

Enterprise Income Verification (EIV 9.5)

System User Manual For

Public Housing and Voucher Program Users

U.S. Department of Housing and Urban Development

April 2013

Revision Sheet

Release No.	Date	Revision Description
Version 3.1.1	10/14/04	Build 3.1.1 Release Updates
Version 3.1.2	12/11/04	Build 3.1.2 Release Updates
Version 3.2	02/14/05	Build 3.2 Release Updates
Version 3.2	06/01/05	Build 3.2 Release – Revision
Version 4.0	09/16/05	Build 4.0 Release
Version 5.0	03/10/06	Build 5.0 Release
Version 6.0	07/20/2006	Build 6.0 Release
Version 6.1	12/08/2006	Build 6.1 Release
Version 7.0	06/03/2007	Build 7.0 Release
Version 8.0	11/20/2007	Build 8.0 Release
Version 9.1	03/03/2008	Build 8.1 Release
Version 9.2	04/22/2008	Updates based in initial comments
Version 9.3	05/22/2009	Build 8.1.2 Release
Version 10	08/10/2009	Build 9.0 Release- Draft
Version 10.1	08/24/2009	Updated based on the initial review
Version 11.0	03/10/2010	Build 9.1 Release
Version 12.0	03/29/2011	Build 9.2 Release
Version 12.1	10/05/2011	Build 9.2.1 Release
Version 13	03/14/2012	Build 9.3 Release
Version 14	10/01/2012	Build 9.4 Release
Version 15	04/17/2013	Build 9.5 Release

Summary of Changes:

- Changes made in Income Information to include Tenant Identity Verification Status
- Changes made in Income Discrepancy to show/hide Income and Outlier Information
- Changes made in Deceased Tenants Reports
- Changes made in Multiple Subsidy Report

**User Manual
for
Public Housing and Voucher Program Users
Authorization Memorandum**

I have carefully assessed the EIV 9.5 User Manual for Public Housing and Voucher Program Users. This document has been completed in accordance with the requirements of the HUD System Development Methodology.

MANAGEMENT CERTIFICATION - Please check the appropriate statement.

_____ The Document is accepted.

_____ The Document is accepted pending the changes noted.

_____ The Document is not accepted.

We fully accept the changes as needed improvements and authorize initiation of work to proceed. Based on our authority and judgment, the continued operation of this system is authorized.

Ted Taylor
IT Project Manager

1.0 GENERAL INFORMATION

1 GENERAL INFORMATION

The purpose of this document is to provide instructions on the use of the Enterprise Income Verification (EIV) system for Public Housing and Voucher program users. The purpose of EIV is to assist PHAs in determining user income. This document focuses on end-user functionality for viewing PIH tenant income and benefits information to assist PHA users in navigating the EIV system and using its various reports in support of income determination as part of the tenant re-certification process and in helping assure the integrity of the subsidy process.

1.1 System Overview

The EIV system is used to support up-front income verification by providing income information to be used by PHA's during tenant recertification as well as related tools to be used in identifying possible dual entitlement situations and whether applicants already are receiving HUD rental housing assistance. It provides a secure portal to reports on PIH household wages, unemployment insurance benefits and Social Security/Supplemental Income. EIV is a Web-based system, allowing access to information across secure Internet connections for users with Microsoft Internet Explorer Version 6.0 and higher.

1.2 Project References

The following documents were used in preparation of this document:

References
EIV PIH User Manual, EIV Version 9.4, October, 2012
EIV PIH User Administration Manual, EIV Version 9.4, October 2012
EIV 9.4 Needs & Business Requirements Document, dated October 2012
EIV 9.4 Requirements Traceability Matrix, dated October 2012
EIV 9.4 Requirements Definition, November 2012

1.3 Authorized Use Permission

1.3.1 Security

EIV contains personal information concerning tenants that are covered by the Privacy Act such as wage and income data about private individuals, as well as identifying information such as Social Security Number, name, address, and employment information. This information may only be used for limited official purposes, which are tenant recertification and oversight of the tenant recertification process (which includes use by OIG and GAO). It does not include sharing with governmental entities not involved in the recertification process. Users are encouraged to refer any non-standard requests for access to HUD management and to report any unauthorized disclosure of EIV data to the office of the HUD Privacy Act Officer or to the Office of Inspector General.

All EIV users must adhere to the EIV Rules of Behavior they would have signed as part of the employee EIV Access Authorization Form. A copy of the EIV Access Authorization Form is available on the EIV System Information web page.

<http://www.hud.gov/offices/pih/programs/ph/rhiip/uivsystem.cfm>

If for some reasons you have not signed this form, please do so and give it to your EIV User Administrator.

The EIV Rules of Behavior clearly delineate responsibilities of, and expectations for, all individuals with access to the EIV system. Non-compliance with these rules by HUD employees will be disciplined through sanctions commensurate with the level of infraction. Sanctions may range from a verbal or written warning, removal of system access for a specific period of time, reassignment to other duties, or termination depending on the severity of the violation. Non-compliance with these rules by HUD business partners will result in actions commensurate with the level of infraction. Sanctions may range from a verbal or written warning to termination of the individual's access rights to termination of the access of the HUD business partner and its users. In addition, legal action may be taken for violations of the Privacy Act, whether the offender is public or private.

Access to data concerning Public Housing program tenants is logged as part of the effort to protect the data and provide traceability should a questionable event occurs.

1.3.2 User Accounts

User accounts for EIV are provided on a need-to-know basis, with appropriate approval and authorization.

EIV implements a role-based authorization scheme to grant PIH users access to the EIV PIH system content. An EIV Public Housing program user belongs to a security level based on their organization (Headquarters, HUB, TARC, Field Office, or PHA), and a role, based on their job responsibilities and functional needs. Section 2.3 of this document provides a list of security levels and roles defined for Public Housing and Voucher program users.

