**Date:** September 2, 2021

**Subject:** MHCC Letter Ballot IX – Actions as taken at June 10, 2021 MHCC Meeting

Below are the final results from the letter ballot of actions as taken at the June 10, 2021 MHCC meeting which took place via teleconference.

### Ballot IX – Actions as taken at June 10, 2021 MHCC Meeting

**21 Members Eligible to Vote**

**18 Ballots Returned**

**3 Ballot Not Returned – Luca Brammer, Garold Miller, and Cameron Tomasbi**

The number of votes required to pass an item with a 2/3rds majority is based on number of ballots returned minus the number of abstentions. All items on this ballot received at least the required number of affirmative votes, thus all items passed.

The final voting results are summarized in the table below.

All comments received are organized by Ballot Item No. and can be seen below.

[Ballot Item IX-6: Log 211 - Section 3280.715 \(a\)\(4\) Airtightness of supply duct systems](#)

MHCC Meeting Action - Approve as Modified (16 Affirm, 1 Negative, and 0 Abstain)

**Comment(s) Received – 1**

**Negative – 1**

**Michael Moglia:** Placing a prescriptive (IRC) requirement on a performance based housing product without additional examination or evaluation to determine the added costs.

[Ballot Item IX-9: Log 214 - Section 3286 Inspection Requirements](#)

MHCC Meeting Action - Disapprove (16 Affirm, 1 Negative, and 0 Abstain)

**Comment(s) Received – 1**

**Negative – 1**

**Michael Moglia:** Site built homes and modular homes only require a single inspection completed by the local code official. The manufactured housing program requires, a licensed installer, most likely a local code official and an inspector verification (3 total inspections) This adds unneeded costs on manufactured homes with no benefit as there is no training mechanism required and no oversight.

[Ballot Item IX-16: Log 222 - Section 3280.710-Venting, Ventilation, and Combustion Air](#)

MHCC Meeting Action - Approve (16 Affirm, 1 Negative, and 0 Abstain)

**Comment(s) Received – 1**

**Negative – 1**

**Michael Moglia:** Although the proposed change may be a good idea, other factors need to be assessed such as whole house ventilation and other exhaust systems. The IRC establishes prescriptive requirements, the MHCCS are performance based.
