What's New

CNA e-Tool P282 Release

U.S. Department of Housing and Urban Development

September 19, 2025

Restart Background Jobs via UI (Release Date: 9/19/2025):
Admin users now have the ability to manually restart background jobs directly from the eTool. This enhancement enables faster troubleshooting and reduces dependency on backend interventions, improving overall system responsiveness.

Renamed Effective Date to CNA Inspection Date (Release Date: 9/19/2025):
In the Age of Component section, the field previously labeled "Effective Date" has been updated to "CNA Inspection Date." This change provides greater clarity by aligning the label with its actual purpose.

Editable Standard EUL Field (Release Date: 9/19/2025):
The Standard Estimated Useful Life (EUL) field is now editable, giving users the flexibility to adjust values when necessary. This update enhances usability and supports more accurate data entry.

New Flag for Overridden Standard EUL (Release Date: 9/19/2025):
A new flag PB-002 has been introduced to alert reviewers whenever the Standard EUL for a component has been manually overridden. This helps reviewers quickly identify adjustments and ensures transparency in the review process.

Auto-Response Options in the Respond to Flags (Release Date: 9/19/2025):
A predefined dropdown options has been added to assist submitters in providing input efficiently, reducing repetitive typing and maintaining consistency in responses.
