9.3	Submission Statuses.....	18
10.0	Sections and Lines of the HUD-50058, HUD-50058 MTW Expansion, and HUD-50058 MTW.....	19
10.1	Header .....	19
10.2	Section 1. Agency (MTW Agency on HUD-50058 MTW).....	23
10.3	Section 2. Action (MTW Action on HUD-50058 MTW) .....	29
10.4	Section 3. Household (MTW Household on HUD-50058 MTW) .....	50
10.5	Section 4. Background at Admission (MTW Family Background at Admission on HUD-50058 MTW) .....	67
10.6	Section 5. Unit to be Occupied on Effective Date of Action (MTW Unit to be Occupied on Effective Date of Action on HUD-50058 MTW).....	73
10.7	Section 6. Assets (HUD-50058 and HUD-50058 MTW Expansion), Section 18. MTW Asset Income (HUD-50058 MTW).....	88
10.8	Section 7. Income (HUD-50058 and HUD-50058 MTW Expansion), Section 19. MTW Income (HUD-50058 MTW).....	95
10.9	Section 8. Deductions and Allowances .....	104
10.10	Section 9. Total Tenant Payment (TTP).....	122
10.11	Section 10. Public Housing (HUD-50058 and HUD-50058 MTW Expansion), Section 20. MTW Public Housing (HUD-50058 MTW).....	129
10.12	Section 11. Section 8: Project-Based Vouchers (HUD-50058), Section 11. Housing Choice Voucher: Project-Based Vouchers and Local, Non-Traditional Property-Based Voucher (HUD-50058	

MTW Expansion), Section 21. MTW Tenant-Based or Project-Based Assistance (HUD-50058 MTW)  
142

10.13 Section 12. Housing Choice Vouchers: Tenant Based Vouchers (HUD-50058), Section 12.  
Housing Choice Voucher: Tenant-Based Vouchers or Local, Non-Traditional Tenant-Based (HUD-  
50058 MTW Expansion), Section 21. MTW Tenant-Based or Project-Based Assistance (HUD-50058  
MTW) 168

10.14 Section 13. Section 8: Moderate Rehabilitation (Mod Rehab) ..... 203

10.15 Section 15. Homeownership Vouchers (HUD-50058 and HUD-50058 MTW Expansion), Section  
22. MTW Homeownership (HUD-50058 MTW) ..... 214

10.16 Section 17. Supportive Services Programs (SSP) (HUD-50058), Section 17. Supportive Services  
Programs (SSP)MTW Self-Sufficiency (HUD-50058 MTW Expansion), Section 23. Supportive Services  
Programs (SSP)MTW Self-Sufficiency (HUD-50058 MTW) ..... 227

## 1.0 Purpose and Background

The US Department of Housing and Urban Development (HUD) is modernizing the Office of Public and Indian Housing (PIH) Inventory Management System/Public Housing Information Center (IMS/PIC) to provide a better user experience for Public Housing Authorities (PHAs) and to significantly enhance the collection, use, and analysis of both building and unit and household data through newer technology. HUD PIH uses this data for all its core business functions including, but not limited to, compliance with laws and regulations, calculating subsidies across its programs, income verification, maintaining public housing inventory data used for inspections, and evaluating program performance.

The new Housing Information Portal (HIP) system will eventually replace, enhance, and augment the functionality currently performed by IMS/PIC, while reducing the administrative burden on PHAs for providing information to HUD through a new form/data submission mechanism. The enhanced technology used by the HIP system will also enable critical new policy initiatives, including the expansion of the Moving to Work program (MTW Expansion) mandated by the [2016 Consolidated Appropriations Act](#) and several programmatic changes resulting from the Housing Opportunities Through Modernization Act of 2016 (HOTMA).

The purpose of this HIP Technical Reference Guide (TRG) is to assist PHAs, including both non-MTW and MTW PHAs, and these agencies' business partners and software vendors to use the HIP system successfully. The TRG provides detailed information and instructions for how PHAs electronically submit data required by the HUD-50058, the new HUD-50058 MTW Expansion, and HUD-50058 MTW forms and the correct format for transmitting this data to HUD. Unlike IMS/PIC, which required PHAs to submit a text file in a prescribed American Standard Code for Information Interchange (ASCII) format or for the HUD-50058 MTW a CSV file, HIP uses a newer, widely utilized Java Script Object Notation (JSON) format. The new format will allow PHAs and these PHAs' vendors to submit 50058 data more seamlessly to the HIP system.

The TRG also provides information on changes to existing data elements, including new and eliminated data on the HUD-50058 MTW Expansion form, edit checks and error codes organized by the lines on the form, and other information such as submitting questions to HUD. One item of note is that the HIP system will establish a real estate identifier for each unit, building and development in the public housing program. The HIP system will continue to recognize the traditional composite key (development number, building number, building entrance number, and unit number combination) used to identify parts of the public housing inventory in IMS/PIC, but in time PIH plans to transition away from using the composite key to relying on real estate identifiers instead. The HUD-50058 MTW Expansion contains the Unit Real Estate ID Number on line 1h. This change will lead to better data integrity and easier tracking of inventory if it transitions to another program (e.g., from public housing to RAD PBV). Once a PHA has transitioned from using IMS/PIC to the HIP system, they will be able to obtain the real estate IDs for their inventory.

This TRG contains information on the technical implementation of all three of the HUD-50058 forms and where there are differences those are noted. Those differences may include a line (data element) only being on one of the forms. In other instances, it may include how flexibilities specific to the MTW Expansion PHAs will be handled by relaxing or removing error messages using a functionality called “flex buckets”. The flex buckets will allow us to relax or remove a specific error code for a specific cohort, submission type, and/or program type as needed. This allows us to use the same set of error messages for both forms, but also allows for the fact that not all MTW Expansion PHAs will utilize the same flexibilities.

Details regarding how each PHA will transition from using IMS/PIC to the HIP system and the associated data migration will be forthcoming once it is finalized. Once the PHA has transitioned to the HIP system, it will then stop submitting data changes in IMS/PIC and instead submit them to the HIP system.

## 2.0 Questions & Reference Materials

TRG users, including PHA staff and software developers, may submit their questions regarding TRG content to: [HUDITVendorComms@hud.gov](mailto:HUDITVendorComms@hud.gov). Questions should reference that they are about the TRG. HUD regularly monitors this mailbox. If PHAs or other individuals have general HIP questions not related to the TRG, those can be sent to [PIH\\_HIP@hud.gov](mailto:PIH_HIP@hud.gov). **Policy questions should not be sent to either of these mailboxes.**

Policy questions:

- PHAs may contact your local HUD field office with general questions relating to the Public Housing and Housing Choice Voucher programs.
- MTW Expansion and general MTW program policy questions can be directed to the [mtw-info@hud.gov](mailto:mtw-info@hud.gov) mailbox and will be answered once MTW office staff have been able to examine them.

PHAs and agency business partners and vendors participating in or interested in MTW Expansion should also review several reference materials posted to [HUD's MTW Expansion webpage](#) for more information.

### **3.0 HUD-50058 Forms Summary**

The HUD-50058, HUD-50058 MTW Expansion, and HUD-50058 MTW collect information about residents who live in public and assisted housing, including these programs in PHAs that are designated as MTW prior to 2015 or through the MTW Expansion program.

This document contains information for PHAs to be able to submit the version of the HUD-50058 forms that were approved by the Office of Management and Budget (OMB) in 2023 and will be effective on 01/01/2024. Information on the 2020 version of the forms can be found in a TRG specific to the content of those forms.

