FOREWORD

Under the provisions of the regulatory agreement, project owners are required to submit certain financial accounting reports to the Department for review. The financial statements are a critical tool through which Loan Management staff can evaluate the performance of a project. In addition, the timely review of financial statements can identify actions needed to avoid defaults and minimize insurance claims against the Department.

This Handbook provides the information needed to understand concepts and terms necessary to accomplish the Loan Management staffs review of audited financial statements and monthly accounting reports. This Handbook should be used in conjunction with:
