from Dr. Sanja Rickette Stinson to everyone: 2:32 PM

Hello everyone Dr. Sanja Rickette Stinson, Chicago

from Marlisa Grogan she/her to everyone: 2:34 PM

@Heather: regarding community members providing 3rd-party documentation - As explained in FAQ 2759, an intake worker may accept as third-party documentation, the oral or written observation of someone in the community, including but not limited to, a shopkeeper, a building owner, or a

neighborhood resident (regardless of relationship with the household) that has physically observed where the individual or head of household is or has been residing. If the community member is unwilling to provide a written observation, the intake worker may document their conversation with the community member. The community member must indicate which specific months they physically observed the individual or head of household residing in a place not meant for human habitation. The intake worker must use their professional judgment to determine if the source is reliable.

from Brittany Burgin to everyone: 2:35 PM

@Amy Thompson - Yes, written observation by an outreach worker of the individual's homeless status and qualification under Category 1 is considered 3rd party documentation.

from Don Rea to everyone: 2:35 PM

Figured it out, the slides that is. Copy the ENTIRE link, not just the blue part, into a browser.

from Victoria to everyone: 2:36 PM

Did you say that any household member could have a disability? Or only the head of household?

from Sarah Frye to everyone: 2:36 PM

Can we start a client in the ESG program and transfer them to the SNOFO program?

from Brett Esders she/her to everyone: 2:37 PM

@Sarah - that depends on the type of ESG assistance. Are you talking about ESG funded RRH assistance? If someone is in an emergency shelter funded under ESG then they would meet the definition of Category 1 and be eligible for assistance under a Special NOFO project

from Brett Esders she/her to everyone: 2:39 PM

@Sarah - for RRH there are specific instances where it can occur. If you sent an email to SpecialCoCNOFO@hud.gov and provide some information about what you have in mind we can get you the answer

from Navid Daneshjou to everyone: 2:39 PM

DID I hear that correct: participation in supportive services is NOT a requirement for PSH?

from Emily Carmody to everyone: 2:39 PM

Just repeating Victoria's Q: Did you say that any household member could have a disability? Or only the head of household?

from Sarah Frye to everyone: 2:40 PM

@Brett - ESG RRH >>> SNOFO RRH?

from Brittany Burgin to everyone: 2:40 PM

@Janice Hack - Written observation by an outreach worker of the individual's homeless status within the encampment and qualification under Category 1 is considered 3rd party documentation.

from Brett Esders she/her to everyone: 2:41 PM

@Victoria - yes, because these projects are not limited to those experiencing chronic homelessness they follow the regulatory requirements at 24 CFR 578.37(a)(1)(I) which says that one adult or one child has a disability.

from Valerie Coffin to everyone: 2:41 PM

Echo the eligibility question for people who may originally assess for needing RRH but at later reassessment determines that PSH is necessary.

from Brett Esders she/her to everyone: 2:42 PM

@Valerie - it is possible to transfer from an RRH project to a PSH project if the individual or family met the criteria of the PSH project prior to entering the RRH project. This FAQ covers the specifics: https://www.hudexchange.info/faqs/programs/continuum-of-care-coc-program/program-requirements/definition-of-homelessness/is-an-individual-or-family-that-is-receiving-rapid-re-housing-assistance/

from Brett Esders she/her to everyone: 2:45 PM

@Katharine - unless your project is dedicated to those experiencing chronic homelessness, no, there is no limit, or cap, on the number of people who can self-certify that they met the criteria of a certain category of homelessness to determine eligibility. But, we will be checking to ensure your orders of priority for documenting homeless status when we monitor and you will need to demonstrate that you followed them. This is where documenting due diligence - and having standards for documenting due diligence - will be helpful

from Colleen Budenholzer to everyone: 2:45 PM

In a CE projects, are current living situation assessments in HMIS an acceptable form of documentation of homelessness?

from Volunteers GILBORN to everyone: 2:47 PM

For Category 1, I don't see any reference to chronicity except as it relates to institutionalization. Can you please advise whether we need to document chronicity for homeless clients being served under cat 1?

from Myesha Wilson to everyone: 2:47 PM

We will provide supportive services but the housing stability voucher comes from the housing authority - if the client does not get approved for a voucher through the housing authority, do we have to terminate our supportive serivces with client or find them other means for housing? Thanks

from Sarah Frye to everyone: 2:47 PM

Operational costs for TH only? What about joint projects or RRH?

