Register Today: Leveraging HOPWA and other Public Funding to Improve HIV Health, Housing, and Employment Outcomes Webinar - March 15, 2022 1-2:30 PM ET

Achieving success in housing, employment, and HIV primary care requires an intentional and coordinated effort, as they are interdependent upon one another. As part of the Health Resources and Services Administration (HRSA) Special Projects of National Significance Initiative: [Improving Health Outcomes through the Coordination of Supportive Employment and Housing Services](#), twelve demonstration sites developed innovative practices for providing integrated, quality HIV and behavioral health care while simultaneously addressing the unmet need for housing, employment, and other social services that compete with health care. This webinar will provide an overview and lessons learned from the initiative as well as findings from the multi-site evaluation. Two demonstration sites will share their approaches to partnering with other locally and federally funded agencies to improve housing stability and employment opportunities for people living with HIV.

When: March 15, 2022 1-2:30 PM ET

[Register for the webinar here.](#)
