

# **Quarterly Report to Congress on FHA Single-Family Mutual Mortgage Insurance Fund Programs**

FY 2022 Q1 Data as of December 31, 2021

U.S. Department of Housing and Urban Development Federal Housing Administration

#### **FOREWORD**

On behalf of Secretary Marcia L. Fudge and Principal Deputy Assistant Secretary Lopa P. Kolluri and pursuant to requirements of section 202(a)(5) of the National Housing Act, as amended by the FHA Modernization Act of 2008 (Public Law 110-289, Page 122 Stat. 2834), I am herewith transmitting the Fiscal Year (FY) 2022 First Quarter Report. This report covers mortgages that are obligations of the Mutual Mortgage Insurance (MMI) Fund of the Federal Housing Administration (FHA) for the reporting period covering October 1, 2021, through December 31, 2021.

As of the first quarter of FY 2022, FHA served 170,013 first-time homebuyers, representing 84 percent of FHA's forward purchase mortgage endorsements. FHA also served 60,949 households of color and 15,193 seniors were able to access their home equity using FHA's Home Equity Conversion Mortgage Program (HECM). During the same period, FHA maintained its strong focus on assisting homeowners facing hardships through the COVID-19 National Emergency. For those homeowners who fell behind on their mortgage payments during the pandemic, FHA delivered new flexibilities and expanded forbearance. The agency continues to engage with mortgage servicers, consumer advocates, and housing counselors, ensuring tools and flexibilities needed to manage delinquent forward and reverse mortgage loans are available to reach homeowners in need.

A significant number of FHA borrowers continued to face COVID-19 related hardships in the first quarter of FY 2022. Seriously delinquent mortgages (those past due 90 or more days) are still elevated from the pre-pandemic period although the portfolio experienced a decline from twelve percent to approximately seven percent compared to the same quarter of the previous year. In addition, early payment defaults (EPDs) declined from a peak around nine percent in early 2020 to slightly over one percent through the first quarter 2022. This is still above average relative to historical results but is an improving trend. FHA will continue to focus extensive efforts on helping struggling homeowners to obtain financial relief needed to achieve long-term homeownership sustainability.

This quarterly report also provides detailed information on the composition and credit quality of new insurance in force, and on FHA's financial position. In addition to this report to Congress, FHA provides information regarding the status of its Single-Family mortgage-insurance portfolio via the publication of other complementary reports, including the annual independent actuarial review of the MMI Fund and HUD's Annual Report to Congress on the Financial Status of the Mutual Mortgage Insurance Fund. All FHA reports can be found in the Office of Housing Reading Room.

The Department is pleased to provide details to the Congress on how this report was prepared or to answer any questions about the information presented.

Sincerely,

Mia N. Pittman

Deputy Assistant Secretary Office of Risk Management and Regulatory Affairs

Mia N. Pittman

### **Endorsement Activity**

During the first quarter of fiscal year (FY) 2022, FHA endorsed 306,476 forward mortgages for insurance, a decrease of 12.63 percent from the prior quarter (Exhibit A-1) due to the low housing inventory, and the decrease of refinancing activity driven by the rise of interest rates. During the quarter, the dollar volume of purchase endorsements was down 6.79 percent or \$3.85 billion from the previous quarter. Conversely, the dollar volume of refinance endorsements (Conventional to FHA, FHA to FHA) of \$22.98 billion in the quarter was down \$5.92 billion or 20.48 percent from the previous quarter. The dollar volume of all forward-mortgage endorsements of \$75.88 billion decreased 11.41 percent (Exhibit A-2).

FHA purchase activity by loan count was down 8.51 percent from the previous quarter from 220,581 mortgages to 201,817 mortgages. FHA-to-FHA refinance activity, in terms of endorsed mortgages decreased by 23.59 percent from the previous quarter, mostly due to the rise in interest rates from 106,556 to 81,418. This decrease is likely due to a corresponding increase in mortgage rates. Conventional to FHA refinance mortgages also declined by 1.65 percent, from 23,630 to 23,241 mortgages.

