Appendix I. 2020-2025 Strategic Plan
APPENDIX II. RENT REFORM AND RESIDENT SERVICES RANDOM CONTROL STUDY DATA

Section I. Introduction

Although the pandemic's waning shadow still hung over us, 2022 was the first year since the pandemic began that we worried less about COVID-19's effect on our community and focused more on organizational improvement and expansion. This is not, however, to suggest that we were suddenly worry free, and back to our pre-pandemic work and organizational rhythms. The collective trauma from years spent responding to shifting COVID protocols, supply chain issues, labor disruptions, personal losses, and operational exhaustion lingered throughout the year, and will likely be with us for some time.

Just as was the case when we published our first MTW Report in 2001, in 2022 Moving to Work allowed us to pursue new policy ideas, and to address some of our community's most difficult issues ranging from substance use disorder and incarceration; to the lack of affordable housing for working families, elders, and people with disabilities; to our aging and inefficient housing stock. As was the case when we began our MTW journey twenty-three years ago, each time we leveraged one of the regulatory waivers provided to us in the Restated and Amended Moving to Work Agreement, we did so with the objectives Congress articulated when it first created MTW in mind.

Those objectives are:

- Reduce cost and achieve greater cost effectiveness in Federal expenditures;
- Give incentives to families with children where the head of household is working, is seeking work, or is preparing for work by participating in job training, educational programs, or programs that assist people to obtain employment and become economically self-sufficient; and
- Increase housing choices for low-income families.

KH's Short-term Goals

As described in the 2022 MTW Annual Plan, the Monadnock Region, like so much of New Hampshire and the nation, is experiencing a profound housing shortage. This is evidenced by the difficulty voucher holders have finding apartments to rent. In 2022 we offered owners "signing bonuses" when they rented to voucher holders to help them better compete for the few apartments available. We amplified the program through a radio ad campaign, a "pop-up" on our website, and regular reminders on social media (see 2022.02.HC on page 22 for first year outcomes).

While we have some confidence that these steps are helping voucher holders compete for available apartments, these steps do nothing to help the thousands of households languishing on our waiting lists. Our region simply does not have sufficient housing stock to meet the demand, particularly the demand for deeply assisted affordable housing for those most in need. We know that we cannot solve this market failure on our own, but we are committed to doing what we can to add to the region's stock. Heading into 2022 we were contemplating beginning a scattered site acquisition program. Our Board of Commissioners and senior staff met several times from mid 2021 through early 2022 to explore the costs, benefits, and feasibility of purchasing and renovating some of the City's less desirable two- to four-bedroom houses.

Just as we began searching for the first properties to acquire, we learned of a large site close to downtown Keene becoming available. A preliminary feasibility study confirmed that the site's size and location could accommodate a relatively large multi-family project, including an adaptive reuse of an existing historic building. There are very few properties of this size and proximity to downtown Keene available, so we set the scattered site acquisition work aside and began negotiations to enter into an Option Agreement with the site's seller. As of this writing the Option Agreement is in place, and we have applied for the variances and special exception necessary to take the project to the City's Planning Board for approval. If the variances and special exception we seek are granted, and we receive approval from the Planning Board, we will be applying for various public and private financing in late summer 2023, with construction beginning in the spring of 2024. If approved, this 60-unit project will be our first Faircloth to RAD conversion, and our first 9% Low Income Housing Tax Credit project in over a decade.

We fell short of meeting our energy efficiency retrofit goals in 2022 due to the state's Public Utilities Commission (PUC) gutting the state's energy efficiency rebate program. The rebate program, NHSaves, provided all the funding for the Forest View Apartment heat pump retro fit project, and we were relying on the same rebates to fund the heat pump conversion project at North and Gilsum apartments. Although the New Hampshire legislature largely reinstated the state's program mid-year, its structure and per unit spending caps remain unclear, leaving us no choice but to put the project on hold until the program's future becomes clearer. We were able, however, to make significant building envelope, lighting, and HVAC improvements at several scattered site properties. These improvements are another small step towards our long-term goal of reaching carbon neutrality by 2035.

KH's Long-term Goals

Keene Housing carefully plans out its future in 5-year increments through its Strategic Plan. Every five years we engage staff, residents, voucher holders and a range of local, state, and national stakeholders in a lengthy and deliberate planning process. One of the most important stakeholders we engage with during the planning process is the MTW office. Their feedback and perspective on our programs and impact are important to us and have meaningful impact on our planning.

The strategic plan describes our long-term operational, organizational and development goals for the coming five years as well as the short-term objectives we will pursue to meet those goals. The Board of Commissioners approved the current Strategic Plan at the close of 2019, setting our course for the coming five years (2020-2025). The strategic plan established goals in the following areas:

- Real estate preservation and expansion;
- Energy conservation and sustainability;
- Financial management and oversight;
- Property management;
- Care for our elderly and disabled residents and voucher holders;
- Working families' economic development;
- Supporting KH youth through the Keene Housing Kids Collaborative;
- Board and staff capacity and skills;
- Customer service and operational efficiency; and
- Affordable Housing Advocacy.

Creating and articulating our long-term goals in the 5 Year Strategic Plan is important for the organization, but the strategic planning does not end when the final draft of the plan is approved. Every December our Board of Commissioners and staff reviews the progress we've made towards accomplishing the goals and objectives laid out in the plan. This process allows everyone in the organization to reaffirm the goals and objectives or, when appropriate, amend, delete, or add objectives in response to emerging opportunities or threats. When that process is completed, the plan is revised to track our progress towards our goals and objectives, and call-out any amended, added or deleted goals. This process is repeated each year until the next five-year plan is developed and adopted by the Board. A copy of the 2020-2025 Strategic Plan is included in Appendix I of this report.

Section II. General Housing Authority Operating Information

Housing Stock Information

Keene Housing owns or manages approximately 600 units of commercial and affordable housing including 3 properties supported in part by a HUD Project Based Section 8 (PBRA) contract, 7 Low Income Housing Tax Credit (LIHTC) properties, 1 home for chronically mentally ill residents, 1 transitional housing property and 20 affordable developments and small scattered site properties across Marlborough, Keene and Swanzey.

MTW plays an integral part in the management of our entire portfolio. Both our former public housing portfolio and many of our LIHTC properties include MTW Project Based Voucher (PBV) subsidies and area homeless shelters utilize sponsor-based subsidies provided through our Transitional Housing Assistance Subsidy Program (THASP).

New Housing Choice Vouchers that were Project Based **During the Fiscal Year**

Table 1. Actual new PBVs issued in FY2022.

Property Name	Number of Project- Based Vouchers		Based Vouchers E	Status at End of Plan Year	RAD?	Description of Project
	Planned	Actual

Stone Arch Village Senior	33	33	Leased	No	33 senior/disabled one- and two-bedroom units in mid-rise building with a HAPC for 33 units
	392	385			

* Figures and text in the "Planned" column should match the corresponding Annual Plan. ** Select "Status and the End of Plan Year" from Committed, Leased/Issued

Differences between the Planned and Actual Number of Vouchers Newly Project-Based:

The differences in planned and actual number of units are attributed to units offline for rehab, over income households, and vacancies.

Other Changes to the Housing Stock That Occurred During the Fiscal Year

KH made no other changes to its housing stock in 2022.

General Description of All Planned Capital Fund Expenditures During the Plan Year

KH does not have any public housing units and is ineligible for Capital Funds at this time.

Leasing Information

The tables on the following pages provide details on the families served by KH. The first section is a snapshot and unit information on the number of households served through Public Housing and MTW Housing Choice Vouchers. The second section provides information about the families served through KH's Transitional Housing Assistance Subsidy Program (THASP), a local, non-traditional MTW funded program. The third section provides an overview of the mix of families served by KH through our traditional MTW Housing Choice Voucher (HCV) program. The final section reports on households participating that successfully transitioned out of housing assistance in FY2022.

Table 1. Actual Number Households Served

Number of Households Served	Number of Unit Months Occupied/Leased*		Number of Households Served**	
Through:	Planned^^	Actual	Planned	Actual
MTW Public Housing	0	0	0	0
MTW Housing Choice Vouchers (HCV) Utilized	7044	6057	592	504
Local, Non-Traditional: Tenant-Based	0	0	0	0
Local, Non-Traditional: Property-Based	1020	1361	88	113
Local, Non-Traditional: Homeownership	48	48	4	4
Planned/Actual Totals	8112	7466	684	621

* "Planned Number of Unit Months Occupied/Leased" is the total number of months the MTW PHA planned to have leased/occupied in each category throughout the full Plan Year (as shown in the Annual MTW Plan).

** "Planned Number of Households to be Served" is calculated by dividing the "Planned Number of Unit Months Occupied/Leased" by the number of months in the Plan Year (as shown in the Annual MTW Plan).

^^ Figures and text in the "Planned" column should match the corresponding Annual Plan.

Table 2. Actual Issues/Solutions Related to Leasing

Housing Program	Description of Actual Leasing Issues and Solutions
MTW Public Housing	N/A
MTW Housing Choice Voucher	Lack of housing stock and higher rents slowed the leasing process
Local, Non-Traditional	Cheshire County has .6% vacancy rate and the median cost of a two- bedroom apartment has gone up 16% in just a few years. The vacancy rate and rising costs is a perfect storm, especially when you add in the fact that 92% of our folks are at or below the federal poverty line. Homelessness is growing not only in cities, but smaller towns as well. Increase in number served is attributable to the vacancy rate, increased housing costs, and a more vulnerable population.

Table 3. Households Receiving Local Non-traditional Services

Households Receiving Local,	Average Number of	Total Number of Households
Non-Traditional Services Only	Households per Month	in the Plan Year
N/A	N/A	N/A

Wait List Information

Waiting List Name	Description	Number of Households on Waiting list	Waiting List Open, Partially Open or Closed	Was the Waiting List Opened During the Plan Year?
MTW Project Based Voucher	Site-based	720	Open	N/A
MTW Housing Choice Voucher	Community-wide	2223	Open	N/A
PBV Mobility	Site-based	155	Partially Open	N/A

11

Duplications of applicants across waiting lists.

If eligible, applicants may choose and be placed on both the site-based Project-Based waiting list/s and the Housing Choice Voucher waiting list.

Actual Changes to the Waiting List/s in the Plan Year

There were no changes to the waiting lists in FY2022.

Households Served through Local Non-Traditional MTW Funded Programs

Table 1. Number of Households Served at the End of the Fiscal Year (Number of Households Served)

		Number of Unit Months Occupied/Leased*		Number of Households Served**	
Local, Non-Traditional Category	MTW Activity Name/Number	Planned^^	Actual	Planned	Actual
Tenant-Based	N/A	0	0	0	0
Property-Based	Transitional Housing Assistance Shelter Program 1999.06.HC	1020	1361	88	113
Homeownership	MTW Homeownership Flat Subsidy 2008.03.HC	48	48	4	4
Planned/Actual Totals		1068	1409	92	117

* The sum of the figures provided should match the totals provided for each Local, Non-Traditional category in the previous table. Figures should be given by individual activity. Multiple entries may be made for each category if applicable.

^^ Figures and text in the "Planned" column should match the corresponding Annual MTW Plan.

Table 2. Actual Issues/Solutions Related to Leasing

Housing Program	Description of Actual Leasing Issues and Solutions			
MTW Public Housing	Issues related to leasing:Keene Housing does not have any public housing units			
MTW Housing Choice Voucher	Issues related to leasing:Increasing rents, low vacancy rates and housing stock shortage			
	Solutions related to leasing:Development of affordable housing (planned)Landlord incentives and marketing campaign			
Local, Non-Traditional	Issues related to leasing:No issues related to leasing			

Households Served Through Local Non-Traditional Services Only

Table 1. Average and Total Number of Households Served at the End of the Fiscal Year

	Average Number of Households Served Per Month		
Households Served through Local, Non-Traditional Services Only	0	0	

Reporting Compliance with Statutory MTW Requirements

HUD will verify compliance with the statutory objective of "assuring that at least 75 percent of the families assisted by the Agency are very low-income families" is being achieved by examining public housing and Housing Choice Voucher family characteristics as submitted into the PIC or its successor system utilizing current resident data at the end of the agency's fiscal year. The PHA will provide information on local, non-traditional families provided with housing assistance at the end of the PHA fiscal year, not reported in PIC or its successor system, in the following format:

Table 1. 75% of Families Assisted are Very Low-Income

Income Level	Number of Local, Non-Traditional Households Admitted in the Plan Year
80%-50% Area Median Income	0
49%-30% Area Median Income	0
Below 30% Area Median Income	377

* Includes "Local, Non-Traditional: Tenant-Based"; "Local, Non-Traditional: Property-Based"; and "Local, Non-Traditional: Homeownership".

Reporting Compliance with Statutory MTW Requirements: Maintain Comparable Mix

In order to demonstrate that the statutory objective of "maintaining a comparable mix of families (by family size) are served, as would have been provided had the amounts not been used under the demonstration" is being achieved, the PHA will provide information in the following formats:

Table 2. Baseline for the Mix of Family Sizes Served (FY 1999)

Family Size	Occupied Number of Public Housing units by Household Size when PHA Entered MTW	Utilized Number of Section 8 Vouchers by Household Size when PHA Entered MTW	Non-MTW Adjustments to the Distribution of Household Sizes	Baseline Number of Household Sizes to be Maintained	Baseline Percentages of Family Sizes to be Maintained
1 Person	0	316	0	316	54%
2 Person	0	118	0	118	20%
3 Person	0	80	0	80	14%
4 Person	0	44	0	44	8%
5 Person	0	17	0	17	3%
6+ Person	0	10	0	10	2%
Totals	0	585	0	585	100%

Explanation for Baseline Adjustments to the Distribution of Household Sizes Utilized N/A Table 3. Actual Mix of Family Sizes Served

	1 Person	2 Person	3 Person	4 Person	5 Person	6+ Person	Totals
Baseline Percentages of Household Sizes to be Maintained**	54%	20%	14%	8%	3%	2%	100%
Number of Households Served by Family Size this Fiscal Year***	300	87	65	28	18	11	509
Percentages of Households Served by Household Size this Fiscal Year****†	59%	17%	13%	6%	4%	2%	100%
Percentage Change	5%	-3%	-1%	-2%	1%	0%	0%

* "Non-MTW adjustments to the distribution of family sizes" are defined as factors that are outside the control of the PHA. Acceptable "non-MTW adjustments" include, but are not limited

to, demographic changes in the community's population. If the PHA includes non-MTW adjustments, HUD expects the explanations of the factors to be thorough and to include information substantiating the numbers used.