from Brett Esders she/her to everyone: 2:47 PM

@volunteers GILBORN - the SpecialNOFO did not require projects to be dedicated to serving people experiencing chronic homelessness. So I didn't cover the chronic recordkeeping requirements today. But

you are right, there are different criteria for documenting chronicity that if your project is dedicated to people experiencing chronic homelessness that you will need to follow

from Volunteers GILBORN to everyone: 2:48 PM

@Brett - Thanks

from Brett Esders she/her to everyone: 2:49 PM

@Alyssa - yes, third party documentation would be required if you were serving someone who is qualifying under category 1 of the definition. The deviation from the orders of priority only apply to documenting category 4 of the definition.

from Teneisha Parker-Abrams to everyone: 2:50 PM

If we provide supportive services and the client doesn't get approved for the stability voucher through the housing authority, can the client remain in supportive services ? Are they then terminated from the program due to not being approved?

from Amiel Cain to everyone: 2:51 PM

QUESTION: @ebony- regarding RA not being combined within the same unit- what if a building is site-based and it's new construction?

from Brie Richards to everyone: 2:51 PM

from Emily Carmody to everyone: 2:52 PM

@Ebony- did you say that the HOH has to have a disabilty to be eligible for PSH?

from Ebony Rankin to everyone: 2:52 PM

@Emily - yes, the head of household has to have a qualifying disability

from William Snow to everyone: 2:52 PM

@Emily - no, the HoH does not have to be the one that has the disability for PSH grants.

from William Snow to everyone: 2:53 PM

@Emily - sorry, Ebony's right on that

from Emily Carmody to everyone: 2:53 PM

Thanks

from Jessie Schwartz to everyone: 2:54 PM

Is there a cap on the "facilities" portion of the indirect costs? I believe the administrative is capped at 10%.

from Amy-Marie Merrell to everyone: 2:55 PM

April is nailing this presentation

from William Snow to everyone: 2:55 PM

@Brie - yes, time associated with participating in these trainings can be charged under your admin costs

from Emily Carmody to everyone: 2:55 PM

@Brett- are there documentation requirements for severe service needs?

from Ebony Rankin to everyone: 2:55 PM

To clarify - William is correct. For Special NOFO, they don't have to be head of household, for chronic or dedicated plus, it does have to be the head of household

from Laura Michelle Wolfe Hoadley to everyone: 2:55 PM

what is expected in terms of documenting cost of employee time?

from Brett Esders she/her to everyone: 2:55 PM

@Emily - related to your earlier question about documenting severe service needs - HUD did not require that as an eligibility criteria - having a severe service need - just that you have to be consistent with your CoC's Plan. However, it's possible your CoC has established certain characteristics that need to be documented and you'll want to check with your CoC on those requirements

from Lynda Keeton-Cardno to everyone: 2:56 PM

Is the $25k for indirect cost calculation by individual contract or item; e.g. first $25k on depreciation; first $25k on facility utilities; etc.

from Emily Carmody to everyone: 2:56 PM

@ Ebony- OK- to repeat back- for Special NOFO PSH any household member can have disability?

from Emily Carmody to everyone: 2:56 PM

@Brett- thanks!

from Ebony Rankin to everyone: 2:57 PM

@Emily - yes

from Janice Hack to everyone: 2:57 PM

If the application only allowed 10% admin cost in the budget, how does the federally negotiated indirect cost relate to this?

from Jaini Christison to everyone: 2:57 PM

If you have an approved Indirect Cost Rate does it have to be applied to All Federal Grants ?

from Emily Carmody to everyone: 2:58 PM

@Ebony- thanks!

from Brett Esders she/her to everyone: 3:00 PM

@Navid - because all projects funded under this NOFO must adopt a housing first approach projects cannot require program participants to participate in supportive services. However, the recipient or subrecipient must make supportive services available and must tailor supportive services to meet the needs of program participants and must engage program participants to make them aware of available supportive services

from Ebony Rankin to everyone: 3:00 PM

@Sarah - you can have operation costs in Joint projects; they are rarely in RRH projects because of the prohibition of using operating and rental assistance in the same unit

from John Betts to everyone: 3:01 PM

At last office hours, there had been mention that people receiving services did not have to be unsheltered through the entire time of receiving services as long as they were homeless under Category 1. Can we find that written somewhere so we can have it available for future monitorings if needed?