1.3.3 Security Awareness

New EIV users are to receive as part of their training a familiarization with the requirements of the Privacy Act. Potential EIV users must sign the EIV Access Request to signify that they understand and accept the EIV Rules of Behavior. Guidance concerning security has been posted on the EIV web page.

<http://www.hud.gov/offices/pih/programs/ph/rhiip/uivsystem.cfm>

The complete text of the Privacy Act is available at:

1.3.4 <http://www.justice.gov/opcl/privstat.htm> Security Procedures

The WASS system, through which all the users access EIV, provides a timeout that disables access to the system after a 30-minute pause in use. That, in and of itself, is not enough protection. Users should not leave their PC's unattended when access to WASS or any system accessible through WASS is possible. Users should be aware that logging out from EIV to WASS is not sufficient in that clicking on the link to EIV will allow reentry to the EIV system. The activation of a screen saver is one way to protect access through an unattended PC. Another is to close the browser window. It is possible to do so by going through the WASS closing routine which includes saying yes to the question of whether to close the window. It is easier and quicker to close the browser window by clicking the X in the upper-right-hand corner of the browser screen.

EIV printed outputs and downloaded data that contain Privacy act information should be treated as sensitive. The printouts and downloaded data copied on disks or other magnetic media should be locked in a secure place when not in use and destroyed when not needed. All EIV printed reports containing sensitive data will display the name and partial User ID of the requestor.

Other security considerations relate to the physical security of the area where the EIV system is used, and policies and procedures that are enforced by management. Guidance concerning security practices, governing the work area and storage of paper records containing personal information and their destruction when they no longer are needed, may be found at the EIV Information Web site.

<http://www.hud.gov/offices/pih/programs/ph/rhiip/uivsystem.cfm>

All HUD laptop users are required to have McAfee Disk Encryption installed. Software is being installed on HUD PC's that will encrypt the laptop hard drive and files saved to it. HUD plans to deploy the same type of software to HUD PC's.

PHA users should avoid putting EIV reports with personal information or extracts of EIV reports containing personal information on laptops and other portable media and never unless that media is protected by software complying with the FIPS 140-2 encryption standard. A National Institute of Standards and Technologies list of vendors with validated FIPS 140-2 software may be found at <http://csrc.nist.gov/groups/STM/cmvp/documents/140-1/1401vend.htm>. McAfee Endpoint Encryption software meets that standard. PKZip 12, also used by HUD, has a file encryption option that meets the same standard. However, the encryption is one file at a time rather than the whole hard disk. Personal information may never be placed in the body of an e-mail message. It may only be sent by attaching file encrypted using compliant software.

1.3.5 Audits and User Activity Logging

Users of EIV should be aware that user activities and tenant data access activities within the system are logged for security audit and reporting purposes. These audits may include records of successful access of sensitive data to which the user is authorized.

Changes to the user roles and user certification transactions are also logged.

1.4 Points of Contact

1.4.1 Information

Name	Organization	Telephone	Email
Ted Taylor	HUD/PIH	202-475-8772	Ted.Taylor@hud.gov
Nelson Stephens	HUD/PIH	202-475-8601	Nelson.Stephens@hud.gov
Fred Tajalli	HUD/PIH	202-475-8847	FRED.F.TAJALLI@hud.gov

1.4.2 Coordination

Coordination is required with the following organizations in order to successfully implement all EIV releases:

Office of Public and Indian Housing (PIH)

The Office of the Chief Information Officer (OCIO)

EIV Integrated Project Team (IPT)
PIH-REAC Development Coordination Group (DCG)
Information Management System (IMS) team
Web Access Security Subsystem (WASS) team
Housing's Tenant Rental Assistance Certification System (TRACS) team

1.4.3 Help Desk

The HUD Help Desk should be contacted for support and help questions regarding standard HUD PC applications, all IT problems and password resets. Users are encouraged to refer any non-standard requests for access to HUD management. Actual or suspected incidents of intrusion into the EIV system (“hacking”) should be reported to the HUD Help Desk, which will inform the HUD CIO Emergency Response Team. The National Help Desk call line is open to receive calls from HUD users 24 hours a day, 365 days a year (**1-888-245-4860**). Any incidents of unauthorized disclosure of EIV data should be immediately reported to the HUD Privacy Act Officer or to the Office of Inspector General. After any of the above situation reports have been made, to facilitate coordination please also inform the PIH Headquarters User Administrator via email at EIV_HELP@HUD.GOV.

For issues related EIV application access, contact the EIV Coordinator of your local HUD office.

Any problems with WASS should be reported to the REAC Technical Assistance Center (TAC) at **1-888-245-4860** or select **“Contact Us”** on the REAC Online Web.

<http://www.hud.gov/offices/pih/about/css.cfm>

1.5 Organization of the Manual

Listed below are each of the chapters contained in this manual, along with a brief description of their content:

- **Chapter 1, General Information** – Provides an overview of the EIV system as well as diagram of the system. It also provides a tour of the user interface.
- **Chapter 2, System Summary** – Provides a high level overview of the system functionality available to EIV users.
- **Chapter 3, Getting Started** – Details how to access EIV system, the basic system interfaces and the basic navigation techniques.
- **Chapter 4, Using the System (Online)** – Describes the user interface for accessing income information and the Income Discrepancy report and provides instructions for its use.
- **Chapter 5, Using the System (Batch)** – Provides a brief description of EIV PIH Batch processing.
- **Chapter 6, Querying** – Provides a detailed description of EIV PIH Querying capabilities.
- **Chapter 7, Reporting** – Provides a detailed description of EIV PIH Reporting capabilities.

1.6 Abbreviations and Acronyms

The following terms, abbreviations and acronyms may or may not appear in this document. They are provided for reference and clarity.

