Comments) or comments entered in the PMC Comments/New Adjusted Value Field will display on the PDF print version when user clicks on the Print button.
3.7.3 Individual Submission Print

To generate a printer friendly version of an individual submission, click on the “Updated Date/Time” link for that submission in the bottom section of the Submission Tab:

A PDF multi-page report of the entire submission will be created. You may save or print this report.
3.7.4 Multiple Submissions Report

To print multiple submissions reports, click on the check boxes for the desired submissions in the bottom section of the Submissions Tab, and click on the “Print Multiple Submissions” button at the bottom of the tab.

4.0 PRIOR MONTH CORRECTIONS
4.0 PRIOR MONTH CORRECTIONS

If you have one or more corrections to make to prior month submissions, you can link to this function from the VMS Home Page, in order to make one or more field corrections for one reporting period or for multiple reporting periods, at one setting, and to obtain FA approval in an efficient process.

You are not allowed to alter submissions with status “Submitted”, “Pending Hard Edit”, “Hard Edit Approved” (completed submission) in any other way than the PMC process. You can only view and print completed submissions via the “Enter PHA Data Tabs” link.

PHAs should enter adjustments/revisions as they are discovered to ensure accurate data is available at all times for utilization and budget projection purposes. PHAs should not wait until the end of the year to make corrections.

4.1 Entering the Correction

At the VMS Home Page, Select “Prior Month Correction PHA – Data Input” on the left navigation menu:

If you have a single PHA associated with your User ID, you will go directly to first PMC Data Entry screen (4.1.1 below)

A user with multiple PHA Codes either enters the desired PHA code directly in the first box, or selects the state code from the drop-down menu, selects the PHA name from the next drop down menu, and then clicks “Go”. 
4.1.1 PMC Data Entry Form

Initially, the Data Entry screen for Prior Month Corrections allows you to select the Submission to be corrected, by selecting the Year and Month from drop-down lists. If the date you select does not have a completed Submission, you will receive an error message, as displayed in red below.
When you select the Year/Month for a valid Submission, then the Tab Selection and Field Selection Drop-down menus will be highlighted so that you can select the Field to be corrected and Tab where it is located. When you select a Tab, the Drop-down menu for Field Selection will contain just the fields for that Tab.

Once you have selected the field to be corrected, the Data Entry Form will display the Correction fields and a **PHA Justification field** on the form. If the field to be corrected is anything except a UML/HAP combination, the Form will look like the one below, with New Adjusted Value equal to Old Value, and Difference in New to Old Value field equal to zero. The Old Value and Difference fields cannot be modified. They are generated by the system.
The PHA Justification field at the bottom, maximum size 4000 characters, allows you to describe the purpose of the correction, or leave any significant information, for future reference. A pop-up message when data entered exceed 4000 characters.

Modify the value in the New Adjusted Value field. The system will calculate the difference from the Old Value, and place the positive or negative difference in the Difference field.

If you select a field that has UML and HAP associated values, the PMC Correction screen will look like this, with both fields displayed and available for correction.
Once you have modified the New Adjusted Value in one or both of the displayed fields, the next step is to press the “Validate” button at the bottom of the page. The system will validate just the affected fields. If Hard Edit Error messages were present on the Submission for other fields, they will not be re-validated in this process.

If the Validation process produces errors or Hard Edit errors, the error messages will appear under the appropriate field, as shown in the screen below:
For a Hard Edit Error, just as for a regular Submission, click the appropriate drop-down menu explanation. If "Other" is selected a mandatory explanation is required in the Comment box to further explain the change. For non Hard-Edit errors, such as invalid format or cross-reference errors, the field must be corrected. When corrections and explanations are complete, press the "Validate" button again.

If there are no Validation errors, or if all Hard Edit errors have been properly explained, a “Submit” button will appear at the bottom of the page. Click this button to submit the correction.

If you do not wish to submit, you can do one of the following:
- Alter one or both of the corrected fields and press the “Validate” field again
- Press the “Reset” button to return to an initial Data Entry screen
- Press the “Exit PMC” button to leave PMC entirely and return to the VMS Home Page

For “Reset” or “Exit PMC” you will lose all corrections you have made on this screen.

After validation is completed, the “Submit” button will display as below
When you press “Submit”, the correction is submitted and you will see the following screen:

If you press the “Continue” button on the screen, you will return to an initial PMC Data Entry Screen in order to enter a new correction. You may also navigate to any of the selections on the navigation menu to the left of the screen.

**Note:** Most fields are fully replaced by the PMC process. One exception is the Comment field on the Additional Expense / Comments Tab. If you modify this field via PMC, previous comments will be retained, and your comment will be added below them in the (text) field, as shown below. The Comment field will accommodate a maximum of 4000 characters at a time with the User’s ID, date and time stamp. The Comment field will accommodate and display a maximum of 20,000 characters.
The New Adjusted Value field displays a pop-up message when data entered exceed 4000 characters.

The New Adjusted Value field displays a pop-up message when data entered (4,000 concurrently) exceed 20000 characters.
4.1.2 Range Check Validation

The Range Check Validation is an edit that checks the difference between the original data and revised data that is submitted by the PHA. The below information discusses four different scenarios that will or will not trigger the Range Validation Edit. If the Range Edit is triggered, then a comparison of the original data to the revised data is done to determine if the difference falls within an acceptable range. The Range Validation Edit is used to reduce the number of hard edit reviews required by the PHA and the FA at the FMC. See Scenario #4 for additional details.