** The numbers in this row will be the same numbers in the chart above listed under the column "Baseline percentages of family sizes to be maintained."

*** The methodology used to obtain these figures will be the same methodology used to determine the "Occupied number of Public Housing units by family size when PHA entered MTW" and "Utilized number of Section 8 Vouchers by family size when PHA entered MTW" in the table immediately above.

**** The "Percentages of families served by family size this fiscal year" will reflect adjustments to the mix of families served that are directly due to decisions the PHA has made. HUD expects that in the course of the demonstration, PHAs will make decisions that may alter the number of families served.

†Does not include households served through KH's local non-traditional MTW programs, THASP and Project MARCH.

Description of any Issues Related to Leasing of Public Housing, Housing Choice Vouchers, or Local, Non-Traditional Units and Solutions at Fiscal Year End

Table 4. Leasing issues during fiscal year by program.

Housing Program

Description of Leasing Issues and Solutions

HCV Program

Increasing rents, low vacancy rates, and housing stock shortage. Development of more affordable housing.

Number of Households Transitioned to Self-Sufficiency in the Plan Year

KH uses two definitions for self-sufficiency. The first definition, "economic self-sufficiency", counts households that leave housing assistance through KH's \$0 HAP Threshold activity. Households who meet this criteria have increased their income enough that KH's Housing Assistance Payment (HAP) is reduced to \$0. After six months at \$0 HAP, KH determines that the household no longer requires housing assistance and the household's participation in the voucher program is ended.

KH's second definition, "personal self-sufficiency", counts households that voluntarily terminate participation. Generally, these households leave the program because they have found a way to afford housing without KH's assistance. In some cases, a household may have found housing that better suits their needs at a lower price or where housing costs are offset in some way, such as becoming a live-in aid. In other cases, a household may have reduced their debt to the point that they feel they can afford rent without assistance, purchased a home without KH assistance, or found a job outside of our jurisdiction and do not feel that porting out is worth the required time and paperwork. KH does not include households who choose to terminate their participation to avoid eviction or termination from the HCV program for non-compliance as having attained selfsufficiency.

Table 1. Number of Households Transitioned To Self-Sufficiency by Fiscal Year End

Activity Nam	ne/#	Number of Households Transitioned	Agency Definition of Self Sufficiency
\$0 HAP Rent Bu SS	rden Test/ 2013.01.	9	Economic self-sufficiency: Household HAP is reduced to \$0 due to an increase in gross income
Resident Self-Reliance/ 1999.05.SS 10			Personal self-sufficiency: Voluntary termination for reasons other than to avoid eviction or HCV program termination
Households Duplicated Across Activitie Definitions			os/ 0

KH Cheshire County Drug Court Pathway Home	FY2022	Use of Funds	Expanding Housing Choices	Ongoing

Implemented Activities

2022.01.SS BROADBAND UTILITY ALLOWANCE

The Broadband Utility Allowance intends to increase working households' economic independence providing an allowance to offset the cost of high-speed internet access. It is widely recognized that lack of access to high-speed internet prevents low-income households from employment and educational opportunities readily available to households that can afford high speed access. During the COVID-19 pandemic KH used CARES Act funds to subsidize internet access for families with children attending remote schooling and working households. This assistance was widely praised by participating households and proved a productive use of the funding. With CARES Act funding ending in 2021, KH began providing a \$40 per month utility allowance to all households participating in the Resident Self Reliance program (1999.05.SS) at the start of fiscal year 2022.

Benchmarks and Outcomes

SS #1: Increase in Household Income

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Average Amount of Income of Households Affected by this Policy in Dollars (Increase)	\$28,615	\$28,187	\$30,855	Yes

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Average Amount of Savings of				
Households affected by this Policy	\$880	\$900	\$273	No
in Dollars (Increase)				

SS #3: Increase in Positive Outcomes in Employment Status

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
1. Employment Full-Time	61	62	21	No
2. Employment Part-Time	20	21	4	No
3. Enrolled in an Educational Program	8	9	2	No
4. Enrolled in Job Training Program	0	1	1	Yes
5. Unemployment	21	22	4	Yes
6. Other	6	7	0	No

SS #4: Households Removed from Temporary Assistance of Needed Families (TANF)

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?	
Number of households receiving TANF assistance (decrease)	6	7	1	Yes	

Challenges to Achieving Benchmarks

The low outcomes are caused by fewer than expected households using the allowance. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2022.02.HC OWNER RECRUITMENT AND RETENTION PROGRAM

The proposed Owner Recruitment and Retention Program will increase voucher holders' housing choices by providing financial incentives for property owners to participate in KH's voucher programs. Owners agreeing to rent their units to a voucher holder after a voucher holder vacates the same unit will be eligible for a \$500 "Re-signing Bonus". Owners not currently renting to a voucher holder will receive a \$1000 "Signing Bonus" for joining or rejoining the voucher program. This program began in late 2021 with non-federal funds. MTW funds will be used for this activity at the start of Fiscal Year 2022.

Benchmarks and Outcomes

HC #1 Additional Units of Housing Made Available

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Number of Housing Units made				
Available as a Result of the Activity	0	25	35	Yes
(Increase)				

Challenges to Achieving Benchmarks

All benchmarks were achieved. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2022.03.SS KEENE HOUSING - CHESHIRE COUNTY DRUG COURT PATHWAY HOME

The program is a partnership between KH and the Cheshire County Drug Court (CCDC). The Drug Court is an alternative sentencing program for low level drug offenders. The CCDC program provides participants with a set of goals and supportive services that, in aggregate, significantly

23

reduces the likelihood of recidivism. By providing CCDC participants stable housing during their time in the program, and a clear path to a MTW Housing Choice Voucher upon program completion, this activity is intended to improve CCDC participants' success rates. Successful CCDC participants are those who move from substance abuse and potential incarceration to steady employment, stable housing and a trajectory towards relative economic self-sufficiency.

Benchmarks and Outcomes

SS #1: Increase in Household Income

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Average earned income of households affected by this policy in dollars (increase).	\$18,566	\$18,900	\$26,011	Yes

SS #2: Increase in Household Savings

Challenges to Achieving Benchmarks

The Cheshire County Drug Court Pathway Home program serves individuals working with the Drug Court system to achieve sobriety and avoid jail time. Stabilization support services are offered to all participants, but not all participants accept them and not all participants are successful.

1999.01.HC ELIGIBILITY ADMINISTRATION GUIDELINES

Plan Year Approved: 2000 Year Implemented: 2000

KH's MTW HCV program income eligibility threshold was increased to 80% of Area Median Income (AMI) as part of our original MTW agreement. This expanded the number of programs available to low-income households by targeting households up to 80% AMI.

In addition, Keene Housing added a \$100,000 asset threshold to our MTW program's eligibility guidelines in 2014. When determining eligibility, KH calculates anticipated income by applying all applicable income sources as described at 24 CFR 5.609. If the calculated income is 80% AMI or less, KH applies the asset threshold as a second layer for eligibility determination. Applicant households with assets of \$100,000 or more are not eligible for assistance even if the applicant's anticipated income falls at or below the 80% AMI threshold.

This threshold does not apply to inaccessible assets, such as irrevocable trusts. KH applies income from inaccessible assets to a household's income for determining income eligibility as if this threshold did not exist.

Benchmarks and Outcomes

HC #4: Displacement Prevention

Unit of Measurement	Baseline 2007	Benchmark	Outcome	Benchmark Achieved?
Number of households at or below 80% AMI that would lose assistance or need to move (decrease).	228	0	0	Yes

Challenges to Achieving Benchmarks

All benchmarks were achieved. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2008.03.HC MTW HOMEOWNERSHIP FLAT SUBSIDY

Plan Year Approved: 2009 Year Implemented: 2009

In 2005 Keene Housing created its MTW Homeownership program as part of its Public Housing Resident Opportunities for Self-Sufficiency (ROSS) grant under the Family Self-Sufficiency (FSS) program (now Resident Self-Reliance). Over the course of administering the program, KH found that some households who expressed interest in homeownership were near 80% AMI when they began the process of meeting the program's requirements - such as homeownership counseling. As this process may take up to a year, it was possible that a household may have had income in excess of 80% AMI by the

time a home was located and a lender secured. To avoid penalizing homeownership participants who increased their income above 80% AMI while in the process of finding a home, Keene Housing initiated, with HUD approval of our FY2008 Annual Plan, a flat subsidy for families in the Homeownership Program with incomes between 80% AMI and 140% AMI.

KH also applies the flat subsidy and 140% AMI ceiling to households after closing. Under the traditional HUD homeownership program, a nonelderly, non-disabled (work-able) household may receive assistance for up to 15 years on a 20 year or longer mortgage (10 years for a shorter mortgage). This assistance continues regardless of income after the initial income eligibility determination. By utilizing both an income guideline and HUD's standard term limits, KH promotes a participant's efforts to increase financial stability while holding the household to a higher standard than HUD's traditional homeownership program. With the 2008 economic and housing market instability, Keene Housing initiated a policy change that permitted homeownership families to request interim recertifications when their incomes changed. This policy change prevented at least two foreclosures and remains in place today.

Benchmarks and Outcomes

HC #5: Increase in Resident Mobility

Unit of Measurement	Baseline 2007	Benchmark	Outcome	Benchmark Achieved?
Number of households able to move to a better unit and/or neighborhood of opportunity as a result of this activity (increase).	0	0	0	Yes

HC #6: Increase in Homeownership Opportunities

Unit of Measurement	Baseline 2007	Benchmark	Outcome	Benchmark Achieved?
Number of households that purchased a home as a result of the	1	1	0	No
activity (increase).				

Challenges to Achieving Benchmarks

In 2022, 3 households became homeowners through programs other than KH's. There were no significant changes to this activity.

1999.03.CE RENT REASONABLENESS NEIGHBORHOOD ANALYSIS DISCONTINUANCE

Plan Year Approved: 2000 Year Implemented: 2000

Under the traditional HCV program, each Public Housing Authority (PHA) is required to develop and maintain a database of rental units in the PHA's jurisdiction. The development of this database often requires extensive administrative time and experience surveying existing rental units based on unit size, neighborhood, and amenities provided. In addition, the database must be updated annually in coordination with HUD's release of Fair Market Rents. KH found that the annual maintenance of this data tended to be administratively demanding with very little return, as the Monadnock region's rental market is incredibly tight with little variance from neighborhood to neighborhood or town to town. As it is KH's belief that the household, not KH, is the best judge of what an appropriate rent is, KH determined that the annual neighborhood analysis for rent reasonableness was unnecessary and discontinued the practice in 2000.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

Challenges to Achieving Benchmarks

All benchmarks were achieved. No changes were made to the metrics and data collection. There were no significant changes to this activity.

1999.07.HC REASONABLE RENT DETERMINATION DISCONTINUANCE

Plan Year Approved: 2000 Year Implemented: 2000

Based on the region's housing market, economic environment, and rural nature, KH believes that the determination of a rent's reasonableness should be the household's decision according to the household's priorities, income, and needs. For this reason, KH does not test any unit for rent reasonableness nor negotiate rents or hold contracts with private owners.

During the issuance briefing, KH staff educates applicants on how factors relating to rent reasonableness – such as location, unit size, unit type, accessibility, amenities, tenant paid utilities, and maintenance – contribute towards a reasonable rent. The education and support provided by KH continues throughout the applicant's housing search and during their rent negotiations with prospective owners.

Since KH first proposed this activity, we have seen a significant increase in the number of households we serve that are elderly or disabled. Due to their unique needs, many find it difficult to locate affordable housing with needed amenities in the area's tight housing market. In addition, many of our new Stepped Subsidy participants lack the needed skills to determine what is a reasonable rent. We have proposed to re-institute the rent reasonableness calculation for our participants who are elderly, disabled, or entering in Step 1 of the Stepped Subsidy program as part of our Amended FY2018 MTW Plan.

Pursuant to our Amended FY18 MTW Plan, Keene Housing amended this activity necessitating a revision to the metrics to better match the measured outcomes. HUD Metric CE#6: Reducing Per Unit Subsidy Costs for Participating Households replaces CE#1 Agency Cost Savings. The new baseline and benchmark are based on 2018 data.

Benchmarks and Outcomes

CE #6: Reducing Per Unit Subsidy Costs for Participating Households

Unit of Measurement	Baseline 2018	Benchmark	Outcome	Benchmark Achieved?
Average amount of Section 8 and/or 9 subsidy, (or local, non- traditional subsidy) per household affected by this policy in dollars (decreased).	\$638	\$630	\$677	No

Keene Housing Local Metric(s)

In addition to the required metric(s) developed by HUD, KH also utilizes the following local metric(s) to monitor program efficacy.

KH: Percentage of Rent Burdened Households (excluding Stepped Subsidy Households*)

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Percentage of households with				
a rent burden above 40% gross	0	5%	5%	Yes
monthly income.				

*Rent burden of households participating in the Stepped Subsidy program can be found under the Stepped Subsidy activity (page xx).

Challenges to Achieving Benchmarks

CE#6 affected by decrease in average income.

1999.08.HC 40% AFFORDABILITY DISCONTINUANCE

Plan Year Approved: 2000 Year Implemented: 2000

KH believes the best judge of what a household's priorities are in relation to housing is a well-informed household. In our first MTW Plan, KH eliminated the 40% affordability rule in its MTW programs. Instead, households are counseled during the issuance briefing on acceptable rent burdens relative to rent reasonableness and the consequences of choosing units that create high rent burdens. Once a unit is chosen, KH calculates the household's proposed rent burden and, if it exceeds 40%, KH allows the household the opportunity to demonstrate that they can manage the higher rent burden. Households who choose a high rent burden are not eligible for Safety Net unless a change in circumstances causes their rent burden to exceed their rent burden at lease-up.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

Unit of Measurement	Baseline 2010	Benchmark	Outcome	Benchmark Achieved?
Total cost of task in dollars (decrease).	\$470	\$0	\$O	Yes

CE #2: Staff Time Savings

Keene Housing Local Metric(s)

In addition to the required metric(s) developed by HUD, KH also utilizes the following local metric(s) to monitor program efficacy.

