

**Transition/Stop Loss and Asset Management Fee Funding
for PHAs with One Project**

HUD-52723, Section 3, Part C, Line 2

General Guidance:

This guidance provides direction for completing the HUD-52723 Transition funding (Section 3, Part C, Line 2) where PHAs have one project and are continuing asset management compliance consistent with Transition/Stop Loss guidance in PIH 2006-14, "Transition Funding and Guidance....". A list of PHAs/projects is below as Appendix A, "Transition/Stop Loss funding PHAs with One Project". For the purpose of this guidance, the terms Stop Loss and Transition funding are used interchangeably. PHAs with one project may be eligible for Transition /Stop Loss Funding (HUD-52723, Section 3, Part C, Line 2), but not an Asset Management Fee under certain circumstances. The PHA is eligible as follows:

1. In all circumstances, the PHA was awarded Stop Loss status during the original period for the determinations. FMD maintains a list of these PHAs/Projects and appropriate Transition/Stop Loss PUM amounts.
2. In all circumstances, the PHA has continued compliance with Asset Management requirements under the notices and guidance for PHAs under 250 ACC units.
3. A previously multiple project PHA with Transition/Stop Loss status may continue to receive Transition/Stop Loss funding if now the PHA has one project because of a merger, RAD, or approved demolition/disposition activities. In this case, the PHA's remaining one project will not be eligible for Asset Management fees.
 - a. Note: That a PHA that regroups its remaining projects into one project will not be eligible for an Asset Management Fee or Transition/Stop Loss funding.
 - b. One project PHAs that were not granted Stop Loss status during the original determination period will not be provided Transition/Stop Loss funding regardless of compliance with asset management criteria.

Special Instructions for Completing the HUD-52723 Transition funding line:

1. One project PHAs that believe they are eligible for the Transition funding not calculated in the HUD-52723 (Section 3, Part C, Line 2) should contact their field offices. If the PHA has not already submitted its form, a comment should be included in the HUD-52723.
2. All one project PHAs receiving Transition/Stop Loss funding must add a comment in the "Make comment on: [Section 3C. Line 2]" indicating that the PHA is "eligibility for Transition funding and implementing asset management." These PHAs will not be able to check the Asset Management Certifications and will need to leave Asset Management Certifications unchecked.

3. Field Offices will note in the Comments section of the 52723, “Make comment on: [Section 3C. Line 2] ” indicating that the PHA is “eligibility for Transition funding and implementing asset management.” This indicates that the one project PHA has previously received Stop Loss, and the PHA/Project is on the 2018 list of PHAs with a Transition PUM, and should receive Transition/Stop Loss funding in 2018. (https://www.hud.gov/sites/dfiles/PIH/documents/2018_Pre-pop_data-non-unit_status.pdf)
4. For 2018, for projects with comments as specified in item 2 above FMD will add the Transition/Stop Loss funding amount for these one project PHA with Stop Loss status. The updated HUD-52723 and eligibility will be provided in FMD publication of forms and eligibility. This updated eligibility will be used for funding as soon as possible and practicable.
5. If, after submitting the 52723 with a comment as specified in item 2 above, the Field Office determines that the project should not have received Transition/Stop Loss funding, they must email REAC_OpSub@hud.gov with the subject line “Transition/Stop Loss/funding for (project number)”, including an explanation as to why the Field Office changed the assessment.

Related Background Information:

Asset management and Transition/Stop Loss Funding eligibility are intricately related. Early compliance with asset management requirements was encouraged by providing for a partial hold on eligibility losses between the former and current formula regulation. PHAs with more than one project may receive an asset management fee if they comply with Asset Management requirements. PHAs with one project do not receive asset management fees. Some PHAs with multiple projects currently receive Transitional Funding /Stop Loss. PHAs may regroup or consolidate their units into one project, or become one project PHAs because of demolition/dispositions or RAD. A limited number of PHAs with one project were granted Transitional/Stop Loss funding based on streamlined Asset Management requirements.

The Relationship of Asset Management and Transitional Funding/Stop Loss

Asset Management Requirements

Asset management requirements were detailed in the Operating Fund Program Final Rule. The purpose of asset management was to promote effective and efficient real estate management consistent with broader multi-family property management industry. The basic requirements were that PHAs with 250 units or more were required to perform Asset Management. Congress later modified this requirement in 2008 Appropriation (Title II of Division K of the Consolidated Appropriations Act, 2008, P.L. 110-161). The modification allowed PHAs with 400 or fewer units to elect to be exempt from asset management requirements. Relevant to the current eligibility is that the Appropriation language said, “Provided, That an agency seeking a discontinuance of

a reduction of subsidy under the operating fund formula shall not be exempt from asset management requirements.”

Asset management requirements detailed in Subpart H Asset Management 24 CFR 990.255 through 24 CFR 990. 290 included implementation of:

- Project-based Management
- Project-based Budgeting
- Project-based Accounting
- Project-based Assessments
- Note: One project PHAs that met asset management requirements were not required to have a COCC. These PHAs should be continuing implementation under the original criteria for Stop Loss approval.

Asset Management and Asset Management Fees and One Project

The eligibility practice for eligibility and funding has been that PHAs with one project have not been eligible for an asset management fee. This practice was based on 24 CFR 990.260(b) which states:

(b) PHAs that own and operate fewer than 250 dwelling rental units may treat their entire portfolio as a single project. However, if a PHA selects this option, it will not receive the add-on for the asset management fee described in § 990.190(f).

A further reading of 24 CFR 990 supporting and explaining asset management in 990.270 Asset Management through 990.290 infers that asset management was primarily intended to cover PHAs with multiple projects.

Under 990.190 Other formula expenses (add-ons), PHAs with one project were ineligible for an asset management fee.

(f) *Asset management fee.* Each PHA with at least 250 units shall receive a \$4 PUM asset management fee. PHAs with fewer than 250 units that elect to transition to asset management shall receive an asset management fee of \$2 PUM. **PHAs with fewer than 250 units that elect to have their entire portfolio treated and considered as a single project as described in § 990.260(b) or**

PHAs with only one project will not be eligible for an asset management fee. For all PHAs eligible to receive the asset management fee, the fee will be based on the total number of ACC units. PHAs that are not in compliance with asset management as described in subpart H of this part by FY 2011 will forfeit this fee.

Transition/Stop Loss Eligibility, Asset Management, and One Project:

In 2006, PIH, FMD published a notice providing guidance on the implementation of Transition and Stop Loss entitled, "2006-14, Operating Fund Program Final Rule: Transition Funding and Guidance on Demonstration of Successful Conversion to Asset Management to Discontinue the Reduction of Operating Subsidy."

The notice provided that under certain circumstances PHA may be eligible for Transition/Stop Loss funding.

"Although § 990.260(b) permits PHAs that have less than 250 units to combine all developments into one project, if these PHAs want to apply for stop-loss they must group their projects in accordance with the criteria under item 4, Guidelines for Determining Projects, in PIH Notice 2006-10, Identification of Projects for Asset Management. For example, if a PHA has only two 100-unit buildings at different ends of town, in order to qualify for stop loss the PHA would have to group the two buildings as at least two projects. **Combining the two buildings into one project as permitted under § 990.260(b) would preclude qualification for stop loss. However, a PHA that has only one 200-unit building may qualify for stop-loss with a single project because the PHA has no alternative but to operate as one project.**"

This guidance permitted the Stop Loss eligibility for PHAs with one project under the particular circumstances referenced above. To the extent that HUD made a determination that a PHA with only one project was eligible for Stop Loss, the project appears on the 2018 list of PHAs/projects with a Transition PUM.

(https://www.hud.gov/sites/dfiles/PIH/documents/2018_Pre-pop_data-non-unit_status.pdf).

Stop Loss and Continuing Eligibility:

It was intended that the conversion to asset management be permanent. The guidance provided that to receive Stop Loss in future years that implementation of asset management would be perpetual. PIH 2006-14 provided that:

“6. Continued Eligibility PHAs must maintain their compliance with the asset management requirements of the Operating Fund Program final rule to continue to have their losses stopped. **Any PHA found not to be in on-going compliance with these and future requirements will have its subsidy returned to pre-stop loss levels the next calendar year.** The way in which any such adjustments are to be made will be covered in future guidance.”
