

## Chapter 11: View Prior Year AFS Data Submission

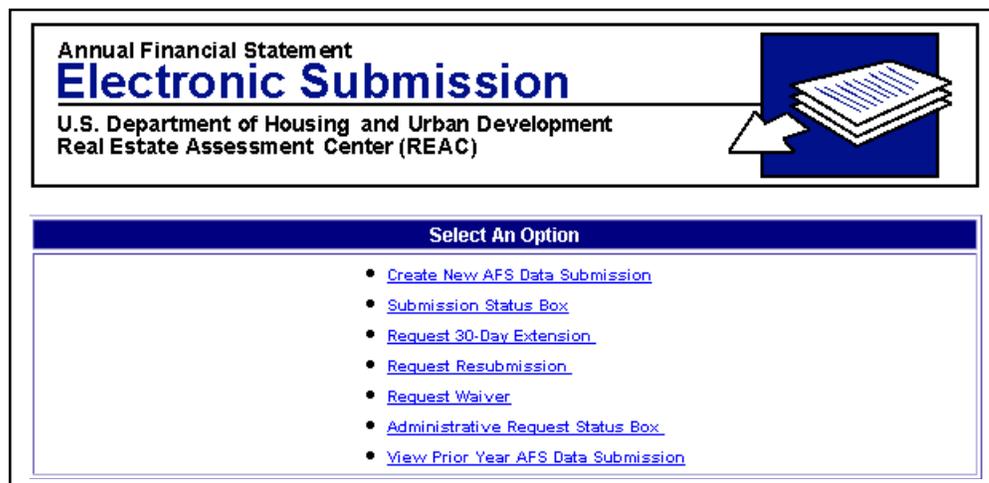

The View Prior Year AFS Data Submission will continue to be an option on the Selection Options Menu although HUD has discontinued the requirement that the auditor perform the Agreed Upon Procedures for the prior year's submission (Auditor Indicator Code "K\*"). Please note that the auditor is still required to perform the Agreed Upon Procedures for the current year's submission. See Chapter 8 for the CPA Attestation process. The interface to View Prior AFS Data Submission will be retained solely for the convenience of the user.

\*The Auditor Indicator Code K, "Verification of Electronic Submission," has been deleted. As a result, auditors no longer have to verify that the electronic submission of the previous period's financial statement matches the hard-copy in the auditor's work papers.

Users with Submitter (SUB) or CPA Certifier (CPC) roles for specific properties can select the View Prior Year AFS Data Submission link to view any prior year's electronic annual financial statement submission for selected properties. It is important to note that recently submitted statements are not immediately available for viewing. The format of the report displays the account numbers, account descriptions, and values associated with each account for the selected AFS. A user is required to enter the Fiscal Year Ending (FYE) of the entity for a specific reporting period, (e.g., 12/31/2000).
