SUMMARY OF RESOURCES

(Dollars in Thousands)

	Enacted/ Requested	Carryover	Supplemental/ Rescission	Total Resources	Obligations	Net Outlays
2022 Appropriation	739,808	113,338	(1,652)	851,494	493,970	253,447
2023 Appropriation	354,304	357,524	21,974	733,802	633,568	354,978
2024 President's Budget	324,000	100,234	1,767	426,001	334,300	505,956
Change from 2023	(30,304)	(257,290)	(20,207)	(307,801)	(299,268)	150,978

a/ 2022 Total Resources include sequestered funds (5.7% of budget authority, or \$42.169 million) made temporarily unavailable per the OMB Report to the Joint Congress on the Joint Reductions for Fiscal Year 2022, partially offset by \$40.516 million sequestered in 2021 that became available in 2022.

b/ 2023 Total Resources include sequestered funds (5.7% of budget authority, or \$20.195 million) made temporarily unavailable per the OMB Report to the Joint Congress on the Joint Reductions for Fiscal Year 2023, partially offset by \$42.169 million in 2022 that became available in 2023.

c/ 2024 Total Resources include \$20.235 million previously sequestered in 2023, partially offset by \$18.468 million (or 5.7% estimate 2024 budget authority per extension of sequestration until 2031).

d/ 2022 Carryover includes \$7.5 million in funds recaptured in 2022.

e/ The numbers included in the Summary of Resources table reflect actual collections for 2023 budget authority, which may generate differences from the 2024 Budget Appendix because of the timing of the receipts that fund this account.

PROGRAM PURPOSE

The Housing Trust Fund (HTF) is a mandatory program authorized by the Housing and Economic Recovery Act of 2008. This Act directed the account to be funded from assessments from the Federal National Mortgage Association (Fannie Mae) and the Federal Home Loan Mortgage Corporation (Freddie Mac). This account is a formula-based program for the States and U.S. Territories that finances the development, rehabilitation, and preservation of affordable housing for extremely low-income and very low-income families.

BUDGET OVERVIEW

The 2024 President's Budget estimates \$324 million will be provided to this account from assessments from Freddie Mac and Fannie Mae.

It also supports legislative proposals that would authorize an environmental review process for Housing Trust Fund projects, align the program with Davis-Bacon wage requirements required in other programs, and eliminate the two-year statutory commitment requirement.

This program aligns with HUD 2022-2026 Strategic Objective 2A: *Increase the Supply of Housing*.

JUSTIFICATION

The Housing Trust Fund program is critically needed funding for affordable housing as documented by HUD's survey results in the *Worst Case Housing Needs: 2021 Report to Congress*, which states that in 2019, 7.7 million households had worst case needs.¹ Most of these households had extremely low incomes (74 percent or 5.7 million) and 97.5 percent had severe housing cost burdens. These are

¹ <https://www.huduser.gov/portal/publications/Worst-Case-Housing-Needs-2021.html>.

households that do not receive government housing assistance and pay more than one-half of their incomes toward rent, and/or those that live in severely inadequate conditions.

The ratio of affordable and available units to very low-income renters followed a downward path from 2009 to 2017. After 2017, there was some improvement, with the ratio increasing from 59 units per 100 renter households in 2017 to 62 units per 100 renter households in 2019. For extremely low-income households – the target population of this program – the ratio of affordable and available units did not change: there were only 40 affordable and available units for every 100 extremely low-income renter households in both 2017 and 2019.

The Housing Trust Fund program addresses Administration priorities through its support of underserved communities and by ensuring access to and increasing production of affordable housing through grantee discretion to determine the type and location of affordable housing to fill the need of the most vulnerable populations within their communities. Key features of the program are:

- **Income Targeting:** At least 75 percent of the funds must be used for extremely low-income families, or families with incomes at or below the poverty line (whichever is greater), unless the amount available for allocation is below \$1 billion, at which point 100 percent of the funds must be used for extremely low-income families.
- **Period of Affordability:** Housing Trust Fund projects have a 30-year period of affordability.
- **Eligible and Prohibited Activities:** Eligible activities include: production, preservation, and rehabilitation of affordable rental housing and affordable housing for homeownership through the acquisition, new construction, reconstruction, or rehabilitation of non-luxury housing with suitable amenities, including real property acquisition, site improvements, conversion, demolition, financing costs, relocation expenses, operating costs of program-assisted rental housing, and reasonable administrative and planning costs.

Equity

The recent economic effects of the COVID-19 pandemic are not evenly distributed across the population. Households that were already experiencing housing affordability or stability issues are more likely than other households to hold jobs affected by public health and social distancing measures. The pandemic exacerbated these affordability and stability issues for these households. Federal, State, and local eviction moratoria and appropriation of substantial resources for rental assistance has lessened the pandemic's impact on these existing impediments. In the intermediate and long-term, however, the nation must prioritize expansion of the quality housing stock available and affordable for households with worst-case housing needs. Through its deep income targeting and 30-year minimum affordability requirements, this program is an effective vehicle for delivering that investment.

