1.2.3 The Reports Tab
1.0 HOUSING INVENTORY
1.1 HOUSING INVENTORY

The Housing Inventory sub module allows the user to view PHA data, inventory of units that the PHA has at its disposal, and allows the user to propose buildings or units for removal. The Housing Inventory module includes three sub modules: Housing Agency sub module, Development sub module and the Inventory Removals sub module.

The Housing Agency sub module provides various types of data for PHAs. PHAs can use this sub module to enter, update and maintain their information. This sub module also allows the users to create new PHAs.

The Development sub module includes information about the inventory of units and buildings that PHAs manage. This sub module allows the users to view the current unit and building inventory, add new inventory items and delete inventory items that are no longer needed. The inventory information is provided at the development level, building level and unit level. Users can group any inventory items in the database based on various For example, units can be grouped by unit tenant status, submission status type, or unit designation.

The Inventory Removals sub module allows PHAs to remove certain items from their inventory by proposing those items for demolition / disposition. This sub module allows PHAs to fill the demo/dispo application, submit it with accompanying documentation, review the application and approve it. After the demo/dispo application is approved, inventory items that are subject to that application no longer are part of the PHA’s inventory.
1.2 INVENTORY REMOVALS

The Inventory Removals sub-module assists the Special Applications Center (SAC) with its review of the required Inventory Removals application submissions. Moreover, the sub module is the means used by HUD to approve removing units, buildings, and land from the inventory of public housing and to record the change in status of such property in PIC. The property information in PIC is used to assess the requests by Housing Authorities (HAs) to demolish or dispose of an entire development, or a portion of a development for a variety of reasons. The main functionalities of the Inventory Removals sub module are contained in the seven tabs that allow users to submit, review, and approve an application and run various reports to view appropriate data.

Prior to the development of the Inventory Removals sub module, applications were submitted on paper. The HUD Public and Indian Housing (PIH) office developed this sub module in the PIH Information Center (PIC) system to improve the availability of inventory removals data and reduce error rates.

1.2.1 The Application Tab

Upon entering the Inventory Removals sub module, the first page displayed is the List sub tab that lists all the applications contained in the database associated with the selected PHA. This is one of several pages contained in the Application tab (see Figure 1).

Figure 1: Application Tab

There are four other pages under the Application tab, which become visible after an application is opened. They include the:
- Form HUD-52860 (Application Index) sub tab
- Supporting Documents sub tab
- Quality Checklist sub tab
- Submission sub tab

1.2.1.1 List Sub Tab

The List page allows the user to create a demo/dispo application or select from a list of previously created applications in order to modify or complete them. The list of all available applications is displayed as a table on the Application List section (see Figure 2).

The table contains the following columns:

- **Application Number**: Click on the link to view the information for the selected application.
- **Received Date**: The date SAC received the application.
- **Application Type**: See page 5 for more information.
- **Processor**: SAC-Chicago is the only processor currently listed.
- **Status**: The status of the current application.
- **Status Date**: Indicates the date when application status was changed.

*Figure 2: Application List.*

The user can sort applications in the list by alphanumeric, alphabetical, or chronological order using up/down arrow button located next to the each column heading in the table.

**Note**: the table in the Application List section displays 100 applications at a time. If there are more that 100 application in the list, PIC displays the Next link. Click the link to view the next 100 records. After clicking the Next link, the user can also click the Previous link to return to the previous page.

The Select View drop-down allows HA user to select only FO HA DD Application:

**FO HA DD Application**

When the user selects the FO HA DD Application option from the Select View list, the following layout will be displayed (see Figure 3).
Figure 3: Field Office

From the displayed lists, the user can select the HQ Division, Hub, Field Office, and a specific Field Office Housing Authority. In this layout **HQ Office** list will only display **Public and Indian Housing** option by default.

Additionally, all of the described above layout has two filter fields, **Application Type** and **Application Status** located in the **Application List** section of the screen (see Figure 4).