Per the form, the collection of this information is authorized by the U.S. Housing Act of 1937 (42 U.S.C. 1437 et seq.), Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d) and by the Fair Housing Act (42 U.S.C. 3601-19) and the information requested is required to obtain or retain benefits. HUD is authorized to collect this information under the Housing and Community Development Act of 1987 42 U.S.C. 3543 (a). The purpose of this information collection is to:

- Analyze assisted housing programs;
- Determine the occupancy level of public housing and calculate the operating subsidy in accordance with 24 CFR 990;
- Permit PHAs to monitor their own reporting to identify favorable and unfavorable trends;
- Monitor PHAs and participants for compliance with program regulations and requirements;
- Fraud detection and prevention via rent/income monitoring;
- Housing inventory and development of program initiatives with emphasis on the housing of special needs groups; and
- Make available accurate demographic information depicting tenant characteristics to Congress and other interested parties.

### **4.0 Changes Included in the Form HUD-50058 MTW Expansion**

Consistent with the [2016 Consolidated Appropriations Act](#) and implementing regulation, HUD must collect some new information in support of the MTW Expansion effort including new outcome data for households that end their participation in HUD programs. This outcome data will help HUD and oversight stakeholders evaluate the efficacy of the MTW program in helping households achieve self-sufficiency.

The new HUD-50058 MTW Expansion is a derivative of the HUD-50058. In large part the data elements (lines) on the new form remain unchanged from the HUD-50058. Some of the notable changes to the new form include that it requires PHAs to submit the reasons for why it conducts an interim reexamination of household income including rent hardship requests and stepped rents. Other changes eliminate obsolete data elements (e.g., information pertaining to the inactive Welfare to Work program). The following table provides the most notable changes to the HUD-50058 MTW Expansion as compared to the HUD-50058 and should not be considered exhaustive. Changes to any error codes, including actions that will be taken by the flex buckets, are detailed in [10.0 Sections and Lines of the HUD-50058, HUD-50058 MTW Expansion, and HUD-50058 MTW](#).

#### 4.1 Notable Changes from the HUD-50058 to the HUD-50058 MTW Expansion

The items listed here only appear on the HUD-50058 MTW Expansion. Whether any of the non-MTW specific changes (e.g., line 1h or removal of Welfare to Work) will appear on a future revision of the HUD-50058 had not been determined as of when the HUD-50058 MTW Expansion was published.

Line #/ Section	Summary of Changes Made to the 2020 version of the form
1c	Program type CE has been removed since the Certificate program no longer exists. Updated program codes for the voucher program to separate them instead of all being included under VO. Added Local, Non-Traditional program codes that could be used by MTW Expansion PHAs.
1h	A new Unit Real Estate ID Number has been established in HIP, which is set by the system for the unit. This change will apply to Public Housing only when first implemented; but may be used for other programs in the future. This change will allow PHAs and software vendors to shift from the conventional composite key (development number, building number, building entrance number, and unit number) to a real estate identification number.
2w	Line 2w, End of Participation reasons (only if 2a = End Participation), was added for PHAs to indicate the reason the family ended their participation in the program. This will assist with the tracking the reasons why households leave the HUD PIH assisted rental housing program designated on the form
2x	Line 2x, Interim Reexamination reasons (only if 2a = Interim Reexamination), was added to allow PHAs to indicate the reason there has been a change to the family’s information at a time other than a full reexamination or change of unit.
3r	Line 3r, Average number of hours worked per week, was added to allow PHAs to report the average number of hours worked per week, over the past year. This will assist with collecting information about work requirements.
3s	Line 3s, Work requirement compliance, was added to allow PHAs to state to what extent the household is in compliance with the PHA’s work requirements policy, if applicable. This will assist with collecting information about work requirements.
4f	Line 4f was removed due to Welfare to Work being a defunct program
5i	Line 5i, Date of last HQS inspection, was updated to remove the word “annual” from the line description since PHAs may perform inspections at intervals other than annual (e.g., biennial).
7h	Line 7h, Prior year or current year/anticipated income, replaces line 7h, Reserved, that is currently on the Form-50058 that the majority of PHAs use. This line was added to capture whether a PHA is reporting prior year or current year/anticipated income for the household. The prior year provision is in the Housing Opportunity Through Modernization Act of 2016 (HOTMA).

Line #/ Section	Summary of Changes Made to the 2020 version of the form
Section 8	The title of Section 8 of the form was changed from “Expected Income Per Year” to “Deductions and Allowances” to better reflect the content of the section. This change is cosmetic and does not affect submission of data to the PIH Information Center (PIC).
8u	Line 8u, Deductions and allowances not reflected above, was added to the form so PHAs can report the total amount of deductions and allowances not reflected on other lines in this section changed to clarify that it will capture any deductions and allowances not captured on other lines above this line in this section.
8x	Line 8x, Total allowances, was updated to reflect that line 8u will be included in the calculation to determine the value for this line.
10c	Line 10c, Ceiling Rent, was removed from the form since ceiling rent is no longer used.
10d	Line 10d, Lower of TTP or flat rent, was updated to remove the reference to ceiling rent and replace it with flat rent.
10u	Line 10u, Type of rent selected, was updated to include over-income rent and MTW specific alternate rent types. The MTW specific alternate rent types are per the MTW Operations Notice. <b>* Further updated on 2024 version of the form.</b>
10v	Line 10v, Date over-income family exceeded the two-year grace period, was added to the form so PHAs can indicate the date an over-income family exceeded the two-year grace period outlined in Housing Opportunity Through Modernization Act of 2016 (HOTMA) and related guidance. <b>* Further updated on 2024 version of the form.</b>
10w	Line 10w, Alternate tenant rent, was added to the form so PHAs can report the rent amount the family pays when an alternate type of rent is selected in line 10u.
11u	Line 11u, MTW specific alternate rent type, was added to the form so PHAs can report which MTW specific alternate rent type, per the MTW Operations Notice, the household’s rent is determined by if the household’s rent is not calculated using the standard rent calculation detailed on the form. <b>* Further updated on 2024 version of the form.</b>
11v	Line 11v, Alternate HAP to owner, added to the form so PHAs can report the total Housing Assistance Payment (HAP) by paid to the unit owner if the household’s rent is calculated using one of the alternate rent types on line 11u. Will also be used if the household is a participant in the Local, Non-Traditional Property-Based program since this program does not typically use the standard rent calculation as stated on the form. <b>* Further updated on 2024 version of the form.</b>
11w	Line 11w, Alternate tenant rent, was added to the form so PHAs can report the tenant rent to owner determined by the PHA if the household’s rent is one of the MTW specific alternate rent types on line 11u. Will also be used if the household is a participant in the Local, Non-Traditional Property-Based program since this program does not typically use the standard rent calculation as stated on the form. <b>* Further updated on 2024 version of the form.</b>
11ap	Line 11ap, MTW specific alternate rent type, was added to the form so PHAs can report which MTW specific alternate rent type the household’s rent is determined by if the household’s rent is not calculated using the standard prorated rent calculation detailed on the form. <b>* Further updated on 2024 version of the form.</b>
11aq	Line 11aq, Alternate prorated HAP to owner, was added to the form so PHAs can report the total prorated Housing Assistance Payment (HAP) by paid to the unit owner if the household’s rent is calculated using one of the alternate rent types on line 11ap. Will also be used if the household is a participant in the Local, Non-Traditional Property-Based program since this program does not typically use the standard rent calculation as stated on the form. <b>* Further updated on 2024 version of the form.</b>
11ar	Line 11ar, Alternate prorated tenant rent, added to the form so PHAs can report the prorated tenant rent to owner determined by the PHA if the household’s rent is one of the MTW specific alternate rent types on line 11ap. Will also be used if the household is a participant in the Local, Non-Traditional Property-Based program since this program does not typically use the standard prorated rent calculation as stated on the form. <b>* Further updated on 2024 version of the form.</b>