KH: Percentage of Rent Burdened Households (excluding Stepped Subsidy Households*)

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?	
Percentage of households with a rent burden above 40% gross	0%	5%	5%	Yes	
monthly income.	070	0,0	370	103	

*Rent burden of households participating in the Stepped Subsidy program can be found under the Stepped Subsidy activity.

Challenges to Achieving Benchmarks

No changes were made to the metrics and data collection. There were no significant changes to this activity.

1999.04.CE STEPPED SUBSIDY RENT REFORM

Plan Year Approved: 2000 Year Implemented: 2000

The Stepped Subsidy activity introduced a three (3) stepped subsidy structure for all work-able and interested elderly/disabled families. All households receiving assistance under Stepped Subsidy are required to participate in the Resident Self-Reliance (RSR) program (page 32). Rather than paying 30% of adjusted income for rent, residents pay only 20% of gross income towards rent in the first two years. After two years the subsidy is reduced at Year 3 to 65% of the Voucher Payment Standard (VPS) for which they are eligible, and again at Year 4 to 45% of VPS (see table below).

# BR	VPS	Step 1 HAP	Step 2 HAP (65% of VPS)	Step 3+ HAP (45% of VPS)
SRO	\$675	VPS-20% Gross Income = Subsidy	\$440	\$300
0	\$900	VPS-20% Gross Income = Subsidy	\$590	\$410
1	\$1000	VPS-20% Gross Income = Subsidy	\$650	\$450
2	\$1235	VPS-20% Gross Income = Subsidy	\$800	\$560
3	\$1750	VPS-20% Gross Income = Subsidy	\$1140	\$790
4	\$1985	VPS-20% Gross Income = Subsidy	\$1290	\$890

Table 4. 2022 Voucher Payment Standard by Bedroom Size and Step Subsidy Level

In 2022, 101 households participated in Stepped Subsidy with 19 (19%) moving out of housing assistance and into self-sufficiency.

Hardship Requests and Outcomes

KH administers a hardship program, Safety Net, for all MTW PBV and HCV households. The Safety Net program provides temporary relief to participating households experiencing significant, unexpected increases in rent burden. As Safety Net is not meant to take the place of employment for Stepped Subsidy households. As such applications for Safety Net must be submitted monthly except in limited situations, such as an extended medical leave.

The Safety Net Committee may require a Safety Net applicant to complete an action plan to remedy the hardship, such as applying for unemployment benefits, as one of the requirements for receiving additional housing assistance. Repeat Safety Net recipients, may also be required to revisit their Three Year Action Plan for RSR with their Resident Services Coordinator (RSC).

In 2022, KH received 10 Safety Net applications. Of those, 80% (8) were approved and 20% (2) were denied.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

Unit of Measurement	Baseline 1999	Benchmark	Outcome	Benchmark Achieved?
Total cost of task in dollars (decrease).	\$12,162	\$3,832	\$276	Yes

CE #2: Staff Time Savings

Unit of Measurement	Baseline 1999	Benchmark	Outcome	Benchmark Achieved?
Total time to complete the task in staff hours (decrease).	492	155	10	Yes

Keene Housing Local Metric(s)

In addition to the required metric(s) developed by HUD, KH also utilizes the following local metric(s) to monitor program efficacy.

KH: Percentage of Rent Burdened Households

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Percentage of households suffering				
a rent burden above 40% gross	0	5%	15%	No
monthly income.				

Challenges to Achieving Benchmarks

Childcare remains a significant barrier to full time employment. We have also seen a small increase in home schooling households. Total tenant payments increased significantly for households in large units.

2013.01.SS \$0 HAP RENT BURDEN TEST

Plan Year Approved: 2013 Year Implemented: 2013

KH uses a rent burden test to measure a household's progress towards economic independence. When a Stepped Subsidy household's gross rent burden is at or below 30% of their gross income, KH reduces HAP to \$0 for 6 months. If the household does not experience an unanticipated change in income within the \$0 HAP period, housing assistance is terminated. This change helped better align the metrics for measuring self-sufficiency with those used for hardship in the Safety Net program.

Benchmarks and Outcomes

SS #8: Households Transitioned to Self-Sufficiency

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Number of Households transitioned into self sufficiency (increase).	1	2	9	Yes

Challenges to Achieving Benchmarks

All benchmarks were achieved. No changes were made to the metrics and data collection. There were no significant changes to this activity.

1999.05.SS RESIDENT SELF-RELIANCE (RSR) PROGRAM

Plan Year Approved: 2000 Year Implemented: 2000

The RSR program provides service coordination and case management to help families become financially stable. The program is required for all non-elderly, non-disabled households enrolled in the Stepped Subsidy program. Elderly and Disabled households that elect to enroll in the Stepped Subsidy program are also required to participate in the program. Upon issuance, RSR participants complete an assessment to determine potential barriers to self-sufficiency and financial stability based upon the following five (5) Foundational Proficiencies:

- Household Stability
- Wellness and Healthy Relationships
- Education and Training
- Financial Management
- Employment and Household Management
- Individualized Goal Setting Plans

Within ninty (90) days of lease-up, new participants meet with a Resident Service Coordinator (RSC) for an assessment session. The assessment session helps identify the Foundational Proficiencies in which the household needs the most support. The assessment session is followed by a goal-

setting session where participants develop an individualized 3-year Career Plan to attain competencies in the Foundational Proficiencies where the household needs support. The plan includes specific goals and milestones with dates for completion. Participants are encouraged to consider, and set goals to mitigate, the stepped rent increases that come with participation in the Stepped Subsidy activity.

All households are required to have an active 3-year Career Plan as long as they are receiving housing assistance through the Stepped Subsidy program. Upon completion of a 3-year Career Plan, each participant establishes a new 3-year Career Plan with their RSC.

Development Grants and Rent Credits

Keene Housing understands that cost is often a major barrier to low-income households' educational and professional success. In an effort to provide the best chance for our participants to reach their goals, Keene Housing offers Development Grants to help offset costs associated with attaining goals within a household's 3-year Career Plan. The grant fund is renewed annually with the amount of the grant determined by funding availability. Examples of Development Grant approved uses include help with tuition, textbooks, exams, childcare and transportation.

In addition, participants can choose to use their Development Grant funds for Rent Credits when they meet established milestones or goals. The amount of the Rent Credit varies with the significance of a participant's achievement and the amount of funds left in the household's annual Development Grant fund. Both Development Grants and Rent Credits are available to all RSR participants and are contingent upon funding availability.

Participant Compliance

KH requires RSR participants to attend quarterly one-on-one RSC progress meetings. Participants who miss three (3) progress meetings with their RSC are terminated from the RSR and Stepped Subsidy programs. In addition to the quarterly meetings, participants are encouraged to pursue round table sessions and other seminars relevant to their future plans even if not directly tied to a current goal.

Benchmarks and Outcomes

SS #1: Increase in Household Income

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
Average earned income of households affected by this policy in dollars (increase).	\$23,597	\$24,500	\$37,441	Yes

SS #3: Increase in Positive Outcomes in Employment Status

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
The number of head of household	ls:			
(1) Employed Full-Time	26	34	55	Yes
(2) Employed Part-Time	83	83	17	No
(3) Enrolled in an Educational Program	6	6	5	No
(4) Enrolled in Job Training Program	4	4	0	No
(5) Unemployed	18	10	13	No
(6) Other	0	0	0	Yes
The percentage of work-able households:*				
(1) Employed Full-Time	23%	27%	54%	Yes
(2) Employed Part-Time	65%	65%	17%	No
(3) Enrolled in an Educational Program	5%	5%	5%	Yes
(4) Enrolled in Job Training Program	3%	3%	0%	No
(5) Unemployed	14%	8%	13%	No
(6) Other	0%	0%	0%	Yes

* May not equal 100% as some individuals may be working and attending an educational or job training program.

SS #4: Households Removed from Temporary Assistance for Needy Families (TANF)

Unit of Measurement	Baseline 2013	Benchmark	Outcome	Benchmark Achieved?
Number of households receiving TANF assistance (decrease).	5	6	4	Yes

SS #5: Households Assisted by Services that Increase Self-Sufficiency

Unit of Measurement	Baseline 2013	Benchmark	Outcome	Benchmark Achieved?
Number of households receiving services aimed to increase self- sufficiency (increase).	110	110	101	No

SS #8: Households Transitioned into Self-Sufficiency

Unit of Measurement	Baseline 2013	Benchmark	Outcome	Benchmark Achieved?
Number of households transitioned to self-sufficiency (increase).	14	10	19	Yes

Keene Housing Local Metric(s)

In addition to the required metric(s) developed by HUD, KH also utilizes the following local metric(s) to monitor program efficacy.

KH: Households with earned income

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
Percentage of households reporting earned income (increase).	86%	90%	79%	No

KH: Households making progress on Three-Year Career Plan

Unit of Measurement	Baseline 2013	Benchmark	Outcome	Benchmark Achieved?
Number of households receiving rent credits for meeting Action Plan goals (increase).	0	25	29	Yes

KH: Households terminated for non-compliance

	Unit of Measurement	Baseline 2013	Benchmark	Outcome	Benchmark Achieved?
	Number of households terminated for failure to attend quarterly meetings (decrease).	0	2	7	No
KH: Household	s awarded a Development Grant or Ren	t Credit			

	Unit of Measurement	Baseline 2013	Benchmark	Outcome	Benchmark Achieved?
	Number of households that received Development Grant and Rent Credit funds (increase).	0	25	51	Yes
KH: Total D	OGRC Funds Distributed				
	Unit of Measurement	Baseline 2013	Benchmark	Outcome	Benchmark Achieved?
	Total amount of Development Grant and Rent Credit funds awarded to eligible households (increase).	0	\$16,000	\$14,490	No

Challenges to Achieving Benchmarks

Average household income increased mostly due to participants receiving increases in pay so employers could retain their work force. Number of households with full-time employment increased. Households receiving rent credits and development grants increased. The number of participating households decreased due to the selection process for the Random Control Trial (report in Appendix II).

1999.06.HC TRANSITIONAL HOUSING ASSISTANCE SHELTER PROGRAM (THASP)

Plan Year Approved: 2000 Year Implemented: 2000

Keene Housing began providing sponsor-based subsidies to local service provider partners for shelter and transitional housing during its first year in MTW. THASP focuses on helping households most PHAs find hard to assist: those facing immediate and/or long term homelessness, individuals returning to the community from incarceration, and victims of domestic violence fleeing their abusers.

In FY2022, KH provided sponsor-based subsidies for 6 transitional housing programs:

Property Name	Service Provider	Program Description
Water Street Family Shelter	Southwestern Community Services	Year-round homeless shelter for families with children
Roxbury Street Men's Shelter	Southwestern Community Services	Year-round homeless shelter for men
Monadnock Center for Violence Prevention	Monadnock Center for Violence Prevention	Shelter for victims of domestic violence
Claremont Men's Shelter	Southwestern Community Services	Year-round shelter for men
Monadnock Street Men's Shelter	Southwestern Community Services	Year-round shelter for men
Washington Wellness	Monadnock Family Services	Traditional Housing

Benchmarks and Outcomes

SS #5: Households Assisted by Services that Increase Self-Sufficiency

Unit of Measurement	Baseline 1999	Benchmark	Outcome	Benchmark Achieved?

HC #7: Households Assisted by Services that Increase Housing Choice

Unit of Measurement	Baseline 1999	Benchmark	Outcome	Benchmark Achieved?
Number of households receiving services aimed to increase housing choice (increase).	0	425	0	No

Challenges to Achieving Benchmarks

Southwestern Community Services receives funding through the New Hampshire Bureau of Housing Supports. The funds previously had a match requirement, however in April of 2020, the state implemented a new process for reimbursing emergency shelter programs based on a fee for service model. Programs went from a set budget to a budget that fluctuated based on the daily beds occupied by clients. With the new funding model, New Hampshire emergency shelters are no longer required to match 25% of funding from other sources.

SCS reports that THASP income is instrumental in covering the funding voids created by this model. There were no significant changes to this activity. No changes made to data collection.

2005.01.CE ELDERLY AND DISABLED HOUSEHOLD ALTERNATIVE RECERTIFICATION SCHEDULE

Plan Year Approved: 2005 Year Implemented: 2005

Keene Housing does not require elderly and disabled households to participate in the annual recertification process if they do not have net assets exceeding \$50,000 and receive 100% of their income from any fixed income source including, but not limited to:

• Disability Compensation and/or Dependency and Indemnity Compensation (DIC) payments, received from the Veteran's Administration (VA);

- Federal, State, local, and private pension plans that provide substantially the same amount year to year; and
- Other regular payments received from annuities, disability or death benefits, insurance policies, retirement funds, and other similar types of income that provide substantially the same amount year to year.

Instead, KH relies on the published Cost of Living Adjustment (COLA) and the Enterprise Income Verification (EIV) system to calculate each household's income. KH notifies households via mail of their new tenant share and subsidy amount. Included with this notice is the standard Authorization for Release of Information/Privacy Act Notice (HUD form 9886). Households with pension and assets above \$50,000 continue to participate in the regular full annual recertification process.

Keene Housing understands the value of regular contact with HCV participants, particularly elderly and disabled participants, yet the recertification process for many elderly and disabled households can be quite confusing and stressful. To maintain contact with participants in a more productive manner, we hired an Elderly/Disabled Resident Service Coordinator in 2017 to develop the Community Connections program. Community Connections focuses on helping our elderly and disabled residents maintain an active and healthy lifestyle. Our hope is that using proven strategies to facilitate aging in community and aging in place allows our residents to remain independent well into their senior years.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

Unit of Measurement	Baseline 2015 Benchmark Outcome			Benchmark Achieved?	
Total cost of task in dollars (decrease).	\$10,968	\$11,448	\$1,738	Yes	

CE #2: Staff Time Savings

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
Total time to complete the task in staff hours (decrease).	457	477	62	Yes

CE #5: Increase in Agency Rental Revenue

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
Rental revenue in dollars (increase).	\$129,716	\$129,716	\$158,760	Yes

Challenges to Achieving Benchmarks

All benchmarks were achieved. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2005.02.CE STEPPED SUBSIDY ALTERNATIVE RECERTIFICATION SCHEDULE

Plan Year Approved: 2005 Year Implemented: 2005

Households participating in the Stepped Subsidy program currently participate in a recertification at each step change. Upon reaching Step 3, Stepped Subsidy households do not participate in full recertifications.