![Application List](Figure 4: Application List)

The **Application Type** list allows user to specify the program or condition under which the application had been filed:

- DeMinimis
- Demolition
- Demolition/Disposition
- Dispo Subpart F
- Disposition
- Eminent Domain
- Homeownership- NO LONGER USED
- HOPE I
- HOPE III/5(h)
- HOPE VI Revitalization
- HOPE VI/5(h)
- HOPE VI/Nehemiah
- Mandatory Conversion
- Required Conversion
- Section 24
- Section 32
- Section 5(h)
- Section 9
- Turn Key III
- Voluntary Conversion

The Application Status list allows the user to refine search by the status of an application:

- Draft
- HQ Approved
- Inactive
- Processor Complete
- Removal Approved
- Reviewer Complete
- Submitted
- Under Review

Note: In both lists, the user can select the All option to retrieve application regardless of their type or status.

On the same page, the user can start creating a new Demolition/Disposition application by clicking the Create Application link (see Figure 5). Only Field Office or Troubled Agency Recovery Center users are able to create a new application. Therefore, they should choose respective item in the Select View list.
The **Create Application** link enables the user to create an application. When the user clicks the **Create Application** link, the system displays the following page (see Figure 6). The first section of the **List** sub tab displays the controls that allow the user to select the desired entity. The **Primary Contact** and **Executive Director** lists allow the user to select the name of the person to be contacted. The **Application Type** allows the user to specify the program or condition under which the application is to be filed. After entering all the required information the user can click the **Create** button to proceed with the application process, or click **Cancel** to terminate the process.
If the user clicks Create, the application process will continue and the following screen will be displayed (see Figure 7). As was mentioned above, four additional sub tabs under the Application tab become visible when new application process begins. They include:

- **Form HUD-52860 (Application Index)** sub tab
- **Supporting Documents** sub tab
- **Quality Checklist** sub tab
- **Submission** sub tab

The user is automatically directed to Application Index sub tab (Form HUD-52860), which is described in detail in the next section of this document (1.2.1.2).
1.2.1.1 Verifying or Modifying Application Sections

In order to modify an application’s section, the user should go to the List sub tab and select an existing application from the list or create a new application as described above. Then, the user will be transferred to the Application Index sub tab. From the Application Index sub tab, click a specific Section link to access an application section (see Figure 7).

In order to modify the section, the user should click the section which needs to be modified. The system would display the respective page. The displayed page will not be editable. If the user wishes to make changes he/she should click the Modify Section N link, where ‘N’ refers to the number of the particular section. To save changes, the user should click Save. If the user clicks Cancel, the program will discard the changes.
1.2.1.1.1 Section 1: General Information

The user can make several modifications within the Section 1 of an inventory removals application. Using the Primary Contact list, the user can change the primary contact for a particular application as well as select the Executive Director in the Executive Director’s Name list. Also, the application’s date can be changed using the Date of Application box (see Figure 8).

![Figure 8: Section 1](image)

1.2.1.1.2 Section 2 Long-Term Possible Impact of Proposed Action

This section displays the amount of Operating Subsidy and Capital funding the HA received in a selected fiscal year (see Figure 9), and calculates an estimate of the long-run impact of the removal of the units on the PHA’s annual funding under these programs. This information is included in the application to ensure that the HA is aware of the potential funding implications of the actions it is proposing.

To make changes, the user should enter an appropriate number in the Enter the total number of units proposed for removal box. Select the appropriate fiscal year from the Performance Funding Subsidy and Capital Fund Program FY boxes and enter the amount of fund HA received for each program in the HA Received boxes. Click the Calculate button. The decrease in performance funding subsidy and capital funds per year will be automatically calculated and will appear next to the Performance Funding Subsidy $ and Capital Fund Program $ boxes.
1.2.1.1.1.3 Section 3 Board Resolution, Environmental Review and Local Government Consultation

In this section, the user can enter information regarding Board Resolution, indicate who is conducting the environmental review, list jurisdictions covered by the HA, and attach the required documents. Additionally, the user can attach a Letter of Support from the local Government Official and indicate its date (see Figure 10).

1.2.1.1.4 Section 4: Description of Property

The Description of Property gives the user an overview of the property and its features. The section contains eleven options (see Figure 11). Only the Total Acres of the Development option (line 10), and the Single Family Houses distribution option (line 8) which is the distribution of single family properties by the number of units can be modified directly in Section 4. The Inventory Removals sub module does
not offer the functionality to edit the rest of the information in Section 4, including the information presented in the **Existing Unit Distribution** table. The data is generated by interfacing with the **Development** sub module in PIC. Please contact your Field Office if a unit is not in the **Development** sub module.

![Section 4: Description of Property](image)

**Figure 11: Section 4**

### 1.2.1.1.5 Section 5 Description of Proposed Removal Action

This section includes 13 line items that describe the proposed project in detail. This is the section where the building and unit numbers in PIC for what is being proposed are identified and saved to the application, changing their status in PIC. The HAs can edit the Section 5 of applications that are in Draft status. Contact the SAC reviewer assigned for the application if changes are necessary after the application has been submitted.

Applications in which all of the units at a building entrance are being proposed for removal are handled differently from those in which a portion of the units are being proposed. In the latter circumstance, line item 2 is used to select the buildings and units, otherwise line item 1 can be used. Line item 1, **Proposed Action By Building Type**, and line item 2, **Proposed Action by Unit Designation** are alternatives. A unit can be selected by means of one or the other, but not both.
Line item 1, Proposed Action By Building Type, lists the buildings, building entrances, and street address locations available for selection in the application under the development number link used to open Section 5. In some cases the available selections are at the level of the building entrance number, in other cases they may be at the level of the building number.

If selections are saved to the application under line 1 by building type, all of the units contained within the selected buildings/building entrances are thereby selected at the same time as well. If only a portion of the units under a building entrance/building number are being proposed in the application, the units should be selected instead under line item 2, Proposed Action By Unit Designation. Line 2 can also be used if a portion of the units within the same building/building entrance number are proposed for removal in different years, or a portion are proposed for demolition and another part for disposition within an application that is for both demolition and disposition.

Line item 2, Proposed Action By Unit Designation, may be used to make selections by unit. If all of the units at a building entrance are moved to the Proposed Action by Unit Designation box under line 2, the effect is the same as selection of the building entrance in line 1, by building type. Line 2 Proposed Action by Unit Designation should be used instead in cases where some of the units at a building entrance are being proposed and some at the same building entrance are not being proposed in the application.

There is a list of building entrances (or in some cases buildings) under line 2 Proposed Action by Unit Designation the building entrance from this menu will display the unit numbers it contains.

Line item 3 Proposed Action for Non Residential Inventory, is where the number of acres of land proposed for sale or lease is entered into the application and the number of any non-residential buildings that do not have building numbers in PIC are proposed. This includes acres underlying units.

In the Line item 5, the user should click the Attach Document link to include a site map as an attachment, if the proposed action is a partial removal of a development. A site map is critical in
examining partial inventory removals requests. Please mark clearly the units and buildings proposed for demolition or disposition on the site map. A copy of a site map for each development must be attached to the application.

In the Line item 6, click the Attach Document link to upload an attachment containing a description of the property and a narrative explaining why the PHA is proposing to remove the particular units and buildings, in the case of proposed partial removal. For example, in the case of demolition of a section of the development clearly explain why the HA is proposing to demolish this section over another, and why the section that will remain in inventory will then be viable.

Where HUD approves the disposition of real property of a project, in whole or in part, the PHA shall dispose of it promptly by public solicitation of bids for not less than fair market value, unless HUD authorizes negotiated sale for reasons found to be in the best interests of the PHA or the Federal Government, or sale for less than fair market value (where permitted by state law) based on commensurate public benefits to the community, the PHA or the Federal Government justifying such an exception. Reasonable costs of disposition and of relocation of displaced tenants allowable under §970.9 may be paid by the PHA out of the gross proceeds as approved by HUD.

