GREETINGS FROM THE ADMINISTRATOR

Mark Butterfield with Freida Porter from the Lumbee Tribe of North Carolina

Greetings!

IHBG Competitive NOFA. This past week on June 25 and 26th the Eastern Woodlands Office of Native American Programs hosted a training in our Chicago Office to prepare Grantees in the Region for applying for the IHBG Competitive NOFA. Some of the key components of the plan are that the funding available will combine both FY 2018 and FY 2019's Competitive Grants so that the total amount expected to be awarded is \$198 million. The maximum grant any one applicant can receive is \$5 million. The minimum grant eligible is \$100,000. To be clear, the total project cost with the match can ex-

(Continued on page 2)

GREETINGS FROM THE ADMINISTRATOR (CONTINUED)

(Continued from page 1)

ceed \$5 million, but any project that asks for more than \$5 million in the grant portion will be automatically excluded from consideration. For example, you could have a project to build subdivision with 30 homes averaging \$150,000 which would cost \$4,500,000 and have another \$600,000 in infrastructure costs in water, sewer, gas and electric lines throughout the subdivision for a total of \$5,100,00 total cost, so long as you had the match money that would cover the extra \$100,000.

What was also clear is that new construction is favored by the award of 10 points if all of the grant is geared toward construction, with rehabilitation of housing the next highest favored project at 7 points under Factor 3.1. As the presenter explained, HUD will give a grantee with a combined project the highest amount of points available, but one cannot add points in two categories to exceed the maximum of 10 points. This is a Nationwide competition that is designed to reward those projects garnering the highest amount of points. All this information is contained in the materials available at the presentation. EWONAP has a few extra copies of the presentation should a Grantee request them, but given the deadline of August 8, 2019, it should be self-evident that any such request should be made as soon as possible so a grantee can read and digest the materials prior to completing the application.

It was also announced that ONAP expects the awards for these IHBG Competitive Grants to be announced in four to six months from the date of application. Applications will be rated and ranked using personnel from both ONAP headquarters and the field and it is expected that there will be potentially hundreds of applications to consider. This is a tremendous amount of work to review each application and staff it so that every application is reviewed by more than one person. This takes time, which is why there will be a delay in announcing grantees under the competitive NOFA. If an application is successful, the Grantee will have five years to spend the money so awarded, but implementation schedules should realistically show that the project would be completed well before then.

IHP filings due July 18th. NAHASDA requires that each eligible grantee file its Indian Housing Plan [IHP] 75 days BEFORE the beginning of the Grantee's fiscal year. For the majority of Tribes/TDHE's whose fiscal year ends September 30th, that date is July 18th. The 75 days is part of NAHASDA which requires the filing of an IHP on time, or if a waiver is filed showing **that it was beyond the Tribe/TDHE's ability to get it in on time** and what the grantee will do to avoiding this in the future. If a Tribe/TDHE already asked for a waiver in the past and has not carried through with its plan to avoid missing the deadline in the future risks the very real possibility of having the waiver denied. If denied that would mean no grant for the coming year. Most Grantees facing the filing on July 18th should already be deep in the planning process and be accepting public input to the IHP, which is required, as well as, seeking Tribal Council/Legislative approval, prior to submission of the plan.

Best of Luck!

Mark Butterfield, Administrator
Eastern Woodlands Office of Native American Programs
