I. Introduction

Louisville Metro Housing Authority (LMHA), formerly known as the Housing Authority of Louisville, is a non-profit agency responsible for the development and management of federally assisted housing in the Louisville Metro area. In 2003, Louisville Metro Mayor Jerry Abramson and the Louisville Metro Council approved the merger of the Housing Authority of Louisville and Housing Authority of Jefferson County, thereby creating the Louisville Metro Housing Authority.

LMHA presently manages over 4,000 units in four family housing communities, five housing communities for disabled and senior citizens, and a growing number of scattered site properties. Last year LMHA provided housing assistance to over 13,900 households in our combined public housing and leased housing programs. A nine-member Board of Commissioners, appointed by the Metro Mayor, serves as the policy making body of the Agency.

Funding for the agency's operation comes from rental income and annual operating subsidy from the U.S. Department of Housing and Urban Development (HUD). The agency also receives Capital Improvement funds on an annual basis from HUD. Periodically, the agency also applies for funds from HUD and the City's Community Development Block Grant (CDBG) program to finance various modernization improvements.

Moving To Work Demonstration Program

Louisville Metro Housing Authority, then the Housing Authority of Louisville, became one of a small group of public housing agencies participating in the Moving to Work (MTW) Demonstration Program in 1999. The MTW program authorized by Congress and signed into Law as part of the Omnibus Consolidated Rescissions and Appropriations Act of 1996, offers public housing authorities (PHAs) the opportunity to design and test innovative, locally-designed housing and self-sufficiency strategies for low-income families. The program allows exemptions from existing low-income public housing and tenant-based Section 8 rules and permits LMHA to combine operating, capital, and tenant-based assistance funds into a single agency-wide funding source.

Under the MTW program, LMHA creates and adopts an annual plan that describes new and ongoing activities that utilize authority granted to LMHA under the MTW Agreement. This plan focuses primarily on the public housing, Housing Choice Voucher (HCV) program and capital fund program, as these are the LMHA programs that fall under MTW. The plan also focuses on new proposed MTW activities and MTW activities that are ongoing. However, the plan contains a limited amount of information regarding LMHA's non-MTW activities such as plans to revitalize and redevelop certain properties. The MTW annual report prepared at the end of the fiscal year is an update on the status and outcomes of those activities included in the MTW annual plan.

MTW Objectives

Moving to Work is a demonstration program that allows public housing authorities to design and test ways to achieve three statutory goals. The activities and policies designed by LMHA, must achieve at least one of the statutory objectives of the demonstration program:

- Reduce costs and achieve greater cost effectiveness in federal expenditures;
- Give incentives to residents, especially families with children, to obtain employment and become economically self-sufficient; and
- Increase housing choices for low-income families.

At the inception of LMHA's status as a Moving to Work agency, we carefully evaluated our own goals and objectives against those of the demonstration. The outcome was six goals for our participation in the MTW demonstration.

Locally Defined LMHA MTW Goals

These goals, as outlined in FY 1999 Plan, are locally-driven refinements of HUD's objectives:

- Increase the share of residents moving toward self-sufficiency;
- Achieve a greater income mix at LMHA properties,
- Expand the spatial dispersal of assisted housing;
- Improve the quality of the assisted housing stock;
- Reduce and/or reallocate administrative, operational and/or maintenance costs; and
- Enhance the Housing Authority's capacity to plan and deliver effective programs.

Since that time LMHA has recognized a growing number of populations with specific needs that often go unmet by existing housing and support service infrastructure. We have revised and updated our goals to reflect changes in the local community and the evolution of the Federal HUD MTW program into a performance-driven program:

- Develop programs and housing stock targeted to populations with special needs, especially those not adequately served elsewhere in the community.

LMHA uses MTW authority to implement programs and policies that achieve the Demonstration Program objectives and our locally defined goals and meet the needs of low-income families in Louisville Metro. Following is a synopsis of the proposed and ongoing activities in 2011.

Proposed and Ongoing Moving To Work Activities

An MTW activity is defined as any activity LMHA is engaging in that requires MTW flexibility to waive statutory or regulatory requirements. For 2011 LMHA is proposing three new MTW activities. The first proposed activity will allow the Agency to acquire sites for public housing without prior HUD approval. The activity is designed to increase effective expenditure of funds and increase housing choices while furthering the Agency's goal of deconcentrating poverty.

Another proposed MTW activity for 2011 is to amend the Housing Choice Voucher admissions policy to allow for deduction of child-care expenses in determination of eligibility. This activity is a step towards increasing housing options for working low-income families with children and assists families that may be struggling to make ends meet.

The final activity is to develop locally defined guidelines for the development, maintenance and modernization of public housing development. Design guidelines that reflect local marketplace conditions for quality construction including sustainable building and energy efficiency, and establish protocol for maintenance practices that minimize life-cycle costs will achieve greater cost effectiveness in Federal expenditures.

LMHA has a variety of MTW activities that will be ongoing in 2011. Activities designed to reduce operating costs include biennial reexaminations, a standard medical deduction, an earned income

disregard in the Housing Choice Voucher program, a flexible third-party verification policy for the HCV Homeownership program, and simplified procedures to acquire/develop new public housing properties.

Ongoing activities that provide incentives to achieve financial self-sufficiency include term limits and educational/employment work requirements for highly desirable single family units developed under the Clarksdale Revitalization program.

Ongoing activities that increase housing choice include a local definition of elderly as age 55+ at LMHA elderly/disabled high-rises, special referral programs with several local non-profit service providers, and an exception payment standard for the HCV Homeownership program.

II. General Housing Authority Operating Information

A. Housing Stock

The Louisville Metro Housing Authority projects that as of June 30, 2011 there will be a total of 4,655 annual contribution contract (ACC) units in its public housing stock, 3,932 of which are owned and managed by the Agency, and 723 HOPE VI/mixed finance units that are privately managed. This is an overall decrease of 48 ACC units since the end of the previous fiscal year end. LMHA anticipates it will manage 10,136 units of leased housing in 2011, bringing the grand total of housing stock to 14,791 by fiscal year end.

Changes in Assisted Housing Stock (Units to be Acquired, Constructed or Removed)

During FY2011, LMHA projects it will decrease its public housing stock by 48 ACC units, bringing the total to 4,655 including 3,932 units owned and managed by LMHA, and 723 that will be privately owned and/or managed. This net decrease will result from the razing of 124 units at KY1-005 Iroquois Homes and will be partially offset by the acquisition of an additional 65 scattered site units in KY 1-034, including 15 units developed using funds from the Louisville Metro Neighborhood Stabilization Program. The remaining 50 units will be financed using replacement housing factors funds. Finally, an additional 11 ACC units located at Downtown Scholar House, mixed finance initiative of Project Women, will be added to the housing stock, bringing the total of units at year end to 4,665.

Staff received approval from HUD in October 2008 to demolish 192 additional units in 16 buildings south of Bicknell on the Iroquois Homes site. The relocation process for the households residing in those units began in mid-March 2009 and demolition is projected for completion by the end of 2010. A demolition application for the remaining 168 units in 27 buildings was submitted to HUD's Special Applications Center on January 7, 2009. This fifth and final phase of demolition is broken into sub-phases that are projected for completion by the close of FY2012. If HUD issues a notice of funding availability (NOFA) for a HOPE VI Demolition program or another funding source, the Authority will apply for funds for one or both phases of demolition, depending on the NOFA criteria. Due to their obsolete function, Iroquois Homes was slated for a series of phased demolition projects that started in FY2001/2002. The Authority intends to replace these units through acquired or developed properties using Replacement Housing Factor (RHF) funds. LMHA staff will also research additional funding sources as they become available for these purposes.

In fall 2009, LMHA submitted an application for HOPE VI Revitalization funds to redevelop the Sheppard Square site during the upcoming fiscal year. The Authority's application requested \$22,000,000, the maximum allowable grant amount for the FY2009 HOPE VI funding allocation. If funded, LMHA plans to demolish all existing buildings on the site, and rebuild a mixed-income community on the footprint of Sheppard Square. The revitalized site will include a combination of public housing, low-income housing tax credit (LIHTC) and market-rate rental units. Affordable homeownership units may also be constructed on or near the site. Additional replacement housing units will be built and/or acquired off-site to achieve LMHA's goal of one-for-one replacement of the 326 units at Sheppard Square.

In conjunction with the planning process for its Sheppard Square HOPE VI Revitalization submission, LMHA has committed to providing housing designated for disabled veterans. If the Revitalization grant is not awarded, then LMHA will investigate whether or not it is feasible to use the MTW Broader Uses of Funds authority to develop housing for disabled veterans.

Table II-A.1 summarizes the above changes in LMHA's public housing stock during the upcoming fiscal year. This table provides data by type of site (Family, Elderly/Disabled, Scattered Sites, HOPE VI/Mixed

Finance). Table II-A.2 shows the anticipated changes in the housing stock during 2011 by site and bedroom sizes.

Housing Choice Vouchers Authorized

The Agency anticipates managing 9,723 Housing Choice vouchers in its leased housing program at the beginning of FY2011 and increasing this number by 283 to 10,006 over the course of the year. All but 175 of the estimated 9,723 HCVs at the start of the fiscal year are MTW HCVs. The 175 that are non-MTW vouchers are earmarked for the Veterans Administration Supportive Housing (VASH) program, which requires participants to be veterans.

The anticipated increase is largely due to the 230 relocation vouchers that LMHA will receive for Sheppard Square if the Agency is awarded of a HOPE VI revitalization grant to redevelop the site. LMHA will take advantage of any opportunities to apply for additional vouchers.

MTW Special Referral/Direct Access Housing Choice Voucher Programs

LMHA has developed several MTW Housing Choice Voucher Special Referral programs. The first of these was with the Center for Women and Families. A total of up to 22 Housing Choice vouchers are allocated to this program yearly. The Agency replicated this MTW referral voucher program in a partnership with Project Women in 2009, which will annually allocate up to 56 vouchers for residents at Family Scholar House. LMHA has also developed a co-venture agreement with Project Women and Spalding University for Downtown Scholar House at the Villager, a building purchased by LMHA as a replacement housing site for Clarksdale. LMHA plans to allocate up to 43 special referral vouchers for this program. As shown in Table II-A.1, the Agency could allocate up to 121 vouchers for these special referrals programs during FY2011.

In addition to its HCV Special Referral programs, the Authority also offers a variety of Direct Access programs that are linked to Housing Choice Vouchers including Housing Opportunities for People with Aids (HOPWA), Partnership for Families (PforF), Center for Accessible Living – Mainstream, and the State Department of Mental Health – Olmstead. As shown in Table II- A.1, LMHA anticipates administering up to 688 vouchers to these programs during FY2011.

LMHA administers all the MTW HCVs that are allocated to its Special Referral and Direct Access programs.

MTW Project-Based Housing Choice Vouchers

The Agency currently has no project-based Moving to Work vouchers. No new MTW vouchers are anticipated to be project-based during the upcoming fiscal year.

Non-MTW Vouchers – HUD VASH Program

LMHA administers 175 vouchers awarded under the Veterans Administration Supportive Housing (VASH) program which requires voucher recipients to be veterans. The Agency received the letter of notification of funding for 70 vouchers from the Housing Voucher Financial Division at Headquarters on May 1, 2008 and subsequently accepted the offer. The Agency also received an offer on June 12, 2009 for an additional 105 VASH Program vouchers which LMHA accepted on June 16, 2009. All 175 vouchers have been renewed for FY 2011. LMHA is working closely with the local Veterans Administration Medical Center (VAMC) to administer these vouchers.

HUD Special Programs – Mod Rehab and Section 8 Certificates

As shown in Table II-A.1, LMHA will continue to administer 130 Section 8 certificates during FY2011. The Housing Assistance Payment (HAP) contract with the YMCA is for a 41-unit SRO program for single, adult men. The program has operated since 1989 but had lost revenue in the past due to occupancy issues. During FY2008, LMHA authorized a specially trained YMCA-hired caseworker to

determine eligibility for applicants and residents of the SRO units on-site. If the applicant is determined eligible, he is housed immediately upon completion of processing by the YMCA caseworker. The applicant packet is then sent to LMHA for additional processing and payment begins for that participant. Using the flexibility provided through the MTW program, initial occupancy inspections of the SRO units are waived upon move-in and inspections are conducted once a year at the site, concurrently. In addition to the YMCA SRO program, the Agency administers 65 Section 8 certificates for Willow Place, a Mod Rehab project, and 24 certificates for St. Vincent de Paul/Roberts Hall.

Public Housing Planned Capital Expenditures

LMHA's emphasis on modernization and extraordinary maintenance to preserve and improve the current public housing stock is evidenced by \$5,455,611 (includes contingency) in committed capital funding during the upcoming year. Table II–A.3 summarizes the proposed capital improvements projects at LMHA's sites. A list of additional capital projects that will be funded through the American Recovery and Reinvestment Act (ARRA) can be found in Section III of this Annual Plan. The Authority also summarizes the proposed capital improvements projects planned at all its sites over the next five years, as shown in the Five-Year Action Plan in Appendix E. Note that some capital projects are utilizing both regular capital funds and ARRA funds.

If awarded of a HOPE VI Revitalization grant for Sheppard Square, LMHA will revise its 2011 Capital Plan budget to reprogram funds currently earmarked for Sheppard Square improvements for HOPE VI Revitalization activities.

Table I-A.1 Housing Stock Information

	Projected as of 7/1/2010	Projected as of 6/30/2011	Base Year as of 12/31/1998	Base Year adjusted for Merger in 2003

GRAND TOTAL	\$5,455,611

B. Leasing Information

As shown in Table II-B.1, LMHA's average lease-up rate for its managed public housing developments is anticipated to be 90% on July 1, 2010 which totals 3,581 families. This level is expected to increase to 95% by the end of FY 2011, primarily through the relocation of Iroquois residents into scattered site units and units at the Agency's family sites that are currently being reserved for them. When residents are being involuntarily displaced, Federal regulation requires that each resident be given at least 3 choices of alternate housing, including the option to move into another public housing unit.

Consequently, LMHA must have units available for those residents who choose to continue to live in public housing. LMHA anticipates occupancy increases at the elderly sites, too. The Authority continues to experience improved occupancy rates at St. Catherine Court (up from 73% to nearly 99%) since HUD's approval of the locally defined definition of elderly.

Due to ongoing issues with occupancy rates at Dosker Manor, the Authority will determine whether an elderly and/or disabled-only designation of units at one or more buildings at the site is appropriate during FY 2011. LMHA will hold a public hearing and submit a plan to HUD if such designation is deemed beneficial. The Authority also intends to reapply for the elderly-only designations at St. Catherine and the Weathers Building at Park DuValle, which were up for their renewal in February of 2010. In addition, LMHA will submit an application for an elderly-only designation at Stephen Foster, a privately owned and managed senior-living facility containing 18 public housing units.

Housing Choice Vouchers

Also shown in Table II-B.1 are the anticipated leasing numbers for LMHA's Housing Choice Voucher program. While the program was over leased in FY 2009, the number of leased vouchers has been brought down to 9,369 or a 96% utilization rate. With normal turnover and the new relocation vouchers LMHA anticipates receiving for Iroquois residents, the projected leased HCVs at the close of FY2012 are 9,413 or a 95% utilization rate. As noted in previous MTW Plans, the Annual Contribution Contract (ACC) number of HCVs is now simply an informational number that reflects the number of units that have been awarded to an agency. It is no longer practical for housing authorities to use ACC units numbers for tracking utilization, and HUD now permits operations to be tracked based on fund utilization rather than unit ratios. An additional factor affecting LMHA's leasing is our strategy to limit HCV costs to 95% of the actual funding. The remaining 5% has been used to supplement revitalization efforts in the HOPE VI programs and will be used to acquire replacement housing for Iroquois Homes.

Households Served

As of July 1, 2010, LMHA anticipates serving a total of 13,724 households in the combined public housing and Housing Choice Voucher (HCV) programs. This includes 4,239 in the public housing program and 9,495 in the HCV program. Overall occupancy numbers are expected to increase during FY2011 to 13,831 by the end of the fiscal year.

A snapshot of households currently being served as of the time this report was written are presented by housing type and unit size, by family type, by income levels as compared to median income levels for Louisville and by race and ethnicity in Tables II-B.2 – B.5 at the end of this section.

C. Waiting List Information

LMHA streamlined its waitlist and referral list structure when it modified its ACOP and Administration Plan in 2005. The Authority currently maintains a single, centralized waitlist for its owned and managed public housing sites. LMHA also maintains a referral list of residents recommended for its scattered site units. Eligibility requirements for scattered sites include residency in a family or elderly public housing development for a one year period and a recommendation by the site manager as an outstanding resident. Outstanding resident status is attained by having no more than 2 late rent payments, passing annual inspections, and by adhering to all other LMHA leasing guidelines.

In addition to these criteria, there is also a five-year time limitation on residency for single family, scattered-site replacement units (excluding scattered sites I, II, III, IV and V, and Newburg). This time limitation is waived for elderly/disabled households. The FY2010 MTW Annual Plan included an initiative to revise criteria for Clarksdale HOPE VI Replacement Scattered Sites only to include mandatory participation in a case management program and active movement towards self-sufficiency. Elderly and disabled households may also be exempted from these criteria.

LMHA maintains a separate waitlist for its HCV program.

Since 2005, LMHA staff continually updates its central-based waitlist as part of the scheduling process, removing applicants as they are placed in housing or if they fail to show for 3 scheduled interviews. Occupancy staff may conduct a formal purge of the public housing waitlist in 2011. Although the Housing Choice Voucher waitlist has been turned over a number of times by bringing families on the program, there has never been a formal purge of HCV applications.

Individual site-based waitlists are used for most of the privately managed and/or owned public housing units in mixed-income developments. Applicants for St. Francis, Stephen Foster and Village Manor are recommended from LMHA's referral list for scattered sites.

The waitlist currently reflects 5,610 applicants for LMHA's public housing programs and 13,386 applicants for the HCV program. The public housing waitlist is not expected to change appreciably during the coming year. The waiting list for the HCV program is expected to increase by approximately 2,500 applicants in the coming year. While the HCV waitlist will remain open during the FY 2011 because of the current over utilization situation, few, if any families will be brought on the HCV program from the waiting list until the next fiscal year or until utilization decreases significantly. A snapshot of the number and characteristics of applicants on LMHA's waitlists is presented in Tables II-C.1, C.2 and C.3 within the FY 2011 Annual Plan.

Former Clarksdale residents continue to receive preference for Clarksdale off-site replacement units and Liberty Green units. Iroquois residents that will be relocated for the next phase of demolition will have preferences for both Housing Choice Vouchers and public housing units. If the Agency is funded for the Sheppard HOPE VI revitalization, residents that will be relocated for the demolition of the site will also have preferences for both Housing Choice Vouchers and public housing units.

III. Non-MTW Related Housing Authority Information

A. Sources and Uses of HUD or other Federal Funds

American Recovery and Reinvestments (ARRA) Funds

In recognition of the need to provide rapid relief to many who are affected by the current economic crisis facing the country, HUD is awarding an estimated total of \$2,985,000,000 in special Capital Funds to Public Housing Authorities throughout the nation. This funding is expected to result in employment for thousands of construction workers while substantially modernizing tens of thousands of public housing units. PHAs have been directed to give priority to projects that: are ready to begin construction rapidly or are “shovel ready”; increase energy efficiency and lower the long-term costs of operating public housing; improve safety; and/or employ persons or preserve jobs. Projects that modernize or rehabilitate vacant rental units will also be given priority.

LMHA received \$14,151,218 in ARRA funds. Though many Capital Fund requirements apply to the use of ARRA funding, LMHA focused on capital projects that could be started by June 17, 2009 as ARRA funds must be 100% obligated by March 18, 2010, 60% expended by March 18, 2011 and 100% expended by March 18, 2012. Consequently, LMHA was able to meet the obligation deadline and exceed the 60% expenditure deadline. **LMHA was 100% obligated and had spent over 60% of the ARRA funding by March 2010, well before the final expenditure cut-off date.** Table III-A.1 summarizes LMHA’s projects being implemented with ARRA funding.

Neighborhood Stabilization Program

The Neighborhood Stabilization Program (NSP) was established under the Housing and Economic Recovery Act (HERA) of 2008 for the purpose of stabilizing communities across America hardest hit by foreclosures. The goal of the program is being realized through the purchase and redevelopment of foreclosed and abandoned homes and residential properties. NSP funds authorized under Division B, Title III of the Housing and Economic Recovery Act (HERA) of 2008 provide grants to all states and selected local governments to implement locally defined programs designed to help communities that have suffered from foreclosures and abandonment maintain their property values.

Because NSP is a component of the Community Development Block Grant (CDBG), NSP grantees develop their own programs and funding priorities. While all activities funded by NSP must benefit low- and moderate-income persons, NSP grantees must also use at least 25 percent of the funds awarded for the purchase and redevelopment of abandoned or foreclosed residential properties that will be used to house very low-income families. A very-low income household is a household whose gross annual income does not exceed 50 percent of area median income. A moderate income household is defined as one who’s gross annual income does not exceed 120 percent of area median income.

Louisville Metro received \$6,973,721 from US HUD for the Neighborhood Stabilization Program, and, LMHA has been allocated approximately \$2 million or 25% of those funds to conduct NSP activities according to the requirements of the low income setaside. LMHA’s NSP program will focus on targeted acquisition and rehabilitation of approximately 15 foreclosed homes in and surrounding the Smoketown neighborhood. When development activities have been completed, the newly renovated homes will be added to the Agency’s Annual Contributions Contract thereby offsetting the number of public housing units slated for demolition at Iroquois. In addition to substantially augmenting the Agency’s replacement housing portfolio, LMHA’s NSP program will also accelerate local investment activities that have begun in anticipation of the Sheppard Square HOPE VI Revitalization, and it will assist the community’s ongoing efforts to preserve affordable housing in the neighborhood.

The new public housing ACC units will be occupied by income eligible families from LMHA's public housing waitlist. NSP requires that these units be reserved for families with incomes at 50% AMI or below. A regulatory MTW waiver may be needed in order to implement this policy as LMHA eligibility criteria for public housing imposes an 80% cap on income.

B. Activities Outside of Moving To Work

Every year LMHA's Moving to Work Plan includes initiatives and activities that help the Agency achieve its local goals and the MTW statutory objectives, but do not require a regulatory waiver. The progress of these activities is described in this section of the Report. In order to achieve greater cost effectiveness, expanded housing choices and enhanced social service delivery, LMHA staff coordinate the Agency's MTW and non-MTW activities to the greatest extent possible, therefore relevant MTW activities are briefly covered in this section. Detailed updates on specific MTW activities are provided in Sections V and VI of the Plan.

Community Revitalization

Together with our partner organizations and Metro Louisville, LMHA has undertaken two large-scale revitalization projects over the last two decades. Park DuValle/Cotter-Lang was one of the first LMHA public housing complexes redeveloped under the Federal HUD HOPE VI program. Both Park DuValle and Louisville's subsequent HOPE VI Revitalization which transformed Clarksdale Homes into Liberty Green are nationally recognized as model HOPE VI communities. In the fall of 2009, LMHA submitted an application for a third HOPE VI Revitalization grant to redevelop Sheppard Square. If awarded of the HOPE VI, redevelopment activities will commence immediately and continue through 2015.

Clarksdale Homes HOPE VI Revitalization

Efforts to redevelop the severely distressed Clarksdale development with assistance from HUD's HOPE VI program began when the Authority first submitted a grant application in June 2001. Although the initial grant was not awarded, we have since submitted two more successful HOPE VI applications to replace all 713 Clarksdale public housing units in a wide variety of building types and locations, both on-site and off-site.

LMHA has to date received a total of \$40 million in Federal HUD HOPE VI Revitalization grant funds, obtained over \$200 million in physical development leverage and partnered with several for-profit and non-profit developers committed to create 1900+ public housing, low-income tax credit, market rate rental and homeownership units. Both the on and off-site components of the Clarksdale HOPE VI project are moving forward steadily. On-site the first rental units were occupied in June 2006. As of June 2009, the build out of the remaining mixed income on-site rental units had been completed. The on-site units are a combination of public housing units, low-income housing tax credit apartments and market rate rental.

The Edge at Liberty Green

The Edge at Liberty Green, the on-site home-ownership component of the Liberty Green-Clarksdale HOPE VI project, will be comprised of at least 275 affordable and market rate homeownership units as well as space for offices and retailers. Housing types in the development will include garden apartments, flats, and brownstone-like townhomes featuring amenities such as roof-top gardens and tuck-under parking. The sharp economic downturn and mortgage foreclosure crisis slowed pre-development activities at The Edge in 2009; however the developer is gaining confidence that the market has now stabilized for units within their projected price points (approximately \$110,000 to \$300,000). Currently, construction of homes is anticipated to begin in fiscal year 2011 and to be completed in phases over the course of the next 8 to 10 years.

Liberty Green Community Building

The Liberty Green Community Center will be the first LMHA owned and managed LEED certified building. The community center will contain a community room, kitchen, classrooms, offices and eight (8) public housing units. Design features that will help the building achieve LEED status include geo-thermal heating and cooling; light colored, high-albedo roofing to

reduce solar heat gain; double glazed windows; Energy Star rated high efficiency appliances; and compact fluorescent lighting. In addition, a parking lot has been surfaced with pervious pavers to maximize storm water absorption on-site. Construction of the center is nearly complete and the anticipated occupancy date is sometime in July 2010.

801 East Broadway

LMHA utilized its funding flexibility granted by MTW to design and construct this mixed-use building which stands prominently at the corner of Broadway and Shelby Street in downtown Louisville. The building contains 22 public housing units and roughly 3,000 square feet of commercial/retail space at the street level. LMHA broke ground on the project in 2007, and hosted a press conference on March 17, 2009 with the Louisville Mayor celebrate its completion. While LMHA will operate the housing units, the Authority has contracted a separate property manager for the commercial space. LMHA is still pursuing a tenant to lease the commercial space.

Scattered Sites

By the end of fiscal year 2009, LMHA had fulfilled its Clarksdale one-for-one replacement commitment totaling 713 units. The replacement units are comprised of scattered site public housing units and on-site public housing units. The scattered site replacement units consist of mixed finance/private managed multi-family mixed-income units, single family home acquisitions, and LMHA developed and managed single family homes located throughout the Metro area. In 2011, LMHA will continue to aggressively acquire public housing sites in order to replace general occupancy units being demolished at Iroquois Homes.

Sheppard Square HOPE VI Revitalization

LMHA submitted an application for HOPE VI funding for the Sheppard Square public housing development on November 13, 2009. The 67-year old development built in 1942 suffers from inherent design deficiencies, as well as numerous operations failures and unhealthy environmental conditions, all of which contribute to the overall distress of the site. On-site, the new Sheppard Square will consist of public housing, low-income tax credit and market rate units in a variety of housing types including single-family homes, semi-detached and row townhouses and multi-family apartment buildings. Off-site, the public housing replacement units will include single-family homes, units enriched with supportive services, and apartments in mixed-income communities. Both the on- and off-site components of the revitalization plan will meet Energy Star standards for new construction and Enterprise Communities' Green Community criteria. As with all revitalization plans following Park DuValle that require demolition of existing public housing units, **LMHA has committed to one-for-one replacement of the 326 units at Sheppard Square.**

Greening Initiatives

While LMHA has maintained a long-standing commitment to energy efficiency, our efforts went to the next level when Louisville was chosen by the Environmental Protection Agency (EPA) in November 2007 as one of five US cities to become a model partner for its Energy Star program. Mayor Jerry Abramson accepted the EPA's Energy Star Challenge and rolled out his Go Green Louisville! Campaign. LMHA quickly jumped on board for this initiative to adopt sustainable practices, including the goal to reduce energy use in the city by 10% or more by the year 2010.

Rising energy costs have made utility expenses a growing concern in overall housing affordability, as well as a significant portion of LMHA's operating budget. The hundreds of thousands of dollars spent each month on utilities for LMHA's public housing inventory rose even higher this past winter due to the 24% increase in gas rates. The Authority also incurs utility costs for units that are privately managed

such as Park DuValle and Liberty Green and for those under lease in our Section 8 program. Once these factors are added in, our targeted 10% reduction in energy use could easily add up to over one million dollars in annual savings.

LMHA may also participate in the “Kilowatt Cup” competition sponsored by Metro government again during 2011. During 2009, LMHA competed with other local building owners in the “Kilowatt Crackdown”, a contest initiated by Mayor Abramson to show businesses how “going green can save green.” The Authority selected Avenue Plaza, a 17-floor high-rise that is home to 225 elderly and disabled households, as its first entry into the contest. Avenue Plaza also houses LMHA’s Central Office facilities, including 66 staff members and 57 computer stations.

