Mr. Scott Logan
Social Security Administration
Office of Income Security Programs
Keys Section
2518 Robert M. Ball Building
6401 Security Boulevard
Baltimore, MD 21235

Dear Mr. Logan:

Please accept this letter as the annual certification of the State of Delaware's compliance with the Keys Amendment (Section 1616(e) of the Social Security Act; 45 CFR Part 1937) and the regulations enacted pursuant thereto.

The State of Delaware has designated the Department of Health & Social Services (DHSS), the Department of Services for Children, Youth and Their Families (DSCYF), and the Department of Education (DOE), with authority over the development, administration, and enforcement of standards for the licensure of the health care facilities and homes referenced below and attached to this correspondence. As required by the Amendment, the State creates statutes and regulations, conducts statewide inspections, writes appropriate reports, and takes enforcement actions as necessary. The covered providers include skilled and intermediate care nursing facilities, nursing homes admitting pediatric residents, rest residential homes, assisted living facilities, family care homes, group homes for persons with mental illness, group homes for persons with AIDS, neighborhood homes for persons with developmental disabilities, intensive behavioral support and educational residences, residential childcare facilities, and day treatment programs. This list encompasses residential care facilities in which a significant number of SSI and/or SSDI recipients may reside.

We are pleased to report that DHSS, DSCYF, and DOE certify that the State of Delaware and the applicable facilities are in compliance with the Keys Amendment. DHSS, DSCYF, and DOE strive to improve and ensure that SSA recipients live in safe and healthy environments and remain an integral part of our community.

STANDARDS FOR SSI RESIDENTIAL FACILITIES

Because of concern in Congress that Supplemental Security Income (SSI) funds might be utilized in support of substandard facilities, an Amendment to Public Law 94-566 (Keys Amendment) requires that States establish and enforce standards for facilities where a significant number of SSI recipients reside or are likely to reside.

Enforcement Procedures

Enforcement procedures include periodic inspection of facilities; provision of technical assistance; and use of a warning system to provide deficient facilities a chance to comply and for residents to move out if the facilities fail to do so. In Delaware, these facilities have been treated as four groups, which are described below.

Group I - Skilled and Intermediate Care Nursing Facilities

Skilled and Intermediate Care Nursing Facilities regulations provide standards appropriate to the needs of residents who, in accordance with a physician's orders, need medical services and care requiring the competence of a registered professional nurse. The regulations cover the licensing requirements and procedures and include the following:

- A. Scope
- B. Definitions
- C. General Requirements
- D. Licensing Requirements and Procedures
- E. Personnel/Administrative
- F. Services to Residents
 - a. General Services
 - b. Medical Services
 - c. Nursing Administration

Assisted Living Facilities

Regulations covering Assisted Living Agencies provide a comprehensive community-based residential long term care continuum that provides the necessary level of services to a dependent elderly person or persons with disabilities in the appropriate environment. These regulations are to promote and ensure the health, safety, and well-being of all residents of assisted living facilities. These regulations are also meant to ensure that service providers will be accountable to their residents and the Department and to differentiate assisted living care from skilled nursing care. The essential nature of assisted living is to offer living arrangements to medically stable persons who do not require skilled nursing services and supervision. The regulations establish the minimal acceptable level of services for residents of assisted living facilities. These regulations include the following:

- A. Purpose
- B. Authority and Applicability
- C. Glossary of Terms
- D. Licensing Requirements and Procedures
- E. General Requirements
- F. Resident Waivers
- G. Specialized Care for Memory Impairment