Acronym	Definition
C&A	Certification and Accreditation
CAN	Claim Account Number
CCB	Change Control Board
CCMB	Configuration Change Management Board
CM	Configuration Management
CMRB	Configuration Management Review Board
COTR	Contracting Officer's Technical Representative
DCG	Development Coordination Group
DRP	Disaster Recovery Plan
DTS	Data Transmission Services
EDI	Electronic Data Interchange
EIV	Enterprise Income Verification
FEIN	Federal Employer Identification Number
FIPS	Federal Information Processing Standards
FISCAM	Federal Information System Controls Audit Manual
FISMA	Federal Information Security Management Act
FO	Field Office
FOIA	Freedom of Information Act
Form HUD-50058	PIH Form used to submit resident characteristics and tenant income data to HUD
Form HUD-50059	MF Form used to submit resident characteristics and tenant income data to HUD
FOUO	For Official Use Only
FTP	File Transfer Protocol
GAO	U.S. Government Accountability Office
GTM	Government Technical Monitor
GTR	Government Technical Representative
HHS	U.S. Department of Health and Human Services
HOH	Head of Household
HOUSING	Office of Housing
HUB	Not an acronym. FO's are classified into two categories -- HUB and Program Center. A HUB can be a stand-alone FO or have another offices or program centers report to it.
HUD	US Department of Housing and Urban Development
ICN	Income Control Number
IMS	Inventory Management System (formerly PIC)
MOA/U	Memorandum of Agreement / Understanding
MF	Multifamily
MTW	Moving To Work
NDNH	National Directory of New Hires database
NIST	National Institute of Standards and Technology
OCSE	Office of Child Support Enforcement
OIG	Office of Inspector General
OMB	Office of Management and Budget

Acronym	Definition
OPC	Office of Procurement & Contracts
PD&R	HUD's Office of Policy, Development and Research
PH	Public Housing
PHA	Public Housing Agency
PI	Period of Income
PIA	Privacy Act Assessment
PIC	Public & Indian Housing Information Center (now IMS)
PIH	HUD's Office of Public & Indian Housing
POA&M	Plan of Action and Milestones
PVCS	Project Version Control System
PWS	Performance Work Statement
QA	Quality Assurance
QU	Quarterly Update
QW	Quarterly Wage
RHIIP	Rental Housing Integrity Improvement Project
RIM	Rental Integrity Monitoring
SPH	HUD's Security Program Handbook
SPP	Security Program Policy
SS	Social Security
SSA	Social Security Administration
SSAA	System Security Authorization Agreement
SSI	Supplemental Security Income
SSO	Single Sign On (used in WASS)
SSP	System Security Plan
TARC	Troubled Agency Recovery Center
TASS	Tenant Assessment Subsystem (retired)
TRACS	Tenant Rental Assistance Certification System
TTP	Total Tenant Payment
V V&T	Validation, Verification & Test Plan
W-4	Federal form used to collect New Hires data
WASS	Web Access Security Subsystem

2.0 SYSTEM SUMMARY

2 SYSTEM SUMMARY

EIV is responsible for handling:

- Collection and processing of W-4 data, wages, unemployment benefits from NDNH (National Directory of New Hires)
- Collection and processing of Social Security/Supplemental Security Income and disability benefits from SSA (Social Security Administration)
- Logging and reporting of errors and discrepancies between tenant’s reported income data (from Form 50058) and actual reported wages
- Providing statistical information on the new hires information, identity verification, immigration status, deceased tenants and on tenants receiving multiple subsidies.
- User administration functions, such as User Maintenance and User Certification.
- Logging of user activities and access to tenants information
- Providing statistical information on the debts owed to PHA's and terminations

The table below lists the online functions of EIV available to PIH users with Occupancy Specialist role.

Function	Description
<p>Debts Owed to PHA's and Terminations Search for Former Tenant Debts Owed to PHA's and Terminations Report</p>	<p>The Search for Former Tenant provides the capability to search for an applicant or participant, to determine if the individual owes a debt to another PHA anywhere in the nation, or has been terminated or evicted from Public Housing and Housing Choice Voucher programs.</p> <p>The Debts Owed to PHA's and Terminations Report provides the statistics of total debt amount owed to PHA's and terminations of EOP tenants from PHVP Programs at various HUD levels (HUD, STATE, HUB, FO, TARC, and PHA).</p>
<p>Income Information By Head of Household By Reexamination Month New Hires Report</p>	<p>This function provides the following capabilities:</p> <p>Enabling search of household information by the Head of Household and by Reexamination Month for all households including MTW households.</p> <p>The By Head of Household option provides an online view of PIH household summary information and income details (W-4, Wages, Unemployment Benefits, Social Security/Supplemental Security Income, and Disability Benefits) collected from third-party sources and online view of the household’s income discrepancy information.</p> <p>It also allows PHA's staff to confirm whether the household and household member ID information is verified and validated by SSA.</p> <p>The By Reexamination Month option provides summary and detail information on the Income Report, New Hires Report, Income Discrepancy Report, Failed Verification Report, Failed EIV Pre- Screening Report, and No Income Report.</p> <p>The New Hires Report provides EIV users a list of households where at least one of the household members has new hires information in the 180 days following the date that an NDNH new hire record was received in EIV.</p>

Function	Description
<p>Verification Reports Existing Tenant Search Multiple Subsidy Report Identity Verification Report Immigration Report Deceased Tenants Report Income Discrepancy Report</p>	<p>The Existing Tenant Search provides the capability to search by SSN and show information if the searched SSN already is receiving housing subsidies from any PIH or Multifamily Housing program.</p> <p>The Multiple Subsidy Report is used to identify for a selected PHA any households that receive assistance either from multiple PHAs or from both PIH and Multifamily programs. The report considers only the tenant whose IDs were successfully verified by SSA.</p> <p>The Identity Verification Report provides statistics concerning failed SSA and EIV pre-screening verification at HUD, STATE, HUB, FO and TARC levels. At the PHA level, the report displays the number of households and household members, who failed SSA verification, failed the EIV Pre-Screening process and who are pending verification along with their PHA and lists the identities that failed along with a description of the reason for the failure.</p> <p>The Immigration Report is used to identify household members who have an IMS/PIC-assigned alternate identification number (Alt ID), citizenship code of ineligible noncitizen or who are pending verification.</p> <p>The Deceased tenant Report provides the capability to view all current tenants in IMS/PIC who were reported to be deceased by SSA at the HQ, State, HUB, FO, TARC, PHA and Project (for Public Housing) level.</p> <p>The Income Discrepancy Report provides the capability to view income discrepancy statistical data at HQ, State, HUB, Field Office, and PHA levels as well as detailed information at the Individual Household level concerning the gap between tenant’s projected income and EIV income information for the same period.</p>

The table below lists the online functions of EIV available to PIH users with PHA level - **Program Administrator** role.