HECM endorsement volume, \$7.19 billion for the first quarter of FY 2022, was up 26.07 percent from the previous quarter. The increase in HECM endorsements is likely attributable to an increase in home values which outweighed any increase in HECM mortgage rates. HECM endorsement counts during the first quarter of 15,193 increased 23.76 percent from last quarter.

**Exhibit 1. Endorsement Counts by Fiscal Year and Quarter** 

#### **FHA Loan Credit Characteristics**

Average credit scores held relatively steady at 665 compared to 666 the prior quarter. While this average is lower than the peak of 703 during FY 2011 Q2, it is well above the low of 624 during FY 2008 Q1 (Exhibit 2, Exhibit A-4).

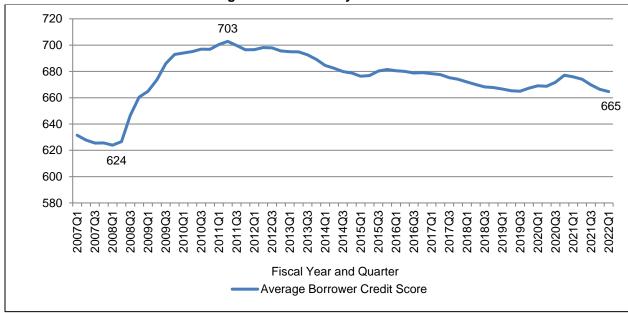

Exhibit 2. Average Credit Scores by Fiscal Year and Quarter

NOTE: Excludes streamline refinance and HECM endorsements. SOURCE: U.S. Department of HUD/FHA, January 2022

As shown in Exhibit 3a, the distribution of credit scores on FHA loans has gradually shifted over the past few years. The core of the distribution is in the 640–679 range (41.36 percent). In the first quarter of FY 2022, the share of 680–850 credit scores decreased by 0.87 percentage points from the quarter prior. (Exhibit 3a, Exhibit A-3).

Exhibit 3a shows FHA's credit risk profile shifting by nine percentage points from nearly 40 percent of mortgages with 680 and greater credit scores in the first quarter of FY 2020 to about 31 percent currently. This shift likely reflects FHA lenders easing the more stringent underwriting standards that were enforced at the start of the pandemic. At the same time, the share of mortgages with less than 640 credit scores increased to around 28 percent from 17 percent a year ago, again a reflection of lenders shifting to less restrictive underwriting standards relative to those enforced at the outset of the pandemic. As shown in Exhibit 3b, FHA loans originated with greater than 720 credit scores decreased to 10.84 percent in the first quarter of FY 2022 from 11.06 percent in the prior quarter, while FHA loans originated with less than 620 credit scores increased from 8.85 percent in the fourth quarter of FY 2021 to 10.78 percent this quarter.

