Program Office:
Lead Hazard Control and Healthy Homes

Funding Opportunity Title:
Lead Hazard Reduction Grant Program

Funding Opportunity Number:
FR-6500-N-13

Primary CFDA Number:
14.905

Due Date for Applications:
07/12/2021

Overview
The U.S. Department of Housing and Urban Development (HUD) issues this Notice of Funding Opportunity (NOFO) to invite applications from eligible applicants for the program and purpose described within this NOFO. Prospective applicants should carefully read all instructions in all sections to avoid sending an incomplete or ineligible application. HUD funding is highly competitive. Failure to respond accurately to any submission requirement could result in an incomplete or noncompetitive proposal.

During the selection process HUD is prohibited from disclosing 1) information regarding any applicant’s relative standing, 2) the amount of assistance requested by an applicant, and 3) any information contained in the application. Prior to the application deadline, HUD may not disclose the identity of any applicant or the number of applicants that have applied for assistance.

For Further Information Regarding this NOFO: Please direct questions regarding the specific requirements of this Notice of Funding Opportunity (NOFO) to the office contact identified in Section VII.

Paperwork Reduction Act Statement. The information collection requirements in this notice have been approved by OMB under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520). In accordance with the Paperwork Reduction Act, HUD may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection displays a valid OMB control number. Each NOFO will identify its applicable OMB control number unless its collection of information is excluded from these requirements under 5 CFR part 1320.

OMB Approval Number(s):
2539-0015

I. FUNDING OPPORTUNITY DESCRIPTION.
A. Program Description.

1. Purpose
The purpose of the Lead-Based Paint Hazard Reduction (LHR) grant program is to maximize the number of children under the age of six protected from lead poisoning by assisting states, cities, counties/parishes, Native American Tribes or other units of local government in undertaking comprehensive programs to identify and control lead-based paint hazards in eligible privately-
owned rental or owner-occupied housing populations. In addition, there are Healthy Homes Supplemental funding available that is intended to enhance the lead based paint hazard control activities by comprehensively identifying and addressing other housing hazards that affect occupant health. Program funds will be awarded to applicants to accomplish the following objectives:

a. (Targeted Units) Target lead hazard control efforts in housing units where children less than six (6) years of age are at greatest risk of lead poisoning (pre-1960, and, especially, pre-1940 construction), which has historically included children in low-income and minority neighborhoods, to reduce the likelihood of elevated blood lead levels in these children.

b. (Cost Effectiveness) Utilize cost-effective lead hazard control methods and approaches that ensures the long-term safety of the building occupants.

c. (Capacity) Build local capacity of trained and certified individuals and firms to address lead hazards safely and effectively during lead hazard control, and renovation, remodeling, and maintenance activities. Another core element for capacity includes the development of comprehensive, community-based approaches to integrating this grant program within other local initiatives through public and private partnerships that address housing related health and safety hazards and/or serve low income families with children under the age of six (6).

d. (Affirmative Marketing) Establish and implement a detailed process of monitoring and ensuring that units made lead-safe are affirmatively marketed, and priority given, to families with children under age 6 years for not less than three years.

e. (Data Collection) Gather pre- and post-treatment data that supports and validates lead hazard control investments. Program data collected should support the evaluation of grant program activities and outcomes.

f. (Targeted Outreach and Education) Conducting targeted outreach, affirmative marketing, education or outreach programs on lead hazard control and lead poisoning prevention designed to increase the ability of the applicant to deliver the specified lead hazard control services through this program; including educating owners of eligible rental properties, tenants, and others on the benefits and expectations of participating in this program provided by Title X of the Residential Lead-Based Paint Hazard Reduction Act.

2. Changes from Previous NOFO.
Modification to previous posting are as follows

Website link corrected from FY20 to FY21 https://www.hud.gov/program_offices/spm/gmomgmt/grantsinfo/fundingopps/fy21_lhrgp

Additional modifications corrected the Appendices link.
• If you received Lead Hazard Reduction grant funding in 2019 or 2020, you are not eligible to apply under this program.

• For the benefit of all applicants, weblinks to helpful resources are provided throughout this NOFO and its appendices. Applicants are encouraged to use to these resources.

• A Sample Budget Narrative is provided.

• There is no longer a High Impact Neighborhoods category.

• If you receive the Healthy Homes Supplemental funds you are required to perform radon testing and mitigation if the radon level is at or above the EPA action level of 4 picocuries per liter of air (4 pCi/L).

• Rating Factor 1 decreased from 45 to 40 and Rating Factor 3 increased from 25 to 30.

3. Definitions.

a. Standard Definitions

Affirmatively Furthering Fair Housing (AFFH). Affirmatively Furthering Fair Housing (AFFH) means taking meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics. Specifically, affirmatively furthering fair housing means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity, replacing segregated living patterns with truly integrated and balanced living patterns, transforming racially and ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws. The duty to affirmatively further fair housing extends to all of a program participant’s activities and programs relating to housing and urban development.

Assistance Listings means a unique number assigned to identify a Federal Assistance Listing, formerly known as the CFDA Number.

Federal Financial Assistance means assistance that entities received or administer in the form of:

1) Grant;

2. Cooperative agreements (which does not include a cooperative research and development agreement pursuant to the Federal Technology Transfer Act of 1986, as amended (15 U.S.C. 3710a));

3. Loans;

4. Loan guarantees;

5. Subsidies;

6. Insurance;

7. Food commodities;

8. Direct appropriations;

9. Assessed or voluntary contributions; or

10. Any other financial assistance transaction that authorizes the non-Federal entity's expenditure of Federal funds.

b. Federal Financial Assistance does not include:
1. Technical assistance, which provides services in lieu of money; and
2. A transfer of title to federally owned property provided in lieu of money, even if the award is called a grant.

**Authorized Organization Representative (AOR)** is the person authorized to submit applications on behalf of the organization via [Grants.gov](https://Grants.gov). The AOR is authorized by the E-Biz point of contact in the System for Award Management. The AOR is listed in item 21 on the SF-424.

**Consolidated Plan** is a document developed by states and local jurisdictions. This plan is completed by engaging in a participatory process to assess their affordable housing and community development needs and market conditions, and to make data-driven, place-based investment decisions with funding from formula grant programs. (See 24 CFR part 91 HUD’s requirements regarding the Consolidated Plan and related Action Plan).

**Contract** means, for the purpose of Federal financial assistance, a legal instrument by which a recipient or subrecipient purchases property or services needed to carry out the project or program under a Federal award. For additional information on contractor and subrecipient determinations see 2 CFR 200.331.

**Contractor** means an entity that receives a contract as defined in 2 CFR 200.1.

**Deficiency** is information missing or omitted within a submitted application. Examples of deficiencies include missing documents, information on a form, or some other type of unsatisfied information requirement (e.g., an unsigned form, unchecked box.). Depending on specific criteria, deficiencies may be either curable or non-curable.

- **Curable Deficiencies** may be corrected by the applicant with timely action. To be curable the deficiency must:
  - Not be a threshold requirement, except for documentation of applicant eligibility;
  - Not influence how an applicant is ranked or scored versus other applicants; and
  - Be remedied within the time frame specified in the notice of deficiency.

- **Non-Curable Deficiencies** cannot be corrected by an applicant after the submission deadline. Non-curable deficiencies are deficiencies that, if corrected, would change an applicant’s score or rank versus other applicants. Non-curable deficiencies may result in an application being marked ineligible, or otherwise adversely affect an application’s score and final determination.

**DUNS Number** is the nine-digit Dun and Bradstreet Data Universal Number System identification number assigned to a business or organization by Dun & Bradstreet and provides a means of identifying business entities on a location-specific basis. OMB removed duplicate recipients based on recipient Data Universal Number System (DUNS) numbers, from Dun & Bradstreet (D&B). At this time all Federal financial assistance recipients are required to register for DUNS numbers.

**E-Business Point of Contact (E-Biz POC)** A user registered as an organization applicant who is responsible for the administration and management of grant activities for his or her organization.
The E-Biz POC is likely to be an organization's chief financial officer or authorizing official. The E-Biz POC authorizes representatives of their organization to apply on behalf of the organization (see Standard AOR and Expanded AOR). There can only be one E-Biz POC per DUNS Number.

**Eligibility requirements** are mandatory requirements for an application to be eligible for funding.

**Federal award**, has the meaning, depending on the context, in either paragraph (1) or (2) of this definition:

1. (i) The Federal financial assistance that a recipient receives directly from a Federal awarding agency or a subrecipient receives indirectly from a pass-through entity, as described in 2 CFR §200.101; or

   ii. The cost-reimbursement contract under the Federal Acquisition Regulations that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in 2 CFR §200.101.

2. The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (2) of the definitions of Federal financial assistance in 2 CFR §200.1, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.

3. Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal Government owned, contractor operated facilities (GOCOs).

4. See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

**Grants.gov** is the website serving as the Federal government’s central portal for searching and applying for Federal financial assistance throughout the Federal government. Registration on Grants.gov is required for submission of applications to prospective agencies unless otherwise specified in this NOFO.

**Non-Federal Entity (NFE)** means a state, local government, Indian tribe, Institution of Higher Education (IHE), or non-profit organization that carries out a Federal award as a recipient or subrecipient.

**Opportunity Zone (OZs)** are defined in 26 U.S.C. 1400Z-1. In general, OZs are census tracts located in low-income communities where new investments, under certain conditions, may be eligible for preferential tax treatment.

**Point of Contact (POC)** is the person who may be contacted with questions about the application submitted by the AOR. The POC is listed in item 8F on the SF-424.

**Promise Zones (PZs)** are high poverty communities where the federal government partners with local leaders to increase economic activity, improve educational opportunities, leverage private investment, reduce violent crime, enhance public health and address other priorities identified by the community.

**Recipient** means an entity, usually but not limited to non-Federal entities, that receives a Federal award directly from HUD. The term recipient does not include subrecipients or individuals that are beneficiaries of the award.
Small business is defined as a privately-owned corporation, partnership, or sole proprietorship that has fewer employees and less annual revenue than a corporation or regular-sized business. The definition of "small"—in terms of being able to apply for government support and qualify for preferential tax policy—varies by country and industry. The U.S. Small Business Administration defines a small business according to a set of standards based on specific industries. (e-CFR Title 13-Chapter I – Part 121)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that pass-through entity considers a contract.

Subrecipient means an entity, usually but not limited to non-Federal entities, that receives a subaward from a pass-through entity to carry out part of a Federal award but does not include an individual that is a beneficiary of such award. A subrecipient may also be a recipient of other Federal awards directly for a Federal awarding agency.

System for Award Management (SAM) means the Federal Repository into which an entity must provide information required for the conduct of business as a recipient. Registration with SAM is required for submission of applications via Grants.gov. You can access the website at https://www.sam.gov/SAM/. There is no cost to use SAM.

Threshold Requirements are an eligibility requirement that must be met for an application to be reviewed. Threshold requirements are not curable, except for documentation of applicant eligibility and are listed in Section III.D Threshold Eligibility Requirements. Similarly, there are eligibility requirements under Section III.E, Statutory and Regulatory Requirements Affecting Eligibility.

Unique Entity Identifier means the identifier required for SAM registration to uniquely identify business entities.

4. Program Definitions

Program definitions for this NOFO are provided in Appendix E.

B. Authority.

The Lead-Based-Paint Hazard Reduction (LHR) Grant Program is authorized by Section 1011 of the Residential Lead-Based Paint Hazard Reduction Act of 1992 (Title X of the Housing and Community Development Act of 1992, 42 U.S.C. 4852) and funding is provided by The Consolidated Appropriations Act, 2021, approved December 27, 2020 (Public Law 116-260) and the Further Consolidated Appropriations Act, 2020, approved December 20, 2019 (Public Law 116-94).

The Healthy Homes Supplemental funding is intended to enhance the lead-based paint hazard control activities by comprehensively identifying and addressing other housing hazards that affect occupant health. The Healthy Homes Supplemental funding is authorized under Section 502 of the Housing and Urban Development Act of 1970 (12 U.S.C. 1701z-2) and funding is provided by The Consolidated Appropriations Act, 2021, approved December 27, 2020 (Public Law 116-94).
Law 116-260), and the Further Consolidated Appropriations Act, 2020, approved December 20, 2019 (Public Law 116-94).

II. Award Information.

A. Available Funds

Funding of approximately $356,841,000 is available through this NOFO. Additional funds may become available for award under this NOFO, because of HUD’s efforts to recapture funds, use carryover funds, or because of the availability of additional appropriated funds. Use of these funds is subject to statutory constraints. All awards are subject to the funding restrictions contained in this NOFO.

Approximately $45,000,000 of the amount above is available for the Healthy Homes Supplemental funding and is available only to applicants who are awarded a LHR grant and only for work in homes for which lead hazard control work is being done under the grant.

C. Number of Awards.

HUD expects to make approximately 80 awards from the funds available under this NOFO.

For information on the methodology used to make award determinations under this NOFO, please see Section V.B Review and Selection Process below.

Funding will be set aside for applicants that have never received an award under the Lead Hazard Reduction grant program. If there are an insufficient number of eligible applicants to use this set-aside, the funding will be made available to other eligible grant applicants. If there are more eligible applicants for this set-aside than can be funded using the set aside, the highest rated applicants will be awarded a grant under this set aside, and the remaining eligible applicants will be evaluated along with the remaining group of eligible applicants.

E. Minimum/Maximum Award Information

For the purposes of application under this NOFO; you should consider the minimum and maximum funding amounts below as you develop your program approach and budget for consideration.

The following is a breakdown of estimated total funding available for Lead-Based Paint Hazard Reduction:

- Highest Lead-Based Paint Abatement Needs: approximately $97,100,000.00
- Other Jurisdictions: approximately $214,741,000.00
- Healthy Homes Supplemental funding: approximately $45,000,000.00

Total $356,841,000.00

1. The minimum award for any applicant to request under this NOFO is $1,000,000. The maximum award amounts for the Lead-Based Paint Hazard Reduction grant program will be divided into the following categories:

2. Areas with the Highest Lead-Based Paint Abatement needs with at least 3,500 pre-1940 occupied rental housing units = minimum award of $1,000,000; maximum award of $5,000,000.

3. Other Jurisdictions = minimum award of $1,000,000; maximum award of $4,000,000.
4. Jurisdictions that have never received an LBPHC or LHRD grant or whose grant period of performance ended two (2) or more years ago = minimum award of $1,000,000; maximum award of $3,000,000.

**Healthy Homes Funding**
The maximum award amount for the Healthy Homes Supplemental funding will be divided into the following categories:

1. **Highest Lead-Based Paint Abatement Needs**
jurisdictions, and other jurisdictions (but see below) = $700,000
2. **Jurisdictions that have never received an LBPHC or LHRD grant or whose grant period of performance ended two (2) or more years ago** = $400,000

Please Note: As described in section III.C.3.a, below, in the event you request an amount over the maximum award, on line 18a of the SF-424, the application will not pass threshold and will not be reviewed.

**Estimated Total Funding:**
$356,841,000

**Minimum Award Amount:**
$1,000,000

**Per Project Period**

**Maximum Award Amount:**
$5,000,000

**Per Project Period**

**D. Period of Performance**

**Estimated Project Start Date:**
08/30/2021

**Estimated Project End Date:**
03/03/2025

**Length of Project Periods:**
42-month project period and budget period

**Length of Periods Explanation of Other:**
N/A

**F. Type of Funding Instrument.**

**Funding Instrument Type:**
G (Grant)

**H. Supplementation**

HUD is providing grantees with an option to request Healthy Homes Supplemental funding. The Healthy Homes Supplemental funding request is an additional amount distinct from the requested federal lead hazard control grant award amount for this program and must be treated as such. A separate SF 424 must be filled out and attached to the grant application package in the grants.gov system to receive these funds in addition to the required narrative and budget documents as detailed in the rating factors below.
The Healthy Homes Supplemental request must also be clearly indicated in your abstract. It is your responsibility to include the additional SF 424 requesting the Healthy Homes Supplement amount as a separate additional award and to clearly define in the abstract and the narrative submitted the exact dollar amount requested for both the Lead Based Paint Hazard Reduction Grant award and any total amount of Healthy Homes Supplement requested to ensure that the breakdown of the total request is accurately reflected on any such awarded application. Please Note: As described in section III.C.3.a, below, in the event you request an amount over the maximum award, on line 18a of the SF 424, the application will not pass threshold and will not be reviewed.

### III. Eligibility Information.

#### A. Eligible Applicants.

- 00 (State governments)
- 01 (County governments)
- 02 (City or township governments)
- 04 (Special district governments)
- 07 (Native American tribal governments (Federally recognized))
- 25 (Others (see text field entitled "Additional Information on Eligibility" for clarification))

**Additional Information on Eligibility**

Only cities, counties/parishes, and other units of local government, and certain States and Native American Tribes (those that have an EPA-authorized lead abatement certification program on the submission deadline) are eligible applicants. Multiple entities may apply as a consortium, including nonprofit co-applicants, provided an eligible entity is the principal (lead) applicant responsible for ensuring compliance with NOFO requirements, and each entity must meet the Resolution of Civil Rights Matters threshold requirement.

If your department or agency does not report directly or through a direct chain of command to your jurisdiction’s chief executive officer (governor, county executive, mayor, etc.), you must identify the specific statute(s) (e.g., 1 MyState Revised Code 2345) establishing it as a part of the government, and either attach the relevant wording, or include the specific freely accessible web address(es) in the application.

An applicant with at least 3,500 pre-1940 occupied rental housing units (either alone or through a consortium) may apply under the Highest Lead-Based Paint Abatement Needs grants category for up to $5,000,000.

An applicant that would be a first-time grantee or whose previous lead hazard control grant ended two (2) or more years before the deadline may request up to $3,000,000. An applicant whose previous grant ended less than two (2) years ago may request up to $4,000,000 (Other Jurisdictions). An applicant requesting funding under the Highest Lead-Based Paint Abatement Needs category that does not meet the applicable criteria will be put into the general applicant’s pool and the requested amount lowered to the maximum for the category under which they are...
assigned, i.e., $3,000,000 or $4,000,000, as above, if the requested funding exceeded the applicable maximum.

**B. Ineligible Applicants.**

The following are not eligible entities for this competition and applications will not be reviewed:

1. Individuals.
2. 2019 and 2020 Lead Hazard Reduction grant awardees.
3. Foreign entities.
4. Sole proprietorship organizations.

**C. Cost Sharing or Matching.**

This Program requires cost sharing or matching as described below.

Match is required for this program by statute 42 U.S.C. 4852(h). Generally, Federal sources are not allowed to be used as cost share or match unless otherwise permitted by a program’s authorizing statute (for example, HUD’s Community Development Block Grants program). The chart below describes the match percentage requirement, minimum percentage of Federal funds for lead hazard control activities, and maximum administrative cost (as a percentage of federal funds). *The minimum match requirement applies to the federal lead hazard control requested amount for applicants for each of the lead hazard reduction funding categories and excludes the requested Healthy Homes (HH) Supplemental funding amount.*

**Match and Cost Requirements Table.**

<table>
<thead>
<tr>
<th>Program</th>
<th>Minimum Match (of federal request)</th>
<th>Minimum Lead Hazard Control Costs</th>
<th>Maximum Administrative Costs</th>
</tr>
</thead>
<tbody>
<tr>
<td>Lead Based Paint Hazard Reduction</td>
<td>10 percent (excluding HH Supplemental funds)</td>
<td>65 percent (excluding HH Supplemental funds)</td>
<td>10 percent (excluding HH supplemental funds)</td>
</tr>
</tbody>
</table>

**Matching Funds Evaluation.**

Applicants must include the Matching Contribution Table below and should match the commitment on the form HUD-424 CBW and the SF-424 application documents submitted under this opportunity. The SF-424 and the match table will constitute the applicants’ commitment to fund the match requirement. The applicant is responsible for all match commitments, including those from donors, discounts and property owners, should those contributions not materialize. The table should indicate the source, proposed eligible uses and amounts of match committed on the SF-424 and Form HUD_424_CBW. Add additional rows to the table, as needed, for each match.
Source of Allowable Match | Purpose of the Match | Match Amount

<table>

</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Shared costs or matching funds and contributions must not be paid by another Federal award, except where the Federal statute authorizing a program specifically provides that Federal funds made available for such program can be applied to matching or cost sharing requirements of other Federal programs.

NOTE: Community Development Block Grant (CDBG) funds may be used as match to satisfy the matching resource requirements, provided they are specifically designated for the activities and costs allowed in this NOFO. Proposed matching commitments that are not eligible, such as, funding sources that are federal (e.g., HOME or Weatherization Assistance Program funds) or that are not committed for allowable uses (e.g., rehabilitation, code compliance) will not be counted towards satisfying the match requirements of the programs in this NOFO, although the funds may be used in work on the units being treated under this grant.

Evidence of match commitment. You must provide documentation of all match indicated on the SF-424 and the Form HUD_424_CBW by letters of firm commitment, such as Memoranda of Understanding or other signed agreements from those entities identified as partners in the application with your submission to this NOFO. All letters of commitment, including those provided by your organization, MUST clearly identify the dollar amount or value, the source(s) of the funds, and the proposed uses of matching funds being committed. Commitments for match to be supplied by your organization must be supported by a letter signed by the authorized official whose signature appears on the SF-424 detailing sources and uses of the committed match. The commitment documentation must mention this NOFO and have been signed on or after the date this NOFO was published. You must show that matching contributions will be used specifically for allowable program costs and come from allowable non-federal sources. Both the source of the funds and use of the funds must comply with the requirements of this NOFO. The Department will track and monitor all match commitments according to Office of Management and Budget (OMB) and program requirements.

**Permissible Match Contributions.** Examples of eligible sources that are permissible as match contributions include:

- Documentation of Contributions from Property Owners. Homeowners or landlords (owners) may contribute match dollars. You must provide detailed documentation of the cost to be paid by the homeowner or landlord. Only owner contributions for eligible
activities will count as match. Owner contributions must be supported and verified by a
third party: for example, materials or labor that the owner paid for or provided must be
substantiated via receipts/records. You must document and verify all owner-provided
labor through a third party, and this labor must be valued at market rates.

- The value of in-kind donated items, such as paint and other materials or equipment that
are used for lead-based paint hazard control, must be established at market rates.

- For services or products provided at a discounted rate and used an eligible use under the
grant, the discounted part of the fee or price is the eligible match, not the entire value of
the services or products. For example: if a supply company provides a product to the
contractor at a lower rate, the difference in the cost of the product the supplier would
typically charge, and the discounted rate is a match if otherwise eligible. You must
document that vendors that provide discounts are knowingly providing support for this
federal award.

- Third Party In-Kind Contributions. See 2 CFR 200.306 for additional information on
third party in-kind contributions.

D. Threshold Eligibility Requirements.

Applicants who fail to meet any of the following threshold eligibility requirements will be
deemed ineligible. Applications from ineligible applicants will not be evaluated.

1. Resolution of Civil Rights Matters. Outstanding civil rights matters must be resolved before
the application deadline. Applicants, who after review are confirmed to have civil rights matters
unresolved at the application deadline, will be deemed ineligible. Their applications will receive
no further review, will not be rated and ranked, and they will not receive funding.

   a. Applicants having any of the charges, cause determinations, lawsuits, or letters of
      findings referenced in subparagraphs (1) – (5) that have not been resolved to HUD’s
      satisfaction before or on the application deadline date are ineligible for funding. Such
      matters include:

      1. Charges from HUD concerning a systemic violation of the Fair Housing Act or
         receipt of a cause determination from a substantially equivalent state or local fair
         housing agency concerning a systemic violation of a substantially equivalent state or
         local fair housing law prescribing discrimination because of race, color, religion,
         sex, national origin, disability or familial status;

      2. Status as a defendant in a Fair Housing Act lawsuit filed by the Department of
         Justice alleging a pattern or practice of discrimination or denial of rights to a group
         of persons raising an issue of general public importance under 42 U.S.C. 3614(a);

      3. Status as a defendant in any other lawsuit filed or joined by the Department of
         Justice, or in which the Department of Justice has intervened, or filed an amicus
         brief or statement of interest, alleging a pattern or practice or systemic violation of
         Title VI of the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of
         1973, Section 109 of the Housing and Community Development Act of 1974, the
         Americans with Disabilities Act or a claim under the False Claims Act related to fair
         housing, non-discrimination, or civil rights generally including an alleged failure to
         affirmatively further fair housing;

      4. Receipt of a letter of findings identifying systemic non-compliance with Title VI of
         the Civil Rights Act of 1964, Section 504 of the Rehabilitation Act of 1973, Section
109 of the Housing and Community Development Act of 1974; or the Americans with Disabilities Act; or

5. Receipt of a cause determination from a substantially equivalent state or local fair housing agency concerning a systemic violation of provisions of a state or local law prohibiting discrimination in housing based on sexual orientation, gender identity, or lawful source of income.

b. HUD will determine if actions to resolve the charge, cause determination, lawsuit, or letter of findings taken before the application deadline date will resolve the matter. Examples of actions that may be sufficient to resolve the matter include, but are not limited to:

1. Current compliance with a voluntary compliance agreement signed by all the parties;
2. Current compliance with a HUD-approved conciliation agreement signed by all the parties;
3. Current compliance with a conciliation agreement signed by all the parties and approved by the state governmental or local administrative agency with jurisdiction over the matter;
4. Current compliance with a consent order or consent decree;
5. Current compliance with a final judicial ruling or administrative ruling or decision; or
6. Dismissal of charges.

2. Timely Submission of Applications. Applications submitted after the deadline stated within this NOFO that do not meet the requirements of the grace period policy will be marked late. Late applications are ineligible and will not be considered for funding. See Section IV. D. Application Submission Dates and Times.

a. Request Funding Amount. You must clearly document the requested federal funding amount on line 18a of the SF-424 (Application for Federal Assistance), and the Form HUD_424_CBW (HUD Detailed Budget Worksheet including Total Budget).

b. Applications Not in Scope with Program Purpose. Applications submitted to conduct activities other than lead-hazard control evaluation and remediation and, if Healthy Homes Supplement funding is also being requested, evaluation and control of housing-related health and safety hazards, will not be reviewed.

c. Duplicate Application. Only one application will be accepted from any given state, tribal or local government under this NOFO. Title X requires that each award be made to “A State or unit of local government” (42 U.S.C. § 4852(b)) or, by extension based on an EPA determination, to a federally recognized tribe that is authorized by that Agency to administer its lead activities certification program, rather than to an individual agency of such a government, so that only one award may be made to an eligible government. If more than one application is received from a state, tribal or local government, whether from the same or a different government agency, the most recent application that was received by Grants.gov that meets the timely receipt requirements will be considered for review and funding, and the other applications will not be reviewed.

d. Match Requirement. If the application does not include documentation that details the minimum ten percent (10%) matching requirement as described in the Cost Sharing or Matching section, above, it will not be reviewed.
e. **Required Documents.** If the application does not contain each of the required application documents as indicated in Section IV, below, it will not be reviewed.

f. **Jurisdiction Identification.** If the applicant does not clearly identify in the application the jurisdiction in which it intends to utilize these program resources, the application will not be reviewed. State applicants may list more than one city, town or borough, or other comparable local jurisdiction terminology (e.g., parish if appropriate), as the focus of their jurisdiction.

## E. Statutory and Regulatory Requirements Affecting Eligibility.

### Eligibility Requirements for Applicants of HUD’s Grants Programs

The following requirements affect applicant eligibility. Detailed information on each requirement is posted on [HUD’s Funding Opportunities Page](https://www.hud.gov/funding-opportunities).

- Active Prime and Sub Recipient registration with [SAM.gov](https://www.sam.gov/
- Outstanding Delinquent Federal Debts
- Debarments and/or Suspensions
- Pre-selection Review of Performance
- Sufficiency of Financial Management System
- False Statements
- Mandatory Disclosure Requirement
- Prohibition Against Lobbying Activities
- Equal Participation of Faith-Based Organizations in HUD Programs and Activities

## F. Program-Specific Requirements.

1. **Allowable Costs and Activities.** This section applies to allowable costs and activities funded under this NOFO. Allowable costs are determined in accordance with the cost principles in 2 CFR part 200, subpart E - Cost Principles. Costs and activities outlined in sections 2) below are not considered administrative costs and, therefore, do not count as part of the ten percent (10%) administrative cost cap of this program.

   **For more information on Allowable Costs, please see Policy Guidance 2015-01 Clarification of Costs for Lead Based Paint Hazard Reduction Programs. Available at** [https://www.hud.gov/sites/documents/201501_COST_CATEGORIES.pdf](https://www.hud.gov/sites/documents/201501_COST_CATEGORIES.pdf)

2. For the purposes of application under this NOFO, you should consider the minimum and maximum funding amounts below as you develop your program approach and budget for consideration. See Section II.C, above.

Healthy Homes Supplemental funding is exclusively for direct costs associated with the identification and remediation of the housing related health and safety hazards identified in each individual eligible unit. A complete Healthy Homes Assessment of each individual unit results in a report and scope of work. The Assessment prioritizes hazards found and corresponds with priorities based on the community needs identified while reflective of a maximum amount per unit. Those costs allowable with the Healthy Homes Supplemental funding include costs for completing an assessment to identify housing hazards that affect health, development of scopes of work of the identified hazards, and conducting remediation of identified and documented health and safety hazards that are individualized for each of the housing units selected to receive this funding where lead hazard control activities are being completed. Eligible costs also include
reevaluation of the completed work, reporting, and notification to occupants and owners, if
different, of the nature and results of the remediation. There are additional limitations for the use
of this funding; See Policy Guidance PG 2018-01, Revision of the Purpose and Use of Healthy
Homes Supplemental Funding, at https://www.hud.gov/program offices/healthy
homes/lbp/pg for additional information.

a. Administrative Costs. You can utilize up to ten percent (10%) of the federal award for
payments of reasonable grant administrative costs related to planning and executing the project,
preparation/submission of HUD reports, etc. Administrative costs must be reflected under each
appropriate line items (e.g., salaries, fringe, supplies, on the Form HUD_424_CBW) and a
detailed cost element breakdown in the budget narrative must be provided. The ten percent
(10%) administrative cost cap for this program must include any indirect cost rates placed in the
HUD share budget columns, as well as the sum of the budget line items that have inherent
administrative costs per OLHCHH Policy Guidance 2015-01, plus any administrative costs of
sub recipient organizations (also detailed by budget line item and budget narrative). There are
two categories of administrative costs: direct administrative costs and indirect costs. For the
purposes of this grant, all direct administrative costs and all indirect costs count towards the ten
percent (10%) administrative cost limit.

i.) Direct Administrative Costs.
Direct administrative costs are the reasonable, necessary, allocable, and otherwise allowable
costs of general management, oversight, and coordination of the grant (i.e., program
administration). Such costs include, but are not necessarily limited to, expenditures for: Salaries,
wages, fringe benefits, and related costs of the recipient's staff engaged in program
administration that can be specifically identified with the grant. (See OLHCHH Policy Guidance
2012-01 (www.hud.gov/sites/documents/PGI_2012-01.PDF)

ii). Indirect Costs, if applicable. Indirect facilities and administrative (F&A) costs are, by
nature, administrative and represent the expenses of doing business that are not readily identified
exclusively with a specific grant, contract, project function or activity, but are necessary for the
general operation of the organization and the conduct of activities it performs. 2 CFR 200,
subpart E Cost Principles, establishes the federal requirements for the determination of allowable
and unallowable direct and indirect (F&A) costs, and is available at Code of Conduct. Indirect
(F&A) costs may only be charged to an OLHCHH grant program under a cost allocation plan or
an indirect cost rate agreement or in accordance with the requirements of 2 CFR 200.414(f), on
the de minimis rate.

Lead Hazard Control Direct Costs. Lead Hazard Control direct costs are defined specifically
as the performance of lead-based paint identification and remediation activities. Awardees must
expend at least sixty-five percent (65%) of grant funds on direct lead-based paint hazard control
remediation and related activities in the home and this must be documented when preparing the
program budget. (See OLHCHH Policy Guidance 2012-01
(www.hud.gov/sites/documents/PGI_2012-01.PDF); see Attachment 2.)

Other Allowable Costs. Costs for the activities below are allowable costs but should not be
counted as direct costs toward the minimum sixty-five (65%) requirement:
Targeted Outreach, Education, and Training. Conducting targeted outreach, affirmative marketing, education or outreach programs on lead hazard control and lead poisoning prevention that will result in increased lead hazard control activities or that are designed to increase the ability of the program to deliver lead hazard control services, including educating owners of rental properties, tenants, and others on the Residential Lead-Based Paint Hazard Reduction Act, Lead Disclosure Rule, Lead Safe Housing Rule (24 CFR part 35, subparts A, and B-R, respectively), the EPA Renovation, Repair and Painting (RRP) Rule (40 CFR 745, especially subpart E), and applicable provisions of the Fair Housing Act, especially as it pertains to familial status (e.g., families with children) and disability discrimination, providing meaningful access to these program benefits and information to Limited English Proficient (LEP) individuals through language assistance strategies and services, in accordance with Title VI of the Civil Rights Act of 1964 and the Final Guidance to Federal Financial Assistance Recipients Regarding Title VI, Prohibition Against National Origin Discrimination Affecting Limited English Proficient Persons published on January 22, 2007 in the Federal Register (72 FR 2732), and providing training on lead-safe maintenance and renovation practices and management. Upon request, this also would include making all materials available in alternative formats to persons with disabilities (e.g., Braille, audio, and large type) pursuant to 24 CFR 8.6(b) and Titles II and III of the Americans with Disabilities Act, as applicable.

- The registry of lead-safe units that must be developed and provided to families as part of the outreach program.
- Purchasing or leasing items having a per-unit cost under $5,000.
- Supporting data collection, analysis, and evaluation of grant program activities. This includes compiling and delivering such data as may be required by HUD.
- Evaluating the effectiveness of hazard remediation conducted under this grant to assess how healthy homes interventions affect the health of the population being served relative to the population at large.
- Securing liability insurance for housing-related environmental health and safety hazard evaluation and control activities. This is considered either an indirect cost or an administrative cost, depending on the relationship of the insurance applicable for this grant to the applicant’s overall insurance policy portfolio.
- Occupant Blood Testing. Conducting pre-hazard control blood lead testing of persons residing in or frequently visiting units enrolled for or undergoing lead hazard control work.
- Research and Studies. Participating in technical studies, or developing information systems to enhance the delivery, analysis, or conduct of lead hazard control activities; or to facilitate targeting and consolidating resources to further childhood lead poisoning prevention efforts. For this program, we do not expect research that could affect human subjects to be conducted.

This program requires a certification of Consistency with the Consolidated Plan under 24 CFR 91.2. This certification means the proposed activities in the application are consistent with the jurisdiction’s strategic plan, and the location of the proposed activities is consistent with the geographic areas specified in the Consolidated Plan.

**Program Requirements and Prohibitions**
a. Blood Lead Testing. The applicant should request testing of each child under the age of six years who resides in a housing unit under contract to receive lead hazard control work, or document that a child has been tested for blood lead levels within the six months preceding the lead hazard control work, unless it is documented that the child’s parent or legal guardian chooses not to have the child tested. You must refer any child with an elevated blood lead level for appropriate medical follow-up with his or her health care provider or local health department. See also, the CDC Response to Advisory Committee on Childhood Lead Poisoning Prevention Recommendations in Low Level Lead Exposure Harms Children: A Renewed Call of Primary Prevention (2012) and the Advisory Committee’s recommendations report.

b. Code of Conduct. If you are awarded a grant, you must be prepared to submit a copy of your Organization’s Code of Conduct and describe the methods you will use to ensure that all officers, employees, and agents of their organization are aware of your Code of Conduct, prior to entering into a grant agreement with HUD.

c. Public Private Partnerships. You must work to further collaboration and coordination with public private partnerships to assist in meeting your program goals. HUD encourages collaboration and coordination with other agencies and partners to identify and eliminate lead-based paint and housing-related health and safety hazards. You are encouraged to enter into formal arrangements with partners, such as childhood lead poisoning prevention programs, health agencies, community development agencies, public housing agencies (noting, however, that lead hazard control funds may not be used for evaluating or controlling lead-based paint hazards in public housing but may be used in housing choice voucher units), weatherization assistance agencies, fair housing organizations, code enforcement agencies, state Medicaid agencies, community-based non-profit organizations, and faith-based or other community-based organizations. These formal arrangements may be in the form of a contract, a Memorandum of Understanding (MOU), a Memorandum of Agreement (MOA), or other comparable documentation of agreement. Such relationships must be established prior to the execution of an award or be contingent upon award, becoming effective within 60 days after award. In particular, your workplan to be developed after award must include implementing a mechanism for providing rapid response (i.e., several business days) to requests from a public housing agency participating in the HUD housing choice voucher target housing units assessment pilot at the time of initial assistance for a particular unit. Agreements for goods and services to be paid for the award must be eligible and must be procured through a competitive process as defined in 2 CFR sections 200.317 and 200.326 as applicable.

d. Compliance with HUD Regulations and Guidelines. You must conduct lead hazard evaluation and control work in compliance with HUD’s Title X, LHR Act, the current HUD Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing (current HUD Guidelines, applicable OLCHHH Program Policies, and applicable federal, state, and local regulations and guidance, including, but not limited to the EPA’s Renovation, Repair, and Painting (RRP) Rule (found within 40 CFR part 745; see Renovation-repair-and-painting-program).

f. Compliance with Section 504 of the Rehabilitation Act. Facilities where program participants come for assistance (e.g., for intake and enrollment in the program), training or education, must be held in facilities that are accessible to persons with disabilities in accordance with Section 504 of the Rehabilitation Act and its implementing regulations at 24 CFR Part 8, and with Titles II and III of the Americans with Disabilities Act, as applicable.

g. Consolidated Plans. You must submit Form_HUD2991. (By submitting Form_HUD2991, you certify that the work will be conducted in accordance with your and other jurisdictions’ Consolidated Plans for areas where the project will be carried out. You must also submit, as an attachment, the current lead-based paint element from your approved Consolidated Plan or a web site address where the Consolidated Plan is located and provide page number). Be sure to verify that the web address is active, and available without cost. If the jurisdiction does not have a currently approved Consolidated Plan, but is otherwise eligible for this grant program, you must include the jurisdiction's abbreviated Consolidated Plan that includes a lead-based paint hazard control strategy developed in accordance with 24 CFR 91.235. (An Indian tribe applying for a grant for which the target area for projects under the grant will be located on a reservation of the tribe need not submit a Consolidated or abbreviated Consolidated Plan. (24 CFR 583.155(c)). If a non-tribal jurisdiction does not include such a strategy, it is ineligible to participate in the grant.)

h. Continued Availability of Lead-Safe Housing to Low-Income Families with children under 6 years of age. Units in which lead hazards have been controlled under this program must be occupied by or continue to be available to low-income residents with children under 6 years of age for a minimum of three years as required by Title X, Section 1011. You must describe previous efforts, whether on your own or in partnership with others, such as the organizations listed in paragraph c, above, if applicable, to maintain a publicly accessible registry (listing) of low-income units made lead-safe because of previous activities. You must also describe the plans you have on your own or in partnership with others, for continuing an existing registry or establishing a new registry, and procedures for monitoring and affirmatively marketing these units to low-income families with children less than six years of age. Your approach must include the entire period of performance, the process, persons responsible and actions that will occur when violations are noted.

i. Control/Elimination Strategies. All lead-based paint hazards identified in housing units and in common areas of multifamily housing enrolled in this grant program must be controlled or eliminated by either of the following strategies or a combination of the two methods below within 10 days or less:

1. Interim Controls. Interim controls of lead-based paint hazards including paint-lead hazards, dust-lead hazards, and soil-lead hazards, as defined by EPA at 40 CFR §§ 745.65 and 745.227, shall be conducted in accordance with the current HUD Guidelines, and shall be completed by conducting and passing clearance, including visual inspection and, on applicable interior and patio surfaces, dust-lead sampling and analysis demonstrating residual dust lead below the lower of EPA’s or HUD’s dust lead hazard standards or clearance levels
2. Abatement means any set of measures designed to permanently eliminate lead-based paint hazards in accordance with standards established by the EPA. Abatement includes the removal of lead-based paint and lead contaminated dust, the permanent containment or encapsulation of lead-based paint, the replacement of lead painted surfaces or fixtures, and the removal or covering of lead contaminated soil; and all preparation, cleanup, disposal, and post-abatement clearance testing activities associated with such measures; however, for clearances under this NOFO on applicable interior and patio surfaces, dust-lead sampling and analysis shall demonstrate residual dust lead below the lower of EPA’s or HUD’s dust lead hazard standards or clearance levels (40 CFR 745.227, or 24 CFR 35.1320 and 35.1340).

j. Cooperation with Related Research and Evaluation. Grantees must cooperate fully with any research or evaluation sponsored by HUD or another government agency associated with this grant program, including preservation of project data and records and compiling requested information in formats provided by the researchers, evaluators or HUD. This may include the compiling of certain relevant local demographic, dwelling unit, and participant data not contemplated in the original proposal. Participant data must be subject to the Privacy Rule of the Health Insurance Portability and Accountability Act of 1996 (HIPAA). HIPAA and the Privacy Rule can be found at www.hhs.gov/ocr/privacy/

k. Data Collection. You must collect, maintain, and provide to HUD the data necessary to document and evaluate grant program outputs and outcomes, including pre- and post-lead hazard control sampling and clinical management follow-up.

l. Economic Opportunities for Low- and Very Low-Income Persons (Section 3). Section 3 of the Housing and Urban Development Act of 1968 (12 U.S.C. § 1701u) is applicable to grants funded under this lead hazard control and healthy homes grant program NOFO (see 24 CFR 75.3(a)(2)(i))). All grantees under this NOFO that conduct any project exceeding $100,000 are required to comply with Section 3 for those projects. The project is the site or sites together with any building(s) and improvements located on the site(s) that are under common ownership, management, and financing. If you plan to hire any new employees or award contracts to carry out the project(s), you must comply with the Section 3 requirements found at 24 CFR part 75, subpart C. If a project will also have housing and community development financial assistance or public housing assistance, you must also comply with 24 CFR part 75, subpart D. For projects for which you are required to comply with Section 3, any contractor, subcontractor or sub-grantee must also comply with the Section 3 requirements for any new training, hiring or sub-contracting opportunities provided under those contracts. Applicants for this grant program must plan to recruit and collect the level of detailed information to report out to the federal government the success of their efforts to meet these goals annually. For more information about Section 3, see HUD’s Section 3 website, https://www.hud.gov/program_offices/field_policy_mgt/section3, particularly its Frequently Asked Questions document, which discusses lead hazard control and healthy homes grants, and HUD’s Section 3 regulations (24 CFR Part 75), https://www.ecfr.gov/cgi-bin/retrieveECFR?n=pt24.1.75.

