**SUBJECT: Annual Revisions to Base City High Cost Percentage, High Cost Area and  
Per Unit Substantial Rehabilitation Threshold for 2021**

Maximum mortgage amounts were revised by the Consolidated Appropriations Act, 2008 (Public Law 110-161, approved December 26, 2007) (FY 2008 Appropriations Act). Section 221 of the General Provisions of Title II of Division K of the FY 2008 Appropriations Act revises the statutory exceptions to maximum mortgage amounts for the FHA Multifamily Housing Programs, listed in Section 221 of the FY 2008 Appropriations Act, by:

- (1) substituting 170 percent for the 140 percent exception of any geographical area, and
- (2) substituting 215 percent for 170 percent as the maximum exception allowed for a specific project.

Accordingly, the statutory revision allows the Secretary to grant exceptions to maximum mortgage limits for certain Multifamily Housing Programs by:

- (1) up to 170 percent, (equivalent to a 270 percent multiplier) in geographical areas where cost levels so require or
- (2) up to 215 percent in High Cost Areas, (equivalent to a 315 percent multiplier) where necessary on a project-by-project basis.

The law does not determine which areas are to be considered “High Cost Areas.” Accordingly, the Office of Multifamily Production has developed a list of High Cost Areas for 2021. The threshold for a High Cost Area has been set for all areas (Special Limit Areas excepted) with a “calculated” High Cost Percentage (HCP) of 342.16 or greater. For these High Cost Areas shaded in the chart below (Special Limit Areas excepted), the maximum mortgage amount may be increased by up to 215 percent, (equivalent to a 315 percent multiplier), where necessary on a project-by-project basis. For the remaining unshaded geographical areas, the maximum mortgage amount may be increased by up to 170 percent (equivalent to a 270 percent multiplier). The 315 percent multiplier is not available for projects in the unshaded geographical areas.

The attached designated Annual Base City High Cost Percentages and High Cost Areas are effective January 1, 2021, for FHA multifamily mortgage insurance Firm Commitment applications and for amendments which have not been initially endorsed. The area multiplier is to be used for all localities in the state if only one city has been named in any state. If multiple cities are named in any state, use the multiplier for the city closest to the location of the city named in this Notice.

### **PER UNIT LIMIT FOR SUBSTANTIAL REHABILITATION FOR CALENDAR YEAR 2021**

The 2016 Multifamily Accelerated Processing (MAP) Guide established a base amount of \$15,000 per unit to define substantial rehabilitation for FHA insured loan programs. Section 5.1.2.A.2.b of the [2020 MAP Guide](#) requires that this base amount be annually adjusted for inflation based on the percentage change published by the Bureau of Labor Statistics of the Department of Labor or other inflation cost index. Accordingly, the 2021 base amount per dwelling unit to determine substantial rehabilitation for FHA insured loan programs is \$16,299 and was calculated using the CPI-U cost index increase of 0.3 percent as applied to the previous year’s base amount.<sup>1</sup>

### **SPECIAL LIMIT AREAS**

Guam, the U.S. Virgin Islands, and the states of Alaska and Hawaii are Special Limit areas. The HCP for Special Limit Areas is 405 percent.

---

<sup>1</sup> For 2021, HUD implemented the Consumer Finance Protection Bureau’s adjustment period and a one-time proration is required to the 0.3 percent figure, which was computed from April 2019 to April 2020 (see 85 FR 50944, Aug. 19, 2020). Because HUD’s previous Dollar Amounts utilized CPI-U data through December 2019, only interim CPI-U data from January 2020 through April 2020 is reflected in the table calculations. The overall impact of this adjustment resulted in no change for Calendar Year 2021, because CPI-U showed minor inflation of 1 percent in January and February 2020, but was fully offset by minor deflation of 1 percent in March and April 2020, associated with COVID-19 pandemic economic disruptions.