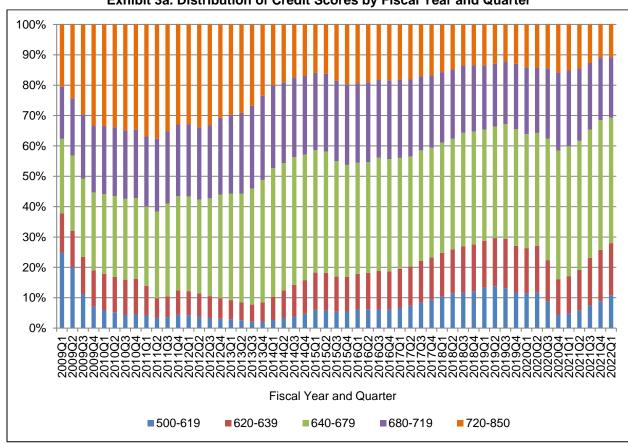

Exhibit 3a. Distribution of Credit Scores by Fiscal Year and Quarter

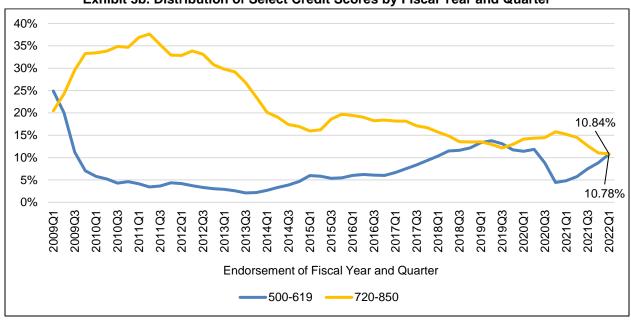

Exhibit 3b. Distribution of Select Credit Scores by Fiscal Year and Quarter

#### **Debt-to-Income (DTI)**

More than 25 percent of all FHA-insured forward mortgage purchase transactions in the first quarter of FY 2022 are comprised of mortgages with DTI ratios exceeding 50 percent. This is up from around 24 percent last quarter, but lower than the percentage prior to the pandemic. The average DTI for all endorsements during this quarter increased slightly to 43.55 percent, compared with 43.30 percent the previous quarter. The increase in average DTI may indicate growing affordability issues many FHA borrowers are facing as borrowers are spending a larger percentage of their incomes on housing and other living expenses.

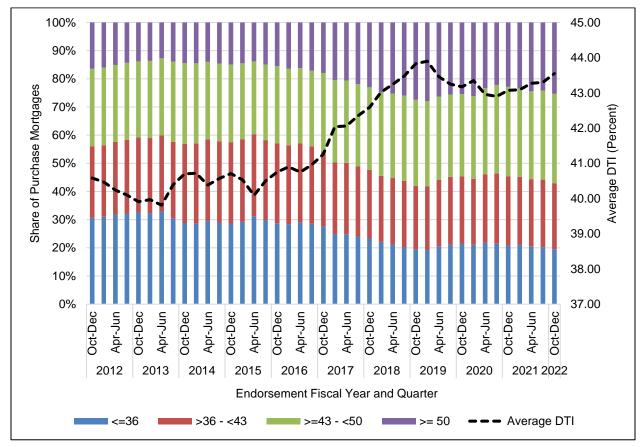

Exhibit 4. Debt-to-Income Ratios on New Purchase Endorsements by Fiscal Year and Quarter

### Average Loan-to-Value (LTV)

The average overall LTV ratio for purchase and refinance loans decreased from 91.22 percent to 90.55 percent for all FHA mortgages combined. Typically, LTV<sup>1</sup> ratios of refinance mortgages are lower than home purchase mortgages. (Exhibit 5, Exhibit A-5, Exhibit A-6).

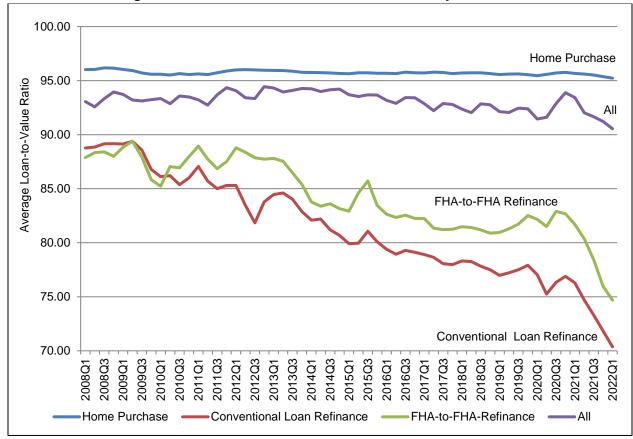

Exhibit 5. Average Loan-to-Value Ratios on New Endorsements by Fiscal Year and Quarter