**Scenario 1:** The system will not check for the range if a PMC passed hard edit validation before adjustment and now fails, for example, the PHA is not in the Veteran’s Affair Supported Housing (VASH) program, PHA originally had not entered data for the VASH program and now enters data for the program, the following will happen:

- The Validation process displays Hard Edit errors, the error messages will appear under the appropriate field, as shown in the screen below:

  ![]( PMC Data Input Screen-Scenario 1)

  For a Hard Edit Error, just as for a regular Submission, click the appropriate drop-down menu explanation. If "Other" is selected, a mandatory explanation is required in the Comment box to further explain the change.

  When all errors have been properly explained click on the “Submit” button to submit the correction.
PMC Data Input Screen - Scenario 1

- FA review and approval for the hard edit error message is required

**Scenario 2**: The system will not check for the range if a PMC failed hard edit validation before adjustment and now passes, for example, the PHA is in the Family Unification program, PHA did not originally enter data for the Family Unification program but now enters data for the program, the following will happen:

- The validation process will display no errors as shown in the screen below:

A “Submit” button will appear at the bottom of the page as shown below. Click this button to submit the correction.
Scenario 3: The system will not check for the range if a PMC passed hard edit validation before adjustment and now passes, for example, the PHA is in the Litigation program, PHA originally entered data for the Litigation program and enters data for the program again, the following will happen:

The Validation process will display no validation errors

A “Submit” button will appear at the bottom of the page as shown below. Click this button to submit the correction.
**Scenario 4**: The system will check for the range if a PMC failed hard edit validation before adjustment and fails again, the difference between the change is checked to determine if the difference between the old and new data is within an acceptable range. If the data falls within an acceptable range than no approval is needed. If the data is not within that acceptable range, then FA approval is required. For example, the PHA is not in the Family Unification program, PHA did originally enter data for the Family Unification program, fails hard edit validation but gets approved by FA, PHA is still not a part of the Family Unification program but enters data for the program, the following will happen:

- If the PMC passes range check validation no error message will display and no FA review and approval is required.
- If the PMC fails range check validation a range validation error message will appear under the appropriate field, as shown in the screen below:
• Click the “OK” button
When all errors have been properly explained in the COMMENTS box, please click on the “Submit” button to submit the correction.

4.1.3 Status Checking

To see a listing of all pending corrections for your PHA, click on the “Status Checking” link on the left-hand navigation menu of the VMS Home Page.
VMS Home Page

The following listing will appear, displaying all currently pending corrections, awaiting FA approval.

PMC Status – Pending Corrections

- The Record ID, which is composed of several other fields:
  - PHA number
  - Year and Month Reporting Period of the Submission that was corrected
  - Date and time that the correction was created / submitted
- The tab where the corrected field is located
- The name of the field that was corrected
- The new adjusted amount
- The current status of the PMC

The listing will be displayed in date/time descending order with the newest entry on top.

Tab 6: PHA Contact Information Tab

For the HUD user who links to the Submission Tab via the “View PHA Data Tabs” link, the Submission Tab does not allow an actual submission. It will allow you to review the validation history and the submission history, and to display and print the entire 5-tab submission data in one report. It will also allow you to print multiple iterations in a report by clicking the boxes next to the iterations you want, or just print the Submission screen.

The Validation History section will display Hard Edit validation for the form and PMC, a column on the far left identifies a Form or PMC Hard Edit.

The Submission History section will display the latest status per item for PMC.
Tab 7: Submission (HUR, HUE User)
5.2 Review and Approve Pending Hard Edits

The Pending Hard Edit Review and Approval process takes place when a PHA has submitted its monthly voucher data with Hard Edits included. A Hard Edit is a field which has been flagged by the Validation process as an error, but which has been explained by the PHA to be correct as is. It is the responsibility of the Financial Analyst to review the data and explanations, and to either approve or disapprove the submission.

5.2.1 To begin a review of the submitted data, log into the VMS system as an HUR role, and click the “Review and Approve Pending Hard Edits Tabs” link shown on the Home Page side menu.

You will be prompted to enter either the PHA number or select the appropriate State Code and then click on go to proceed.
5.2.2 After selecting the state code, choose the appropriate PHA from the dropdown list and click on go.

If you selected the state option, a second menu will appear with a drop-down list of PHAs within the selected state.

5.2.3 A List of Submissions for that PHA will display, showing the Status for each pending hard edit. Notice that the first entry has a status of “Pending Hard Edit Submission”, and is blank in the Financial Analyst column.

5.2.4 Click on a specific month-year link to open the pending hard edit. The 52681B form will be displayed in tabular format, and the FA can browse each tab validating the data entry. The first tabs contain the actual PHA data entry, plus any Hard Edit notations for fields that did not meet the validation edits. The last Tab will display “Review” rather than “Submission”. 
5.2.5 After reviewing each of the individual tabs, the FA will click on the “Review” tab button. This screen is now displayed in 2 segments. Section 1 displays the validation history, identifying the hard edit errors, tab and field name. Section 2 displays the Budget Authority Data used to validate the data for the reporting month.

Note: FA will be able to see edit messages on the Review and Approval page. All Hard Edit error messages have numbers e.g. HE001, HE023, for FAs to understand details of error messages see Appendix B

5.2.6 Clicking on the “Review” button at the bottom on the page, will display a page that will allow the Financial Analyst to approve or reject the submission, and enter comments into a comment section.
5.2.7 After reviewing the PHA submission, the FA will click on either the “Yes” or “No” radio button, and enter an explanation of the decision (if declined) in the “Comments” field. Once the information is completed, the user will click on the “Continue” button at the bottom of the page, to complete the review process. A System Messages will appear at the top of the review tab indicating that the decision was saved successfully, or if not, indicating an error in the process.

