

Changes since the 12/13/23 TRG posting

- In Section 6.0, updated information about inserting forms prior to the most recent submission. Also added information about the ISA/MOU process being needed to receive system connection information.
- In Section 7.0, added information about the order forms are processed in within a bulk JSON file and the amount of data that can be included in a bulk JSON file submission.
- In Section 8.1, updated the summary information about corrections.
- In Section 8.3, updated sample JSON to remove the mtwssAdmissionDate JSON name that is not a valid field.
- For line 1g, removed the notation about error code 9546.
- For line 1h, updated comments to clarify location in the system and the format of the Unit Real Estate ID Number and when it should not be supplied.
- For line 2a:
 - Clarified program types for those action types that do not apply to all program types.
 - Added information about upcoming changes to error code 4062 that will split it into two different error codes for clarity.
- For line 2i, updated comments to include information about date for public housing flat rent.
- For line 2j, updated comments to clarify this line is only used when the program type is public housing and the type of rent is flat rent.
- Line 2k, updated JSON name and path to reference isParticipantNowOrLastYear instead of isfssParticipant.
- For line 2k, updated program types to reflect that Homeownership and Mod Rehab are applicable to FSS and that for ROSS and Jobs Plus the only applicable program types is generally public housing but could be applicable to PBV and TBV in the future.
- For line 2v, updated program types to remove Homeownership.
- For lines 3a through 3n, updated the action types to reflect that action type 9 as required.
- For line 3g, the previously proposed changes that were noted have been removed.
- For line 5h, updated JSON name and path to reference lastPassedInspectionDate instead of lastHqsPassDate.
- For line 5i, updated JSON name and path to reference lastInspectionDate instead of lastAnnualHqsDate.
- For line 6g/18g, updated JSON name and path to reference totalAnticipatedOrActualIncome instead of totalAnticipatedIncome.
- For line 6i/18i, updated the comments to clarify the calculation.
- For line 6j/18j, updated the comments to clarify the calculation.
- For line 10c, corrected line name.
- For line 10d, updated JSON name and path to reference incomeBasedRent instead of lowerTtpOrFlatRent.
- For line 10u/20a, moved error code 4554 to the form specific errors section and updated the comments to added reference to submission type MTW.
- For line 10v, removed action type 1 from required action types.
- For line 12d/21d, updated comments and removed PR from the program types for the MTW form.
- For line 15r, corrected the line numbers referenced in the comments.
- For Section 17/23:

- Updated program types to reflect that Homeownership and Mod Rehab are applicable to FSS and that for ROSS and Jobs Plus the only applicable program types is generally public housing but could be applicable to PBV and TBV in the future. For MTW Self-Sufficiency, removed Homeownership from the program types.
- For lines 17a(1)/23a(1) and 17a(2)/23a(2), clarified the submission types that can mark the household is a participant in FSS and MTW Self-Sufficiency.
- For lines 17a(1)/23a(1) and 17a(2)/23a(2), updated JSON name and path to reference isSSPParticipant instead of isParticipant.
- For line 19b, added income code X as a possible response.
- For line 21e, removed PR from the program types for the MTW form.
- For line 21f, removed PR from the program types for the MTW form.
- Replaced TBD placeholders with error code numbers for the following items.

Section	Field Num	Error Code
Header	Form Version	
	Date	9700
2	2i	4111
7	7b	9736
12	12am	9513
12	12an	9515

- The error descriptions for the following error codes have been updated.

Section	Field Num	Error Code
2	2w	5603
3	3g	5444
7	7b	9736
8	8f	4362
17	17c/23c	3188
17	17h(5)(a)/23h(5)(a)	5008
17	17h(5)(a)/23h(5)(a)	9140
17	17i(1)(m)/23i(1)(m)	5084

Changes since the 10/06/23 TRG posting

- Added some additional text to Section 9.2 to clarify what it means when an action type is listed optional.
- Clarified text that mentioned “in a future release” to say “in a future system release”.
- For Header – Identification Code, clarified the action types.
- Header Form Version Date:
 - Updated the Comments field for the Form Version Date field in the header to further clarify what the 2020 option is referring to and to make clear that the field is required.
 - Added a fatal error that we will be implementing.
- For line 2a:
 - Corrected submission types for action type 14.
 - Corrected error codes 3202, 3203, 4058, and 4060 to reflect the correct submission types.