Function	Description
<p>Debts Owed to PHA's and Terminations Search for Former Tenant Enter/Update Information Debts Owed to PHA's and Terminations Report</p>	<p>Search for Former Tenant provides the capability to search for an applicant or participant to determine if the individual owes a debt to another PHA anywhere in the nation or has been evicted from the Public Housing or has had a voucher terminated for cause.</p> <p>Enter/ Update Information provides PHA level users with the Program Administrator role the ability to enter information or edit entries concerning debt information or terminations from PHVP programs for EOPed tenants.</p> <p>Debts Owed to PHA's and Terminations Report provides the statistics concerning former Tenants of total debt amount owed to PHA's and number of lease terminations for PHVP Programs at PHA level provided according to the scope of user access.</p>

2.1 System Configuration

Not Applicable.

2.2 Data Flows

The PIH tenant's income and benefits data in the EIV system come from a variety of sources:

1. **WASS** – is the only means of accessing EIV. WASS provides information concerning user logins to EIV. WASS also is used to assign EIV Multifamily Housing user roles. In addition, removal of ID access to EIV for failure to certify and changes through the EIV User Maintenance function are implemented through WASS.
2. **IMS/PIC Form 50058 Database** – provides EIV information submitted by PHA's concerning PHVP households including those participating in the Move to Work Initiative (MTW) including Name, SSN, Program Type, PHA, Address, and Projected Income from HUD forms 50058 and 50058MTW.
3. **TRACS** – provides EIV with information on households receiving Multifamily Housing subsidies. PIH tenants are cross-referenced with the multifamily tenants for the Multiple Subsidy and Identify Verification reports.
4. **NDNH** – provides wages reported by State and Federal Agencies, unemployment insurance benefits reported by State Agencies, and W-4 data reported by State and Federal Agencies to the HHS Office of Child Support Enforcement (OCSE).
5. **SSA** – provides tenant benefits information including disability, supplemental income, and Social Security payments. It also provides identity verification as part of the matching process with EIV.

EIV benefits data from SSA are updated on a quarterly cycle, with data for one-third of the states in each monthly request. The monthly request is augmented with information pertaining to new tenants (including newborns), portability move-ins and those in IMS/PIC adjustment transactions since the last cycle.

Data exchange with the NDNH databases follows a quarterly cycle for wage and unemployment data but W-4 data are updated monthly and all types of data are collected each month for new PIH tenants, household members who have turned 18 (no data are collected from NDNH concerning those under 18), portability move-ins and those in IMS/PIC adjustment transactions.

2.3 User Access Levels

EIV uses a role-based authorization scheme to grant PIH users access to EIV content. An EIV-PIH user belongs to a security level based on their organization (Headquarters, HUB, TARC, Field Office, or PHA), and a role, based on their job responsibilities and functional needs.

1. **Security level** – A user's access to data are limited to their organization level (Headquarters, HUB, TARC, Field Office, or PHA), and their specific organization.
 - Headquarters users can see nationwide data.
 - HUBs, TARCs, and Field Office users are restricted to their respective areas.
 - EIV supports the assignment of access to multiple PHAs for one user/WASS ID. Such an assignment will only be made to those PHA employees or contractors who access EIV and have that need documented in the User Administration file signed by the Director of the additional PHA.

2. **Role** – A role is an assigned right to use a distinct part of system functionality.

EIV PIH user roles include Occupancy Specialist, User Administrator, System Administrator and Security Administrator. A user's access to functionality is determined by the role or roles to which they were assigned. Each role provides access to a set of functions appropriate to that user type. For example, a PHA Occupancy Specialist can access income data features, but does not have access to user administration, security administration, or system administration features. A user can be assigned one or more roles. The functionality the user can access is a cumulative set of all features given to all roles to which the user has been assigned. Users are assigned roles that are limited in scope to their organizational level (i.e., PHA, Field Office, TARC, HUB, and Headquarters) and those below it. As part of separation of duties for security, users are discouraged from requesting and User Administrators are discouraged from granting the Security Administration role in combination with other EIV roles. However, it is recognized that this may not be practical for the smallest PHA's. EIV User Administrators are instructed to take away roles that no longer are needed and to terminate user access to EIV when the user retires, takes a different job or otherwise departs. If the user leaves employment at HUD, the User Administrator also is to request that the user's WASS ID be terminated. If the user leaves employment at a PHA, the User Administrator also is to request that the user's WASS ID be terminated unless they have taken a position at another PHA or MF Housing owner/agent, in which case, the WASS Administrator is to be informed of the fact situation.

3. **Development – PHA** users may be assigned access to one or more individual Developments within the jurisdiction of their PHA by the PHA User Administrator or access may be assigned PHA-wide. Access to EIV reports is according to the scope of that assignment.

2.4 Contingencies and Alternate Modes of Operation

EIV operates 24 hours a day, 7 days per week. The best times for use are on weekdays from 6:00 AM to 6:00 PM because Batch jobs are run overnight and throughout the weekends. Starting on the evening of the first Friday of each month and throughout the weekend, EIV's performance may be noticeably degraded due to IMS/PIC monthly summarization. Notices of planned outages for system maintenance (as well as other guidance) will be posted on the EIV Information Web site.