Line #/ Section	Summary of Changes Made to the 2020 version of the form
12x,	Line 12x, MTW specific alternate rent type, added to the form so PHAs can report which MTW specific alternate rent type, per the MTW Operations Notice, the household’s rent is determined by if the household’s rent is not calculated using the standard rent calculation detailed on the form. <b>* Further updated on 2024 version of the form.</b>
12y	Line 12y, Alternate HAP to owner, added to the form so PHAs can report the total Housing Assistance Payment (HAP) by paid to the unit owner if the household’s rent is calculated using one of the alternate rent types on line 12x. Will also be used if the household is a participant in the Local, Non-Traditional Tenant-Based program since this program does not typically use the standard rent calculation as stated on the form. <b>* Further updated on 2024 version of the form.</b>
12z	Line 12z, Alternate tenant rent, added to the form so PHAs can report the tenant rent to owner determined by the PHA if the household’s rent is one of the MTW specific alternate rent types on line 12x. Will also be used if the household is a participant in the Local, Non-Traditional Tenant-Based program since this program does not typically use the standard rent calculation as stated on the form. <b>* Further updated on 2024 version of the form.</b>
12ak	Line 12ak, MTW specific alternate rent type, was added to the form so PHAs can report which MTW specific alternate rent type the household’s rent is determined by if the household’s rent is not calculated using the standard prorated rent calculation detailed on the form. <b>* Further updated on 2024 version of the form.</b>
12am	Line 12am, Alternate prorated HAP to owner, was added to the form so PHAs can report the total prorated Housing Assistance Payment (HAP) by paid to the unit owner if the household’s rent is calculated using one of the alternate rent types on line 12ak. Will also be used if the household is a participant in the Local, Non-Traditional Tenant-Based program since this program does not typically use the standard rent calculation as stated on the form. <b>* Further updated on 2024 version of the form.</b>
12an	Line 12an, Alternate prorated tenant rent, added to the form so PHAs can report the prorated tenant rent to owner determined by the PHA if the household’s rent is one of the MTW specific alternate rent types on line 12ak. Will also be used if the household is a participant in the Local, Non-Traditional Tenant-Based program since this program does not typically use the standard prorated rent calculation as stated on the form. <b>* Further updated on 2024 version of the form.</b>
12ap	Line 12ap, Additional financial support for tenant-based voucher family, was added to the form so PHAs can report the total financial assistance provided by the PHA to a household when the household is leasing a new TBV unit.
12aq	Line 12aq, Financial incentive for property owner, was added to the form so PHAs can report the total financial assistance provided by the PHA to the landlord when a household is leasing a new TBV unit.
Section 17	<p>Multiple changes were made to this section:</p> <ul style="list-style-type: none"> <li>• The title of Section 8 of the form was changed from “Family Self-Sufficiency (FSS)/Welfare to Work (WtW) Voucher Addendum” to “Family Self-Sufficiency (FSS)/MTW Self-Sufficiency” to reflect the updated content in the section.</li> <li>• All references to WtW were removed</li> <li>• Lines 17e-17g and 17n are now used for MTW self-sufficiency reporting</li> <li>• Line 17i was updated to only be for FSS</li> <li>• Lines 17p-17r were added for MTW self-sufficiency reporting</li> </ul> <p><b>* Further updated on 2024 version of the form.</b></p>

## 5.0 Summary of Submission File Format

The HIP system will accept submissions using Java Script Object Notation (JSON). Additional information on the JSON submission, including the JSON Mapping file (MS-Excel), sample JSON files, and other technical information, can be found on the [Housing Information Portal Technical Information page](#). Section 10.0 provides references to the corresponding JSON mapping for each line on the HUD-50058, HUD-50058 MTW Expansion, and HUD-50058 MTW forms.

Information about the Java Script Object Notation (JSON) format: <https://www.json.org/json-en.html>

## 6.0 Transmission and Validation of Information via JSON

To provide information to the HIP system, PHAs and software vendors are required to submit their information in JSON format. Once HUD receives the JSON formatted data, the information will be validated and the vendor will be sent notification through its 50058 reporting and submission software that the information has been received, along with errors discerned during the validations. Once the PHA and/or software vendor resolves any issues, the PHA and/or software vendor can resubmit the PHA's 50058 information using JSON.

The information needed to connect to the HIP system is not posted to the HIP Technical Information page since it provides the keys needed to connect to HIP. It will be provided to software vendors once they have completed the needed paperwork detailed on the [Housing Information Portal Technical Information page](#).

HIP will allow PHAs to insert a form that has an effective date prior to other forms in many cases. For example, if the most recent form for a household is an Annual Reexamination and a PHA realizes the Interim Reexamination prior to that is missing. If the form that needs to be inserted includes a head of household change or a public housing change of unit, the PHA will not be able to insert the form prior to a previous one. In that case, the PHA will need to void the form(s) that are effective after the form, submit the form with the head of household change or public housing change of unit, and then resubmit the forms that were voided.

## 7.0 Bulk Form Submissions

Users will be able to submit multiple 50058s in a single JSON file submission. Sometimes this may be referred to as a bulk form submission. This will be done through the API submission. The details for how to do bulk submissions are provided in the API documentation that is provided to software vendors (see [Section 6.0](#) for further information on what software vendors need to do to get this).

Note that PHAs should use some care when using bulk submissions. While HIP does allow forms that are effective prior to other forms to be inserted prior to other forms in most cases,

there are some cases, detailed above in [6.0 Transmission and Validation of Information via JSON](#), where you cannot do this, so you could still receive fatal errors related to those situations.

## 8.0 Processing of Corrections and Voids

To improve data quality and user experience, some changes are being made to how corrections and voids to previously submitted 50058 forms are being handled.

### 8.1 Corrections

Users will have the ability to correct any form, not just the most recently submitted form. To facilitate this, the form name from within the system will need to be supplied in the “formName” attribute in the JSON file. Corrections will need to pass the validation process to successfully correct the specified form. If the JSON submission passes validation, the status of the original form will be updated to “Corrected” and it will link the correction with that form.

#### Corrections process diagram:

### Summary Details:

- If line 2c, Correction, equal Y, then “formName” will be required.
- The form to be corrected must belong to the PHA submitting the correction (the PHA code cannot be corrected).
- If the Head of Household (HoH) SSN is changed, the HoH First Name, Last Name and Date of Birth (DOB) cannot be changed in that submission.
- When a correction is submitted and passes validation, the corrected changes **do not automatically cascade** through subsequent form submissions. For example, if the SSN, name, DOB, income, rent, etc. is changed. Therefore, individual corrections must be submitted for each form where a correction is needed.
- Voids cannot be corrected. If this is attempted, it will receive error code 5458.
- End of Participation cannot be corrected if a subsequent submission exists.
- Portability Move-out cannot be corrected if a subsequent submission exists.
- Line 3w, Former Head of Household SSN, cannot be corrected. If this is attempted, it will receive error code 5515.
- When a correction is submitted, it must pass all validations to take effect. This includes prior submission validations for forms that have an effective date prior to the effective date of the correction. Submissions with effective dates after the effective date of the corrected form will not be re-validated.

### 8.2 Voids

Users will only be able to void the most recent form submission based on the effective date of the forms in the system. To facilitate this, and to ensure that the correct form is being voided, the form name from within the system will need to be supplied in the “formName” attribute in the JSON file. Voids will need to pass the validation process to successfully void the specified form. If the JSON submission passes validation, the status of the original form will be updated to “Voided”. A new form submission will not be created by the system.

**Voids process diagram:**

**Summary Details:**

- If line 2a, Type of action, equal 15, then “formName” will be required as well as the PHA code.
- If the “formName” is not found for the PHA, then an error is returned via the API, or as a message on the Community Portal if submitted in the portal.
- Only the most recent form can be voided, based on the effective date.
- All other existing validations must still be met.
  - If successful, the original form will be updated with a status “Voided”.
  - If not successful, the errors will be logged and attached to the original form.

