HUD’s Office of Native American Programs (ONAP) administers housing and community development programs that benefit American Indian and Alaska Native Tribal governments, Tribal members, the Department of Hawaiian Home Lands, Native Hawaiians, and other Native American organizations. For more information about ONAP funding and programs, visit the CodeTalk website.

Join the EWONAP Newsletter Listserv to receive the HUD Eastern Woodlands ONAP Information Bulletins with news and events related to Indian Country, HUD ONAP, Eastern Woodlands Regional Tribes, Funding Opportunities, and Training.

The Eastern Woodlands Office (EWONAP) serves 66 Tribes within 16 states and 6 HUD regions. EWONAP administers over $90 million in IHBG funds, over $60 million in Section 184 Native American Home Mortgages, and approximately $5 million in ICDBG funds in its region annually.

Greetings!

At this point every Grantee should have access to their grant allocation in LOCCS. This is because the Grant Agreements went out a month ago and should have been signed and returned to EWONAP by now. If that is not the case, please make sure you follow up on getting the Grant Agreement signed and returned so you may have access to your allocation. If you are having trouble accessing your eLOCCS account do not hesitate to call your GM representative who can talk you through regaining access. This can happen for a variety of reasons such as the Accountant who is assigned the task quit or was let go and no one else was authorized to draw down your funds or a prior elected official was not re-elected. Remember the purpose of the Grant is to assist and house Tribal members who otherwise would struggle to gain

(Continued on page 2)
housing. If this is your situation you should address it promptly. In addition, ONAP’s two busiest times for reviewing Indian Housing Plans [IHP] begins July 18 (just past) and on October 18th, both 75 days prior to the beginning of the program fiscal year of October 1 and January 1. By statute and regulation, ONAP has 60 days to review and get back to you about any issues you may have about your IHP. That means that you should either have just finished your IHP or are in the midst of finalizing it. In this fiscal year 2019, all tribes/TDHEs are required to use the new EPIC system to file their IHP. Please call your assigned Grants Management Specialist if you are having problems accessing HUD’s EPIC system so that it can be addressed well before the due date.

Regularly, this column is where issues are addressed that come up in either IHP or Monitoring Reviews. One issue that has cropped up a number of times is the proper use of tribal preference. Tribal preference under NAHASDA is permitted because the statute was designed to specifically assist low income Indian families. See 24 CFR section 1000.104. This preference allows the Grant recipient to provide assistance to their own Tribal members before assisting other eligible Tribal members from other tribes. In reviewing tribal policies in the IHP in EPIC, under tab 6, subsection “3. Tribal and other Indian Preference,” some tribes continue to list as eligible for housing assistance, descendants of Tribal members. What NAHASDA clarifies is that housing preference only goes to Indian families one of which must be a member of a federally recognized tribe (or one of the five state recognized tribes grandfathered into NAHASDA) and to Tribally defined “Essential Families.” Therefore, though a descendent may be closely related to an Indian family, if they themselves are not a member of a Federally recognized Tribe, they would not eligible by themselves, unless they were deemed part of an essential family or live with a member of a Federally recognized tribe.

In order to be an “essential family,” the TDHE or Tribal Department must determine that the housing needs of the particular family cannot be reasonably be met without such assistance and that the presence of the family is essential to the well being of Indian Families. 24 CFR section 1000.104(c). In remote Indian areas there is often a shortage of housing for everyone, including professionals who are not low income, as well as, tribal members. Such persons must provide an essential service to tribal members, such as a doctor, nurse, dentist, pharmacist or other professional, who would otherwise have to commute too far a distance to make it practical for them to serve Indian families. This must be documented in the tenant file and what constitutes an essential family should be defined in the Tribe/TDHE’s policies. Moreover, if the family is over income pursuant to 24 CFR Section 1000.104(b), they could be charged rent in accordance with the formula in 24 CFR Section 1000.110.

NAHASDA also provides one other exception that tenants be members of a federally recognized tribe, which is the law enforcement exception. This exception allows the TDHE or Tribal Housing Department to provide housing to a Law Enforcement Officer who works full time in law enforcement and is sworn to uphold Federal, state, country or tribal law, and make arrests for violation of the same with the expectation that their presence may deter crime.