- For line 2i, added TBD for the proposed HUD-50058 MTW error code.
- For line 3m, inserted the error codes (they had been omitted in error).
- For line 3r (MTW form only), we have added some additional information from the MTW program office to the Comments field.
- For line 3w, updated error description for error code 3197 to reflect a head of household change cannot be done with an action type 12.
- For line 7b, changed error code 4330 to reflect that it is now only applicable to submission types 50058 and MTWEX and added a new error code for submission type MTW.
- For line 10r, error code 5308 has been corrected to reflect that it is a warning.
- For line 19k, we have corrected the description.

Changes since the 07/21/23 TRG posting

- In Sections 2.0 through 10.0, edits to add references to the HUD-50058 MTW, add information about submission statuses, and other edits to update and correct information.
- Added content about submission statuses in Section 10.
- Corrected typo throughout the document that said “Family subsidy status under Noncitizen Rule” instead of “Family subsidy status under Noncitizens Rule.”
- For line 1g, added placeholder for error code 9546, which was previously removed in error. We are in the process of adding it back in.
- Moved error codes 5514 and 5519 from line 2a to line 2b.
- For line 3w, corrected action types that this line can be included for (removed action type 12).
- For line 8e, removed error code 3184 because it was a duplicate of 4356.
- For line 9c, updated the list of error codes relaxed for submission type MTWEX.
- For line 9h, updated the list of error codes relaxed for submission type MTWEX.
- For line 12y, corrected the program types that error codes are relaxed from fatal to warning for.
- For lines 12am and 12an, added placeholders for error codes that will be added at a future date.
- For lines 17e, 17f, and 17g, corrected the JSON name fields.
- For lines 17i and 17r (the family services table), corrected the JSON name fields. *These values are also used for Section 23.*
- For lines 17p(2) and 17p(3), corrected the JSON path.
- The error descriptions for the following error codes have been updated. This includes references to the above-mentioned noncitizens rule in addition to some punctuation and spelling items. There are also some error descriptions that were updated for continuity with slight wording changes on the 2024 version of the forms. For 4206, the wrong error description was previously entered.

Changes since the 10/25/22 TRG posting

- Corrected the links to the HIP Technical Information page due to the URL update a couple of months ago.
- Updated the Form Version Date field in the header to reflect that it is an alphanumeric field and what should be entered in this field. When the form is updated in the system in the future, we will update the information on what to enter.
- General cleanup of formatting, including codes with single quotes and line number references, in comment fields.
- For line 1b, error code 3118 has been removed. Users should receive an API error prior to their file even being validated.
- For line 1g, error code 9546 is being removed while additional development is done.
- For line 2a, error codes 3205 and 3206 were added.
- For line 2n, error codes 5262 and 9549 the list of codes coded into these errors matches what is posted on the HIP Technical Information page (and IMS/PIC web page). As referenced below, the error descriptions have been updated to something more generic so that it doesn't need to be modified each time there is a change.
- For line 10b, error code 4486 had been omitted in error and has now been added
- For line 17j(2), updated comments

- We continue to update error descriptions for clarity. This includes removing references to code numbers. We have also been working to remove some of the leftover formatting from when the error code list was exported from IMS/PIC and contained single quotes around text. We are hoping this will also help with any future work on the error codes. The list below contains what error codes have had their descriptions cleaned up in this batch. There may be additional ones addressed as we continue to work on the document.

Changes since the 09/27/22 TRG posting

- For line 3k, the formatting in the example for how multiple race codes should be submitted has been updated.
- For lines 17i and 17r, which are the family services tables for FSS and MTW self-sufficiency respectively, the JSON path references have been updated to reflect that they are child objects within familyServices, which is denoted by [\$].
- For line 17r(1)c, added the missing submission type, program type, and action type information.
- The error descriptions for the error codes listed below have been updated for clarity.

Changes since the 03/14/22 TRG posting

- The submission header information has been removed from Section 6.0 and moved to Section 11.0. It can be found in Section 11.1. The previous entry labeled Vendor Version Date has been corrected to Vendor Defined Data. *This has also been updated in the JSON mapping file that is posted.*
- For line 1h, error code 4049 has been added
- For line 2a:
 - Added error codes 5348, 5514, and 5519
 - Note: Error code 5349 that was removed in a previous revision will not be used since it refers to the historical database. The current system configuration does not move previous 50058 submissions to historical database tables.
- For line 2b, error code 5358 has been updated due to the FSS Final Rule
- The Form Name field in Section 11.3 Section 2. Action has been updated to reflect that the type is Alphanumeric not Numeric.
- For line 2n(1), updated the list of special program codes in error code 5262

HIP Technical Reference Guide Changes
(2020 version of the forms)

- For line 2n(2), updated the list of special program codes in error code 9549 and removed 3124 that was a duplicate of 9549
- For lines 2q through 2u, updated the size to 40
- For line 3n, added error codes 4176, 4184, 4185, 5270, and 5274
- For line 5h, the program types have been updated and a note has been added regarding what program types the error code will be relaxed for
- For line 5i, the program types have been updated and a note has been added regarding what program types the error code will be relaxed for
- For line 15b, corrected the Type from Alphanumeric to Date
- For line 17b, error code 5358 has been updated due to the FSS final rule
- For line 17j(2), error codes 5150 and 5152 have been updated due to the FSS Final Rule.
- For line 17k(2), corrected the JSON Path
- For line 17k(3), corrected the JSON Path
- The error descriptions for the error codes listed below have been updated for clarity.

8	8f	4362
8	8p	4408
8	8r	4418

Changes since the 08/20/21 TRG posting

- For line 1c, clarified that program type CE that was previously included on the HUD-50058 in IMS/PIC is no longer in use and will be removed from a future revision of the HUD-50058. As noted in the TRG, it will not be accepted in submissions in IMS/PIC Modernization.
- For line 1d, updated the error description for error code 4016

- For line 1g, updated the error description for error code 4038
- For line 2a:
 - Clarified that zeros should not be used before single digit numbers
 - Removed error code 5349 pending further development of the overlapping date functionality
 - Removed error code 5356 because it is a duplicate of error code 5355
 - Error codes 5505, 5506, and 5507 were removed due to the updates made to the void functionality from what was in IMS/PIC
 - Removed error code 5513 due to updated void functionality
- For line 2b, removed error code 5501
- For line 2c:
 - Removed error code 5500 due to updated correction functionality
 - Added error codes 9586, 9587, and 9588 due to updates made to the correction functionality from what was in IMS/PIC.
 - Added action type 15 to the list of action types
- Added attribute Form Name (JSON name formName) that will be used to identify which form will be corrected or voided
- For line 2i:
 - Added new error code 9581. This error code is applicable to voucher program types
 - Updated comment text to reflect that error codes 4104 and 9581 will be relaxed to warnings for submission type MTWEX
- For line 2m, clarified the comment text about the removing of Welfare to Work from the HUD-50058 MTW Expansion
- For line 3n:
 - Updated the error description for error code 4181
 - Added error codes 4183 and 4186 that have now been implemented
- For line 3w:
 - Corrected the action types that this line can be included in
 - Updated the error description for error code 3197
 - Removed error code 5522 since only the most recent action, determined by effective date, can be voided
- For line 8q, updated the error description for error code 4414 because the previously included reference to line 3t was not accurate.
- For line 9f, updated the comments to reflect error code 4462 will be relaxed to a warning for submission type MTWEX for all program types.
- For line 9j, updated the comments to reflect error codes 4474, 4476, and 4478 will be relaxed to warnings for submission type MTWEX for all program types.
- For line 11aa, added the submission type, program type, and action type lines to the table. They had previously been omitted in error.
- For line 17k(1), updated the comments to clarify how this line may be reported in certain situations.

