Application Preparation

The preparation of an approvable HOPE VI Revitalization application is time-consuming and can involve significant costs. You are cautioned that only applications with strong showings of readiness, need, and capacity will be selected.

1. Your application must be complete and you must present all items in a manner that is succinct and clear. Respond to every requirement and question posed. Many applicants lose crucial points because they do not adequately respond to a question, because language is unclear, and/or because there are inconsistencies in numbers or data in different parts of the application.

2. If you have not already done so, you are advised to enter into a meaningful planning process with affected residents and the surrounding community to achieve a consensus plan at application submission. Take careful note of the Resident Training Session and Public Meeting requirements in the NOFA. Be sure to advertise and document those meetings carefully. You will receive additional points under the Project Readiness rating factor if you conduct additional meetings.

3. Immediately contact public, private, and nonprofit entities, agencies, and organizations from which you plan to obtain letters, materials, or documents. This includes service providers, banks, state housing finance agencies, and other sources of financial assistance.

4. Note the requirement of a certification of severe physical distress by an independent, certified engineer or architect. If you request funds to pay for extraordinary site costs, you will also need to have an independent certified engineer or architect justify and verify those costs.

5. Specific formatting and documentation instructions are provided in the NOFA itself, and will be strictly enforced. You should carefully review Section IV of the NOFA to make sure you adhere to the various application submission, content, formatting and documentation requirements.

6. If you are proposing a mixed-finance project, you should obtain and review a copy of the Mixed Finance Guidebook by calling the Public Housing Clearinghouse at 800-955-2232. Be sure to ask for the Mixed Finance Guidebook (not the HOPE VI Grant Implementation Guidebook, which has been replaced by the HOPE VI website).

Application Content and Organization. Provide application materials in the following order:

1. Acknowledgement of Application Receipt (HUD-2993). The very first page of your application is the Acknowledgement of Receipt form. Print or type your name and address inside the box provided. When HUD receives your application, this receipt will be detached from your application and mailed to you to indicate that your application
was received. Please rely on this receipt and/or your overnight tracking number to determine whether your application was received. If you would like to have the receipt faxed to you, please include your fax number on the form.

2. Application for Federal Assistance (SF-424). You must use a SF-424, not a HUD-424. The CFDA number for the HOPE VI Program is 14.866. This form is included in this HOPE VI Application. Please be sure to enter your DUNS number on the form in the space provided.

3. HOPE VI Revitalization Application Table of Contents. The HOPE VI Application Table of Contents, attached at the back of these instructions, lists Narrative Exhibits, Attachments, and Standard Certifications that should be contained in the application. It is designed both to assist you in ensuring that all required elements of an application are included, and to be used as a table of contents for your completed application. After you have completed your application, please enter the page numbers of the Narrative Exhibits and Attachments and include the completed Table of Contents behind your SF-424.

4. The Narrative Exhibits constitute specific aspects of your Revitalization Plan and respond to the rating criteria in the HOPE VI Revitalization NOFA. The Narrative Exhibits make up the first part of the application. All narrative pages must be numbered sequentially and conform to the page number and format requirements of the NOFA.

5. Attachments must be located behind the Narrative Exhibits. Information in the Attachments may not substitute for information requested in a Narrative Exhibit. Attachments include photographs, maps, illustrations, Application Data Forms, letters committing financial support, etc. Videos and resumes are specifically prohibited. Fill out the Application Data Forms as completely as possible, using the instructions posted on the HOPE VI website and best estimates if necessary. Do not fill in fields blocked in gray. Be sure that all numbers and data throughout the Narrative Exhibits and Attachments are consistent. For more detailed information on the Data Forms, instructions are provided on the HOPE VI website where the NOFA is posted.

6. Standard certifications and forms must be placed at the end of the application, in the order provided for in Section IV of the NOFA and on the Application Table of Contents (guide below). Standard certifications and forms include the HOPE VI Revitalization Applicant Certifications (4 pages, to be signed by the Board Chair) and other HUD and Standard forms as identified below.
