### HUD Seeks Feedback on Section 811 and Section 202 RAD Conversions

The Consolidated Appropriations Act, 2022 authorized the conversion of properties assisted under Section 811 through RAD. To implement this new conversion option, HUD is planning to amend Section IV of the current RAD Notice and is seeking public feedback on changes to be made to Section IV that would guide the conversion of these properties. HUD is also seeking feedback on changes that could enhance program requirements governing the conversion of Section 202 PRACs.

Please send written feedback via e-mail to [rad2@hud.gov](mailto:rad2@hud.gov) with the subject line: “RAD - Section 811 Drafting Table Feedback” no later than 3:00 PM ET, Wednesday, November 23rd. As much as possible, please note page and line numbers to identify the text to which your comments apply. Please visit the [Multifamily Housing Policy Drafting Table](#) for more information and to find copy of Section IV of the RAD notice with numbered lines.

### RAD Resident Fact Sheets: Now Available in Spanish

Residents of properties converting through RAD have a right to be informed about the conversion process and how it impacts them. To support resident education and assist PHAs as they engage with residents, HUD has produced 15 topical [fact sheets](#), available in English and Spanish. These fact sheets cover a resident’s rights before and after a RAD conversion, how the conversion process works, and other topics. Now available in [English](#) and [Spanish](#), we hope that these fact sheets will continue to be helpful in explaining to residents how the RAD conversion would impact their rights and their housing.

## In Case You Missed It: RAD Public Housing Reaches \$15B Milestone

Public Housing authorities and their partners last month officially have surpassed \$15 billion in construction investment since RAD's inception in 2013. PHAs across the nation leveraged RAD to obtain this financing for the construction, rehabilitation, and preservation of more than 185,000 deeply affordable rental homes. To learn more about this historic milestone, please see our commemorative RAD policy flyer [here](#).