m. Required Grantee Training. If you are awarded a grant under this NOFO, you will be required to attend at a minimum two training per year of award. These training will
consist of a onetime OLHCHH New Grantee Orientation (within the DC area, if travel-related COVID-19 pandemic business disruptions have decreased by that time, or remotely if not) and an annual Program Manager School (either in person or remotely, similarly). You are required to send a minimum of two key staff from each active award to each required training, as applicable. If your grant agreement is not signed prior to the New Grantee Orientation, you will be reimbursed for any reasonable costs you incur to attend the New Grantee Orientation that are allowable in accordance with 2 CFR part 200, especially 2 CFR 200.458 and 2 CFR 200.474. HUD reserves the right to disallow costs that are not reasonable, allowable and allocable in accordance with OMB Cost Principles, 2 CFR part 200, subpart E.

n. Institutional Review Board (IRB). For the program in this NOFO, HUD does not expect research that could affect human subjects to be conducted. However, if such research is conducted, it shall be conducted in accordance with 24 CFR part 60, Protection of Human Subjects, which invokes the Department of Health and Human Services’ Common Rule at 45 CFR part 46, subpart A.

o. Lead-Based Paint and Lead-Based Paint Hazard Identification. A complete lead-based paint inspection and lead hazard risk assessment, evaluating each housing unit, common area, exterior surface, and bare soil (and not a sample of any of them), including either separate reports or a combined report is required for all properties enrolled under this program. **Presumption of the presence of lead-based paint or lead-based paint hazards is not permitted.** Paint inspections and risk assessments must follow the procedures as defined in the HUD Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing and as defined by the policies of the Lead Hazard Reduction Grant Program. Refer to Policy Guidance 2013-01 the OLHCHH website, posted at PGI-2013-01 for additional requirements.

p. Notification Requirements. A copy of EPA’s Renovate Right brochure (see the EPA RRP homepage below) must be provided to the owner of the unit and to an adult occupant of the unit (whether or not RRP work will be conducted). All lead-based paint testing results, summaries of lead-based paint hazard control treatments, and clearances must be provided to the owner of the unit, together with a notice describing the owner’s legal duty to disclose the results to tenants and buyers (see 24 CFR 35.88 of the Lead Disclosure Rule). Grantees must ensure that this information is provided in a manner that is effective for persons with disabilities (24 CFR 8.6) and, also that persons with limited English proficiency (LEP) will have meaningful access to it (see Executive Order 13166). Grant files must contain verifiable evidence of providing lead hazard evaluation and control reports to owners and tenants, such as a signed and dated receipt. You must also describe how you will provide owners with lead hazard evaluation and control information generated by activities under this grant, so that the owner can comply with the Lead Disclosure Rule (24 CFR part 35, subpart A, or the equivalent 40 CFR part 745, subpart F), the Lead Safe Housing Rule (24 CFR part 35, subparts B-R), and the EPA’s Renovation, Repair, and Painting (RRP) Rule (see 40 CFR part 745 and http://www2.epa.gov/lead/renovation-repair-and-painting-program).

q. Priority Treatment for Elevated Blood Lead Cases. The grantee shall develop and implement, in its workplan and policies, written procedures for an expedited process (including expedited intake, evaluation, procurement, and hazard control work) for treating housing of children under the age of six years who have an elevated blood lead
level. The norm for completing lead hazard control work in such units and the common areas that service them shall be within 50 days after the program receives the referral (with the environmental investigation to be completed within 15 days (whether the whole investigation or the increment from a risk assessment conducted within the past 12 months) and the lead hazard control work within 30 days of receiving the environmental investigation report). The grantee shall negotiate with the local housing authority(ies) with Housing Choice Voucher units in the grantee’s target area for this grant, a Memorandum of Understanding (or Agreement, etc.) to ensure tenants in Housing Choice Voucher target units who report a child with an elevated blood lead are protected from losing their assistance, and the unit does not lose its voucher eligibility status. See also, the CDC Response to Advisory Committee on Childhood Lead Poisoning Prevention Recommendations in Low Level Lead Exposure Harms Children: A Renewed Call of Primary Prevention (2012) at https://www.cdc.gov/nceh/lead/ACCLPP/CDC_Response_Lead_Exposure_Recs.pdf.

r. Procurement Requirements. All goods and services must be procured through a competitive process. Recipients must follow federal procurement requirements as defined in 2 CFR 200.317 through 200.326, as applicable. The designation of an entity as a subrecipient or contractor must follow program policies and 2 CFR 200.330.

s. Temporary Relocation. HUD expects that the lead hazard control work and temporary relocation will take 10 days or less. Assisting with reasonable costs of temporary relocation for those persons required to vacate housing while participating in this voluntary maintenance program for lead hazard reduction is an eligible activity of the program described in this NOFO. Occupants who enroll in the programs described in this NOFO must be treated fairly and equitably, in particular, regarding removing participation barriers created by relocation requirements if housing must be vacated while lead hazard reduction measures are being conducted. Such tenant-occupants may be entitled to receive temporary relocation assistance where applicable if relocation is required in excess of 15 days to complete the lead hazard control work pursuant to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (URA), 42 U.S.C. §§ 4601-4655, as described in regulations at 49 CFR 24.2(a)(9)(ii)(D)) and the corresponding Appendix A to Part 24. (These regulations can be accessed from the Government Publishing Office website at 49 CFR Part 24.

t. Owner-occupants temporarily relocating while hazard reduction measures are conducted pursuant to a program described in this NOFO may receive assistance but are not entitled to URA relocation assistance for relocation based on needs assessment completed at enrollment and based on the discretion of the program policy and procedures approved by the GTR. When tenant occupants with physical disabilities are temporarily relocated, they must be offered housing that is compliant with Section 504 of the Rehabilitation Act. For additional information on relocation requirements, see the HUD Handbook 1378 (Real Estate Acquisition and Relocation Policy and Guidance). All relocation assistance is expected to support the approved occupant protection plan received and approved by the program manager for each unit under this award.

u. Occupant protection plan. The grantee shall ensure that an occupant protection plan is written and implemented for each housing unit in which hazard reduction work will be conducted. For lead hazard control work, the plan shall conform to the HUD Guidelines chapter 8, Resident Protection and Worksite Preparation.
v. Testing, sampling, and laboratory analysis. All testing, sampling and laboratory analysis for lead must comply with Title X, Section 1011, and conform to the current HUD Guidelines, the EPA lead-based paint and lead-based paint hazard standards and clearance levels at 40 CFR part 745, OLHCHH Program Policy 2017-01 (https://www.hud.gov/program offices/healthy homes/lbp/pg), and federal, state, or tribal regulations developed as part of the appropriate contractor certification program, whichever is most protective of children. Paint chip sampling alone is not a cost effective or practical method for grantees to use alone in the identification of all lead hazards for the purposes of this grant. It is expected that an XRF will be utilized to complete each Lead Inspection / Risk Assessment in combination with dust wipes, paint sampling, and soil sampling as applicable. (Paint chip sampling in accordance with the HUD Guidelines chapters 5 and 7 (https://www.hud.gov/sites/documents/CH05_12-13-12.PDF and https://www.hud.gov/sites/documents/LBPH09.pdf) may be used in certain cases.) All laboratory analyses conducted on paint chips, soil and/or dust samples must be performed by an environmental laboratory recognized by EPA under the National Lead Laboratory Accreditation Program pursuant to the Toxic Substances Control Act (15 U.S.C. 2685) (See the list of laboratories at https://www.epa.gov/lead/national-lead-laboratory-accreditation-program-list).

w. Trained and Certified Professionals. Funded activities must be conducted by firms certified or licensed for, and persons certified for, the activities according to 24 CFR part 35, subparts B-R (possessing certification as risk assessors, inspectors, abatement supervisors, abatement workers, or sampling technicians (clearance inspections); or certified renovator (for workers and supervisors performing non-abatement work after clearance of all lead hazard control scopes of work), as applicable to each unit. Any lead hazard control activities conducted under this grant program requires a certified or licensed lead abatement firm, a certified lead abatement supervisor, and certified lead abatement workers to complete all scopes of work whether interim or abatement is identified in the scope of work for any unit. Each certified person must work for an appropriately certified or licensed firm, e.g., a certified risk assessment, certified inspection, licensed abatement as applicable. All abatement firms, workers and supervisors must hold an RRP license if any interim control work is conducted as a result of this award alone or in combination with abatement methods. Please NOTE: EPA RRP certification alone is NOT sufficient for completion of interim control work under this program based on the intent of the program is to remove and reduce lead-based paint hazards specifically.

x. This program requires a certification of Consistency with the Consolidated Plan under 24 CFR 91.2. This certification means the proposed activities in the application are consistent with the jurisdiction's strategic plan, and the location of the proposed activities is consistent with the geographic areas specified in the Consolidated Plan. The Consolidated Plan also includes the jurisdiction's certification to affirmatively further fair housing. For competitive programs, a certification of consistency of the application with the approved consolidated plan for the jurisdiction may be required, whether the applicant is the jurisdiction or another applicant. If you fail to provide the certification, and you do not cure the omission as a curable deficiency, HUD will not fund the application.
aa. Waste Disposal. You must handle waste disposal according to the requirements of the appropriate local, state, and federal regulatory agencies, and the HUD Guidelines. The HUD Guidelines are available at this link.

bb. Worker Protection Procedures. You must observe the procedures for worker protection established in the current HUD Guidelines, as well as the requirements of the Occupational Health and Safety Administration (OSHA) (in particular, 29 CFR 1910.1025, Lead, and/or 29 CFR 1926.62, Lead Exposure in Construction, as applicable), or the state or local occupational safety and health regulations, whichever are most protective.

c. Written Policies and Procedures. You will be required to develop written policy and procedures during the first 60 days. The policies and procedures must describe how your program will handle items such as, but not limited, to procurements (contracting), unit eligibility, unit selection and prioritization, all phases of lead hazard evaluation and control, including risk assessments, inspections, development of specifications for contractor bids, pre-hazard control blood lead testing, financing, temporary relocation and clearance examinations, unit monitoring and sub recipient monitoring. You, and your subcontractors, sub-grantees, sub-recipients, and their contractors at all tiers must adhere to these policies and procedures.

G. Criteria for Beneficiaries.

Funds must only be used under this grant program to provide assistance for pre-1978, privately owned housing that is not federally assisted and that meets the following criteria:

- For rental housing, at least fifty percent (50%) of the units must be occupied by or made available to families with incomes at or below fifty percent (50%) of the area median income level and the remaining units must be occupied or made available to families with incomes at or below eighty percent (80%) of the area median income level, and in all cases the landlord must give priority in renting units assisted under this section, for not less than three years (3) following the completion of lead abatement activities, to families with a child under the age of six years (6), except that buildings with five (5) or more units may have twenty percent (20%) of the units occupied by families with incomes above eighty percent (80%) of area median income level; or

- For housing owned by owner-occupants, all units assisted with grants under this section must be the principal residence of families with income at or below eighty percent (80%) of the area median income level, and not less than ninety percent (90%) of the units assisted with grants must be occupied by a child under the age of six years or must be units where a child under the age of six years (6) spends a significant amount of time visiting. (See Policy Guidance PG 2014-01, Eligibility of Units for Assistance, at https://www.hud.gov/sites/documents/2014-01_UNIT_ELIGIBILITY.pdf for additional information. The income requirements above are considered on a program-wide basis (cumulatively), not a project by project basis.)

Procedures for determining if a family is income-eligible are found in Policy Guidance PG 2017-05, Income Verification Guidance.
IV. Application and Submission Information.

A. Obtaining an Application Package.

Instructions for Applicants.
You must download both the Application Instructions and the Application Package from Grants.gov. You must verify that the Assistance Listing Number and Assistance Listing Description on the first page of the Application Package, and the Funding Opportunity Title and the Funding Opportunity Number match the Program and NOFO to which you are applying.

The Application Package contains the portable document forms (PDFs) available on Grants.gov, such as the SF-424 Family. The Instruction Download contains official copies of the NOFO and forms necessary for a complete application. The Instruction Download may include Microsoft Word, Microsoft Excel and additional documents.

An applicant demonstrating good cause may request a waiver from the requirement for electronic submission, for example, a lack of available Internet access in the geographic area in which your business offices are located. Lack of SAM registration or valid DUNS Number is not good cause. If you cannot submit your application electronically, you must ask in writing for a waiver of the electronic grant submission requirements. HUD will not grant a waiver if HUD does not receive your written mailed, shipped, or emailed request at least 15 calendar days before the application deadline and if you do not demonstrate good cause. If HUD waives the requirement, HUD must receive your paper application before the deadline of this NOFO. To request a waiver, you must contact:
Name: Yolanda Brown
Email: Yolanda.A.Brown@hud.gov
HUD Organization: OLHCHH
Street: 451 7th Street SW Room 8236
City: Washington, DC
State: DC DISTRICT OF COLUMBIA
Zip: 20410
Yolanda Brown can also be reached by phone at (202) 402-7596. The phone number above may also be reached by individuals who are deaf or hard of hearing, or who have speech disabilities, through the Federal Relay Service’s teletype service at (800) 877-8339; for additional means of communicating with federal agencies, go to www.gsa.gov/fedrelay

C. Content and Form of Application Submission.
You must verify that boxes 11, 12, and 13 on the SF-424 match the NOFO for which you are applying. If they do not match, you have downloaded the wrong Application Instruction and
Submission of an application that is otherwise sufficient, under the wrong Assistance Listing and Funding Opportunity Number is non curable unless otherwise stated in Threshold requirements.

1. Content.

Additionally, your complete application must include the following narratives and non-form attachments.

2. Format and Form.
Narratives and other attachments to your application must follow the following format guidelines.
15 Pages maximum length of narratives
Double spaced 12-point (minimum) Times Roman font on letter sized paper (8 1/2 x 11 inches) with at least 1-inch margins on all sides

A. 2-page abstract (project summary) must contain the information detailed below (abstracts are not evaluated with your application, but they provide required documentation of threshold elements regarding target area, confirmation of Healthy Homes Supplement amount requests, and a good introduction to your proposed program):

1. Applicant Table. Please include this table at the beginning of your abstract.

2. A general summary of your target area, why funding is needed, partners you intend to work with and the lead hazard control and healthy homes work you intend to undertake.

