RE: Keys Amendment, Section 1616(e) of the Social Security Act

Pursuant to Ark. Code Ann. § 20-10-203, the Department of Human Services, Division of Provider Services & Quality Assurance is the designated agency for identifying, licensing, inspecting; and ensuring the enforcement standards of long-term care facilities in Arkansas are in compliance. These long-term care facilities are subject to licensure as provided in the respective manuals for their facility type.

A significant number of recipients of supplemental security income benefits currently resides in long-term care facilities. Our Division consistently makes available a copy of the rules and standards for public review, which include the procedures to ensure the enforcement of these standards. A list of any waivers and violations of such standards can be found on the DHS website. These standards govern the needs of recipients and the character of the facilities involved, and govern such matters as admission policies, safety, sanitation, and protection of civil rights. Our Division is in full compliance with our responsibilities.
