2. Show the preparing office down to the branch level, if applicable.
3. Give the number and title of the HUD schedule to be changed.
4. Specify the type of change recommended by marking the appropriate box and filling in the related blanks, if any. Recommend how the item should be worded or make other comments on plain bond and attach to this form. A separate form should be prepared for each item to be added, changed or deleted. For a new schedule item, attach a copy of the completed File Survey form (HUD-67) covering the new record series.
5. Provide justification for the change. Changes involving retention periods must be based on specific administrative, legal or fiscal requirements.
6. Include the signature and title of the head of the preparing office and the date.
7. Block 7 is to be completed by the reviewing office identified in item 1, above. Complete the block as follows:  
Enter the name of the reviewing office. Then make any appropriate remarks or recommendations on the proposed change. Finally, include the signature and title of the reviewing office official and date. After completing block 7, the reviewing office will keep 1 copy and send the original and 1 copy to the Departmental Records Management Officer in Headquarters.
8. The Departmental Records Management Officer (DRMO) will review and evaluate the request and the reviewing office's recommendations and will also coordinate the request with other affected offices. If the DRMO concurs, he/she will mark the appropriate box and submit the proposed change to the General Accounting Office, if needed, and to the National Archives and Records Administration for approval. If the DRMO does not concur, she/he will mark that box and give the reasons for the nonconcurrency. In either case, the DRMO will sign and date item 8 and keep the original of the request. The remaining copy will be returned to the preparing office as notice of the action taken.
