Summary of All In: The Federal Strategic Plan to Prevent and End Homelessness

SOLUTION PILLARS

Scale Housing and Supports That Meet Demand

Strategies to increase supply of and access to safe, affordable, and accessible housing and tailored supports for people at risk of or experiencing homelessness:

1. Maximize the use of existing federal housing assistance.
2. Expand engagement, resources, and incentives for the creation of new safe, affordable, and accessible housing.
3. Increase the supply and impact of permanent supportive housing for individuals and families with complex service needs—including unaccompanied, pregnant, and parenting youth and young adults.
4. Improve effectiveness of rapid rehousing for individuals and families—including unaccompanied, pregnant, and parenting youth and young adults.
5. Support enforcement of fair housing and combat other forms of housing discrimination that perpetuate disparities in homelessness.
6. Strengthen system capacity to address the needs of people with disabilities and chronic health conditions, including mental health conditions and/or substance use disorders.
7. Maximize current resources that can provide voluntary and trauma-informed supportive services and income supports to people experiencing or at risk of homelessness.
8. Increase the use of practices grounded in evidence in service delivery across all program types.

Improve Effectiveness of Homelessness Response Systems

Strategies to help response systems meet the urgent crisis of homelessness, especially unsheltered homelessness:

1. Spearhead an all-of-government effort to end unsheltered homelessness.
2. Evaluate coordinated entry and provide tools and guidance on effective assessment processes that center equity, remove barriers, streamline access, and divert people from homelessness.
3. Increase availability of and access to emergency shelter—especially non-congregate shelter—and other temporary accommodations.
4. Solidify the relationship between CoCs, public health agencies, and emergency management agencies to improve coordination when future public health emergencies and natural disasters arise.
5. Expand the use of “housing problem-solving” approaches for diversion and rapid exit.
6. Remove and reduce programmatic, regulatory, and other barriers that systematically delay or deny access to housing for households with the highest needs.

Prevent Homelessness

Strategies to reduce the risk of housing instability for households most likely to experience homelessness:

1. Reduce housing instability for households most at risk of experiencing homelessness by increasing availability of and access to meaningful and sustainable employment, education, and other mainstream supportive services, opportunities, and resources.
2. Reduce housing instability for families, youth, and single adults with former involvement with or who are directly exiting from publicly funded institutional systems.
3. Reduce housing instability among older adults and people with disabilities—including people with mental health conditions and/or with substance use disorders—by increasing access to home and community-based services and housing that is affordable, accessible, and integrated.
4. Reduce housing instability for veterans and service members transitioning from military to civilian life.
5. Reduce housing instability for American Indian and Alaska Native communities living on and off tribal lands.
6. Reduce housing instability among youth and young adults.
7. Reduce housing instability among survivors of human trafficking, sexual assault, stalking, and domestic violence, including family and intimate partner violence.

FYI VOUCHERS FOR THE FOSTER YOUTH TO INDEPENDENCE INITIATIVE

The Foster Youth to Independence (FYI) initiative makes Housing Choice Voucher (HCV) assistance available to Public Housing Agencies (PHAs) in partnership with Public Child Welfare Agencies (PCWAs). Under FYI, PHAs provide housing assistance on behalf of:

Youth at least 18 years and not more than 24 years of age (have not reached their 25th birthday) who left foster care, or will leave foster care within 90 days, in accordance with a transition plan described in Section 475(5)(H) of the Social Security Act, and are homeless or are at risk of becoming homeless at age 16 or older.

As required by statute, an FYI voucher issued to such a youth may only be used to provide housing assistance for the youth for a maximum of 36 months.

In addition to providing up to 36 months of rental assistance, youth must be provided supportive services to assist the young person on their path to self-sufficiency.

Funding Opportunities

HUD makes FYI available in two ways:

- **1. Non-Competitive:** PHAs may request assistance on a rolling basis under [Notice PIH 2023-04](#). See the notice for an explanation of eligibility and application requirements.
 - **(New)** Please click [here](#), to submit your agency's request using the [FYI Application Request Form](#) (only PHAs may submit a request). *Google Chrome is the best platform to use this form.*
- **2. Competitive:** The U.S. Department of Housing and Urban Development (HUD) issues this Notice of Funding Opportunity (NOFO) to invite applications from eligible applicants for the program and purpose described within the NOFO. Prospective applicants should carefully read all instructions in all sections to avoid sending an incomplete or ineligible application. HUD funding is highly competitive. Failure to respond accurately to any submission requirement could result in an incomplete or noncompetitive proposal.