![Figure 13: Section 5 line items 3-9]

In order to complete line items 10 and 11 of Section 5 (see Figure 14), the user must enter the Estimated Sales Price, Debt, and Cost & Fees in the respective text boxes. Attach a narrative providing details concerning the use of net proceeds and reference it as Section 5, line 11. The use of proceeds must be approved by HUD. The activities proposed should generally relate to housing services and should be
approvable under the Comprehensive Improvement Assistance Program (CIAP) or the Capital Fund program.

The HA’s first priority is to retire outstanding debt with the proceeds of sale unless waived by the Department. If an HA has bonded debt that cannot be forgiven, proceeds must be used to make payment on the remaining debt. If the HA has proceeds after payment of debt, its second priority is to ensure that those proceeds are used for the provision of housing assistance to low-income families, e.g. the modernization of another development or building low-income housing.

In the Line Item 12, enter the estimated cost of demolition in the (a) $ text box. Enter the source of funds that will pay for the demolition in the (b) **Indicate source of funds** text box. Identify the source(s) of funding for the demolition with the fiscal year (e.g., Operating Funds, CFP, CDBG, Other.) If another source of funds will be used, attach a narrative explaining how the PHA will fund the demolition. Enter the year funds are available in the **Year** box.

In the Line item 13, provide a timetable based on the number of **days** after approval of the application that the following major actions will occur:

- Begin relocation of residents
- Complete relocation of residents
- Execution of contract for removal action (e.g. sales contract or demolition contract).
- Actual removal action (e.g. demolition or sale closing)

**Figure 14: Section 5 line items 10 - 13**

### 1.2.1.1.1.6 Section 6 Relocation

Based on the data on proposed units from Section 5 and the data on existing units pulled into Section 6 from the **Development** sub module, the system will display the number of units proposed for removal that are occupied when the application is submitted. It will also display the number of units that are occupied.
from the remaining units in the development after the removal. A narrative should be attached to the application explaining the circumstances that resulted in units becoming vacant before the application submission and describing the relocation of the residents. Reference it as Section 6 line 1(a).

<table>
<thead>
<tr>
<th>Section 6: Relocation</th>
</tr>
</thead>

</tr>
</tbody>
</table>

* All the totals are calculated.

8. What sources of funding will be used to pay for relocation activities?
   - Operating Funds for FY: YYYY
   - Capital Fund for FY: YYYY
   - Other
   If Other, provide an attachment explaining and reference it as Section 6, line 8.

Figure 15: Section 6

1.2.1.1.7 Section 7 Resident Consultation

In order to properly complete Section 7 of the application, the user should attach all the required documents and enter points of contact.

The user should provide an attachment describing the consultation process with residents of the affected development and reference it in Section 7, line 1. Provide the name of the Resident Council representing residents of the affected development. If there is no Resident Council at this development, indicate this by entering the word ‘none’. Attach a document with a narrative explaining consultation with the resident organization(s) at the development. Provide the name of the Resident Council representing residents of the developments under the PHA’s jurisdiction. Attach a document with a narrative explaining the
consultation with the HA-wide resident organization(s) along with a narrative about the PHA’s consultation with the Resident Advisory Board (RAB) (as defined by 24 CFR 903.13).

### Table: Section 7: Resident Consultation

1. Describe how the residents of the development were informed and consulted about the proposed action.
   
   *Attach a narrative explaining the PHA’s consultation with the residents of the affected Development and reference it as Section 7, line 1*

2. Resident Council (at development): Provide the name of the Resident Council representing the residents of the development.
   
   *(if none, state none)*

3. Resident Council (PHA-jurisdiction-wide): Provide the name of the PHA-wide Resident Council representing the interests of the residents of the development.
   
