

# Generating the Overlapping Dates Report

March 2019

The Overlapping Date Report is a report that can give a PHA details about the households that have moved to another PHA or have moved into your PHA from another PHA. This report consists of three tabs that are described below. Example screen prints are provided later in this document.

- Automatic EOPs/Port Outs Pending—this shows tenants that lived in the jurisdiction of the PHA accessing the report that the system will automatically do an End of Participation (EOP) or Portability Move-out (Section 8 portability) on the first day of the next month if no action is taken prior to that date. This is caused by another PHA submitting a New Admission or Portability Move-in (Section 8 portability) 50058 for a tenant with the same SSN as one of the tenants under the PHA that is accessing the report.
- New Admissions/Port Ins Causing Overlapping Dates—this shows tenants that a PHA has submitted a New Admission or Portability Move-in (Section 8 portability) 50058 for that is a tenant that was residing in another PHA's jurisdiction.
- Automatic EOPs/Port Outs Processed—this shows tenants that the system has already processed the automatic End of Participation (EOP) or Portability Move-out (Section 8 portability) 50058 with an effective date matching the date processed. This is the tab where a user can find tenants when a fatal error is received on a 50058 submission that says the tenant does not reside in your PHA's jurisdiction (this can occur with any action type submitted but usually happens when submitting the EOP or port out).

#### **Facts about the Overlapping Date Report:**

- This is a live report that changes as 50058 data is accepted by IMS-PIC; therefore, the data will be constantly changing. For this reason, it is recommended that PHAs check this report a couple of times during the month. One of those instances should be at the end of the month since another PHA may submit a New Admission or Portability Move-in (Section 8 portability) 50058 late in the month and cause an overlapping date situation that would need to be dealt with in a very short amount of time.
- This report flags overlapping date situations based on the tenant's SSN. In some rare instances a tenant may be incorrectly flagged (e.g. an incorrect SSN is assigned to a tenant) so PHAs need to verify this information and work with the other PHA that is involved.
- An example of an overlapping date situation would be if PHA 1 has a tenant that lives in their jurisdiction and PHA 2 submits a move in action for that tenant on December 28<sup>th</sup>. It does not matter the program type or effective date. Since the occurrence date of overlap on the first tab is December 28<sup>th</sup> IMS-PIC will automatically process an EOP or port out, depending on the situation, on January 1<sup>st</sup> if PHA 1 does not do it prior to January 1<sup>st</sup>.

#### **How to access the Overlapping Date Report:**

1. Log into REAC/Secure Systems and access PIC from your Main Menu. The website for the REAC login page is:  
[http://portal.hud.gov/hudportal/HUD/program\\_offices/public\\_indian\\_housing/reac/online](http://portal.hud.gov/hudportal/HUD/program_offices/public_indian_housing/reac/online)
2. Once logged into IMS-PIC, single click on Viewer under the Form-50058 module. You will need to read and agree to the Privacy Act statement.
3. At the top of the Viewer Search page single click on the Reports tab.
