

QUICK REFERENCE GUIDE:

Activity Planning — Document Management Center

Purpose of Document Management Center:

Beginning with federal Fiscal Year 2021 (FFY21) Capital Fund Program (CFP) Awards require an *Initial Package* for access to these funds in the Line of Credit Control System (LOCCS). As of EPIC Release 6.0 (March 2021), Public Housing Agencies (PHAs) should initiate (create) an *Initial Package* in the Document Management Center for Field Office review.

After a *Package* is submitted it is either Accepted or Rejected by the Field Office Director or designee. EPIC will not customize the list of required documents for each PHA and/or Grant type. Moreover, EPIC will not check to ensure that PHAs have uploaded specific documents. PHAs and Field Offices will be responsible for making sure required documents have been uploaded in accordance with published guidance. An “Accepted” *Initial Package* is required to create an Annual Statement/Budget for any Award obligated after February 1, 2021.

Each *Package* relates to a specific Award (Grant). While, each Award may eventually have more than one *Package* to track the lifecycle of the Award, only one package type, *Initial Package*, will be available in the initial Release.

Definition of Terms:

- Document Management Center – Feature in EPIC, under Activity Planning for PHA submission of “Packages” relating to compliance and monitoring of a Capital Fund Award.
- Package – Folder of documents uploaded and/or submitted by the PHA to HUD. PHAs create and submit an “Initial Package” that contains their Annual Contributions Contract (ACC) Amendments for their FY 2021 Capital Fund Awards.

Package Acceptance/Rejection:

Field Offices will review PHA submissions and either Accept or Reject each *Package*. If the *Package* is accepted the status will change and the PHA will be able to proceed to the next step of creating an Annual Statement/Budget. If the *Package* is rejected the *Package* will be set back to Draft and the PHA can edit the *Package* to correct the deficiencies noted by the Field Office. EPIC will not allow a PHA to create an Annual Statement/Budget or Assign it to an Award without an Accepted *Package*. The following is a screen shot of the error a PHA will get:

The screenshot shows a web application interface for creating a new annual statement/budget. At the top, there are two tabs: "Select Award Year and Award" and "Select Work Activities". Below the tabs is a red error banner with the following text:
