

Healthy Homes Insider

Q1 January 2022

OLHCHH Educational Outreach

OLHCHH's Educational Outreach program is dedicated to eradicating housing related problems that can affect the health of children and families; by developing and implementing an outward-facing communications strategy for raising awareness about lead and other possibly preventable health and safety hazards in homes.

Since OLHCHH serves a diverse audience, within both the stakeholder and public sectors, outreach tools must reflect these evolving needs and best practices.

Go mobile!

OLHCHH has developed multiple apps, for multiple audiences:

Videos

OLHCHH has created a library of Lead and Healthy Homes related videos. These informative videos range from quick ads on the importance of healthy homes awareness, to step-by-step videos of how to re-enter a storm-damaged home. Please be sure to check out what the HUD Healthy Home video library has to offer:
