Each reviewer will receive a number of assigned FY 1997 PHDEP grant applications to review and score. These applications will be listed on the application assignment sheet accompanying the applications. Please check to verify the receipt of all applications listed and sign the sheet as confirmation.

The reviewer is responsible for the applications in at all times. Return each application to the supervisor as you complete the review and scoring of each application. Review the applications in the order listed on your assignment sheet.

Applications are to be reviewed and scored according to the FY 97 NOFA, OMB Circular A-87, the FY 97 Application Processing Notice and any additional instructions issued by the OCPS.

Reviewers must give reasons for scores, expressed in strengths and weaknesses. Comments must be useful, clear, significant, accurate, and logical. Include the applicant's application tab/page numbers regarding comments. If needed, use and attach a blank sheet of paper to complete your comments. Do not write on the back of pages. Print all comments.

Requirements for writing comments: use black ink, write legibly, use complete sentences, use proper grammar and spelling, include the application's page for each comment, be specific, detailed and concise, be tactful, justify each strength and weakness and document your evaluation. All of the documents used during the process are official documents and are subject to review. Therefore, all documents must be legible and scorers must document decisions completely and accurately. Reviewers must print all comments.

The number of points that an application receives must depend on the extent to which the application is responsive to the information requested in the selection criteria.

As the reviewer scores each selective criterion they must post the scores on the score sheet. All scores must be justified and verified by a supervisor.

Points are awarded based on the extent to which an applicant is responsive to the information requested in the selection criterion. An application must receive a score of at least 70 points out of a maximum of 100 points that may be awarded under this competition to be eligible for funding.
All of the documents used during the process are official documents and are subject to review. Therefore, all documents must be legible and scorers must document decisions completely and accurately.

If appropriate, comment on the following issues and mark with the appropriate letter in the upper right hand corner of the score sheet:

A. **INELIGIBLE ACTIVITIES** - "I". If the reviewer identifies ineligible activities listed in the grant, circle the item in the text. List the activity and tab/page number under "Ineligible Activities" on the score sheet. Deduct the amount of the funding required for the ineligible item from the total requested budget to reflect total approved budget. The supervisor will reconcile the amount to be deducted with the second reviewer prior to data entry.

B. **ALCOHOL/PRESCRIPTION DRUGS** - "A" OR "P". If the applicant describes its primary substance abuse problem as alcohol or prescription drug abuse, the reviewer will note this on the application and appropriate scorer page. These activities will be identified as ineligible and deducted as referenced above.

Enter grant amount requested minus, if applicable, the amount of any ineligible activities to show a revised recommended grant funding. If there are any activities that are not clear, note them and request clarification prior to recommending funding.

All score sheets must be signed by the reviewer and verified by the supervisor. Verify all scores with a calculator.

Part 1 of the application score sheet will be managed by APC staff. Note it is not part of your score sheet. Reviewers will complete Part II-A and II-B of the score sheet. Reviewers must attached Part II-A and II-B to each application.
