1. **FHA Catalyst System Overview**

The *FHA Catalyst* platform is a platform for managing Single Family Origination and loan servicing information exchange throughout the loan lifecycle for FHA insured loans. The platform includes a website interface and a web services architecture for system to system integration. The platform is comprised of modules for each stage of the loan lifecycle. To learn more about the broader scope of the *FHA Catalyst* platform, please visit [https://www.hud.gov/catalyst](https://www.hud.gov/catalyst).

1.1 **New User Access Request**

1. Complete and email the Mortgagee User Access Request Form to answers@hud.gov

2. Upon successful setup of your username in *FHA Catalyst*, you will receive an email from FHACatalyst@hud.gov (HUD-modernization-form) along with your username.

3. Check your email from FHACatalyst@hud.gov for a welcome link and your username.

4. Upon selecting the welcome link, you will be directed to the login page.

**Note:** Please use Google Chrome or Microsoft Edge to access *FHA Catalyst*. Other browsers are not fully supported and may cause loss of functionality.
1.2 Supported Loan Types, API Data Submission Methods, and Accessing Loans in the *FHA Catalyst* website portal

*FHA Catalyst* Single Family Origination module supports the following loan types and loan file submission methods. Additional submission methods and programs will be supported in future releases.

- **Supported Loan Programs**
  
  - Lending institutions funding mortgage loans under the FHA section 203b basic home mortgage loan program, all Streamline Refinances and the 203k Rehab Mortgage loan program - providing mortgage insurance for a person to purchase or refinance a principal residence in a one-to-four unit structure.

- **Supported Data Submission Methods via API**

  - Credit Underwriting (automated underwriting), Loan Closing (submission of Uniform Closing Dataset/Closing Disclosure), and Endorsement (submission of insurance application for insurance endorsement) is via API submission only. Lenders must submit the data via system to system integration with their Single Family Origination or point of sale system.
  
  - Please refer to the *FHA Catalyst Integration Guide for Single Family Origination* for details on how to establish and use the *FHA Catalyst* API to submit the data for each step in the workflow:

    - Credit Underwriting (submit loan applications in the form of the Uniform Loan Application Dataset and retrieve evaluation results in PDF and JSON format)
    - Loan Closing (submit Uniform Closing Dataset and Closing Disclosure)
    - Insurance Application for Endorsement (submit final loan data for insurance endorsement)

- **Data Access in the *FHA Catalyst* website**

  - Loan files, including the loan data created and updated via API submissions, are accessible in the *FHA Catalyst* website.
2. Navigating FHA Catalyst Portal

This section provides Lender Users an overview on how to navigate the FHA Catalyst Single Family Origination module.

2.1 Logging In

2. Enter your username and password, and then select Login.

3.2 Credit Underwriting Dashboard

The List View provides the user with a view of existing records in a table format with column names displayed at the top.
List views are a way to sort, prioritize, and analyze records based on filtering criteria. Users can conduct a search within the List view Search Bar by typing in the specific search information based on the column headers. i.e. Loan Application ID, Status, Primary Borrower, Created Date and Last Modified Date.

You may choose the view of “Recently Viewed” or the view of “All My Loan Applications.”