5.2.7.1 APPROVED SUBMISSION: An approval will trigger an approved email notification to be sent to the PHA Executive Director and the Point of Contact identified in VMS. An approval means the submission for that month is completed.

5.2.7.2 DISAPPROVED SUBMISSION: A disapproval of the hard edits will trigger a ‘disapproved email notification’ to be sent to the PHA Executive Director and the Point of Contact identified in VMS. The PHA will have to edit the original submission and resubmit the corrected data, and notify the FA of the resubmission.

*Note: FA will also be able to monitor open submissions using the Hard Edit report (See section 7.0 General Report section)*
5.2.8 By clicking on the “Continue” button, The Pending Submissions page will be re-displayed with the updated Status columns identifying the result of the pending hard edit review.

5.3 Review and Approve Prior Month Corrections

When you log on to the VMS system in an HUR role, the VMS Home page will look like this. In order to review and approve Prior Month Corrections (PMC) containing Pending Hard Edits, select one of the two options circled below: “HE Approval by PHA”, or “HE Approval by FA”.

5.3.1 PMC Approval by PHA

When you select “HE Approval by PHA” from the VMS Home Page, this screen will display, allowing you to select the PHA, either by keying in the PHA number directly in the upper section, or by selecting a State code from the drop-down menu and selecting the “Go” button.
If you selected the State code, a second selection screen will display, allowing you to choose the PHA from a drop-down list.

When you select the PHA, a screen like this appears, displaying all pending Prior Month Corrections for the PHA. Each pending PMC displays enough information for the Financial Analyst to review and approve or disapprove the Hard Edit. Click the appropriate FA Approval button in the upper right corner, and add your comments in the FA Comments field at the bottom right of the box.
If more than one pending PMC exists for the PHA, the screen will display each one in order, as the following example shows, with three PCs for the same PHA.
The Financial Analyst can approve / disapprove each PMC, and then click on the **Submit** button at bottom. If you prefer to leave the screen without approving / disapproving the Hard Edit, click on the **Return** button at bottom.

### 5.3.2 PMC Approval by FA

When you select “HE Approval by FA” from the VMS Home Page, this screen will display, allowing you to select the Financial Analyst (FA) name from a drop-down list. Select the FA name and click on the “Go” button.

![PMC FA Selection Menu](image)

When you select the FA name, a screen like this appears, displaying all pending Prior Month Corrections for the Financial Analyst.

![PMC Pending Corrections List by FA](image)

The name and Division of the Financial Analyst appear at the top of the page. Each line item displays the following fields:

- The Rec.#, a sequential number of line items within the listing
- The Record ID, which is composed of several other fields:
  - PHA number
  - Year and Month Reporting Period of the Submission that was corrected
  - Date and time that the correction was created / submitted
- The tab where the corrected field is located
- The name of the field that was corrected
- The new adjusted amount (Current Amount)
- The current status of the PMC
Click on the Record ID of the correction you want to review. The Hard Edit Approval page will appear, as below.

5.3.3 PMC Approval / Disapproval Screen
This screen, when selected by the FA, shows the PMC corrected field and the hard edit information. It also has an Approve / Disapprove section and a comment field for you to explain the reason for approving or disapproving the pending PMC Hard Edit.

Select the Approve or Disapprove radio button at the bottom of the page, and if appropriate, fill in a comment in the FA Comments field. Then select one of the two buttons at the bottom of the page: “Process and Return” or “Reset”.

If you select “Reset”, the approval / disapproval buttons will be blanked out, as will any comment you wrote. If you return to the list of PMC pending HE Corrections, without further action, you will see that this correction still has a status of “Pending”.

If you select “Process and Return”, you will return to the list of PMC pending HE Corrections, and you will see that the status of this PMC Pending HE has changed to either “Disapproved PMC Hard Edit” or “Approved PMC Hard Edit”. If there are no additional pending PMCs with Hard Edits, you will see this screen:
5.3.4 PMC Approval / Disapproval Email to PHA

When you approve or disapprove a PMC Pending Hard Edit, the system will automatically send an email to the PHA Point of Contact, notifying them of the Approval / Disapproval. The “From” address of the email will be the FA approving / disapproving the PMC Hard Edit. The PHA can respond through normal email channels, not via the VMS system.

5.3.5 PMC Daily Pending Report via Email

Each Financial Analyst receives a daily PDF report of all PMC Pending Hard Edit records, by FA. The report comes by email, generated by the system. Since it is a PDF format, you cannot view the individual correction screens by clicking on the line items.
The Record ID, which is composed of several other fields:
  - PHA number
  - Year and Month Reporting Period of the Submission that was corrected
  - Date and time that the correction was created / submitted

- The Division of the PMC correction
- The Financial Analyst associated with the PHA
- The tab where the corrected field is located
- The name of the field that was corrected
- The new adjusted amount
- The current status of the PMC

The Following report is produced from the above selection.

Non Submitter Data Table Report

The data table report allows the user to view non-submitter data specific to a certain state and time period. The data appears as shown in the above table, with an “N” displayed for those months the HA was in non-submitter status. “ ‘N’ indicates data not submitted. ‘E’ indicates the PHA is excluded for that month. Blank cell indicates data submitted.”
### 7.2 VMS Data Collection Report

When you click on the “VMS Data Collection Report” link on the Report Selection menu, if you are authorized to see reports for more than one PHA, the “Enter PHA Code or Select PHA State” page is displayed, otherwise the system will display the VMS Data Collection Report Home Page.

After choosing the state code above, using the drop down list displayed below, select the appropriate PHA.