**Void Scenarios:**

Scenarios	Result
Void Form-00001: Form Not Found for PHA	Error returned via API / Community Portal
Void Form-00002: Form Found for PHA but not the most recent	<ul style="list-style-type: none"> <li>• Form-00002 not updated</li> <li>• New validation will be logged and associated to Form-00002</li> </ul>
Void Form-00003: Form Found for PHA but fails an existing validation	<ul style="list-style-type: none"> <li>• Form-00003 not updated</li> <li>• Validation(s) will be logged and associated to Form-00003</li> </ul>
Void Form-00004: Form Found for PHA no errors	<ul style="list-style-type: none"> <li>• Form-00004 status updated to “Voided”</li> <li>• Audit Trail on Form-00004 will track why it was voided.</li> </ul>

### 8.3 Sample JSON for Corrections and Voids “formName” Attribute

*Note: The action type in the example below is just for this example. If you are submitting a void, it will be 15. If you are submitting a correction to another action type, it will be the action type for that submission.*

```
"action": {
  "actionType": "1",
  "effectiveDate": "11302019",

```

## 9.0 Line Technical Reference Summary

The tables in this document provide detailed technical reference information for PHAs and business partners (e.g., vendors) submitting HUD-50058, HUD-50058 MTW Expansion, or HUD-50058 MTW data to the HIP system. The information provided in this document should guide both PHAs and business partners in the correct submission of data for each line of these forms and identifies potential errors that may result if the information submitted is either unexpected or incorrect for the specific line of the form.

For the HUD-50058 MTW Expansion, possible MTW flexibilities that may be applied per the [MTW Operations Notice](#) are not reflected since each PHA may or may not apply the flexibilities that could be associated with a particular line of the form. To aid in reporting flexibility, error messages will be relaxed to warning errors or removed completely. These are noted where it is applicable.

### 9.1 Table Key

The table key below provides a summary of each of the information lines provided by HUD-50058, HUD-50058 MTW Expansion, or HUD-50058 MTW form line number (e.g., 2a.) including descriptive information, data type and size information, additional comments, error codes, and JSON reference name and path references.

To keep everything organized in one document, error codes will be reflected one of two ways.

- If an error is applicable to all forms referenced in the “Submission Type” row for that line of the form, it will be reflected in either “Fatal Errors” or “Warning Errors”, as applicable.
- If an error is only applicable to some of the forms referenced in the “Submission Type” row for that line of the form, it will be reflected under “Form Specific Errors”. This includes errors that may be relaxed using the flex buckets for the HUD-50058 MTW Expansion.

<b>Line Name:</b>	<b>Label for the specific line of the form</b>
Description	Description of the data provided to HUD in the HUD-50058, HUD-50058 MTW Expansion, and/or HUD-50058 MTW form line
Type	The data type (e.g., alphanumeric) of the data provided to HUD in the HUD-50058, HUD-50058 MTW Expansion, and/or HUD-50058 MTW form line
Size	The number of characters (e.g., each character consumes one space of alphanumeric text) of the data provided to HUD in the HUD-50058, HUD-50058 MTW Expansion, and/or HUD-50058 MTW form line
Comments	Additional descriptive information about the data provided to HUD in the HUD-50058, HUD-50058 MTW Expansion, and/or HUD-50058 MTW form line. If the flex bucket functionality will be used to relax or remove an error code for a specific submission type and program type, it will be noted here.
Fatal Errors	Error language provided to the submitter for the referenced fatal error code. The error language indicates the nature of the error which should also assist the submitter in resolving the error. These will be fatal errors that are applicable to all forms listed under Submission Type that use that specific line of the form.
Warning Errors	Error language provided to the submitter for the referenced warning error code. The error language indicates the nature of the error which should also assist the submitter in resolving the error. These will be warning errors that are applicable for all forms listed under Submission Type that use that specific line of the form.
Form Specific Errors	If there are error codes that are only used for some of the forms listed under Submission Type, they will be reflected here. It will be noted what form the error is used for, the type of error, error code, and error description similar to the errors used for all forms that use the specific line of the form. If an error is being relaxed using the flex bucket functionality, it will also be noted here in addition to the specifics in the comments.
Form Line Number	Line number reference (e.g., 2a.) for the field on the HUD-50058, HUD-50058 MTW Expansion, and/or HUD-50058 MTW form line
Submission Type	Submission types the form line is included in
Program Type	Program types applicable to the form line.
Action Type	Required action types are those that the form line must be included for; optional action types are those that data can be included for. If an action type is only applicable to a specific submission type it will be shown in parenthesis. For example, if it says 1, 2, 3, 4, 7, 12 (50058 and MTWEX), this means that action type 12 is only applicable to the 50058 and MTWEX submission types.
JSON Name	The name of the JSON field in the HIP50058FormJsonMapping Excel file
JSON Path	The path for the JSON field in the HIP50058FormJsonMapping Excel file

## 9.2 Example of Fatal, Warning, and Form Specific Errors

Below table will help illustrate an example of how to read the tables for each 50058 data element, including what it looks like to have a combination of fatal, warning, and/or form specific errors for a specific line.

Line Name:	Example data element
Description	Example description
Type	Numeric
Size	4
Comments	Additional information for this example would go here.
Fatal Errors	<ul style="list-style-type: none"> <li>7900 – Example fatal for must be numeric</li> </ul>
Warning Errors	<ul style="list-style-type: none"> <li>7904 – Example warning error 1 error description</li> </ul>
Form Specific Errors	<p><b><u>HUD-50058 fatal errors:</u></b></p> <ul style="list-style-type: none"> <li>7901 – Example fatal error 1 error description</li> <li>7902 – Example fatal error 2 error description</li> </ul> <p><b><u>HUD-50058 MTW fatal errors:</u></b></p> <ul style="list-style-type: none"> <li>7903 – Example fatal error 3 error description</li> </ul> <p><b><u>HUD-50058 MTW Expansion errors relaxed from fatal to warning:</u></b></p> <ul style="list-style-type: none"> <li>7901 – Example fatal error 1 error description</li> <li>7902 – Example fatal error 2 error description</li> </ul>
Form Line Number	12zz. (50058 and MTWEX), 21zz. (MTW)
Submission Type	50058, MTWEX, MTW
Program Type	All – T; MTWEX – LN; MTW – PR
Action Type	Required for 1, 2, 3, 4, 7, 17; Optional for 16
JSON Name	exampleJSON
JSON Path	rentCalculation.exampleJSON

The first few rows of the table provide information about the data element from the form and the type of data that must be submitted (numeric, alphanumeric, or alpha). After this are three rows that provide information about how the information that is submitted is validated. Next, is the form line number, submission type, program type, and required and optional action types. Finally, the technical information about where the data for the specific line is submitted in the JSON file is presented.

In order to be able to provide the validation information for all three forms in one document, it was important to be able to as easily as possible distinguish between the errors that were only for some of the forms (submission types) for a data element or situations where errors are used as coded in the system (e.g., fatal error) but others are “relaxed” using the flex bucket functionality.

