Subject 2022 Nationwide Forward Mortgage Limits

Purpose The Federal Housing Administration (FHA) calculates forward mortgage limits based on the median house prices in accordance with the National Housing Act. FHA’s Single Family forward mortgage limits are set by Metropolitan Statistical Area (MSA) and county and are published periodically. FHA publishes updated limits effective for each calendar year. FHA sets these limits at or between the low-cost area and high-cost area limits based on the median house prices for the area as further described below.

Effective Date Forward mortgage limits for calendar year 2022 are effective for case numbers assigned on or after January 1, 2022.

Requests for Local Increases (Appeals) Any request for a change to high-cost-area loan limits, must comply with the existing guidance in HUD Handbook 4000.1, Section II.A.2.a.ii(A), except that, for the calendar year 2022 loan limits only, this Mortgagee Letter amends the method for submitting any request for a change. Requests must be e-mailed to Answers@HUD.gov with the subject line of 2022 Loan Limits Appeal no later than 30 days from the publication date of this Mortgagee Letter. Requests for a change will only be considered for counties for which HUD does not already have home sales transaction data for the calculation of mortgage limits. Any changes in area loan limits because of valid appeals will be in effect retroactively for case numbers assigned on or after January 1, 2022.
This guidance will affect HUD’s Single Family Housing Policy Handbook 4000.1 (Handbook 4000.1), section II.A.2.a.ii(B) – *Low-cost Area*; section II.A.2.a.ii(C) – *High-cost Area*; and section II.A.2.a.ii(D) – *Special Exceptions for Alaska, Hawaii, Guam, and the Virgin Islands*.

Loan limits are determined by the county in which a property is located, except for properties located in Metropolitan Statistical Areas (MSAs) as defined by the Office of Management and Budget. The limits in these areas are set using the county with the highest median price within the metropolitan statistical area. For purposes of conforming high-cost-area limits to the indexing of the base Freddie Mac loan limit required in 305(a)(2) of the Federal Home Loan Mortgage Corporation Act, HUD uses indexing of county-level prices starting in 2008, the year that current statutory authorities for FHA loan limit determination were enacted. That implies that, when determining high-cost area limits, HUD defines the highest median price over time as well as across counties.