Lastly, a word about when the NOFA for the Indian Community Development Block Grant [ICDBG] is coming out. First, there is no definitive answer. That is because it depends on when OMB releases the NOFA for publication in the Federal Register and that is not presently known and could be at any time but most likely will be in September. After publication, there is usually a 75-day period for grantees to consider if they will apply, the due date in Grants.gov, followed by a period of evaluation by local ONAP offices. Of course, ONAP cannot announce the successful applicants until all six ONAP Offices complete the rating and ranking of ICDBG applications. As always, there will be a pre-application review of the NOFA open to all eligible tribes/TDHEs held here in ONAP’s Chicago offices. Every year the NOFA has subtle changes which necessitates paying close attention to what areas to emphasize in the application. These are highly competitive applications with the successful applicants usually scoring in the high 80’s to low 90’s.

Best of Luck!

Mark Butterfield, EWONAP Administrator
THE EWONAP TEAM IS ON THE MOVE!

As most of you know, it’s Monitoring Review season and EWONAP team members are headed out to visit various tribes this month. We are excited to learn more about your work and looking forward to hearing about your successes and challenges. The EWONAP Team is here to support you in building successful communities. **We want to positively engage with you!**

**SOKAOGN CHIPPEWA/MOLE LAKE RESERVATION, JULY 23 - 27, 2018**

In the early autumn when the leaves begin to change color, the members of the Sokaogon Chippewa Community make their way to Rice Lake, one of the last remaining ancient wild rice beds in the state of Wisconsin. The annual harvest of wild rice, an essential part of the Native American diet, has altered very little in the hundreds of years that the Sokaogon have lived here.

Family clans migrated from eastern Canada to Madeline Island a thousand years ago, led by a vision that their journey would end in a land where the “food grows on water” - Manoomin or wild rice. The Sokaogon Chippewa Community’s journey ended in that area of abundant wild rice. Today there stands a marker on Highway 55 in Mole Lake to mark the battleground where more than 500 warriors were slain in fierce hand-to-hand battle.

Sokaogon means "Post in the Lake" people, because of a spiritual significance of a post, possibly the remains of a petrified tree, that stood in Post Lake nearby.

The Sokaogon (Mole Lake) Chippewa Community enjoys three beautiful lakes either on or adjacent to the small reservation: Mole Lake, Bishop Lake and Rice Lake, which lies at the headwaters of the Wolf River. A restored 1800s Log Cabin, the Dineson House, can be viewed from the community walking trail. Visitors can request a tour of the cabin, which is also listed on the National Register of Historic Places.

The Mole Lake Casino Lodge is located seven miles south of Crandon on Highway 55, 30 miles east of Rhinelander. The Mole Lake area boasts hundreds of miles of snowmobile trails, hiking and mountain biking trails, ATV/UTV trails, and cross-country ski trails. There are over 800 lakes, 82 trout streams and 400,000 acres of public wilderness land teeming with wildlife in the vicinity. If you are looking for bald eagles, they are

An additional 49 questions with answers from the June 20, 2018 webinar, U.S. Department of Housing and Urban Development (HUD) Healthy Homes Production Grant Program for Tribal Housing—Review of the Scope of Work and Question & Answer Session are now available. Webinar transcript and audio recording (incl. additional Q&A), HUD NOFA presentation & NOFA table of contents are available at www.epa.gov/indoor-air-quality-iaq/hud-nofa-tribal-healthy-housing.

ENTERPRISE COMMUNITY BLOG POST
In a recent blog post, Enterprise Community Partners’ Director of Rural and Native American Initiative Russell Kaney notes that over the next year, Enterprise will be undertaking initiatives that aim to improve access to tribal homeownership through new tools and resources. Kaney points out that at the heart of this support is a just-released guide, Tribal Leaders Handbook on Homeownership, and a series of upcoming trainings with tribal communities across the country to help them improve housing conditions and access the benefits that follow. Over the next two years, thanks to generous support from Freddie Mac and the Wells Fargo Housing Foundation, Enterprise will develop and implement a Native American Learning Communities curriculum, provide training and technical assistance to Tribal Housing Authorities and tribally-designated housing entities, and monitor and share updates on federal policy as it relates to providing access to loans for Native American populations. Learn more about Enterprise’s efforts to open the doors to homeownership on tribal lands in Enterprise’s blog post.

CENSUS BUREAU’S AMERICAN COMMUNITY SURVEY
Using data collected from the Census Bureau’s American Community Survey and Home Mortgage Disclosure Act, the Reservation Profiles Database explores key demographic, economic, and homeownership indicators for American Indian reservations (with at least 2,500 residents). For more information about the data underlying the tables and figures in each profile, see About the Data. Comments about this page are welcome at cicd@mpls.frb.org.