To help understand how to read the tables further:

- What the submission type codes stand for can be found in [10.1 Header](#) under Submission Type, but they basically stand for what they would appear to – the HUD-50058 (aka regular 50058, HUD-50058 MTW Expansion, and HUD-50058 MTW).
- The program types have changed with the 2024 version of the forms so that they are consistent between all three forms. You can find these by looking at line 2a in [10.3 Section 2. Action](#).
- Here is how to interpret what errors are applicable to each type of 50058 form in the above example.
  - Error code 7900 is a fatal error, and it is applicable to all three types of 50058 forms because it is listed in the Fatal Errors row. This section contains fatal errors that are applicable to all submission types listed in the Submission Type row of the table. It will not include any fatal errors that are relaxed for a submission type(s) using the flex bucket functionality.
  - Error code 7904 is a warning error, and it is applicable to all three types of 50058 forms because it is listed in the Warning Errors row. This section contains warning errors that are applicable to all submission types listed in the Submission Type row of the table. It will not include any warning errors that are removed for a submission type(s) using the flex bucket functionality.
  - Error codes 7901 and 7902 are fatal errors for submission type 50058 **only**. This is because they are listed under a heading for HUD-50058 fatal errors in the Form Specific Errors row.
  - Error codes 7901 and 7902 are also applicable to the HUD-50058 MTW Expansion, but in this case are relaxed from fatal errors to warnings using the flex bucket functionality. This is because they are listed under a heading for HUD-50058 MTW Expansion errors relaxed from fatal to warning.
  - Error code 7903 is a fatal error for submission type MTW **only**. This is because it is listed under a heading for HUD-50058 MTW fatal errors in the Form Specific Errors row.
  - In this example, there are:
    - 3 fatal errors (7900, 7901, and 7902) and 1 warning error (7904) for submission type 50058
    - 2 fatal errors (7900 and 7903) and 1 warning error (7904) for submission type MTW
    - 1 fatal error (7900) and 3 warning errors (7901, 7902, and 7904) for submission type MTWEX

If no program types are listed in the heading above error codes in the Form Specific Errors row, then it applies to all program types listed in the Program Type row for the form (submission type) indicated in the heading. However, in some cases an error may only be relaxed from a fatal error to a warning error for specific program types. If that is the case, they will be specified in the heading above the errors.

### 9.3 Submission Statuses

When a form is submitted using the JSON file format, it will be given one of two statuses depending on whether any errors were received. The possible statuses are outlined in the table that follows. PHA users can view any errors received either through the interface provided by their vendor software or within HIP by navigating to the form submission and look under the Log Entries heading on the right side of the page.

<b>Status</b>	<b>Types(s) of Errors Received</b>
Submitted	No errors (warning or fatal) were received.
Submitted	One or more warning errors were received, but no fatal errors.
Validation Error	One or more fatal errors were received, but no warning errors.
Validation Error	A combination of warning and fatal errors were received.

## 10.0 Sections and Lines of the HUD-50058, HUD-50058 MTW Expansion, and HUD-50058 MTW

### Notes:

- Please look at the information in [9.1 Table Key](#) to understand how to interpret the tables for each data element.
- Lines that only appear on one form will be placed in the same order within each section as they are in within the JSON mapping file. For those lines that share JSON mapping with lines in other sections, they will be placed in the same order as the OMB approved form unless otherwise noted.

### 10.1 Header

Note: The tables below use the term “Field Label” instead of “Line Label” since these are fields in the header of the submission file and not included on the OMB approved HUD-50058 forms.

<b>Field Label:</b>	<b>Submission Type</b>
Description	The submission type identifier for the specific HUD-50058 form that is being submitted. Also defines the rule set to validate the data contained in the form submission.
Type	Alphanumeric
Size	10
Comments	Use 50058 for the HUD-50058 form, MTWEX for the HUD-50058 MTW Expansion form, and MTW for the HUD-50058 MTW
Fatal Errors	None
Warning Errors	None
Form Specific Errors	None
Form Line Number	n/a
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for all action types
JSON Name	submissionType
JSON Path	header.submissionType

<b>Field Label:</b>	<b>Identification Code</b>
Description	The identifier generated by the vendor software that uniquely identifies the form submission.
Type	Alphanumeric
Size	255
Comments	There is no standardized format for identification code. Identification code is not a required value in API submission.
Fatal Errors	None
Warning Errors	None
Form Specific Errors	None
Form Line Number	n/a
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for all action types
JSON Name	identificationCode
JSON Path	header.identificationCode

<b>Field Label:</b>	<b>Vendor Software ID</b>
Description	A number, letter, or combination of the two to identify the vendor of the software.
Type	Alphanumeric
Size	100
Comments	Identifier each software vendor may use to identify its product.
Fatal Errors	None
Warning Errors	None
Form Specific Errors	None
Form Line Number	n/a
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for all action types
JSON Name	vendorSoftwareId
JSON Path	header.vendorSoftwareId

<b>Field Label:</b>	<b>Vendor Software Version</b>
Description	The identifier of the software release and version information.
Type	Alphanumeric
Size	100
Comments	Used when providing customer support to identify which version of software users have used to record tenant characteristic data.
Fatal Errors	None
Warning Errors	None
Form Specific Errors	None
Form Line Number	n/a
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for all action types
JSON Name	vendorSoftwareVersion
JSON Path	header.vendorSoftwareVersion

<b>Field Label:</b>	<b>Form Version Date</b>
Description	The OMB approval date of the HUD-50058 or HUD-50058 MTW Expansion form being submitted.
Type	Alphanumeric
Size	8
Comments	Enter 2020 for the previous version of the HUD-50058, HUD-50058 MTW Expansion, and HUD-50058 MTW (when the HUD-50058 and HUD-50058 MTW were renewed and the HUD-50058 MTW Expansion was created under the Paperwork Reduction Act (PRA)). Enter 2024 for the updated version of the forms that have an expiration date of 09/30/2026 and are addressed in this version of the TRG. This field will tell the system which validations to use to validate the form being submitted.
Fatal Errors	None
Warning Errors	None
Form Specific Errors	None
Form Line Number	n/a
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for all action types
JSON Name	formVersionDate
JSON Path	header.formVersionDate

<b>Field Label:</b>	<b>Vendor Defined Data</b>
Description	Information defined by the software vendor.
Type	Alphanumeric
Size	255
Comments	None
Fatal Errors	None
Warning Errors	None
Form Specific Errors	None
Form Line Number	n/a
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for all action types
JSON Name	vendorDefinedData
JSON Path	header.vendorDefinedData

**10.2 Section 1. Agency (MTW Agency on HUD-50058 MTW)**

<b>Line Name:</b>	<b>Agency Name</b>
Description	Name of the Public Housing Agency (PHA) that completes the family's Form HUD-50058.
Type	Alpha
Size	255
Comments	The name of the PHA as recorded in HIP.
Fatal Errors	None
Warning Errors	None
Form Specific Errors	None
Form Line Number	1a.
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for all action types
JSON Name	phaName
JSON Path	agency.phaName

<b>Line Name:</b>	<b>PHA code</b>
Description	Unique code assigned to the PHA by HUD
Type	Alphanumeric
Size	5
Comments	Use postal state codes (exception for Islands) and Number HUD uses to recognize the PHA in that state. For Section 8, this PHA number must have active units.
Fatal Errors	<ul style="list-style-type: none"> <li>3117 – PHA Code is required</li> </ul>
Warning Errors	None
Form Specific Errors	<p><b><u>HUD-50058 MTW Expansion fatal errors:</u></b></p> <ul style="list-style-type: none"> <li>3300 – Must equal a PHA code eligible to submit the HUD-50058 MTW Expansion form</li> </ul> <p><b><u>HUD-50058 MTW fatal errors:</u></b></p> <ul style="list-style-type: none"> <li>9619 – Must equal a PHA code eligible to submit the HUD-50058 MTW form</li> </ul>
Form Line Number	1b.
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for all action types
JSON Name	phaCode
JSON Path	agency.phaCode

<b>Line Name:</b>	<b>Program</b>
Description	The program type the household is a participant in.
Type	Alpha
Size	2
Comments	<p>May use either one letter or two letter codes, where applicable.</p> <ul style="list-style-type: none"> <li>• For all submission types: Use codes P for Public Housing, T for Tenant-Based Assistance, PR for Project-Based Assistance, and H for Homeownership.</li> <li>• For submission type 50058 only: Use code MR for Mod Rehab.</li> <li>• For submission type MTWEX only: Use codes LP for Local, Non-Traditional Property-Based Vouchers and LN for Local, Non-Traditional Tenant-Based.</li> </ul> <p>Note: Program type CE that was on the 2020 version of the HUD-50058 and used in IMS/PIC is no longer in use and has been removed from the 2024 version of the form.</p>
Fatal Errors	<ul style="list-style-type: none"> <li>• 4012 – Program code must be valid for given form type or submission type</li> </ul>
Warning Errors	None
Form Specific Errors	None
Form Line Number	1c.
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for all action types
JSON Name	program
JSON Path	agency.program