from Brett Esders she/her to everyone: 3:01 PM

@Sarah - additionally, operating costs are not eligible under the RRH portion of the project. The regulation limits RRH assistance to tenant-based rental assistance, supportive services, HMIS, and admin

from Candice Foster to everyone: 3:03 PM

there is no link on the slide..

from Elaine MacPherson to everyone: 3:03 PM

what is the HUD Indirect cost rates inbox?

from Kim Ball to everyone: 3:03 PM

Thanks

from Brett Esders she/her to everyone: 3:03 PM

@John - the chat from last week's webinar will be posted on hud.gov later this week. But you are correct, HUD did not limit eligibility to those currently experiencing unsheltered homelessness (or experiencing unsheltered homelessness at intake). We limited eligibility as discussed earlier in this presentation and we expect projects to be consistent with the CoC's Plan

from Amiel Cain to everyone: 3:04 PM

I think this is the wrong slide

 Is there a reason why the Indirect Cost Toolkit for CoC and ESG Programs https://files.hudexchange.info/resources/documents/Indirect-Cost-Toolkit-for-CoC-and-ESG-Programs.pdf was not listed as a resource on indirect costs?

from Brett Esders she/her to everyone: 3:07 PM

@John - they will be posted on hud.gov on the Special NOFO page - https://www.hud.gov/program_offices/comm_planning/coc/specialCoCNOFO

from McKenzie Strubank to everyone: 3:07 PM

Yes, of course! I wanted to know if the SO project costs align with ESG SO costs or not. Thank you!

from Davia Steeley to everyone: 3:08 PM

Is the session recorded? If yes, will the recording be available?

from April Mitchell to everyone: 3:08 PM

HI Howard, I think it was just left off.

from McKenzie Strubank to everyone: 3:09 PM

Just wanted to make sure I didn't miss any information on these projects, since our CoC was awarded several.

from Rachael Sample to everyone: 3:09 PM

I know generally CoC rental assistance allows for a limited amount of unit repair costs as damages. If we include the unit repair costs that are eligible under rural capacity costs, could we repair as a client is evicted? Or would that only be allowable if we were going to move another client in the program into that unit.

from Lynda Keeton-Cardno to everyone: 3:10 PM

I have to drop off for another training - can someone email me the answer to my question above please.

from Amiel Cain to everyone: 3:11 PM

@Brett- anyone not the client can be 3rd party- including family or excluding familiy?

from Jennifer Layton to everyone: 3:13 PM

For rural set aside. Can you describe "capacity building". Does this only include staff trainings? Specifically wondering about increasing the capacity of landlords… using the set aside funds as incentives.

from Janice Hack to everyone: 3:14 PM

Will you be going over documenting client assistance in a future webinar?

from Laura Michelle Wolfe Hoadley to everyone: 3:15 PM

@Taylor - thank you, would love the link to the training!

from Ebony Rankin to everyone: 3:15 PM

@Jennifer, capacity building as described in the Special NOFO: Capacity building activities are those activities that maintain or improve the skills of recipients. Eligible capacity building activities include employee education, job training, staff retention activities such as financial incentives to staff, paying for continuing education opportunities, cross training within an organization, staff training and professional licensing or certification, and other professional development activities. An applicant may

apply for up to 20% of funds requested as part of the project, including project administrative costs, for capacity building activities.

from Sarah Frye to everyone: 3:15 PM

Worst case senario... program participant is not only refusing SS but not following Housing Stability Plan. Basically not participating whatsoever.... we still cannot terminate or would that be considered a severe circumstance that could warrant the formal termination process?

from Brett Esders she/her to everyone: 3:17 PM

@McKenzie - the eligible supportive costs in 578.53 can be used in street outreach projects to the extent that they are directly related to carrying out street outreach. They are essentially the same costs as are eligible under essential services in the ESG program

from McKenzie Strubank to everyone: 3:17 PM

Thank you, @Brett! I assumed so, but wanted to double check.