The Housing Trust Fund helps to strengthen and broaden the Federal housing safety net for people in need by increasing production of, and access to, affordable housing for the nation's most vulnerable populations. At the funding level of \$324 million, 100 percent of funds must be used for extremely low-income families. This deep targeting ensures the priority of this program is helping those with the greatest needs.

Funding Impact

Housing Trust Fund program funding of \$324 million will fund the new construction of approximately 2,639 rental units across the country, assuming a per-unit investment of \$110,500, and will leverage approximately \$3.16 billion of other private and public funds necessary to provide affordable rental housing for extremely low-income households over time. It would also preserve or

HOUSING TRUST FUND

create approximately 5,790 jobs. This program will increase the number of extremely low-income households that can access housing and contribute to alleviating the housing supply crisis.

Key Assumptions

Program production estimates are based on the historical data available since program inception in 2016.

Outcomes, Performance Indicators, and Other Evidence

Since the program started in 2016, the Housing Trust Fund program has:

- Completed 3,525 units of affordable housing, with an average investment per assisted unit of \$110,500; and
- Leveraged \$3.78 billion of other funds for affordable housing with a leveraging ratio of 9.75:1 (i.e., \$9.75 of private or other public dollars for each Housing Trust Fund dollar invested in rental projects).

Stakeholders

The Housing Trust Fund is a formula-based program for States and Insular areas to direct funds based on their specific needs to increase the supply of affordable housing for very low and low-income families.

Operational Improvements

See the Legislative Proposals and General Provisions section below, which describes the operational improvements facilitated by several proposals requested by HUD.

SUMMARY OF RESOURCES BY PROGRAM

(Dollars in Thousands)

Budget Activity	2022 Budget Authority	2021 Carry over Into 2022	2022 Total Resources	2022 Obligations	2023 Appropriation	2022 Carry over Into 2023	2023 Total Resources	2024 President's Budget
Formula Grants	739,808	113,338	851,494	493,970	354,304	357,524	733,802	324,000
Total	739,808	113,338	851,494	493,970	354,304	357,524	733,802	324,000

a/ 2021 Carryover into 2022 includes \$7.5 million in funds recaptured funds in 2022.

b/ 2022 and 2023 Total Resources reflect net sequestration activity.

LEGISLATIVE PROPOSALS AND GENERAL PROVISIONS

General Provisions

The 2024 President's Budget re-proposes the following general provision that was enacted in the 2023 appropriations bill:

Formula Grant Allocation Adjustments: This provision allows the Department to correct any past formula allocation errors as part of the next applicable formula allocation cycle. (Sec 227)

Legislative Proposals

The 2024 Budget supports the following legislative proposals and will seek changes through the authorization process:

- Authorize an environmental review process for HTF projects: Under current law, HTF-funded projects cannot satisfy Federal environmental requirements through the environmental review process in 24 CFR Part 58. HUD proposes to authorize a Part 58 review process for HTF.

The inability to employ environmental mitigation measures through the Part 58 process has caused many potential HTF project sites to be excluded from the program and some projects to be deemed ineligible after HTF grantees have already expended funds on the project.

This legislative proposal would align this program with other HUD grant programs by authorizing the Part 58 process for HTF projects, permitting HTF units to be included in projects being developed with other HUD funding sources and increasing the number of sites that can be considered for development with HTF funds.

- Align HTF with Davis-Bacon wage requirements required in other HUD programs: Under current law, Davis-Bacon wage rate requirements do not apply to HTF-assisted development projects. HUD is proposing an amendment to apply Davis Bacon requirements to HTF, which will align with program requirements of other HUD programs including the HOME Investment Partnerships Program. This amendment will result in workers of HTF-assisted development projects receiving a fair wage for their labor.
- Eliminate the two-year commitment requirement: A statutory provision and program regulation requires funds to be used or committed to a project within two years of grant execution. To date, several grantees have missed the deadlines, resulting in the required deobligation of these funds from these grantees. The HOME Investment Partnerships Program has a similar commitment requirement that has been suspended by Congress in annual appropriations laws beginning in 2017 and the Department is requesting similar treatment with HTF. The HOME suspension resulted in funds being committed to projects that are ready to move forward instead of projects that were just trying to meet a commitment requirement deadline, which over time has led to fewer failed projects requiring repayment because the grantee is able to perform due diligence to ensure the project will move forward before committing HOME funds. The funds remain with the grantee for use on viable projects. HUD anticipates that eliminating the HTF two-year commitment requirement deadline will produce similar results and the stakeholders will be receptive to this proposal.
