Jun	8,054,947	5.95	2.10	3.62	0.42	0.47	4.50

EOM = end of month.

^a The 90-day category includes all loans that are at least 3 months delinquent excluding those loans in-foreclosure or in-bankruptcy processing. Included in the delinquency counts are loans under active consideration for loss mitigation foreclosure avoidance.^b Exceptions are counted separately from delinquencies, regardless of the length of the delinquency period.^c Serious delinquency rates are the sum of 90+ days delinquencies, plus in-foreclosures and in-bankruptcies. Due to differing reporting methodologies, the delinquency and foreclosure numbers shown above may not fully reconcile with other FHA reporting areas.

SOURCE: U.S. Department of HUD/FHA, July 2025.

Table 2. New 90+ Day Delinquencies by Reason for Delinquency

^a Includes the COVID-19 Pandemic.^b Includes neighborhood problems, abandonment of property, distant employment transfer, property problems, inability to sell or rent property, military service, business failure, casualty loss, energy-environment cost, servicing problems, payment adjustment, payment dispute, transfer of ownership pending, fraud and incarceration. Due to late reporting by a large servicer, the delinquency rates for February 2021 are likely understated.

IIF = insurance in force.

^a For each subpanel, the loan shares add to 100%. However, in some of the subpanels, the total loans in the analysis do not add to 100% of IIF. For example, the IIF shares for refinance loans add to 100% of refinance loans. Streamline refinance loans are not included in the Credit Score Range analysis; the IIF shares in that panel, add to 100% of fully-underwritten loans.

^b Includes all loans 30 or more days past due, including those in bankruptcy or foreclosure.

^c Includes all loans 90+ days past due, in-bankruptcy and in-foreclosure cases.

^d Credit score reporting began in May 2004 but was not mandatory until July 2008. Streamline Refinance loans do not require credit score reporting. Due to differing reporting methodologies, the delinquency and foreclosure numbers shown above may not fully reconcile with other FHA reporting areas.

SOURCE: U.S. Department of HUD/FHA, July 2025.

^a This is the number of claims paid by HUD. These are nearly all for completed foreclosure actions.

^b The six-month moving average of foreclosure starts is presented here to smooth out variations in actual starts each month.

^c An annualized foreclosure rate takes the monthly foreclosure claim rate and transforms that into its annual equivalence. That is, if the same foreclosure claim rate continued for 12 straight months, then the figure is the final annual foreclosure rate result as a percentage of beginning insurance-in-force. Due to differing reporting methodologies, the delinquency and foreclosure numbers shown above may not fully reconcile with other FHA reporting areas.

Figure 1. Failure Rate by Fiscal Year

NOTES: A loan that is in foreclosure processing or has gone to claim is deemed to be a 'failure' for this illustration. The failure rate is the sum of Cumulative Claim Rate and Cumulative Active Foreclosure Rate divided by Total Loans.
