HUD.gov Drupal Documentation

Overview
This is to be used as a user guide to login to the hud.gov Drupal interface, create content, edit content, approve content and upload files.

Intended Audience
This document is intended for use by those individuals seeking to add content to the HUD.gov web environment using hand coded html. This document assumes the reader already has a basic knowledge of Hyper Text Markup Language and Cascading Style Sheets.

Change to Needs Review/Change to Draft

Needs Review

Change to Published/Change to Draft

Published
Create Content

CREATE CONTENT is used for creating new pages.

To create a new page:

1. Select the Template from the list
2. Enter Title (a required field), Name, and Bread Crumb
3. Put in your codes/content in the Body section, using either Source or WYSIWYG
4. There is an option to add Slideshows. If the page does not need a slide, skip that.
5. Once the page is updated with content, click “Save”.
6. Now if you go back to “All Content” you can see the page, you just created, under “My Edits”.
7. You can edit the page by clicking on that item, or clicking ‘edit’ under Action column.
8. Once a page is saved, it goes to the My Drafts.
9. Click on “My Drafts” > View moderation history
10. If you have the approval rights, you can approve your page from “Needs Review”. Click Apply. It will go to Published > Click Apply if the page looks good.
11. Click View to see the published page

Webpage Creation

To create a new page, first click on CREATE CONTENT from the top navigation menu.

Then from the Create Content page select HUD.PO.HH.HOMEPAGE.TEMPLATE. The templates available for the user are based on user roles. More details of Appendix B: User Roles and Appendix A: Template List are available. The following Page Creation screen will allow you to input your content into the Homepage Template
**Title:** The title field will be displayed in your browser’s title bar.

**Bread Crumb:** This text will be displayed in the bread crumb section of the www.hud.gov site.

**Body:** The body field is the main content area for your page. A **WYSIWYG** editor may be used by default to enter content, or clicking on the “Source” button will allow you to enter code directly.

Following features are available using **WYSIWYG**.

- Insert an existing image
- Upload a new image
- Insert an existing file
- Upload a new file
- Add a hyperlink to an existing file
- Add an external hyperlink
- Add an internal hyperlink
Click the “Image” icon to upload/insert an image into the body. The following screen for “Image Properties” is displayed. If you know the path of the image, you can place it in the URL.

**Note: It is recommended to use relative path for the images.**

If you would like to insert/upload an image. Click on the “Browser Server”. More details are available in “File Browser” section.
Click the “Link” icon from WYSIWYG editor to add a link. A screenshot is provided below. More details are available at “Link” section.
**Slideshow:** The slideshow section allows you add rotating slides to your landing pages. More details are available at “Slideshow” section.

**Note:** The slideshow can only be used with the **Homepage Template(s)**.

**RightSide-FreeHTML:** This section is for optional content and is placed in the right-hand column of the page. In the **Homepage Template**, the right-hand column will display next to the slideshow.

---

The Slideshow section and RightSide-FreeHTML sections are optional content which may be used to add a slideshow and content for the right-hand column.

---

Once the page is updated with content, click “Save”.

By default, all the pages get saved in “Draft” mode. In order to view the drafts, click on the “My Drafts” link from the top menu. Change the status to “Needs Review”.
If you have the approver permissions, you will be able to see the page under “Needs Review”. Click on “Change to Published” if the page looks good. Click on “Change to Draft” if there are further changes to be made to the webpage.

The newly published page will now show up under “All Content” from the top navigation menu. Your page will be listed under “My Edits”. You may make additional edits by clicking ‘edit’ under Action column.
All Content
The user can browse through the pages, can search or filter the pages using the Title, Type, or Published status. The users will be able to edit only the pages they have access to.

My Drafts
My Drafts will show you any page that was saved as Draft and not sent for review.
Needs Review

*Needs Review* will show any page that needs to be reviewed before pushing to Production.