<sup>&</sup>lt;sup>1</sup> For a typical purchase mortgage endorsement, FHA charges an upfront mortgage insurance premium (UFMIP) of 1.75 percent of the loan balance. FHA permits borrowers to finance the UFMIP by having it added to the loan balance, and nearly all FHA borrowers do so. However, despite the increase in the loan balance, FHA reporting conventions have been, and remain, to report the LTV ratio on the loan balance without inclusion of the UFMIP. In the conventional market, custom would be to include a financed premium into the loan balance, and therefore the calculation of the LTV ratio. Additionally, in the conventional market for a low down payment mortgage, an Interested Party Contribution (IPC) in excess of 3 percent of the value of the home is treated as a reduction in the value of the home, resulting in an increase in the reported LTV ratio of the transaction. For FHA-insured mortgages, no downward adjustment is made to the value of the property unless an IPC exceeds 6 percent of the value of the home.

#### **Predicted and Actual Termination and Claim-Loss Rates**

The predicted-versus-actual comparisons through the first quarter of FY 2022 are presented in Exhibit 6. Prepayment speeds were significantly higher than predicted due to actual interest rates remaining below forecasted interest rates. Claims were well below predicted due to policy decisions regarding eviction moratoria, forbearance, and loss mitigation options. The number of actual claims through FY 2022 Q1 of 2,566 was 82.58 percent less than the predicted 14,732.

**Exhibit 6. Termination and Claim Loss Experience Compared to Forecasts** 

| As of December, 2021         | Year to Date<br>Predicted <sup>a</sup> | Year to Date Actual | Deviation<br>(Actual Minus<br>Predicted) | Percentage<br>Deviation<br>(Actual Versus<br>Predicted) |
|------------------------------|--|---------------------|--|---|
| Prepayments (number)         | 285,499                                | 436,825             | 151,328                                  | 53.00   |
| Claims (number) <sup>a</sup> | 14,732                                 | 2,566               | (12,166)                                 | (82.58)   |
| Claims (\$ millions)b        | 1,145                                  | 167                 | (978)                                    | (85.43)   |
| Net Loss on Claims (%)c      | 25.96                                  | 33.55               | 7.59                                     | 29.25   |

na = not applicable.

Note: Due to differences in timing and data sources, the cash flow amounts may not reconcile fully with other tables in this report. Excludes HECM endorsements.

<sup>&</sup>lt;sup>a</sup> Projections of prepayment counts, claim counts, and claim dollars are modeled for the FY 2021 and FY 2022 FHA financial statements. All projections shown here use quarterly forecasts and thus reflect cyclical trends throughout the year.

<sup>&</sup>lt;sup>b</sup> Claim payments and counts reported here include those for conveyance (foreclosure) claims, pre-foreclosure (short) sales, and claims paid in connection with sales of delinquent mortgages. They do not include payments for loss mitigation mortgage-workout actions

<sup>&</sup>lt;sup>c</sup> These rates are losses as a percentage of the defaulted mortgage balance, for both conveyance and pre-foreclosure-sale claims. Includes only mortgages in the MMI Fund.

## **Budget Execution Credit Subsidy Rates**

The budget execution subsidy rate for forward mortgages for FY 2022 Q1 is -2.69 percent. The subsidy rate for HECM mortgages is -2.54 percent for FY 2022 Q1 (Exhibit 7).

Exhibit 7. Budget Execution Credit Subsidy Rates, FY 2022 Q1

| Type of Mortgage         | Rate (%) <sup>a</sup> |
|--------------------------|-----------------------|
| Forward Mortgages        | -2.69                 |
| Reverse Mortgages (HECM) | -2.54                 |