The following parameter selection page displays, allowing you to set the Date Range (up to 12 months) and select the type of Data Collection Report to generate:

When identified by the Business Office additional fields can be modified to accept zero's (0) and negative numbers.

> Vouchers administered on behalf of another PHA under the portability provisions, and for which HAP is reimbursed to your PHA, should not be reported by you as part of your leasing – they will be reported by the PHA that is paying the HAP. These are commonly referred to as “Port-Ins.” Likewise, the HAP expenses associated with these port-in vouchers, which have or will be reimbursed to you by the other PHA, should not be reported as part of your HAP expenses. They will be reported by the PHA that is paying the HAP. There is a separate section in VMS called “Portables Vouchers Administered” with line items for reporting “Portable Units Administered” and “HAP for Portable Units Administered.” These are the fields for reporting those vouchers for which hap is reimbursed to your PHA.

> A voucher under lease must be reported in one and only one main category. Vouchers reported under the sub-categories “New Homeowners This Month” and “Enhanced Vouchers” are also reported under the main categories of “Homeownership” and “Tenant Protection”, respectively. "If a leased voucher could appropriately be reported in more than one category, it should be reported in the category that reflects how the participant initially qualified for the voucher. However, if a participant initially qualified under “All Other Vouchers” and later qualified under another category, that participant would be reported under the new category. Example 1: A participant initially qualified for a voucher under “All Other Vouchers” and later entered the Homeownership program. That participant would be reported under Homeownership. Example 2: A participant qualified for a voucher under the VASH or NED program. That participant later ported. The PHA that initially qualified the participant under VASH or NED would report that voucher as VASH or NED rather than Port Vouchers Paid. (Please see VASH definition below under DEFINITIONS for exception if a VASH family no longer needs case management and is moved out of the VASH and onto the PHA’s regular voucher program, in accordance with Notice PIH 2011-53. In addition, please add information in the "Comments" field to indicate the number of vouchers reported and corresponding expenses on the VASH, NED, FUP, etc. lines that have ported but are not reported on the Portable Vouchers Paid (Port-Out) line."

> Effective with the April 2016 submission, RAD Component 1 and 2 vouchers under lease should be reported in the appropriate RAD 1 and 2 fields and should no longer be reported in the Tenant Protection field.

> All HAP expense data is to be reported in the voucher categories as of the first day of the month. HAP expenses are entered under the month for which they are applicable, regardless of the month in which they are actually paid. HAP expenses are only entered after the payment has been made. A separate line item on the Voucher UML and HAP tab, called "Voucher HAP Expenses for New Contracts Effective After the First of the Month" collects HAP costs incurred for new HAP contracts effective after the first of the month. These costs are not reported elsewhere. PHA should include as HAP in the appropriate categories any amounts expended for utility reimbursements. For RAD 1
and/or VASH, the PHA should report ALL HAP expenses, even the prorated HAP expenses, in the
RAD 1 and/or VASH field as appropriate rather than reporting the prorated HAP expenses on the
line for “All Voucher HAP Expenses AFTER the First of the Month”. HAP expenses incurred after
the first of the month for the Mainstream program should NOT be reported in this field but should be
reported in the Mainstream field. "Note, RAD 2 HAP expenses incurred after the first of the month
SHOULD be reported in this field".

> Contracts on hold are not reported as units leased as of the first day of the month. Contracts on
hold are defined as a contract that has been entered into the PHA’s system but for which the PHA is
awaiting a landlord signature. Units are not reported as under lease until the HAP contract is
negotiated. Once the contract is signed, if the monthly submission is completed, the PHA should
enter such units as a Prior Month Correction. If not signed within 60 days the HAP contract is void.
No HAP may be paid unless the HAP contract has been signed. Abated units are units that are
currently under lease but for which the HAP is being withheld for specific reasons such as the unit
failing to pass HQS inspection. The PHA should enter the UML during the abatement period. The
unit is under contract. If for some reason the abatement is reversed then the PHA can enter a Prior
Month Correction for HAP for those months attributable to the abatement period. Failure by the PHA
to report the abated UML will skew the leasing and per unit costs for this agency.

> Mainstream – In VMS, there are specific lines provided for Mainstream Units Leased and HAP
Expenses only. The Mainstream program is separate and distinct from the regular HCV program
and these values are not included in the Voucher Leasing and HAP totals reported in any other field.
If a value greater than zero (0) was entered in any field under “Voucher Units”, a value greater than
zero (0) must be entered in the corresponding “Voucher HAP Expenses” field.

> Question Mark (?) - For every field containing this symbol, a pop up description of the data entry
required for the field, or an explanation of the field will be provided. This field description appears
only once for the many occurrences of the (?) Box symbol.

> Leasing and HAP expense data for each category of voucher are now reported on the same line.

> Fields that have been grayed out are prefilled by HUD and are not editable. Data used for these
fields reflect the current system information, and are automatically updated when changes are made
to prior months.

> The PHA must report UMLs for “Zero HAP” Units. These are units for which the HAP has been
calculated to be $0. The units are to be reported in the same voucher category as they would if the
HAP was a positive dollar amount. HCV regulations state that a HAP contract may remain in effect
for 180 consecutive days while at zero HAP. Thus in VMS, the PHA must report a UML for the “Zero
HAP” unit because a contract is still in effect. After 180 days at $0 HAP, the HAP contract terminates
automatically. Therefore, the PHA would no longer report a UML for that unit. Refer to 24 CFR
982.455 (Automatic Termination of HAP contracts). EXCEPTION: Tenants who were in place at the
time of a RAD conversion and have $0 HAP should be reported in the VMS as long as the family is
in place. The 180 day limit does not apply to these tenants. Tenants leased after the conversion are
limited to the 180 day limit for $0 HAP as described above.