<http://www.hud.gov/offices/pih/programs/ph/rhiip/uivsystem.cfm>

2.5 Accessibility and 508 Compliance

EIV is compliant with a 1998 amendments to the Rehabilitation Act of 1973, requiring Federal agencies to provide disabled employees access to information that is comparable to the access available to others. The EIV interface allows users to access fields using control keys in accordance with applicable standards in Section 508 of the Rehabilitation Act (29 U.S.C. 794d).

“§ 1194.21 Software applications and operating systems

(a) When software is designed to run on a system that has a keyboard, product functions shall be executable from a keyboard where the function itself or the result of performing a function can be discerned textually.

(b) When electronic forms are used, the form shall allow people using assistive technology to access the information, field elements, and functionality required for completion and submission of the form, including all directions and cues.”

Keystroke access to fields is executed through use of the Alt function key. Adjacent to each field is text that provides instructions (see figure below). A keyword in the instructions contains one letter that is underlined. Holding down the Alt key while striking the letter on the keyboard, will place the cursor in the adjacent field (for example, Alt + N to enter a Social Security Number for the head of household).

Enterprise Income Verification HUD Home PIH Home EIV Home Search Email

Income Information >> By Head of Household

Enter one or a combination of the following fields and click Get Information to retrieve household income data:

Enter Head of Household's Social Security Number: [] - [] - []

Enter Head of Household's Last Name: [] exact match

Enter Head of Household's Date of Birth (mm/dd/yyyy): []

Select a Participant Code: []

Alt Function Key

Additional information about Section 508 standards is available from the Section 508 Web site maintained by the Center for IT Accommodation (CITA).

<http://www.section508.gov>

That site is maintained by the Center for IT Accommodation (CITA).

3.0 GETTING STARTED

3 GETTING STARTED

EIV system content and functionality are displayed (through your browser) via a Web page. The layout and design of the page provide users with all the tools needed to quickly and easily take advantage of EIV features and functionality.

3.1 Logging On

3.1.1 Single Sign On (WASS)

Through the use of the WASS system, EIV has a single sign-on feature which alleviates users from having to sign on and authenticate separately into each HUD application that they have been granted access.

There are 2 alternative URL links that are used to access WASS – one for external users and the other for internal user. The link for external users is:

https://hudapps.hud.gov/HUD_Systems/

The link for internal (intranet) users is:

<https://hudapps.hud.gov/ssmaster/>

WASS currently supports 4 types User IDs: The H (ID), C (ID), M (ID), and I (ID). The H (HUD employee) and C (HUD contractor) prefixes are used by internal users, while M (PHA user) and I (PHA independent auditor) are used by external users.

The following screen is provided for the EIV PIH users:

The screenshot shows a web page titled "User Login". On the left, there is a sidebar with the text "Secure Systems Single Sign On" and a small house icon. The main content area has a blue header with "User Login" and navigation links: "faq | help | search | home". Below the header, there are two input fields: "User ID" and "Password", both circled in red. Below these fields are two buttons: "Login" and "Cancel", also circled in red. Underneath the buttons, there is a red "ATTENTION" warning: "ATTENTION: This computer system, and all the systems associated with this system for User Authorization and Authentication, are protected by a computer security system; unauthorized access to these systems is not permitted; and usage may be monitored." Below that is a "NOTE": "NOTE: There is an inactivity timeout of 30 minutes. Please save your work periodically to avoid being logged out. Please also note that there is a 4 hour session timeout, after which, you will need to re-authenticate. You can then resume where you left off." At the bottom left, there is a small house icon and contact information: "U.S. Department of Housing and Urban Development, 451 7th Street S.W., Washington, DC 20410, Telephone: (202) 708-1112 TTY: (202) 708-1455". At the bottom right, there are links for "Home | Privacy Statement".

Please enter your User ID and your Password in the corresponding fields. Click the **Login** button for system access.

EIV is secure, and requires you to log in through your Internet browser using your ID and password to gain access. When you log into WASS, the features that you can access and data that you see are made available according to the roles assigned to you by your WASS Coordinator.

3.1.2 The WASS Log In Option

Upon successful log in, the user is taken to the **Legal Warning** page. If you are not familiar with the warnings, please read them before proceeding. Please also look at the message of the day, which may be of interest to you. To proceed, please click the **Accept** button shown on the screen below.

User Login [faq](#) | [help](#) | [search](#) | [home](#) | [logout](#)

Secure Systems

You must login at least once every 90 days to maintain an active ID. If you do not login again before 10 Jan 2012, your ID will be automatically deactivated. If your User ID is deactivated, please contact the TAC to reactivate your ID.

Legal Warning

Misuse of Federal Information through the HUD Secure Connection web site falls under the provisions of title 18, United States Code, Section 1030. This law specifies penalties for exceeding authorized access, alterations, damage, or destruction of information residing on Federal Computers.

Warning Notice

The Secure Systems security access software supports Internet Explorer 6.0 browser. Internet Explorer 5.0 browser is supported for all processing systems except ARAMS. Other browsers may not be compatible with this software.