<sup>&</sup>lt;sup>a</sup> Budget execution credit subsidy rates are the expected net present value, per dollar of new insurance endorsements, of all cash flows from insurance operations over the life of the mortgage insurance as of the year of the insurance commitments. A negative rate means that the present value of premium revenues is expected to be greater than the present value of net claim expenses over the life of the insurance, i.e., a negative subsidy. Mortgages with negative credit subsidies are expected to produce receipts for the federal budget. These initial budget-execution rates are those approved by the Office of Management and Budget for budget accounting. The rates are updated on an annual basis, once the insurance is in place, to reflect both actual experience and updated forecasts of future mortgage performance and insurance cash flows. For a historical breakdown of credit subsidy rates and re-estimates, see <a href="https://www.govinfo.gov/content/pkg/BUDGET-2022-BUD/pdf/BUDGET-2022-BUD/pdf/BUDGET-2022-BUD.pdf">https://www.govinfo.gov/content/pkg/BUDGET-2022-BUD/pdf/BUDGET-2022-BUD.pdf</a> SOURCE: U.S. Department of HUD/FHA, January 2022.

#### **MMI Fund Cash and Investments**

As Exhibit 8 shows, the total cash, and investments of the MMI Fund increased to \$104.83 billion in FY 2022 Q1, \$7.59 billion is held in the Financing account, and \$97.25 billion is held in the Capital Reserve account.

Exhibit 8. MMI Fund Cash and Investments by Quarter, FY 2013 - FY 2022

| Fiscal Year | Quarter | Capital Reserve Accounta | Financing Account <sup>b</sup> | Total <sup>c,d</sup> |
|-------------|---------|--------------------------|--------------------------------|----------------------|
|             |         | (\$ billions)            | (\$ billions)                  | (\$ billions)        |
|             | Oct-Dec | 7.14                     | 29.99                          | 37.13                |
| 2013        | Jan-Mar | 10.98                    | 25.15                          | 36.13                |
|             | Apr–Jun | 15.80                    | 17.35                          | 33.15                |

NOTE: Only end-of-year balances represent audited figures.

<sup>&</sup>lt;sup>a</sup> This is an on-budget account that records net receipts provided by FHA to the federal budget over time. Balances are held in cash and Treasury securities. The securities earn interest for FHA. Periods in which irregular changes to the balance are seen represent times when HUD transfers funds to/from the Financing account for the rebalancing required by annual budget reestimates.

<sup>&</sup>lt;sup>b</sup> This is a series of off-budget cash accounts used to manage insurance operation collections and disbursements.

<sup>&</sup>lt;sup>c</sup> Total is the sum of cash and investments in the Capital Reserve and Financing accounts. It excludes other assets and liabilities.

<sup>&</sup>lt;sup>d</sup> Capital Reserve Account and Financing Account may not always add to total because of rounding.

## **Cash Flows from Business Operations**

FY 2022 Q1 net cash flow decreased to \$1,945 million compared to FY 2021 Q4 of \$2,428 million because of fewer endorsements in the quarter (Exhibit 9). HUD has been proactive in reducing average losses per claim through a more diversified asset disposition strategy, which includes the promotion of third-party sales at foreclosure auctions through its Claims Without Conveyance of Title (CWCOT) program, expanded eligibility for pre-foreclosure (short) and note sales. Claim costs (as measured by loss rates) have decreased from a high of 62 percent in 2013 to less than 35 percent over the last four quarters (see Exhibit A-7).

NOTE: Unaudited figures; details may not sum to total due to rounding. Due to differences in timing and data sources, the cash flow amounts may not reconcile fully with other tables in this report.

<sup>\*\*</sup> Note Sale Proceeds, are the Cash Receipts from Note Sales. Note Collections, include Principal and Interest collections on HUD-held defaulted notes (Partial Claims)

<sup>&</sup>lt;sup>a</sup> Claim payments shown here include conveyance, pre-foreclosure sale, note sales, loss mitigation (home retention) actions, and all HECM claims (assignment and shortfall claims).

## **Early-Payment Default Rates**

The overall Early-Payment Default (EPD) rate, while still historically elevated, is significantly down from the same quarter last year. FHA saw a large jump in EPD rates at the beginning of the pandemic which continued through mid-2020. The EPD rate, which remains elevated from prepandemic norms, has slightly increased to 1.29 percent in FY 2022 Q1 compared to the previous quarter at 1.11 percent.