During years when a household does not have a recertification, KH conducts an Enterprise Income Verification (EIV) system check to test whether or not the household meets the \$0 HAP threshold and is still income eligible. In addition, as all Stepped Subsidy households also participate in RSR and are required to attend quarterly meetings with their RSC; third party verified income and employment data are collected at these meetings. The information collected is used to measure each household's progress towards their 3-Year Career Action Plan and for evaluating program efficacy. In addition, RSCs collect a new Authorization for Release of Information/Privacy Act Notice (HUD form 9886) when existing 9886s have expired.

Keene Housing made no significant changes to this activity and no changes were made to the metrics and data collection.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
Total cost of task in dollars (decrease).	\$3,384	\$4,680	\$1,320	Yes

CE #2: Staff Time Savings

	Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
	Total time to complete the task in staff hours (decrease).	141	195	60	Yes
CE #5: Increase in	Agency Rental Revenue				
	Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
	Rental revenue in dollars (increase).	\$60,262	\$60,262	\$21,419	No

Challenges to Achieving Benchmarks

Fewer families participated in the Stepped Subsidy Program in 2022 than in 2021 resulting in a decrease in agency rental revenue. There were no significant changes to this activity.

2008.01.HC PROJECT BASED VOUCHER PROGRAM

Plan Year Approved: 2008 Year Implemented: 2008

KH continues operating its local Project Based Voucher (PBV) program, initially approved in 2008. This activity permits Keene Housing to waive regulatory caps on the total HCV inventory KH may project base. KH project bases at least 75% of its available voucher funding plus any funding received for units project based through the AHPP activity. In addition, this activity allows KH to waive the required public process for project basing units within KH owned and managed properties and eliminate the limitations on the percentage of units within a single property or development that may be project based.

Benchmarks and Outcomes

HC #4: Displacement Prevention

Unit of Measurement	Baseline 2007	Benchmark	Outcome	Benchmark Achieved?
Number of households at or below 80% AMI that would lose assistance or need to move (decrease).	212	0	0	Yes

Challenges to Achieving Benchmarks

There were no significant changes to this activity. No changes to metrics or data collection.

2008.02.CE RESTRICTIONS ON SECTION 8 PORTABILITY

Plan Year Approved: 2008 Year Implemented: 2008

KH restricts non-elderly, non-disabled households from porting out of our jurisdiction to those households who require a reasonable accommodation unavailable in KH's jurisdiction, are the victims of domestic violence, or can show the move would demonstrably increase their financial stability, such as a new employment or educational opportunity.

Bonchmark

Challenges to Achieving Benchmarks

All benchmarks were achieved. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2014.01.HC AFFORDABLE HOUSING PRESERVATION PROGRAM (AHPP)

Plan Year Approved: 2014

Year Implemented: 2015

KH proposed and received approval for our Affordable Housing Preservation Program (AHPP) in 2014. Building on the successes of similar initiatives at other MTW Agencies, the program leverages the subsidy provided by the Enhanced Voucher program (Section 8(t) of the U.S. Housing Act) to preserve properties that would otherwise be removed from HUD's multifamily portfolio.

AHPP accomplishes this by providing property owners the option to opt-out of an expiring Project Based Section 8 contract and convert their properties to PBVs with KH. As vouchers can sometimes provide higher payments than Multifamily contracts, entering into a PBV HAP contract can provide owners access to additional rental revenue and private equity for capital improvements. Additionally, moving from Project Based Section 8 to PBV frees owners from HUD Management Reviews (MOR) as well as restrictions on reserve capitalization and use. KH provides residents the option of remaining in place and converting their Enhanced Voucher to a PBV or taking their Enhanced Voucher to the private market at which time KH will, in most cases, provide a PBV for the vacant unit.

Dan alamand

In 2015, KH chose Meadow Road, a KH owned Multifamily Section 8 property, as the first property to convert under this new initiative.

Benchmarks and Outcomes

HC #2: Units of Housing Preserved

Challenges to Achieving Benchmarks

Keene Housing did not add any new properties to its AHPP program in 2022. There were no significant changes to this activity. No changes to metrics or data collection.

2014.02.CE MEDICAL DEDUCTION THRESHOLD

Plan Year Approved: 2014

Year Implemented: 2014

Under the traditional medical deduction calculation, households may claim unreimbursed medical expenses up to 3% of their annual income as a deduction towards their adjusted annual income calculation. Keene Housing found that most households either did not need the exclusion or were using the exclusion to pay for additional, private insurance which would no longer be necessary with the implementation of the Affordable Care Act (ACA). To streamline the recertification process and reduce the amount of federal housing subsidy going to personal insurance, KH increased the threshold for medical deductions to 7.5% for elderly and disabled households' unreimbursed medical expenses.

Hardship Requests and Outcomes

KH received no Safety Net applications in 2022 related to this activity.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

	Unit of Measure	Baseline	Benchmark	Outcome	Benchmark Achieved?
	Total cost of task in dollars (decrease).	\$1320	\$990	\$1606	No
С	E #2: Staff Time Savings

	Total time to complete the task in staff hours (decrease).	110	96	73	Yes
С	E #5: Increase in Agency Rental Revenue				
	Unit of Measure	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
	Rental revenue in dollars (increase).	\$129,716	\$129,716	\$44,957	No

Challenges to Achieving Benchmarks

CE #1 Impacted by adding additional staff. CE #5 Impacted by a decrease in households affected by the activity. There were no significant changes to this activity. No changes to metrics or data collection.

2014.02.SS Asset Exclusion Threshold

Plan Year Approved: 2014 Year Implemented: 2014

In 2014, KH adopted a policy to disregard net assets totaling \$50,000 or less from the income calculation when determining a participant's tenant rent. This policy allowed residents the opportunity to establish and increase assets without being discouraged by a corresponding increase in rent. KH continues calculating imputed value for all assets in the income calculation when a household's total net assets exceed \$50,000.

Hardship Requests and Outcomes

KH received no Safety Net applications in 2022 related to this activity.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

Unit of Measure	Baseline 2014	Benchmark	Outcome	Benchmark Achieved?
Total cost of task in dollars (decrease).	\$7440	\$5568	\$O	Yes

CE #2: Staff Time Savings

Unit of Measure	Baseline 2014	Benchmark	Outcome	Benchmark Achieved?
Total time to complete the task in staff hours (decrease).	310	232	0	Yes

CE #3: Decrease in Error Rate of Task Execution

Unit of Measure	Baseline 2014	Benchmark	Outcome	Benchmark Achieved?
Average error rate in completing a task as a percentage (decrease).	0%	<1%	0%	Yes
CE #5: Increase in Agency Rental Revenue				
Unit of Measure	Baseline	Benchmark	Outcome	Benchmark Achieved?
Rental revenue in dollars (increase).	\$189.978	\$189.978	\$216.372	Yes

Challenges to Achieving Benchmarks

Keene Housing does not collect asset information unless the assets are over the threshold. In 2022, 6 households had assets above the \$50,000 threshold. There were no significant changes to this activity. No changes to metrics or data collection.

2014.04.SS KEENE HOUSING KIDS COLLABORATIVE (KHKC)

Plan Year Approved: 2014 Year Implemented: 2014

For many years Keene Housing operated a relatively small after school and summer program for children living in KH's Forest View and North and Gilsum properties, Building Bridges. Even with a small budget, relatively simple curriculum, and small staff the kids who participate in Building Bridges flourished. Through the Use of Funds authority provided through MTW, Keene Housing created a 501(c) (3) non-profit organization in 2014 that offers wrap-around services to all children living in KH- and KH- affiliate owned and managed properties (all of whom are below 80% AMI), not just those living in units supported through KH's MTW PBV and HCV programs. KH's financial support of KHKC funds declines each year as KHKC increases its fund development activities.

Benchmarks and Outcomes

Note: While KH provides these metrics as a measure of program efficacy due to HUD requirements, it is important to note that as the activity specifically targets youth, not adults, it is not possible to correlate the program's effectiveness to households that transition to self-sufficiency. KHKC's intent is to help ensure that children growing-up in our properties will be self-sufficient adults, never needing our assistance. As such, the baseline and benchmark for HUD metric

SS #8: Households Transitioned to Self-Sufficiency are set to 0. KH respectfully calls attention to this as one of many examples where the 50900 obfuscates, rather than illuminates, an MTW activity's effectiveness or outcomes.

SS #5: Households Assisted by Services that Increase Self Sufficiency

	Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
	Number of households receiving services aimed to increase self-sufficiency (increase).	10	15	263	Yes
SS #8: Househc	lds Transitioned to Self Sufficiency				
	Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
	Number of households transitioned to self-sufficiency (increase).	0	0	0	Yes

Challenges to Achieving Benchmarks

All benchmarks were achieved. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2014.03.HC AFFORDABLE HOUSING PRESERVATION & MODERNIZATION PROGRAM

Plan Year Approved: 2014 Year Implemented: 2014

In the amended FY2014 Plan, KH created the Affordable Housing Preservation and Modernization Program to address these capital needs. The activity allows KH to address the KH- and KH-affiliate owned portfolio's growing capital needs in a rational way, with a predictable schedule, based on greatest need and economies of scale, rather than in reaction to unpredictable and uncertain grant opportunities. In 2022, KH invested \$1,677,981 in capital renovations.

Benchmarks and Outcomes

HC #2: Units of Housing Preserved

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Number of housing units preserved for households at or below 80% AMI that would otherwise not be available (increase).	0	0	0	Yes

Challenges to Achieving Benchmarks

All benchmarks were achieved. No changes were made to the data collection. There were no significant changes to this activity.

2015.01.CE AFFORDABLE HOUSING PRESERVATION PROGRAM - RENT REFORM

Plan Year Approved: 2015 Year Implemented: 2015

The AHPP Rent Reform initiative provides a streamlined methodology for calculating rent while providing households in AHPP properties an opportunity to increase income and assets without experiencing immediate rent increases. As in the traditional PBV program, household subsidy is calculated based on 30% of adjusted annual income. However, the activity alters the current methodology for calculating rent and the recertification schedule with the following streamlining strategies:

- Triennial recertifications for all households.
- Interim recertifications limited to household composition changes and cases where the total household income permanently drops by \$50 per month or more, with access to Safety Net for short term financial hardship.
- The Utility Allowance in effect at the effective date of the last regular recertification used to calculate rents at interim recertifications.
- Household assets with a total net value of \$50,000 or less are disregarded.
- Earned Income Disregard (EID) is eliminated.
- Applies the Elderly and Disabled Household Alternative Recertification Schedule activity to all eligible households.

By simplifying the recertification and rent calculation process, the activity reduces KH's administrative burden by lowering administrative costs and staff time. In addition, this policy allows participant households the opportunity to increase earnings and assets without being discouraged from doing so by corresponding increases in rent as is the case in the traditional HCV and public housing programs.

Hardship Requests and Outcomes

KH received no Safety Net applications in 2022 related to this activity.

Benchmark and Outcomes

CE #1: Agency Cost Savings

Unit of Measurement	Baseline* 2015	Benchmark	Outcome	Benchmark Achieved?

Number of households transitioned to self-sufficiency (increase).	0	2	0	No

*Baselines calculated using actual number of recertifications/interims done at Meadow Road FY2014.

Challenges to Achieving Benchmarks

Keene Housing does not collect asset information from households with assets less than \$50,000.

No triennial recertifications were completed in 2022 therefore there are no data available for any metrics. There were no significant changes to this activity.

2015.02.CE AFFORDABLE HOUSING PRESERVATION PROGRAM - ALTERNATIVE INSPECTION SCHEDULE

Plan Year Approved: 2015 Year Implemented: 2015

Properties participating in AHPP use the following alternative schedule for Housing Quality Standards (HQS) inspections:

- All units converting to AHPP are inspected by the administering agency for HQS compliance no more than 90 days before initial conversion.
- If all units pass initial inspection, the property is subject to biennial HQS inspections of 20% of total units.
- Should any unit fail initial or any other inspection, the property is subject to an annual inspection of 100% of units until all pass HQS inspection, at which time the property returns to a 20% biennial inspection schedule.
- Properties subject to a higher inspection protocol than HQS may use that protocol in lieu of a biennial (not initial) HQS inspection.
- Properties that fail an inspection based upon a higher standard protocol are subject to an annual HQS inspection of all (100%) units until all units pass HQS or a higher inspection protocol.
- A household may, at any time, request a HQS inspection from the administering agency should the tenant believe that their unit does not meet HQS.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

	Unit of Measurement	Baseline *	Benchmark	Outcome	Benchmark Achieved?
	Total cost of task in dollars (decrease).	\$374	\$83	\$86	Yes
#2: Staff Ti	me Savings

CE

CE #3: Decrease in Error Rate of Task Execution

Unit of Measurement	Baseline *	Benchmark	Outcome	Benchmark Achieved?
Average error rate in completing a task as a percentage (decrease).	0%	0%	0%	Yes

Challenges to Achieving Benchmarks

CE#1 Affected by increase in staff compensation. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2015.03.CE EARNED INCOME DISREGARD (EID) ELIMINATION

Plan Year Approved:2015 Year Implemented: 2015

KH discontinued allowing new households to claim the Earned Income Disregard (EID) from the calculation of tenant rent. All households claiming EID as of January 1, 2015 were permitted to do so until the natural end of their EID allowance, as required by regulation. No participants received an EID allowance after December 31, 2016.

Hardship Requests and Outcomes

KH received no Safety Net applications in 2022 related to this activity.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Total cost of task in dollars (decrease).	\$576	\$O	\$O	Yes

CE #2: Staff Time Savings

Unit of Measure	Baseline	Benchmark	Outcome	Achieved?
Rental revenue in dollars (increase).	\$225,078	\$239,310	\$237,804	No

Challenges to Achieving Benchmarks

Fewer households would have qualified for the EID elimination, resulting in a decrease in rental revenue. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2016.01.CE PROJECT-BASED UNIT AGENCY CONDUCTED INSPECTIONS

Plan Year Approved: 2016 Year Implemented: 2016

Section 8(o)(11) of the 1937 Housing Act and 24 CFR 983.103(f)(1) requires PHAs to contract with a third party inspector for PHA owned PBV units. However, repeated attempts to locate a third party inspector for our owned and managed PBV units have been unsuccessful. The Project-Based Unit Agency Conducted Inspections activity permits KH to waive the third party inspection requirement until such time that an independent inspector can be found.

In lieu of a third party inspector, KH's Director of Facilities and Assets certifies all KH owned and managed PBV units to Uniform Physical Condition (UPC) Standards at turnover. In addition, a KH inspector certifies that these units meet Housing Quality Standards (HQS) as specified in KH's

MTW HQS activities: 2011.01.CE Housing Quality Standards (HQS) Biennial Inspection Schedule and 2013.01.CE Housing Quality Standards (HQS) Alternative Inspection Protocol. In addition, supervisory personnel who have not been involved in routine inspections monitor the quality of KH's inspections, by re-inspecting five (5%) percent of all initial and annual inspections performed each quarter as a Quality Control (QC) mechanism.

The activity only affects KH's former public housing portfolio as all other KH owned PBV units are inspected at a higher standard by an outside regulatory agency. There is no anticipated impact on KH or residents due to this activity as it makes no change to current practice.

With HUDs approval of KHs FY2019 MTW Plan, HUD acknowledged that Keene Housing's Moving to Work Agreement C D. 1.f. and D.7.A, gives KH the authority to inspect all KH and KH affiliate owned PBV units. Keene Housing will propose to close-out this activity in its FY2024 MTW Plan. All benchmarks were achieved. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2017.01.HC PBV MOBILITY WAIT LIST

Plan Year Approved: 2017 Year Implemented: 2014

Under HUD regulation 24 CFR 983.260 – Family Right to Move, when issuing tenant-based vouchers PHAs are required to provide them first to project-based voucher (PBV) households who requests one and has fulfilled at least one year of tenancy. However low turnover rates in our tenant based voucher program means that PBV residents are generally eligible for a tenant-based voucher as soon as one becomes available. Under the current regulation each voucher we issued would then go to a household already receiving housing assistance rather than one from our wait list, essentially making residency in a PBV a "requirement" to access a tenant-based voucher.

Keene Housing values housing choice, however we also recognize the need to assist otherwise eligible, unassisted households, who have often waited years for assistance. To balance these two priorities, Keene Housing increased the tenancy requirement for PBV households from one to two years. In addition, we established a ratio whereby every sixth tenant-based voucher issued goes to an eligible PBV household that requests a tenant-based voucher by opting in to our Mobility wait list.

The policies ensure equitable access to housing by households waiting for assistance as well as by assisted households looking to move to the private market. This activity meets the Housing Choice statutory objective and increases the number of units available to all low-income households by ensuring that availability of PBV units are not a barrier to those needing assistance. The activity also reduces wait times by ensuring that those on the wait list are assisted before those already being assisted.

For administrative purposes, all PBV households who applied for our tenant-based wait list prior to the implementation of this policy were automatically moved to the Mobility Wait List in the order of their original application. At lease-up, all PBV households are informed of their right to a tenant-based voucher after two-years of tenancy and given the choice to opt-in to our Mobility Wait List. PBV households may request to be placed on the Mobility wait list at any time.

PBV households are still eligible for transfers within the KH PBV portfolio during the PBV Mobility Wait List tenancy requirements if such a transfer is approved by the PBV owner. In addition, KH waives the PBV Mobility Wait List requirements for PBV households that meet the eligibility criteria for a tenant-based voucher under KH's Violence Against Women Act (VAWA), Reasonable Accommodation, or Government Displacement/ Natural Disaster Preference policies.

Benchmarks and Outcomes

The following is a list of the metrics KH tracks using HUD's established criteria. As is too often the case, many of the metrics that HUD required us to track are irrelevant to the activity's design or intended outcomes.

58

The metrics marked with a (*) are those that HUD requires us to measure, despite the metrics' inappropriateness or irrelevance. Baselines and

benchmarks for most of these metrics are set to zero because they cannot be measured. KH, like HUD, is committed to measuring MTW activities' efficacy, and we look forward to working with the MTW Collaborative and the Department to improve the 50900 so that it becomes a more useful tool for tracking and evaluating MTW activities.

CE #1: Agency Cost Savings ⁺

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Total Cost in task dollars (decrease).	0	0	0	Yes

CE #2: Staff Time Savings *

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Total Time to complete task in staff hours (decrease).	0	0	0	Yes

HC #3: Decrease in Wait List Time

Unit of Measurement	Baseline	Benchmark	Outcome	Benchmark Achieved?
Average applicant time on wait list in months (decrease).	84	36	78	No

Challenges to Achieving Benchmarks

With the award of additional 2017 Mainstream Vouchers in 2020 came a requirement by HUD that PHAs merge their Mainstream and Housing Choice Voucher (HCV) (982.204(f)) waiting lists and that Mainstream applicants receive a waiting list preference over HCV applicants. While this requirement may have seemed innocuous enough when it was drafted, consolidating the the Mainstream waitlist with the Housing Choice Voucher waitlist and providing a preference to Mainstream applicants had the unintended consequence of grinding our HCV issuances to a hault. Generally, Mainstream vouchers are more difficult and resource intensive to issue and successefully lease. Additionally, we find that the attrition rate in the Mainstream program is much higher than the HCV - or Non-Elderly Disabled - program. Taken together, the consequence of the HUD required waiting list consolidation is that we are unable to get beyond Mainstream applicants on our waitlist, leaving non-Mainstream eligible households sitting on the voucher waitlist with no real prospect of being offered a voucher in the forseeable future. While we are thrilled to be able to offer housing

assistance to the extrememly vulnerable households the Mainstream program is designed to serve, we are troubled that the waitimes for households waiting for a Non-Elderly Disabled voucher or an HCV – including those on the PBV Mobility Waitlist – are growing at alarming rates. We plan to explore an MTW remedy to this ongoing, and disconcerting, problem. There were no significant changes to this activity. No changes to metrics or data collection.

2020.02.SS Foster Youth to Independence Tenant Protection Vouchers Rent Reform

Plan Year Approved: 2020

The proposed Foster Youth to Independence Tenant Protection Voucher (FYI-TPV) rent reform activity provides a streamlined methodology for calculating rent while providing households an opportunity to increase earnings and assets without being discouraged by corresponding increases in rent.

By simplifying the rent calculation process, the activity reduces KH's administrative burden by lowering administrative costs and staff time. The activity alters the current methodology for calculating rent with the following streamlined strategies:

- Participants pay 20% of gross income towards rent for the duration of participation in the FYI-TPV program.
- Interim recertifications are limited to household composition changes and cases where the total household income permanently drops by \$50 per month or more, with access to Safety Net for short term financial hardship.
- Households total net value of \$50,000 or less are disregarded.
- Earned Income Disregard (EID) is eliminated (see activity 2015.03.CE Earned Income Disregard Discontinuance).
- Utilization of the Enterprise Income Verification system annually to determine continued eligibility of FYI-TPV participants.

Pursuant to Notice PIH 2019-20 (HA), issued July 26, 2019, and authorization from the Department of Housing and Urban Development's Foster Youth to Independence Team, MTW agencies may administer the FYI-TPV Program per their MTW Agreement as long as it is not inconsistent with Appropriations Act requirements (including the Authorizing Statute (section 8(x) of the United States Housing Act of 1937)), or the requirements of the Notice PIH 2019-20.

The activity was implemented upon HUD's approval of the Amended FY2020 MTW Plan.

Metrics

The following is a list of the metrics KH will tracks using HUD's established criteria.

Benchmarks and Outcomes

SS #1: Increase In Household Income

Unit of Measurement	Baseline 2020	Benchmark	Outcome	Benchmark Achieved?
Average earned income of households affected by this policy in dollars (increase).	Unknown	Unknown	\$14,606	Yes

SS #3: Increase in Positive Outcomes In Employment Status

Unit of Measurement	Baseline 2020	Benchmark	Outcome	Benchmark Achieved?
Employed full-time	0	2	0	No
Employed part-time	0	2	3	Yes
Enrolled in an educational program	0	1	1	Yes
Enrolled in job training program	0	1	0	No
Unemployed	0	0	1	No
Other	0	0	0	Yes

Unit of Measurement	Baseline 2020	Benchmark	Outcome	Benchmark Achieved?
Total cost of task in dollars (decrease)	\$608	\$200	\$O	Yes

CE #2: Staff Time Savings

Unit of Measurement	Baseline 2020	Benchmark	Outcome	Benchmark Achieved?
Total time to complete the task in staff hours (decrease)	18.27	8.25	0	Yes

CE #5: Increase In Agency Rental Revenue

Unit of Measurement	Baseline 2020	Benchmark	Outcome	Benchmark Achieved?
Total Household contributions towards housing assistance (increase)	\$O	\$1,879	\$7,416	Yes

Challenges to Achieving Benchmarks

SS #1 affected by more households participating in the program. SS #3 Households not working full time report childcare issues and attending school full-time as impediments to full-time employment. CE #5 Affected by more households participating in the program. There were no significant changes to this activity. No changes made to data collection or metrics.

2020.03.CE 2017 MAINSTREAM RENT REFORM

Plan Year Approved: 2020

The proposed 2017 Mainstream (2017 MS) Rent Reform activity provides a streamlined rent calculation methodology for households with 90% or more of their income coming from fixed sources. By simplifying the rent calculation process, the activity reduces KH's administrative burden by lowering administrative costs and staff time. The activity alters the current methodology for calculating rent with the following streamlined strategies:

- Initial year of assistance verification 90% of income is from fixed income sources.
- Years two (2) and three (3) households self-certify fixed income sources have not changed.
- Years two (2) and three (3), Cost of Living Adjustment (COLA) recertifications (see 2005.01.CE Elderly and Disabled Household Alternative Recertification activity).
- Interim recertification for fixed income changes in years two (2) or three (3) to determine continued eligibility for the streamlined recertification process.
- Annual recertifications required if the 90% from fixed sources threshold isn't met until such time as household income returns to 90% from fixed sources.
- Medical deduction threshold 7.5%. Pursuant to Notice PIH 2019

This activity's rent determination and recertification rules will only be applied to new lease-ups upon HUD approval of the Amended FY 2020 MTW Plan.

Metrics

The following is a list of the metrics KH will track using HUD's established criteria.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

Unit of Measurement	Baseline 2020	Benchmark	Outcome	Benchmark Achieved?
Total cost of task in dollars (decrease).	\$346	\$51	\$423	No

CE #2: Staff Time Savings

Unit of Measurement	Baseline 2020	Benchmark	Outcome	Benchmark Achieved?
Total time to complete the task in staff hours (decrease).	14.25	3	25	No

CE #5: Increase In Agency Rental Revenue

Unit of Measurement	Baseline 2020	Benchmark	Outcome	Benchmark Achieved?
Total Household Contribution towards housing assistance (increase).	\$0	\$91,228	\$89,280	No

Challenges to Achieving Benchmarks

Increasing rents, low vacancy, and housing stock shortage resulted in lower than expected lease-ups. There were no significant changes to this activity. No changes were made to the metrics and data collection.

63

2020.01.SS FOSTER YOUTH TO INDEPENDENCE TENANT PROTECTION VOUCHERS DEVELOPMENT GRANTS

Plan Year Approved: 2020

Learning from the success of the Development Grant and Rent Credit program (see 1999.05.SS Resident Self Reliance Program), KH makes Development Grants (DG) available to Foster Youth to Independence Tenant Protection Voucher (FYI-TPV) participants to help mitigate some of the financial barriers that may impede their self-sufficiency goals. These financial barriers may include transportation, tuition, textbooks, exams, childcare and employer required uniforms or special equipment.

KH will maintains a Development Grant (DG) application and schedule of allowable expenses to ensure that DGs are used to further participants' long-term self-sufficiency goals. DG payments are made directly to the vendor providing goods or services to the participant, rather than directly to the participant. FYI-TPV participants are not required to participate in the Resident Self-Reliance Program.

Metrics

The following is a list of the metrics KH will track using HUD's established criteria.

Benchmarks and Outcomes

SS #1: Increase In Household Income

Unit of Measurement	Baseline 2020	Benchmark	Outcome	Benchmark Achieved?
Average earned income of households affected by this policy in dollars (increase).	Not available	Not available	\$14,606	Yes
Keene Housing Metrics	Baseline	Benchmark	Outcome	Benchmark Achieved?
Number of Households that received Development Grants.	0	2	0	No
Total Development Grant Funds	\$0	\$1,000	\$0	No

Challenges to Achieving Benchmarks

No households requested development grants in 2022. There were no significant changes to this activity. No changes to metrics or data

collection.

Distributed.

2017.02.HC LOCAL PAYMENT STANDARD

Plan Year Approved: 2017

Like many areas across the country, the Monadnock Region faces low rental vacancy rates and an aging housing stock. These market conditions create a premium for high quality affordable units located close to community resources, like jobs, schools and bus routes. In this environment, owners and developers of multifamily rental units are leasing units at levels significantly higher than HUD's Fair Market Rents (FMRs).

Our inability to, when necessary, establish payment standards in excess of 110% of HUD's FMRs hinders our capacity to increase housing opportunities for those we serve in two ways. First, the 110% payment standard ceiling is making it difficult for some voucher holders to find quality units in neighborhoods close to the resources they need, like jobs, medical providers, shopping and schools. Second, the payment standard ceiling prevents us from providing competitive rents in our Project Based Voucher program, thereby reducing the feasibility of future affordable housing development in the region's most desirable neighborhoods, and impacting the long-term viability of existing affordable housing developments that rely on Project Based Voucher rents keeping pace with the local market to meet their increasing operating expenses.

To remedy these disadvantages, KH will use this activity to set its own Local Payment Standards based on actual market data, rather than HUD's FMRs, using the same Rent Comparability Study methodology used for our HUD Multifamily properties. The Local Payment Standard activity increases the mandated Payment Standard cap to 175% of FMR, waives the requirement to utilize HUD's FMRs when determining the agency's Payment Standards, and allows KH to self-approve rents exceeding its Board-approved VPS, when necessary.

Benchmarks and Outcomes

CE #1: Agency Cost Savings

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
Total cost of task in dollars (increase).	\$0	\$O	\$O	Yes

CE #2: Staff Time Savings

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
Total Time to complete the task in staff hours (decrease).	0	0	0	Yes

Keene Housing Local Metric(s)

Local #1: Additional units of Housing Made Available

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
Number of new housing units made				
available for households at or below 80%	0	24	0	No
AMI as a result of the activity (increase).				

