Subject: CDC's Eviction Moratorium Extended Until June 30, 2021

Dear Multifamily Housing stakeholders:

On March 29, 2021, the Centers for Disease Control and Prevention (CDC) issued an [Order](#) extending the eviction moratorium to June 30, 2021. The Order continues to ban evictions for certain renters under Section 361 of the Public Health Service Act (42 U.S.C. § 264) and 42 CFR § 70.2.

As described in the Order, tenants qualifying as a "Covered Person" cannot be evicted for nonpayment of rent when a declaration under the penalty of perjury is provided to their landlord. Residents who previously submitted a declaration should not be asked to resubmit and should have continued protections until June 30, 2021.

Much of the content of the original Order has been incorporated into the updated Order. In addition to extending the effective period date, the updated Order also includes newly available modeling projections and observational data from COVID-19 incidence comparisons across states that have implemented and lifted eviction moratoria, which demonstrates the ongoing public health rationale for the extension.

The Order does not relieve the tenants' obligation to pay rent, and tenants must continue to comply with terms under the lease. Evictions unrelated to nonpayment of rent can still take place. Any State, local, Tribal, or territorial area with a moratorium on residential evictions that provides the same or greater level of public health protection can supersede the updated CDC Order. To the extent any provision of the Order conflicts with prior Orders, the updated Order is controlling.