B. The narrative responses to Rating Factors 1 to 3, below, are limited to:

1. A **maximum of fifteen (15) pages** (excluding appendices, budget forms/narrative, and worksheets)
2. Double Spaced
3. Letter sized paper, 8-1/2 x 11 inches
4. 12-point (minimum) Times New Roman font
5. At least 1-inch margins on all sides

**NOTE:** *Any information submitted in response to the Rating Factors beyond the page limit will not be reviewed.*

C. Appendices and Attachments:

1. Budget Narrative. Your application must include a budget narrative separate from the rating factor narrative that details the eligible cost amounts and items for each budget line proposed. The narrative must provide details on administrative costs (maximum of ten percent (10%) of the federal requested amount excluding Healthy Homes Supplement request amount), details on staffing costs, details on which costs are included in the minimum sixty-five percent (65%) lead hazard control cost requirement, and, if applicable, details on how you will budget your Healthy Homes Supplemental request.
2. Consolidated Plan Lead-Based Paint Element. You must provide a copy of your jurisdiction's Lead-Based Paint Element or the link to the website identifying where the Lead-Based Paint Element can be found, from its Consolidated Plan or abbreviated Consolidated Plan (as applicable; see section III.C.5.g, above).

3. Résumés for key staff or position descriptions for vacant positions

4. Supporting match documentation (Letters of Commitment)

Material provided in the appendices must support Rating Factor narrative information and will not be used in lieu of information provided in the fifteen (15) page limited response to the Rating Factors. You are strongly urged to submit only information that is required and/or requested in the NOFO or relevant to a specific narrative response. All attachments must identify the related Rating Factor in the page footer by providing the related Rating Factor number and the page number of the attachment (e.g., Factor 1 Attachment, page 1).

C. System for Award Management (SAM) and Dun and Bradstreet Universal Numbering System (DUNS) Number.

1. SAM Registration Requirement.
Applicants must be registered with https://www.sam.gov/ before submitting their application. Applicants must maintain current information in SAM on immediate and highest-level owner and subsidiaries, as well as on all predecessors that have been awarded a Federal contract or grant within the last three years, if applicable. Information in SAM must be current for all times during which the applicant has an active Federal award or an application or plan under consideration by HUD.

2. DUNS Number Requirement.
Applicants must provide a valid DUNS number, registered and active at https://www.sam.gov/ in the application. DUNS numbers may be obtained for free from Dun & Bradstreet.

Anyone planning to submit applications on behalf of an organization must register at grants.gov and be approved by the E-Biz POC in SAM to submit applications for the organization. Registration for SAM and grants.gov is a multi-step process and can take four (4) weeks or longer to complete if data issues arise. Applicants without a valid registration cannot apply through grants.gov. Complete registration instructions and guidance are provided on grants.gov.

D. Application Submission Dates and Times.

Application Due Date Explanation
The application deadline is 11:59:59 PM Eastern Standard time on 07/12/2021

Applications must be received no later than the deadline, or, if HUD has issued you a waiver allowing you to submit your application in paper form, by HUD no later than the deadline.

Submit your application to Grants.gov unless a waiver has been issued allowing you to submit your application in paper form. Instructions for submitting your paper application will be
contained in the waiver of electronic submission.

"Received by Grants.gov" means the applicant received a confirmation of receipt and an application tracking number from Grants.gov. Grants.gov then assigns an application tracking number and date-and timestamps each application upon successful receipt by the Grants.gov system. A submission attempt not resulting in confirmation of receipt and an application tracking number is not considered received by Grants.gov.

Applications received by Grants.gov must be validated by Grants.gov to be received by HUD.

"Validated by Grants.gov" means the application has been accepted and was not rejected with errors. You can track the status of your application by logging into Grants.gov, selecting "Applicants" from the top navigation, and selecting “Track my application” from the dropdown list. If the application status is "rejected with errors,” you must correct the error(s) and resubmit the application before the 24-hour grace period ends. Applications in “rejected with errors” status after the 24-hour grace period expires will not be received by HUD. Visit Grants.gov for a complete description of processing steps after applying.

HUD strongly recommends you submit your applications at least **48 hours before the deadline** and during regular business hours to allow enough time to correct errors or overcome other problems.

**Grants.gov Customer Support.** Grants.gov provides customer support information on its website at [https://www.grants.gov/web/grants/support.html](https://www.grants.gov/web/grants/support.html). Applicants having difficulty accessing the application and instructions or having technical problems can receive customer support from Grants.gov by calling (800) 518-GRANTS (this is a toll-free number) or by sending an email to support@grants.gov. The customer support center is open 24 hours a day, seven days per week, except Federal holidays. The phone number above may also be reached by individuals who are deaf or hard of hearing, or who have speech disabilities, through the Federal Relay Service’s teletype service at 800-877-8339.

You can verify the contents of your submitted application to confirm Grants.gov received everything you intended to submit. To verify the contents of your submitted application:

- Log in to Grants.gov.
- Click the Check Application Status link, which appears under the Grant Applications heading in the Applicant Center page. This will take you to the Check Application Status page.
- Enter search criteria and a date range to narrow your search results.
- Click the Search button. To review your search results in Microsoft Excel, click the Export Data button.
- Review the Status column, to view more detailed submission information, click the Details link in the Actions column.
- To download the submitted application, click the Download link in the Actions column.

Please make note of the Grants.gov tracking number as it will be needed by the Grants.gov Help Desk if you seek their assistance.
HUD may extend the application deadline for any program if Grants.gov is offline or not available to applicants for at least 24 hours immediately prior to the deadline date, or the system is down for 24 hours or longer and impacts the ability of applicants to cure a submission deficiency within the grace period.

HUD may also extend the application deadline upon request if there is a presidentially declared disaster in the applicant’s area.

If these events occur, HUD will post a notice on its website establishing the new, extended deadline for the affected applicants. HUD will also include the fact of the extension in the program’s Notice of Funding Awards required to be published in the Federal Register.

In determining whether to grant a request for an extension based on a presidentially-declared disaster, HUD will consider the totality of the circumstances including the date of an applicant’s extension request (how closely it followed the basis for the extension), whether other applicants in the geographic area are similarly affected by the disaster, and how quickly power or services are restored to enable the applicant to submit its application.

PLEASE NOTE: Busy servers, slow processing, large file sizes, improper registration or password issues are not valid circumstances to extend the deadline dates or the grace period.

1. **Amending or Resubmitting an Application.**
   Before the submission deadline, you may amend a validated application through Grants.gov by resubmitting a revised application containing the new or changed material. The resubmitted application must be received and validated by Grants.gov by the applicable deadline.

   If HUD receives an original and a revised application for a single proposal, HUD will evaluate only the last submission received by Grants.gov before the deadline.

2. **Grace Period for Grants.gov Submissions.**
   If your application is received by Grants.gov before the deadline, but is rejected with errors, you have a grace period of 24 hours after the application deadline to submit a corrected, received, and validated application through Grants.gov. The date and time stamp on the Grants.gov system determines the application receipt time. Any application submitted during the grace period not received and validated by Grants.gov will not be considered for funding. There is no grace period for paper applications.

3. **Late Applications.**
   An application received after the NOFO deadline date that does not meet the Grace Period requirements will be marked late and will not be received by HUD for funding consideration. Improper or expired registration and password issues are not causes that allow HUD to accept applications after the deadline.

4. ** Corrections to Deficient Applications.**
   HUD will not consider information from applicants after the application deadline.
HUD will uniformly notify applicants of each curable deficiency. See curable deficiency in the definitions section (Section I.A.3). Examples of curable (correctable) deficiencies include inconsistencies in the funding request and failure to submit required certifications. These examples are non-exhaustive.

When HUD identifies a curable deficiency, HUD will notify the authorized organization representative identified on the SF 424 Application for Federal Assistance via email. This email is the official notification of a curable deficiency.

Applicants must email corrections of curable deficiencies to applicationsupport@hud.gov within the time limits specified in the notification. The time allowed to correct deficiencies will be no less than 48 hours and no more than 14 calendar days from the date of the email notification. The start of the cure period will be the date stamp on the email sent from HUD. If the deficiency cure deadline date falls on a Saturday, Sunday, Federal holiday, or on a day when HUD’s Headquarters are closed, then the applicant’s correction must be received on the next business day HUD Headquarters offices in Washington, DC are open.

The subject line of the email sent to applicationsupport@hud.gov must state: Technical Cure and include the Grants.gov application tracking number or the GrantSolutions application number (e.g., Subject: Technical Cure - GRANT123456 or Technical Cure - XXXXXXXXXXX). If this information is not included, HUD cannot match the response with the application under review and the application may be rejected due to the deficiency.

Corrections to a paper application must be sent in accordance with and to the address indicated in the notification of deficiency. HUD will treat a paper application submitted in accordance with a waiver of electronic application containing the wrong DUNS number as having a curable deficiency. Failure to correct the deficiency and meet the requirement to have a DUNS number and active registration in SAM will render the application ineligible for funding.

5. Authoritative Versions of HUD NOFOs. The version of these NOFOs as posted on Grants.gov are the official documents HUD uses to solicit applications.

6. Exemptions. Parties that believe the requirements of the NOFO would impose a substantial burden on the exercise of their religion should seek an exemption under the Religious Freedom Restoration Act (RFRA).

E. Intergovernmental Review.
This program is not subject to Executive Order 12372, Intergovernmental Review of Federal Programs.

G. Funding Restrictions.

1. Administrative Costs. Administrative costs, as defined above, may not exceed ten percent (10%) of the grant award, excluding the Healthy Homes Supplemental funds. Administrative costs are determined based on the nature of the activity being performed and, therefore, may be found in both the direct and indirect cost categories. OLHCHH considers all costs included in your negotiated indirect cost rate as “administrative costs”.
2. **Lead Hazard Control Costs.** This NOFO requires awardees to expend not less than sixty-five percent (65%) of the federal award on direct lead hazard control activities, as outlined in Section III.C, above. The federal award amount alone is used to determine the minimum percent of expenditure and does not include the requested Healthy Homes Supplemental funds.

3. **Ineligible Costs and Activities.** You may not use grant funds for any of the following activities:

   a. Purchase of real property.
   b. Purchase or lease of equipment having a per-unit cost in excess of $5,000, except for the purchase or lease of up to two (2) X-ray fluorescence analyzers to be used exclusively by the grant program.
   c. Chelation or other medical treatment costs, including case management, related to children with elevated blood lead levels (EBLs). Non-federal funds used to cover these costs may not be counted as part of the matching contribution.
   d. Lead hazard evaluation or control activities in public housing, project-based Section 8 housing, housing for the elderly, housing for persons with disabilities, or any 0-bedroom dwelling. (unless any child who is less than six years (6) of age resides or is expected to reside in such housing for the elderly, housing for persons with disabilities, or 0-bedroom dwelling), or housing built after 1977.
   e. Complete or gut rehabilitation, demolition of housing units or detached buildings.
   f. Lead hazard evaluation or control activities in housing covered by a pending or final HUD, EPA, and/or Department of Justice (DOJ) settlement agreement, consent decree, court order or other similar action regarding violation of the Lead Disclosure Rule (24 CFR part 35, Subpart A, or the equivalent 40 CFR part 745, subpart F), or by HUD or DOJ regarding the Lead Safe Housing Rule (24 CFR part 35, subparts B–R).
   g. Activities that do not comply with the Coastal Barrier Resources Act (16 U.S.C. § 3501).
   h. Lead-hazard control or rehabilitation of a building or manufactured home that is located in an area identified by the Federal Emergency Management Agency (FEMA) under the Flood Disaster Protection Act of 1973 (42 U.S.C. §§ 4001–4128) as having special flood hazards unless:
   
   - The community in which the area is situated is participating in the National Flood Insurance Program in accordance with the applicable regulations (44 CFR parts 59–79), or less than a year has passed since FEMA notification regarding these hazards; and
   - Where the community is participating in the National Flood Insurance Program, flood insurance on the property is obtained in accordance with section 102(a) of the Flood Disaster Protection Act (42 U.S.C. § 4012a(a)). You are responsible for assuring that flood insurance is obtained and maintained for the appropriate amount and term.
4. **Replacing Existing Resources.** Funds received under the grant programs covered under this NOFO must not be used to replace existing community resources dedicated to any ongoing project.

5. **Healthy Homes Supplemental Funds.** Healthy Homes Supplemental funds may not be used to pay for salary or fringe benefits, indirect costs, administrative costs, or outreach costs. Refer to Policy Guidance 2018-01 for additional detail.

6. **Radon Testing.** If you receive Healthy Homes Supplemental funding you must conduct radon testing in all units that are recruited into your LHR program if your target area is located within EPA radon zones 1 or 2 (a spreadsheet with radon zone designation by county is available at on EPA’s website: [https://www.epa.gov/radon/find-information-about-local-radon-zones-and-state-contact-information](https://www.epa.gov/radon/find-information-about-local-radon-zones-and-state-contact-information)) If your target area is in zone 3 you are encouraged to test for radon in all units because, although radon levels are generally lower than in zones 1 and 2, it is still possible to find elevated levels (i.e., at or above 4 picocuries per liter (pCi/L)) in zone 3. If testing identifies a radon level at or above the EPA action level of 4 picocuries per liter of air (4 pCi/L) mitigation must be conducted by a professional that is credentialed by the National Radon Proficiency Program (NRPP) or the National Radon Proficiency Program NRSB and licensed/certified in the state in which the work is being conducted, if required by the state.

- Testing must be conducted by a professional who is currently credentialed by the NRPP or the NRSB and licensed/certified in the state in which the work is being conducted if the state has this requirement. Radon testing and mitigation must be conducted according to the current AARST/ANSI consensus standards for the specific housing type [https://standards.aarst.org/](https://standards.aarst.org/). The EPA estimates that about 1 in 15 homes (~ 7%) in the U.S. have elevated radon levels. This ranges from about 20% of homes in EPA highest risk radon zone (Zone 1) to about 2% of homes in the lowest risk zone (Zone 3).

- The EPA’s radon zone map for the U.S. and a spreadsheet with radon zone designation by county is available at on EPA’s website: [https://www.epa.gov/radon/find-information-about-local-radon-zones-and-state-contact-information](https://www.epa.gov/radon/find-information-about-local-radon-zones-and-state-contact-information) Many states have also developed radon maps for their states which use more data than was available for the development of the EPA map in the early 1990’s.