Local #2: Increase in Resident Mobility

Unit of Measurement	Baseline 2015	Benchmark	Outcome	Benchmark Achieved?
Number of household able to move to a better unit and/or neighborhood of opportunity as a result of the activity (increase).	0	24	0	No

Challenges to Achieving Benchmarks

KH did not add any units to the portfolio in 2022.

Activities on Hold

Keene Housing has no activities on hold.

Not Yet Implemented Activities

Keene Housing has implemented all its MTW Activities.

Closed Out Activities

1999.02.CE HOUSING QUALITY STANDARDS (HQS) LANDLORD SELF-CERTIFICATION INSPECTION PROTOCOL

Plan Year Approved: 2000 Year Implemented: 2000

This activity permits participating property owners to self-certify HQS compliance, after the initial KH HQS inspection, with KH performing quality control inspections on randomly selected owner certified units during occupancy. Additionally, participants can request a special inspection

anytime they believe their unit violates HQS. Units that fail a biennial, quality control, or tenant requested inspection return to a KH administered annual inspection schedule until the unit receives a 'Pass' status.

2006.01.CE STANDARD DEDUCTIONS

Year Implemented: 2012 Year Closed: 2013

In 2006, KH adopted a flat deduction for all elderly and/or disabled households. Households who believed their unreimbursed medical expenses were above the 3% medical deduction threshold could request that KH calculate their medical deduction instead of applying the standard deduction.

Since the process of verifying and calculating medical deductions can often be administratively burdensome, it was believed using a flat deduction would provide administrative savings to offset any additional HAP loss that might occur. Delays in implementation resulted in KH being unable to determine the impact of this activity until 2012. Analysis showed that the loss in HAP funds due to households receiving a medical deduction they may not otherwise be eligible for far outweighed any administrative savings.

In 2013, Keene Housing discontinued application of the standard deduction for households with no unreimbursed medical expenses or expenses below the medical deduction threshold as it actually increased agency costs overall.

2016.01.CE PROJECT-BASED UNIT AGENCY CONDUCTED INSPECTIONS

Plan Year Approved: 2016 Year Implemented: 2016

Section 8(o)(11) of the 1937 Housing Act and 24 CFR 983.103(f)(1) requires PHAs to contract with a third party inspector for PHA owned PBV units. However, repeated attempts to locate a third party inspector for our owned and managed PBV units have been unsuccessful. The Project-Based Unit Agency Conducted Inspections activity permits KH to waive the third party inspection requirement until such time that an independent inspector can be found.

In lieu of a third party inspector, KH's Director of Facilities and Assets certifies all KH owned and managed PBV units to Uniform Physical Condition (UPC) Standards at turnover. In addition, a KH inspector certifies that these units meet Housing Quality Standards (HQS) as specified in KH's MTW HQS activities: 2011.01.CE Housing Quality Standards (HQS) Biennial Inspection Schedule and 2013.01.CE Housing Quality Standards (HQS) Alternative Inspection Protocol. In addition, supervisory personnel who have not been involved in routine inspections monitor the quality of KH's inspections, by re-inspecting five (5%) percent of all initial and annual inspections performed each quarter as a Quality Control (QC) mechanism.

The activity only affects KH's former public housing portfolio as all other KH owned PBV units are inspected at a higher standard by an outside regulatory agency. There is no anticipated impact on KH or residents due to this activity as it makes no change to current practice.

With HUDs approval of KHs FY2019 MTW Plan, HUD acknowledged that Keene Housing's Moving to Work Agreement C D. 1.f. and D.7.A, gives KH the authority to inspect all KH and KH affiliate owned PBV units. Keene Housing will propose to close-out this activity in its FY2021 MTW Plan. All benchmarks were achieved. No changes were made to the metrics and data collection. There were no significant changes to this activity.

2011.01.CE HOUSING QUALITY STANDARDS (HQS) BIENNIAL INSPECTION SCHEDULE

Plan Year Approved: 2011 Year Implemented: 2011 Year Closed: 2017

In 2011 KH transitioned from the annual Housing Quality Standards (HQS) inspections to biennial HQS inspections, including KH-owned and managed properties. KH still conducts an initial inspection of all newly leased units. Any property with a unit that fails an initial, special, quality control, or biennial inspection is held to an annual inspection schedule until such time that all units pass an annual inspection.

Due to changes in 24 CFR982.405 which now permit all public housing authorities to utilize a biennial inspection schedule, KH closed out this activity in FY2017.

2016.02.HC PROJECT MARCH (MONADNOCK AREA RESOURCES CURING HOMELESSNESS)

Plan Year Approved: 2016 Year Implemented: 2016 Year Closed: 2019

Project MARCH utilizes a Housing First model that provides partner agencies fixed subsidies to secure and maintain private market housing for their homeless clients. KH partnered with Southwestern Community Services (SCS), the region's Community Action Agency and our largest THASP partner. KH pledged up to twenty (20) Project MARCH subsidies to SCS for 2016. This commitment expands affordable housing options in the community and provides options beyond the shelters for those who may otherwise find it difficult to secure permanent, affordable housing.

Project MARCH outreach focuses on the region's homeless veteran population, and veterans receive a preference for Project MARCH subsidies throughout the program's life, or until every homeless vet in the Monadnock Region who wants to have housing, does. Every household who receives housing through Project MARCH is also offered two months of intensive supportive services from SCS. SCS continues working with households who request additional assistance after two months.

The Project MARCH partner is responsible for creating and enforcing eligibility and continued occupancy policies. Such policies must, at minimum,

meet the following requirements:

- Ensure that no policies or procedures violate any federal, state, or local regulation or statute.
- Certify that no Project MARCH participant has been convicted of drug-related criminal activity for manufacture or production of methamphetamine on the premises of federally assisted housing.
- Require that at least one member of the participating household has established citizenship or eligible immigration status.
- Confirm that all units leased through Project MARCH are meet Housing Quality Standards (HQS) protocols and are subject to KH's HQS quality control protocols.
- Establish that a Project MARCH participant's rent burden cannot exceed 45% of monthly income.
- Certify that no Project MARCH participant's annual income will exceed 80% Area Median Income (AMI) at eligibility.
- Verify that the partner will not impose a time limit for participation but will require Project MARCH participants to apply for housing assistance with KH.

2013.01.CE HOUSING QUALITY STANDARDS (HQS) ALTERNATIVE INSPECTION PROTOCOL

Plan Year Approved: 2013

Year Closed: 2017

In 2013 Keene Housing discontinued inspecting units held to a stricter inspection protocol than HQS – REAC/UPCS, State Finance Authority, etc. If a property is inspected under a stricter inspection protocol than HQS, and the property receives a "pass" score, KH relies on that inspection to demonstrate compliance with the property's biennial HQS inspection requirement.

Due to changes in 24 CFR982.405 which now permit all public housing authorities to utilize a biennial inspection schedule, KH closed out this activity in FY2017.

Section V. Sources and Uses of Funding

Sources and Uses of MTW Funds

Actual Sources and Uses of MTW Funding for the Fiscal Year.

Sources and uses submitted in FDS format through the Financial Assessment System – PHA.

Activities that Used Only MTW Single Fund Flexibility

KH does not own any public housing and therefore does not combine Section 8 and Section 9 funds. KH relies solely on section 8 funds and administrative fees to administer our programs.

Local Asset Management Plan

Is the PHA allocating costs within statute?	YES
Is the PHA implementing a local asset management plan (LAMP)?	NO

If the PHA is implementing a LAMP, it shall be described in an appendix every year beginning with the year it is proposed and approved. The narrative shall explain the deviations from existing HUD requirements and should be updated if any changes are made to the LAMP.

Has the PHA provided a LAMP in the appendix?

NO

Keene Housing does not own or manage any public housing units and is not required to implement or submit a Local Asset Management Plan.

Section VI. Administrative

Agency Review

KH was not subject to any HUD reviews, audits, or physical inspection issues which required agency action.

PHA-Directed Evaluations of MTW

KH is participating in a rent reform and resident services random control study. An update is located in Appendix II beginning on page 92.

Certification of Compliance

See following page.

KH Strategic Plan 2020-2025 (Progress Report 2022)- 1

INTRODUCTION	
This Strategic Plan provides Keene Housing's Board of Commissioners, our staff, the people we serve, and our partners – local, regional and national – with a road map that identifies the strategic goals Keene Housing will strive to achieve by 2025. This plan was developed with active engagement and feedback from our Board of Commissioners, staff, residents, voucher holders, landlords, and community partners from as nearby as City Hall and as far away as Washington, DC.	of Commissioners, our staff, the people we serve, a road map that identifies the strategic goals Keene eveloped with active engagement and feedback from -holders, landlords, and community partners from as
This strategic plan finds us at a very different place organizationally than we were at when the last strategic plan was developed, in 2015. In 2015 much of Keene Housing's senior staff and several Board Commissioners were relatively new to the organization, having only worked together for a few years. We were in the early stages of developing a strategy for addressing the portfolio's long-term capital needs, and we were just beginning to understand the portfolio's energy costs and opportunities for savings. Similarly, in 2015 we started to think differently about how we could better help the young people we house become successful adults, and about what more we could do to help the elderly and disabled neighbors we serve live healthier, happier, more independent lives.	c plan finds us at a very different place organizationally than we were at when the last n was developed, in 2015. In 2015 much of Keene Housing's senior staff and several Board ers were relatively new to the organization, having only worked together for a few years. We arly stages of developing a strategy for addressing the portfolio's long-term capital needs, and beginning to understand the portfolio's energy costs and opportunities for savings. Similarly, arted to think differently about how we could better help the young people we house become ults, and about what more we could do to help the elderly and disabled neighbors we serve . happier, more independent lives.
By early 2019, when work on this Strategic Plan began, we were encouraged that we'd achieved many of the goals we'd set for ourselves in 2015. We'd spent the last five years aggressively addressing the portfolio's most pressing capital needs, including a massive rehabilitation project at Central Square Terrace, our 90-unit historic building in the heart of downtown Keene. Our understanding of the portfolio's energy performance and strategies for improvements had also come into focus. By 2019 we'd made significant strides towards decreasing our energy needs and had already made great progress towards reaching our goal of relying 100% on renewable energy by 2035.	9, when work on this Strategic Plan began, we were encouraged that we'd achieved many we'd set for ourselves in 2015. We'd spent the last five years aggressively addressing the ost pressing capital needs, including a massive rehabilitation project at Central Square Terrace, istoric building in the heart of downtown Keene. Our understanding of the portfolio's energy and strategies for improvements had also come into focus. By 2019 we'd made significant ds decreasing our energy needs and had already made great progress towards reaching our g100% on renewable energy by 2035.
Since providing it with seed funding in December 2014, the Keene Housing Kids Collaborative (KHKC) has grown from a small start-up nonprofit serving a few children, to one of the city's most recognized service organizations, serving hundreds of Keene Housing kids each year. We are also pleased that goals related to our elderly and disabled residents' quality of life were largely achieved, in great part due to the addition of a dedicated Elderly/Disabled Resident Service Coordinator in 2016. Thanks to her hard work, our elderly and disabled residents many more opportunities to participate in activities that helped maintain their mental and physical health, social connections and sense of belonging. Similarly, our Community Garden program took off with over 35 dedicated Community Gardeners maintaining over 60 raised beds across our real estate portfolio.	ng it with seed funding in December 2014, the Keene Housing Kids Collaborative (KHKC) has a small start-up nonprofit serving a few children, to one of the city's most recognized service s, serving hundreds of Keene Housing kids each year. As was the case with our previous five-year strategic plan, this plan is organized by goal, with each goal broken down into a series of related objectives and projects that will help ensure that we stay grounded and focused on our way to 2025. We will also continue the practice of reviewing and when needed, revising, the Strategic Plan each year. These annual reviews give the Board of Commissioners and staff opportunities to check on our progress towards the goals, objectives and projects articulated in this plan. These check-ins also give us opportunities to make revisions when circumstances "on the ground" change. If it is to be a useful tool, the strategic plan must be a living document; we must be able to adjust and revise it in response to emerging opportunities and threats.

we are grateful that, thanks to our designation as a U.S. Department of Housing and Urban Development Moving to Work (MTW) Agency, we have the flexibility to respond to emerging opportunities and threats in ways that most other Public Housing Authorities cannot. Much of what we have accomplished, and what As we look ahead to 2025, we are excited by what is to come. We look forward to completing the portfolio's remaining rehabilitation projects and turning our attention to creating new affordable housing for our neighbors who need it. We look forward to continuing to be leaders in the areas of energy efficiency and solar energy production. We are excited to find new ways to support the health and well-being of our frailest residents and helping our working families achieve greater economic independence. And, as always, we hope to achieve in the years ahead is largely possible because of our MTW designation.

housing shortage is having on our communities' social, physical and economic health. While we wish it didn't take as long as it has for the housing crisis to be recognized for what it is, we are grateful that from policy makers of all political and philosophical stripes are beginning to recognize the effect the affordable Finally, we look forward to working with all of our partners; as we try to meet our shared challenges over the next five years. This Strategic Plan is being printed at a time when business leaders, politicians and Keene to Concord to Washington, decision makers are starting to work on solutions. We look forward to doing our part to help.

MISSION STATEMENT

strengthen and empower low and moderate-income affordable housing and supportive services that "Keene Housing provides and advocates for households in the Monadnock region." KH Strategic Plan 2020-2025 (Progress Report 2022) – 5

Preserve, Improve and Expand Affordable Housing Stock

KH's existing real estate portfolio is a critical component of the region's affordable housing stock. Maintaining and improving the portfolio for future generations is amongst KH's primary responsibilities. This goal captures a broad range of initiatives that help ensure the portfolio's long-term viability including capital improvements, landscaping and other activities to improve "curb appeal", preventive maintenance and, when appropriate, recapitalization. We also recognize that our current portfolio will never be large enough to meet the growing demand for high quality affordable housing in the Monadnock region. Therefore, this goal also encompasses efforts to address broader regional affordable housing needs through a combination of preservation and development activities.