Avenue Plaza underwent an extensive energy overhaul during 2009 based on recommendations from a recent energy audit. Over 500 light fixtures were replaced with energy efficient models. New chillers were installed, as well as weather-stripping and door sweeps on all exterior stairwell doors. HVAC units in all apartments were also cleaned and repaired, in addition to several other energy saving projects. These efforts resulted in an annual utility cost savings equivalent to \$16,606 (based on December 2009 gas and electric rates), as well as recognition of Avenue Plaza as one of five finalists among 102 buildings for the Kilowatt Cup award. It goes without saying that LMHA will continue to implement improvements that will further reduce gas and electric consumption in upcoming years.

Beyond the monetary impacts to LMHA’s budget are the environmental and health benefits to be reaped from our greening efforts, including cleaner air and water. To champion these benefits, LMHA has formed a Green Team that is comprised of board members, staff and advisors who will assist the Agency in becoming a leader in the nation among affordable housing providers. The Green Team’s goals are to:

- Develop, renovate and maintain housing stock and communities with green materials and energy efficient technologies;
- Conserve energy and other natural resources; and
- Increase the awareness of environmentally responsible business and development practices.

To achieve these goals, LMHA is tackling several large- and small-scale environmentally beneficial projects in 2011. LMHA plans to undertake activities from the Green Action Plan including, but not limited to:

- Installing Energy Star appliances and HVAC systems in all public housing units as existing appliances are replaced;
- Redeveloping Sheppard Square to be an Enterprise Green Communities certified site;
- Testing concentrated and environmentally friendly cleaners for use in LMHA’s offices and public housing developments;
- Continue a weatherization and energy efficiency pilot program with Section 8 homeowners;
- Testing a low-flow showerhead in a public housing unit; and
- Continue to expand green and Energy Star purchasing practices and policies.

Greening strategies that are planned or under consideration include:

- Requiring contractors to use Energy Star labeled equipment and other environmentally friendly products;
- Furthering contractors to use Energy Star guidelines and practices by allotting points in contract award process;
- Revising design specifications and pattern books to reflect sustainable principles; and

- Including Energy Star, energy conservation and greening information in public housing and Section 8 contracts/leases.
- Exploring programs that give incentive to Section 8 landlords to make energy efficiency improvements and/or weatherize units, including those occupied by low-income families.

Implementation of additional greening activities still under consideration may require HUD approval of a regulatory waiver as authorized in the Agency's MTW agreement. In 2011, LMHA will take a closer look at the potential for MTW authorizations to facilitate additional greening activities.

Local Leased Housing Program

Merger continues to offer LMHA a new opportunity to disperse programs and housing stock throughout the area. Prior to merger, limitations precluded HAL from offering viable housing options in areas outside the City, while regulatory and funding limitations prevented HJAC from large-scale scattered site development. Changes to administrative policies (rent and occupancy policies, inspections, payment standards and program participation and reporting requirements) will be made, in accordance with the MTW Agreement, to meet the Agency's locally defined MTW goals. The Housing Choice Voucher program will continue to target specific areas of payment standards and utilization, reworking preference and other terms of assistance to make the program more successful and more appropriate to the local housing markets and local policy objectives. LMHA will continue to implement previously approved activities.

Special Referral HCV Programs

Under MTW, LMHA has established several Special Referral Housing Choice Voucher Programs with local social service organizations who provide housing to program participants. LMHA presently has special referral programs with the Center for Women and Families (CWF), Project Women and the YMCA.

LMHA's MTW special referral programs require participants to meet criteria established by both the partnering organization and LMHA's HCV program to receive a HCV voucher that is initially tied to the "project". However, once a participant completes the program, they can again utilize the portability of their voucher to move to a location of their choice, or to enter into the HCV Homeownership program. LMHA will also "replace" the partnering organization's voucher by issuing a new one to the next program participant. In addition to the requirement to reside at the partnering organization's facility while they are in the program, participants at CWF and Project Women must meet initial occupancy criteria (single parent with children, enrolled in school), establish and meet the program's goals and graduate from school before they can move their voucher to another location.

The Housing Assistance Payment (HAP) contract with the YMCA is for a 41-unit SRO program for single, adult men. The program has operated since 1989 but had lost revenue in the past due to occupancy issues. During FY 2008, LMHA authorized a specially trained YMCA-hired caseworker to determine eligibility for applicants and residents of the SRO units on-site. If the applicant was determined eligible, he was housed immediately upon completion of processing by the YMCA caseworker. The applicant packet was then sent to LMHA for additional processing and payment began for that participant. In addition, the caseworker is trained to conduct reexaminations of residents at the site.

Due to the success of this activity, as demonstrated by the 100% utilization rate, the protocol is also used by staff at the Center for Women and Families and Project Women's Scholar House I. Initial occupancy inspections of the special referral HCV program units are waived upon move-in, and all inspections are held once per year concurrently at the site.

Operating Procedures - Mail-In Recertifications

In the past, LMHA experienced a great deal of difficulty getting clients to attend recertification appointments. New operating procedures allow families who are remaining in the same residence to submit information for their annual recertification by mail. Since 2008 when the procedures were implemented, HCV staff have been able to reduce the amount of time spent on no shows and rescheduling appointments, and the time involved in conducting recertification appointments. In FY 2009, the activity obtained a \$78,000 cost savings from the reduction of missed appointments and the use of mail-in recertifications. Families who are requesting approval to move still come in for an appointment and attend a briefing upon conclusion of the re-certification process.

Prior to 2008, clients were only assigned to caseworkers for their annual recertification or when additional processing was required, as in cases where there were changes in income or household composition. Clients were randomly assigned to caseworkers based on availability of staff. Clients were often confused about who to call with follow up questions or issues during the ensuing year. The newly implemented procedure assigns a client to the same caseworker for a three year period, providing clients with a specific contact if they have any questions about their participation in the HCV program.

Evidence from staff suggests that clients appreciate the convenience of the mail-in packet, and are generally pleased with the new case management style services. No changes to the HCV program operating procedures are anticipated in 2011.

Affordable Homeownership

Given the local market, homeownership continues to be an appropriate vehicle for working families with low-incomes to exit the Housing Choice Voucher or public housing programs. LMHA offers two affordable homeownership opportunities:

Housing Choice Voucher Homeownership Program

LMHA has one of the strongest HCV Homeownership programs in the country and can boast that over 150 families have purchased homes using the program. HCV staff provide case management-related activities including post-purchase counseling. HCV homeowners also participate in a post-purchase Individual Development Account (IDA) program. In total, 135 HCV households and 21 public housing residents have received HCV Homeownership vouchers. LMHA anticipates the number of successful homebuyers will increase in 2011 despite the weakened economy.

HUD regulations allow housing authorities nationwide some degree of programmatic latitude; not surprisingly however, LMHA has found that local real-estate forces primarily dictate the areas where homebuyers can choose to live. MTW authority has enabled LMHA to further modify the traditional Section 8 homeownership program with locally defined policies that increase participant buying power and expand their housing choices into Exception Payment areas without increasing the risk of mortgage default. LMHA can also boast that HCV homebuyers live in 22 of the 26 council districts in Louisville and that only 2 participants have defaulted on their loan. With the MTW activities in place, staff anticipate that HCV homebuyers will live in all Metro council districts by 2014.

Public Housing Lease-To-Purchase Program

LMHA's Lease-To Purchase program began in 2007 as an initiative proposed in the Liberty Green HOPE VI application. The program is designed to offer Housing Choice Voucher clients and public housing residents an affordable and secure process by which to purchase a single family home. Program participants would have the opportunity to select a home from the affordable offerings in the Authority's Lease-To-Purchase housing stock and receive ongoing support from an LMHA case manager. Section 32 was attempted through 2008-2009, but due to lack of interest and eligible

candidates the program was eliminated. However, special considerations are in place to offer the program at a later date at LMHA's determination.

Resident Programs

The LMHA will continue to offer residents a wide array of educational and job-training services designed to prepare individuals for success in school and the workplace, and to help families along an incremental path to self-sufficiency. LMHA continues to collaborate and partner with other local service providers in the community in order to deliver high quality programs that touch as many residents as possible.

Family Self-Sufficiency (FSS) Program

Through the Family Self-Sufficiency program, LMHA public housing residents and HCV participants receive extensive supportive services through long-term case management to achieve program and personal goals. Program emphasis is on the importance of employment and building financial skills as a means to become self-reliant. As an added incentive, the rent increases that would occur as family earned income rises are diverted into an escrow account to be used at the participant's discretion upon completion of the Program. Increasing homeownership is a key goal of LMHA. FSS participants are encouraged to utilize the HCV Homeownership program as a safe and secure way to purchase a house of their own. As of June 30, 2009, 149 public housing residents and 466 HCV residents were participating in the Agency's FSS program. Together 62% of the participants were employed, and FSS families held escrow accounts totaling well over \$1.3 million.

Common Wealth Individual Development Accounts (IDA) Program

The Common Wealth program was designed to help LMHA clients save money to buy a house, attend a post-secondary education institution, save for their children's education, invest in their own small business, and/or repair or remodel their home. Each participant has a dedicated savings account (called an IDA) where their savings is matched \$2 by LMHA for every \$1 they save. Participants also complete Financial Skill Building workshops and regularly meet with an LMHA assigned Case Manager. At present, 36 LMHA residents participate in the Common Wealth IDA program including seven (7) that formerly lived at Clarksdale Homes or current HOPE VI families. These participants had saved a total of \$15,445 and had \$31,553 set aside as match. LMHA will continue to offer the IDA program in 2011 as an assist to a growing number of families working to achieve economic self-sufficiency.

Special Access Programs

The former Housing Authority of Jefferson County offered a variety of Housing Choice Voucher special access programs in partnership with community organizations targeting families with specific needs. LMHA has continued these programs which combine an LMHA housing choice voucher with case management services delivered by the partner agency or agencies. Because the combined voucher program was over-leased after merger in 2003 and major relocation activities were underway at Clarksdale, the special access programs were only able to serve a small number of participants for a portion of FY2004 and FY2005. However, the majority of these programs are now able to serve at capacity. The following briefly summarizes activities within these programs planned for FY2011.

Mainstream Program

The Mainstream Program combines an LMHA housing choice voucher and case management services delivered by the Center for Accessible Living to serve families or individuals whose head of household or spouse is disabled. The program is intended to help disabled individuals lead more independent lives. LMHA anticipates that Mainstream will remain at capacity during 2011.

Partnership for Families (PforF)

Even though LMHA's obligation to operate the Family Unification Program (FUP) had expired, both the Agency and the Kentucky Cabinet for Health and Family Services agreed that the need for services and housing opportunities previously offered through the FUP Program still existed. Hence, the Partnership for Families Program was developed. Like the former FUP, the PforF Program combines LMHA HCV voucher or public housing assistance and case management services delivered by Child Protective Services. This new program, built upon lessons learned from the former FUP Program, preserves the integrity of the original mission: to preserve and maintain the family unit. PforF serves families for whom housing is the only remaining issue with regard to reunification of children with parents or the prevention of children being removed from the household.

Homeless Families Assistance Program (HFAP)

This unique program assists families and individuals who are homeless by combining an LMHA HCV voucher and case management services delivered by day and overnight shelters, transitional housing facilities, the Neighborhood Place, Louisville Metro Human Services, and the Family and Children Counseling Center's Homeless Families Prevention Program. The program helped stabilize homeless families and individuals, so they could continue to make positive changes in their lives. Unfortunately, this program has remained dormant since the HCV over-leasing issue after merger. LMHA expects this program will remain dormant in 2011 due to current over-leasing issues.

Olmstead Program

The Olmstead Program is a partnership between LMHA and the State of Kentucky's Division of Mental Health. It combines an LMHA voucher and case management services delivered by authorized agencies, including the Center for Accessible Living, Wellspring, Seven Counties Services, and Central State Hospital, to serve families or individuals impacted by the Olmstead decision.

Single Room Occupancy (SRO) Program

Section 8 eligible single women and men who are homeless or at risk of becoming homeless can self-refer or be referred by other agencies and service providers directly to the SRO Program. Participants receive on site HCV rental assistance at the participating SRO and case management via SRO staff. Robert's Hall can serve up to 24 women and the YMCA can accommodate up to 41 men. LMHA expects that both sites will remain at program capacity during 2011.

ROSS-Funded Programs

Public housing residents have benefited from a variety of programs and services over the past years made available through ROSS funds. Staff have applied for and received a number of ROSS Resident Service Delivery and ROSS Neighborhood Network grants to continue a variety of activities and services including:

- CHOICE – teen intervention for middle school students at Meyzeek and Noe Middle Schools;
- Resource Centers and after school tutoring programs at Beecher Terrace, Sheppard Square, Parkway Place, and Iroquois Homes family developments;
- GED programs;
- A 16-station Neighborhood Network computer lab at the Mabel Wiggins Family Investment Center and a satellite lab at Sheppard Square;
- Other youth and resident programs including Metro Parks' day camps and field trips; and
- Special "HALO" officers with the Louisville Metro Police Department hired to provide security at LMHA's family and high-rise sites.

Computer Training and Neighborhood Networks

LMHA has partnered with Jefferson County Public Schools to continue its basic computer classes at the Neighborhood Networks centers at the Family Investment Center and at Sheppard Square. Two labs opened for use in FY2006 at Iroquois Homes and the Villages at Park DuValle. Under LMHA's original Neighborhood Networks grant, residents received a refurbished computer upon completion of the program supplied through New Life, a business that trains persons with visual impairments to rebuild computers. Initial HUD Neighborhood Networks funding ended FY 2006. LMHA resumed basic computer training without providing free, refurbished computers under its 2007 HUD Neighborhood Networks grant. No changes to this program are anticipated in FY 2011.

HOPE VI Grant Community Supportive Services

LMHA collaborated extensively with residents, community members, and service providers to develop a comprehensive community supportive service (CSS) component of its HOPE VI programs. The Authority and its partners have provided extensive CSS services through all of its HOPE VI programs (Clarksdale and Park DuValle), including case management, life skills training, employment and Section 3 opportunities, evaluation and tracking, and mobility counseling and assistance during relocation. Targeted CSS services will be offered to families impacted by the Sheppard Square Revitalization if LMHA receives HOPE VI funding in 2011.