Changes since the 06/25/21 TRG posting

- Section 5.0, clarified the content of Table 5.1 and added note about line 1c, Program.
- Section 6.0, added JSON header information back into document
- For line 2n(1), the error description for error code 5262 was updated to include EHV

- For line 2n(2), the error description for error code 3124 was updated to include EHV
- The action type section for lines 3a through 3n has been corrected to reflect that household member information is required for action types 10 and 12. *Note that we are currently still verifying to ensure that there won't be any negative impacts on form submission due to this. However, given that the TRG is providing information on the final configuration of the system, this is how vendors should configure their software.*
- For line 8f, the error descriptions have been updated for error code 4360 and 4362.
- For line 8k, the error description has been updated for error code 4392
- For line 8p, the error description has been updated for error code 4410
- For line 9i, the program types have been corrected
- For line 10c, corrected the JSON name and JSON path
- For line 11g(3), corrected the JSON name
- For line 11s, error code 4602 has been corrected to reflect that it is a fatal error by default. The information about when it is being relaxed to a warning has not changed.
- For line 12y, the Comments section has been updated to reflect that error code 9507, not 9505, is being relaxed to a warning.
- For line 12ac, the Comments section has been updated to reflect that error code 9536, not 4614, is being relaxed to a warning.
- For lines 12ak, 12am, and 12an the Submission Type and Program Type sections have been corrected to reflect that
- For line 15p, corrected the size to 4

Changes since the 06/15/21 TRG posting

- For line 2k:
 - Corrected the comment to reflect when this line can be left blank
 - Corrected the required action types
 - Updated the error description for error code 4118. The coding in the system is also updated to match.
- For line 2v, updated the comment to reflect when this line can be left blank. Also updated the required action types.
- For line 8m, error code 5468 is still under development as of when this TRG is posted but should be considered as implemented for vendor software development purposes.
- For line 8x:
 - Comment was modified to remove the statement “For submission type MTWEX, error code 4434 will be removed for all program types since it is not applicable to that form.” Since it already states that 4434 is only applicable to submission type 50058 this statement is no longer needed. The error will only be validating submission type 50058.
 - Error type that was omitted in error added to error codes 4432 and 4434
- For line 11d, error type that was omitted in error added to error code 9543
- For line 12g(3), error type that was omitted in error added to error code 5478
- For line 13x, error type that was omitted in error added to error code 4716
- For line 17k(3), the line name has been corrected
- For line 17p(2), two different error messages appeared for error code 9117. This has been corrected to reflect the actual text for 9117, which is a warning with a description of “FSS escrow account balance is usually less than \$25,000”

Changes since the 12/22/20 TRG posting

Summary: The Technical Reference Guide (TRG) posted in June 2021 is the final TRG and reflects what PHAs will be able to utilize in the IMS/PIC Modernization system. As noted below, there are a few items that work is still in progress as of when this document is posted, however, these items should be considered as added or removed as noted.

- Multiple sections of the document – The error codes below are currently being worked on, as mentioned above.

Section	Field Num	Error Code	Status
1	1b	3117	Work in progress to add to the system
1	1b	4004	Work in progress to remove in the system

10	10d	9366	Work in progress to add to the system
10	10h	5307	Work in progress to add to the system

HIP Technical Reference Guide Changes
(2020 version of the forms)

Section	Field Num	Error Code	Status
12	12ah	9368	Work in progress to add to the system
12	12ah	9370	Work in progress to add to the system
12	12am	9372	Work in progress to add to the system
12	12an	9374	Work in progress to add to the system
12	12aq	9376	Work in progress to add to the system
17	17b	5358	Work in progress to add to the system

- Section 1 has been updated as needed and is now final
 - For line 1b:
 - Removed error codes 4004 and 4006. 4004 may be added back in a future release once more housing authority level information is added to the system.
 - Added error code 3117
 - For line 1c, removed error code 5509. This functionality may be in a future release.
 - For line 1d, added error codes 4016 and 4020
 - For lines 1e, 1f, 1g, and 1h:
 - Removed error codes 4061 and 5259. Instead of presenting these errors for building number, building entrance number, and unit number if the combination is incorrect, it will only be presented for line 1g.
 - Added error code 4030 for line 1e
 - Added error code 4036 for line 1f
 - Added error codes 4038 and 4040 for line 1g
 - Removed error code 4051 from lines 1g and 1h. The Inventory Removals functionality will be implemented in a future release. Any error codes that are needed for that will be added at that time.
 - Updated the error description for error code 4044 for line 1g and 1h. 4044 is now 9501 for line 1h.
- Section 2 has been updated as needed and is now final
 - For line 2a
 - Updated error description for error codes 3202, 3303, 4058, 4060, 4062, 4118, 5280, 5338, 5355, and 5506
 - Removed error codes 3205, 3206, 5348, 5350, and 5514. The overlapping date functionality will be implemented in a future release. Any error codes that are needed for that will be added at that time.
 - Removed error codes 4054, 4066, and 5457 since they are not needed
 - Removed error codes 5340 and 5341 since there are not separate databases for the different types of 50058s (HUD-50058 MTW will be developed in a future release)
 - For line 2b
 - Updated the error description for error code 4082
 - Removed error code 5519; the overlapping date functionality will be implemented in a future release.
 - For line 2h, updated the error description for error code 5460
 - For line 2i, updated the error description for error code 4100
 - For line 2k, updated error description and coding for error code 4118 to clarify program types and action types.
 - For line 2m:

- Corrected JSON name
 - Updated error description for error code 4120
- For lines 2n(1) and 2n(2)
 - Updated error description for error codes 3124, 5342, 9557
 - Removed error code 3126 because it is a duplicate of error code 5483
 - Removed error code 3302 because it is a duplicate of error code 5260
 - Added error code 9560 for 2n(1) and 9256 for 2n(2) for MS5
 - JSON name corrected for 2n(1) and 2n(2)
- Section 3
 - For line 3f, added new error code 9380
 - For line 3n:
 - Updated error description for error code 4174
 - Removed error code 4174 and 4182 because they duplicates of functionality in other error codes
 - Removed error code 4183 since the functionality needed at this time is covered by 4181
 - Removed error codes 4185, 4186, 5270, 5274 since the overlapping date functionality will be implemented in a future release. Any error codes that are needed for that will be added at that time.
 - Updated the error description for error code 4189 to remove action type 8
 - Updated the error description for error code 5294 since the Tenant ID Management functionality to create Alternate IDs (AID) will be developed in a future release.
 - Updated the error description for error code 5510
 - For line 3q, updated the comments to reflect that it does not need to be included for program type H.
 - For lines 3r and 3s, finalized details for the implemented error codes and descriptions
 - For line 3t:
 - Updated the error description for error code 5461
 - Removed error code 3177 (duplicate of 4210)
- Section 4 has been updated as needed and is now final
 - For line 4a, updated the error description for error code 3133
 - For line 4b, updated the error description for error code 3204
 - Line 4b, zip code +4 before admission, was added back into the TRG. Error code 5464 is the only error code for this line. It was removed in error. It is collected in IMS/PIC and does need to be included in the new system.
 - For line 4e, error code 3134 has been removed
- Section 5 has been updated as needed and is now final
 - For line 5a (street), updated the error description for error code 3137
 - For line 5a (street), error code 4059 has been removed
 - For line 5a (city), error code 3138 has been removed
 - For line 5a (state), updated the error description for error code 4257
 - For line 5a (state), error code 3139 has been removed
 - For line 5a (zip), error code 3140 has been removed
 - For line 5a (zip+4), error code 3141 has been added
 - For line 5c (state), error code 4266 has been removed
 - For line 5c (state), error code 4267 has been added

- For line 5c (zip), updated the error description for error code 4268
- For line 5c (zip+4), error code 3136 has been added
- For line 5e, updated the error description for error code 4274
- For line 5f, updated the error description for error code 4276
- For line 5j, updated the error description for error code 4290
- For line 5j, error code 4292 has been added
- For line 5k, error code 4300 has been added
- Section 6 has been updated as needed and is now final
- Section 7 has been updated as needed and is now final
 - Added new error codes for lines 7f and 7g
 - Updated the field size for line 7g
- Section 8 has been updated as needed and is now final
 - Noted that line 8a is not being included. It has also been removed from the JSON mapping file.
 - For line 8e, removed references to action type 6 since Section 8 of the form is not required for this action type. Also, updated the error description for error code 3184.
 - For line 8f, added the statement “If head/spouse/co-head is under 62 and no family member is disabled, should equal zero.” to the comments.
 - For line 8m, updated the error description for error code 5468
 - Updated the field size for lines 8u and 8x
- Section 9 has been updated as needed and is now final
 - For line 9a, added error code 4442 which is used in IMS/PIC but was previously omitted from the TRG.
 - For line 9c, updated the error description for error code 4448
 - For line 9e, updated the error description for error code 4456
 - For line 9f, updated the error description for error code 4462
 - For line 9j, updated the error descriptions for error codes 4476 and 4478
 - For line 9m, updated the error description for error code 4482
- Section 10 has been updated as needed and is now final
 - Added line 10c, Income based ceiling rent, and its associated error codes for submission type 50058
 - Updates for line 10d:
 - Updated the error descriptions for error codes 4498 and 4500
 - Added new error code 9366. This was previously 4502 in IMS/PIC. 4502 had already been updated for the HUD-50058 MTW Expansion so a new code was created to validate submission type 50058.
 - For line 10h, added error code 5307 which is used in IMS/PIC but was previously omitted from the TRG.
 - For line 10u, added error code 4554 that is only used for submission type 50058
 - For line 10v, updated the error descriptions for error codes 4069 and 4070. *Note that these changes may not be visible after the release, but it does not affect how data will be validated.*
 - For line 10w:
 - Error code 4071 has been removed
 - Updated the field size for line 10w
- Section 11 has been updated as needed and is now final
 - For line 11b, updated the error description for error code 4558 and updated the associated coding to match.