<b>Line Name:</b>	<b>Project Number</b>
Description	Official development number for the Public Housing project. The project number is composed of the 5-character PHA code and 6-digit development number.
Type	Alphanumeric
Size	11
Comments	Enter the 11-character development number as it appears in the HIP system. If the Unit Real Estate ID Number is provided, this can be left blank.
Fatal Errors	<ul style="list-style-type: none"> <li>• 4014 – Project number submitted does not exist for this PHA</li> <li>• 4016 – Project number or unit real estate ID must be provided when the program type is public housing</li> <li>• 4020 – Project number should be blank when the program type is not public housing</li> </ul>
Warning Errors	None
Form Specific Errors	None
Form Line Number	1d.
Submission Type	50058, MTWEX, MTW
Program Type	P
Action Type	Required for all action types
JSON Name	projectNumber
JSON Path	agency.projectNumber

<b>Line Name:</b>	<b>Building Number</b>
Description	Official building number for the public housing building in the building and unit data for the specified PHA code and project number (development number)
Type	Alphanumeric
Size	6
Comments	The building number for the building that the unit being occupied is in as it appears in the HIP system. The public housing inventory identifier combination of building number, building entrance number, and unit number will be validated at the unit number level. If the Unit Real Estate ID Number is provided, this can be left blank.
Fatal Errors	<ul style="list-style-type: none"> <li>• 4030 – Building number should be blank when the program type is not public housing</li> </ul>
Warning Errors	None
Form Specific Errors	None
Form Line Number	1e.
Submission Type	50058, MTWEX, MTW
Program Type	P
Action Type	Required for all action types
JSON Name	buildingNumber
JSON Path	agency.buildingNumber

<b>Line Name:</b>	<b>Building Entrance Number</b>
Description	Official building entrance number within a public housing building in the building and unit data for the specified PHA code and project number (development number)
Type	Alphanumeric
Size	3
Comments	The building entrance number for the building that the unit being occupied is in as it appears on the unit details page in the HIP system. The public housing inventory identifier combination of building number, building entrance number, and unit number will be validated at the unit number level. If the Unit Real Estate ID Number is provided, this can be left blank.
Fatal Errors	<ul style="list-style-type: none"> <li>4036 – Building entrance number should be blank when the program type is not public housing</li> </ul>
Warning Errors	None
Form Specific Errors	None
Form Line Number	1f.
Submission Type	50058, MTWEX, MTW
Program Type	P
Action Type	Required for all action types
JSON Name	entranceNumber
JSON Path	agency.entranceNumber

<b>Line Name:</b>	<b>Unit Number</b>
Description	Official unit number within a public housing building in the building and unit data for the specified PHA code and project number (development number)
Type	Alphanumeric
Size	10
Comments	Applies to Public Housing program only.
Fatal Errors	<ul style="list-style-type: none"> <li>• 4038 – Unit number or unit real estate ID must be provided when the program type is public housing</li> <li>• 4040 – Unit number should be blank when the program type is not public housing</li> <li>• 4044 – The unit specified on the submitted New Admission, Other Change of Unit (2024 version Unit Change Only), or Historical Adjustment (for 2020 version of HUD-50058 only) is occupied by an assisted tenant. Verify household currently occupying the unit in the system and either move this household out of the unit or if the household is correct ensure the most recent 50058 has been submitted</li> </ul> <p><b>Error code 9546 was previously removed from the system in error and we are in the process of adding it back in. Consider the entry below a placeholder until it is ready for testing.</b></p> <ul style="list-style-type: none"> <li>• 9546 – Unit being assigned is in initial upload, has a submitted unit tenant status change, is removed from inventory, is proposed to be removed from inventory, or is removed without HUD formal approval</li> </ul>
Warning Errors	<ul style="list-style-type: none"> <li>• 9504 – This submission occupies a unit that was previously in an approved Unit Tenant Status. If there was a period of vacancy after the unit ceased to meet the conditions of this Unit Tenant Status and before the unit was occupied by this assisted household, the PHA MUST take action to record that period of vacancy with the proper effective dates. Failure to do so may impact operating subsidy calculations and PHAS scores.</li> </ul>
Form Specific Errors	<p><b><u>HUD-50058 MTW fatal errors:</u></b></p> <ul style="list-style-type: none"> <li>• 9620 – The submitted combination of Building Number, Building Entrance Number &amp; Unit Number does not exist for selected development number</li> </ul>
Form Line Number	1g.
Submission Type	50058, MTWEX, MTW
Program Type	P
Action Type	Required for all action types
JSON Name	unitNumber
JSON Path	agency.unitNumber

<b>Line Name:</b>	<b>Unit Real Estate ID Number</b>
Description	Unit Real Estate ID Number established by the system for the unit
Type	Alphanumeric
Size	12
Comments	Currently Public Housing only for all submission types. May be used for other programs in the future. Unit Real Estate ID Number can be accessed in the HIP system. The RID is comprised of the PHA code and a system generated 7-digit number.
Fatal Errors	<ul style="list-style-type: none"> <li>• 4046 – The submitted combination of Building Number, Building Entrance Number &amp; Unit Number does not exist for selected development number, and the submitted Unit Real Estate ID does not exist, or this information has not been provided.</li> <li>• 4049 – An invalid unit real estate ID was provided.</li> <li>• 4053 – The submitted combination of Building Number, Building Entrance Number &amp; Unit Number for selected development number is a different unit than the submitted Unit Real Estate ID</li> <li>• 9501 – The unit specified on the submitted New Admission, Other Change of Unit (2024 version Unit Change Only), or Historical Adjustment (for 2020 version of HUD-50058 only) is occupied by an assisted tenant. Verify household currently occupying the unit in the system and either move this household out of the unit or if the household is correct ensure the most recent 50058 has been submitted</li> </ul>
Warning Errors	<ul style="list-style-type: none"> <li>• 4047 – The composite key is null or invalid and the composite key is not required when a valid unit real estate ID is provided.</li> <li>• 4055 – In the future, you will need to provide a valid unit real estate ID</li> </ul>
Form Specific Errors	None
Form Line Number	1h.
Submission Type	50058, MTWEX, MTW
Program Type	P
Action Type	Required for all action types
JSON Name	realEstateId
JSON Path	agency.realEstateId