Message of the Day

Welcome to Secure Systems

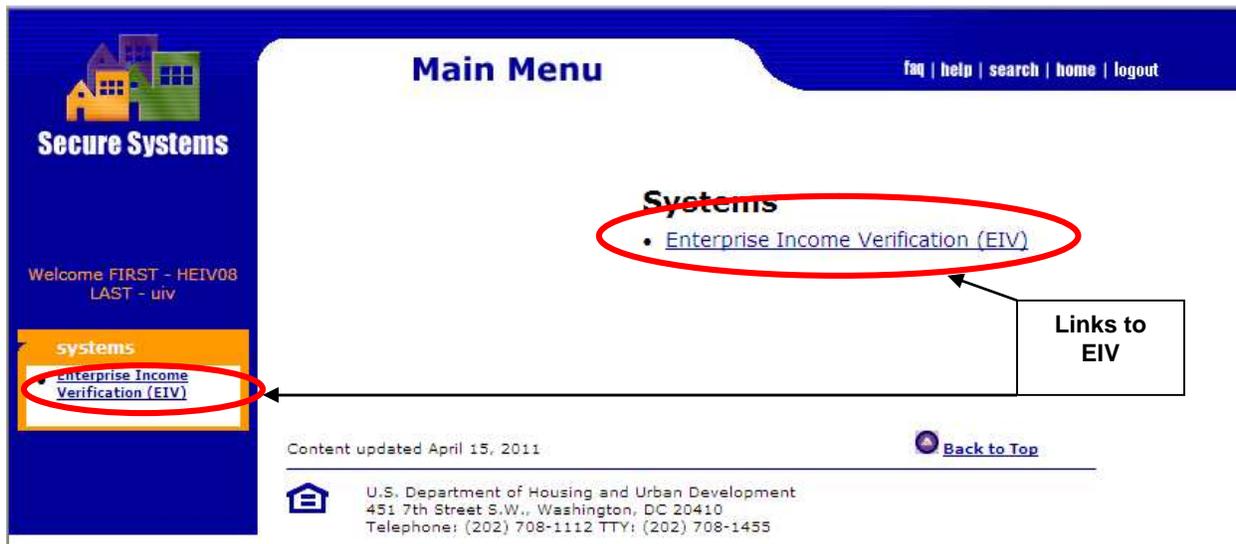

Accept Logout

15, 2011 [Back to Top](#)

Department of Housing and Urban Development
400 M Street S.W., Washington, DC 20410
(202) 708-1112 TTY: (202) 708-1455

Click Accept to enter WASS or Logout to exit WASS

When the **Accept** button is clicked, the **Main Menu** page will be displayed. The menu will display all of the systems to which the user is authorized access through WASS. Choose the EIV option for EIV system entry. That option may be selected from either the Main Menu or the left panel on the same page. Click the **Enterprise Income Verification (EIV)** option.

Any questions related to the Public Housing program portion of EIV application should be referred to the EIV Coordinator of your local HUD office or EIV_HELP@hud.gov, if your local HUD office is unable to assist you.

3.1.3 Select Program Office Page

When a user is assigned with both PIH and Multifamily Housing Program roles, the Select Program Office page is displayed, as shown below.

To access the PIH function, choose the **Office of Public and Indian Housing (PIH) – Access to Income Data by PHA** radio button and click the **Continue** button.

3.1.4 Acknowledgement Page for Non-PHA Users

For non-PHA users, the Acknowledgement Page is displayed as shown below when you log into EIV through WASS.

Before EIV will allow you to enter the system, you must acknowledge that you will be viewing and Privacy Act materials which must be safeguarded from unauthorized disclosure and attest that you have taken EIV Security Awareness training. Once you have clicked on these boxes and the Continue box, EIV will allow you to enter the system.

- Back to Secure Systems
- Program Office Selection

Legal Warning

Misuse of Federal Information through the HUD Secure Connection web site falls under the provisions of Title 18, United States Code, Section 1030. This law specifies penalties for exceeding authorized access, alterations, damage, or destruction of information residing on Federal Computers.

Notice of Your Responsibility for Security

Information contained in this system is subject to the Federal Privacy Act of 1974 (5 U.S.C. 552a, as amended). Only authorized persons in the conduct of official business may use private information contained in this system. Any individual responsible for unauthorized disclosure or misuse of private, personal information may be subject to a fine of up to \$5,000 for each violation.

EIV Rules of Behavior

As an authorized user of the EIV system or viewer and/or handler of EIV data, I understand the information obtained may only be used for official HUD business. I understand that authorized users may access, disclose, inspect and use these data only within the scope of their official duties of administering a HUD rental assistance program. Anyone who abuses EIV access privileges may be stripped of that and other access rights to HUD secure systems. Employees of an agency may be subject to personnel discipline consistent with applicable personnel rules. Contractor firms that do not assure that the Rules of Behavior are observed may be subject to remedies under the terms of their contract.

I understand that my user ID and password are to be used only by me. Under no circumstances will I reveal or allow use of my user ID or password by another person. Nor will I use another person's password and user ID. I will protect EIV data within my control, whether online, printed, or stored in media from unauthorized access and disclosure.

All users and agencies are subject to monitoring of their EIV system use and compliance with security requirements by HUD, HUD contractors or a 3rd party. If it is determined that an agency or any of its users are not in compliance with security requirements or any provision of HUD standards, policies, and procedures related to EIV access and use, HUD will immediately terminate one or all of an agency's users' EIV access. HUD will reinstate access upon the successful implementation of corrective action(s) to cure the deficiency.

I understand and agree to follow all HUD standards, policies, and procedures related to EIV access and use.

Certification of EIV & Security Awareness Training

As a condition of initial and continued EIV access, all EIV system users are required to complete Annual Security Awareness training and HUD Headquarters-sponsored EIV system training in accordance with HUD program requirements and administrative guidance.

I acknowledge that I have participated in EIV System and annual Security Awareness training in accordance with HUD requirements.

Authorization for the Release of Information

The data in the EIV system includes private and confidential information. Staff at Public Housing Agencies (PHAs) and PHA-hired private management agents may not view private information unless there is a signed Authorization for the Release of Information and Privacy Act Notice (Form HUD-9886) or equivalent consent form satisfying requirements under 24 CFR 5.230 in the household's file for the head of household and the spouse of the head of household, or co-head, regardless of age, and for each adult member in the household.

