### GREETINGS FROM ADMINISTRATOR

Greetings,

[Mark Butterfield](#), EWONAP Administrator

It has taken awhile, but it appears that spring/summer has been combined. It's now suddenly in the 90's as I write this. The Upper Midwest has had a long spate of cold and wet weather this spring to the point that it really did not feel very spring-like.

**IHBG Grants Released:** EWONAP recently got the go-ahead to issue the full Grant Agreements for the FY 2022 IHBG Grant allocation. If you have not received your Grant Agreement by the time of this News Bulletin, it should be issued soon after, minus any interim funding that was already released. In addition, the Congressional Release for the ICDBG and IHBG Competitive Grants have been completed, see the award list further on

(Continued on page 2)

## GREETINGS FROM THE ADMINISTRATOR

*(Continued from page 1)*

into the news bulletin. You should hear soon formally, if your Grantee received one.

**Community Gardens.** Now we are suddenly in planting season for those of you who are in the food sovereignty movement, growing your own vegetables to supplement or replace store bought vegetables. Given that inflation is eroding the ability of many low-income residents to make ends meet, growing your own vegetables has an increased urgency. Many TDHE's and Tribal Departments encourage such gardens by providing equipment, seeds, and space to grow plants either on or near the tenant's unit or in a community garden. It requires work, but the rewards are worth the effort in most cases.

**Exercise.** Along with a healthy diet, another factor in a healthy lifestyle is exercise. As most Tribal people are aware, diabetes is rampant in our communities, as is kidney and other chronic diseases. One way to encourage a healthy lifestyle is to use the paths and equipment many Tribes/TDHEs provide for their members sometimes in an ICDBG funded Community Center or outside on paths and recreational spaces, such as the Maliseet Football field and track. In places such as Oneida (WI) and at the Ho-Chunk Nation, there are walking paths to use, park spaces and pow wow grounds not in use (except during actual pow wows). These are ideal places for residents to walk and get their heart rate up as many weight loss experts state that diet alone is not enough to keep the weight off. Diet and exercise together are key to maintaining a healthy weight. Regular exercise keeps down glucose numbers, and is a factor in reducing the risk of diabetes.

**IHP filings due July 18<sup>th</sup>.** NAHASDA requires that each eligible grantee file its Indian Housing Plan [IHP] 75 days BEFORE the beginning of the Grantee's fiscal year. For the majority of Tribes/TDHE's whose fiscal year ends September 30<sup>th</sup>, that date is July 18<sup>th</sup>. Grantees are required to file of an IHP on time, or have a filed waiver showing **that it was beyond the Tribe/TDHE's ability to get it in on time** and what the grantee will do to avoiding this in the future. If a Tribe/TDHE already asked for a waiver in the past, and has not carried through with its plan to avoid missing the deadline in the future, risks the very real possibility of having the waiver denied. If denied, that would mean no grant for the coming year. Most Grantees facing the filing on July 18<sup>th</sup> should already be deep in the planning process and be accepting public input to the IHP, which is required. Grantees should also be seeking Tribal Council/Legislative approval, prior to submission of the plan.

Mark Butterfield, Administrator