- The average cost of professional radon testing is about $140 for a single-family home, with an average mitigation cost of $1,500 for a single-family home.

7. **Pre-award Costs.** Pre-award costs are not eligible for reimbursement. All costs reimbursed must be incurred within the established period of performance, not before. Any expenses for application preparation or coordination are the responsibility of the applicant in full.

**Indirect Cost Rate.**
Normal indirect cost rules under 2 CFR part 200, subpart E apply. If you intend to charge indirect costs to your award, your application must clearly state the rate and distribution base you intend to use. If you have a Federally negotiated indirect cost rate, your application must also include a letter or other documentation from the cognizant agency showing the approved rate. Successful applicants whose rate changes after the application deadline must submit new rate
and documentation.

**Applicants other than state and local governments.** If you have a Federally negotiated indirect cost rate, your application must clearly state the approved rate and distribution base and must include a letter or other documentation from the cognizant agency showing the approved rate. If your agency does not have a current negotiated rate (including provisional) rate and elects to use the de minimis rate, your application must clearly state you intend to use the de minimis rate of 10% of Modified Total Direct Costs (MTDC). As described in 2 CFR 200.403, costs must be consistently charged as either indirect or direct costs but may not be double charged or inconsistently charged as both. Once elected, the de minimis rate must be applied consistently for all Federal awards until you choose to negotiate for a rate, which you may apply to do at any time. Documentation of the decision to use the de minimis rate must be retained on file for audit.

**State and local governments.** If your department or agency unit has a Federally negotiated indirect cost rate, your application must include that rate, the applicable distribution base, and a letter or other documentation from the cognizant agency showing the negotiated rate. If your department or agency unit receives more than $35 million in direct Federal funding per year, you may not claim indirect costs until you receive a negotiated rate from your cognizant agency for indirect costs as provided in Appendix VII to 2 CFR Part 200.

If your department or agency unit receives no more than $35 million in direct Federal funding per year and your department or agency unit has developed and maintains an indirect cost rate proposal and supporting documentation for audit in accordance with 2 CFR Part 200, Appendix VII, you may use the rate and distribution base specified in that indirect cost rate proposal. Alternatively, if your department or agency unit receives no more than $35 million in direct Federal funding per year and does not have a current negotiated rate (including provisional) rate, you may elect to use the de minimis rate of 10% of MTDC. As described in 2 CFR 200.403, costs must be consistently charged as either indirect or direct costs but may not be double charged or inconsistently charged as both. Once elected, the de minimis rate must be applied consistently for all Federal awards until you choose to negotiate for a rate, which you may apply to do at any time. Documentation of the decision to use the de minimis rate must be retained on file for audit.

Statutory or Regulatory Restrictions Apply – ONLY if a statute or regulation imposes restrictions that are different from the indirect cost rate requirements in 2 CFR 200, OR there has been a HUD-wide decision to prevent program offices from seeking an approved deviation from the negotiated rates under the conditions provided by 2CFR 200.414(c).

G. Other Submission Requirements.

1. Application, Assurances and Certifications.

Standard Form 424 (SF-424) Application for Federal Assistance Programs is the government-wide form required to apply for Application for Federal Assistance Programs, discretionary Federal grants and other forms of financial assistance programs. Applicants for this Federal assistance program must submit all required forms in the SF-424 Family of forms, including SF-
424B (Assurances of Non construction Programs) or SF424D (Assurances for Construction Programs). Applications receiving funds for both non-construction programs and construction programs must submit both the SF-424B and SF-424D.

By signing the forms in the SF-424 either through electronic submission or in paper copy submission (for those granted a waiver), the applicant and the signing authorized organization representative affirm that they have reviewed the certifications and assurances associated with the application for Federal assistance and (1) are aware the submission of the SF-424 is an assertion that the relevant certifications and assurances are established and (2) acknowledge that the truthfulness of the certifications and assurances are material representations upon which HUD will rely when making an award to the applicant. If it is later determined the signing authorized organization representative to the application made a false certification or assurance, caused the submission of a false certification or assurance, or did not have the authority to make a legally binding commitment for the applicant, the applicant and the individual who signed the application may be subject to administrative, civil, or criminal action. Additionally, HUD may terminate the award to the applicant organization or pursue other available remedies. Each applicant is responsible for including the correct certifications and assurances with its application submission, including those applicable to all applicants, those applicable only to Federally recognized Indian tribes, or Alaska native villages and those applicable to applicants other than federally recognized Indian tribes or Alaska native villages.

Assurances. By submitting your application, you provide assurances that, if selected to receive an award, you will comply with U.S. statutory and public policy requirements, including, but not limited to civil rights requirements. Applicants and recipients are required to submit assurances of compliance with federal civil rights requirements. See, e.g., Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments Act of 1972, Section 504 of the Rehabilitation Act of 1973, and the Age Discrimination Act of 1975; see also 24 C.F.R. §§ 1.5; 3.115; 8.50; and 146.25. HUD accepts these assurances in the form of the SF-424B and SF-424D, which also require compliance with all general federal nondiscrimination requirements in the administration of the grant.

V. Application Review Information.
A. Review Criteria.

1. Rating Factors.
HUD will consider whether your application is clear, concise and well organized. Each rating factor is reviewed independently. Be sure your response for each rating factor does not include information that belongs with another rating factor.

### Total Points Possible

<table>
<thead>
<tr>
<th>Qualitative Rating</th>
<th>Rating level explanation</th>
<th>%</th>
</tr>
</thead>
<tbody>
<tr>
<td>Outstanding</td>
<td>Answer is thorough and provides high confidence that the criteria are surpassed, or that the applicant will likely surpass the performance criteria covered by the question within the time and cost established. There were no weaknesses noted. The description gives confidence of high probability of success.</td>
<td>100</td>
</tr>
<tr>
<td>Excellent</td>
<td>No significant weakness noted. Weaknesses or concerns can be corrected with just a moderate amount of effort. In general, the answer gives confidence that the applicant will likely meet the performance criteria covered by the question with the time and cost established.</td>
<td>75</td>
</tr>
<tr>
<td>Good</td>
<td>Answer provided generally meets the standards required, but has information weaknesses, or design or concept flaws that, while correctable, will likely require considerable effort. The applicant may not have fully answered the question. The answer is mediocre, and therefore, gives concern whether the applicant will meet the performance criteria covered by the question within the time and cost established.</td>
<td>50</td>
</tr>
<tr>
<td>Fair</td>
<td>Answer is vague or has substantial programmatic weaknesses that would require substantial efforts to correct. There is a low likelihood that the applicant will meet the performance criteria covered by the question within the time and cost established.</td>
<td>25</td>
</tr>
<tr>
<td>Poor or Non-Responsive</td>
<td>Applicant did not address question or answer shows a lack of understanding of requirements and/or concepts. Poor design concept and no or very little confidence that the applicant will meet the performance criteria covered by the question within the time and cost established. Success regarding this element is very unlikely.</td>
<td>0</td>
</tr>
</tbody>
</table>

### Rating Factor One

For this NOFO, the three categories of funding for applicants to apply for are:

- **Sub-category A** Large, urban jurisdictions that have had an LBPHC or LHRD grant:
  1. Applicants that do not have current funding

- **Sub-category B** Other state and local jurisdictions that have had an LBPHC or LHRD grant
  1. Applicants that do not have current funding

- **Sub-category C** Jurisdictions that will be considered new:
  1. Applicants that have never had a LBPHC or LHRD grant
2. Applicants for which the last LBPHC or LHRD grant period of performance ended two (2) or more years before the application submission deadline for this program.

To assist applicants in responding to the appropriate sections of this rating factor; a table is provided to guide applicants based on the sub-category of applicant described above:

**Subfactor Title and Points Possible by applicant sub category for Rating Factor 1**

Provide a narrative response for each prompt within the sub-category that best fits your organizational type. These responses are to be included in the fifteen (15) page limit:

**a. Performance History: (Sub-Category A and B only)**

HUD will consider numerous factors of your prior performance, performance against benchmarks, and other relevant information, to evaluate capacity and relevant organization experience. If you have a current LBPHC or LHRD grant at the time of application, and your grant’s performance is below seventy-five percent (75%) of any of the performance benchmarks as documented in the Healthy Homes Grants Management System (HHGMS) on the submission deadline, or the grant is in a High Risk Status at the time of application deadline, or if you had a previous LBPHC or LHRD grant for which the period of performance ended in calendar years 2019 or 2020 with the grant on High Risk Status: Your narrative must describe the structural and operational reforms you have made to address those issues (not merely, e.g., replacing the program manager and/or other staff.

**b. Program Administration and Oversight: (All applicants)**

1. Describe how you will administer this program, including how you will address oversight and financial management and provide examples of current financial reports.
2. Describe how funding will flow from you to those who will perform work under you in this program, and whether and, if so, how you will ensure that acceptable work is
conducted, and acceptable products were provided before you pay invoices and before you submit invoices to HUD.

3. If awarded a grant, you are committing to working in the described target area and shall develop a work plan for which the recruitment, evaluation and control elements are provided proportionately to the need in each.

4. You must describe the safeguards in place to avoid co-mingling of funds whether funded by HUD, or other agencies. Current Lead-Based Paint Hazard Control grantees must describe their plans to implement lead hazard control activities under this NOFO with other ongoing Lead-Based Paint Hazard Control grant program funds.

5. Describe your procedures and electronic management systems you will use to ensure proper program oversight and monitoring, and if you will conduct it, targeted monitoring, of all sub-recipients and contractors to ensure conformity to the terms, conditions and specifications of contracts or other formal agreements.

6. Your key personnel must include at minimum a Project Director (PD), Program Manager (PM), and Fiscal Officer (FO). Describe the roles and responsibilities of each key personnel, and include their resumes up to three (3) pages in length. Key personnel must not work on another LBPHC, LHRD, or LHR grant unless such other grant has reached the end of its period of performance.

7. The Program Manager must commit seventy-five percent (75%) of his/her time to the program and obtain lead abatement supervisor and lead inspector risk assessor certifications within sixty days (60) of hire. A candidate may be approved conditionally, based on acquiring the certification within sixty days (60) and working with a mentor that has the responsibility of reviewing and approving unit documents. The Government Technical Representative (GTR) will determine the candidate’s readiness before final approval of the candidate. In addition, if the Program Manager oversees or completes onsite unit monitoring, then a lead safe work practices class is also expected to be completed. If you have not yet hired a Program Manager, you must attach the job announcement, as well as a letter of commitment for the intent to hire from the leadership of your agency. Additional Program Manager details for this NOFO are provided in Appendix C.

c. Sub recipient and Sub grantee: (All applicants)

1. You must list and describe sub-recipients, sub-contractor organizations, partners or consultants at all tiers that will provide critical services and activities as part of program. Also, include qualifications and experience in initiating and implementing related environmental, health, or housing programs.

2. List the respective roles and responsibilities of key personnel; their qualifications, experience, and the percentages of time to be committed. Include the DUNS number and Legal Business Name of all partnering organizations.

d. Partnerships (All Applicants)
1. Demonstrate your organizational experience or most recent lead hazard control grant achievements; a measurable outcome by collaborating with public private partnerships in the community you served such as, Women Infants, and Children (WIC), Health Department, Housing Authorities, Code Enforcement, Community Development, etc. Indicate what enduring enhancements or expansion of the local infrastructure or program services, reach or policy resulted from your activities.

2. Engaging with External Agencies: Describe your involvement in coordination among critical agencies, including participation in the state-wide or jurisdiction-wide strategic plan to eliminate childhood lead poisoning as a major health problem.

3. Involving Grass-roots Organizations. Describe how grassroots community-based nonprofit organizations, including faith-based organizations, will be involved in your grant program’s activities. These activities may include outreach, community education, marketing, program sustainability activities and lead-based paint inspections/risk assessments and lead hazard control work.

e. Contractor Capacity and Public Private Partnerships (All applicants)

1. Describe the quality and number of lead abatement contractors; Lead Abatement Supervisor and Lead Abatement Worker (LAS/LAW) capacity to support unit production in a competitive contracting environment. Include activities that will be taken to recruit and retain additional contractor firms and workers to serve the program production benchmarks.
2. What resources will be used to implement capacity building in the intensive reduction of lead hazards during and after the start of the grant?

Rating Factor Two

Target Area Need

It is the intent of the program to ensure lead hazard reduction applicants serve community residents with highest lead needs, per Title X criteria. In order to effectively leverage grant resources, applicants must identify one or more high need target areas in their respective jurisdictions for proposed lead hazard evaluation and control activities. The target area(s) must be clearly specified, and may include more than one city, town, borough, or comparable local jurisdiction within the applicant’s jurisdiction.

Points for Rating Factor Two will be determined according to the need for lead hazard control outlined in the description of the targeted area. Low-income families with children should make up a significantly higher proportion of the population within the target area compared to the
state average, and instances of elevated blood lead levels reported should be significantly higher in the target area than the state average.

Note that a jurisdiction that is eligible for a grant under the Areas with the Highest Lead-Based Paint Abatement Needs grant category may choose to apply under the Other Jurisdictions category.

1. Housing Stock and Blood Lead Data - Quantitative Data (27 Points)
Using one of the tables 1A or 1B below, all applicants must provide the following data for designated target area(s)

- Total # of Occupied Pre-1978 Housing Stock for both Rental and Owner Occupied
- Total # of Occupied Housing Stock
- Number of Children under six years (6) of age;
- Total Population;
- Number of Low-Income Families at or below eighty (80%) of Area Median Income; and Total Population of Families.

Table 1A: Target Area Data (Other Jurisdictions and Never-Before-Grantee Applicants Only)
All Other Jurisdiction and Never-Before-Grantee Applicants must complete Table 1A: Target Area Data. To obtain percentages for Table 1A, divide the Target Area Data by the Comparison Data. Points will be applied based on the following scale for each resulted target data category. If the applicant’s jurisdiction, such as a county includes another jurisdiction that will not be a part of the target area (e.g., the county’s health department works only in the suburbs because the city’s health department works within the city limits), reduce the numbers of units, children, and families to reflect that exclusion, and calculate the percentages accordingly. For all information provided, sources of data, including website addresses, must be included in the second part of the table; data without a valid source will be considered not to have been provided. The applicant is responsible for expending funds proportionately within the total jurisdiction in which the funds are being requested and for which points will be awarded.