OBJECTIVES:

- Address the portfolio's capital needs
- Restructure/recapitalize portfolio financing where needed to ensure viability and longterm affordability
- Identify and secure new funding to support capital needs including continuing use of **MTW funds**
- Maintain exceptional "curb appeal"
- Leverage Project Based Vouchers and the Transitional Housing Assistance Subsidy Program as regional affordable housing preservation and expansion tools
- Pursue development opportunities that respond to identified, quantifiable regional housing needs

PRIORITY PROJECTS:

- Update annually and implement portfolio-wide preventive maintenance plan, with a focus on activities that reduce energy consumption Underway
- Update annually and implement portfolio-wide landscape/grounds improvement and maintenance plan Underway
- Implement annual and five-year Capital Plans with a focus on priority needs such as life safety improvements, energy efficiency and accessibility projects (including those that support "aging in place"), in a manner that keeps residents informed, and minimizes disruption to their lives Underway
- Update Capital Needs Assessments on a five-year cycle Underway
- Develop and implement plan for the rehabilitation of Bennett Block Completed
- Develop and implement recapitalization strategy, and related capital improvements, for projects nearing the end of the Low-Income Housing Tax Credit initial compliance period including Stone Arch Village and Evergreen Knoll Completed

Promote Energy Conservation and Sustainability

overriding importance of reducing energy consumption and costs, KH is an active participant in the Better Buildings Challenge established by the US Departments of Energy and Housing and Urban Development. Focusing on reducing utility consumption and incorporating energy efficient, sustainable materials into With the exception of personnel expenses, energy is Keene Housing's largest operating cost. Recognizing the capital projects is the focus of the Better Buildings Challenge and this Strategic Plan goal.

OBJECTIVES:

- Achieve carbon neutrality by 2035 (REVISED 2022)
- Achieve Better Buildings Challenge goals by 2025
- Continue executing energy conservation and investment strategies to lower costs and reduce carbon footprint
- Integrate conservation and sustainability into modernization and development planning
- Continue accessing available energy efficiency rebate and incentive programs
- Stay informed about and take advantage of emerging public policies that incentivize energy efficiency and generation projects
- Promote KH's energy efficiency achievements to partners, stakeholders and the general public

- Implement Energy Strategic Plan in coordination with execution of Capital Plan Underway
- Maintain and update Energy Strategic Plan Underway
- Replace all Electric Thermal Storage (ETS) units with air source heat pumps or similar high efficiency HVAC system Underway
- Develop and implement a water conservation plan for community gardens Underway
 - Continue monitoring utility consumption to inform choices and quantify savings from energy-related retrofits, improvements, and solar projects Underway
 - Inform and educate residents about energy conservation benefits at lease up and periodically during tenancy Underway

Prudently Manage and Oversee Agency Finances

address capital, supportive service and other needs. Keene Housing must work diligently to maximize the resource leveraging impact of its available funds and seek new income sources, while simultaneously reducing operating costs by pursuing creative management and energy conservation strategies. KH's objectives in this area include diversifying funding sources, increasing non-federal financial reserves and containing operating Scarce federal and state support for affordable housing severely constrains Keene Housing's ability to fully costs.

OBJECTIVES:

- Strengthen and expand financial analysis and reporting capabilities
- Contain and, whenever possible, reduce operating costs
- Expand and diversify funding sources to reduce reliance on HUD and USDA
- Increase non-federal operating reserves
- Maximize rent and management fee potential
- Minimize vacancy loss across the portfolio
- Maximize occupancy and rent potential for commercial spaces

- Annually update and implement the agency-wide Financial Management Plan Underway
- Explore opportunities for residents to contribute to curb appeal (REMOVED 2022)
- Conduct annual review of rent and management fees Underway
- Continually monitor vacancy loss Underway
- Regularly renew and update cost allocation methodology Underway
- Conduct annual review of benefits and health insurance costs, pursuing cost effective but equitable opportunities where feasible Underway
- Conduct annual review of property and casualty insurance costs, pursuing cost effective opportunities whenever feasible Underway
- ldentify and secure additional revenue through grants, increased management fees, and other initiatives Underway
- Where permissible, repurpose and identify new revenue opportunities for underutilized community rooms in consultation with residents (REMOVED 2022)

Achieve Excellence in Management

Providing high quality property management and maintenance services to all residents is a core value that is leading performance outcomes in key performance indicators including occupancy, vacancy, unit turnaround time, rent collection and work order completion. In achieving its occupancy goals, KH is committed to fair and deeply ingrained into Keene Housing's organizational culture. This strategic goal focuses on achieving industryconsistent lease enforcement, and to working closely with residents to minimize the need for evictions.

OBJECTIVES:

- Maximize utilization of available voucher and housing resources
- Meet or exceed performance goals related to voucher utilization, property management and maintenance indicators
- Document, maintain, and implement best practices that meet or exceed applicable regulatory requirements
- Maximize operational efficiencies created by 2019 reorganization of voucher and property management functions

- Achieve annual voucher program utilization goals Underway
- Achieve annual property management and maintenance goals Underway
- Annually update and implement Tenant Selection and Occupancy Plan and MTW Administrative Plan Underway
- Convert to a single enterprise software platform for voucher, property management and finance operations Underway
- ldentify areas of risk, develop and implement quality control protocols where needed Underway
- processes and systems to maximize efficiencies and improve operational outcomes Streamline and wherever possible consolidate housing and voucher administrative Underway
- Receive accreditation from the Affordable Housing Accreditation Board Completed

6	

Promote Wellness and Independence Among Seniors and Residents with Disabilities

State and regional demographic data suggest that this trend will continue well into the future. This strategic goal recognizes this trend, and commits Keene Housing to facilitating aging in place, and to pursuing initiatives that enhance elderly and disabled residents' quality of life. Keene Housing will accomplish this goal by partnering with agencies that have the resources and expertise to help, and by integrating residents' physical needs into Almost half of the households Keene Housing serves includes at least one member who is elderly or disabled. our capital planning process.

OBJECTIVES:

- Leverage resources to secure new funding and services
- Integrate accessibility features and resident comfort into new and retrofit project designs

- Explore opportunities for additional resident services through recurring federal and state sources (REVISED 2022) Underway
- Implement strategies to ensure successful housing search and long-term tenancies for disabled residents and voucher holders, including educating residents on reasonable accommodations Underway
- Expand partnerships providing on-site quality of life programs and services Underway

;

Support Resident Economic Development

programming, helping residents and voucher holders seek well-paying jobs, improve their educations and increase their assets are important KH goals. This strategic goal takes full advantage of Keene Housing's MTW flexibility to develop rent reform and resident service initiatives specifically designed to help working families As evidenced by our resident-centric approach to property management and robust resident services achieve greater economic independence.

OBJECTIVES:

- Use MTW flexibility to explore resident service and rent models that provide incentives for employment and asset building
 - Leverage internal and external resources to help residents and voucher holders build social connections and sense of community
- Focus on measurable outcomes and program evaluation

- Develop, implement and evaluate rent reform and services demonstration project, with support from third party private or academic researchers Underway
- Look for additional Transitional Housing Assistance Subsidy Program (THASP) partners and other sponsor-based subsidy programs (REVISED 2021) Underway
- Increase the use of the Family Activity Centers by local service providers and residents Underway

Support Youth Development Through Collaboration with the Keene Housing Kids Collaborative

Keene Housing has been the driving force and primary financial supporter of the Keene Housing Kids Collaborative (KHKC), a non-profit organization established in 2014 to support the healthy development and educational success of KH youth. Working in collaboration with KH, the Keene School District and more than 30 partner agencies, KHKC is implementing an ambitious array of after school and summer programs that promote healthy youth development and support parents and children living in Keene Housing owned or assisted homes. During the Strategic Plan term, KH will support and collaborate with KHKC to increase its fundraising capacity, and to help KHKC become a self-sustaining non-profit organization.

OBJECTIVES:

- Continue supporting and collaborating with KHKC to expand and strengthen programs that focus on youth development from preschool through high school
 - Help KHKC become a self-sustaining organization

- Improve communications between KHKC and KH BOC Underway
- Continue reducing MTW contribution towards KHKC operating costs Underway
- Introduce KHKC leadership to additional potential affordable housing partners Underway

Build Board and Staff Capacity and Skills

This goal incorporates ongoing efforts to increase the Board of Commissioner's engagement in, and advocacy on behalf of KH's strategic and initiatives that periodically solicit feedback from staff and the Board, especially when major organizational An engaged, well-trained Board and staff are essential for Keene Housing to continue achieving excellence, It also encompasses supporting and building Board and staff capacity through continuing education, fostering innovation and most importantly, addressing community needs. transitions are under consideration. goals.

OBJECTIVES:

- Recruit and retain a qualified, motivated workforce
- Provide staff with the training, including cross training, needed to excel at their jobs and grow within the organization
- responsibilities, appropriately engaged in governance and policy matters, and fulfilling Ensure that new and current Board members are fully informed of their roles and their obligation to advocate for KH and the households we serve
- Provide opportunities for local stakeholders, including students, to learn about KH's work

- Continue bonus program to recognize extraordinary performance Underway
- Continue conducting employee satisfaction/feedback surveys Underway
- Annually update Board training materials and schedule, including on-boarding packet, using the AHAB accreditation standards for Governance as a source for best practices Underway
- Increase opportunities for Board members to participate in relevant trainings and to engage with KH staff Underway
- Continue developing strategies that attract and retain quality staff at all organizational levels Underway
- Implement intradepartmental cross training initiatives (REMOVED 2022)
- Implement interdepartmenental "Shadow Days" Not start<mark>ed</mark>

GOAL 9:	.9.
Enhan	Enhance Customer Service and Operational Efficiency
Keene Hc is always and vouc	Keene Housing is a service organization. Applicants, residents and voucher holders are our customers. KH is always focused on ways to streamline operations and improve customer service for applicants, residents and voucher holders. This strategic goal incorporates activities that leverage emerging technology, provide
increasin; residents	increasingly helpful and timely information to our customers and community, and minimize disruption to residents and operations in the event of a natural disaster or other unforeseen event.
OBJECTIVES	VES:
•	Integrate new technologies that streamline work processing and improves public/ resident access to information
•	Ensure that the providing high quality customer service, based in empathy and fairness, is a fundamental organizational principal
•	Provide additional opportunities to easily receive and respond to public feedback
•	Implement a disaster response and recovery plan
PRIORIT	PRIORITY PROJECTS:
•	Develop and implement a plan to improve the website Completed
•	Develop and implement a security plan Underway
•	Periodically assess and implement required enhancements to KH's hardware, software and telecommunications network Underway
•	Use technology to improve the timeliness, accuracy and accessibility of information about KH plans and strategies for applicants, residents, voucher holders, community stakeholders and other target audiences (REVISED 2022) Underway
•	Regularly solicit input from residents and stakeholders on KH programs and initiatives Underway
•	Develop a disaster response plan that accounts for the safety of residents and staff as well as the need to recover quickly from a natural disaster Underway
•	Evaluate and, where cost effective, deploy technological tools such as video updates, kiosks, computers and publicly available printers to assist residents and applicants

Be a Strong and Effective Advocate for Innovation in Affordable Housing and Supportive Service Programs

Keene Housing's organizational culture values and actively supports innovation and excellence in the administration of housing and supportive service programs for low- and moderate-income people. KH strongly believes that we achieve excellence by learning from, and sharing with others engaged in activities that benefit promote and expand affordable housing programs and supportive services. Central to this effort is KH's our customers. To that end, KH strives to play a prominent role in local, state and federal efforts to improve, leadership in the Moving to Work (MTW) program.

OBJECTIVES:

- Support and participate in the growth of the MTW Collaborative and advocate for the permanent extension of current MTW Agreements
- Participate in local, state and national efforts to improve public policy affecting affordable housing development, management and administration
- Contribute to efforts to improve local, state and national renewable energy incentive programs and related public policies
- Contribute to efforts to improve local, state and national supportive service programs and policies

- Actively participate in and support the MTW Collaborative Underway
- Actively participate in and support the Affordable Housing Accreditation Board (REMOVED 2022)
- Actively participate in and support the New Hampshire Housing Authority Corporation Underway
- Actively participate in and support the Public Housing Authorities Directors Association Underway
- Actively support the advocacy efforts of Housing Action New Hampshire Underway
- Ensure that members of staff hold leadership positions with local, state and federal organizations, committees and councils (REVISED 2022) Underway
- Continue advocating for low- and moderate-income people to local, state and federally elected officials Underway

Households by Treatment Group and Receipt of Services as of 2022

Note: Six households in the Step Rent and Triennial group and 23 in the Annual Recertification group were excluded from the analysis in 2022 because all adults in the household were elderly or had a disability.

Demographic Composition

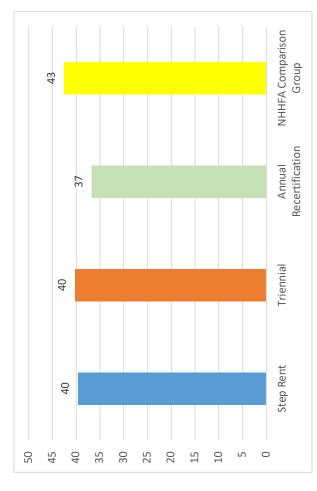

households in the Annual Recertification group. Meanwhile, households in the Triennial group continues to have fewer children and household members. A greater portion of households in the Triennial group also Comparing demographic data across groups, the Step Rent group continues to be representative of the have a member with a disability and are headed by females compared to the Step Rent and Annual Recertification group.

compared to 19% of households in the Step Rent group and 15% of households in the Annual Recertification While households which all adults are elderly or have a disability were excluded from the analysis, many Twenty-four percent of households in the Triennial group include a household member with a disability, households still include a member with a disability. The Triennial group had a slightly higher portion of households with a family member that has a disability compared to the Annual Recertification group. group. Data on disability status is not available for the NHHFA Comparison group.

there were substantially more households with members that were elderly or live with a disability in the Triennial ¹ Data summaries in 2020 and 2021 included these households, however, they were excluded in 2022 because group which impeded comparisons across treatment groups.