Elderly/Disabled Supportive Services

A limited program of case management, counseling, home care, and recreational services is provided for Dosker Manor residents. In 2007, ElderServe received a \$250,000 three-year ROSS grant to continue supportive services to the non-elderly population at the site. LMHA staff will continue their discussions with Dosker Manor residents, management and maintenance, and potential supportive service providers regarding the possibility of expanded supportive services in the future.

Homeownership Supportive Services

The Authority applied for and was awarded a \$60,700 grant to expand the supportive services it provides through its Homeownership Program in December 2004, which was used to fund a new Homeownership Specialist position. Current administrative tasks in the HCV Homeownership Program were bifurcated into real estate and counseling-related duties. The Homeownership Specialist is responsible for all aspects of the latter including recruitment, working with counseling agencies, and providing case management-related activities including post-purchase counseling and related IDA accounts.

LMHA continues to provide additional homeownership and other resident services through a variety of funding sources. Agency staff:

- conduct orientations at public housing developments to promote financial skills training, credit counseling and homeownership;
- provide financial skills training and Homeownership IDA match money through partnership with the Center for Women and Families;
- partnerships with local homeownership counseling agencies to provide services to public housing residents who meet the income requirements of LMHA's HCV Homeownership program;
- provide life-skills and employment training to youth through the C.H.O.I.C.E. after-school program and Y.O.U., a program that provides educational and career counseling to youth who have dropped out of school; and
- provide adult employment services through three distinct tracks of work-readiness training:
 - Basic job-seeking skills to help residents find employment and soft-skills training including communication, problem-solving, and interpersonal skills to help residents maintain employment;
 - Industry-specific job training in the medical field.

Earned Income Tax Credit

In conjunction with the Metro Government's Beyond Merger blueprint, LMHA will continue its efforts to encourage and assist residents and program participants to take advantage of the Earned Income Tax Credit. LMHA will also continue to partner with the Louisville Asset Building Coalition to provide free tax preparation services, which not only provide an alternative to paid tax preparation services, but connect residents with other financial services as well.

IV. Long Term MTW Plan

The mission of the Louisville Metro Housing Authority is to provide quality, affordable housing for those in need, assist residents in their efforts to achieve financial independence, and work with the community to strengthen neighborhoods. In implementing these goals, LMHA will continue to focus on the following initiatives:

Reposition and redevelop the conventional Public Housing stock

The physical stock of the remaining original family developments owned and managed by LMHA needs to be completely redeveloped. These sites – large, dense, urban and often isolated – need major renovation or replacement. LMHA's goal is to transform these communities in the coming years, replacing the current public housing developments with mixed income communities, while at the same time providing replacement units so that the overall number of families served will not decrease. In the elderly developments, modernization efforts will proceed with an eye toward appropriate and expanded service provision.

Increase housing choice through stronger rental communities and options, and expanded homeownership opportunities.

Homeownership is an important housing choice option for many low-income families, and is an appropriate program given the local market. LMHA's nationally recognized Housing Choice Voucher Homeownership Program is an affordable and secure way for LMHA families to achieve housing self-sufficiency. The Agency can boast that together more than 150 public housing residents and HCV program participants have purchased homes through the program. For the many other families for whom homeownership isn't a viable option, LMHA will look at its public housing communities to see what policy and program changes might strengthen those communities and make them better places to live.

Develop programs and housing stock targeted to populations with special needs not adequately served elsewhere in the community.

MTW allows LMHA to break from HUD established "norms" and therefore maximize the potential of locally available resources to develop programs for people with specific needs. The goal is to meet needs not met by other agencies and to partner with local organizations that have social services programs that need a housing support element. Some of these needs will be transitional; others are for programs that provide more long-term support, particularly for single parents with children where the parent is working or preparing for work by participating in educational programs. Developing comprehensive initiatives in these areas will continue to require regulatory relief.

Encourage program participant self-sufficiency

The MTW agreement allows LMHA to reinvent the FSS program to make it appropriate to local program participant needs. The Demonstration also allows LMHA to rethink other policies – like the rent policy for Clarksdale HOPE VI replacement scattered sites – to encourage families to work towards housing self-sufficiency.

V. Proposed MTW Activities: HUD Approval Requested

LMHA continues to rethink HUD's existing policies and look for ways MTW regulatory relief can be utilized to create innovative new policies and programs designed to achieve the Agency's locally defined goals. The following are newly proposed Moving to Work Activities for 2011.

Acquisition of Mixed-Income Sites for Public Housing

Description

The proposed activity is to acquire units for public housing or vacant land for developing public housing without prior HUD authorization, if HUD does not respond to LMHA's request for authorization within 10 days of the submittal date. All acquired properties must meet HUD's site selection requirements. Approval from the local HUD office will be sought when a pending real estate acquisition deviates from the selection requirements and at the discretion of the Executive Director. Copies of all required forms and appraisals shall be maintained in the project file.

Relation to Statutory Objectives

The proposed activity would increase housing choices for low-income families.

Impact on Statutory Objective

One of the Agency's ongoing initiatives is to reposition and redevelop its conventional public housing stock. The physical stock of the family developments owned and managed by the Housing Authority of Louisville needs to be completely redeveloped. LMHA's goal is to transform these communities in the coming years, replacing the current public housing developments with mixed-income communities, while at the same time providing replacement units so that the overall number of families served will not decrease. Since the mid 1990s, LMHA has undertaken two HOPE VI revitalization projects and recently applied for a third HOPE VI Revitalization grant to redevelop Sheppard Square, one of the three remaining barracks-style general occupancy sites. Due to their obsolete function, LMHA is also in the process of demolishing Iroquois Homes.

Relief from HUD approvals prior to acquisition of a property will expedite Agency's hard work to replace these units, while furthering the MTW statutory objective of increased housing choices. Regulatory relief is critical as LMHA narrows its focus on non-impacted areas of low-minority concentration for future public housing development. Acquisition of properties without prior HUD approval will enhance the Agency's ability to respond quickly to unique market conditions, making LMHA more competitive with other investors and homebuyers. In short, LMHA will be a more competitive homebuyer in tight real estate markets typical of low poverty areas of the City.

Baseline and Benchmarks--Cost Efficiency

Baseline and Benchmarks--Increase Housing Choice

- The length of time from when the purchase agreement is signed to the closing before the activity was implemented. Currently, 4-8 weeks is required to acquire a property.
- The length of time from when the purchase agreement is signed to the closing after implementing the activity. LMHA anticipates staff will be able to acquire a property in 4 weeks by implementing this activity
- The number of sites acquired during the fiscal year. The benchmark number of acquisitions during 2011 is 40 units.

- The number of scattered sites in non-impacted census districts. The benchmark number of scattered sites in non-impacted areas is 20.
- The spatial distribution of LMHA's scattered sites will be used to monitor the concentrations of LMHA public housing.

Data Collection and Metrics

LMHA's development team frequently acquires scattered sites in mixed-income communities. The current acquisition process requires staff to prepare submittals to the local HUD field office containing a description of the site including address, bedroom size and accessibility features. The submittal also contains the appraisals, site comparables and certification that the site meets HUD site selection criteria. Under the activity, staff will continue to prepare these submittals and use the information contained therein to maintain a database of the Agency's scattered site properties. Also, staff will document the number of days from the initial purchase agreement to the closing. LMHA will use geographic information mapping to monitor the spatial distribution of the Agency's scattered-site units and the number of public housing units in non-impacted census tracts.

Authorizations Cited

This MTW activity is authorized under the Amended and Restated Moving to Work Agreement, Attachment C Statement of Authorizations, Section C.13.

The authorization is needed to waive 24 C.F.R. 941.401 which requires LMHA to obtain HUD approval of the site or property acquisition contract before taking title. The authorization is needed to waive this regulation so that LMHA can acquire sites without prior HUD approval and achieve the objective of increasing housing choice and greater cost effectiveness of Federal funds.

Information for Rent Reform

This MTW activity does not involve any change to the regulations found in 24 CFR 960 or 24 CFR 982 Subpart K. Accordingly, it is not a rent reform activity and the additional information requirement is not applicable.

Amend HCV Program Admissions Policy to Allow for Deduction of Child-Care Expenses in Determination of Eligibility

Description

LMHA will amend its Housing Choice Voucher Program and Public Housing Program admissions policy to allow for the deduction of verified ongoing child-care expenses from a working household's gross income when determining income eligibility. In order to qualify for the adjustment, the family must include a head of household and/or spouse with a demonstrated work history for a period of 12 months or longer.

Relation to Statutory Objectives

The proposed activity will increase housing choice for working families with children who may be struggling to make ends meet. In addition, Section 8 and Public Housing assistance will give incentive to families on the upper edge of eligibility to continue working and will help stabilize their household budgets. Also the admission of working families to the HCV and Public Housing programs will reduce housing assistance costs and achieve greater cost effectiveness in federal expenditures.

Impact on Statutory Objective

Family structure and the role of women within the family have changed significantly in the last two decades. Today, over one-half of the mothers who have preschool children are employed outside the home, and nearly an equal number are single parents. More and more parents are turning to non-family members to help care for their children while they are at work. However, child care (provided by a third party such as a commercial day care center) that is safe, reliable and convenient is also costly. Child care expenses can easily account for up to a third of a household's monthly budget and consequently put the family's housing status in jeopardy.

This activity will increase housing choice for these families who would not qualify for the HCV program under normal eligibility requirements. Current regulations require that eligibility for admission to the Housing Choice Voucher Program and Public Housing Program be based on a family's gross income. Simply stated, if the household gross income is above the income limits then the family is not eligible for housing assistance. Families with an employed parent or parents often have to rely on child care to enable them to work. Consequently, a family with a working parent or parents whose gross income is above the limit may have substantial child care expenses and financially the family may be in a far direr situation than a family whose gross income meets the eligibility requirement.

For example, the current income limit for a family of three is \$26,750. Therefore, a working mother of two with an income of \$28,000 per year and child care expenses of \$150 a week is not eligible for the HCV program using current admission requirements. However, the family's "adjusted gross" income is only \$20,200 after deduction of child care expenses, well below the income threshold to be considered eligible for admission to the HCV program.

Baseline and Benchmarks

Given that LMHA monthly program costs substantially exceed our funding at the present time, this initiative will have no impact until we reach the point that we are able to again move applicants from the waiting list to the program. This may not occur until the end of FY 2011.

- Baseline is zero as no families with gross incomes in excess of the income limits are admitted to the program.
- The metric will be the number of families admitted to the HCV Program through this activity. LMHA anticipates that that this initiative will apply to approximately one out of every 25 admissions (4%) so we could expect 15 per year; however, LMHA will not be in a position to admit from the waiting list for at least another year. For the Public Housing Program, LMHA anticipates that only a handful

of applicants will benefit from the initiative. This is because the income limit of eligibility of participation in the Public Housing Program is 80% of AMI. The benchmark for Public Housing is 3 families.

Data Collection and Metrics

LMHA staff will record the number of families admitted to the HCV Program and the Public Housing Program through this activity.

Authorization Cited

Attachment C, Section D.3.a. Eligibility of Participants – Sections 16(b) and 8(o)(4) of the 1937 Act and 24 C.F.R. 5.603, 5.609, 5.611, 5.628, and 982.201. Attachment C, Section C.5 Use of Public Housing as an Incentive for Economic Progress.

The authorization is needed to waive 24 CFR 982.201(b)(3) which states that the annual income (gross income) of a participant family is used to determine income eligibility for admission to the Housing Choice Voucher program. For the Public Housing Program the authorization is needed to waive 24 CFR 960.201(a) and (b)(2) The waiver allows LMHA to deduct verified ongoing child care expenses from the gross income for a family with a parent or parents with a demonstrated work history for a period of 12 months or longer and use the “adjusted gross” income to determine eligibility for the program and achieve the goal of increasing housing choice for working families with children.

Information for Rent Reform

This MTW activity does not involve any change to the regulations found in 24 CFR 960 or 24 CFR 982 Subpart K. Accordingly, it is not a rent reform activity and the additional information requirement is not applicable.

Develop Locally Defined Guidelines for Development, Maintenance and Modernization of Public Housing

Description

The activity is to explore using MTW authority to create locally defined guidelines for the re/development, maintenance and modernization of public housing. LMHA will establish reasonable and modest design guidelines, unit size guidelines and unit amenity guidelines for new and ongoing public housing development activities. All units subject to these guidelines will meet HUD housing quality standards.

In creating the new guidelines, LMHA will focus on strategies for developing sustainable and affordable housing. Strategies may include environmentally conscious rehabilitation techniques that reduce energy consumption, and architectural guidelines designed to minimize life-cycle costs of new public housing developments. LMHA will also explore maintenance protocol of interior environments that increases comfort and reduces health risks to residents. The guidelines will also incorporate local building code requirements, as well as mandatory design criteria for housing developed with low-income tax credits administered by the Kentucky Housing Corporation.

Finally, the guidelines will incorporate environmentally friendly best management practices (BMPs) for commissioning new building systems and the on-going maintenance of the Authority's entire housing portfolio. LMHA's locally defined guidelines will apply to new construction and existing public housing units scheduled for modernization.

Relation to Statutory Objectives

The proposed activity would achieve greater cost effectiveness in Federal expenditures and increase housing choices for low-income families.

Impact on Statutory Objective

One of the Agency's foremost goals is to transform the original family developments owned by the Housing Authority of Louisville (HAL). LMHA's conventional housing stock is aging and by contemporary design standards, including energy conservation, obsolete. Consequently, LMHA has undertaken the systematic redevelopment of HAL's public housing during the last 20 years, replacing existing developments with mixed-income communities, while at the same time increasing housing choices by providing replacement units in mixed-income areas. LMHA has incorporated a myriad of green and energy saving measures into the new housing. LMHA continues to improve and maintain over 4,000 units of low-income public housing in the portfolio. For example, LMHA is testing non-toxic maintenance products at several developments and indoor climate controls systems have been updated at Avenue Plaza, an high rise for senior and disabled families.

Agency-wide, for the fiscal year ending June 30, 2009, LMHA-paid utilities totaled \$7.8 million. By implementing environmentally conscious design protocol LMHA will significantly reduce energy consumption, minimizing the overall environmental impact of the project. Most importantly, green building will increase residents' comfort and health. LMHA will be able to demonstrate an aptitude for "green" design and construction. When green design and low-income tax credit design requirements are implemented together, LMHA will have a "green" advantage for competitive funds. The use of LMHA funds as financial leverage to develop additional low-income housing, will achieve greater effectiveness of Federal funds for low-income housing development. Finally, locally defined guidelines will ensure that unit sizes and amenities are culturally relevant. For example, units subject to the new guidelines may specify contemporary technologies such as broadband internet.

