## TOOLS

### **Utilization Update**

As we wait for final funding enclosures and the 2022 HCV Funding Implementation Notice, please continue to use the <u>HCV Tools</u> available, notably the Two-Year Tool, to continue operating with confidence during this period. The Year 2 funding in the Two-Year Tool will be quite close to the final funding a PHA receives, helped greatly by the inclusion of unofficial final 2022 inflation factors.

In using the Two-Year Tool, PHAs should plan leasing and spending (including adjustment of payment standards) to responsibly minimize reserves, which are currently at all-time highs and continuing to climb. PHAs spending down reserves will need to spend over 100% of annual budget authority. Using Years 2 and 3 of the Tool will allow this to be done for 2022, while creating a stable plan for 2023.

### **Guideposts**

Each month we'll be highlighting an <u>HCV</u> <u>Guidebook</u> chapter, which provides an easy-touse, one-stop resource to assist public housing agencies (PHAs), families and other stakeholders in the administration of voucher program.

### **Housing Search and Leasing Chapter**

The <u>"Housing Search and Leasing chapter</u>" describes the voucher briefing process, Housing Choice Voucher (HCV) issuance, housing search, tenancy approval, and the leasing processes. The chapter covers the following topics:

- Briefings
- Subsidy standards

- Voucher issuance
- Search time, extensions, and voucher expirations
- Assisting families during the housing search
