HUD-HELD VACANT LOAN SALES FOR  
HOME EQUITY CONVERSION MORTGAGES

## BACKGROUND

HUD-held Vacant Loan Sales (HVLS) for home equity conversion mortgages (HECMs) were introduced in 2016. These sales maximize recoveries to the Mutual Mortgage Insurance (MMI) Fund on behalf of taxpayers through competitive auctions. HVLS transactions are comprised of a portfolio of defaulted, formerly FHA-insured, single-family reverse mortgage loans owned by HUD. The loans are first liens secured by 1 to 4 unit, residential properties with the following attributes:

- ❖ The last surviving borrower is deceased;
- ❖ No borrower is survived by a non-borrowing spouse;
- ❖ The property securing the mortgage loan is vacant; and
- ❖ The heirs of the estate have not paid off the debt.

The HVLS loans were assigned to HUD from prior servicers, who are able to assign the loans to HUD when the loan balance reaches 98% of Maximum Claim Amount (MCA). MCA is equal to the lesser of the loan’s appraised value or the maximum FHA lending limit at origination. HUD takes over servicing when the loans are assigned.

HUD can foreclose on these vacant properties but that is usually lengthy and costly to the U.S. taxpayers. Selling these defaulted mortgages through a competitive auction generates savings for FHA by avoiding holding, Foreclosure, and sales expenses that would be incurred with a disposition through the REO conveyance program.

The HVLS portfolio is summarized below. This report includes post-sale reporting data due 1/2/2021 and received through 2/10/2021 on six HVLS transactions, HVLS 2017-1 through HVLS 2020-1. Per sale requirements, Purchasers must ensure that the loans are serviced in accordance with all applicable state and federal laws and regulations.

## NON-PROFIT HIGHLIGHTS

- ❖ HUD held a seminar on May 9, 2019 highlighting opportunities for participation in loan sales by non-profit organizations. This conference can be viewed at: <https://www.youtube.com/watch?v=71l2KspUo0I>
- ❖ HVLS 2019-1, HVLS 2019-2 and HVLS 2020-1 featured carve-out pools which allowed non-profits to self-select a limited number of loans from larger pools offered for sale to all qualified bidders.
- ❖ HUD has also created set-aside pools offered only to non-profit/local government bidders. These set-aside pools are a pre-defined set of loans within a larger pool offered for sale to all qualified investors.

These pooling strategies helped increase the loans sold to non-profits. For HVLS 2019-1 and 2019-2, a total of 19% of the loans were sold to non-profits. In 2020-1, 26% of the loans were sold to non-profits increasing the non-profit purchases to 12% of the HVLS loans sold.

## GEOGRAPHIC DISTRIBUTION

### Top 10 States for HVLS Properties

The HVLS loans sold were secured by properties in all 50 states, the District of Columbia and Puerto Rico. Approximately 54% of the loans sold were from the top 10 states.

## LOAN STATUS OUTCOMES SUMMARY

### CURRENT STATUS OUTCOME

For loans where post-sale reporting has been received, 57% of the loans were resolved through Foreclosure and 28% of the loans have not yet been resolved. Since the borrowers are deceased, the primary resolution method for Purchasers is generally Foreclosure; however, 15% of the assets were resolved through Foreclosure alternatives.

According to the feedback from the Purchasers, these Foreclosure alternatives have been accomplished through the Purchaser, as a final step, seeking out and working with the estate of deceased borrowers.
