

## **2020 ECONOMIC IMPACT PAYMENTS TOOLKIT**

### **ADDITIONAL EFFORT TO REACH ALL ELIGIBLE AMERICANS**

The U.S. Department of Treasury, the Internal Revenue Service (IRS), and the Consumer Financial Protection Bureau (CFPB) are attempting to increase awareness about the Economic Impact Payments (EIP) under the CARES Act to low-income individuals who typically do not file income tax returns. The Economic Mobility Council is working to identify Americans who have not received payments with a collaborative approach between agencies to reach affected Americans and disburse their funds. This toolkit serves as a guide for HUD grantees to reach all eligible Americans.

## **HUD Impacted Offices**

The following offices are HUD program offices that have communities with Americans who may not have received Economic Impact Payments. While this is not an all-inclusive list, it is an effort to identify the large number of low-income, non-tax filing individuals and families to ensure disbursement of Economic Impact Payments. This guide is a means to identify the most vulnerable impacted Americans within HUD programs and services but is not an all-inclusive list of impacted Americans.

### **Office of Community Planning and Development (CPD)**

CPD will assist with reaching low-income individuals and families, particularly individuals and families experiencing homelessness. CPD recommends state and local stakeholders in the Continuum of Care serving persons experiencing homelessness that administer HUD services distribute the contents of the toolkit, specifically the IRS non-filers tax tip and EIP flyer.

### **Office of Multifamily Housing (MFH) Programs**

MFH will assist with reaching low-income individuals and families who are tenants of HUD-assisted Multifamily affordable rental housing. MFH will reach out to owners and project managers of these properties to request that they share with residents the contents of the toolkit, specifically the IRS Non-filers Economic Impact Payment flyer, which will be available for download on the Multifamily Housing webpage on HUD.gov.

### **Office of Policy Development and Research (PD&R)**

PD&R will assist with identifying opportunities for HUD assistance, and specifically, reaching Low Income Housing Tax Credit (LIHTC) tenants. For these tenants, PD& R recommends state housing finance agencies (HFAs) that administer the LIHTC distribute the contents of the toolkit, specifically the IRS non-filers tax tip and EIP flyer.

### **Office of Public and Indian Housing (PIH)**

PIH seeks to maximize information to public housing agencies (PHAs) and all areas of Native American housing. Specifically, PIH would like to maximize communication to tenants utilizing housing choice vouchers.

## **IRS Tax Tip: Low-income people are eligible to get an Economic Impact Payment**

Low-income individuals who are U.S. citizens, permanent residents or qualifying resident aliens with a work eligible Social Security number are eligible to receive an [Economic Impact Payment](#). Those who do not have a regular filing requirement can use the free, online tool [Non-Filers: Enter Payment Info](#) to quickly and easily register to receive their payment. There is also a Spanish language version of the tool available.

The Non-Filers tool is for married couples with incomes below \$24,400 or single people with income below \$12,200. This includes couples and individuals who are homeless. Usually, married couples qualify to receive \$2,400 while single people qualify to get \$1,200. People with dependents under 17 can get up to an additional \$500 for each child.

Even if a person doesn't work, they can still qualify for an Economic Impact Payment. However, if they were claimed as a dependent by someone else, they are not eligible.

If a person is not required to file a federal income tax return, they generally qualify for an Economic Impact Payment. Since the IRS does not know who these people are, the only way they can get the Economic Impact Payment is to register with the IRS.

For those who don't normally file a tax return, the process is simple and only takes a few minutes. First, visit [IRS.gov](https://www.irs.gov) and look for Non-Filers: Enter Payment Info Here. Then provide basic information including Social Security Number, name, address, and dependents.

The IRS will use this information to confirm eligibility and send the Economic Impact Payment. No tax will be due as a result of receiving the payment. Entering bank or financial account information will allow the IRS to quickly deposit the payment directly in a savings or checking account. Otherwise, the payment will be mailed. Information entered on this site is secure.

### **Who should not use the tool?**

Anyone who already filed either a 2018 or 2019 return does not qualify to use this tool. Similarly, anyone who needs to file a 2019 return should not use this tool, but instead they should file their tax returns. This includes anyone who files a return to claim various tax benefits, such as the Earned Income Tax Credit for low-and moderate-income workers and working families.