- Updates for line 11d
 - Removed error codes 4654 and 4844 because they are not needed. While portability information can be provided in Section 11, it cannot be included in an action type 4. Action type 4 requires a corresponding action type 5, which is not permitted for PBV.
 - Added error code 9543
- For line 11e, removed error code 4564.
- For line 11f, updated the error description for error code 4568
- For line 11w
 - Clarified that both positive and negative values can be accepted to reflect if there is a utility reimbursement.
 - Updated error description for error code 4092
 - Removed error code 4071 that is not needed and 4091 since negative values can be accepted.
- For line 11ak, added error code 4634
- For lines 11s and 11ak, removed error code 5442, IMS/PIC error message needed for ASCII files only
- For line 11aq, updated the error description for error code 4099
- For line 11ar
 - Clarified that both positive and negative values can be accepted to reflect if there is a utility reimbursement.
 - Removed error code 4105
- Section 12 has been updated as needed and is now final
 - For line 12i, updated the error description for error code 3174
 - For line 12p, removed error codes 4594 and 5264 that are not needed
 - For line 12t, updated the error description for error code 4688 to correct a typo
 - For line 12z:
 - Clarified that both positive and negative values can be accepted to reflect if there is a utility reimbursement.
 - Removed error code 4071 that is not needed and 4091 since negative values can be accepted.
 - Updated error code from 4119 to 9364.
 - For line 12ac, updated the error description for error code 9536 (used to be 4614)
 - For line 12ah, added error codes 9368 and 9370
 - For line 12ai, removed error code 3168, numeric field so dollar sign would not be included
 - For line 12an:
 - Clarified that both positive and negative values can be accepted to reflect if there is a utility reimbursement.
 - Corrected error description for error code 9514 (was 4103)
 - Removed error code 4105 that was added to the TRG in error
 - Updated error code 4127 to be 9372
 - For line 12ap:
 - Updated the field size and comments
 - Added error code 9165 to validate that value is numeric
 - For line 12aq:
 - Finalized details for the implemented error codes and descriptions
 - Updated the field size and comments

HIP Technical Reference Guide Changes
(2020 version of the forms)

- Added error code 9376 to validate that value is numeric
- Section 15 has been updated as needed and is now final
 - For line 15aa, added error code 9378
 - For line 15ab, updated the error description for error code 4824
 - For line 15ac, updated comments
 - For line 15ae, corrected the error description for error code 4904 (15q should have been 15aa)
- Section 17
 - For line 17a(2), corrected the error description for error code 5481
 - For line 17h (MTW self-sufficiency) finalized details for the implemented error codes and descriptions
 - For line 17h(1), corrected the error description for error codes 9187 and 9198
 - For line 17h(2), corrected the error description for error code 9122
 - For line 17h(6):
 - Updated error code 5030 to reflect that it is tied to only the FSS report category
 - Updated error code 9119 to reflect that it is tied only to the MTW self-sufficiency report category
 - For lines 17n-17r, finalized details for the implemented error codes and descriptions
- Multiple sections of the document – In order to have a unique error code number for each error code, which will aid in maintenance and usability in the future, some error codes have been changed. The applicable line number on the form, old code number, and new code number are outlined in the table below.

Line #	JSON Name	Old Code	New Code
1f	entranceNumber	4061	9503