Table 1C: Elevated Blood Lead Level Prevalence

All applicants must complete table 1C, Elevated Blood Lead Level Prevalence. The table is to show the number and percentage of children under age six (6) in the applicant’s jurisdiction tested for their blood lead level and having a confirmed elevated blood lead level; and the number and percentage of children under age six (6) in the target area having a confirmed elevated blood lead level.

- In the first data row, all applicants must show the percentage of children under age 6 in their jurisdiction tested for confirmed Elevated Blood Lead Level (EBLL), using the jurisdiction’s definition, and the data from which that percentage is calculated.
- As described in the data sources portion of table 1C, if the state uses an EBLL threshold of 5.0 µg/dL, the applicant must use the CDC National Childhood Blood Lead Surveillance Data website’s National Surveillance Data table, or, if the state uses another EBLL threshold, the applicant must specify the threshold and provide the data source, including website address.
- Applicants for other grant categories need not complete the second data row.
- In the third data row, all applicants must show the percentage of children under age six (6) in the target area with a confirmed EBLL (>= 5 µg/dL), and the data from which that percentage is calculated.

If the applicant’s jurisdiction, such as a county includes another jurisdiction that will not be a part of the target area (e.g., the county’s health department works only in the suburbs because the city’s health department works within the city limits), reduce the numbers of children in the various blocks to reflect that exclusion, and calculate the percentages accordingly. For all information provided, sources of data, including website addresses, must be included in the second part of the table; data without a valid source will be considered not to have been provided. The applicant is responsible for expending funds proportionately within the total jurisdiction in which the funds are being requested and for which points will be awarded.

Using table 1C below, all applicants must provide the following data for your jurisdiction and your proposed target area:

For all information provided, sources of data, including website addresses, must be included in the second part of the table; data without a valid source will be considered not to have been provided.

a. Provide the total number of children in your jurisdiction (city, county, or reservation) under the age of six (6), and the number of children in your jurisdiction under the age of six (6) who were tested for confirmed elevated blood lead levels per the definition used by your jurisdiction (whether federal, state, tribal, or local), in the most recent year (a calendar year or the end of a twelve (12)-month period) in 2015-2019 for which data are available for both measures.

b. Provide the total number of children under the age of six (6) in the proposed target area, and the number of children under the age of six (6) in the proposed target area with a
blood lead level of 5 µg/dL or above in the proposed target area(s), in the most recent year (a calendar year or the end of a twelve (12)-month period) in the 2015-2019 for which data are available for both measures.

2. Target Area Need - Narrative Responses (3 points)

After completing the requested tables in Section One, all applicants must answer the following questions in narrative form and provide the data source for each.

1. Describe the defined Elevated Blood Lead Level (EBLL) and blood lead testing requirements for your jurisdiction (city, county, or state). (1 point)

2. Provide a link and brief description of the city or state’s Case Management Plan. (1 point)

3. Provide a brief explanation of how you will use the data to select and prioritize housing units for lead hazard control work under the grant. (1 point)

An applicant that has never had an LHC grant may have applied previously, so it may not be a new applicant.

Rating Factor Three

Budget Estimate of Costs

You must thoroughly estimate all applicable costs, including direct, indirect, and administrative expenses, and present them in a clear and coherent format. Note that HUD is not required to approve or fund all proposed activities if awarded. In completing your estimations, you must document and justify all budget categories and costs and all major tasks of your organization, sub-recipients, major sub-contractors, joint venture participants, or others contributing resources to the project.

Budget Planning Documentation (Required Attachments) (10 Points)

1. A separate budget must be submitted using the HUD_424_CBW: HUD Detailed Budget Worksheet for yourself and for each partner that would receive more than ten percent (10%) of the federal budget request, for the lead hazard control activities.

2. Similarly, if you are applying for Healthy Homes’ Supplemental funding, you must submit a HUD_424_CBW: HUD Detailed Budget Worksheet for yourself and for each
partner that would receive more than ten percent (10%) of the Healthy Homes Supplemental funding, for the healthy homes activities.

3. HUD 424 CBW: The Primary Budget must include the following specific information in the appropriate columns when attached:

   a. Plan for using high level of funding:

   1. If you have had a previous LBPHC, LHRD, or LHR grant, describe your plan for using the increased amount of funding if awarded a grant under this NOFO compared to how funding was used under the previous grant. A particular emphasis on how you would use your funds to produce at least proportionately greater numbers of:

      - Housing units made lead safe,
      - Individuals trained in lead-safe work practices and certified in EPA or State (as applicable) lead certification disciplines, and
      - Members of the target area community educated in residential lead safety.

   2. If you have not had a previous LBPHC, LHRD, or LHR grant:

      a. Describe your plan for using and managing the large amount of funding if awarded a grant under this NOFO, with particular emphasis on how you would use your funds to produce large numbers of housing units made lead safe and individuals trained, as defined above for applicants that have had a grant.

      b. Controls to ensure proper use of high level of funding: Describe your plan to ensure proper use of funds if awarded a grant under this NOFO with a high level of funding, considering, especially, the criteria of 2 CFR 200.302, Financial Management, and other regulatory sections cited there, and applicable state and local laws, regulations, and policies on funding controls.

      c. You must identify the number of units and average expected cost in your budget documents. You will be evaluated on the extent to which resources are appropriate for the scope of the proposed project.

      d. You must provide clear details on administrative costs (maximum ten percent (10%) of grant, excluding Healthy Homes Supplemental funds), staffing costs and details on which costs are included and not included in the direct lead hazard control minimum cost requirement.

      e. You must clearly identify the funding or cash equivalent amounts being provided as matching resources. These descriptions must include: the amounts and sources and use of any contributions being received and must be detailed and supported by letters of commitment.

      f. Applicants must include all amounts they detailed in response to Section III.B, Cost Sharing or Matching, above, regarding the minimum match requirement.

**Additional Match (3 points)**

If you provide any additional match beyond the minimum ten percent (10%) statutory requirement your application will receive additional points during the review process. Additional match must be provided using the same methods in Section III.B, Cost Sharing or Matching.
Matching, above, identifying the additional contributions from State, local, government, and private (e.g., philanthropies, nongovernmental organizations, community development corporations, for-profit firms, landlords.

The following table describes the points available for additional match: In awarding points, fractional percentages will be rounded down to whole number percentages, and will not be rounded up (e.g., a Lead-Based Paint Hazard Control application providing 11.99% match resources will be treated as 11% and receive 1 points).

</tbody>
</table>

Budget Justification Narrative (Required Attachments): (10 points)
All cost proposed must be reasonable, allowable, allocable and necessary to the project per the requirements of 2 CFR 200 Subpart E- Cost Principles.
You must submit the budget narrative justification attachment associated with each budget HUD 424 CBW that includes all budgeted costs as part of the Total Budget (Federal Share and Matching) that correspond to that HUD 424 Budget including those submitted for partners and Healthy Homes funds.

1. Submit a separate narrative justification for yourself and for each partner that is submitting a separate HUD 424 CBW Detailed Budget Worksheet to comply with the requirement for those that would receive 10 percent or more of the federal award amount for lead hazard control activities. Each and every HUD 424 CBW submitted must be accompanied by a detailed budget justification that describes what you are expecting to accept as invoices under each line item total. Each expense must be unique, reasonable and eligible under the requirements and limitations of this award as described above either by summary or reference.

2. Similarly, if you are applying for Healthy Homes Supplemental funding, a separate narrative justification must be submitted for yourself and each partner that would receive ten percentage (10%) or more of the Healthy Homes Supplement funding, for healthy homes activities. Please refer to the OLHCHH Policy Guidance PG 2017-5; the Healthy Homes Supplemental Funds (https://www.hud.gov/program_offices/healthy_homes/lbp/pg); to identify what cost are eligible to include.

The Budget narrative document should include all the following details:
1. Detail or denote administrative costs, indirect costs, staffing costs and details on which costs are included and not included in the direct lead hazard control minimum cost requirement for each category/line items.

2. Detail or denote the funding or cash equivalent amounts being provided as matching resources for both resources which are statutorily required and those resources above the statutory minimum.

3. Detail, with examples, that the activities of all staff included for HUD-funded share or match are providing an eligible, unique, and reasonable contribution to the OLHCHH award.

4. Justify the allocation of funds among successfully completed tasks, units within your organization, and your partners, in support of the scope of the proposed project. Your narrative should show enough detail by line and category that provides transparency and linkage between production of successfully treated housing units, whether for lead or both lead and healthy homes, and payments associated with activities that resulted in those units being treated, from the outreach stage through recruitment, enrollment, evaluation and control, and clearance for re occupancy. (For lead, clearance is as described in section III, above; for healthy homes, this may be quantitative or qualitative, as appropriate for the intervention, as you should detail in your narrative). A Sample Budget Narrative for this NOFO are provided in Appendix B.

Answer the following questions by including a narrative response within the fifteen (15)-page maximum:

Fiscal Oversight and Financing Strategy Narrative (included in fifteen (15)-page maximum):

(3 points)

1. Discuss your lead hazard control financing strategy (i.e., the type of assistance - grants, deferred/forgivable loans, etc.), including verification of income eligibility requirements, terms, conditions, dollar limits, amounts available for lead hazard control work in the various categories of housing (e.g., single-family, multi-family, vacant, owner or tenant-occupied).

2. Identify who is responsible and their technical program expertise for establishing, administering and overseeing the fiscal aspect of the program which may include bidding, procurement, and contracting the unit work.

3. Describe the role of other fiscal resources such as private sector financing and matching, if any, including from rental property owners.

4. Describe how the recapture of grant or loan funds to owners of housing units treated under this program will occur if recipients fail to comply with any terms and conditions of the financing arrangement (e.g., failure to comply with fair housing and civil rights requirements, affordability, affirmative marketing and providing priority to renting units to families with a child under the age of six (6) years for a period of three (3) years, sale of property requirements).
5. Describe how you will keep costs per housing unit under tight control, so that the maximum number of children and families will have their health and safety protected as an outcome of your work.

Section 3 Strategy (2 Points):

1. Describe your strategy for hiring local low-income residents, providing training opportunities and awarding contracts to local Section 3 businesses.
2. Applicants should:
   a) outline their plan to notify residents and contractors about jobs and contracts that may become available
   b) notify potential contractors about the requirements of Section 3;
   c) hire community residents and award contracts to local businesses; and
   d) assist in obtaining compliance among contractors and subcontractors.

Sustainability of Fiscal Resources (2 Points):

1. Describe in detail your plan for sustaining your lead hazard control accomplishments in additional housing units within and/or outside of your target area after the end of the period of performance of this grant, preferably including letters of commitment explicitly for that period.
2. If you are applying for Healthy Homes Supplemental funding, describe in detail your plan for sustaining your healthy homes accomplishments in additional housing units within and/or outside of your target area after the end of the period of performance of this grant, preferably including letters of commitment explicitly for that period.

2. Other Factors.

Section 3.

In accordance with HUD's Section 3 regulations at 24 CFR 75.7, your application will receive up to 2 points based the quality of Section 3 plans.*

* The inclusion of points or bonus points will be determined “as appropriate for the specific NOFO.” HUD anticipates that program offices/areas will include scoring for Section 3 plans where relevant and exclude Section 3 scoring where the nature of the grant being awarded is incompatible with Section 3 endeavors. If points or bonus points are included, the applicable program office/area will be responsible for determining how the “quality of Section 3 plans” will be evaluated.

Preference Points

HUD encourages activities in support of the Secretary's Initiatives. HUD may award no more than two (2) points for any of the three (3) preferences (OZ, PZ or HBCU). Each preference is
worth two points and only one preference can apply to any situation, meaning that applicants will ONLY be awarded 2 points for being within an OZ, PZ or involving HBCUs.

**Opportunity Zones.**

**Opportunity Zone (OZ) Certification:** HUD encourages activities in Opportunity Zones. To receive two (2) points for this preference, applicants proposing projects in an Opportunity Zone community must submit the Certification for Opportunity Zone Preference Points (HUD-2996) that identifies the state, county and census tract(s) of the opportunity zone(s) in which the activity will be carried out. To view the list of designated Opportunity Zones, please see the following link on the U.S. Department of the Treasury website: [https://opportunityzones.hud.gov/](https://opportunityzones.hud.gov/)

Applicants who do not complete this form and submit it along with the rest of their application package will not be eligible to receive the points. Additionally, applicants who do complete and submit this form, but indicate they intend to use less than 50% of the award within Opportunity Zone tracts, will also be ineligible to receive preference points, unless: a.) the applicant can show why they are unable to expend at least 50% of the grant award within Opportunity Zone designated tracts, or b.) the applicant is able to make a compelling case for why the amount that will be expended will have a significant impact within Opportunity Zone designated tracts. [Click here to view HUD’s Opportunity Zones webpage.](https://opportunityzones.hud.gov/)

**HBCU.**
This program does not offer HBCU preference points.

**Promise Zones**
HUD encourages activities in Promise Zones (PZ). To receive Promise Zones Preference Points, applicants must submit form HUD-50153, “Certification of Consistency with Promise Zone Goals and Implementation,” signed by the Promise Zone Official authorized to certify the project meets the criteria to receive preference points. To view the list of designated Promise Zones and persons authorized to certify, please see the [Promise Zone](https://www.hud.gov) pages on HUD’s website.

**B. Review and Selection Process.**

1. **Past Performance**
   In evaluating applications for funding, HUD will consider an applicant’s past performance in managing funds. Items HUD will consider include, but are not limited to:

   Timely use of funds received from HUD;

   The ability to account for funds in compliance with applicable reporting and recordkeeping requirements;

   Timely submission and quality of reports submitted to HUD;

   Meeting program requirements;

   Meeting performance targets as established in the grant agreement;

   The applicant's organizational capacity, including staffing structures and capabilities;

   Timely completion of activities and receipt and expenditure of promised matching or leveraged funds;
The number of persons served or targeted for assistance;

HUD may reduce scores based on the past performance review, as specified under V.A. Review Criteria. Whenever possible, HUD will obtain past performance information. If this review results in an adverse finding related to integrity of performance, HUD reserves the right to take any of the remedies provided in Section III E., Statutory and Regulatory Requirements Affecting Eligibility, "Pre-selection Review of Performance" document link above.