<sup>&</sup>lt;sup>a</sup> Percent of mortgages originated in each quarter for FHA insurance that experience a three-month delinquency in the first six payment cycle.

<sup>\*</sup>Data for April and May. There is a 7 month lag only. Due to late reporting by a large servicer, the EPD rates in repayment FY 2020 Q4 are likely understated.

### **Serious Delinquency Rates**

The pandemic and its impact to the health and economic condition of citizens has been a major factor for the increase in serious delinquency (SDQ) rates compared to FHA's pre-pandemic rate. Starting in April 2020, a significant number of FHA borrowers requested approval to pause their monthly mortgage payments under the forbearance provisions of the CARES Act. As forbearance requests transitioned into payment delinquencies starting in the summer of 2020, the SDQ rate quickly rose from 4.04 percent in April 2020 to 11.90 percent by November FY 2020, as seen in Exhibit 11 below. However, the SDQ rate improved throughout the year and the portfolio experienced a decline to 7.28 percent at the end of the first quarter of FY 2022 from 8.81 percent at the end of the prior quarter, likely attributed to greater success in transitioning seriously delinquent borrowers into loss mitigation plans.

a Starting in FY 2008 Q4, these counts include 203(k) purchase and rehabilitation loans and 234(c) condominium loans. The FHA reverse-mortgage insurance program is called Home Equity Conversion Mortgage (HECM). Starting in FY 2009 (2008 Q4), all new HECM endorsements are included in the Mutual Mortgage Insurance Fund. Previous endorsements, by law, remain in the General and Special Risk Insurance Fund.

NOTE: Shares are based on loan counts. Excludes streamline refinancing<sup>a</sup>. Credit scores are cobranded between the three major credit repositories (Equifax, Experian, TransUnion) and Fair Isaac Corporation (FICO). Values can range from 300 to 850. FHA policy permits credit scores of 580 and above, except for loans with equity positions of 10 percent or more which may have credit scores as low as 500. Streamline refinance loans do not require full underwriting; therefore, they are not represented here SOURCE: U.S. Department of HUD/FHA, January 2022.

NOTE: Real Estate Owned (REO) refers to properties that HUD has assumed ownership of through the conveyance of title.

<sup>&</sup>lt;sup>a</sup> October and November 2021 only

b REO alternatives comprise short sales, claims without conveyance of title (CWCOT), and note sales. Short sales refer to the sale of property where the defaulted borrower sells his/her home and uses the net sale proceeds to satisfy the mortgage debt even though the proceeds are less that the amount owed. Short sales are part of the pre-foreclosure sale (PFS) program. CWCOT is a program approved under Section 426 of the Housing and Urban-Rural Recovery Act of 1983. It is designed to reduce the number of single-family mortgages owned by HUD by authorizing the payment of claims to mortgages without conveying (transferring) the title to the property to HUD. Note Sale refers to the sale of defaulted mortgage notes in order to reduce foreclosure costs for borrowers. Note Sales are conducted through the Distressed Asset Stabilization Program (DASP). SOURCE: U.S. Department of HUD/FHA, January 2022.

a Claims comprise claim types Foreclosure, Deed in Lieu of Foreclosure, and Mortgagor's Short Sale.

NOTE: The Claim Type 1 category represents the dollar volume of claims generated when the borrower no longer occupies the home, and the property is sold at a loss, with the mortgage never being assigned to the HUD Secretary D. The Claim Type 2 category represents the dollar volume of claims resulting from the assignment of the mortgage to the HUD Secretary when the mortgage reaches 98 percent of the MCA. Supplemental claims are those claims submitted by lenders for other eligible expenses not included on original claims, such as property preservation expenses.

<sup>&</sup>lt;sup>a</sup> Serious delinquency rates are the sum of 90 day delinquencies, plus in-foreclosures and in-bankruptcies. Due to late reporting by a large servicer, the delinquency rates for February 2021 are likely understated. SOURCE: US Department of HUD/FHA, January 2022.
