

DISCLAIMER

The following documents are samples of previously submitted ICDBG that were funded by HUD. The Notice of Funding Availability (NOFA) is published annually for this program and the requirements to be successfully funded could have changed since these applications were funded. The current NOFA must be read carefully and completely in order to comply with all of its requirements. The samples provided here are intended to give a general overview of successful applications but HUD does not attest to their adherence with the current NOFA requirements.