In evaluating risks posed by applicants, HUD may use a risk-based approach and may consider any items such as the following:

- Financial stability;
- Quality of management systems and ability to meet the management standards prescribed in this part;
- History of performance. The applicant's record in managing Federal awards, if it is a prior recipient of Federal awards, including timeliness of compliance with applicable reporting requirements, failing to make significant progress in a timely manner, failing to meet planned activities in a timely manner, conformance to the terms and conditions of previous Federal awards, and if applicable, the extent to which any previously awarded amounts will be expended prior to future awards;
- Reports and findings from audits performed under Subpart F—Audit Requirements of this part or the reports and findings of any other available audits; and
- The applicant's ability to effectively implement statutory, regulatory, or other requirements imposed on non-Federal entities.

In addition to the performance review described in previous sections; each grant program must have a framework for evaluating the degree of risks posed by applicants before they receive Federal awards. As a result of the risk evaluation an applicant may be awarded with special conditions applied to the award that correspond to the degree of risk assessed or the applicant may be determined ineligible due to the operational risk it has historically posed to HUD, OLHCHH or other federal agencies as applicable. Possible risk indicators that could impact the risk evaluation determination could include the following elements of the described approach for use of funds:

1. Size of potential subaward
2. Size and diversity of federal award portfolio of entity applying
3. Impact of subaward on operations
4. Past federal award experience of applicant with OLHCHH with HUD or other Federal Agencies
5. Past federal award experience of applicant of Key staff
6. Extent of other oversight (audits, monitoring)

Minimum Score. Applications scoring seventy-five (75) points or more will be eligible to receive an award. Applications will be scored and ranked, based on the total number of points allocated for each of the rating factors described in Section V.A of this NOFO. The maximum number of points to be awarded is 102.
VI. Award Administration Information.
A. Award Notices.

Following the evaluation process, HUD will notify successful applicants of their selection for funding. HUD will also notify other applicants, whose applications were received by the deadline, but have not been chosen for award. Notifications will be sent by email to the person listed as the AOR in item 21 of the SF424.

Negotiation. After HUD has made selections, HUD will negotiate specific terms of the funding agreement and budget with selected applicants. If HUD and a selected applicant do not successfully conclude negotiations in a timely manner, or a selected applicant fails to provide requested information, an award will not be made to that applicant. In this case, HUD may select another eligible applicant.

HUD may impose special conditions on an award as provided under 2 CFR 200.208:

- Based on HUD’s review of the applicant’s risk under 2 CFR 200.206;
- When the applicant or recipient has a history of failure to comply with the general or specific terms and conditions of a Federal award;
- When the applicant or recipient fails to meet expected performance goals contained in a Federal award; or
- When the applicant or recipient is not otherwise responsible.

Adjustments to Funding. To ensure the fair distribution of funds and enable the purposes or requirements of a specific program to be met, HUD reserves the right to fund less than the amount requested in an application.

a. HUD will fund no portion of an application that:
   (1) Is not eligible for funding under applicable statutory or regulatory requirements;
   (2) Does not meet the requirements of this notice; or
   (3) Duplicates other funded programs or activities from prior year awards or other selected applicants.

b. If funds are available after funding the highest-ranking application, HUD may fund all or part of another eligible fundable application. If an applicant turns down an award offer, or if HUD and an applicant do not successfully complete grant negotiations, HUD may withdraw the award offer and make an offer of funding to another eligible application.

c. If funds remain after all selections have been made, remaining funds may be made available within the current FY for other competitions within the program area, or be held for future competitions, or be used as otherwise provided by authorizing statute or appropriation.

d. If, after announcement of awards made under the current NOFO, additional funds become available either through the current appropriations, a supplemental appropriation, other appropriations or recapture of funds, HUD may use the additional funds to provide additional funding to an applicant awarded less than the requested amount of funds to make the full award, and/or to fund additional applicants that were eligible to receive an award but for which there were no funds available.
**Funding Errors.** If HUD commits an error that when corrected would cause selection of an applicant during the funding round of a Program NOFO, HUD may select that applicant for funding, subject to the availability of funds. If funding is not available to award in the current fiscal year, HUD may make an award to this applicant during the next fiscal year, if funding is available then.

Successful applicants will receive a letter from the Office of Lead Hazard Control and Healthy Homes providing details regarding the effective start date of the grant agreement and any conditions, additional data and information to be submitted to execute the grant. They will then participate in negotiations to determine the specific terms of the grant agreement, budget, work plan, benchmarks, or other requirements. If HUD is not able to successfully conclude negotiations with a selected applicant within a period determined by HUD, an award will not be made.

If you accept the terms and conditions of the grant agreement, you must return a signed grant agreement by the date specified. Instructions on how to have the grant agreement account entered into HUD’s Electronic Line of Credit Control System (eLOCCS) payment system will be provided. In accordance with 2 CFR part 200, subpart F—Audit Requirements, if you expend $750,000 in federal funds in a single year, you must follow the requirements of the Single Audit Act and must submit your completed audit-reporting package along with the Data Collection Form (SF-SAC) to the Single Audit Clearinghouse. The address can be obtained from its website. The SF-SAC can be downloaded from: Single Audit Clearinghouse.

NOTE: HUD reserves the right to delay execution of the grant award based on performance of current awards. Delays will be considered and assessed based on the following criteria:
1. Period of Performance Extension Status at the time of a currently funded grant
2. High Risk Status placement on a currently funded grant during the application review period
3. Unresolved monitoring or OIG Audit findings regarding a currently funded grant
4. OLHCHH Discretion

### B. Statutory and Administrative, National and Department Requirements for HUD Recipients

For this NOFO, the following Administrative, National and Department Policy Requirements and Terms for HUD Financial Assistance Awards apply. (Please select the linked text to read the detailed description of each applicable requirement).

1. Unless otherwise specified, these non-discrimination and equal opportunity authorities and other requirements apply to all NOFOs. Please read the following requirements carefully as the requirements are different among HUD’s programs.
   - Compliance with Fair Housing and Civil Rights Laws, Which Encompass the Fair Housing Act and Related Authorities (cf. 24 CFR 5.105(a)).
   - Affirmatively Furthering Fair Housing.
   - Economic Opportunities for Low-and Very Low-income Persons (Section 3). See 24 CFR part 75.
   - Accessible Technology. See
2. Equal Access Requirements. See 24 CFR 5.105(a)(2)
5. Participation in HUD-Sponsored Program Evaluation.
7. Drug-Free Workplace.
8. Safeguarding Resident/Client Files.
10. Accessibility for Persons with Disabilities. See https://www.hud.gov/program_offices/fair_housing_equal_opp/disability_overview
12. Environmental Requirements, which include compliance with environmental justice requirements under Executive Order 12898.

Compliance with 24 CFR part 50 or 58 procedures is explained below:

Environmental Requirements for this NOFO are provided in Appendix E

13. Davis-Bacon Wage Rates. The Davis-Bacon wage rates are not applicable to this program. However, if you use grant funds in conjunction with other federal programs, Davis-Bacon requirements may apply to the extent required under the other federal programs.

2 CFR 200.216 Prohibition on Certain Telecommunication and Video Surveillance Services or Equipment

Lead Based Paint Requirements.

When providing housing assistance funding for purchase, lease, support services, operation, or work that may be disturb painted surfaces, of pre-1978 housing, you must comply with the lead-based paint evaluation and hazard reduction requirements of HUD's lead-based paint rules (Lead Disclosure; and Lead Safe Housing (24 CFR part 35)), and EPA's lead-based paint rules (e.g., Repair, Renovation and Painting; Pre-Renovation Education; and Lead Training and Certification (40 CFR part 745)).

Discrepancies between the NOFO on Grants.gov and other Documents
The Program NOFO posted at the [Grants.gov](https://www.grants.gov) website is the official document HUD uses to solicit applications. Applicants are advised to review their application submission against the requirements in the posted Program NOFO. If there is a discrepancy between the Program NOFO posted on [Grants.gov](https://www.grants.gov) and other information provided in any other copy or version or supporting documentation, the posted Program NOFO located at [Grants.gov](https://www.grants.gov) prevails. If discrepancies are found, please notify HUD immediately by calling the program contact listed in the Program NOFO. HUD will post any corrections or changes to a Program NOFO on the [Grants.gov](https://www.grants.gov) website. Applicants must enroll an email address at the application download page to receive an e-mail alert from [Grants.gov](https://www.grants.gov) in the event the opportunity is changed.

C. Reporting.

HUD requires recipients to submit performance and financial reports under OMB guidance and program instructions.

1. Recipient Integrity and Performance Matters. Applicants should be aware that if the total Federal share of your Federal award includes more than $ 500,000 over the period of performance, you may be subject to post award reporting requirements reflected in Appendix XII to Part 200-Award Term and Condition for Recipient Integrity and Performance Matters. If you execute a grant under this NOFO, reports must comply with the specific program reporting requirements as described below.

- If you purchase X-ray fluorescence (XRF) analyzers in excess of $5,000 a piece, you must complete and submit to OLHCHH the General Services Administration's annual Tangible Personal Property Report. This report has four components: the Annual Report, the Final (Award Closeout) Report, the Disposition Report/Request, and, if needed, the Supplemental Sheet. Generally, the average estimated time to complete each of these components is 0.5 hours; it is likely to be less for this grant program.

- Transparency Act Reporting. You must report on funding and expenditures for yourself and sub recipients to meet the requirements of the Federal Funding Accountability and Transparency Act of 2006.

2. FOIA Reporting. HUD makes frequently requested materials, including information on the highest-scoring funding grant applications available on its Freedom of Information Act (FOIA) website. To avoid disclosure of PII, proprietary information, business confidential information, or other content that should not be disclosed to the public, HUD will only post applications redacted pursuant to FOIA. Those recipients who receive the highest score in each competition must provide a redacted version of their applications within 30 days of notification from HUD that they submitted the highest-scoring application. If multiple applicants receive the same score, all of them will be asked to submit redacted applications. When submitting a redacted version, recipients may black out information that would be considered trade secrets and commercial or financial information and the information is privileged or confidential, as provided in 5 U.S.C. 552(b)(4), should the information be disclosed to the public. HUD will take the recipient’s proposed redactions under advisement when determining what information should be released to the public.
2. **Race, Ethnicity and Other Data Reporting.** HUD requires recipients that provide HUD-funded program benefits to individuals or families to report data on the race, color, religion, sex, national origin, age, disability, and family characteristics of persons and households who are applicants for, participants in, or beneficiaries or potential beneficiaries of HUD programs in order to carry out the Department’s responsibilities under the Fair Housing Act, Executive Order 11063, Title VI of the Civil Rights Act of 1964, and Section 562 of the Housing and Community Development Act of 1987.

NOFOs may specify the data collection and reporting requirements. Many programs use the Race and Ethnic Data Reporting Form HUD-27061, U.S. Department of Housing OMB Approval No. 2535-0113.

You must comply with reporting requirements of subpart E (Section 3 of the Housing and Urban Development Act of 1968, 12 U.S.C. § 1701u (Economic Opportunities for Low- and Very Low-Income Persons in Connection with Assisted Projects)) and the HUD regulations at 24 CFR 75 for projects for which Section 3 applies (see section IV.F.2, Program Requirements and Prohibitions).

You must collect demographic data throughout the performance period through an appropriate method that allows for annual reporting and filing of the HUD approved Race/Ethnic Form (HUD-27061).

4. **Compliance with the Federal Funding Accountability and Transparency Act of 2006 (Pub. L. 109-282) as amended (FFATA).** FFATA requires information on Federal awards be made available to the public via a single, searchable website, which is [www.USASpending.gov](http://www.USASpending.gov). Accordingly, each award HUD makes under this NOFO will be subject to the requirements provided by the Award Term in Appendix A to 2 CFR Part 170, “REPORTING SUBAWARD AND EXECUTIVE COMPENSATION INFORMATION,” unless the Federal funding for the award (including funding that may be added through amendments) is not expected to equal or exceed $30,000. Requirements under this Award Term include filing subaward information in the Federal Funding Accountability and Transparency Act (FFATA) Sub-award Reporting System ([FSRS.gov](http://FSRS.gov)) by the end of the month following the month in which the recipient awards any sub-grant equal to or greater than $30,000. Each applicant under this NOFO must have the necessary processes and systems in place to comply with this Award Term, in the event that they receive an award, unless an exception applies under 2 CFR 170.110.

5. **Program-Specific Reporting Requirements**

This program requires recipients to submit, not less than annually, a report documenting achievement of outcomes under the purpose of the program and the work plan in the award agreement. You must submit applicable quarterly, annual, and final program and financial reports according to the requirements of the OLHCHH, including new Transparency Act Reporting requirements. Specific guidance and additional details will be provided to successful applicants in the grant agreement. OLHCHH will include these reporting requirements in its terms and conditions as part of this grant agreement.
D. Debriefing.

For a period of at least 120 days, beginning 30 days after the public announcement of awards under this NOFO, HUD will provide a debriefing related to their application to requesting applicants. A request for debriefing must be made in writing or by email by the authorized organization representative whose signature appears on the SF-424 or by his or her successor in office and be submitted to the POC in Section VII Agency Contact(s), below. Information provided during a debriefing may include the final score the applicant received for each rating factor, final evaluator comments for each rating factor, and the final assessment indicating the basis upon which funding was approved or denied.

VII. Agency Contact(s).

HUD staff will be available to provide clarification on the content of this NOFO. Questions regarding specific program requirements for this NOFO should be directed to the POC listed below.

Name: Yolanda Brown
Phone: 202-903-9576
Email: Yolanda.A.Brown@hud.gov

Persons with hearing or speech impairments may access this number via TTY by calling the toll-free Federal Relay Service at 800-877-8339. Please note that HUD staff cannot assist applicants in preparing their applications.

IX. Other Information.

A Finding of No Significant Impact (FONSI) with respect to the environment has been made for this NOFO in accordance with HUD regulations at 24 CFR part 50, which implement section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

The FONSI is available for inspection at HUD's Funding Opportunities web page.

HUD’s Office of Lead Hazard Control and Healthy Homes administers this program, which is aligned with HUD’s Strategic Plan 2018-2022 (and HUD’s 2012-2015 Environmental Justice Strategy). The Strategic Plan includes a Strategic Objective to “Remove Lead-Based Paint Hazards and Other Health Risks from Homes.” The Environmental Justice Strategy, which is in the process of being updated (see http://portal.hud.gov/hudportal/documents/huddoc?id=HUDEnvJustStratUBF.pdf), addresses environmental and human health issues in high-risk populations, such as minorities, low-income homes, children, and people with disabilities. For more information about HUD’s Environmental Justice Strategy, refer to: HUD Environmental Justice Strategy Update.
