7. Employee Justification (attach additional pages if necessary)

FHA Single Family requires that mortgagees must select early payment defaults (EPD) for review on a monthly basis. EPDs are FHA-insured mortgages that become 60 days delinquent within the first six payments. The mortgagee performs a loan file compliance review for all EPD selections to insure the mortgagee complied with FHA Single Family origination and underwriting requirements. As a result of the catastrophic disasters associated with the Presidentially Declared Major Disaster Areas (PDMDA) of Hurricanes Harvey, Irma and Maria, and the California Wildfires, there is a significant increase in EPDs in these PDMDAs. These EPDs are likely the result of loss of employment, income, property damage/repairs, forced relocation, etc., and not the result of non-compliance with FHA Single Family origination and underwriting requirements. Therefore, FHA is waiving its loan level quality control program loan file selection requirements found in 4000.1 Section V.A.3.a.i(C) and 4000.1 Section V.A.3.a.iv(B)(2), for FHA-insured mortgages in these PDMDAs that have a mortgage Closing Date before the start date for the respective Incident Period as determined by the Federal Emergency Management Agency (FEMA), and that meet the definition of an early payment default (4000.1 Section V.A.3.a.iv(B)(1)) and became early payment defaults between September 1, 2017 and February 28, 2018. With this waiver, mortgagees do not need to include EPDs in the origination and underwriting loan file compliance review activities found in 4000.1 Section V.A.3.c for FHA-insured mortgages in these PDMDAs that have a mortgage Closing Date before the start date for the respective Incident Period as determined by FEMA, and meet the definition of an early payment default (4000.1 Section V.A.3.a.iv(B)(1)) and became early

### Section 7

Employee Justification

FHA Single Family requires that mortgagees must select early payment defaults (EPD) for review on a monthly basis. EPDs are FHA-insured mortgages that become 60 days delinquent within the first six payments. The mortgagee performs a loan file compliance review for all EPD selections to insure the mortgagee complied with FHA Single Family origination and underwriting requirements. As a result of the catastrophic disasters associated with the Presidentially Declared Major Disaster Areas (PDMDA) of Hurricanes Harvey, Irma and Maria, and the California Wildfires, there is a significant increase in EPDs in these PDMDAs. These EPDs are likely the result of loss of employment, income, property damage/repairs, forced relocation, etc., and not the result of non-compliance with FHA Single Family origination and underwriting requirements. Therefore, FHA is waiving its loan level quality control program loan file selection requirements found in 4000.1 Section V.A.3.a.i(C) and 4000.1 Section V.A.3.a.iv(B)(2), for FHA-insured mortgages in these PDMDAs that have a mortgage Closing Date before the start date for the respective Incident Period as determined by the Federal Emergency Management Agency (FEMA), and that meet the definition of an early payment default (4000.1 Section V.A.3.a.iv(B)(1)) and became early payment defaults between September 1, 2017 and February 28, 2018. With this waiver, mortgagees do not need to include EPDs in the origination and underwriting loan file compliance review activities found in 4000.1 Section V.A.3.c for FHA-insured mortgages in these PDMDAs that have a mortgage Closing Date before the start date for the respective Incident Period as determined by FEMA, and meet the definition of an early payment default (4000.1 Section V.A.3.a.iv(B)(1)) and became early payment defaults between September 1, 2017 and February 28, 2018. Mortgagees must continue to meet the loan file selection requirements in 4000.1 Section V.A.3.a.i(A) Pre-Closing Reviews, (B) Post-Closing Reviews and (D) Servicing Reviews.