Financial Status – as referenced in PIH Notice 2010-16

HCV- Unrestricted Net Position (UNP) as of the Last Day of the Month

Note: Regardless of the system (VMS or FASS-PH) in which UNA is being reported, the PHA should report its UNP amount as defined by GAAP – “the difference between the HCV program’s asset and liabilities that do not meet the definition of restricted net assets or invested in capital assets net of related debt.” In essence, HUD is requesting information on net liquid or near liquid resources that can be readily used for the administration of the program, as this definition does not include net assets related to fixed assets (see OPEB liability exception below as related to liquid or near liquid resources).

UNP is equal to the cumulative total of Administrative Fee (AF) revenue minus total HCV administrative expenses and any UNP used for housing assistance payments (HAP) or other activities for Section 8 Tenant Based related purposes. UNP (referred to as “Administrative Fee Reserve” in the HCV program regulations) is the amount by which administrative fees paid by HUD for a PHA fiscal year exceeded the PHA administrative expenses for the fiscal year, plus the portion of fraud recovery revenue collected in cash that is returned to the UNP account (see Note 1), any interest earned on AF reserve (see 24 CFR 982.155(a)) and up to $500 per calendar year in interest and investment income earned on HAP and RNP funds, and the net Port-In reimbursement revenue (in excess of Port-In HAP expenses) received from initial Housing Authorities for unabsorbed Port-Ins. This means that the total AF revenue used to calculate the UNP reported in this field does not include excess AF received during the current PHA FY because excess AF received does not accumulate to the UNP until the end of the PHA’s FY. The excess fees received during the PHA’s current FY will not be reported in the UNP field until the end of the last month of the PHA’s fiscal year. The monthly amount reported is the UNP balance at the beginning of the year plus any interest earned and fraud recovery allocated to the UNP account for the months in the current year. PHAs must include in this field their pre-2005 AF balance, formerly referred to as their operating reserve (also known as their AF reserve). PHAs should not report any unexpended FSS Coordinator funds in the UNP field. FSS coordinator funds from grants awarded prior to Federal Fiscal Year 2014 (which were made available to PHA’s beginning in January 2015) can only be spent on FSS coordinator expenses, are not available to support other Section 8 program expenses, and therefore must be recorded in the PHAs financial records as an unearned revenue until spent on FSS coordinator expenses rather than being reported as part of the UNP. FSS coordinator grants awarded in FFY 2014 and future years are treated as a separate program and reported in CFDA 14.896 in FASS. The grant revenue for these awards should not be added to the HCV equity. For guidance on eligible use of AF and UNP funds please reference PIH Notice 2015-17 issued October 6, 2015. This document provides additional information regarding the allowable use of AF earned during the PHA’s current fiscal year and the use of available UNP (depending on the source year) and also provides information regarding VMS reporting. NOTE: The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS forfeitures funds can be retained by the PHA and used for eligible FSS expenses as provided in the rule. The forfeited funds shall not be reported in HCV UNP.

Accrued Pension and Other Post Employment Benefits (OPEB) Exception:

Any Accrued Pension and OPEB liability must be included in the UNP balance as reported in the VMS even though this unfunded liability may cause the UNP balance to...
reflect a ‘false’ negative balance. It is suggested the PHA insert a comment in the ‘comments’
section to reflect the portion of the UNP balance that is attributable to the unfunded pension
and OPEB liability and provide the actual ‘cash equivalent’ UNP balance (the UNP “should
be” balance if the pension and OPEB liability were removed). Reference GASB 74 (which
parallels GASB 67 and replaces GASB 68 ) and GASB 75 (which replaces GASB 45.

HCV- Restricted Net Position (RNP) as of the Last Day of the Month: RNP is the amount of
Housing Assistance Payments (HAP) Equity for the HCV program. It is equal to the Position (RNP)
as cumulative sum of total HAP revenues received minus the total cumulative HAP expenses for
eligible unit months that have been paid and is calculated on a monthly basis. Total HAP expense
should include of the Last Day of expenses for regular vouchers and for HCV special purpose
vouchers including VASH, Non-Elderly Disabled the Month (NED), Family Unification Program
(FUP), HOPE VI, One Year Mainstream (MS1), Litigation, RAD Component 1, RAD Component 2,
Tenant Protection (TP) and Homeownership, as well as expenses for HCV - FSS Escrow Deposits.
Total HAP revenue is defined as total HAP disbursements received during the month including the
portion of fraud recovery revenue collected in cash that is returned to the HAP equity (see Note 1)
and FSS escrow forfeitures. NOTE: The Federal Register, Vol. 87, No. 95, Published May 17, 2022,
included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022
FSS escrow forfeitures shall not be reported in the HCV RNP as those funds are no longer returned
to the HCV program but will be retained by the PHA and used for eligible FSS expenses only as
provided in the rule. Excess funds received for the Mainstream program shall not be included in this
field.

Interest income earned on excess HAP and RNP balances should not be included in the
RNP. The allowable retention of interest funds should be reported in the PHA’s UNP balance as
described in greater detail in the

UNP field definition. Negative balances must be reported on a monthly basis and carried
through the fiscal year-end or calendar year-end, as applicable, until cash revenue is received (from
any allowable source) to clear the negative balance. However, if the PHA has a negative balance at
the end of the calendar year and no available program reserves to cover the shortage, then the
negative amount should not carry over into the subsequent calendar year reporting (see Note 2).
This results in the PHA starting January of the following year with a zero balance. Instead, the PHA
must transfer HCV UNP or other non-federal funds to the HCV RNP account to cover the negative
balance in excess of the HUD-held reserves balance. Please refer to PIH Notice 2013-28 regarding
the allowable use of outside sources of funds. The PHA is responsible for operating its program
within the amount of funding provided. Negative amounts reported may result in a HUD review and
corrective action may be warranted if it is determined the PHA expended any portion of its HAP
funding on non-HAP eligible expenses.

