APPENDIX C

Protocol for Responsible Entities to Adopt the HUD Statewide Part 50/58 Programmatic Agreement

Background

HUD assisted projects require a historic preservation compliance review, otherwise known as a Section 106 review, which requires federal agencies to consider any impacts their projects may have on historic properties. This review process can be completed as outlined in 36 CFR 800 for individual projects, or a Programmatic Agreement (PA) may be developed as an alternative to expedite the review process for multiple projects. HUD has developed a model statewide PA that applies to HUD projects administered under both 24 CFR Part 58 and Part 50, when the unit of local government is the Responsible Entity (RE) mandated to ensure compliance with the National Environmental Policy Act and all related laws and authorities under Part 58, including Section 106, and Part 50, when HUD officials conduct the environmental review. The PA includes a list of project activities that are excluded from further review, provided the stipulations in the PA are met.

Individual Responsible Entities (REs) can opt to sign the PA and use its streamlining measures in their Section 106 reviews. Participation in the PA is voluntary, and an RE is always free to develop its own separate, individual PA or conduct reviews with the standard Section 106 process. To take advantage of the stipulations in the PA, an RE must be a party to the PA which can be achieved through implementing the protocols below.

HUD environmental regulations [24 CFR Part 58] require states and units of general local government to assume responsibility for environmental review of some HUD-assisted projects, like CDBG, HOME, Public Housing, and Continuum of Care (CoC). These Responsible Entities (REs) act as the federal agency in carrying out environmental reviews, including Section 106 reviews.

HUD has developed a template PA that covers Part 58 projects, as well as those subject to HUD's environmental regulations at 24 CFR Part 50 which requires HUD officials to conduct environmental review for some projects, like FHA mortgage financing of multifamily and healthcare projects. The PA contains a list of activities that are so unlikely to cause adverse effects to historic properties that they are excluded from further Section 106 review and was drafted by HUD in consultation. Examples of excluded activities include work on most buildings under 45 years old, roof repair, and kitchen and bath renovation. In order to take advantage the Exclusions, an RE must be a party to the PA. . During, development of the PA, HUD through its Office of Environment and Energy, facilitated consultation with statewide historic preservation organizations and federally recognized Indian tribes. REs who signed at the initial stage conducted outreach to the public and potentially interested parties in their jurisdiction about the PA, their intention to sign it as well as to solicit comments on the draft. Documentation of that outreach effort, and comments, were provided to HUD. The draft PA was revised based on comments received from HUD's outreach as well as that of the REs. Once the PA is executed by HUD, ACHP and the initial RE signatories, the PA is executed and cannot be modified, except as outlined in Stipulations XII and VIII of the PA. Listed below are the following guidelines should be used when an RE seeks to adopt the HUD Statewide Part 50/58 PA and use it to expedite Section 106 reviews conducted under Part 58.

Protocol to Adopt the HUD Statewide PA

Initiation

 An RE should notify the HUD Regional Environmental Officer or Field Environmental Officer in the Office of Environment and Energy (OEE) of their interest in adopting the PA for their jurisdiction. An RE may sign on to the PA during the initial consultation and execution of the PA or adopt the PA at a subsequent date. HUD is available to support and discuss the PA process with REs and assist them throughout the adoption process as necessary.

Public Outreach

HUD through its Office of Environment and Energy will facilitate consultation with statewide historic preservation organizations and federally recognized Indian Tribes during the initial development of the PA in the state. Before they adopt the PA, REs must inform other potentially interested parties in their jurisdiction about the PA, such as and their interest in adopting it. Such parties may include, but is not limited to, local historic preservation review commissions (whether or not the city participates in the SHPO's Certified Local Governments (CLG) program),) and local historic preservation organizations, and the general public in the community. This can be done by notice, letter, meeting, or other means. The RE must document their public outreach. The RE must inform the general public. This can be done by notice on a local government website, in a local newspaper, or other means. RE must consider any comments received in its decision on whether to sign the PA.

Execution of the 50/58 PA

• The RE must provide HUD with documentation of their public outreach. If insufficient, HUD will provide TA to RE on additional outreach required. HUD will provide the documentation to the SHPO when submitting the executed signature page to them.

Adoption of PA

- HUD will provide a signature page for each eligible RE.
- Some REs will participate in the initial consultation on the PA and will submit their signature page as part of the initial execution of the PA by HUD and multiple REs. The PA will become effective for a signatory RE after the ACHP has signed the PA.
- Some REs will provide their signature page to HUD after the initial execution of the PA. In that case, the RE may begin using the PA process for reviews effective the date of signature by the RE and submission to HUDOEE.
- On behalf of the REs, HUD Office of Environment and Energy the REO/FEO will notify SHPO, ACHP and Tribes of new signatories to the PA.
- HUD will post the RE signature pages on the Section 106 Agreements section of the HUD Historic Preservation page at <u>https://www.hudexchange.info/environmental-review/historic-</u> preservation/section-106-agreements/

Annual Report

- Per stipulation VI of the PA, the RE must prepare an Annual Report with a narrative and statistical overview of the actions taken by the RE in the previous year to implement the terms of the PA. HUD will provide data from HEROS on the RE's projects during the year. The RE must provide the report to the HUD Office of Environment and Energy Region 10, the SHPO, and the ACHP. Any of the parties may request a follow-up discussion of the report and its recommendations.
- REs are encouraged to use HEROS when preparing their Part 58 reviews to facilitate the preparation of the annual report required as per the PA.

For more information contact your HUD Regional Environmental Officer or Field Environmental Officer for your state. A list is available here: <u>https://www.hudexchange.info/programs/environmental-review/hud-environmental-staff-contacts/#region-i-regional-and-field-environmental-officers</u>