   *(if none, state none)*

4. Resident Advisory Board (RAB) (as defined by 24 CFR 903.13):

   *Attach a narrative explaining the PHA’s consultation with the RAB and reference it as Section 7, line 4.*

5. Did you receive any written comments from the residents, the Resident Council(s), or the RAB? 
   
   *(Circle one)*

   *Yes*  
   *No*  

*If yes, attach the comments, along with any evaluation the PHA has made of those comments and reference it as Section 7, line 5*

---

**1.2.1.1.8 Section 8 Offer of Sale**

This section must be completed for all Section 18 Dispositions, including dispositions in connection with Voluntary or Required Conversion that are subject to Section 18 requirements. For other application types, it can be skipped.

Click the appropriate option button to specify whether or not the HA is exercising any of the exceptions to the offer of sale requirements permitted by 24 CFR 970.9(b) (3). If so, select the option button for the exception under 24 CFR 970.9(b) (3):

(i) local/state government acquisition of less than 2 acres of land

(ii) Property to be used for other housing or facilities benefiting low-income families

(iii) Units were legally vacated in accord with HOPE VI, 24 CFR 971, or Required Conversion under 24 CFR 972.

(iv) Units converted to tenant-based assistance under Section 33 of the Act

(v) Disposition of non-dwelling buildings and facilities
The user must attach appropriate documentation to support the selected exception.

Section 8: Offer of Sale

1. Is the PHA exercising any of the exceptions to the offer of sale requirement permitted by 24 CFR 970.9(b)(3):
   - Yes
   - No

2. If yes, check the exception below:
   - 24 CFR 970.9 (b)(3)(i): a unit of state or local government requests to acquire vacant land that is less than two acres in order to build or expand its public services (a local government wishes to use the land to build or establish a police substation)
   - 24 CFR 970.9 (b)(3)(ii): the PHA seeks disposition outside the public housing program to privately finance or otherwise develop a facility to benefit low-income families (e.g., day care center, administrative building, mixed-finance housing, or other types of low-income housing)
   - 24 CFR 970.9 (b)(3)(iii): the units that have been legally vacated in accordance with the HOPE VI program, the regulations at 24 CFR Part 971, or the Required Conversion regulations at 24 CFR part 972, excluding developments where the PHA has consolidated vacancies
   - 24 CFR 970.9 (b)(3)(iv): the units are distressed units required to be converted to tenant-based assistance under Section 33 of the Act
   - 24 CFR 970.9 (b)(3)(v): the proposed disposition is for non-dwelling property, including administration and community buildings, and maintenance facilities.

If No, complete questions #3-7 below.

Attach documentation supporting the exception and reference it as Section 8, line 2

Figure 17: Section 8

1.2.1.1.1.9  Section 9: Certification of Compliance

Section 9 provides a place for attaching the certifications and addendums needed depending upon the application type selected when an application is created.

The certifications are available for downloading as Word documents at the following location on the Special Applications Center website:

http://www.hud.gov/offices/pih/centers/sac/phacrtcmp.cfm

PHA Certifications of Compliance - (SAC)

As part of their inventory removal applications, PHAs are required to sign and submit (as a scanned attachment to their PRC application) a PHA Certification of Compliance for the specific removal action for which they are applying. These Certifications of Compliance are included in the HUD-52860 (10/2007) and are also available below as separate Word documents:

<table>

</tbody>
</table>
In the revised form 52860, the former Section 6 on Justifications for demolition and disposition has been replaced by an addendum attachment covering Total Development Costs, and by Exhibit A of the certification attachment required under Section 9 for Section 18 actions.

**Figure 18: PHA Certifications of Compliance**

The PHA Certifies that its reason for applying to demolish and/or dispose of the Development and/or PHA Property (or a part thereof) is as indicated below. Check one. Check two if the proposed removal action involves both a demolition and a disposition.

