OVERVIEW

1.0 GENERAL INFORMATION

1.1 System Overview

The Voucher Management System (VMS) supports the information management needs of the Housing Choice Voucher Program (HCVP) and management functions performed by the Financial Management Division (FMD) and the Financial Management Center (FMC) of Public and Indian Housing and the Real Estate Management Center (PIH-REAC). VMS’s primary purpose is to monitor and manage Public Housing Agency (PHA) use of vouchers. VMS collects PHA data that enables HUD to fund, obligate, and disburse funding in a timely manner based on actual PHA use.

The web-based VMS application facilitates electronic submission of monthly program data by the PHAs which, in turn, makes the data accessible to users in PIH-REAC, FMD, FMC, the Department of Housing and Urban Development (HUD) Field Offices (FO), and HUD Headquarters (HQ). Currently, users can generate and print or download PHA monthly reports, but PIH personnel perform all budgeting and funding activities manually. The long-term goal of the VMS project is to integrate budgeting and funding activities into the VMS application and automate the currently manual tasks. Automation will be accomplished by implementing electronic entry of all relevant data, automatic data calculations, complex report generation, and automated business workflows including an online approval process.

1.2 System Access

To access and use VMS, you must be either a HUD employee or a qualified PHA employee with a valid User ID and password. User authentication is handled by the Web Access Security System (WASS) using Role-Based Access Control (RBAC). You can request a user ID here. Once you have your User ID and Password you will be able to log into the system.

1.3 Technical Support

For assistance accessing the WASS system, password reset, or unlocking user ID, please contact:

PIH-REAC Technical Assistance Center
Phone: 1-888-245-4860
Fax: 202-485-0280
Email at REAC_TAC@hud.gov

Further assistance can be obtained through the REAC TAC Customer Community Portal

For data entry questions contact your Financial Analyst (FA) at the Financial Management Center (FMC). You can find this information on the PHA Info tab in the VMS system.
1.4 Organization of the Manual
This manual has been organized to familiarize the reader with the Voucher Management System (VMS). It introduces each step of the VMS for the user. The manual is organized separately for PHA and HUD users.

PHA USER

2.0 PHA USER GETTING STARTED
This section provides a general walkthrough of the system from initiation through exit to enable the user to understand the sequence and flow of the VMS system.

2.1 Logging into VMS
Click on the “Login here” link on the PIC-REAC homepage http://www.hud.gov/offices/reac/online/reasyst.cfm.
Next, you will see the login screen. Enter your User ID and Password, then click on the “Login” button.

The “Rules of Behavior for HUD Systems” page displays once you are logged in (This page will only display the first time you login and once a year thereafter). Read the “Rules of Behavior for HUD Systems” then click on the “Accept” button at the bottom of the page.
The “Legal Warning” page displays next. Read the warnings, then click “Accept”.

Next, the Secure Systems Main Menu displays. Click the “Voucher Management System (VMS)” link.
The VMS homepage displays, notice the menu of options on the left side of the screen. 

**NOTE:** Depending on the access you have been granted in the Secure Systems and VMS, the Main Menus displayed on your screen may differ from the ones that are presented here.

### 2.2 Changing User ID and Password

To change your password, click on the “Password Reset” link on the PIC-REAC homepage: http://www.hud.gov/offices/reac/online/reasyst.cfm.
On the Password Reset page, complete all fields, then click “Reset Password”.

2.3 Exiting VMS and Logging Out of WASS

This section outlines the procedures for exiting VMS and logging out. Make sure that you have saved or submitted the necessary information. Click the “Exit VMS” link on the left side of the page.

If you have un-submitted data, you will be prompted with the following message.
Click “Exit” to continue exit without submitting data. You will be taken to the Main Menu; or click “Submit PHA” to go to the data that needs to be submitted. After clicking “Exit”, the “Secure Systems Main Menu” page will appear, click “logout” to log out of the WASS system.

A message appears asking you to close all browser windows, click “OK”.

The “Logged Out” page appears. Close the browser window to exit REAC Online Systems.
3.0 PHA USER - USING THE VMS SYSTEM

3.1 Manage PHA Data

PHA users in the Housing Choice Voucher Program are required to maintain financial reports in accordance with accepted accounting standards to permit timely and effective audits. The financial records identify the annual contributions that are received and disbursed by the PHA. The Voucher for Payment of Annual Contribution and Operating Statement, Form HUD-52681-B, is used by HUD to approve actual PHA program expenses for the PHA fiscal year (FY) and is the basis for reviewing PHA financial estimates for the subsequent fiscal year.

PHA users are advised not to wait until the final day of the collection period to submit their data. Doing so may result in a delayed transmission of the data to HUD that could impact a PHA’s funding. Failure to submit the data results in a PHA being sanctioned as a non-submitter. Incomplete submission and/or non-submissions could also affect the PHA’s future years funding. PHAs need to follow the submission timeframes established by the FMC.

3.2 Enter PHA Data Tabs

Click on “Enter PHA Data Tabs” link under the heading “Manage PHA Data” located on the left side navigational menu of the VMS homepage.
A user with multiple PHA Codes may either enter the PHA code directly in the first box or select the state code from the drop-down menu and click on “Go” which opens the next drop-down menu with PHAs in that state. Select the correct PHA and click on “Go”. This will open the “List of Submissions” page.

**List of Submissions**
The “List of Submissions” page serves as the homepage for the selected PHA. The top section of the page will display information about the PHA including: PHA Code, PHA Name, Fiscal Year End (FYE), and PHA Type (Public Housing, HCV, or combined). The bottom section contains links to the data entry pages for each month listed.
The List of Submissions displays the reporting months in descending order. This page includes:

**Month** – Identifies the submission period and contains the monthly links used to enter or modify PHA information.

**Status** – Displays the current status of the monthly submission. Status types include:

- Not Entered
- Saved
- Revised
- Pending Hard Edit
- Submitted
- Submitted - Hard Edit Approved
- Hard Edit Disapproved

**Last Updated By** – Includes the first and last name of the person who updated the submission and the date updated.

A link at the bottom of the List of Submissions page allows the user to view historical data submitted beyond the current and past two fiscal years. To view the historical data, click the “View All Submissions” link at the bottom of the List of Submissions page. The Prior Month Correction (PMC) Status displays as hyperlinks under the “Status” column.
Prior Month Correction (PMC) Data Input
Click on the “Data Input” link on the navigational menu on the left side of the page to enter and submit a PMC.

Prior Month Correction (PMC) Status Checking
Click on the “Status Checking” link on the navigational menu on the left side of the page to pull the PMC status report by the assessment related to the link.

3.3 Enter, Modify, View Data
HAP expenses are entered under the month for which they are applicable, regardless of the month in which they are actually paid. HAP expenses are only entered after the payment has been made.

You may view and print completed submissions (Status of: Submitted, Pending Hard Edit, Hard Edit Approved), but you may not alter them. You must use the Prior Month Correction (PMC) process to alter them.
Select the desired Month/Year to display
Under the month column, click on the month/year for which you wish to enter data. Form HUD-52681-B for the PHA and month will display. Note that the Month has a “Not Entered” status when the PHA has never entered data for that month.

The PHA will not be allowed to enter data for the current month if any previous month has not been fully submitted. If the prior month has been submitted and now has a Pending PMC, the PHA will still be able to submit the current month. Original submissions with the following status “Pending Hard Edit”, “Saved”, and “Revised” are considered incomplete submissions.