NOTE 1: Fraud Recovery – PHAs should not include fraud receivable revenue not yet
collected in the VMS reporting as those funds are not available for the PHA to use for HAP
expenses. The amount of fraud recovery sent to the RNP account is usually 50% of the
amount collected, but may be less depending on the

PHA’s situation. See 24 CFR §792.202 for more on the amounts of fraud recovery a PHA
may retain in its UNP and the portion of fraud recovery that must be returned to the HCV
Program by inclusion in the RNP balance.

NOTE 2: Reporting Negative RNP – Reporting negative RNP balances in the VMS at the end
of the PHA’s fiscal year end is acceptable. Reporting negative balances in the VMS provides
reviewers the most accurate financial status of the PHA and is an indication that an additional
disbursement may be needed to support HAP expenses. If the PHA reflects a negative
balance at FYE, the PHA should confirm if there are available HUD-HELD Reserves to
support the shortage. If so, the PHA should record an Accounts Receivable from HUD for the amount that can be supported. The PHA should transfer UNP to cover the remaining shortage.

GAAP reporting requirements direct PHAs to report zero in FASS when their RNP balance is negative at fiscal year-end. This can result in a discrepancy between the two systems although the information is accurate based on current reporting requirements.

MTW PHAs are required to track and report unspent HAP funds, transferred to the single account, in the VMS under the RNP. These are HAP funds transferred to the single account minus HAP and non-HAP expenses allowable under their MTW agreements. The tracking and reporting of HCV originated HAP that has been transferred to the single account but remains unspent will facilitate monitoring budget utilization and establishing operating reserves to be protected from offsets and excess reserves that could be subject to Congressional mandated offsets and/or offset for reallocation as described by the 2016 Appropriations Act or future requirements.

Note that for unaudited and audited FASS reported financial statements, unspent HAP funds that were transferred to the single account will continue to be reported as unrestricted net position (UNP). This results in a known discrepancy between VMS and FASS reporting but is necessary to ensure accurate tracking and reporting of unspent HAP funds.

PHAs/Users should refer to PIH Notice 2015-17 for additional information related to the proper calculation and reporting of RNP balances in the VMS.

HCV- Cash/Investments as of the last day of the month – Voucher Program only:
Cash/Investments as of the last day of the month are the total amount of HAP and AF cash and investments for the HCV program. Amounts reported include all cash and investments as they relate to UNP and RNP balances as of the last PHA FYE, as well as any additional funds that may have been reported in the UNP and RNP fields through the month being reported. This total amount must include only those HAP and AF funds (including any interest or revenue derived) received for the HCV program, including interest earned, fraud recovery and Family Self-Sufficiency (FSS) forfeitures. NOTE: The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS escrow forfeitures shall not be reported in the HCV Cash/Investments field as those funds can be retained by the PHA and used only for eligible FSS expenses as provided in the rule. Funds received for an FSS Coordinator and not expensed must not be included. Cash and investments for FSS escrows must not be included, nor should any cash or investments representing other current liabilities to the PHA, such as outstanding checks and "accrued compensated absences – current period" as these funds are already restricted for specific purposes and are not available for use to pay HAP or other administrative costs. MTW PHAs should report their financial information as required in their MTW Agreement.

Mainstream - Unrestricted Net Position Funds (UNP) as of the Last Day of the Month:
Note: Regardless of the system (VMS or FASS-PH) in which UNP is being reported, the PHA should report its UNP amount as defined by GAAP – “the difference between the Mainstream program’s asset and liabilities that do not meet the definition of restricted net assets or invested in capital assets net of related debt.” In essence, HUD is requesting information on net liquid or near liquid resources that can be readily used for the administration of the program, as this definition does not include net assets related to fixed assets (see OPEB liability exception below as related to liquid or near liquid resources).
UNP is equal to the cumulative total of Administrative Fee (AF) revenue minus total Mainstream administrative expenses and any UNP used for housing assistance payments (HAP) or other activities for Section 8 Tenant Based related purposes. UNP (referred to as “Administrative Fee Reserve” in the program regulations) is the amount by which administrative fees paid by HUD for a PHA fiscal year exceeded the PHA administrative expenses for the fiscal year, plus the portion of fraud recovery revenue collected in cash that is returned to the UNP account (see Note 1), any interest earned on AF reserve (see 24 CFR 982.155(a)) and up to $500 per calendar year in interest and investment income earned on HAP and RNP funds, and the net Port-In reimbursement revenue (in excess of Port-In HAP expenses) received from initial Housing Authorities for unabsorbed Port-Ins. This means that the total AF revenue used to calculate the UNP reported in this field does not include excess AF received during the current PHA FY because excess AF received does not accumulate to the UNP until the end of the PHA’s FY. The excess fees received during the PHA’s current FY will not be reported in the UNP field until the end of the last month of the PHA’s fiscal year. The monthly amount reported is the UNP balance at the beginning of the year plus any interest earned and fraud recovery allocated to the UNP account for the months in the current year. PHAs should not report any unexpended FSS Coordinator funds in the UNP field. For guidance on eligible use of AF and UNP funds please reference PIH Notice 2015-17 issued October 6, 2015. This document provides additional information regarding the allowable use of AF earned during the PHA’s current fiscal year and the use of available UNP (depending on the source year) and also provides information regarding VMS reporting.