**Demolition:**

- Obsolescence—24 CFR 970.15(a)(1): The Development is obsolete as to physical condition, location or other factors (as defined by 24 CFR 970.15), making it unsuitable for housing purposes and no reasonable program of modification or rehabilitation of the Development is cost-effective to retain the Development (or portion of the Development proposed for demolition) to its useful life.

*Attach a narrative or documentation (e.g. architect’s report, feasibility study, etc.) to justify obsolescence and attach a completed Total Development Cost (TDC) Calculation* (HUD-52860-B and reference them as Section 18 Certification)

- Partial Demolition (if demolition only involves partial demolition) (24 CFR 970.15(a)(2)): The partial demolition will help to ensure the viability of the remaining portion of the Development by reducing the density of the Development to permit better access to emergency or rescue services, or by improving marketability of the Development by reducing the density of the Development to that of the neighborhood in which the Development is located or to other developments in the PHA’s inventory.

*Attach a narrative or documentation to justify how density reduction will result from the partial demolition and reference it as Section 18 Certification.

**Disposition:**

- Change in Neighborhood—24 CFR 970.17(a): Conditions in the area surrounding the Development (density, or industrial or commercial development) adversely affect the health or safety of the residents or the PHA because:
  - Replacement Housing—24 CFR 970.17(b): The disposition enables the acquisition, development, or rehabilitation of other properties or developments that will be more efficiently or effectively operated as low-income housing developments;
  - Other—24 CFR 970.17(c): The PHA has otherwise determined that the disposition is appropriate for reasons that are consistent with its goals for the PHA and its Plan and that are otherwise consistent with the Act.

*Attach a narrative or documentation to justify the PHA’s specific reason for disposition checked above and reference it as Section 18 Certification.

**Figure 19: Exhibit A**

For all Demolition actions and for all Disposition actions where the justification is obsolescence, the following additional form must be attached to the electronic submission of form 52860:

**HUD-52860-B: Total Development Cost (TDC) Calculation.**

For some applications types other than Section 18 demolition or disposition, the following additional forms must be attached to the submission of form 52860:

**HUD-52860-C Homeownership**

**HUD-52860-D Required Conversion**

**HUD-52860-E Voluntary Conversion**

**HUD-52860-F Eminent Domain**
These forms can be found on the Special Applications Center website at the following address:  
http://www.hud.gov/offices/pih/centers/sac/exp52860.cfm

### Section 9: Certification of Compliance

1. Attach the applicable PHA Certification of Compliance from the HUD-52860 for the applicable removal action and reference it as Section 9, Line 1: Certification of Compliance

<table>
<thead>
<tr>
<th>PHA Certification of Compliance: HUD-52860</th>
</tr>
</thead>
<tbody>
<tr>
<td>Section 10 Demolition/Disposition</td>
</tr>
<tr>
<td>Section 18 Disposition 24 CFR Subpart F</td>

### 1.2.1.2 Form HUD-52860 (Application Index) Sub Tab

To access the Application Index page, the user should open a new application (application initiation process described above) or click an application number in the List sub tab of the Application tab (see Figure 21).

The Application Index page contains a table that has the following information:

- Section (of the application)
- Section Type (“Required” or “Not Required”)
- Section Status
- Status Date

Also, the Delete Application button indicates that the new application is being created. The button is not visible when the page is accessed via the application number link in the List sub tab.

The Add/Remove Development link enables the user to add or remove a development. The HA user will be able to add developments until it is submitted.
The user may modify or complete a section within an application by clicking the linked section entries on the page.

In order to add developments to the application or remove the development from the proposed list, the user should click the Add/Remove Development link and make the necessary correction (see Figure 22). As you can see the page presents the user with two lists Available Development and Proposed Development. The top section of the page highlights the details about the selected housing authority and

</tr>
</tbody>
</table>
the top part of the bottom section informs the user about the application type and status along with the information about the processor and reviewer of the application.