Enter PHA Data Tabs
From the VMS homepage, click on the “Enter PHA Data Tabs” on the left side navigational menu.

Enter your PHA Code and then click on the “Go” button.
Click on the date in the “Month” column for which you want to enter data.

This will bring you to the “Manage PHA Data Page”.

![Voucher Management System](image)
Select the data entry tab you want

For ease of data entry, and to improve accuracy of reported information, HUD has divided the data entry document, Form HUD-52681-B, into tabular format. “Voucher UML/HAP” is the default display, as shown below. To access the other sections, just click on the appropriate tab button at the top of the tabular screen.

The six main data entry screens are:

- Voucher UML/HAP
- Income/Expenses
- Expense/Comments
- Disaster UML/HAP
- EHVP UML/HAP
- PHA Info

The two additional tabs are not for data entry and will be discussed later:

- Submission Tab
- Executive Summary

The data entry tabs are displayed below:

Voucher UML/HAP Tab
Income/Expenses Tab

Expense/Comments Tab
Disaster UML/HAP Tab

EHVP UML/HAP Tab
**PHA Info Tab**

**Key Data into Fields**
Enter data into each appropriate field of the tab. You may navigate from field to field using the “Tab” key on your keyboard, or by positioning your cursor in the white box of the field. Some fields are shown as gray. These will be calculated or provided by the system and are not data entry fields.

**Question Marks Provide Help**
Next to each editable field is a red Question Mark (?) in a yellow circle. If you click on the question mark, an explanation of the field will appear, as shown below.
Validate Data

Once the data has been entered completely for a tab, click the “Validate” button at the bottom of screen to check for data entry errors.

The Validate Data function is crucial to the integrity of the data entered prior to saving and submitting. VMS verifies the apparent validity of the data via a series of steps, first checking for proper format, second comparing the amounts fall within “reasonable” ranges, then comparing related fields to insure completeness and consistency against a list of business rules. Where inaccuracies are found, the system will generate error messages.

The order in which the fields are validated is as follows:

1. a simple check (basic validation) to make sure the field is present if mandatory, and is numeric (for a numeric field), with no special characters embedded;
2. a check for Hard Edits, against the Hard Edit criteria listed below in this section; and
3. a cross-validation check, if two fields must accompany each other, such as Litigation and Litigation HAP, which must both be present if one of the fields is present.

If a field fails all three types of validation checks, only the first type of error will appear. When this error is corrected, if the field still fails the other two types, only the second type of error will appear. If the field fails the third type of validation once the second type is corrected, only then will the third cross-validation error appear.

Basic Validation Mandatory Field Check

The required fields are:

Voucher UML/HAP Tab:
- HCV All Voucher HAP Expenses After the First of Month;
- HCV Number of Vouchers Under Lease (HAP Contract) on the last day of the Month;
- Mainstream – HAP Expenses After the First of the Month;
- Mainstream – Number of New Vouchers Issued but not Under HAP Contract as of the Last Day of the Month; and
- Project Based Vouchers – Total HAP Expenses.

Income/Expenses Tab:
- Unrestricted Net Position (UNP) as of the Last Day of the Month;
- Restricted Net Position Funds (RNP) as of the Last Day of the Month;
- Cash/Investment as of the Last Day of the Month - Voucher Program Only;
- Non-MTW Administrative Expenses (Will accept 0 for MTW PHAs); and
- MTW - HCV Administrative Expenses (Will accept 0 for Non MTW PHAs).

EHVP UML/HAP:
- Emergency Housing Vouchers – HAP Expenses After the First of the Month;
- Emergency Housing Vouchers – Admin Fees – Preliminary Fee Expenses;
- Emergency Housing Vouchers – Unrestricted Net Position Funds (UNP) as of the Last Day of the Month;
- Emergency Housing Vouchers – Restricted Net Position Funds (RNP) as of the Last Day of the Month; and
- Emergency Housing Vouchers – Cash/Investment as of the Last Day of the Month.
The system will perform a simple check and the error message below will display if validation fails.

**Numeric Check**
The system will perform a simple check for numeric data with no special character embedded and the message error message below will display if validation fails.

*Please validate your data entry. It cannot contain more than 12 digits, or have a special character like a minus sign, a decimal point, a dollar sign, or any other special symbol.*

**Hard Edit Validation**
During the validation process, data entered is validated against specific business rules associated with hard edits. The system prevents the user from submitting data that fails to meet the business rules. Data that fails a hard edit is not necessarily incorrect – the data may just fall outside reasonable ranges. The PHA can either correct the data or explain it. If you opt to explain it, you will be able to submit data with a status of “**Pending Hard Edit**”. To complete this submission, approval by the PHA’s Financial Analyst is required. The Financial Analyst can generate a report of submissions containing Hard Edit explanations. The Financial Analyst must review and either approve or disapprove the submission.
**Hard Edit Error Messages**

The fields of the monthly UML data will be compared to the ACC unit data. If the entered data fails the criteria for hard edits, an error message will display and you will need to make the correction or enter a comment from the drop-down box or a personalized comment to explain why the data is correct as submitted.

Here is an example of what a Hard Edit Error looks like:

![Hard Edit Error Example]

A list of Hard Edit Errors can be found in Appendix B. Here are a few general things to note about the errors:

- If the value of a relevant UML or HAP field is not empty, the PHA will not be allowed to choose the ‘no units leased’ (or similar option) from the drop down.
- VMS will allow 5-year Mainstream agencies to have no entry in the Total Voucher and Total HAP fields.
- If the entered data fails the edit criteria for the hard edits the user will need to make the correction OR enter a comment from the drop-down box or a personalized comment to explain why the data is correct as is.

**Adding a Comment**

If a Hard Edit Error appears and the user selects “Other” as an option, they must enter a comment.

![Adding a Comment Example]

Above are examples of errors found during the cross-validation comparison of fields. For every UML field that has a corresponding HAP field, if one contains an amount, they must both contain amounts.

Every UML field with a corresponding HAP field is subject to Cross Validation error checking, and vice versa. If an amount is present in one of the fields, an amount must also be present in the corresponding field.
Cross Validation
If any of the entered data items fail validation, the following System Message will be displayed at the top of the form warning you that there may be errors with the entered data. Explanatory messages will appear under the erroneous fields.

Save Data
After the Validation step, if the data passed all the validation steps, messages will appear telling you that the data is valid and reminding you to save the data.

The “Save” button will then display
You may save your data by clicking on the “Save” button at the bottom of the tab. You should always save it before continuing to a different tab. When you save the data, the validation logic is automatically triggered. If any other errors are found, the data is not saved, you must correct the fields with error messages before any of the data on the tab will be saved. If you sign out of the session before correcting the erroneous fields, the data you keyed on that tab will be lost.

When all errors are corrected, the message below will display and you can move on to the next tab. Repeat for each tab.
3.4 PHA Info Tab

The PHA Information Tab differs from the other data entry tabs in two significant ways:

1. Much of the data on this Tab is pre-populated.
   - Initial HA information is supplied from the PIC database.
   - PHA Contact Information is initially entered by the PHA user. Once PHA Contact Information has been entered, it will stay, pre-populating the fields of this Tab for new submissions until someone enters different information in the fields.

2. There are hyperlinks in the Program Area Point of Contact - FMC and Program Area Point of Contact - Field Office sections of the Tab which help the user to draft and send an email to the FMC Financial Analyst or Field Office point of contact.
Pre-populated Point of Contact Fields and Hyperlinks
When you click on the Point of Contact FMC hyperlink, the screen below will open. This allows the PHA user to draft an email to the FMC Point of Contact (POC); The FMC POC User-ID is pre-populated. The sender fills in the rest.