Baseline and Benchmarks

- Baselines and benchmarks will be established after the locally defined guidelines have been drafted, discussed at a public hearing and approved by HUD.

Data Collection and Metrics

The LMHA development team staff keep detailed records of every public housing unit acquired, developed or constructed, including location, square footage, bedroom size, construction type, amenities, accessibility features and the total development cost. For units developed by the Authority, architectural drawings showing building systems are also kept on file. The files are maintained and can easily be accessed at the Authority's central offices.

In addition, LMHA finance staff keep track of utility consumption levels by incremental unit (i.e., kilowatt hour of electricity, 1,000 gallons of water, and 100 cubic feet of gas) for each AMP. The savings before and after improvements are made can easily be monitored using the reports prepared monthly and annually. Cost efficiencies will be calculated using local average utility rates for the year adjusted for extraordinary conditions including unusually high/low temperatures, increased demand for resources such as coal, and/or severe drought.

Authorizations Cited

This MTW activity is authorized under the Amended and Restated Moving to Work Agreement, Attachment C Statement of Authorizations, Section C.12. This authorization waives certain provisions of Sections 4, 5, and 9 of the 937 Act and 24 C.F.R. 941.202, 941.401, and 941.403.

Information for Rent Reform

This MTW activity does not involve any change to the regulations found in 24 CFR 960 or 24 CFR 982 Subpart K. Accordingly, it is not a rent reform activity and the additional information requirement is not applicable.

VI. Ongoing MTW Activities: HUD Approval Previously Granted

This section provides information detailing LMHA's ongoing MTW activities, including evaluation criteria and specific waivers to be used. LMHA is not using, or have plans to use, a consultant to conduct evaluations of ongoing MTW activities in FY 2011.

LMHA has made an effort to include all previously approved MTW activities. Any exclusion is unintentional and should be considered continuously approved. If additional previously approved activities are discovered, LMHA will add them to subsequent plans and reports.

Activities that Reduce Costs and Achieve Greater Cost Effectiveness

Locally Defined Definition of Elderly

The activity, proposed and implemented in FY 2008, is to pilot the following local definition of elderly: any family whose HOH or spouse is age 55 or above. LMHA experienced decreasing occupancy rates at its elderly/disabled-only high-rises for many years prior to adopting a local definition of elderly for these communities. Opening up these sites to non-disabled households between ages 55 and 61 has raised occupancy rates and increased the pool of 1 bedroom units available to these applicants. Higher occupancy rates at these sites improve LMHA's operating revenues, achieving greater cost effectiveness. No changes are expected to be made in FY 2011.

Explore HUD's Streamlined Demolition and Disposition Application Process for MTW Agencies

Proposed and approved in the FY 2009 Plan, this activity has been tabled. HUD investigated the possibility of streamlined demolition/disposition activities for MTW agencies but found that it was not feasible under MTW. Out of concern for residents' rights and the public process, HUD decided that MTW agencies must follow the established procedures for demolition/disposition of property. This activity will remain dormant through FY 2011.

Standard Medical Deduction

Proposed and implemented in the FY2009 Plan, disabled and elderly families are eligible to receive a \$1,600 standard medical deduction. The cost reductions from this activity are administrative savings due to reduction in verifications and paperwork. The initiative covers families in both Public Housing and the HCV program. Taken together, Public Housing and HCV program reduced the cost to process applicants and conduct rent calculations by \$34,462 in FY 2009. The activity achieved greater cost effectiveness in federal expenditures. No changes are expected to be made in FY 2011.

Alternate Year Reexamination Schedule

LMHA proposed and implemented a biennial schedule for reexaminations with the FY 2008 Plan. For Public Housing, each year 50% of the elderly and disabled families age 55+ residing in Public Housing receive a full reexamination of eligibility on the anniversary of their lease-up date. For the HCV program, elderly and disabled families age 55+ in the Housing Choice Voucher program are required to appear for a full reexamination every other odd numbered calendar year (referred to as an "ON" year). In an even numbered year (referred to as an "OFF" year) families are required to complete a mini-recertification packet and mail it to the Authority.

In fiscal year 2009, the alternate year reexamination schedule reduced costs in the public housing program by about 50% or \$8,500. The Housing Choice Voucher program achieved no cost savings in 2009 because all clients were scheduled for a full reexamination; however in FY 2008 the activity

helped LMHA obtain a \$17,390 savings due to a substantial reduction in staff time spent conducting income verifications. No changes to this activity are anticipated.

Lease-Up Incentives for New Residents at Dosker Manor

LMHA proposed and implemented the activity in FY 2010. The activity is to give lease-up incentives to new residents at Dosker Manor, one of the Agency's elderly/disabled high-rises located in downtown Louisville. Because Dosker Manor's occupancy rate has remained below 90% for some time now, new residents receive a waiver of the initial deposit and the first month's rent free. LMHA anticipates the incentives will increase occupancy rates and defray fixed operating expenses at the site. No change to this activity is anticipated.

Simplification of the Public Housing Development Submittal

LMHA proposed and implemented the activity in FY 2009. The activity is a simplified proposal for each acquired or developed public housing property. Twice yearly, LMHA also submits a six month report summarizing the Agency's acquisition and development activities to the HUD Louisville Field Office. The activity has reduced the amount of time staff spend preparing development submittals and reduced the average length of time to close on a property. No changes to this activity are expected to be made in FY 2011.

Flexibility in Third-Party Verifications for HCV Homeownership

Proposed and implemented in the FY2009 Plan, applicants to the HCV Homeownership program are allowed to provide income verification including employment verification from employer, child support verification, statements for all bank accounts, proof of CDs at the bank, pension plan verification and proof of all medical costs including prescriptions. Also, income verification is valid for 8 months. Cost savings through the elimination of staff time spent obtaining verifications and conducting reviews has been achieved. No changes are expected to be made in FY 2011.

Activities that Increase Housing Choices for Low-Income Families

Special Referral MTW-HCV Programs (Project Women, Center for Women and Families)

Special referral programs are intended to address the needs of persons not otherwise met in the community and provide the voucher as incentive for families to move toward economic self-sufficiency. LMHA has established special referral programs with two housing and support services providers at three facilities. Families with specific needs often face multiple barriers to achieving their self-sufficiency goals. LMHA's special referral HCV programs are a strong incentive for participants to enroll and complete the program as the current waitlist for S8 vouchers includes over 12,100 applicants. It also increases housing choice for low-income families interested in these programs.

Residents can be referred through the program staff to LMHA directly for voucher assistance provided the resident meets S8 eligibility requirements. While voucher recipients are initially required to reside on site and meet the program requirements, their voucher resumes full portability after they successfully graduate from the program. As a participant moves from the site, LMHA issues a voucher to the next eligible applicant.

In addition, unit inspections are held once per year concurrently at the site. This inspection protocol was implemented in 2009 at all special referral program facilities.

- **The Villager - Center for Women and Families (CWF)**
Proposed and implemented in the FY 2005 Plan, LMHA allocates up to 17 vouchers to a special referral program with the Center for Women and Families for their long-term transitional housing

on their downtown campus. Programs at the Center focus on the elimination of domestic violence, sexual violence and economic hardship. Voucher utilization was 100% as of September 30, 2009. Also, 3 portable vouchers were issued to program graduates in 2009. This activity has increased housing choice and cost effectiveness therefore no change to the activity in FY 2011 is proposed.

- **Family Scholar House - Project Women**

Proposed and implemented in the FY 2008 Plan, LMHA allocates up to 56 vouchers to a special referral program with Project Women for their Scholar House facility. Single heads of households often face multiple barriers to furthering their education and obtaining employment that will provide their families with adequate income to become self-sufficient. Project Women participants (single parent, attending school). Voucher utilization was 95% as of June 30, 2009. No voucher holders have graduated from the program. Even so, no change to the activity is expected to be made in FY 2011.

- **Downtown Scholar House - Project Women/Spalding University**

This activity was proposed in the FY 2010 Plan but has not been implemented. The proposed activity is to allocate Housing Choice Vouchers annually to a special referral program with Project Women and Spalding University at the Downtown Scholar House. The number of vouchers set aside for program participants in FY 2011 has been changed from 56 to 43. No other changes to this activity are expected in FY 2011.

Local Housing Choice Voucher Homeownership Program – Amount and Distribution of Homeownership Assistance

This activity was proposed and implemented in the FY 2006 Plan. LMHA revised its HCV Administrative Plan to allow for the utilization of a two-bedroom payment standard for all one bedroom eligible HCV Homeownership households and maintains the 110% FMR local payment standard and the 120% FMR in exception rent areas for the Homeownership program. No changes will be made to this policy in 2011.

Exception Payment Standards for HCV Homeownership

Proposed in the FY 2009 Plan and implemented that year, this activity adjusts payment standards for HCV Homeownership to 120% of FMR in homeownership Exception Payment areas using Census 2000 Owner Occupied Median Value instead of Renter Occupied Median gross rent to calculate exception payment census tracts. In fiscal year 2009, program homebuyers' average increase in buying power was \$11,458; four homeowners bought in exception payment districts, and; LMHA homebuyers live in 22 of 26 Metro Council Districts. No changes in this activity are planned for 2011.

Public Housing Sub-lease Agreement with Catholic Charities for Emergency Temporary Housing

This activity was proposed and implemented in FY 2010. LMHA has agreed to sublease up to 30 public housing units to Catholic Charities as emergency temporary housing for victims of human trafficking. In many cases, victims either lack identification and other documentation or are unable to obtain it without great difficulty; therefore all verification requirements and age-related occupancy criteria are waived for the initial six-month occupancy period. Victims also receive preference for the public housing program at the expiration of the six-month period. In FY 2010, the initial grace period was extended to nine months. No change to this activity is expected to be made in FY 2011.

Activities that Give Incentives toward Economic Self-Sufficiency

Earned Income Disregard

This activity was proposed in the LMHA 2009 Plan and implemented that year. The activity is to give a \$7,500 earned income disregard to elderly families in the Housing Choice Voucher Program who's only other source of income is their Social Security entitlement. While the disregard currently only affects a small number of families, elderly families who go to work in the future will be able to retain all of the income that falls below the threshold. No changes are expected to be made in FY 2011.

Term Limits and Employment/Educational Work Requirements for Clarksdale Single Family Public Housing Replacement Units

This activity was proposed in the Agency's 2007 Annual Plan and implemented during 2007. The activity is a five-year limitation on residency in the new scattered site, single family public housing ACC rentals created off-site under the Clarksdale HOPE VI Revitalization program. In addition, heads of household must be employed and work at least 20* hours per week to be eligible for these units. In FY 2009, 2 families at the Clarksdale replacement units moved to market rate rental or homeownership.

*Due to the downturn in the national economy, the work requirement has been reduced from 30 hours to 20 hours. No additional changes are expected to be made in FY 2011.

Increased Flat Rents and Occupancy Criteria Changes for Scattered Sites

LMHA proposed this initiative in the 2010 Annual Plan and implemented that year. Flat rents for the Agency's scattered sites have been raised and adjusted based on the square footage, location, age and amenities at the property as rent comparables for the site are completed. All households residing in the units will ultimately be subject to the revised rent structure. Households have the choice of the new flat rent or a rent based on 30% of their income at their next recertification date after the rent increase becomes effective. No changes to this activity are planned for 2011.

VII. Sources and Uses of Funds

This section describes LMHA's projected revenues and expenditures for all of LMHA's programs and use of MTW fungibility. This statement is for the fiscal year ending June 30, 2011.

The LMHA's 2010 - 2011 operating plan provides for an overall, consolidated deficit of \$2,508,000. This deficit originates in the Section 8 Voucher Program, and is offset by an anticipated surplus in the COCC.

Housing Choice Voucher Program

The Housing Choice Voucher program will operate at a deficit due to a high utilization rate. The Agency has leased more total vouchers in the current fiscal year than current funding levels will support and anticipates that will continue through the coming fiscal year.

The number of applicants on the waitlist for the Housing Choice Voucher program had been growing at an alarming rate for several years. In an effort to provide relief to these low-income families, LMHA increased the number of housing choice vouchers under lease. This was possible because of the freedoms offered by the MTW program and because HUD funded the Section 8 Voucher Program at more than 100% of eligibility for two consecutive years.

LMHA expects the voucher utilization rate to reach more reasonable levels during the fiscal year 2011. This will be accomplished primarily through attrition. As voucher holders leave the program, new vouchers will not be issued until the annual costs of those vouchers is more commensurate with the annual income received by the Section 8 Program. Additionally, utility allowances to participants will be reduced, and rental increases to landlords will be limited. Also, new vouchers issued in 2011 will not be funded at more than 105% fair market rate.

Low Income Public Housing

The Public Housing Program (AMPs) is budgeted as a "break-even budget". However, the break-even budget includes transfers from the Capital Program (\$2,429,000), and transfers between AMPs (\$1,944,000). These transfers are necessary for the following reasons:

- a) Extremely low interest rates. Current interest rates are approximately 0.2% to 0.3%. LMHA can invest in only the most conservative investments, which reduces interest income. Before the current economic climate, LMHA received rates of 5% or greater.
- b) To operate and manage AMPs at a high level and maintain a balanced operating budget at each. The HUD approved project expense levels (PEL) for some AMPs do not adequately provide for management services at the level deemed necessary by LMHA.

LMHA's Board of Commissioners has approved the use of the funding fungibility authority within the MTW program to augment the Public Housing Program with Capital Fund dollars. Public housing operating reserves could also have been used to absorb expected shortfalls. However, the Board of Commissioners has established a policy of maintaining 4 months of operating expenses in reserves. These reserves provide adequate cash flow in case of delays in HUD funding (which has occurred over the years), fund emergencies or disasters that may occur, and keep the Authority on sound financial ground.

Uses of Single-Fund Flexibility

LMHA continues to use single-fund flexibility under Attachment C of the MTW Agreement. LMHA exercises its authority to move funds and project cash flow among projects and programs as the

Agency deems necessary to further its mission and cost objectives. In 2011, LMHA anticipates using MTW single budget flexibility to use Federal funding across traditional program lines as follows:

- The transfer of \$2,429,000 from the Capital Fund Program to the Public Housing Program.