The user can move the development(s) from one list to another by selecting them and clicking the arrows which represent the direction of the transfer. By pressing and holding the CTRL key, the user can select multiple developments.

![Figure 22: Add/Remove development](image)

### 1.2.1.3 Supporting Documents Sub Tab

The user can access the **Supporting Documents** sub tab by clicking an **Attach Document** link in one of the pages within one of the application sections or by clicking the **Supporting Documents** sub tab on the **Application** tab. This page enables the user to upload files to attach to an application.

The system allows attachments only in following formats:

- Bitmap
- Graphical Interchange
- Text
- Rich Text
- Microsoft® Excel
- Microsoft® Word
- Microsoft® Project
- Microsoft® PowerPoint
- Adobe Acrobat Reader .pdf files

The expectations are that most attachments will be scanned into .pdf extension files before attachment to the application.
The **Attach** button enables the user to upload files to the system. To upload a file to the system, first select the appropriate option from the **Attachment Type** list. Then provide attachment description in the **Enter Description** box. After that, the user can click the **Browse** button, and select a file from the list. After the user selects a file from the list, the user can press the **Attach** button. As was mentioned in the paragraph above, only certain types of files can be uploaded to the system via the **Supporting Documents** sub tab.

On the same page, the user can see the list of files which were previously uploaded to system. The user can download the file to the local machine using the **Download** link.

**1.2.1.4 Quality Checklist Sub Tab**

The **Quality Checklist** page informs the user about possible errors in the application. It displays a list of missing options for the required sections based on the application type of the selected application.
The user can access the **Quality Checklist** sub tab using the **Application** tab. Also, **Quality Checklist** sub tab can be accessed from the **Submission** sub tab by clicking the **View Quality Checklist** link.

If the application contains multiple developments, the user can switch the development using the **Development Number** list to review the documents. In order to add missing information, the user should click the link and the system will display the respective page of the application.

**Application Status**

- **Application Type:** Demolition/Disposition
- **Processor:** SAC-Chicago
- **Reviewer:** Dornell Shareef
- **Application Status:** HQ Approved
- **Status Date:** 07/03/2006

**Application Dates**

- **HA Submission Date:**
- **Application Received Date:**

**Demolition / Disposition Checklist**

The **Quality Checklist** displays all fields missing in a section based on the application type of the selected application. Note that the missing fields are not necessarily mandatory.

- **Development Number:** COLLEGE CREEK TERRACE - MD001000001

**Figure 24: The Application Checklist page.**

### 1.2.1.5 Submission Sub Tab

The user can access the **Submission** sub tab of the Application tab (see Figure 25) enables the user to submit an application to the Special Applications Center (SAC). It also allows a PHA to view summary information for each of the developments included in an application.
**View Land Information** (see Figure 26) link allows the user to view information about the land such as *Total Acres of the Development*.

![Figure 25: Submission sub tab.](image)

![Figure 26: View Land Information.](image)

### 1.2.2 The Remove from Inventory Tab

Through the removal from inventory process, the status of buildings and units in PIC is changed to Removed from Inventory, and the date of removal from the public housing inventory is recorded. The **Remove from Inventory** tab (see Figure 27) in the **Inventory Removals** sub module is where the process is performed.
After SAC approves an application, there is a submission and approval process used to remove units from the PIC inventory. This process involves the creation, submission, and approval of transactions.

PHA staff starts the process by entering the dates on which approved units, buildings and/or land were removed from inventory. The status of this information is then displayed as “Draft.” There are two further levels of review in PIC at the PHA before the transaction is forwarded within PIC to the HUD Field Office.

The next level of review is the Submission sub tab. This is where HA supervisory staff submit the information to the HA Executive Director, or the designated final reviewer at the PHA. The status becomes “Submitted for Review”.

It is then the decision of the HA Executive Director or their designee to use the controls on the Review sub tab whether to reject the transaction or submit it to the Field Office for approval. If the HA Executive Director rejects the transaction, it receives a “Rejected” status. If approved, the transaction receives a “Submitted for Approval” status.