### **How to use this tool:**

Visit [IRS.gov](https://www.irs.gov), and look for "*Non-Filers: Enter Payment Info Here.*" Provide your Social Security number, name, address, and dependents. The IRS will use this information to confirm your eligibility and calculate and send you an Economic Impact Payment.

Using the tool will not result in any taxes being owed. Entering bank account information will allow the IRS to deposit your payment directly into your account. Otherwise, your payment will be mailed to you.

# Reminder Millions of Americans who don't usually have to file a tax return can still use the **Non-Filers tool** to receive their **Economic Impact Payment**.

The free **Non-Filers tool** is designed for eligible people who aren't normally required to file a tax return. Usually, this means people with incomes:

- › Below \$24,400 for married couples
- › Below \$12,200 for singles

This includes couples and individuals who are homeless. People can qualify for a payment, even if they do not have earned income or work.

Usually, married couples qualify to receive a \$2,400 payment while others normally qualify to receive \$1,200. Eligible individuals will receive up to an additional \$500 for each qualifying child.

## How do I use the **Non-Filers: Enter Payment Info tool**?

For those who are not required to file a tax return, the process is simple and only takes a few minutes.

- › First, visit **IRS.gov**, and click "**Non-Filers: Enter Payment Info Here.**"
- › Then provide basic information including Social Security number, name, address and qualifying children.
- › The IRS will use this information to confirm eligibility, calculate and send an Economic Impact Payment. No tax will be due as a result of receiving the payment.

Non-Filers: Enter Payment Info is secure, and the information entered will be safe. The tool is based on Free File Fillable Forms.

**Do not use the Non-Filers tool** if you have or plan to file a 2019 tax return, can be claimed as a dependent on someone else's 2019 tax return or received Railroad Retirement Board, Social Security retirement, disability (SSDI), Supplemental Security Income (SSI), or Veteran's benefits in 2019.

# Keep the Economic Impact Payment Notice For Your Tax Records

People who received an Economic Impact Payment this year should keep **Notice 1444**, *Your Economic Impact Payment*, with their tax records.

The hard copy notice provides information on the amount of the payment, how the payment was made and how to report any failure to receive the payment.

For security reasons, **Notice 1444** is mailed to each recipient's last known address within a few weeks after the payment is made.

It is especially important for people to keep the notice if they think their payment amount is incorrect.

When they file their 2020 tax return next year, they can refer to **Notice 1444** and claim additional credits on their 2020 tax return if they are eligible.

If a taxpayer is unsure they're receiving a legitimate notice, they should visit **IRS.gov** first to learn more about scams.

## Economic Impact Payments: Helping People with Low Income or No Income Get a Payment; Oct. 15 deadline for people to use Non-Filers tool on IRS.gov

To our partner organizations,

The IRS is working diligently to implement the Coronavirus Aid, Relief & Economic Security Act (CARES). CARES includes emergency assistance for individuals, families and businesses affected by the 2020 coronavirus pandemic, including Economic Impact Payments.

But we need your help. Many people remain eligible for Economic Impact Payments, but they aren't required to file a tax return. We want to help them receive payments of \$1,200 or more. We want to get this critical information to as many people as possible before an Oct. 15, 2020 deadline to use a special [Non-Filers tool](#) on IRS.gov.

More than 160 million payments, also called stimulus payments, have already been issued.

Many U.S. citizens and U.S. resident aliens are eligible to receive an Economic Impact Payment. The payments are up to \$1,200 per individual, and some people may be eligible for up to an additional \$500 per qualifying child. You don't need income to be eligible.

To help reach people who are eligible but don't normally file a tax return, the IRS is conducting a sweeping outreach campaign to reach everyone who may be eligible for an Economic Impact Payment.

This toolkit aims to reach people who don't normally file a federal tax return, including those without a permanent address. They need to use the [Non-Filers: Enter Payment Info Here](#) online tool on IRS.gov to sign up for their payment. It's also available in Spanish.