In addition, LMHA has identified four MTW activities which may require fungibility to address local issues:

- **Multi-Cultural Family Assistance Program (Estimated cost is \$50,000-\$60,000.)**

This activity was proposed in the LMHA FY 2008 Plan and will be implemented this calendar year. Louisville continues to experience a growing demand from Somali and other African immigrant families living in the Metro area for housing and social and support services. Since these families have differing beliefs, customs and lifestyles that can pose a challenge to adapting to a very different country and culture, LMHA has proposed to hire a staff person who is knowledgeable about African-immigrant cultures and languages. The staff will be able to address both the needs of the families and the Agency while assisting in property management, operations and lease enforcement. LMHA plans to implement this activity in FY 2011.

- **Homeownership Program Maintenance Specialist (Estimated cost is \$50,000-\$60,000.)**

LMHA proposed this initiative in the 2009 Annual Plan, and it has not yet been fully implemented. LMHA plans to restructure the current homeownership inspection, training and consultation process (these three duties are currently split among different individuals) and instead steer all the tasks through a Home Maintenance Staff (HMS). LMHA is evaluating internal staff capacity to perform these duties and determining whether the position will require a part-time or full-time schedule. LMHA may hire an HMS in FY 2011. The position will be funded using Section 8 reserves.

- **Compact Fluorescent Lights Trade-in Pilot Program for Avenue Plaza Residents (Estimated cost is \$**

Proposed in the FY 2010 Annual Plan and will be implemented in FY 2010, the activity is a pilot program to exchange existing incandescent light bulbs with fluorescent lights (CFLs) in the light fixtures and lamps in residents' apartments at Avenue Plaza. The program waives the normal \$4 per bulb maintenance fee that was previously charged to replace incandescent bulbs within residents' apartments. The waved maintenance fee and low purchase price will be quickly offset by the average estimated energy cost savings of \$20-\$60 per bulb over the life of the CFL.

- **Weatherization and Energy Efficiency Pilot with HCV Homeownership Properties (E-Homes) (Estimated cost is \$25,000)**

This activity was proposed in the LMHA 2010 Plan and was implemented in January, 2010. E-HOMES grants 25 HCV homeowners up to \$2,000 for an energy audit, and weatherization services and energy efficiency upgrades to their home. LMHA expects that these improvements will help reduce homeowners' utility consumption and stabilize their household budgets. No changes to this activity are anticipated to be made in FY 2011.

VII. Administrative

A. Board Resolution

The Board of Commissioners of the Louisville Metro Housing Authority passed resolution No. 23-2010 on March 16, 2010 approving the 2011 Moving to Work Annual Plan and adopting the Annual Moving to Work Plan Certifications of Compliance.

B. Agency-directed Evaluations of the MTW Demonstration

LMHA has not directed an evaluation of its MTW program beyond those to be conducted and reported on in the MTW Annual Report and the impact analysis and annual reevaluation of ongoing rent reform initiatives.

**Appendix A. Board of Commissioners Resolution to
Approve the FY 2011 MTW Annual Plan**

RESOLUTION NO. 23-2010 (3/16/10)

RESOLUTION APPROVING LMHA'S MOVING TO WORK
PROGRAM FY2011 ANNUAL PLAN

Item No. 5g

WHEREAS, the Louisville Metro Housing Authority (LMHA), as the Housing Authority of Louisville (HAL), executed a Moving to Work (MTW) Agreement on August 2, 1999 and an Amended and Restated Agreement on April 15, 2008 which provides LMHA with the authority to investigate and adopt new policies and to flexibly use HUD funding; and

WHEREAS, as part of the Amended and Restated MTW agreement, an Annual Plan for Fiscal Year 2011 must be developed and submitted to HUD to formally enable the Authority to fully use the policy and budget flexibility provided to participants in the MTW Program; and

WHEREAS, a Board Resolution approving the proposed MTW Annual Plan and required Certification must be included in the submission provided to HUD; and

WHEREAS, LMHA staff will distribute the Annual Plan to the Board of Commissioners and will conduct a Public Hearing on April 12, 2010 to discuss the proposed FY 2011 MTW Annual Plan before its submission to HUD.

NOW, THEREFORE, BE IT RESOLVED BY THE LOUISVILLE METRO HOUSING AUTHORITY BOARD OF COMMISSIONERS that the FY 2011 MTW Annual Plan is approved pending the outcome of the public hearing, and that the Executive Director and Contracting Officer, Tim Barry, is hereby authorized to submit this Annual Plan to the U.S. Department of Housing and Urban Development.

RESOLUTION BACKGROUND STATEMENT

RESOLUTION APPROVING LMHA'S MOVING TO WORK
PROGRAM FY2011 ANNUAL PLAN

Item No. 59

I. STATEMENT OF FACTS

Moving to Work (MTW) is a deregulation demonstration program legislated by Congress in 1996 that provides increased autonomy for selected Public Housing Authorities (PHAs) to meet specific local housing needs. The MTW Demonstration Program provides participating PHAs flexibility to test various housing approaches that achieve greater cost effectiveness, provide incentives to residents to obtain employment and become economically self-sufficient, and to increase housing choices for low-income families. MTW legislation allows participating housing authorities to combine federal resources from the Operating Budget, Capital Fund and the Housing Choice Voucher Tenant-Based Rental Assistance programs, and the flexibility to efficiently utilize these HUD funding sources.

In October 1997, the former Housing Authority of Louisville was chosen as one of 24 MTW demonstration awardees. HAL'S MTW agreement, which specified the regulatory relief afforded to the organization, was finalized and signed on August 2, 1999, and was originally for a five-year period. This agreement, which now covers the Louisville Metro Housing Authority, was to expire as of June 30, 2005. LMHA was fortunate to receive a one-year extension, followed by an additional three-year extension.

On December 20, 2007 HUD notified LMHA of its intent to amend and restate MTW agreements with participating PHAs. This new agreement was adopted by the Board in a resolution on April 15, 2008 and will extend participation in the MTW program until June 30, 2019.

MTW demonstration agencies are still required to prepare and submit MTW Annual Plans in lieu of the Public Housing Annual Plan as is currently required of other agencies. The FY2011 Annual Plan will be effective from July 1st, 2010 to June 30th, 2011.

Copies of the proposed FY 2011 MTW Annual Plan will be distributed to the Board of Commissioners and will be discussed at a Public Hearing on April 12, 2010 prior to submission of the FY 2011 Annual Plan to HUD.

As part of the FY 2011 Annual Plan submission, Executive Director Tim Barry will be required to certify a number of statements as required by HUD. A list of these certifications is attached.

RESOLUTION BACKGROUND STATEMENT

RESOLUTION APPROVING LMHA'S MOVING TO WORK
PROGRAM FY2011 ANNUAL PLAN

Item No. 5g

II. ALTERNATIVES

- A. Approve the resolution authorizing the submission of the proposed FY 2011 Moving to Work Annual Plan pending the outcome of the public hearing.
- B. Do not approve the resolution authorizing submission of the proposed FY 2011 Moving to Work Plan.

III. RECOMMENDATION

Staff recommends Alternative "A".

IV. JUSTIFICATION

- LMHA, in consultation with residents, has developed the proposed FY 2011 Moving to Work Annual Plan.
- Approval of this resolution is a contractual requirement under the MTW program that will allow LMHA to move forward and take advantage of the flexibility afforded to Moving to Work sites.

2011 MOVING TO WORK (MTW) ANNUAL PLAN

PUBLIC HEARING

APRIL 12, 2010

6:00 PM, DOSKER MANOR

AGENDA

- **New Moving To Work Activities**
 - Acquisition of sites for public housing without prior HUD approval.
 - Amend Housing Choice Voucher program admissions policy to allow for deduction of child-care expenses in determination of eligibility.
 - Local design guidelines for public housing development, modernization and maintenance.
- **Capital Fund Activities**
 - Capital Projects in 2011.
 - Federal stimulus funds - American Recovery and Reinvestment Act (ARRA).
- **Greening Initiatives**
- **Changes in the Housing Stock**
- **Leasing**
- **Revitalization Activities**
 - Liberty Green.
 - Neighborhood Stabilization Program.
 - Sheppard Square HOPE VI application.
 - Housing for veterans.
- **Substantial Deviation and Significant Amendment to the Annual Plan**

MOVING TO WORK PUBLIC HEARING
 April 12, 2010

**FY 2011 MOVING TO WORK DEMONSTRATION PROGRAM ANNUAL PLAN
PUBLIC HEARING AT DOSKER MANOR
APRIL 12, 2010**

Tim Barry: We are here to talk about...and we make this annual pilgrimage to Dosker Manor...to talk about the Housing Authority's annual plan. And as I say every year, we call it the Moving to Work Annual Plan but it really has nothing to do with moving or working necessarily. It is what we plan to do, hope to do, at the Authority over the next year. We like to have the opportunity to share our suggestions and ideas, first and foremost, with the people who reside in public housing because you're the ones most directly impacted by what we are proposing to do. I'm going to very quickly go through some of the initiatives that you should also have a copy of those, I think. You do. Things that we are proposing to do next year that's different from the stuff we've done in the past and a lot of what we have done in the past we are, of course, continuing. You will have ample opportunity to comment. My comments and summary discussion will be very brief so you will have ample opportunity to say what you want, either about Moving to Work, although I would prefer that you keep your comments confined to what's in the annual plan, but if you have other issues having to do with the Housing Authority or Dosker Manor or whatever, I would ask that you save those until after the meeting and we'll hang around and try to help you as best we can. I would like to recognize some LMHA, Louisville Housing Authority staff, but also, first and foremost the Chairman of our Board, Mr. Manfred Reid, who many of you know. He is here with us every year...very active in what the Housing Authority is doing. I'm going to ask Manfred to say a couple of words here in a minute. Mr. Will Seay, Deputy Executive Director of Operations. Wavid Wray, he has all the money, chief financial officer. Art Wasson, head of our Section 8 program. Lee Harper, head of our construction division. And I think we ought to say "thank you Lee" because he is the one who oversaw the new floor here and out there and some other work that is going on. Lee has been overseeing that. He has done a good job trying to marshal all the resources and get the contractors to stay out of people's way but get the job done. In fact, they worked Friday evenings and Saturday mornings so they could stay out of people's way as much as possible. I also want to recognize Nate Northington. He's our Regional Manager and Jeff Ralph who is the second person in charge of money. Between Wavid and Jeff they've got all dough.

Alright, let me go through the initiatives we are proposing for 2011. The first thing we are proposing to do is acquire sites for replacement public housing. We're always in the process of buying replacement housing, new scattered site units, because as you know, we have torn down and removed a lot of public housing in the last few years, not the least of which is the facility next door, Clarksdale and Park DuValle many years ago. We have not replaced all of those units, but we have at least at Clarksdale. But other facilities that we've been tearing down include Iroquois. We've been tearing that down little by little. But we are committed to doing one-for-one replacements. For every public housing unit that comes down, it will be replaced. We are in the hole right now because we have taken more down than we've bought or produced new but we are working against that and trying to buy scattered site properties as soon as we can so we have sufficient replacement housing because the need remains unchanged. It is still very, very great. And what we are asking in this plan so we can move more quickly when we buy this property that we be allowed to buy this property without local HUD's approval. HUD is the Department of Housing and Urban Development and they are the agency to whom we report in terms of our spending of federal monies and for normal acquisitions, not anything extraordinary or something that is an odd purchase, but normal acquisitions, we're asking that we be free from getting local HUD approval so we can move a lot faster. This is no bad reflection on HUD in terms of how quickly they can review our acquisitions but they have a process they have to go through and I think they'd probably be relieved if we didn't bring each and every acquisition or probable purchase to them. So, we are asking that we be free from that so we can buy properties faster.

We are also going to deduct the family's child care expenses when determining applicant eligibility for Housing Choice Vouchers. That is another word for Section 8. In order to qualify for the adjustment the family must include a head of household and/or spouse with a demonstrated work history for a period of 12 months or longer.

This activity will extend Housing Choice benefits to working families who may be struggling to maintain a job and make ends meet due to child care. So, we think that is a very positive thing.

We are also going to implement local design guidelines for the development, modernization and maintenance of public housing so that whatever we buy or build is an asset to a neighborhood, so that it looks like it belongs in that neighborhood because all neighborhoods in this community have certain consistent design standards and we want to maintain those whenever we build or buy or rehab a property. We are also going to encourage the use of anything that serves energy like Energy Star appliances, use of environmentally friendly cleaning products. The Housing Authority for the last year has been on a mission to make this whole agency much greener. We have begun to implement recycling at Avenue Plaza so expect to see that at Dosker within the next year or so to recycle goods. That will eventually end up at all the sites, so we'll do recycling. Avenue Plaza has been the guinea pig for a lot of stuff that we're doing that's "green" which will not only help reduce the amount of stuff we put in our landfill but also reduce our energy costs. We are replacing windows, which we're about to do at Avenue Plaza. Again, I use Avenue Plaza as an example because that's the one where we're trying all this stuff first to make sure it works. So you can expect some of that stuff to appear here at Dosker Manor and all the other facilities we have.

Continuous Capital improvements: we mentioned the windows at Avenue Plaza and blind replacement. We are doing a whole bunch of underground piping at Beecher Terrace because the underground piping that services the boilers and heat is beginning to fail and needs to be replaced. We are also going to do a modernization at The Friary which you know where that is, it's very close. So, we're doing that. I also need to mention that we have been on the receiving end of some stimulus money from the Obama Administration. I think a lot of you have read about what this President has done in terms of trying to stimulate the economy and bring us out of the downturn that we experienced the last eight years and I'll leave it at that. And I think he has been successful at that and it certainly has helped the Housing Authority. We received \$14 million and we have spent it all on Capital improvements for public housing units. We have spent it at a very rapid pace. We have spent 62% of the money we've been awarded already and it doesn't have to be spent until March, 2012. So we're, I think if not leading the pack, close to leading the pack, in this country in terms of spending the money the President gave us which is the point of the exercise. That's what he wanted us to do, put people to work. We've been able to create some jobs and keep people in jobs that may have been out of jobs by now. And hopefully that will put us in a position to get money that's going to be recaptured. When housing authorities haven't spent money like the President asked them to, he's going to take it back and they have been threatening to do that for a long time. And I think that finally we have a fellow that's going to do it. For those housing authorities, some of whom are my colleagues, haven't done right by the money they were given by all of us, from all of us. They are going to take it back and give it to somebody else who is going to spend it right and I hope that we are one of those recipients because that means we can end up doing more jobs like this and other stuff that we've got planned everywhere. I've talked about the green initiatives. They are all in here.