I acknowledge that I understand that this system contains personal information covered by the Federal Privacy Act of 1974 (5 U.S.C. 552a, as amended). Access to this data is solely for the purpose of determining eligibility and level of rental assistance under covered HUD rental assistance programs. Any individual responsible for unauthorized disclosure or misuse of the private, personal information contained in this information system may be subject to civil or criminal penalties under the Federal Privacy Act.

3.1.5 Acknowledgement Page for PHA Users

For PHA users, the Acknowledgement Page is displayed as shown below when you log into EIV thru WASS. Before EIV will allow you to enter the system, you must acknowledge that you will be viewing and Privacy Act materials which must be safeguarded from unauthorized disclosure, attest that you have taken EIV Security Awareness training, and affirm that a form HUD-9886 (or equivalent) is on file for each adult household member to be viewed. Once you have clicked on these boxes and the Continue box, EIV will allow you to enter the system. (Note: PHA users have one more check box affirmation than does HUD staff – the one concerning the need to have the form HUD-9886's on file.)

Legal Warning
Misuse of Federal Information through the HUD Secure Connection web site falls under the provisions of Title 18, United States Code, Section 1030. This law specifies penalties for exceeding authorized access, alterations, damage, or destruction of information residing on Federal Computers.

Notice of Your Responsibility for Security
Information contained in this system is subject to the Federal Privacy Act of 1974 (5 U.S.C. 552a, as amended). Only authorized persons in the conduct of official business may use private information contained in this system. Any individual responsible for unauthorized disclosure or misuse of private, personal information may be subject to a fine of up to \$5,000 for each violation.

EIV Rules of Behavior
As an authorized user of the EIV system or viewer and/or handler of EIV data, I understand the information obtained may only be used for official HUD business. I understand that authorized users may access, disclose, inspect and use these data only within the scope of their official duties of administering a HUD rental assistance program. Anyone who abuses EIV access privileges may be stripped of that and other access rights to HUD secure systems. Employees of an agency may be subject to personnel discipline consistent with applicable personnel rules. Contractor firms that do not assure that the Rules of Behavior are observed may be subject to remedies under the terms of their contract.
I understand that my user ID and password are to be used only by me. Under no circumstances will I reveal or allow use of my user ID or password by another person. Nor will I use another person's password and user ID. I will protect EIV data within my control, whether online, printed, or stored in media from unauthorized access and disclosure.
All users and agencies are subject to monitoring of their EIV system use and compliance with security requirements by HUD, HUD contractors or a 3rd party. If it is determined that an agency or any of its users are not in compliance with security requirements or any provision of HUD standards, policies, and procedures related to EIV access and use, HUD will immediately terminate one or all of an agency's users' EIV access. HUD will reinstate access upon the successful implementation of corrective action(s) to cure the deficiency.
I understand and agree to follow all HUD standards, policies, and procedures related to EIV access and use.

Certification of EIV & Security Awareness Training
As a condition of initial and continued EIV access, all EIV system users are required to complete Annual Security Awareness training and HUD Headquarters-sponsored EIV system training in accordance with HUD program requirements and administrative guidance.

I acknowledge that I have participated in EIV System and annual Security Awareness training in accordance with HUD requirements.

Authorization for the Release of Information
The data in the EIV system includes private and confidential information. Staff at Public Housing Agencies (PHAs) and PHA-hired private management agents may not view private information unless there is a signed Authorization for the Release of Information and Privacy Act Notice (Form HUD-9886) or equivalent consent form satisfying requirements under 24 CFR 5.230 in the household's file for the head of household and the spouse of the head of household, or co-head, regardless of age, and for each adult member in the household.

I acknowledge that I understand that this system contains personal information covered by the Federal Privacy Act of 1974 (5 U.S.C. 552a, as amended). Access to this data is solely for the purpose of determining eligibility and level of rental assistance under covered HUD rental assistance programs. Any individual responsible for unauthorized disclosure or misuse of the private, personal information contained in this information system may be subject to civil or criminal penalties under the Federal Privacy Act.

I certify that a valid form HUD-9886 or equivalent consent form meeting requirements under 24 CFR 5.230, signed by each household member who is at least 18 years of age, and each family head and spouse regardless of age, and for each adult household member, is on file for each household whose income data I view.

To view income data, check the affirmation checkbox to the left and then click on Continue.

EIV System and Security Awareness Training Check box

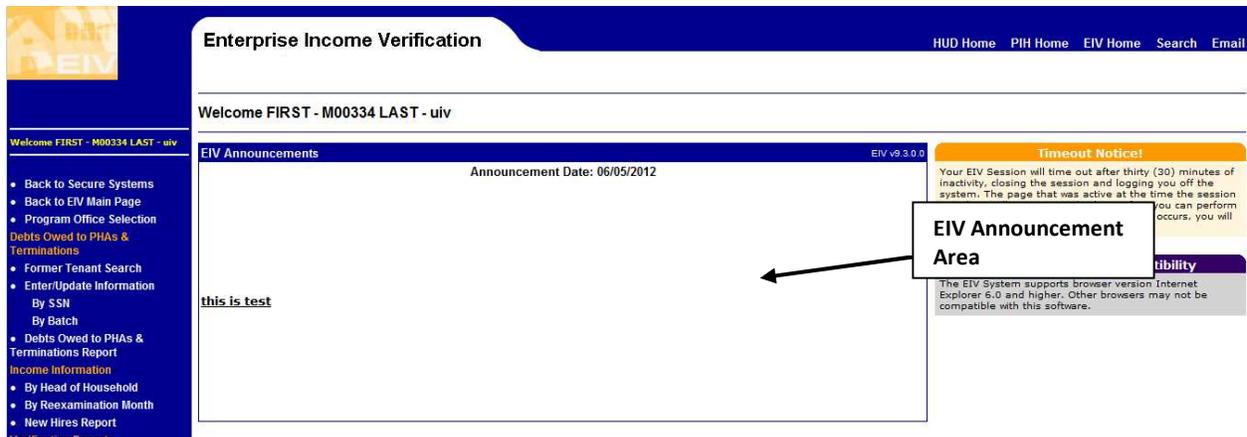

Acknowledgement Checkbox

Affirm Checkbox

3.1.6 Welcome Page

The EIV Welcome Page is displayed once you have acknowledged the legal notices. This page has two blocks, the Welcome block and the EIV Announcement block. The Welcome block, welcomes the User, and displays a Timeout Notice, Notice of Browser Compatibility and the Certification due date.

