Enterprise Income Verification (EIV 9.1)

"What's New"

TRACS Industry Meeting

March17, 2010

What's New in 9.1?

- Changes from the previous (September 14, 2009) release:
  - Added Unit code along with unit address for the tenant address in the Household Income Reports.
  - Removed statistics from the Identity Verification Reports.
  - New more powerful database backend with Oracle software (technical detail).

- EIV Security Test
    - Starting on 4/19/2010, users who are nearing the anniversary date of the last security test will have 30 days to take and pass the security test. During the 30-day period, when logging in, users will be reminded to take the test EIV.
    - Users will need to take the test once a year.
    - New users will have to pass the test before accessing EIV.
