Subject: Certification of Keys Amendment Compliance for the State of Colorado

Dear Mr. Denos,

This letter serves as annual certification of the state of Colorado’s compliance with the Keys Amendment and the regulation enacted pursuant thereto. Specifically, the State of Colorado has designated one or more State authorities to establish and enforce standards for residential care facilities in which a significant number of SSI and/or SSDI recipients may reside. As required by the Amendment, the State of Colorado makes statutes, regulations, inspection reports, enforcement actions, etc., available to the public and other interested individuals.

Pursuant to 25-27-101, C.R.S., et seq., The Colorado Department of Public Health and Environment (CDPHE) has the authority for the development, administration and enforcement of standards for the licensure of assisted living residence, hospitals, ambulatory surgical centers, community mental health centers, convalescent centers, dialysis treatment clinics, home care agencies, hospice facilities, intermediate care facilities for individuals with intellectual disabilities, nursing homes and other community based health care programs.

As required by Section 1616(e) of the Social Security Act (the Keys Amendment) the Health Facilities and Emergency Medical Services Division (HFEMSD) of the Colorado Department of Public Health and Environment shall certify that all licensed facilities are currently in compliance with the Keys Amendment. I am pleased to report that HFEMSD has worked with representatives of the Colorado Department of Health Care Policy and Financing (HCPF) to ensure that all community programs operate in conformity with the Keys Amendment.

The HFEMSD, on behalf of HCPF, is also conducting statewide inspections to ensure that all settings provide integration and full access to community life resulting from the new Home and Community Based Services Settings Rule. This work serves to validate that all recipients of SSI and SSDI payments reside in home-like settings and provide ongoing technical assistance to facilities and providers.
Please feel free to contact Thom Miller, Certification, Licensure, Enforcement and Records Branch Chief at 303.691.4978 or thomasL.miller@state.co.us if you have any questions.

Sincerely,

D. Randy Kuykendall