3.5 SUBMISSION TAB
After the data has been entered into the VMS system and you are satisfied that data is correct, you will need to submit the Monthly Voucher Data by opening the “Submission” tab and clicking the “Submit” button.

Navigate to the desired month’s Form HUD-52681-B as described in the Manage PHA Data Section 4.1. Then click on the “Submission” tab button at the top, a two-part Submission tab will appear, displaying Validation History and Submission History.
After clicking on the “Submit” button at the bottom of the Submission Tab the following screen will display:

Press the “Submit” button on this screen. The system will display a blue window requesting that you certify that the submission data is correct, and complete, and that it does not contain any expense Portability payments from another Housing Authority.

By clicking on the “OK” button, you are certifying the accuracy of the monthly submission. If you are not sure the document is ready to be submitted, click on the “Cancel” button, and you will be returned to the previous screen.

If you pressed the “OK” button, and if your Monthly Submission passes a final validation check, the following screen will display. At the top will be a System Messages window with a message stating that the submission process is complete, and that the Voucher data was successfully submitted.

If you pressed the “OK” button, and your Monthly Submission did not pass a final validation check, you will get an error that looks like this:
Validation History

To view the Validation History of previous submissions, select the month you wish to view from the List Of Submissions screen. The Submission Tab will display Hard Edit validation for the Form and a Prior Month Correction (PMC), a column on the far left identifies a Form or PMC Hard Edit. **NOTE: Form refers to the original submission.**

---

The Drop-Down Selection column displays hyperlinks.
Validation History Screen—Form/PMC Column
Click on the hyperlink to display a description of the Hard Edit.

Submission History
The Submission History section of the Submission Tab will display the latest status per item for PMC as a hyperlink.

Click on the hyperlink to pull the PMC status report by the assessment related to the link.
Click on the Record ID link to display the item detail as seen on the screen below.
3.6 Print Monthly Submission

All PHA users may View/Print Monthly data regardless of whether month has been submitted. There are a number of print options, outlined below:

**Individual Tab Prints**

Each of the 5 data entry tabs has a button at the bottom to print that tab only: The data of the entire Tab will be formatted into a PDF report, which can be saved or printed. Prior to creating the report, the Tab must have first been validated and saved.

Below are an example of a Tab print button and the PDF format print of that entire Tab.
VMS Additional Expense/Comment Print Page

The complete comments entered in the COMMENTS field on TAB 3 (Expense/Comments) or comments entered in the PMC Comments/New Adjusted Value Field will display on the PDF print version when user clicks on the “Print” button.

Individual Submission Print

To generate a printer friendly version of an individual submission, click on the “Updated Date/Time” link for that submission in the bottom section of the Submission Tab:
A PDF multi-page report of the entire submission will be created. You may save or print this report.

**Multiple Submissions Report**
To print multiple submissions reports, click on the check boxes for the desired submissions in the bottom section of the Submissions Tab, and click on the “Print Multiple Submissions” button at the bottom of the tab.
**Submission Status PDF Report**

You can print the Submission Validation History and Submission Status Tab in the same way that you printed the individual data entry tabs, by clicking on the “Print Screen” button at the bottom of the tab:

4.0 PHA USER PRIOR MONTH CORRECTIONS (PMC)

If you have one or more corrections to make to previous submissions, you can link to this function from the VMS homepage. Using this feature, changes are input then submitted for FA approval.

The Prior Month Correction Process (PMC) is the only way to alter submissions with the following statuses: “Submitted”, “Pending Hard Edit”, “Hard Edit Approved”.

PHAs should not wait until the end of the year to make corrections, rather they should enter adjustments/revisions as they are discovered to ensure accurate data is available for utilization and budget projection purposes.
4.1 Entering the Correction

On the VMS homepage, Select “Data Input” on the left navigation menu:

Enter the desired PHA code directly in the first box or select the state code from the drop-down menu, selects the PHA name from the next drop-down menu, and then click “Go”.

**PMC Data Entry Form**
Select the Submission to be corrected, by selecting the Year and Month from drop-down lists. If the date you select does not have a completed Submission, you will receive an error message, as displayed in red below.
Next, the Tab Selection and Field Selection Drop-down menus will be highlighted so that you can select the Field to be corrected and Tab where it is located. When you select a Tab, the Drop-down menu for Field Selection will contain just the fields for that Tab.

Once you have selected the field to be corrected, the Data Entry Form will display the Correction fields and a PHA Justification field on the form. If the field to be corrected is anything except a UML/HAP combination, the Form will look like the one below.

Enter the “New Adjusted Value” and explanation in the PHA Justification field.

The Old Value and Difference fields cannot be modified. They are generated by the system.

If you select a field that has UML and HAP associated values, the PMC Correction screen will look like this, with both fields displayed and available for correction.
Once you have modified the New Adjusted Value in one or both of the displayed fields, the next step is to press the “Validate” button at the bottom of the page. The system will validate just the affected fields. If Hard Edit Error messages were present on the Submission for other fields, they will not be re-validated in this process.

If the Validation process produces errors or Hard Edit errors, the error messages will appear under the appropriate field, as shown in the screen below:

For a Hard Edit Error, just as for a regular Submission, click the appropriate drop-down menu explanation. If "Other" is selected a mandatory explanation is required in the Comment box to further explain the change. For non Hard-Edit errors, such as invalid format or cross-reference errors, the field must be corrected. When corrections and explanations are complete, press the "Validate" button again.

If there are no Validation errors, or if all Hard Edit errors have been properly explained, a “Submit” button will appear at the bottom of the page. Click this button to submit the correction.
When you press “Submit”, the correction is submitted and you will see the following screen:

If you press the “Continue” button on the screen, you will return to an initial PMC Data Entry Screen in order to enter a new correction.

Note: Most fields are fully replaced by the PMC process. One exception is the Comment field on the Additional Expense / Comments Tab. If you modify this field via PMC, previous comments will be retained, and your comment will be added below them in the (text) field. The Comment field will accommodate a maximum of 4000 characters at a time with the User’s ID, date and time stamp. The Comment field will accommodate and display a maximum of 20,000 characters.

Range Check Validation
The Range Check Validation is an edit that checks the difference between the original data and revised data that is submitted by the PHA. The below information discusses four different scenarios that will or will not trigger the Range Validation Edit. If the Range Edit is triggered, then a comparison of the original data to the revised data is done to determine if the difference falls within an acceptable range. The Range Validation Edit is used to reduce the number of hard edit reviews required by the PHA and the FA at the FMC. See Scenario #4 for additional details.
Scenario 1: The system will not check for the range if a PMC passed hard edit validation before adjustment and now fails, for example, the PHA does not have Moving to Work (MTW) Vouchers, PHA originally had not entered data for the MTW program and now enters data for the program, the following will happen:

PMC Data Input Screen-Scenario 1

- The Validation process displays Hard Edit errors, the error messages will appear under the appropriate field, as shown in the screen below:

For a Hard Edit Error, just as for a regular Submission, click the appropriate drop-down menu explanation. If "Other" is selected, a mandatory explanation is required in the Comment box to further explain the change.