**10.3 Section 2. Action (MTW Action on HUD-50058 MTW)**

Line Name:	Type of Action
Description	Indicates the reason for submitting a 50058 form for the family.
Type	Numeric
Size	2
Comments	<p>Use the following codes for each action type. Do not use a zero before single digit numbers.</p> <p>1 for New Admission                  2 for Annual Reexamination for HUD-50058 and Full Reexamination for HUD-50058 MTW Expansion                  3 for Interim Reexamination                  4 for Portability Move-in (T and H only)                  5 for Portability Move-out (T and H only)                  6 for End Participation                  7 for Unit Change Only                  8 for SSP Addendum Only                  9 for Annual Reexamination Searching                  10 for Issuance of Voucher (T only)                  11 for Expiration of Voucher (T only)                  12 for Flat Rent Annual Update (P only)                  13 for Inspection Only (T, PR, and MR only)                  15 for Void                  16 for Other Change, Non-Income Threshold                  17 for PBV Transfer to Tenant-Based Voucher</p> <p>Notes:</p> <ul style="list-style-type: none"> <li>• When a family that receives flat rent requires a full reexamination, use Annual Reexamination.</li> <li>• Error 5282 was created because action type 5, Portability Move-out, cannot be used for program type Project-Based Voucher. Portability Move-out is needed to do a Portability Move-in (action type 4).</li> <li>• Action type 12 is currently marked “Reserved” on the HUD-50058 MTW and therefore is not being used.</li> <li>• Additional information on action types can be found in the HUD-50058 instruction booklet (currently under development).</li> </ul>
Fatal Errors	<ul style="list-style-type: none"> <li>• 3119 – Action Type is required</li> <li>• 3202 – If program type equals Project Based Voucher, cannot equal Portability Move-in, Portability Move-out, Annual Reexamination Searching, Issuance of Voucher, Expiration of Voucher, or Flat Rent Annual Update</li> <li>• 3203 – If Program equals Homeownership Voucher, cannot equal Annual Reexamination Searching, Issuance of Voucher, Expiration of Voucher, Flat Rent Annual Update, or Annual HQS Inspection Only (2024 version Inspection Only)</li> </ul>

Line Name:	Type of Action
	<ul style="list-style-type: none"> <li>• 3205 – Auto EOP submissions cannot be voided</li> <li>• 3206 – Auto port-out submissions cannot be voided</li> <li>• 3303 – Action Type must be numeric and valued as a valid action type for the type of 50058 form being submitted (submission type being submitted)</li> <li>• 4056 – Action Type cannot equal Portability Move-in, Portability Move-out, Annual Reexamination Searching, Issuance of Voucher, Expiration of Voucher, or Annual HQS Inspection Only (2024 version Inspection Only) when program type is public housing</li> <li>• 4058 – Action Type cannot equal Flat Rent Annual Update when Program is Tenant-Based Voucher, Project-Based Voucher, or Homeownership Voucher. On the HUD-50058 program type also cannot be Mod Rehab.</li> <li>• 4060 – Action Type cannot equal Issuance of Voucher or Expiration of Voucher when Program Type is Mod Rehab.</li> <li>• 4062 – If Action Type equals Portability Move-in, Portability Move-out, or Annual Reexamination Searching, Program Type must equal Tenant-Based Voucher</li> <li>• 4064 – Program type is different than program type in current record. End of Participation is required to change the program type</li> <li>• 4173 – A record with a later Effective Date exists for this Head of Household within the same PHA. Therefore, this End of Participation cannot be processed</li> <li>• 5279 – Last action submitted for this tenant was Portability Move-Out. Only Void (from the same PHA), SSP Addendum Only (formerly FSS Addendum Only (from the same PHA)), or Portability Move-In (from a different PHA) can be submitted. No other actions can be accepted.</li> <li>• 5280 – A Tenant-Based Voucher or Homeownership Voucher record for this Head of Household in a different PHA does not exist. Portability Move-In cannot be accepted. **10.7 Section 6. Assets (HUD-50058 and HUD-50058 MTW Expansion), Section 18. MTW Asset Income (HUD-50058 MTW)**

Notes:

- Line 6b/18b, Type of asset, is not included in this document because this data element is not submitted to or stored by the system.
- HUD will publish a table named “Annual Inflationary Adjustments and Passbook Rate” annually online, on the [HUDUser website](#). The net family assets threshold and passbook rate will be included in the publication and will be stored within HIP to be used to assist with validation of information submitted on a 50058 form.

<b>Line Name:</b>	<b>Family Member Name and No.</b>
Description	The name of each family member in the household that has assets and their associated member number from line 3a that corresponds to the asset information reported.

Form Line Number	6h. (50058 and MTWEX), 18h. (MTW)
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for 1, 2, 3, 4, 7, 9, 17; Optional for 16
JSON Name	totalAnticipatedOrActualIncome
JSON Path	assets.totalAnticipatedOrActualIncome

<b>Line Name:</b>	<b>Total imputed income</b>
Description	Total of the values listed in line 6f, Imputed income.
Type	Numeric
Size	7
Comments	The value in Total imputed income should always equal the sum of all values that are listed in line 6f, Imputed income. Use whole dollar amounts (no decimals). If type of action equals 5, 6, 8, 10, 11, 12, 13, or 15, put zero.
Fatal Errors	<ul style="list-style-type: none"> <li>• 9604 – Total imputed income should be numeric.</li> <li>• 9605 – Total imputed income should not be calculated when the total cash value of assets does not exceed the net family assets threshold for action types New Admission, Annual Reexamination (Full Reexamination for HUD-50058 MTW Expansion), Interim Reexamination, and Annual Reexamination Searching</li> <li>• 9606 – Total imputed income must be the sum of all amounts provided in the column for imputed income.</li> <li>• 9607 – If total imputed income is a positive value, then total net family assets must be non-zero</li> </ul>
Warning Errors	<ul style="list-style-type: none"> <li>• TBD – Total imputed income should not be calculated when the total cash value of assets does not exceed the net family assets threshold for action types Portability Move-in and Unit Change Only</li> </ul>
Form Specific Errors	None
Form Line Number	6i. (50058 and MTWEX), 18i. (MTW)
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for 1, 2, 3, 4, 7, 9, 17; Optional for 16
JSON Name	totalImputedIncome
JSON Path	assets.totalImputedIncome

**Note:** PHAs will no longer need to submit passbook-rate information, and submitted 50058s will be validated against the HUD-specified passbook savings rate that will be stored within the system for use by the validation formulas. The HUD-specified passbook savings rate will be published annually online, on the [HUDUser website](#). The field is being retained on the form for PHAs’ calculative purposes since the passbook rate must be used in the determination of imputed asset income. It is not being included in this document since it does not need to be included in the JSON file submission.

<b>Line Name:</b>	<b>Final asset income</b>
Description	The final figure in calculating asset income
Type	Numeric
Size	7
Comments	Should be whole dollar amounts (no decimals).
Fatal Errors	<ul style="list-style-type: none"> <li>• 5334 – Final Asset Income should be numeric</li> <li>• 9608 – Final Asset Income should be equal to the Total Actual Income plus Total Imputed Income for action types New Admission, Annual Reexamination (Full Reexamination for HUD-50058 MTW Expansion), Interim Reexamination, and Annual Reexamination Searching</li> </ul>
Warning Errors	<ul style="list-style-type: none"> <li>• TBD – Final Asset Income should be equal to the Total Actual Income plus Total Imputed Income for action types Portability Move-in and Unit Change Only</li> </ul>
Form Specific Errors	None
Form Line Number	6k. (50058 and MTWEX), 18k. (MTW)
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for 1, 2, 3, 4, 7, 9, 17; Optional for 16
JSON Name	finalIncome
JSON Path	assets.finalIncome

**10.8 Section 7. Income (HUD-50058 and HUD-50058 MTW Expansion), Section 19. MTW Income (HUD-50058 MTW)**

Note: Even though line 19k shares the same JSON mapping as line 8y, which is in Section 8 of the HUD-50058 and HUD-50058 MTW Expansion, it will still appear in this section since that is where it is located on the form.