PLEASE SAVE THE DATE!
Planning is underway for a ONAP’s National Native Asset Building Summit taking place September 11-12, 2018 in Denver, CO. The Summit will highlight: Community Development Financial Institutions (CDFIs), financial education tools, credit counseling, tribal trust land loans, and more.
The Substance Abuse & Mental Health Services Administration recently announced a new funding opportunity through its Tribal Opioid Response Grant Program

**About this Grant:** The program aims to address the opioid crisis in tribal communities by increasing access to culturally appropriate and evidence-based treatment, including medication-assisted treatment (MAT) using one of the three FDA-approved medications for the treatment of opioid use disorder (OUD). The intent is to reduce unmet treatment need and opioid overdose related deaths through the provision of prevention, treatment and/or recovery activities for OUD. The program supplements current activities focused on reducing the impact of opioids and will contribute to a comprehensive response to the opioid epidemic. Tribes will use the results of a current needs assessment if available to the tribe (or carry out a strategic planning process to conduct needs and capacity assessments) to identify gaps and resources from which to build prevention, treatment and/or community-based recovery support services. Grantees will be required to describe how they will expand access to treatment and recovery support services as well as advance substance misuse prevention in coordination with other federally-supported efforts. Grantees must use funding to supplement and not supplant existing opioid prevention, treatment, and/or recovery activities. Grantees are required to describe how they will improve retention in care, using a chronic care model or other innovative model that has been shown to improve retention in care. [Click Here](#) for additional information.

COUNCIL ON ENVIRONMENTAL QUALITY
The Council on Environmental Quality (CEQ) has issued an Advance Notice of Proposed Rulemaking (ANPRM) titled “Update to the Regulations for Implementing the Procedural Provisions of the National Environmental Policy Act.” The notice was published in the Federal Register and is now open for public comment. The official Federal Register version is attached and available here: https://www.federalregister.gov/documents/2018/06/20/2018-13246/update-to-the-regulations-for-implementing-the-procedural-provisions-of-the-national-environmental. The ANPRM asks a series of 20 questions on the NEPA process, the scope of NEPA review, and other areas of interest related to NEPA. CEQ requests comment on potential revisions to update and clarify its NEPA regulations.

EPIC REQUIREMENTS
HUD’s Indian Housing Block Grant recipients are required to use EPIC, which is the internet-based application system that all Tribes and TDHEs will use to file their Indian Housing Plan [IHP] and Annual Performance Reports [APR] beginning immediately. SWONAP is conducting free training to support the required use of Energy Performance and Information Center (EPIC) for completing and submitting IHPs/APRs, IHP Amendments, IHP Waivers, and Tribal Certifications. Secure System User IDs and passwords are required to log into EPIC. Below are links to helpful instructional materials to assist with the transition to EPIC:

The Section 184 Indian Home Loan Guarantee Program is a home mortgage specifically designed for American Indian and Alaska Native families, Alaska Villages, Tribes, or Tribally Designated Housing Entities. Section 184 loans can be used both on and off native lands for new construction, rehab, the purchase of an existing home, or for refinancing.

Section 184 is synonymous with home ownership in Indian Country. As of March 2016, the Section 184 program has guaranteed over 33,728 loans, which represents over $5.4 billion dollars in guaranteed funds.

Within the Eastern Woodlands region, over 3,938 loans have been made bringing $565 million in private capital directly to Tribal Members. Tribes and TDHEs can also use Section 184 loans to achieve their housing development goals. Some benefits include:

- Low residential mortgage interest rates
- Lower monthly fees than standard PMI
- One time loan guarantee fee (1.5%)
- May utilize up to 15% of loan funds for site infrastructure costs
- Low down payment
- No household income restrictions
- Buy, Rehab, Refi or Build
- Finance up to 20 units at a time.

HUD ONAP Title VI Loan Guarantee Program. Title VI loans enable Indian Housing Block Grant recipients to leverage up to 5 times their IHBG ‘Need’ funding to finance affordable housing development by pledging future IHBG grant funds as security for repayment of the loan. A private lender provides the financing and HUD provides the guarantee to the lender. To visit the Title VI website, click here. ONAP’s Office of Loan Guarantee has advised that Title VI loans are limited this fiscal year, so the first funded loans will go to applicants whose loan package is the most complete first.