When all errors have been properly explained click on the “Submit” button to submit the correction. FA review and approval for the hard edit error message is required.
Scenario 2: The system will not check for the range if a PMC failed hard edit validation before adjustment and now passes, for example, the PHA has HOPE VI vouchers, PHA did not originally enter data for the HOPE VI program but now enters data for the program, the following will happen:

The validation process will display no errors as shown in the screen below:

![Voucher Management System](image1)

A “Submit” button will appear at the bottom of the page as shown below. Click this button to submit the correction.

![Voucher Management System](image2)
Scenario 3: The system will not check for the range if a PMC passed hard edit validation before adjustment and now passes, for example, the PHA is in the Litigation program, PHA originally entered data for the Litigation program and enters data for the program again, the following will happen:

The Validation process will display no validation errors

A “Submit” button will appear at the bottom of the page as shown below. Click this button to submit the correction.

Scenario 4: The system will check for the range if a PMC failed hard edit validation before adjustment and fails again, the difference between the change is checked to determine if the difference between the old and new data is within an acceptable range. If the data falls within an acceptable range than no approval is needed. If the data is not within that acceptable range, then FA approval is required. For example, the PHA is not in the Family Unification program, PHA did originally enter data for the Family Unification program, fails hard edit validation but gets approved by FA, PHA is still not a part of the Family Unification program but enters data for the program, the following will happen:

When the HUD user logs on to the VMS system to view the submitted PHA data, the homepage is displayed. There are two options under the “Manage PHA Data” side menu:

- Enter PHA Data Tabs; and
- Review and Approve Pending Hard Edits Tabs.

8.1 Review and Approve Pending Hard Edits Tabs

The Pending Hard Edit Review and Approval process takes place when a PHA has submitted its monthly voucher data with Hard Edits included. A Hard Edit is a field which has been flagged by the Validation process as an error, but which has been explained by the PHA to be correct as is. It is the responsibility of the Financial Analyst to review the data and explanations, and to either approve or disapprove the submission.

**Access Data**

To begin a review of the submitted data, log into the VMS system, and click the “Review and Approve Pending Hard Edits Tabs” link shown on the homepage side menu.
You will be prompted to enter either the PHA number or select the appropriate State Code and then click on go to proceed.

After selecting the state code, choose the appropriate PHA from the dropdown list and click “go”. If you selected the state option, a second menu will appear with a drop-down list of PHAs within the selected state.
A List of Submissions for that PHA will display, showing the Status for each pending hard edit. Notice that the first entry has a status of “Pending Hard Edit Submission” and is blank in the Financial Analyst column.

Click on a specific month-year link to open the pending hard edit. The Form HUD-52681-B will be displayed in tabular format, and the Financial Analyst (FA) can browse each tab validating the data entry. The first tabs contain the actual PHA data entry, plus any Hard Edit notations for fields that did not meet the validation edits. The last Tab will display “Review” rather than “Submission”.
Review Submitted Data

After reviewing each of the individual tabs, the FA will click on the “Review” tab. This screen is displayed in 2 segments. Section 1 displays the validation history, identifying the hard edit errors, tab and field name. Section 2 displays the Budget Authority Data used to validate the data for the reporting month.

Note: FA will be able to see error messages on the Review and Approval page. All Hard Edit error messages have numbers e.g. HE001, HE023, for FAs to understand details of error messages see Appendix B.

After you’ve reviewed the Hard Edits, click on the “Review” button at the bottom of the Review Tab.
Click “Yes” or “No” and add a comment, then click “Save”. When you go back to the “Review and Approve Pending Hard Edits Tabs” you will now see the approval where it was blank before.

WHERE TO REPORT

- Vouchers that you administer on behalf of another PHA under portability, and for which HAP is reimbursed to your PHA, should not be reported by you as part of your leasing or HAP expenses; they will be reported by the PHA that is paying the HAP. These are commonly referred to as “Port-Ins.” There are separate line items on the Voucher UML/HAP tab in VMS for reporting “Portable Vouchers Administered (Port In)” and “Portable Vouchers Paid.”

- A voucher under lease must be reported in one, and only one, main category. Vouchers reported under the sub-categories “New This Month” and “Enhanced Vouchers” are also reported under the main categories of “Homeownership” and “Tenant Protection”, respectively. “If a leased voucher could appropriately be reported in more than one category, it should be reported in the category that reflects how the participant initially qualified for the voucher. However, if a participant initially qualified under “All Other Vouchers” and later qualified under another category, that participant would be reported under the new category.

Example 1: A participant initially qualified for a voucher under “All Other Vouchers” and later entered the Homeownership program. That participant would be reported under Homeownership.

Example 2: A participant qualified for a Special Purpose Voucher (SPV). That participant later ported their voucher to another jurisdiction. The PHA that initially qualified the participant for the SPV reports that voucher as SPV rather than Portable Vouchers Paid. Add information in the "Comments" field to indicate the number of vouchers reported and corresponding expenses on the SPV lines that have ported but are not reported on the “Portable Vouchers Paid” line.

HAP EXPENSES

- HAP expenses are to be reported in the correct voucher categories for HAP Contracts in effect and paid as of the first day of the month.

- A separate line item on the Voucher UML/HAP tab, called "HCV – All Voucher HAP Expenses After the First of the Month" collects HAP costs incurred for new HAP contracts effective after the first of the month.

- HAP expenses are entered under the month for which they are applied, regardless of the month in which they are actually paid.

- HAP expenses are only entered after the payment has been made.

- The PHA should include utility reimbursements paid in the appropriate HAP category for the associated voucher type.

1 Please see VASH definition below under DEFINITIONS for exception if a VASH family no longer needs case management and is moved out of the VASH and onto the PHA’s regular voucher program, in accordance with Notice PIH 2011-53
For RAD 1 and/or VASH, the PHA should report ALL HAP expenses, even the prorated HAP expenses, in the RAD 1 and/or VASH field as appropriate rather than reporting the prorated HAP expenses on the line for “All Voucher HAP Expenses AFTER the First of the Month”.

HAP Contracts on hold are not reported as units leased as of the first day of the month. HAP Contracts on hold are defined as a contract that has been entered into the PHA’s system but for which the PHA is awaiting a landlord signature. Units are not reported as under lease until the HAP contract is executed (signed). Once the contract is signed, if the monthly submission is completed, the PHA should enter such units as a Prior Month Correction. If not signed within 60 days, the HAP Contract is void. No HAP may be paid unless the HAP contract has been signed.

Abated units are units that are currently under lease but for which the HAP is being withheld for specific reasons such as the unit failing to pass HQS inspection. The PHA should enter the Unit Months Leased (UML) during the abatement period as the unit is under contract. If for some reason the abatement is reversed then the PHA can enter a Prior Month Correction for HAP for those months attributable to the abatement period. Failure by the PHA to report the abated UML will skew the leasing and per unit costs for this agency.

Mainstream – In VMS, there are specific lines provided for Mainstream Units Leased and HAP Expenses only. The Mainstream program is separate and distinct from the regular HCV program and these values are not included in the Voucher Leasing and HAP totals reported in any other field. If a value greater than zero (0) was entered in any field under “Voucher Units”, a value greater than zero (0) must be entered in the corresponding “Voucher HAP Expenses” field.

HAP expenses incurred after the first of the month for the Mainstream program should be reported in the Mainstream – HAP Expenses After the First of the Month field.

Leasing and HAP expense data for each category of voucher are now reported on the same line.

The PHA must report UMLs for “Zero HAP” Units. These are units for which the HAP has been calculated to be $0. The units are to be reported in the same voucher category as they would if the HAP was a positive dollar amount².

---

² HCV regulations state that a HAP contract may remain in effect for 180 consecutive days while at zero HAP. Thus, in VMS, the PHA must report a UML for the “Zero HAP” unit because a contract is still in effect. After 180 days at $0 HAP, the HAP contract terminates automatically. Therefore, the PHA would no longer report a UML for that unit. Refer to 24 CFR 982.455 (Automatic Termination of HAP contracts). EXCEPTION: Tenants who were in place at the time of a RAD conversion and have $0 HAP should be reported in the VMS as long as the family is in place. The 180 day limit does not apply to these tenants. Tenants leased after the conversion are limited to the 180 day limit for $0 HAP as described above.

HCV- Restricted Net Position (RNP) as of the Last Day of the Month: RNP is the amount of Housing Assistance Payments (HAP) Equity for the HCV program. Emergency Housing Vouchers 1 - FSS Escrow Deposits: Deposits to Emergency Housing Voucher FSS participants escrow accounts made for this month.

Emergency Housing Vouchers 1 - FSS Escrow Forfeitures this Month: Total value of Emergency Housing Voucher FSS escrow forfeited by tenants during this month. Forfeitures occur when a tenant violates or fails to complete the FSS contract. This amount should not be deducted from HAP expenses as reported for the month in the Emergency Housing Voucher HAP field.

Emergency Housing Vouchers 1 - Fraud Recovery Total Collected this Month: Total EHP dollar amount recouped by the HA as fraud recoveries during the month is applied to the EHP RNP account. This consists of the lesser of one-half the amount recovered or the total recovery minus the costs incurred by the PHA in the recovery. This amount should NOT be deducted from HAP expenses as reported for the month in the HAP expenses field. NOTE: Total dollar amount recouped "is cash collected and not revenue recorded".

Emergency Housing Vouchers 1 - Unrestricted Net Position Funds (UNP) as of the Last Day of the Month: Note: Regardless of the system (VMS or FASS-PH) in which UNP is being reported, the PHA should report its EHV UNP amount as defined by GAAP – “the difference between the EHV program’s asset and liabilities that do not meet the definition of restricted net assets or invested in capital assets net of related debt.” In essence, HUD is requesting information on net liquid or near liquid resources that can be readily used for the administration of the program, as this definition does not include net assets related to fixed assets (see OPEB liability exception below as related to liquid or near liquid resources).

UNP is equal to the cumulative total of Administrative Fee (AF) revenue for the EHV program which includes Ongoing Administrative Fees, Preliminary Fees and Placement/Issuance Fees (Service Fees are NOT included) minus total EHV administrative expenses and any UNP used for EHV housing assistance payments (HAP). EHV UNP is the amount by which administrative fees paid by HUD for a PHA fiscal year exceeded the PHA administrative expenses for the fiscal year, plus the portion of fraud recovery revenue collected in cash that is returned to the EHV UNP account (see Note 1), any interest earned on AF reserve (see 24 CFR 982.155(a)) and up to $500 per calendar year in interest and investment income earned on HAP and RNP funds, and the net Port-In reimbursement revenue (in excess of Port-In HAP expenses) received from initial Housing Authorities for unabsorbed Port-Ins. This means that the total AF revenue used to calculate the UNP reported in this field does not include excess AF received during the current PHA FY because excess AF received does not accumulate to the UNP until the end of the PHA’s FY. The excess fees received during the PHA’s current FY will not be reported in the UNP field until the end of the last month of the PHA’s fiscal year. The monthly amount reported is the UNP balance at the beginning of the year plus any interest earned and fraud recovery allocated to the UNP account for the months in the current year. For guidance on eligible use of EHV Fees, please reference PIH Notice 2021-20 issued May 5, 2021, and PIH Notice 2021-25 issued August 20, 2021. NOTE: The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS forfeitures funds can be retained by the PHA and used for eligible FSS expenses as provided in the rule. The forfeited funds are restricted and shall not be reported in EHV UNP. Additional instruction in Appendix D.

Emergency Housing Vouchers 1 - Restricted Net Position Funds (RNP) as of the Last Day of the Month: RNP is the amount of Housing Assistance Payments (HAP) Equity for the Emergency Housing Voucher (EHV). It is equal to the cumulative sum of total HAP revenues received minus the total cumulative HAP expenses for eligible unit months that have been paid and is calculated on a monthly basis. Total expenses include EHV - FSS Escrow
Deposits. Total HAP revenue is defined as total HAP disbursements received during the month including the portion of fraud recovery revenue collected in cash that is returned to the HAP equity. **NOTE:** The Federal Register, Vol.87, No.95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS escrow forfeitures shall not be reported in the EHV RNP as those funds are no longer returned to the EHV program but will be retained by the PHA and used for eligible FSS expenses only as provided in the rule. Interest income earned on excess EHV HAP and RNP balances should not be included in the RNP. The allowable retention of interest funds should be reported in the PHA’s EHV UNP balance as described in greater detail in the UNP field definition. Negative balances must be reported in VMS on a monthly basis and carried through the fiscal year-end or calendar year-end, as applicable, until cash revenue is received (from any allowable source) to clear the negative balance. Additional instruction in Appendix D.

**NOTE:** Fraud Recovery – PHAs should not include fraud receivable revenue not yet collected in the VMS reporting as those funds are not available for the PHA to use for HAP expenses. The amount of fraud recovery sent to the RNP account is usually 50% of the amount collected but may be less depending on the PHA’s situation. See 24 CFR §792.202 for more on the amounts of fraud recovery a PHA may retain in its UNP and the portion of fraud recovery that must be returned to the HCV Program by inclusion in the RNP balance.

**Emergency Housing Vouchers 1 - Cash/Investment as of the Last Day of the Month:** Cash/Investments as of the last day of the month are the total amount of EHV HAP and AF cash and investments for the EHV program. Amounts reported include all cash and investments as they relate to EHV UNP and EHV RNP balances as of the last PHA FYE, as well as any additional funds that may have been reported in the EHV UNP and EHV RNP fields through the month being reported. This total amount must include only those EHV HAP and EHV AF (including ongoing fees, preliminary fees, service fees, and placement/issuance fees) funds received for the EHV program, including interest earned, and fraud recovery. **NOTE:** The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning June 2022, FSS escrow forfeitures shall not be reported in the EHV Cash/Investments field as those funds can be retained by the PHA and used only for eligible FSS expenses as provided in the rule. Funds received for an FSS Coordinator and not expensed must not be included. Cash and investments for HCV - FSS Escrow Deposits/accounts must not be included, nor should any cash or investments representing other current liabilities to the PHA, such as outstanding checks and “accrued compensated absences – current period” as these funds are already restricted for specific purposes and are not available for use to pay EHV HAP or other administrative costs. These reporting requirements are applicable to MTW PHAs as well. Additional instruction in Appendix D.

Housing Choice Voucher Field Instructions for UNP, RNP, and Cash/Investments

HCV - Unrestricted Net Position (UNP) as of the Last Day of the Month: UNP is equal to total Administrative Fee (AF) revenue minus total HCV administrative expenses and any AF used for housing assistance payment (HAP) or other activities for Housing Choice Voucher Related purposes.

Note: Regardless of the system (VMS or FASS-PH) in which UNP is being reported, the PHA should report its UNP amount as defined by GAAP – “the difference between the HCV program’s asset and liabilities that do not meet the definition of restricted net assets or invested in capital assets net of related debt.” In essence, HUD is requesting information on net liquid or near liquid resources that can be readily used for the administration of the program, as this definition does not include net assets related to fixed assets (see OPEB liability exception below as related to liquid or near liquid resources).