Changes in housing stock...you are obviously well aware of what has occurred in Clarksdale in terms of replacing that and also, what occurred quite a while ago at Park DuValle. We've also been gradually tearing down Iroquois and with all of our demolition of units, again let me emphasize that we are committed, completely and thoroughly committed to doing one-for-one replacements so eventually, it may take some time and will take some time, all those units will be replaced. We have also applied for a HOPE VI grant for Sheppard Square over in Smoketown to do a HOPE VI mixed-income site there like we have done at Liberty Green and Park DuValle and we are still awaiting word on that. We are hopeful we can get the grant but we haven't heard if we're successful or not. It should come any time. We were told that we would hear by February 1 but they got behind. They have a lot on their plates, so I expect any day we will know about Sheppard Square.

I've talked about Liberty Green. We are also participating in the program called Neighborhood Stabilization which is actually a program that the City is doing to take some of these properties that have been foreclosed upon, that have been abandoned, people have walked away, we're trying to help the City get those back into use, rehab

them which is a good program. The City is under a deadline just like all the rest of us in terms of getting this money spent so we are going to help them spend that money. The majority of what we do in terms of Neighborhood Stabilization activity will likely occur in Smoketown. That's a neighborhood...and it doesn't mean to say there aren't other neighborhoods in need...but that's a neighborhood that is in great need and will help us complement what we do at Sheppard Square if we are able to do some rehabbing in Smoketown.

I think that covers it. If you would allow me, I'm going to let Mr. Reid say a few words and then we'll open it up for comments and questions and we'll stay here as long as you like to try to address any issues you may have. Thank you.

Reid: Thank you Mr. Barry. First, I want to thank Mr. Barry for his tenure. This is his tenth year as Executive Director of the Louisville Metro Housing Authority. (applause)

(Tim – Yeah, and I'm only 35 years old!)

Reid: And during those ten years, we have made more progress as it relates to providing quality services to our residents than in any other period in history prior to that time.

(Somali interpreter makes a comment.)

Reid: I will repeat this so that you can interpret it, okay. (He repeats his previous comments so they can be interpreted.) All of our residents have the opportunity toward education and the opportunity to increase their employment and to reach self-sufficiency according to their needs and the size of their family. For those who are not aware we have an educational program established where our residents by participating in the Family Self-Sufficiency Program they can receive scholarships to pay for their education. And we want you to know that if you have children or grandchildren or if any of you would like to participate in our program of Family Self-Sufficiency as it relates to education you can contact our Special Programs Director, Ms. Diane Foster and Mr. Dan Farrell and they will assign you to the program and you'll get all the benefits as it relates to money. To date, we have invested \$1,053,000 in education and other opportunities for our residents. These opportunities also include homeownership. We have a plan by which we can provide you with training as it relates to personal financial banking, home management, parental care and we also have other programs to include care for the elderly. The Housing Authority in the year 2011, we have projected that we will be managing 58,168 units. When you multiply that into a family of four, we will be housing a large portion of our community population. We all welcome the opportunity to speak to you about these programs and we welcome your participation and the participation of your children and your grandchildren. And if you can, please spread the word to all of our residents. It is so important that they come to these meetings. I want to thank each one of you for being here. It means a lot because the effort that our staff puts forth every day is a continuous and ongoing toil and struggle to make sure that every resident has the full opportunity to participate. Also, I would like to say to our immigrant community, we are so thankful that you decided to join us and the Executive Director has proposed a multi-cultural program to extend our services to our immigrant community. And we need all the immigrant residents to participate in that program and help us in our understanding of your customs and your culture so we can properly disperse that information to the general population and help you in your adjustment in the United States of America. And in closing I want to offer a special thanks to our executive staff and to our overall staff because the quality of our services is based on the work and commitment they give to us every day. We also have a Board of Commissioners which governs and determines policy for the Housing Authority and their commitments are strong and each one of us as Board members are a part of you. We are you. I want to thank you so much for coming and I'll return the mike back to Mr. Barry.

Barry: Thank you Mr. Reid. Since I mentioned I'm only 35 years old, I need to recognize someone else who's only 35, Ms. Charlene. I will now turn it open for comments and questions. Cathy, you want to go first?

Cathy Hinko: My name is Cathy Hinko and I am with an advocacy organization for fair and affordable housing. The name of the organization is Metropolitan Housing Coalition. And I want to comment on several parts of the plan. The first thing I would like to say is I think the deduction for child care is fabulous. Thank you very much. It's a great way to use your power. But since we are talking about child care, I want to talk about the 15,000 Jefferson County Public School students who will be homeless this year. The fact that the plans that the Housing Authority have will only contribute to an increase in that number and that past plans have already been a factor in causing homeless children in our community. Mr. Reid talked about 58,000 units there. I think he missed a comma there. Maybe you meant 5,800, but I don't even see that. Fifteen years ago the Housing Authority had over 6,000 public housing units. Currently, they have far less than that and well under 5,000 public housing units. And, they only have an occupancy rate of 99.0% because they are deliberately not renting units. At the point of the worst economic crisis and worst unemployment rate in decades, the Housing Authority is going to tear down over 300 family units and to do that they must give every family currently living at Sheppard Square...they must give the family three choices which means they have to have unoccupied, unused units waiting for people who are forced to move from their neighborhood. The timing could not be worse. This is no time to have 1,000 units of needed, rent-assisted housing unavailable to our community and they are all family units. When you look at the use of Section 8 vouchers, you see that the predominate use is in two and three-bedroom vouchers. That is because that's what people need, family units. But over the years, the Housing Authority has torn down family units and when they do replacement, they replace with, partially with, one-bedroom units. To the point where, although these units are supposed to be for elderly people, they have to define elderly as, well almost Mr. Barry's age. So they are walking away from families in need. Further, when you look at the goal that they say they have is to have mixed-income, but what we have really seen is the goal is to get rid of poor families. Even replacement units that are family sized, a majority of them have higher income standards than regular public housing for families. And when they do mixed-income developments, less than 5% of the families that were living there get to come back. While some of that is the choice of families that have resettled, a track record of 5% over and over shows that what they really want is to get rid of the families that live there. Because they have to use private money to do a public service they have to turn their back on the families that are most in need because sometimes those families have other problems. So, doing Sheppard Square at this moment in time is not a good idea. Also, \$12.5 million from our other money from the federal government for housing...\$12.5 million that could be spent throughout Jefferson County to improve housing conditions for low-income people, the Housing Authority is grabbing that money away from other areas just to support mixed-income housing at Sheppard Square. This could not come at a worst moment in our economic history. Even in the capital expenditures, and by that I mean, you know how you have the big expenditures on a piece of property like a roof or a boiler, not the regular day-to-day repairs, about \$2.5 million is being taken out of that money which should keep up the other family public housing and it's being put in just day-to-day operations. Now, that is not a sustainable way to operate a business. That's robbing your kid's college education fund when they're 17 because you can't control your daily expenses. And even out of the remaining capital money, another \$617,000 is going to Sheppard Square. So, every low-income family who is homeless is paying through their children being homeless to do Sheppard Square. Now, we have to look at why the Housing Authority...well, as I said, the Housing Authority doesn't have a grudge against low-income families, it's the fact that they have to use private money from investors and investors are the ones who have a grudge against low-income families. The Housing Authority can wait for better programs that the Obama Administration will have to redo public housing.

Hinko: Another totally different area I want to comment on is about the rules on when the Housing Authority has to go back to the public if they're changing this plan. They define substantial deviation from the plan when they take a full 20% of the funds they have said they were going to spend one way and spend it another way. It should be 5% because 20%, one-fifth, they can move around without any chance for the public to comment. That's just plain wrong. That means they can take another 20% of their funds and dump it into this mixed-income instead of serving low-income people. And they've done things like this before, like taking Section 8 money to put into support Liberty Green which houses people of mixed-income. As we look at the human misery in our community we just need to put the brakes on Sheppard Square. The other thing is that the Housing Authority paid a bunch of money to a University of Louisville researcher to find out what happened to people who were at Clarksdale. Now,

intellectual integrity would say if you're going to do a study on this you would want the results of this study before you do a new program. But we don't have that study out yet new programs for Sheppard Square and displacing and blowing out a whole neighborhood are still going ahead. Also, when people who lived at Sheppard Square asked about work programs, there were no new or innovative ideas about how to get people involved in work although there is not a very good track record from Clarksdale or from a prior HOPE VI. Now, the Housing Authority does a very job on Section 8 and a very good job on administering day-to-day operations of public housing. My comments are about the plans and how we spend our money in the future. I noticed that Parkway Place only has \$82,000 set aside for capital investment. I saw that \$3 million was spent on Parkway Place through stimulus money. Parkway Place is one of our larger family complexes and we need to do everything to preserve it, for the short term at least. And, Beecher Terrace should be able to go on for a long time. Please do not shortchange Beecher Terrace because you don't have capital funds because they are all going to operations and to Sheppard Square. And I will submit comments in writing as well. Sorry it took so long.

Reid: I want us to give thanks and appreciation to Ms. Hinko. I tell you something, we don't operate in a vacuum. Our operations and our relationship with our community includes every member of this community. And it is by comments like Ms. Hinko brings to us that gives us a thorough universal look at housing and it provides an opportunity to educate our residents. As to the negative aspects of what we are doing and how we can make those improvements based on your recommendations due to the information she's given you. Ms. Hinko has a publication that gives specific details as to her perspective as to our management and operations. She will make that information available to you and as I have asked other residents, take that information, read it but lay it up on the shelf and go back and go over it from time to time. It will help you in your understanding of what we are doing positively. Ms. Hinko, thank you as a housing professional and as a friend to Louisville Metro Housing. Thank you very much.

Barry: Thank you Mr. Reid. Thank you, Cathy. You know we will respond to your comments. I want to mention a couple of things real quick. Beecher Terrace – no plans to do anything with that. We will leave it alone and keep maintaining it. Parkway – if something happens to Parkway, it's way down the list. Thank you. Any other comments? Yes, Ma'am.

Lady: What about Dosker Manor? We hear rumors about Dosker Manor.

Barry: No, Dosker Manor stays.

Bill Gatewood: I would like to make some public comments.

Barry: Yes, by all means.

Bill Gatewood: Thank you. My name is Bill Gatewood and I see some of my old classmates here and some of my old friends. I am the Executive Director of the Presbyterian Community Center. But more importantly, I spent the first 18 years of my life in Beecher Terrace. I'm a Beecher Terrace rat. And I work now in an organization that is joined at the hip with Sheppard Square. In that regard I want to thank the Housing Authority for its insightfulness on behalf of the residents of Sheppard Square which is one of the oldest and most in need of repair and historically significant development which has over approximately 70 Somali families now living there. And so, I really am pleased with the plans that respects the history and integrates the multiculturalism of the present community and your efforts there in this vision. And understand, PCC operates and has operated for over 30 years a quality, affordable child care center that understands the importance of making it affordable to provide child care for residents. I am especially excited that there is a planned revision to address the issue of veterans' housing even though we certainly recognize the critical need for housing for young people in this community. On behalf of the Presbyterian Community Center, we pledge all of our support to help you in this endeavor because we think it is important to the total community. We are delighted that senior housing as well as young people housing is interjected back into the neighborhood because it takes a village to raise a family and often the village

comprises of many of its seniors. And finally I want to personally congratulate Tim Barry and his staff for his ten years of service and their open door. They don't always agree but they always listen. And so we look forward to working with you. And let me close and also live by Manfred Reid. He's such a fixture; I almost forgot to say that. We do have some additional written comments about our child care and the ESL classes we are running and some of the other programs we are working on with the Somali community.

Barry: Thank you, Bill. I appreciate that. And for those who don't know Mr. Gatewood...everybody knows Mr. Gatewood cause he and I have been around for a long time. He's 35 too. We're all 35. Bill, if you're not familiar with the Presbyterian Community Center, but I suspect you probably are, that's been an institution in Smoketown for decades. And one of the reasons I believe Smoketown, despite the downturn in the economy continues to keep its head above water is largely due to the presence of PCC. So, I want to thank my friend and colleague, Mr. Gatewood, for running the show so admirably. Are there any other comments or questions that anyone might have? I want to thank you for coming. We're around. We are not going to hustle off so if something comes to mind, we'll stay around and answer any questions you have.

Will Seay: Tim, I just wanted to comment to everyone that we found out that Ms. Hinko has recently become engaged. (applause) There are a number of us at the Housing Authority who are going to find out who the groom is and get to him first.

Barry: I don't know how Will finds these things out but he does. He was in the CIA in another life. Cathy, Congratulations. I'm happy for you. I won't pry but I'll pry a little. A local person?

Hinko: Pardon.

Barry: A local person?

Hinko: Yes. As I said, retired from Special Education which was all practice for being involved with me.

Barry: I wouldn't say that. No.

Hinko: I can.

Barry: You can. If he says that then you have problems. Well, I want to thank you. We're going to hang around for awhile. I hope you like the improvements here at Dosker Manor. Have a good evening.

Louisville Metro Housing Authority
FY2010 Moving to Work Annual Plan
Comments by Cathy Hinko
15 April 2010

The Metropolitan Housing Coalition is submitting comments as a follow-up to our comments at the public meeting on April 12, 2010.

IFISCAL RESPONSIBILITY OF LMHA IS IN QUESTION

A. OBJECTION TO TAKING CAPITAL INVESTMENT MONIES MEANT TO KEEP PUBLIC HOUSING DECENT AND USING FOR OPERATIONS

The Housing Authority has capital investment money for public housing. This money is used for major improvements to public housing, beyond just responding to work orders of tenants. It is the indicator of what and who the Housing Authority values. LMHA is removing \$2.5 million from capital investment monies into daily operations. LMHA is not able to function on its operations. This is not sustainable. In the past, LMHA has used Section 8 monies for operations, robbing the low-income people of Louisville by taking money that could support rents for families and using it for operations.

This is not acceptable and LMHA needs to assess its management, which has remained unchanged even as the number of units under LMHA management has diminished. LMHA needs to exercise fiscal restraint instead of taking money from low-income people.

B. OBJECTION TO PROPOSAL THAT TWENTY PERCENT- ONE OUT OF EVERY FIVE DOLLARS CAN BE SPENT DIFFERENTLY FROM THE PLAN WITHOUT HAVING TO PRESENT THE PLAN FOR PUBLIC COMMENT

In a further attempt to obfuscate fiscal irresponsibility, instead of providing transparency in both the plan and the allocation of dollars, LMHA is attempting to hide how money will be spent and to avoid public comment on how money is to be allocated. LMHA is doing this by defining a “substantial deviation” from the plan that is presented for public comment as spending over 20% of funds out of category.

