1. Welcome to the Case Binder Module

_FHA Catalyst:_ Case Binder Module is a web-based secure medium that supports digital delivery of origination documents by the Mortgagees to the Federal Housing Administration (FHA). As part of the Housing Information Technology (IT) Modernization effort, the Case Binder Module will replace the receipt of paper loan origination case binders with an electronic format. FHA Approved Mortgagees can submit single family forward and Home Equity Conversion Mortgage (HECM) loan origination case binder documents electronically for FHA endorsement. Test Case Lenders can also submit Test Cases electronically through this platform, thereby eliminating physical shipment of paper case binder. Mortgagees can submit Notice of Return (NOR) Resubmission documents electronically by uploading into _FHA Catalyst_ – Case Binder module.

This document has been developed to provide Mortgagees with guidance on how to upload different categories of loan documents using the Case Binder Module. Please refer to the Single Family Housing Policy Handbook 4000.1 for case binder stacking order, in-depth information on FHA policy, event definitions, reporting timeframes, data elements, and post-audit requirements.

1.1 Navigating the Case Binder Module User Guide

The table of contents for this guide is both searchable and linked. Selecting any of the chapter titles or subheadings will take users directly to the associated section. Users can navigate back to the table of contents by scrolling back to the start of the guide or using the return to table of contents links at the end of each section.

This guide features step-by-step instructions. Numbered lists, bullets, and screenshots are used to give the step-by-step instructions for completing tasks in _FHA Catalyst._

**Step-by-Step Instructions**

1. Instructions describing how to complete tasks appear in lists.
2. Words that point to links or boxes that the user needs to select will appear in bold.
3. These instructions will describe how to complete processes using screenshots.
4. The screenshot may also include boxes, lines, and labels that show which part of the page is important.

2. Getting Started

This section defines the basic functionalities of Salesforce as well as specific terminology to help Mortgagees (HUD’s external users) navigate the system. This section describes how Mortgagees upload electronic case binders in the _FHA Catalyst:_ Case Binder Module.