UNP is equal to the cumulative total of Administrative Fee (AF) revenue minus total HCV administrative expenses and any UNP used for housing assistance payments (HAP) or other activities for Section 8 Tenant Based related purposes. UNP (referred to as “Administrative Fee Reserve” in the HCV program regulations) is the amount by which administrative fees paid by HUD for a PHA fiscal year exceeded the PHA administrative expenses for the fiscal year, plus the portion of fraud recovery revenue collected in cash that is returned to the UNP account (see Note 1), any interest earned on AF reserve (see 24 CFR 982.155(a)) and up to $500 per calendar year in interest and investment income earned on HAP and RNP funds, and the net Port-In reimbursement revenue (in excess of Port-In HAP expenses) received from initial Housing Authorities for unabsorbed Port-Ins. This means that the total AF revenue used to calculate the UNP reported in this field does not include excess AF received during the current PHA FY because excess AF received does not accumulate to the UNP until the end of the PHA’s FY. The excess fees received during the PHA’s current FY will not be reported in the UNP field until the end of the last month of the PHA’s fiscal year. The monthly amount reported is the UNP balance at the beginning of the year plus any interest earned and fraud recovery allocated to the UNP account for the months in the current year. PHAs must include in this field their pre-2005 AF balance, formerly referred to as their operating reserve (also known as their AF reserve). PHAs should not report any unexpended FSS Coordinator funds in the UNP field. FSS coordinator funds from grants awarded prior to Federal Fiscal Year 2014 (which were made available to PHA’s beginning in January 2015) can only be spent on FSS coordinator expenses, are not available to support other Section 8 program expenses, and therefore must be recorded in the PHAs financial records as an unearned revenue until spent on FSS coordinator expenses rather than being reported as part of the UNP. FSS coordinator grants awarded in FFY 2014 and future years are treated as a separate program and reported in CFDA 14.896 in FASS. The grant revenue for these awards should not be added to the HCV equity. PHAs should not report any unexpended FSS Coordinator funds in the UNP field. For guidance on eligible use of AF and UNP funds please reference PIH Notice 2015-17 issued October 6, 2015. This document provides additional information regarding the allowable use of AF earned during the PHA’s current fiscal year and the use of available UNP (depending on the source year) and provides information regarding VMS reporting. NOTE: The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS forfeitures funds can be retained by the
PHA and used for eligible FSS expenses as provided in the rule. The forfeited funds are restricted and shall not be reported in HCV UNP.

Accrued Pension and Other Post-Employment Benefits (OPEB) Exception:

Any Accrued Pension and OPEB liability must be included in the UNP balance as reported in the VMS even though this unfunded liability may cause the UNP balance to reflect a ‘false’ negative balance. It is suggested the PHA insert a comment in the ‘comments’ section to reflect the portion of the UNP balance that is attributable to the unfunded pension and OPEB liability and provide the actual ‘cash equivalent’ UNP balance (the UNP “should be” balance if the pension and OPEB liability were removed). Reference GASB 74 (which parallels GASB 67 and replaces GASB 68 ) and GASB 75 (which replaces GASB 45).

**HCV - Restricted Net Position (RNP) as of the Last Day of the Month**: RNP is the amount of Housing Assistance Payments (HAP) Equity for the HCV program. It is equal to the Position (RNP) as cumulative sum of total HAP revenues received minus the total cumulative HAP expenses for eligible unit months that have been paid and is calculated on a monthly basis. Total HAP expense should include of the Last Day of expenses for regular vouchers and for HCV special purpose vouchers including VASH, Non-Elderly Disabled the Month (NED), Family Unification Program (FUP), HOPE VI, One Year Mainstream (MS1), Litigation, RAD Component 1, RAD Component 2, Tenant Protection (TP) and Homeownership, as well as expenses for HCV - FSS Escrow Deposits. Total HAP revenue is defined as total HAP disbursements received during the month including the portion of fraud recovery revenue collected in cash that is returned to the HAP equity (see Note 1) and FSS escrow forfeitures. NOTE: The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS escrow forfeitures shall not be reported in the HCV RNP as those funds are no longer returned to the HCV program but will be retained by the PHA and used for eligible FSS expenses only as provided in the rule. Excess funds received for the Mainstream program shall not be included in this field.

Interest income earned on excess HAP and RNP balances should not be included in the RNP. The allowable retention of interest funds should be reported in the PHA’s UNP balance as described in greater detail in the UNP field definition. Negative balances must be reported on a monthly basis and carried through the fiscal year-end or calendar year-end, as applicable, until cash revenue is received (from any allowable source) to clear the negative balance. However, if the PHA has a negative balance at the end of the calendar year and no available program reserves to cover the shortage, then the negative amount should not carry over into the subsequent calendar year reporting (see Note 2). This results in the PHA starting January of the following year with a zero balance.

Instead, the PHA must transfer HCV UNP or other non-federal funds to the HCV RNP account to cover the negative balance in excess of the HUD-held reserves balance. Please refer to PIH Notice 2013-28 regarding the allowable use of outside sources of funds. The PHA is responsible for operating its program within the amount of funding provided. Negative amounts reported may result in a HUD review and corrective action may be warranted if it is determined the PHA expended any portion of its HAP funding on non-HAP eligible expenses.

**NOTE 1**: Fraud Recovery – PHAs should not include fraud receivable revenue not yet collected in the VMS reporting as those funds are not available for the PHA to use for HAP expenses. The amount of fraud recovery sent to the RNP account is usually 50% of the amount collected, but may be less depending on the PHA’s
situation. See \textit{24 CFR 5792.202} for more on the amounts of fraud recovery a PHA may retain in its UNP and the portion of fraud recovery that must be returned to the HCV Program by inclusion in the RNP balance.

\textbf{NOTE 2:} Reporting Negative RNP – Reporting negative RNP balances in the VMS at the end of the PHA’s fiscal year end is acceptable. Reporting negative balances in the VMS provides reviewers the most accurate financial status of the PHA and is an indication that an additional disbursement may be needed to support HAP expenses. If the PHA reflects a negative balance at FYE, the PHA should confirm if there are available HUD-HELD Reserves to support the shortage. If so, the PHA should record an Accounts Receivable from HUD for the amount that can be supported. The PHA should transfer UNP to cover the remaining shortage.

GAAP reporting requirements direct PHAs to report zero in FASS when their RNP balance is negative at fiscal year-end. This can result in a discrepancy between the two systems although the information is accurate based on current reporting requirements.

MTW PHAs are required to track and report unspent HAP funds, transferred to the single account, in the VMS under the RNP. These are HAP funds transferred to the single account minus HAP and non-HAP expenses allowable under their MTW agreements. The tracking and reporting of HCV originated HAP that has been transferred to the single account but remains unspent will facilitate monitoring budget utilization and establishing operating reserves to be protected from offsets and excess reserves that could be subject to Congressional mandated offsets and or/offset for reallocation as described by the 2016 Appropriations Act or future requirements.

Note that for unaudited and audited FASS reported financial statements, unspent HAP funds that were transferred to the single account will continue to be reported as unrestricted net position (UNP). This results in a known discrepancy between VMS and FASS reporting but is necessary to ensure accurate tracking and reporting of unspent HAP funds.

PHAs/Users should refer to \textit{PIH Notice 2015-17} for additional information related to the proper calculation and reporting of RNP balances in the VMS.

\textbf{HCV- Cash/Investments as of the last day of the month:} (Voucher Program Only) Cash/Investments as of the last day of the month are the total amount of HAP and AF cash and investments for the HCV program. Amounts reported include all cash and investments as they relate to UNP and RNP balances as of the last PHA FYE, as well as any additional funds that may have been reported in the UNP and RNP fields through the month being reported. This total amount must include only those HAP and AF funds (including any interest or revenue derived) received for the HCV program, including interest earned, fraud recovery and Family Self-Sufficiency (FSS) forfeitures. Note: The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS escrow forfeitures shall not be reported in the HCV Cash/Investments field as those funds can be retained by the PHA and used only for eligible FSS expenses as provided in the rule. Funds received for an FSS Coordinator and not expensed must not be included. Cash and investments for FSS escrows must not be included, nor should any cash or investments representing other current liabilities to the PHA, such as outstanding checks and “accrued compensated absences – current period” as these funds are already restricted for specific purposes and are not available for use to pay HAP or other administrative costs. MTW PHAs should report their financial information as required in their MTW Agreement.
Mainstream Field Instructions for UNP, RNP, and Cash/Investments

**Mainstream - Unrestricted Net Position Funds (UNP) as of the Last Day of the Month:** UNP is equal to total Administrative Fee (AF) revenue minus total HCV administrative expenses and any AF used for housing assistance payment (HAP) or other activities for Housing Choice Voucher Related purposes as of the Last Day of the Month. **Note:** Regardless of the system (VMS or FASS-PH) in which UNP is being reported, the PHA should report its UNP amount as defined by GAAP – “the difference between the Mainstream program’s asset and liabilities that do not meet the definition of restricted net assets or invested in capital assets net of related debt.” In essence, HUD is requesting information on net liquid or near liquid resources that can be readily used for the administration of the program, as this definition does not include net assets related to fixed assets (see OPEB liability exception below as related to liquid or near liquid resources).

UNP is equal to the cumulative total of Administrative Fee (AF) revenue minus total Mainstream administrative expenses and any UNP used for housing assistance payments (HAP) or other activities for Mainstream related purposes. UNP (referred to as “Administrative Fee Reserve” in the program regulations) is the amount by which administrative fees paid by HUD for a PHA fiscal year exceeded the PHA administrative expenses for the fiscal year, plus the portion of fraud recovery revenue collected in cash that is returned to the UNP account (see Note 1), any interest earned on AF reserve (see 24 CFR 982.155(a) and up to $500 per calendar year in interest and investment income earned on HAP and RNP funds, and the net Port-In reimbursement revenue (in excess of Port-In HAP expenses) received from initial Housing Authorities for unabsorbed Port-Ins. This means that the total AF revenue used to calculate the UNP reported in this field does not include excess AF received during the current PHA FY because excess AF received does not accumulate to the UNP until the end of the PHA’s FY. The excess fees received during the PHA’s current FY will not be reported in the UNP field until the end of the last month of the PHA’s fiscal year. The monthly amount reported is the UNP balance at the beginning of the year plus any interest earned and fraud recovery allocated to the UNP account for the months in the current year. PHAs should not report any unexpended FSS Coordinator funds in the UNP field. For guidance on eligible use of AF and UNP funds please reference PIH Notice 2015-17 issued October 6, 2015. This document provides additional information regarding the allowable use of AF earned during the PHA’s current fiscal year and the use of available UNP (depending on the source year) and provides information regarding VMS reporting. **NOTE:** The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS forfeitures funds can be retained by the PHA and used for eligible FSS expenses as provided in the rule. The forfeited funds are restricted and shall not be reported in Mainstream UNP.

Accrued Pension and Other Post-Employment Benefits (OPEB) Exception:

Any Accrued Pension and OPEB liability must be included in the UNP balance as reported in the VMS even though this unfunded liability may cause the UNP balance to reflect a ‘false’ negative balance. It is suggested the PHA insert a comment in the ‘comments’ section to reflect the portion of the UNP balance that is attributable to the unfunded pension and OPEB liability and provide the actual ‘cash equivalent’ UNP balance (the UNP “should be” balance if the pension and OPEB liability were removed). Reference GASB 74 (which parallels GASB 67 and replaces GASB 68) and GASB 75 (which replaces GASB 45).

**Mainstream - Restricted Net Position Funds (RNP) as of the Last Day of the Month:** RNP is the amount of Housing Assistance Payments (HAP) Equity for the Mainstream program. It is equal to the Position (RNP) as cumulative sum of total HAP revenues received minus the total cumulative HAP expenses for eligible unit

months that have been paid and is calculated on a monthly basis. Total HAP expense should include the Last Day of expenses as well as expenses for FSS escrow deposits. Total HAP revenue is defined as total HAP disbursements received during the month including the portion of fraud recovery revenue collected in cash that is returned to the HAP equity (see Note 1) and FSS escrow forfeitures. NOTE: The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS escrow forfeitures shall not be reported in the Mainstream RNP as those funds are no longer returned to the Mainstream program but will be retained by the PHA and used for eligible FSS expenses only as provided in the rule.

Interest income earned on excess Mainstream HAP and RNP balances should not be included in the RNP. The allowable retention of interest funds should be reported in the PHA’s UNP balance as described in greater detail in the UNP field definition. Negative balances must be reported on a monthly basis and carried through the fiscal year-end or calendar year-end, as applicable, until cash revenue is received (from any allowable source) to clear the negative balance. However, if the PHA has a negative balance at the end of the calendar year and no available program reserves to cover the shortage, then the negative amount should not carry over into the subsequent calendar year reporting (see Note 2). This results in the PHA starting January of the following year with a zero balance. Instead, the PHA must transfer Mainstream UNP or other non-federal funds to the Mainstream RNP account to cover the negative balance in excess of the HUD-held reserves balance. Please refer to PIH Notice 2013-28 regarding the allowable use of outside sources of funds. The PHA is responsible for operating its program within the amount of funding provided. Negative amounts reported may result in a HUD review and corrective action may be warranted if it is determined the PHA expended any portion of its HAP funding on non-HAP eligible expenses.

NOTE 1: Fraud Recovery – PHAs should not include fraud receivable revenue not yet collected in the VMS reporting as those funds are not available for the PHA to use for HAP expenses. The amount of fraud recovery sent to the RNP account is usually 50% of the amount collected, but may be less depending on the PHA’s situation. See 24 CFR §792.202 for more on the amounts of fraud recovery a PHA may retain in its UNP and the portion of fraud recovery that must be returned to the HCV Program by inclusion in the RNP balance.

NOTE 2: Reporting Negative RNP – Reporting negative RNP balances in the VMS at the end of the PHA’s fiscal year end is acceptable. Reporting negative balances in the VMS provides reviewers the most accurate financial status of the PHA and is an indication that an additional disbursement may be needed to support HAP expenses. If the PHA reflects a negative balance at FYE, the PHA should confirm if there are available HUD-HELD Reserves to support the shortage. If so, the PHA should record an Accounts Receivable from HUD for the amount that can be supported. The PHA should transfer UNP to cover the remaining shortage.

GAAP reporting requirements direct PHAs to report zero in FASS when their RNP balance is negative at fiscal year-end. This can result in a discrepancy between the two systems although the information is accurate based on current reporting requirements.

PHAs/Users should refer to PIH Notice 2015-17 for additional information related to the proper calculation and reporting of RNP balances in the VMS.