NOTE: The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS forfeitures funds can be retained by the PHA and used for eligible FSS expenses as provided in the rule. The forfeited funds shall not be reported in Mainstream UNP.

Accrued Pension and Other Post Employment Benefits (OPEB) Exception:

Any Accrued Pension and OPEB liability must be included in the UNP balance as reported in the VMS even though this unfunded liability may cause the UNP balance to reflect a ‘false’ negative balance. It is suggested the PHA insert a comment in the ‘comments’ section to reflect the portion of the UNP balance that is attributable to the unfunded pension and OPEB liability and provide the actual ‘cash equivalent’ UNP balance (the UNP “should be” balance if the pension and OPEB liability were removed). Reference GASB 74 (which parallels GASB 67 and replaces GASB 68 ) and GASB 75 (which replaces GASB 45).

Mainstream - Restricted Net Position Funds (RNP) as of the Last Day of the Month: RNP is the amount of Housing Assistance Payments (HAP) Equity for the Mainstream program. It is equal to the Position (RNP) as cumulative sum of total HAP revenues received minus the total cumulative HAP expenses for eligible unit months that have been paid and is calculated on a monthly basis. Total HAP expense should include of the Last Day of expenses as well as expenses for FSS escrow deposits. Total HAP revenue is defined as total HAP disbursements received during the month including the portion of fraud recovery revenue collected in cash that is returned to the HAP equity (see Note 1) and FSS escrow forfeitures. NOTE: The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS escrow forfeitures shall not be reported in the Mainstream RNP as those funds are no longer returned to the Mainstream program but will be retained by the PHA and used for eligible FSS expenses only as provided in the rule.

Interest income earned on excess Mainstream HAP and RNP balances should not be included in the RNP. The allowable retention of interest funds should be reported in the PHA’s UNP balance as described in greater detail in the UNP field definition. Negative balances must be reported on a monthly basis and carried through the fiscal year-end or calendar year-end, as applicable, until cash revenue is received (from any allowable source) to clear the negative balance.

However, if the PHA has a negative balance at the end of the calendar year and no available program reserves to cover the shortage, then the negative amount should not carry over into the subsequent calendar year reporting (see Note 2). This results in the PHA starting January of the following year with a zero balance. Instead, the PHA must transfer Mainstream UNP or other non-federal funds to the Mainstream RNP account to cover the negative balance in excess of the HUD-held reserves balance. Please refer to PIH Notice 2013-28 regarding the allowable use of outside sources of funds. The PHA is responsible for operating its program within the amount of funding provided. Negative amounts reported may result in a HUD review and corrective action may be warranted if it is determined the PHA expended any portion of its HAP funding on non-HAP eligible expenses.

NOTE 1: Fraud Recovery – PHAs should not include fraud receivable revenue not yet collected in the VMS reporting as those funds are not available for the PHA to use for HAP expenses. The amount of fraud recovery sent to the RNP account is usually 50% of the amount collected, but may be less depending on the PHA’s situation. See 24 CFR §792.202 for more on the amounts of fraud recovery a PHA may retain in its UNP and the portion of fraud recovery that must be returned to the HCV Program by inclusion in the RNP balance.

NOTE 2: Reporting Negative RNP – Reporting negative RNP balances in the VMS at the end of the PHA’s fiscal year end is acceptable. Reporting negative balances in the VMS provides reviewers the most accurate financial status of the PHA and is an indication that an additional disbursement may be needed to support HAP expenses. If the PHA reflects a negative balance at FYE, the PHA should confirm if there are available HUD-HELD Reserves to support the shortage. If so, the PHA should record an Accounts Receivable from HUD for the amount that can be supported. The PHA should transfer UNP to cover the remaining shortage.

GAAP reporting requirements direct PHAs to report zero in FASS when their RNP balance is negative at fiscal year-end. This can result in a discrepancy between the two systems although the information is accurate based on current reporting requirements.

PHAs/Users should refer to PIH Notice 2015-17 for additional information related to the proper calculation and reporting of RNP balances in the VMS.

Mainstream - Cash/Investments as of the Last Day of the Month: Cash/Investments as of the last day of the month are the total amount of Mainstream HAP and Mainstream AF cash and investments for the Mainstream program. Amounts reported include all cash and investments as they relate to Mainstream UNP and Mainstream RNP balances as of the last PHA FYE, as well as any additional funds that may have been reported in the UNP and RNP fields through the month being reported. This total amount must include only those HAP and AF funds (including any interest or revenue derived) received for the Mainstream program, including interest earned, fraud recovery, and Family Self Sufficiency (FSS) forfeitures. ### Emergency Housing Vouchers 1 – Service Fee - Other Eligible Expenses:
Amount of Service Fee Expenses incurred for Other Eligible expenses that are not reported in any other Service Fee expense category. Please refer to PIH Notice 2021-15 for additional guidance on the eligible uses for these fees.

### Emergency Housing 1 - FSS Escrow Deposits:
Deposits to Emergency Housing Voucher FSS participants escrow accounts made for this month.

### Emergency Housing Vouchers 1 - FSS Escrow Forfeitures This Month:
Total value of Emergency Housing Voucher FSS escrow forfeited by tenants during this month. Forfeitures occur when a tenant violates or fails to complete the FSS contract. This amount should not be
Emergency Housing Voucher UML and HAP

deducted from HAP expenses as reported for the month in the Emergency Housing Voucher HAP field.