![Image of Needs Review page](image1.png)

**File Browser**

Search, Upload, Browse, or Delete images and documents using the *File Browser*.

![Image of File Browser](image2.png)

Based on *Appendix B: User Roles*, the web managers will have access to specific Program Office folders. Each Program Office folder will have “Images” and “Documents” subfolders. Web Managers can *upload*, *delete* and *search* for images in these subfolders.
The Global “Images” and “Documents” folder is “Read-only” for Web Managers. Web Administrators have full access to these Global Images and Documents folders. Web Administrators will be able to upload/delete files in these global folders.

“Multiple Files” can be uploaded using the File Uploader. Files can be selected one at a time, multiple files at a time or dragged and dropped into the folder.
Search feature is available in all the folders. Click on a specific folder and select “Search” from the options.

My Profile
My profile contains Users’ login information
While creating a new content or editing an existing content, “Link” can be inserted using WYSIWYG editor. The following different types of links can be created using this widget.

1. **External link**
   - Select “URL” as “Link Type”
   - Select “http or https” as “Protocol”
   - Enter the URL in the URL field

2. **Internal link**
   - Select “Internal Path” as “Link Type”
   - Start typing the “Title” of the page you want to include and select the appropriate webpage from the options available.
3. Link to an existing document
   Select “URL” as “Link Type”
   Select “Other” as “Protocol”
   Enter relative path of the file in the “URL” if you are already aware of the file path.
   To insert an existing file as a link, click on “Browser Server”.

   ![File URL path: /sites/dfiles/documents/test.txt]

**Slideshow**

**Note:** The Slideshow creation tool is located in the Page Creation screen

Click on the SlideShow text located within the grey bar.

This will open the options for adding a new slide. In order to add additional slides, click on the blue **Add another item** button.

Slide sizes for landing pages (Width: 1200 pixels  Height: 475 pixels)

Slides can be re-ordered by dragging the icon into position
**SlideShow Headline**: This field will display as the Headline on the slide

**SlideShow Description**: This field will display the content after the headline

**SlideShow ImagePath**: Click on “Choose File” to select the image you would like to use.

**SlideShow ImageAlt**: Alternate Text for the Slideshow Images

**SlideShow ImageLink**: The URL link from the Image

**SlideShow ImageLinkTarget**: By default it opens on the same page. If you want it to open on a new browser window, enter `_blank`.

**SlideShow ButtonLink**: The URL link from the Button

**SlideShow ButtonLinkTarget**: By default it opens on the same page. If you want it to open on a new browser window, enter `_blank`.

**SlideShow Caption**: The Caption that will appear on Hover on the Image.

```
Appendix C: Custom Classes

The following classes can be used to identify Titles, Subtitles on Press Release and other pages. All the custom classes are provided with examples of code snippets on how to use them.

Press Release Styles

**Press Release Header:**
font-family: 'Poppins', sans-serif;
font-size: 18px;
font-weight: 500;

**Press Release SubTitle:**
font-family: 'Poppins', sans-serif;
font-style: italic;
font-size: 18px;

June marks National Homeownership Month, a time to highlight efforts to help families achieve affordable and sustainable homeownership. HUD Secretary Marcia L. Fudge has made it a central priority to help families realize the dream of homeownership.

A home is more than four walls and a roof. It is our bedrock—a place that serves as a bridge to greater opportunity and a better life. A home can connect us to better jobs, more affordable transportation options, and communities with cleaner air and cleaner water. It is a place that can help build wealth that can be passed down to generations to come.

The dream of homeownership and the security and wealth creation that comes with it is out of reach for too many Americans. This is especially true in the wake of the economic devastation brought on by the COVID-19 pandemic and the shortage of available affordable housing inventory.
HUD's mission is to create strong, sustainable, inclusive communities and quality affordable homes for all.

More information about HUD and its programs is available at

HUD COVID-19 Resources and Fact Sheets