This is not acceptable. This must not be allowed to stand as written. The fiscal situation at LMHA must be remedied instead of obfuscated.

II.SUPPORT FOR CHILD CARE DEDUCTIONS IN ELIGIBILITY DETERMINATIONS

The LMHA has rarely used its Moving to Work powers to help residents. LMHA has almost exclusively used MTW to move money out of helping the lowest income households and into supporting operations or to support housing for higher income households. The proposal to deduct child care expenses for working households when considering eligibility is a good use of the MTW flexibility. This will allow more working families into the program. While this will have the effect of allowing higher income households into the program, the truth is that child care expenses for working families should be deducted when considering eligibility.

III.LMHA'S PLAN SHOWS THAT HOUSING WHICH IS THE SUBJECT OF A FAIR HOUSING COMPLAINT IS PART OF THEIR STOCK

LMHA has denied that public housing in their stock is housing that they are responsible for in the context of fair housing. This is unacceptable. LMHA lists the housing in the MTW report and must be involved with fair housing issues in public housing.

IV.SUGGESTION THAT LMHA INCLUDE AN EMPHASIS ON GETTING VOUCHER LANDLORDS TO DO ENERGY EFFICIENT REHABILITATION

While LMHA has limited monies, several state and local policies include rental housing as eligible for energy efficient rehabilitation programs. LMHA is supportive of having Voucher landlords participate and should list this as an area that they will work towards creatively. One reason that public housing residents are afraid of using Vouchers is the unpredictability of utility costs- LMHA has repeatedly talked about this. With a proposed HOPE VI project which will displace current public housing residents and replace public housing that includes utilities in rent with individually metered public housing, this should be a priority and given a place in the HOPE VI work, should this project move forward.

V.OBJECTION TO HOPE VI DESTRUCTION OF SHEPPARD SQUARE AT THIS TIME

A.LMHA IS DELBERTELY LEAVING PUBLIC HOUSING VACANT DURING THE WORST RECESSION AND HIGHEST RATE OF CHILDREN BEING HOMELESS: ONLY AT 90% OCCUPANCY NOW AND WILL DECREASE EVEN FURTHER

As of December 31, 2009 the Jefferson County Public Schools had over 9% of all students be homeless during this school year; we can predict that this percentage will increase. This means that over 11,000 children in school will be homeless. Yet LMHA is deliberately keeping public housing units empty because they want to tear down 323 family units during the worst economic crisis this country has seen in decades.

Exacerbating this cold hearted folly, LMHA must give each family being displaced from their home three choices of where they can go to, including other public housing sites and Vouchers. So LMHA must deliberately keep another 700 units unused during the worst homelessness our city has experienced.

This is not the only time a program to address Sheppard Square will be available. It is sheer folly and indifference to human suffering that propels this project forward.

B.HOPE VI HAS NOT BEEN SHOWN TO BE BENEFICIAL TO THE AFFECTED FAMILIES.

While LMHA talks about the conditions of Sheppard Square, the same conditions existed in Beecher Terrace 25 years ago and were so successfully remedied that Beecher is the best of the family public housing stock that still uses traditional economic and social entry criteria.

LMHA paid to have a study done about the households displaced by the Clarksdale HOPE VI and does not have any proof that HOPE VI causes an improvement in their lives. While the use of case management may help people, that case management is available through the many programs of LMHA. It is not HOPE VI displacement that helps people. This evaluation is supported by many studies.

C.LMHA HAS CONDUCTED A DECADES LONG CAMPAIGN TO DISINVEST IN LOWEST INCOME FAMILIES WHICH VIOLATES FAIR HOUSING LAWS

LMHA has blasted families out of their homes time and again. College Court, LaSalle Place, Cotter and Lang Homes, Clarksdale, Iroquois Homes and now targeting Sheppard Square. The number of units serving families has diminished substantially. The replacement family units most often have higher economic and social entry criteria. Two thirds of the replacement units for Sheppard Square will have these higher criteria.

This targeting affects households with female heads of household, households with children and African American households. The number of units for the elderly have increased so substantially, that LMHA has to use a waiver to lower the age in the definition of elderly. Families are the target and familial status protections are violated by this sustained campaign. LMHA's waiting lists reflect the need for family housing units, including a growing demand for larger units, including four bedroom units.

Only by changing the proposal for Sheppard Square work, can this violation of fair housing be addressed. The proposal must guarantee that the replacement units are all family units with the number of bedrooms and size of the units being equivalent or larger. All additional entry and occupancy criteria must be removed. Utilities must be included in the monthly rental amount instead of individually metered.

April 16, 2010

Ms. Cathy Hinko
Executive Director
Metropolitan Housing Coalition
P.O. Box 4533
Louisville, KY 40204

Dear Ms. Hinko,

RE: Comments on the FY 2011 Moving to Work (MTW) Annual Plan

Thank you for attending the recent public hearing on the Authority's Draft MTW Annual Plan. We appreciate your interest and input, and your strong commitment to affordable housing within this community. Your comments and this letter of response will be included within the MTW Annual Plan submission.

1. You noted that you believe that LMHA lacks fiscal responsibility and is not using funds appropriately because the Agency plans to augment the Public Housing Program with Capital Fund dollars. LMHA maintains the transfer of funds between programs is not an exercise of robbing one fund/program to the unjustified benefit of another; but rather an overall balancing of the funding appropriations as provided within the HUD funding mechanisms and regulations. The history of Section 8 and the Capital Fund program appropriations from Congress not only indicates bi-partisan support for appropriations, but also documents that traditionally operations is funded at below the full funding eligibility level. Therefore, even without the Moving to Work designation or the "definition of substantial deviation", HUD allows LMHA to transfer up to 10% of the Capital Fund appropriation to the operating budget to support ongoing operations. Also, with regard to the definition of substantial deviation, the ability to modify the Agency's budgets up to 20% of the total funding appropriations is consistent with other public housing authorities in the nation and locally appropriate given the age of the housing stock. Under the definition, LMHA will be able to add new substantial improvement projects, as well as large emergency items such as a failed boiler, to the Capital budget as needed to maintain safe and decent housing.
2. We appreciate your positive feedback on the proposed activity to revise the Housing Choice Voucher program admissions policy to allow for deduction of child care expenses in determination of eligibility. As you noted, this change to the admissions policy will increase housing choices for working families who may be paying a large portion of their income towards child care. LMHA recognizes that child care expenses can strain a family's household budget, and consequently put their housing status in jeopardy. The voucher will help stabilize their household budgets and give incentive to these families to continue working.
3. You mention that LMHA's Plan shows that housing which is the subject of a fair housing complaint is part of the Authority's housing stock. We respectfully request that you provide more detail including the specific site and a description of the fair housing complaint referenced, so we can address your concern.

420 South Eighth Street | Louisville, KY 40203 | 502 569.3400 | fax 502 569.3459

Cathy Hinko
April 6, 2010
Page 2

4. LMHA shares your concern about reducing the cost burden of utilities for Section 8 residents, especially those living in older apartments that may benefit from energy efficiency improvements. LMHA's Green Team and Section 8 staff have included several initiatives in the Agency's Green Action Plan that promote responsible housing choice and energy conservation by the client, and encouraging landlords to improve their housing stock. For example, LMHA is planning to include Energy Star, energy efficiency/weatherization and greening information in public housing and Section 8 contracts/leases. However, your point is well-taken and to this list LMHA has added:
 - Explore programs that give incentive to Section 8 landlords to make energy efficiency improvements and/or weatherize their units.

Liberty Green, the Sheppard Square Revitalization Plan, and the 69 scattered site single family homes developed by HPI for LMHA attest to the Agency's commitment to create additional energy efficient homes for low-income families. Indeed, LMHA stands at the forefront of sustainable, affordable housing development in Louisville. LMHA will continue to lead responsible, energy efficient housing efforts as upcoming redevelopment and replacement unit acquisition activities move forward.

5. You also voice your objection to the Sheppard Square HOPE VI Revitalization Plan that is currently pending approval from HUD. LMHA as well as many other PHA's across the nation are firmly committed to eradicating our problem-plagued large family public housing sites. Although these sites served a much needed purpose for many years, policy changes and shifting demographics have resulted in a drastically different living environment for lower-income households than what was envisioned when these sites were originally constructed.

While the physical condition of Sheppard continues to deteriorate, Federal funds for capital improvements and operations are dwindling at an alarming rate. The absence of financial support from Washington - most notable in the early 2000s - is further contributing to the backlog of improvements that need to be made in order to maintain decent and safe housing for low income families in our community. Simply stated, it is not within LMHA's means to perform a comprehensive renovation of Sheppard Square on a scale similar to the modernization of Beecher Terrace conducted in the early 90's. LMHA feels obligated to our partners and residents to pursue every opportunity for additional revitalization funds that presents itself which included HOPE VI in 2009, so despite these tough economic conditions we affirm that applying for the Revitalization grant was an appropriate course of action.

Your concern regarding the outcomes of previous revitalization efforts, specifically Liberty Green, is dually noted. Researchers at the University of Louisville have assured LMHA that the report on the Liberty Green HOPE VI is forthcoming. Preliminary results show that of the relocation offerings, most families chose the HCV relocation voucher and are generally pleased with their new housing and many who took advantage of the case management services have successfully increased their income, if not become self-sufficient. We anticipate similar outcomes with Sheppard Square residents. Access to case management through the HOPE VI will also give incentive to Sheppard Square residents to enroll and complete the FSS program as staff and program capacity is limited.

Furthermore, the Revitalization Plan calls for Sheppard Square to be demolished in a series of phases in order to mitigate the loss of existing units during and after the revitalization. As you noted, LMHA is

420 South Eighth Street | Louisville, KY 40203 | 502.569.3400 | fax 502.569.3459

Cathy Hinko
April 6, 2010
Page 3

required by Federal statute to give each displaced family 3 housing choices which, entails reserving a number of units for these families who are entitled under the Uniform Relocation Act. And while this means that the overall number of public housing units will temporarily decrease, the Sheppard Square Revitalization Plan will ultimately sustain the number of housing choices for low-income families in Louisville. LMHA is firmly committed to one-for-one replacement of the 326 units at Sheppard Square.

Finally, LMHA serves over 4,000 families living in the Agency's owned and managed public housing stock. Of those 4,281 families, a large portion (approximately 3,205 families or 75%) are very-low income households, including 2,625 families who are extremely low-income households. In fact, LMHA falls within a narrow range of compliance with HUD income mixing requirements because we serve such a large percentage of very-low and extremely low-income families. And by family type, family households continue to constitute the vast majority of households served by the Agency. Only 744 families are elderly families, constituting less than 20% of the resident population. Because only 10 of the Sheppard Square replacement units located at the newly rehabilitated old PCC will be designated for disabled veterans and their families, it is highly likely that this will continue to be the case. LMHA makes every effort to provide housing choices for everyone.

LMHA values our partnership with the Metropolitan Housing Coalition and looks forward to working with you and other agencies to implement successful MTW initiatives during the upcoming year. It will take these and other innovative approaches during these difficult times to serve all those who need quality, affordable housing. Thank you again for your input on the FY 2011 MTW Annual Plan.

Sincerely,

A handwritten signature in cursive script, appearing to read "Tim Barry".

Appendix C. HUD Certifications

Certification for a Drug-Free Workplace

U.S. Department of Housing and Urban Development

Applicant Name
 Louisville Metro Housing Authority

Program/Activity Receiving Federal Grant Funding
 Moving to Work Demonstration Program

Acting on behalf of the above named Applicant as its Authorized Official, I make the following certifications and agreements to the Department of Housing and Urban Development (HUD) regarding the sites listed below:

I certify that the above named Applicant will or will continue to provide a drug-free workplace by:

a. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Applicant's workplace and specifying the actions that will be taken against employees for violation of such prohibition.

b. Establishing an on-going drug-free awareness program to inform employees ---

- (1) The dangers of drug abuse in the workplace;
- (2) The Applicant's policy of maintaining a drug-free workplace;
- (3) Any available drug counseling, rehabilitation, and employee assistance programs; and
- (4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

c. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph a.;

d. Notifying the employee in the statement required by paragraph a. that, as a condition of employment under the grant, the employee will ---

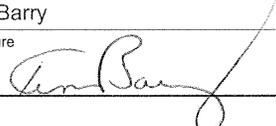

- (1) Abide by the terms of the statement; and
- (2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;
- e. Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph d.(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federalagency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;
- f. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph d.(2), with respect to any employee who is so convicted ---
 - (1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or
 - (2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;
 - g. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs a. thru f.

2. **Sites for Work Performance.** The Applicant shall list (on separate pages) the site(s) for the performance of work done in connection with the HUD funding of the program/activity shown above: Place of Performance shall include the street address, city, county, State, and zip code. Identify each sheet with the Applicant name and address and the program/activity receiving grant funding.)

All Louisville Metro Housing Authority sites.

Check here if there are workplaces on file that are not identified on the attached sheets.

I hereby certify that all the information stated herein, as well as any information provided in the accompaniment herewith, is true and accurate. **Warning:** HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

Appendix F. Definition of Substantial Deviation and Significant Amendment to the Annual Plan

Louisville Metro Housing Authority's definition of substantial deviation and significant amendment/modification.

Substantial deviations or significant amendment/modifications are defined as discretionary changes in the plans or policies of the Louisville Metro Housing Authority that fundamentally change the mission, goals, objectives or plans of the Agency's MTW (Moving to Work) Annual Plan and which require formal approval of the Board of Directors. LMHA will consider the following to be substantial deviations and significant amendments/modifications:

- Significant changes to an MTW Activity outside the scope of the Agency's HUD-Approved MTW Plan;
- Changes to rent or admissions policies or organization of the waiting list;
- Changes to the Public Housing Admissions and Continued Occupancy Policy;
- Changes to the Section 8 Housing Choice Voucher Program Administrative Plan;
- Any single or cumulative annual change in the planned or actual use of federal funds as identified in the Plan of funds under the Capital Fund (including replacement housing factor funds) that exceeds 20% of the Agency's annual capital budget.
- Any single or cumulative annual change in the planned or actual use of federal funds as identified in the Plan that exceeds 20% of the Agency's annual program budgets for Section 8 or public housing activities.
- Any change with regard to demolition or disposition, designation, homeownership programs or conversion activities.

A substantial deviation does not include any changes in HUD rules and regulations, which require or prohibit changes to activities listed herein.
