CHAPTER 9. Grant Processing Schedule

9-1 OBJECTIVE. The objective of this chapter is to describe the typical schedule for processing grant applications and executing grant agreement by local HUD Offices. Not all steps in the entire process are delineated, only the major phases of activities required to provide overall guidance for the timeliness of required actions. There are many variables that cannot be rigidly controlled to have a fixed schedule for all actions, such as the number of applications submitted to a particular HUD Office, the availability of staff at a particular time, other unanticipated priorities and conflicts, and so on.

9-2 GENERAL SCHEDULE. The grant application processing period begins the next day following the application deadline. The schedule below outlines processing steps and a general time frame. Most NOFA/Application Kits will specify a 60 day period for when applications are due (an exception to the 60 day period is likely for the HOPE 1 Implementation Grant Program). A more detailed schedule for any particular program may be issued by the Headquarters Program Division as deemed appropriate.

9-3 MAJOR PHASES. The major phases of activities for a typical grant processing cycle are as follows:

forms and grant agreement provided by Headquarters.

2. Forward grant agreement in triplicate to grantee to review, complete and sign.

3. Review grant agreement packages completed by grantee.

4. Transmit one fully executed copy of grant agreement back to grantee advising of funds draw down requirements.

5. Send one copy of grant agreement to the Regional Accounting Division (RAD) and retain one copy in the grant file.