### The IRS asks for help reaching special groups

The IRS urges partner groups to share this with several key groups, including:

- Lower-income household without a filing requirement.
  - Individuals with income below \$12,200
  - Married couples with income below \$24,400
- People with no income
- Part-time workers
- Self-employed people
- People who work in the gig economy
- People experiencing homelessness
- Students who can't be claimed as dependents on someone else's tax return

## Multilingual materials available

To reach as many people as possible, the IRS offers many multilingual materials, including IRS.gov pages, outreach products and social media content.

- Many materials in this **Partner Toolkit** are available in English and Spanish. Social media content in this toolkit is available in English, Spanish, Chinese, Korean, Russian and Vietnamese.
- Our Economic Impact Payment online tools are available in English and Spanish on IRS.gov. They include:

## How you can help

- **Share the information in this Partner Toolkit** throughout your community and with people your organization serves. All of them are to help reach people who may not know they're eligible.
- **Share the IRS YouTube video for Non-Filers:** [Use Non-Filers Online Tool to Register for Economic Impact Payment](#)
- Please urge this audience to visit the [Non-Filers: Enter Payment Info Here](#) tool on IRS.gov.
- **SNAP and Economic Impact Payments** – Let your community know that the Economic Impact Payment doesn't count as income for SNAP (Supplemental Nutrition Assistance Program) and it's not taxable either. The Economic Impact Payment is separate from SNAP and will not be distributed on EBT (Electronic Benefits Transfer) cards.
- **For those without a bank account** - If someone wants to receive their payment in a

bank account but doesn't have one, please encourage them to visit the [FDIC website](#). FDIC has information on how to choose the right account and where to find a bank that can open an account online, if needed.

- Some individuals may not have internet access, a bank account or a permanent address and may need help getting information and claiming an Economic Impact Payment.

We appreciate anything your organization can do to help with next steps for these groups – from spreading the word to offering computer access.

## General Information about Economic Impact Payments

### Eligibility:

U.S. citizens, permanent residents and qualifying resident aliens will receive the Economic Impact Payment of \$1,200, or \$2,400 if they are married, if they:

- can't be claimed as a dependent of another taxpayer,
- have a work eligible Social Security number, and
- have adjusted gross income under:
  - \$150,000 for married couples
  - \$112,500 for head of household filers
  - \$75,000 for all other eligible individuals

Eligible retirees and recipients of Social Security retirement, survivor, or disability benefits (SSDI), Railroad Retirement benefits, Supplemental Security Income (SSI) and VA Compensation and Pension (C&P), who do not file a tax return, should have automatically received their payment where they normally receive their benefits. These benefit recipients should refer to the [Social Security, Railroad Retirement and Department of Veteran Affairs benefit recipients](#) section of the FAQs for additional information.

Eligible taxpayers who filed tax returns for 2019 or 2018 will receive the payments automatically.

People who have little or no income and didn't file a tax return or don't receive any of the federal benefits listed above may be eligible for an Economic Impact Payment, even though they aren't required to file a tax return.

### Who needs to file a federal tax return

There are individuals such as low-income workers and certain veterans and individuals with disabilities who aren't required to file a tax return, but they are still eligible for the Economic Impact Payments. Taxpayers can check the IRS.gov tool - [Do I Need to File a Tax Return?](#) - to see if they have a filing requirement.

### Who doesn't need to file a federal tax return

If you have no income, or have income below a certain amount, you are not required to file a federal tax return. You are, however, eligible for an Economic Impact Payment. If this is your situation, you can use the [Non-Filers: Enter Payment Info Here](#) tool to sign up for an Economic Impact Payment. The tool is also available in Spanish.

This tool is designed for people who did not file a tax return for 2018 or 2019 and are not required to do so under the law. Usually, this means couples with incomes below \$24,400, and singles with incomes below \$12,200 in 2019.

Here's what you need to use the *Non-Filers: Enter Payment Info Here* tool and get your Economic Impact Payment:

- Name
- Date of birth
- A mailing address where you can receive the payment and confirmation letter, which the IRS will mail within 15 days after your payment is issued
- A bank account number, if you have one, to receive your EIP faster than a mailed payment
- An email address to use the non-filer tool on IRS.gov
- Your valid Social Security Number
- Identity Protection PIN, if the IRS issued one to you in the past
- License or state ID, if you have one
- Name, SSN and relationship for each qualifying child

**Who shouldn't use the *Non-Filers: Enter Payment Info Here* tool:**

There are some people who should not use the non-filer tool at IRS.gov:

- Anyone who can be claimed as a dependent on someone else's tax return.
- Anyone who already filed either a 2018 or 2019 return.
- Anyone who needs to file a 2019 return. You should instead file your tax return. This includes anyone who files a return to claim various tax benefits, such as the Child Tax Credit and the Earned Income Tax Credit for low-and moderate-income workers and working families.

If you are filing a return, you can visit [IRS.gov/filing](https://www.irs.gov/filing) for free, electronic options including IRS Free File.

**Payment availability:**

Economic Impact Payments will be made throughout the rest of 2020. The Non-Filers tool will remain available through October 15. The IRS urges eligible people who don't earn enough to have to file a tax return to register soon to receive their payment. Anyone who registers by October 15 will receive their payment by the end of the year.

If you don't receive a payment this year, you can also claim it by filing a tax return for 2020 next year.

### **Tax Tip:**

COVID Tax Tip 2020-51, May 5, 2020: [Low-income people are eligible to get an Economic Impact Payment](#)

Low-income individuals who are U.S. citizens, permanent residents or qualifying resident aliens with a work eligible Social Security number are eligible to receive an [Economic Impact Payment](#). Those who do not have a regular filing requirement can use the free, online tool [Non-Filers: Enter Payment Info Here](#) to quickly and easily register to receive their payment. There is also a Spanish language version of the tool available.

The Non-Filers tool is for married couples with incomes below \$24,400 or single people with income below \$12,200. This includes couples and individuals who are homeless. Usually, married couples qualify to receive \$2,400 while single people qualify to get \$1,200. People with dependents under 17 can get up to an additional \$500 for each child.

Even if a person doesn't work, they can still qualify for an Economic Impact Payment. However, if they were claimed as a dependent by someone else, they are not eligible.

If a person is not required to file a federal income tax return, they generally qualify for an Economic Impact Payment. Since the IRS does not know who these people are, the only way they can get the Economic Impact Payment is to register with the IRS.

For those who don't normally file a tax return, the process is simple and only takes a few minutes. First, visit IRS.gov and look for Non-Filers: Enter Payment Info Here. Then provide basic information including Social Security Number, name, address, and dependents.

The IRS will use this information to confirm eligibility and send the Economic Impact Payment. No tax will be due as a result of receiving the payment. Entering bank or financial account information will allow the IRS to quickly deposit the payment directly in a savings or checking account. Otherwise, the payment will be mailed. Information entered on this site is secure.

### **Who should not use the tool?**

Anyone who already filed either a 2018 or 2019 return does not qualify to use this tool. Similarly, anyone who needs to file a 2019 return should not use this tool, but instead they should file their tax returns. This includes anyone who files a return to claim various tax benefits, such as the Earned Income Tax Credit for low-and moderate-income workers and working families.

Consejo Tributario de Coronavirus 2020-51SP, 5 de mayo de 2020: **Personas de bajos ingresos son elegibles para recibir pago de impacto económico**

Las personas de bajos ingresos que son ciudadanos estadounidenses, residentes permanentes o extranjeros residentes que califican con un número de Seguro Social elegible para trabajar son elegibles para recibir un [pago de impacto económico](#). Aquellos que no tienen un requisito de presentación pueden usar la herramienta gratis en línea [Non-Filers: Enter Payment Info Here](#) para inscribirse rápida y fácilmente para recibir su pago. También hay disponible una versión en español de la herramienta.

La herramienta Non-Filers está diseñada para parejas casadas con ingresos inferiores a \$24,400 o personas solteras con ingresos inferiores a \$12,200. Esto incluye parejas e individuos sin hogar. Por lo general, las parejas casadas califican para recibir \$2,400 mientras que las personas solteras califican para recibir \$1,200. Las personas con dependientes menores de 17 años pueden obtener hasta \$ 500 adicionales por cada hijo.

Incluso si una persona no trabaja, aún puede calificar para un pago de impacto económico. Sin embargo, no son elegibles si fueron reclamados como dependientes por otra persona.