<b>Line Name:</b>	<b>Family member name/No.</b>
Description	The numeric value assigned to the member of the household who contributed the income
Type	Numeric
Size	2
Comments	Use the same member number that was used in 3a.
Fatal Errors	<ul style="list-style-type: none"> <li>• 4322 – Member Number must be numeric</li> <li>• 4324 – Member Number cannot be blank</li> <li>• TBD – Member Number in the Income section must equal what appears in the Household section of the form for action types New Admission, Annual Reexamination (Full Reexamination for HUD-50058 MTW Expansion), Interim Reexamination, and Annual Reexamination Searching</li> </ul>
Warning Errors	<ul style="list-style-type: none"> <li>• TBD – Member Number in the Income section must equal what appears in the Household section of the form for action types Portability Move-in and Unit Change Only</li> </ul>
Form Specific Errors	None
Form Line Number	7a. (50058 and MTWEX), 19a. (MTW)
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for 1, 2, 3, 4, 7, 9, 17; Optional for 16
JSON Name	memberNumber
JSON Path	income.memberIncome[\$].memberNumber

<b>Line Name:</b>	<b>Income Code</b>
Description	The code to indicate the source of the income for the member of the family
Type	Alpha
Size	2
Comments	Use P for pension, S for SSI, G for general assistance, I for Indian trust/per capita, B for own business, F for Federal wage, W for other wage, N for other nonwage sources, SS for Social Security, T for TANF, C for child support, M for military pay, HA for PHA wage, U for unemployment benefits, IW for annual imputed welfare income and E for Medical Reimbursement.
Fatal Errors	<ul style="list-style-type: none"> <li>• 4328 – Income Code must be valued when income dollars per year is greater than 0</li> <li>• 4330 – Income Code must equal Pension, SSI, General assistance, Indian trust/per capita, Own business, Federal wage, Other wage, Other nonwage sources, Social Security, TANF assistance, Child support, Medical reimbursement, Military pay, PHA wage, Annual imputed welfare income or Unemployment benefits</li> </ul>
Warning Errors	None
Form Specific Errors	None
Form Line Number	7b. (50058 and MTWEX), 19b. (MTW)
Submission Type	50058, MTWEX, MTW
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for 1, 2, 3, 4, 7, 9, 17; Optional for 16
JSON Name	incomeCode
JSON Path	income.memberIncome[\$].incomeCode

**Note: Line 7c/19c, Calculation (PHA use), is not included in this document because this data element is not submitted to or stored by the system. This data element is included on the HUD-50058 and HUD-50058 MTW Expansion so that agencies have a way to record the information that contributes to the calculation of household income if they desire to do so.**

<b>Line Name:</b>	<b>Dollars per year</b>
Description	Identifies the dollars per year for the income source listed
Type	Numeric
Size	6
Comments	Use whole numbers.
Fatal Errors	<ul style="list-style-type: none"> <li>• 4332 – Dollars Per Year must be numeric</li> <li>• 4334 – Dollars Per Year must be greater than 0 when income code is valued</li> <li>• 4336 – Dollars Per Year must be greater than or equal to zero</li> </ul>
Warning Errors	None
Form Specific Errors	None
Form Line Number	7d. (50058 and MTWEX), 19d. (MTW)

Action Type	Required for 1, 2, 3, 7; Optional for 16
JSON Name	overIncomeDate
JSON Path	income.overIncomeDate

## 10.9 Section 8. Deductions and Allowances

### Notes:

- The following lines are not included in this document because these data elements are not submitted to or stored by the system. These data elements are included on the HUD-50058 and HUD-50058 MTW Expansion so that agencies have a way to record the information that contributes to the calculation of line 8e, Total permissible deductions.
  - Line 8a, Total annual income
  - Line 8b, Family Member Name and No.
  - Line 8c, Type of permissible deduction
  - Line 8d, Amount
- HUD will publish a table named “Annual Inflationary Adjustments and Passbook Rate” annually online, on the [HUDUser website](#). The elderly/disabled family deduction amount and deduction per dependent amount will be included in the publication and will be stored within HIP to be used to assist with validation of information submitted on a 50058 form.

Line Name:	Total permissive deductions
Description	Indicates total of all permissive deductions
Type	Numeric
Size	5
Comments	Use whole dollar amounts (no decimals). If type of action equals 4, 5, 8, 9, 10, 11, 12, 13, or 15 put zero.
Fatal Errors	<ul style="list-style-type: none"> <li>• 4354 – Total Permissible Deductions should be numeric</li> <li>• 4356 – Total Permissible Deductions must be greater than or equal to zero</li> </ul>
Warning Errors	<ul style="list-style-type: none"> <li>• 5299 – Total Permissible Deductions is greater than 90000</li> </ul>
Form Specific Errors	None
Form Line Number	8e.
Submission Type	50058, MTWEX
Program Type	All – P, PR, T, H; 50058 – MR; MTWEX – LP, LN
Action Type	Required for 1, 2, 3, 4, 7, 9, 17; Optional for 16
JSON Name	totalPermissibleDeduction
JSON Path	expectedIncome.totalPermissibleDeduction

<b>Line Name:</b>	<b>Medical/disability threshold</b>
Description	The product of the medical percent and the total annual income
Type	Numeric
Size	5
Comments	Should be a whole number. If type of action equals 5, 6, 8, 10, 11, 12, 13, or 15, put zero. For submission type MTWEX, error code 4362 will be relaxed to a warning for all program types.
Fatal Errors	<ul style="list-style-type: none"> <li>• 4358 – Medical/ Disability Threshold should be numeric</li> <li>• TBD – Medical/Disability Threshold must be zero if head, spouse, co-head is under 62 and no family member is disabled for action types New Admission, Annual Reexamination (Full Reexamination for HUD-50058 MTW Expansion), Interim Reexamination, and Annual Reexamination Searching</li> </ul>
Warning Errors	<ul style="list-style-type: none"> <li>• TBD – Medical/Disability Threshold must be zero if head, spouse, co-head is under 62 and no family member is disabled for action types Portability Move-in and Unit Change Only</li> </ul>

**10.12 Section 11. Section 8: Project-Based Vouchers (HUD-50058), Section 11. Housing Choice Voucher: Project-Based Vouchers and Local, Non-Traditional Property-Based Voucher (HUD-50058 MTW Expansion), Section 21. MTW Tenant-Based or Project-Based Assistance (HUD-50058 MTW)**

Note: Section 21 of the HUD-50058 MTW is used for both Project-Based Vouchers (PBV) and Tenant-Based Vouchers (TBV) reporting. The following should help you find the lines for this section of the form.

- Lines that are only on the HUD-50058 MTW will reflect the PBV information under Section 11/21 and the TBV information under Section 12/21.
- So that we could reduce the number of new validation errors that had to be created in the system, the decision was made to use the validation errors from either, but not both, section 11 or 12. Therefore, the information for the section 21 lines of the form can be found in the section that contains the shared validation errors. To help with this, a note will be made in the other section directing you to where to find that line if it is not in this section.

<b>Line Name:</b>	<b>Indicate if flat subsidy or income-based subsidy</b>
Description	Indicate if the family is receiving a flat subsidy or an income-based subsidy.
Type	Alpha
Size	1
Comments	Use F for Flat Subsidy and I for Income-Based Subsidy. If 1c equals P or H, leave blank.
Fatal Errors	<ul style="list-style-type: none"> <li>• 9640 – If Program Type equals Tenant-based or Project-based assistance must equal F for Flat Subsidy or I for Income-Based Subsidy</li> </ul>

**10.13 Section 12. Housing Choice Vouchers: Tenant Based Vouchers (HUD-50058), Section 12. Housing Choice Voucher: Tenant-Based Vouchers or Local, Non-Traditional Tenant-Based (HUD-50058 MTW Expansion), Section 21. MTW Tenant-Based or Project-Based Assistance (HUD-50058 MTW)**

Note: Section 21 of the HUD-50058 MTW is used for both Project-Based Vouchers (PBV) and Tenant-Based Vouchers (TBV) reporting. The following should help you find the lines for this section of the form.

- Lines that are only on the HUD-50058 MTW will reflect the PBV information under Section 11/21 and the TBV information under Section 12/21.
- So that we could reduce the number of new validation errors that had to be created in the system, the decision was made to use the validation errors from either, but not both, section 11 or 12. Therefore, the information for the section 21 lines of the form can be found in the section that contains the shared validation errors. To help with this, a note will be made in the other section directing you to where to find that line if it is not in this section.