The HUD Field Office may approve or reject the transaction. If the Field Office rejects the transaction, the status becomes “Rejected.” In this situation, the HA has the capability to modify the information in the transaction. After a change has been made and saved, the status of the rejected transaction is reset to “Draft.”

If the Field Office approves the transaction, the status in PIC permanently becomes “Removed from Inventory (RMI)”

Figure 27: The Remove from Inventory
1.2.2.1 The Remove Bldg/Units sub Tab

Click the Remove from Inventory tab to access the Remove Bldg/Units sub tab.

The Development List section displays every development with units, buildings, and/or land approved for removal. It also presents the number of those approved in a development that have already been reported as removed from inventory and those that are still waiting to undergo the removal from inventory process.

The Development List (see Figure 28) section contains the following categories for each development included in an inventory removals application:

- The Development Number column displays the development numbers as links. Click a link to see a list of transactions for the selected development.
- The Development Name column displays the actual names of every development.
- The Total Approved Units column displays the total number of units approved for removal in PIC applications for the development listed.
- The Total Removed Units column displays the total number of units that completed the removal from inventory process and are no longer visible in the Development sub-module (except in reports).
- The Total Remaining Units column displays the remaining units that have been approved in an application process but have yet to undergo the remove from inventory process.

There are also Total Approved Non-Dwelling Structures, Total Removed Non-Dwelling Structures, and Total Remaining Non-Dwelling Structures columns for non-dwelling structures and acres of land.

![Figure 28: Remove from Inventory List](image)
1.2.3 The Reports Tab

The **Reports** tab of the **Inventory Removals** module enables the user to create a report detailing the number of approved units from Inventory Removals applications and the number of actual units that have undergone the Inventory Removals action in a given fiscal year (see Figure 29). There are three main types of reports that the user can select in the **Report Type** list, **Activity** reports, **National** reports, and **Non PIC Home Ownership** reports.

![Reports tab](image)

*Figure 29: Reports tab*
In order to run a report, the user should select the desired option in the **Report Type** list. Select the type or types of applications to display in the report using check boxes in the **Select Application Type** area. Using the **Federal Fiscal Year** list the user can select the desired report time frame, and click the **Generate Report** button.

![Select Report Level](image)

*Figure 30: Selection of Application Types and Level of Detail.*

**Activity Report**

The Activity report is broken down by application number and development for each PHA. Activity reports can be run for all application types, or for selected application types. The report in shown in a Figure 313 is for Demolition and Demolition/Disposition.
Figure 31: Demolition and Demolition/Disposition report

For each of the PHA’s application numbers, the Activity Report shows how many units were approved, by fiscal year, and how many were removed, by fiscal year.

Note: Availability of the Reports page is determined by security access role. If you would like access to the page, contact your HA Executive Director.

National Report

The National report consists of tables containing the following information (see Figure 32 for an example, where the application type selected was All):

The totals for each category are displayed in bold in the end of the table.
Note: Unless you select to display a specific fiscal year, PIC displays data for all fiscal years pertaining to the selected application type. The years included in the report vary depending on the application type selected.

The report contains two options for further use of this data (see Figure 33). The following options are displayed as icons on the upper right side of the report:

- Download in Excel: The report downloads into an Excel spreadsheet for further data manipulation.
- Print Page: The report prints as a web page.

Non PIC Home Ownership Report

Non PIC Home Ownership Report reflects information regarding properties which aren’t part of PIC inventory. These properties are maintained by their respective owners.

The report can be filtered by Application Type (see Figure 34).
Upon clicking on Generate Report button the following screen will be displayed (see Figure 35).
The report contains two options for further use of this data (see Figure 33). The following options are displayed as icons on the upper right side of the report:

- Download in Excel: The report downloads into an Excel spreadsheet for further data manipulation.
- Print Page: The report prints as a web page.