Emergency Housing Vouchers 1 - Fraud Recovery Total Collected This Month: Total EHP dollar amount recouped by the HA as fraud recoveries during the month is applied to the EHP RNP account. This consists of the lesser of one-half the amount recovered or the total recovery minus the costs incurred by the PHA in the recovery. This amount should NOT be deducted from HAP expenses as reported for the month in the HAP expenses field. NOTE: Total dollar amount recouped "is cash collected and not revenue recorded".

Emergency Housing Vouchers 1 - Unrestricted Net Position Funds (UNP) as of the Last Day of the Month: Note: Regardless of the system (VMS or FASS-PH) in which UNP is being reported, the PHA should report its EHV UNP amount as defined by GAAP – “the difference between the EHV program’s asset and liabilities that do not meet the definition of restricted net assets or invested in capital assets net of related debt.” In essence, HUD is requesting information on net liquid or near liquid resources that can be readily used for the administration of the program, as this definition does not include net assets related to fixed assets (see OPEB liability exception below as related to liquid or near liquid resources).

UNP is equal to the cumulative total of Administrative Fee (AF) revenue for the EHV program which includes Ongoing Administrative Fees, Preliminary Fees and Placement/Issuance Fees (Service Fees are NOT included) minus total EHV administrative expenses and any UNP used for EHV housing assistance payments (HAP). EHV UNP is the amount by which administrative fees paid by HUD for a PHA fiscal year exceeded the PHA administrative expenses for the fiscal year, plus the portion of fraud recovery revenue collected in cash that is returned to the EHV UNP account (see Note 1), any interest earned on AF reserve (see 24 CFR 982.155(a)) and up to $500 per calendar year in interest and investment income earned on HAP and RNP funds, and the net Port-In reimbursement revenue (in excess of Port-In HAP expenses) received from initial Housing Authorities for unabsorbed Port-Ins. This means that the total AF revenue used to calculate the UNP reported in this field does not include excess AF received during the current PHA FY because excess AF received does not accumulate to the UNP until the end of the PHA’s FY. The excess fees received during the PHA’s current FY will not be reported in the UNP field until the end of the last month of the PHA’s fiscal year. The monthly amount reported is the UNP balance at the beginning of the year plus any interest earned and fraud recovery allocated to the UNP account for the months in the current year. For guidance on eligible use of EHV Fees, please reference PIH2021-20 issued May 5, 2021 and PIH Notice 2021-25 issued August 20, 2021.

Accrued Pension and Other Post-Employment Benefits (OPEB) Exception: Any Accrued Pension and OPEB liability must be included in the UNP balance as reported in the VMS even though this unfunded liability may cause the UNP balance to reflect a ‘false’ negative balance. It is suggested the PHA insert a comment in the ‘comments’ section to reflect the portion of the UNP balance that is attributable to the unfunded pension and OPEB liability and provide the actual ‘cash equivalent’ UNP balance (the UNP “should be” balance if the pension and OPEB liability were removed). Reference GASB 74 (which parallels GASB 67 and replaces GASB 68) and GASB 75 (which replaces GASB 45).

Emergency Housing Vouchers 1 - Restricted Net Position Funds (RNP) as of the Last Day of the Month: RNP is the amount of Housing Assistance Payments (HAP) Equity for the Emergency Housing Voucher (EHV). It is equal to the cumulative sum of total HAP revenues received minus the total cumulative HAP expenses for eligible unit months that have been paid and is calculated on a monthly basis. Total expenses include HCV - FSS Escrow Deposits. Total HAP revenue is defined as total HAP disbursements received during the month including the portion of fraud recovery revenue collected in cash that is returned to the HAP equity (see Note) and HCV - FSS Escrow Forfeitures This Month. Interest income earned on excess EHV HAP and RNP balances should not be included in the RNP. The allowable retention of interest funds should be reported in the PHA’s EHV UNP balance as described in greater detail in the UNP field definition. Negative balances must be reported in VMS on a monthly basis and carried through the fiscal year-
Emergency Housing Voucher UML and HAP

end or calendar year-end, as applicable, until cash revenue is received (from any allowable source) to clear the negative balance.

**NOTE:** Fraud Recovery – PHAs should not include fraud receivable revenue not yet collected in the VMS reporting as those funds are not available for the PHA to use for HAP expenses. The amount of fraud recovery sent to the RNP account is usually 50% of the amount collected but may be less depending on the PHA’s situation. See 24 CFR §792.202 for more on the amounts of fraud recovery a PHA may retain in its UNP and the portion of fraud recovery that must be returned to the HCV Program by inclusion in the RNP balance.

**Emergency Housing Vouchers 1 - Cash/Investment as of the Last Day of the Month:**
Cash/Investments as of the last day of the month are the total amount of EHV HAP and AF cash and investments for the EHV program. Amounts reported include all cash and investments as they relate to EHV UNP and EHV RNP balances as of the last PHA FYE, as well as any additional funds that may have been reported in the EHV UNP and EHV RNP fields through the month being reported. This total amount must include only those EHV HAP and EHV AF (including ongoing fees, preliminary fees, service fees, and placement/issuance fees) funds received for the EHV program, including interest earned, fraud recovery and Family Self-Sufficiency (FSS) forfeitures. Cash and investments for HCV - FSS Escrow Deposits/accounts must not be included, nor should any cash or investments representing other current liabilities to the PHA, such as outstanding checks and “accrued compensated absences – current period” as these funds are already restricted for specific purposes and are not available for use to pay EHV HAP or other administrative costs. These reporting requirements are applicable to MTW PHAs as well.