Mainstream - Cash/Investments as of the Last Day of the Month: Cash/Investments as of the last day of the month are the total amount of Mainstream HAP and Mainstream AF cash and investments for the Mainstream program. Amounts reported include all cash and investments as they relate to Mainstream UNP and Mainstream RNP balances as of the last PHA FYE, as well as any additional funds that may have been reported in
the UNP and RNP fields through the month being reported. This total amount must include only those HAP and AF funds (including any interest or revenue derived) received for the Mainstream program, including interest earned, fraud recovery, and Family Self Sufficiency (FSS) forfeitures. **NOTE:** The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS escrow forfeitures shall not be reported in the Mainstream Cash/Investments field as those funds can be retained by the PHA and used only for eligible FSS expenses as provided in the rule. Funds received for an FSS Coordinator and not expensed must not be included. Cash and investments for FSS escrows must not be included, nor should any cash or investments representing other current liabilities to the PHA, such as outstanding checks and "accrued compensated absences-current period" as these funds are already restricted for specific purposes and are not available for use to pay HAP or other administrative costs.

**Emergency Housing Vouchers Field Instructions for UNP, RNP, and Cash/Investments**

**Emergency Housing Vouchers - Unrestricted Net Position Funds (UNP) as of the Last Day of the Month:** Note: Regardless of the system (VMS or FASS-PH) in which UNP is being reported, the PHA should report its EHV UNP amount as defined by GAAP – “the difference between the EHV program’s asset and liabilities that do not meet the definition of restricted net assets or invested in capital assets net of related debt.” In essence, HUD is requesting information on net liquid or near liquid resources that can be readily used for the administration of the program, as this definition does not include net assets related to fixed assets (see OPEB liability exception below as related to liquid or near liquid resources).

UNP is equal to the cumulative total of Administrative Fee (AF) revenue for the EHV program which includes Ongoing Administrative Fees, Preliminary Fees and Placement/Issuance Fees (Service Fees are NOT included) minus total EHV administrative expenses and any UNP used for EHV housing assistance payments (HAP). EHV UNP is the amount by which administrative fees paid by HUD for a PHA fiscal year exceeded the PHA administrative expenses for the fiscal year, plus the portion of fraud recovery revenue collected in cash that is returned to the EHV UNP account (see Note 1), any interest earned on AF reserve (see 24 CFR 982.155(a)) and up to $500 per calendar year in interest and investment income earned on HAP and RNP funds, and the net Port-In reimbursement revenue (in excess of Port-In HAP expenses) received from initial Housing Authorities for unabsorbed Port-Ins. This means that the total AF revenue used to calculate the UNP reported in this field does not include excess AF received during the current PHA FY because excess AF received does not accumulate to the UNP until the end of the PHA’s FY. The excess fees received during the PHA’s current FY will not be reported in the UNP field until the end of the last month of the PHA’s fiscal year. The monthly amount reported is the UNP balance at the beginning of the year plus any interest earned and fraud recovery allocated to the UNP account for the months in the current year. For guidance on eligible use of EHV Fees, please reference PIH Notice 2021-20 issued May 5, 2021, and PIH Notice 2021-25 issued August 20, 2021. **NOTE:** The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS forfeitures funds can be retained by the PHA and used for eligible FSS expenses as provided in the rule. The forfeited funds are restricted and shall not be reported in EHV UNP.

**Emergency Housing Vouchers - Restricted Net Position Funds (RNP) as of the Last Day of the Month:** RNP is the amount of Housing Assistance Payments (HAP) Equity for the Emergency Housing Voucher (EHV). It is equal to the cumulative sum of total HAP revenues received minus the total cumulative HAP expenses for eligible unit
months that have been paid and is calculated on a **monthly** basis. Total expenses include EHV - FSS Escrow Deposits. Total HAP revenue is defined as total HAP disbursements received during the month including the portion of fraud recovery revenue collected in cash that is returned to the HAP equity. **NOTE:** The Federal Register, Vol.87, No.95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS escrow forfeitures shall not be reported in the EHV RNP as those funds are no longer returned to the EHV program but will be retained by the PHA and used for eligible FSS expenses only as provided in the rule. Additional instruction in Appendix D. Interest income earned on excess EHV HAP and RNP balances should not be included in the RNP. The allowable retention of interest funds should be reported in the PHA’s EHV UNP balance as described in greater detail in the UNP field definition. Negative balances must be reported in VMS on a monthly basis and carried through the fiscal year-end or calendar year-end, as applicable, until cash revenue is received (from any allowable source) to clear the negative balance.

**NOTE:** Fraud Recovery – PHAs should not include fraud receivable revenue not yet collected in the VMS reporting as those funds are not available for the PHA to use for HAP expenses. The amount of fraud recovery sent to the RNP account is usually 50% of the amount collected but may be less depending on the PHA’s situation. See 24 CFR §792.202 for more on the amounts of fraud recovery a PHA may retain in its UNP and the portion of fraud recovery that must be returned to the HCV Program by inclusion in the RNP balance.

**Emergency Housing Vouchers - Cash/Investment as of the Last Day of the Month:** Cash/Investments as of the last day of the month are the total amount of EHV HAP and AF cash and investments for the EHV program. Amounts reported include all cash and investments as they relate to EHV UNP and EHV RNP balances as of the last PHA FYE, as well as any additional funds that may have been reported in the EHV UNP and EHV RNP fields through the month being reported. This total amount must include only those EHV HAP and EHV AF (including ongoing fees, preliminary fees, service fees, and placement/issuance fees) funds received for the EHV program, including interest earned, and fraud recovery. **NOTE:** The Federal Register, Vol. 87, No. 95, Published May 17, 2022, included the final rule for FSS changes that are effective June 16, 2022. Beginning June 2022, FSS escrow forfeitures shall not be reported in the EHV Cash/Investments field as those funds can be retained by the PHA and used only for eligible FSS expenses as provided in the rule. Funds received for an FSS Coordinator and not expensed must not be included. Cash and investments for HCV - FSS Escrow Deposits/accounts must not be included, nor should any cash or investments representing other current liabilities to the PHA, such as outstanding checks and “accrued compensated absences – current period” as these funds are already restricted for specific purposes and are not available for use to pay EHV HAP or other administrative costs. These reporting requirements are applicable to MTW PHAs as well.

Changes to the VMS User’s Manual and Quick Reference Guide:

**Tab 1:**

**Portable Vouchers Administered** – The definition has been revised to include language that ports for the Emergency Housing Voucher (EHV) program should NOT be included in this field.

**Mainstream HAP Expenses** - The definition for Mainstream HAP expenses has been updated to remove language that required PHAs to enter Mainstream HAP Expenses incurred after the 1st of the month. The recent VMS revisions provides PHAs a new field that specifically captures Mainstream HAP Expenses Incurred After the 1st of the Month. Therefore, effective with March 2022 reporting after first the month expenses should be reported separately and not included in the Mainstream HAP expense field.

**Tab 2:**

The following field definitions have been updated to capture reporting changes due to the FSS Rule change published May 17, 2022. The Federal Register, Vol. 87, No. 95 included the final rule for FSS changes that are effective June 16, 2022. Beginning in June 2022 FSS forfeiture funds can be retrained by the PHA and used for eligible FSS expenses as provided in the Rule. These changes will be applied to the entire month of June for ease of reporting. Therefore, effective June 1, 2022, all FSS forfeitures should be applied in accordance with the new Rule and reported in VMS as outlined in the updated field definitions.