NHHFA Comparison group, the ages of the four cohorts are comparable. The average age of household heads and NHHFA Comparison group also have the largest portion of households with members between ages 54 years of age and adults in the Annual Recertification group were 35 years of age, on average. The Triennial While the household heads in the Step Rent and Triennial group are slightly older compared to the Annual in the Step Rent and Triennial group is 40 years, compared to 37 years in the Annual Recertification group and 43 in the NHHFA Comparison group. Meanwhile, adults in the Step Rent and Triennial group were 36 Recertification group, the age of all adults across each group are comparable. Even when looking at the and 61 (19%). The Step Rent and Annual Recertification groups have similar portion of households with members between age 54 and 61, 12% and 10% respectively.

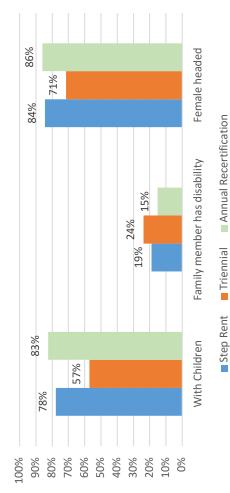

Average Age of Household Head by Group as of 2022

The majority of households across all programs are headed by women. Between 84% and 86% of Step Rent and Annual Recertification households, and 71% of Triennial households are headed by women. Data on household head gender were not provided by NHHFA.

Households with Children, a Disability, or are Female Headed by Group as of 2022

average. Meanwhile, the Triennial, Annual Recertification and Step Rent group have similar household sizes, children under the age of 12, compared to 48% of households in the Triennial and 51% of households in the Step Rent groups. The NHHFA Comparison group exhibits the smallest household size with 2.4 members on Annual Certification group. Seventy-three percent of households in the Annual Certification group included Over three-quarters of the households in the Step Rent and the Annual Recertification group have children children, on average: 1.0 and 1.1 per household compared to 1.7 and 1.6 in the Annual Recertification and 18. Far fewer of the households in the Triennial (57%) and NHHFA Comparison (59%) group have children. However, both the Step Rent and Triennial group have fewer young children under 12 compared to the Step Rent groups. Households in the Triennial and NHHFA Comparison group continue to have fewer with 2.7, 3.2, and 3.5 members, on average.

Income and Employment

Gross Income

group is also statistically significant (p value=0.0048), while the difference between the Triennial and Annual average, than do the other three groups. The Step Rent program household income was substantially higher at \$38,386, on average, than the Annual Recertification group (\$25,933), the Triennial group (\$22,776), and households, so that this figure may fluctuate as more households are added to the study. Additional data is Recertification group is not statistically significant. However, the Triennial group has the fewest number of needed to distinguish whether these differences in annual gross income are related to differences income value=0.0001). The difference in annual gross income between households in the Step Rent and Triennial In 2022, households in the Step Rent program continue to exhibit higher annual household incomes, on the NHHFA Comparison group (\$18,003). According to a t-test, the difference in annual gross income between households in the Step Rent and Annual Recertification group is statistically significant (p upon admission, differences in demographic characteristics across groups, or treatment effects.

Average Annual Gross Household Income as of 2022 by Group

Note: Income at admission is adjusted to 2022 dollars.

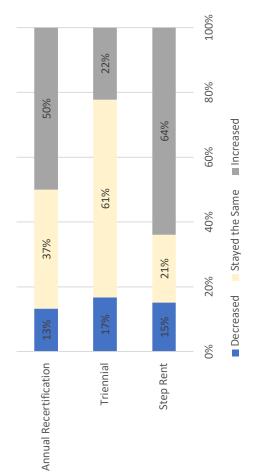

Income from Wages

(p value= 0.0001). The difference in income earned from wages between the Step Rent and Triennial group is from wages between households in the Step Rent and Annual Recertification group is statistically significant Households in the NHHFA Comparison group earned even less of their income from wages, earning \$8,713 Triennial group and Annual Recertification group is not statistically significant. Additional data is needed to also statistically significant (p value=0.0029). However, the difference in income earned from wages in the distinguish whether these differences in income earned from wages are related to differences in earnings Similarly, households in the Step Rent group also report the highest average annual income earned from wages. Households in the Step Rent group earned \$31,693 from wages, on average, in 2022. Meanwhile, from wages annually in 2022, on average. According to a t-test, the difference in average income earned households in the Triennial and Annual Recertification group earned \$21,119 and \$22,018 respectively. upon admission, differences in demographic characteristics across groups, or treatment effects.

Recertification Group and 22% of households in the Triennial group. Sixty-one percent of households in the Among the households that were assisted by Keene in 2021, households in the Step Rent treatment group reported the largest increase in wages compared to the prior year. Sixty-four percent of households in the Step Rent group experienced an increase in wages in 2022, compared to 50% of households in the Annual Triennial group did not report a change in wages in 2022, suggesting that they were not yet up for recertification.

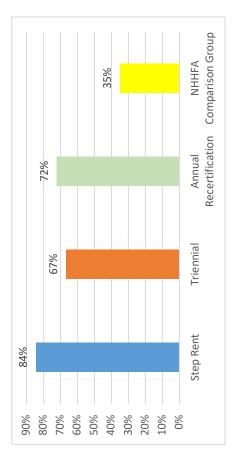

Note: Excludes households that were admitted or exited in 2022.

Percent with Income from Wages

NHHFA Comparison group. Given their higher household incomes, Step Rent households fall at 58% of a living Similarly, households in the Step Rent group earn income from wages at the highest rate. Eighty-four percent of households in the Step Rent group earned income from wages in 2022, compared to 67% of households in average. The living wage estimate comes from a methodology developed by scholars at MIT and is calculated wage, on average. Triennial households fall at 39% of a living wage, on average, and Annual Recertification the Triennial group, 72% of households in the Annual Recertification group and 35% of households in the households fall at 38% of a living wage, on average. NHHFA households fall at 29% of a living wage, on based on household size and the number of children².

continued unemployment rates. Households in the Step Rent group had the highest continued employment Among households that were assisted by Keene Housing in 2021, participants in the Annual Recertification group reported the largest employment gains in 2022. This group, however, also experienced the highest rate.

Change in Employment 2021-2022 by Group as of 2022

Total Tenant Payments (TTP)

per month. These differences in TTP are likely reflective of the higher average annual income of households Comparison groups are comparable between 26% and 29%, respectively. Households in the Triennial group \$506 respectively. Meanwhile, households in the NHHFA Comparison group have the smallest TTP at \$460 Recertification and Triennial group have slightly lower but similar tenant rental payments (TTP), \$543 and Households in Step Rent group have the highest average monthly TTP (\$672). Households in the Annual in the Step Rent group. The average rent burden for the Annual Recertification, Step Rent, and NHHFA exhibit a higher average annual rent burden of $35\%^3$

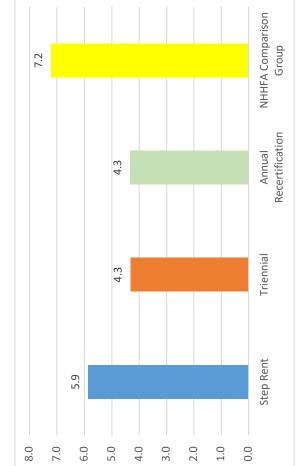

Length of Stay

admittance for the NHHFA tenants is 7.2 years, while the Step Rent group is 5.9 years. Households in the Both rent reform groups exhibit lower current stay period than NHHFA tenants. The average time since Annual Recertification and Triennial group each have an average length of stay of 4.3 years.

³ Households with \$0 income with a TTP>\$0 have a rent burden of 100%. This rent burden for the Triennial group is skewed by households earning \$0 paying \$125 per month on rent. Excluding households with \$0 gross annual incomes, the rent burdens for these the Step Rent, Triennial, and Annual Recertification group are 26%, 31%, and 26%.

Note: Excludes households that were admitted or exited in 2022.

Average Years since Admittance by Group as of 2022

Additional Financial Measures

report being employed full-time and 27% employed part-time. They also report an average household savings of \$2,223 and a maximum credit score of 587, on average. Six percent of households in the Step Rent group Step Rent tenants also provided additional financial and education data. Two-thirds of Step Rent tenants households that participated in the Step Rent program in 2021, 45% reported an increase in their savings had someone pursuing post-secondary education. Six percent recently received a raise. Among the compared to the year prior.

Random Control Trial

receive RSR goal setting services. Since the start of the RCT, five households have exited the program and one Rent, Triennial, Annual Recertification, and NHHFA Comparison group that were admitted after July 31, 2020 and are a part of the RCT. As of 2022, ten households were randomly assigned to the Step Rent group, 11 in This section describes the demographic, income, and employment characteristics of households in the Step Rent group, 55% in the Triennial group, and 42% in the Annual Recertification group have been assigned to the Triennial group, and 19 in the Annual Recertification group. Among these households, 40% in the Step household has been disqualified. An additional 496 non-elderly households were admitted to the NHHFA Comparison group after July 31, 2020.

Households by Treatment Group and Receipt of Services in RCT as of 2022

Similarly, since few households in the RCT have been assigned to receive RSR goal setting services, comparing metrics between groups by RSR participation will not be evaluated in this data summary. These results in this Since few households have been admitted to the RCT, statistical significance testing will not be performed. section are for informational purposes only and are expected to fluctuate as more households enter the program.

Demographic Composition

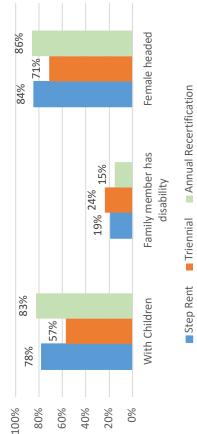

The early households randomly assigned to the Step Rent and Triennial groups through 2022 continue appear households assigned to the Step Rent group appear to have larger incomes upon admission, household sizes, and children per household. Meanwhile, both the Triennial and Step Rent groups appear to be slightly older, a smaller portion of households are headed by a female, and a larger portion of households with a member to differ from households assigned to the Annual Recertification group. Notable differences include that that has a disability compared to the Annual Recertification group.

member with a disability, compared to 0% of households assigned to the Annual Recertification group. While households headed by a member that is elderly or lives with a disability are disqualified from participating in Households randomly assigned to the Step Rent and Triennial group as of 2022 have larger rates of disability the RCT, these are likely households that include dependents or other adult household members with a compared to households assigned to the Annual Recertification group. Thirteen percent of households assigned to the Step Rent and 10% of households assigned to the Triennial groups include a household disability.

(0%). The Triennial and Step Rent groups have similar portions of households with adults between age 54 and at 37 years, on average. Similarly, households admitted to the NHHFA Comparison group after the RCT began are 38 years, on average. Household heads assigned to the Annual Recertification group are the youngest at 32 years, on average. Households assigned to the Annual Recertification group also have the youngest adult assigned to the Step Rent group is 39 years. Households assigned to the Triennial group are slightly younger, Recertification group also have the fewest percentage of households with members between age 54 and 61 households assigned to the Annual Recertification group. The average age of the household head randomly population of 31 years of age, on average. Households assigned to the Step Rent and Triennial group have Households randomly assigned to the Step Rent and Triennial group through 2022 are slightly older similar adult populations of 36 and 37 years of age, on average. Households assigned to the Annual 61, ranging between 10% and 13% respectively.

Total Tenant Payments (TTP)

the Step Rent group also have the lowest average rent burden, paying only 18% of their income towards rent assigned to the Annual Recertification group have the highest TTPs, paying \$539 per month. Households in per month on average. Meanwhile, the Triennial and Annual Recertification group have comparable rent Households in the NHHFA Comparison group have the lowest average monthly TTP (\$396) followed by Triennial group have slightly higher TTPs, paying \$516 per month on average. Meanwhile, households burdens, paying an average of 37% and 35% of their income towards rent.⁷ Households in the NHHFA households randomly assigned to the Step Rent group as of 2022 (\$462). Households assigned to the Comparison group have an average rent burden of 27%.

Household Total Tenant Payments (TTP) as of 2022

⁷ Households with \$0 income with a TTP>\$0 have a rent burden of 100%. This rent burden for the Triennial and Annual Recertification groups is skewed by eight households earning \$0 paying \$125 per month on rent. Excluding households with \$0 gross annual incomes, the rent burdens for these groups are 29% and 30%.

Conclusions

All Participants

small sample. Looking at the income and employment characteristics across groups, we find that households Triennial group also head by females and include a higher portion of members with a disability relative to the group, however these differences are not statistically significant. Additional analyses and data will be needed households in the Annual Recertification group. Households in the Triennial group have slightly lower annual are fairly similar in demographic characteristics. Participants in the Triennial group are less comparable, with Looking at all households assisted by Keene, participants in the Step Rent and Annual Recertification groups to determine if these differences in income and employment across groups are related to treatment effects gross incomes (\$23,776) and income earned from wages (\$21,119) compared to the Annual Recertification Annual Certification group. The characteristics of the Triennial group may continue to fluctuate due to the fewer household members and children compared to the Annual Recertification group. Households in the in the Step Rent group have higher average annual gross incomes (\$38,386), average income earned from wages (\$31,693), and a higher portion of households earning income from wages (84%) compared to or differences in demographic characteristics or income upon admission.

Random Control Trial

households randomly assigned to the Step Rent and Triennial groups compared to the Annual Recertification larger household sizes, while households assigned to the Triennial group appear to be headed by women less larger portion of households with children and have a larger portion of households with a member that has a Despite random assignment, there continue to be some differences between the number and characteristics assigned to the Step Rent group appear to have higher incomes upon admission, are slightly older, and have households are entered into the study. We will continue to update the benchmarks yearly both aggregated households in the Step Rent and Annual Recertification group have been assigned to participate in the RSR number of households have been assigned to the Step Rent and Triennial group (10 vs 11 households), 19 frequently. Additionally, households assigned to both the Step Rent and Triennial group appear to have a of households randomly assigned to each treatment group in the RCT through 2022. While a comparable group. Compared to households assigned to the Annual Recertification group through 2022, households number of households assigned to each group in the RCT, so these differences should even out as more program. We also continue to observe some early differences in the demographic characteristics of the disability compared to households assigned to the Annual Recertification group. There are still a small households have been assigned to the Annual Recertification group. Additionally, a smaller portion of by program and aggregated by new individuals entering the study by program.

There are currently too few households and not enough time in the study to evaluate the treatment effects differences were also present upon admission. Additional households in the study and time are needed to of the rent reform programs. While households randomly assigned to the Step Rent group through 2022 continue to report the highest gross annual incomes, income from wages, and employment rates, these evaluate the effects of the rent reform programs.