Si una persona no tiene el requisito de presentar una declaración de impuestos federales, generalmente califica para un pago de impacto económico. Como el IRS no sabe quiénes son estas personas, ellos deben inscribirse con el IRS, ya que es la única manera en que pueden obtener el pago de impacto económico.

Para aquellos que normalmente no presentan una declaración de impuestos, el proceso es simple y sólo toma unos minutos. Primero, visite [IRS.gov](#) y busque Non-Filers: Enter Payment Info Here. Luego proporcione información básica, incluido el número de seguro social, el nombre, la dirección y los dependientes.

El IRS usará esta información para confirmar la elegibilidad y enviar el pago de impacto económico. No se adeudarán impuestos como resultado de recibir el pago. Ingresar la información de la cuenta bancaria o financiera permitirá al IRS depositar rápidamente el pago directamente en una cuenta de ahorros o corriente. De lo contrario, el pago se enviará por correo. La información ingresada en este sitio es segura.

### **¿Quién no debe usar la herramienta?**

Cualquier persona que ya haya presentado una declaración de 2018 o 2019 no califica para usar esta herramienta. Del mismo modo, cualquiera que necesite presentar una declaración de 2019 no debe usar esta herramienta, sino que debe presentar sus declaraciones de impuestos. Esto incluye a cualquiera que presente una declaración para reclamar varios beneficios tributarios, como el Crédito Tributario por Ingreso del Trabajo para personas y familias trabajadoras de bajos y moderados ingresos.

## News release:

IR-2020-111, June 3, 2020: [159 million Economic Impact Payments processed; Low-income people and others who aren't required to file tax returns can quickly register for payment with IRS Non-Filers tool](#)

WASHINGTON — With 159 million Economic Impact Payments processed, the Internal Revenue Service reminds many low-income Americans who don't usually file tax returns to [register](#) for a payment by October 15.

Millions of low-income people and others who aren't required to file a tax return may be eligible for an Economic Impact Payment and can easily register for a payment by using the free [Non-Filers tool](#), available only on IRS.gov.

"IRS employees worked around the clock to deliver the Economic Impact Payments and new tools to help taxpayers in record time," said IRS Commissioner Chuck Rettig. "Even with these unprecedented steps, there remain people eligible for these payments who need to take action. Registering to receive the payments is easy, and millions of non-filers have already taken this step. We urge everyone to share this information widely to help more people receive these payments."

In the past two months, more than 159 million Americans have received Economic Impact Payments totaling almost \$267 billion. Of the payments, 120 million were sent to Americans by direct deposit, 35 million by check and 4 million payments were made in the form of a pre-paid debit card. This includes payments sent to those who usually do not have to file a tax return but receive retirement, survivor or disability benefits under various programs administered by the Social Security Administration as well as the Department of Veterans Affairs and the Railroad Retirement Board who qualify. These individuals can use [Get My Payment](#) to check on their payment status.

## Non-Filers tool on IRS.gov helps millions; special feature remains available through October 15

To help people who aren't normally required to file a tax return, the IRS created the [Non-Filers tool](#), available in English and Spanish, in partnership with the Free File Alliance. The Non-Filers tool is designed for people with incomes typically below \$24,400 for married couples, and \$12,200 for singles. This includes couples and individuals who are homeless. People can qualify, even if they do not have earned income or work. Usually, married couples qualify to receive a \$2,400 payment while others normally qualify to get \$1,200. People with qualifying children under 17 can get up to an additional \$500 for each child. Anyone who already filed either a 2018 or 2019 return does not qualify to use this tool.

The Non-Filers tool will remain available through the summer and fall, though many eligible people without a filing obligation have already received an Economic Impact Payment. The IRS urges every other eligible non-filer to register soon to quickly receive their payment. Anyone who registers by October 15 will receive their payment by the end of the year.

To help reach these non-filers, over the next few months the IRS will be conducting an extensive outreach and education effort to partner groups who serve homeless individuals, underserved communities, limited English households and others. As part of this effort, the

agency has created an [Economic Impact Payment partner](#) page, and materials are available in multiple languages.

The IRS cautions that some people who need to file a tax return have been mistakenly using the Non-Filers tool to try to get an Economic Impact Payment.

