## EXEMPTING CBDO SERVICES FROM THE PUBLIC SERVICE CAP

Some questions have been raised about when services carried out by a CBDO can be excluded from the public service cap. Services carried out by a CBDO as part of a project that meets the criteria of 24 CFR 570.204 are exempted from the cap in two cases:

1. job training & placement and other "employment support" services; and
2. any service pursuant to an approved Neighborhood Revitalization Strategy

A service does not have to meet both of the above standards in order to be exempted from the cap.