from Jaini Christison to everyone: 3:18 PM

from Terry Haslett to everyone: 3:19 PM

In the abscence of a Federally Negotiated Rate, can you utilitze a 10% De Minimis rate

from William Snow to everyone: 3:20 PM

SNAPS Inbox for questions: SpecialCoCNOFO@hud.gov

from Rosie Ricketts to everyone: 3:22 PM

Please repeat location of training materials

from April Mitchell to everyone: 3:23 PM

@ Terry Haslett Non federal entities may elect to charge a de minimis rate of 10% of modified total direct costs (MTDC) which may be used indefinitely. No documentation is required to justify the 10% de minimis indirect cost rate. As described in § 200.403, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. If chosen, this methodology once elected must be used consistently for all Federal awards until such time as a non-Federal entity chooses to negotiate for a rate, which the non-Federal entity may apply to do at any time.

from Rachael Sample to everyone: 3:23 PM

Any more deep dive into the rural costs would be great. We'll be working to get new forms together for those costs to document those and we appreciate the help in making sure those forms capture everything correctly for compliance.

from Jackie Edens to everyone: 3:23 PM

If after 24 months of participants not taking advantage of supportive services, they are exited from the RRH program and become homeless again. How does HUD view that?

from Amy Thompson to everyone: 3:23 PM

If a participant is unable to secure any housing within a certain amount of time (i.e. 90 days), can they be exited/terminated?

from April Mitchell to everyone: 3:24 PM

2 CFR §200.414(f) allows grant

recipients and subrecipients to elect

a 10 percent de minimis rate based

on the MTDC if they meet the

following criteria:

1. The recipient or subrecipient

does not currently have and

has never received a negotiated indirect cost rate;

2. The recipient or subrecipient is not a state, local government, or

Indian tribe receiving more than $35M in direct federal funding (these

entities are not eligible for de minimis because of 2 CFR §200

Appendix VII D(1)b1));

3. The recipient or subrecipient will be using the rate indefinitely and

consistently for all federal awards until such time the entity chooses to

negotiate a rate; and

4. The de minimis will be based on the MTDC and comply with 2 CFR

§200.403 factors affecting allowability of cost.

from Brett Esders she/her to everyone: 3:24 PM

@Jackie - if they become homeless again, then, depending upon what category they qualify under, they may be eligible for assistance again. And many communities have ways of prioritizing assistance for people who have previously received assistance and become homeless again.

from Emily Carmody to everyone: 3:24 PM

Are there requirements for environmental reviews for unit upfits?

from Maria Masha Friedman to everyone: 3:24 PM

Sorry I have to log of for another meeting.

from Janice Hack to everyone: 3:25 PM

If we pay for identification documents, employment readiness, application and move-in fees, are there special requirements for documenting? I am wondering about logs with client signatures, etc.

from Aaron Neal to everyone: 3:25 PM

DHS approved Indirect Cost Rates can be charged to Rental Assistance and Leasing line items?

from April Mitchell to everyone: 3:25 PM

You are welcome!!! @Jaini Christison

from Rachael Sample to everyone: 3:25 PM

Thank you. I just don't want to delay our project starts because we are worried about not being compliant. We'll rely on the SNOFO for right now and wait for further guidance and course correct as needed.

from Colleen Budenholzer to everyone: 3:25 PM

In CE projects, are current living situation assessments at enrollment in HMIS an acceptable form of documentation of homelessness?

from Candice Foster to everyone: 3:25 PM

I would ask before you spend...

from April Mitchell to everyone: 3:25 PM

Recipients that choose to develop an Indirect Cost Rate Proposal, with HUD as the cognizant agency, must submit the proposal to HUDCPDIndirectCostRates@hud.gov for review and approval.

 For recipients needing a rate extended, where HUD is the cognizant agency, please submit the current approved rate and an email to HUDCPDIndirectCostRates@hud.gov requesting an extension.

from Tamara Tregoning to everyone: 3:27 PM

from Emily Carmody to everyone: 3:27 PM

repair to meet inspection

from Emily Carmody to everyone: 3:27 PM

yes!

from William Snow to everyone: 3:27 PM

@Rachael - we want you to ask those questions as they come. Please send them to the SNAPS inbox and we will try to get back to you quickly so you can avoid delays in moving forward.

from Taylor Kiely to everyone: 3:28 PM
