

## Project Summaries of the FY 2022 Radon Testing and Mitigation Demonstration and Healthy Homes and Weatherization Cooperation Demonstration Awardees

### Alabama

**Applicant:** Huntsville Housing Authority

**Requested Amount:** \$594,106

**Recommended Amount:** \$558,800

**Project Title:** Radon Testing and Mitigation Demonstration for Public Housing

The Huntsville Housing Authority (HHA) is located in EPA Radon Zone 1, with the highest potential for elevated radon levels, and will be awarded \$558,800 to conduct radon testing and mitigations of building with units having radon levels at or above the EPA action level of 4 pCi/l. Radon testing will be conducted in 129 units, of which 127 are ground floor units, and plan to mitigate in 127 units. This figure was based on the results from Radon testing that HHA completed between 2020 and 2021.

### Illinois

**Applicant:** Lake County Housing Authority

**Requested Amount:** \$599,670

**Recommended Amount:** \$593,670

**Project Title:** Radon Testing and Mitigation Demonstration for Public Housing

The Lake County Housing Authority is located in EPA Radon Zone 2, with the moderate potential for elevated radon levels, and will be awarded \$593,670 to conduct radon testing and mitigations of building with units having radon levels at or above the EPA action level of 4 pCi/l. Radon testing will be conducted in 143 units with plans to mitigate 73 units. This project is expected to protect approximately 458 adults and 226 children.

### Indiana

**Applicant:** East Chicago Housing Authority

**Requested Amount:** \$596,536

**Recommended Amount:** \$561,786

**Project Title:** Radon Testing and Mitigation Demonstration for Public Housing

East Chicago Housing Authority, located in EPA Zones 1 and 2, with moderate and highest potential for elevated radon levels, will be awarded \$561,786 to conduct radon testing and mitigation of buildings with units at or above the EPA action level of 4 pCi/L. This project will assess and mitigate, as necessary, 122 scattered-site ground-level units that are occupied by families.

## Indiana

**Applicant:** Indiana Housing and Community Development Authority

**Requested Amount:** \$1,000,000.00

**Recommended Amount:** \$1,000,000.00

**Project Title:** Marion County Healthy Homes and Weatherization Cooperation Demonstration  
The Indiana Housing and Community Development Authority (IHCDA) is both a grantee under the Healthy Homes Production Grant (HHP) and a grantee of the Department of Energy's Weatherization Assistance Program (WAP). As IHCDA administers both HHP and WAP grants, IHCDA is primed to coordinate activities between the two programs and to work alongside several critical partners. IHCDA's Real Estate Development Department will share responsibility with the Community Programs Energy and Utilities Weatherization Team for the overall administration of the Project. The program will be piloted in Marion County, in which the grant's target area includes 109 census tracts, of which 49% are considered disadvantaged per the Justice40 Initiative. The project is targeting 60 housing units.

## Kansas

**Applicant:** City of Topeka Housing Authority

**Requested Amount:** \$435,750

**Recommended Amount:** \$435,750

**Project Title:** Topeka Housing Authority Radon Testing and Mitigation Project

The City of Topeka Housing Authority, located in EPA Radon Zone 1, with the highest potential for elevated radon levels, will be awarded \$435,750 to conduct radon testing and mitigation of developments with units having radon levels at or above the EPA action level of 4 pCi/L. Radon testing and, as needed, mitigation will be conducted in 10 developments that include 744 housing units. This project is expected to protect approximately 1,100 people, including children.

## Kentucky

**Applicant:** Bowling Green Housing Authority

**Requested Amount:** \$484,483

**Recommended Amount:** \$484,483

**Project Title:** Radon Testing and Mitigation Demonstration for Public Housing

The Bowling Green Housing Authority (BGHA) is located in EPA Radon Zone 1, with the highest potential for elevated radon levels, and will be awarded \$484,483 to conduct radon testing and mitigations of building with units having radon levels at or above the EPA action level of 4 pCi/l. Radon testing will be conducted in 598 residential units, of which 580 are ground floor units, and plans to mitigate 150 units. This project is expected to protect approximately 1,436 persons.

**Applicant:** Louisville Metro Housing Authority

**Requested Amount:** \$600,000

**Recommended Amount:** \$600,000

**Project Title:** Radon Testing and Mitigation Demonstration for Public Housing

The Louisville Metro Housing Authority (LMHA), located in EPA Radon Zone 1, with the highest potential for elevated radon levels, will be awarded \$600,000 to conduct radon testing and mitigation of building with units at or above the EPA action level of 4 pCi/L in eight developments. The work will be conducted in two phases. Phase 1 will involve 630 units (of which 258 are ground floor units) and will impact 1,260 residents of which approximately 34% are children. Phase 2 will involve 1,900 units (of which 772 are ground floor units) and is expected to protect 3,800 residents including children.

## Missouri

**Applicant:** The Housing Authority of the City of Lee's Summit

**Requested Amount:** \$425,952

**Recommended Amount:** \$425,952

**Project Title:** Radon Testing and Mitigation Demonstration for Public Housing

Lee's Summit Housing Authority (LSHA), located in EPA Radon Zone 1, with the highest potential for elevated radon levels, will be awarded \$425,952 to conduct radon testing and mitigation of building with units at or above the EPA action level of 4 pCi/L. The project will be conducted in two developments with a total of 116 single-family units, all of which are in contact with ground level.

## Ohio

**Applicant:** Springfield Metropolitan Housing Authority

**Requested Amount:** \$599,990

**Recommended**

**Amount:** \$590,435

**Project Title:** Radon Testing and Mitigation Demonstration for Public Housing

Springfield Metropolitan Housing Authority (SMHA) located in EPA Radon Zone 1, with the highest potential for elevated radon levels, will be awarded \$590,435 to conduct radon testing and mitigation of building with units at or above the EPA action level of 4 pCi/L. Radon testing and mitigation will be conducted in 252 units, most of which are ground floor units. This project is expected to protect 1,314 persons.

## Tennessee

**Applicant:** Newport Housing Authority

**Requested Amount:** \$253,650

**Recommended Amount:** \$253,650

The Newport Housing Authority (NHA) is located in EPA Radon Zone 2, with moderate potential for elevated radon levels, and will be awarded \$253,650 to conduct radon testing and mitigation of buildings with units having radon levels at or above the EPA action level of 4 pCi/l. Radon testing will be conducted in 117 single-family units.

This project is expected to protect approximately 292 residents, including children.

## Virginia

**Applicant:** Roanoke Housing Authority

**Requested Amount:** \$449,000

**Recommended Amount:** \$449,000

**Project Title:** Radon Testing and Mitigation Demonstration for Public Housing

The Roanoke Housing Authority (RHA), located in EPA Radon Zone 1, with moderate potential for elevated radon levels, and will be awarded \$449,000 to conduct radon testing and mitigation of building with units at or above the EPA action level of 4 pCi/L. The project will be conducted in four developments, where 237 units will be tested for radon with proposed plans to mitigate 30 units. Previous testing showed elevated levels in some units.

This project is expected to protect approximately 1,192 persons.