**IR-2020-111SP, 3 junio de 2020 – [159 millones de pagos de impacto económico procesados; personas de bajos ingresos y otros sin requisito de presentar impuestos pueden inscribirse rápidamente con herramienta Non-Filers del IRS](#)**

WASHINGTON — Con 159 millones de pagos de impacto económico procesados, el Servicio de Impuestos Internos les recuerda a muchos estadounidenses de bajos ingresos que usualmente no presentan declaraciones de impuestos que deben [inscribirse](#) para un pago para el 15 de octubre.

Millones de personas de bajos ingresos y otros que no están obligados a presentar una declaración de impuestos podrían ser elegibles para un pago de impacto económico y pueden inscribirse rápidamente mediante el uso de la herramienta gratuita [Non-Filers](#), disponible sólo en IRS.gov.

"Los empleados del IRS trabajaron incansablemente para entregar los pagos de impacto económico y nuevas herramientas para ayudar a los contribuyentes en tiempo récord", dijo Chuck Rettig, Comisionado del IRS. "Incluso con pasos sin precedentes, todavía hay personas elegibles para recibir estos pagos que deben tomar acción. Inscribirse para recibir los pagos es fácil, y millones de personas que no tienen que presentar una declaración de impuestos ya dieron este paso. Instamos a todos a compartir ampliamente esta información para ayudar a más personas a recibir estos pagos".

En los pasados dos meses, más de 159 millones de estadounidenses han recibido pagos de impacto económico por un total de \$267 mil millones de dólares. De los pagos, 120 millones se enviaron a estadounidenses mediante depósito directo, 35 millones por cheque y 4 millones de pagos se realizaron en forma de tarjeta de débito prepagada. Esto incluye pagos enviados a personas que usualmente no tiene que presentar impuestos, pero reciben beneficios de jubilación, sobreviviente o discapacidad bajo varios programas administrados por la Administración del Seguro Social, así como el Departamento de Asuntos de Veteranos y la Junta de Retiro Ferroviario e incluyen aquellos que generalmente no tienen que presentar una declaración de impuestos. Estas personas pueden usar [Obtener mi pago](#) para verificar cuándo recibirán su pago.

**La herramienta Non-Filers en IRS.gov ayuda a millones; característica especial permanece disponible hasta el 15 de octubre**

Para ayudar a las personas que normalmente no están obligadas a presentar una declaración de impuestos, el IRS creó la [herramienta Non-Filers](#) disponible en inglés y español, en asociación con Free File Alliance. La herramienta *Non-Filers* está diseñada para personas con ingresos generalmente inferiores a \$24,400 para parejas casadas y \$12,200 para solteros. Esto

incluye parejas e individuos sin hogar. Las personas pueden calificar, incluso si no tienen ingresos ganados o trabajo. Por lo general, las parejas casadas califican para recibir un pago de \$2,400 mientras que otras normalmente califican para recibir \$1,200. Las personas con hijos calificados menores de 17 años pueden obtener hasta \$500 adicionales por cada hijo. Cualquier persona que ya haya presentado una declaración de 2018 o 2019 no califica para usar esta herramienta.

La herramienta *Non-Filers* permanecerá disponible durante el verano y el otoño, aunque muchas personas elegibles sin una obligación de presentación ya recibieron un pago de impacto económico. El IRS insta a todos los demás que son elegibles y que no presentan declaraciones de impuestos a inscribirse pronto para recibir rápidamente su pago. Cualquier persona que se inscriba antes del 15 de octubre recibirá su pago antes de fin de año.

Para ayudar a alcanzar las personas que no tienen una obligación de presentar una declaración de impuestos, en los próximos meses, el IRS llevará a cabo un amplio esfuerzo de publicidad y educación a grupos asociados que sirven a personas sin hogar, comunidades desatendidas, hogares que no dominan el inglés y muchos otros. Como parte de este esfuerzo, la agencia creó una página de [socios de pago de impacto económico](#) y materiales están disponibles en varios idiomas.

El IRS advierte que algunas personas que necesitan presentar una declaración de impuestos han estado usando por error la herramienta Non-Filers para tratar de obtener un pago de impacto económico.