The EIV Announcement section on the welcome page consists of an announcement date and announcements of interest to EIV users.

3.2 System Menu

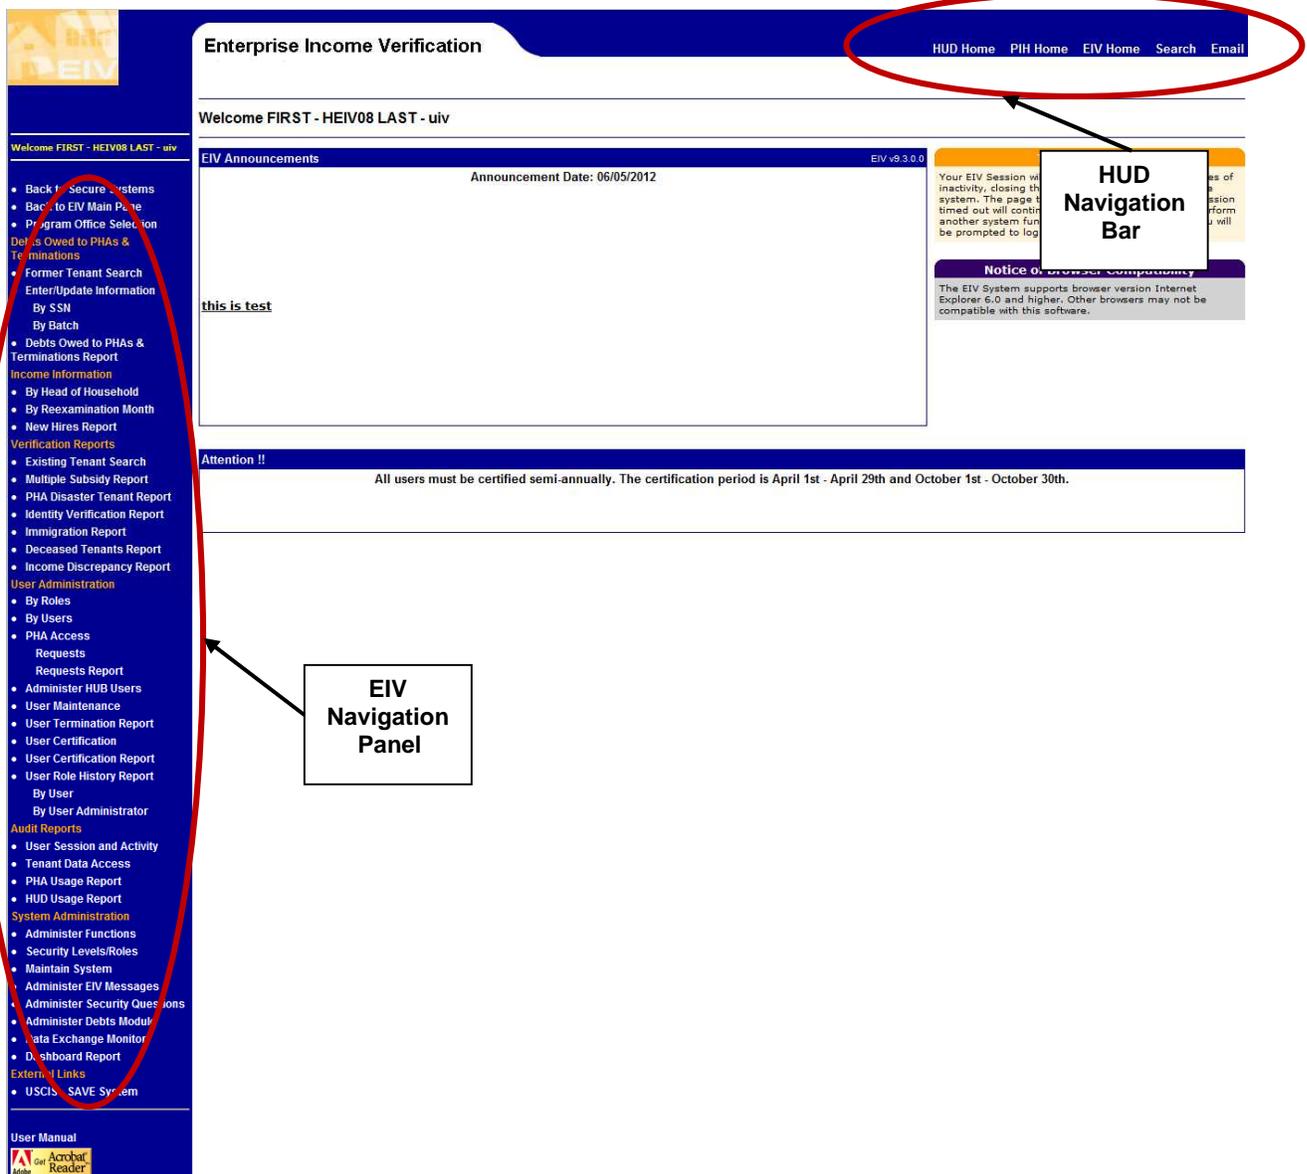

It will be useful for all users including new users to understand the common design elements in how EIV tools are placed on screen. Each page in EIV includes a work area in the middle of the screen as well as one or more tools to help the user access functions and move between screens.

3.2.1 Navigation Tools

Each EIV screen provides access to one or more of the following navigation tools:

- HUD Navigation Bar (located across the top of the screen)
- EIV Navigation Panel (located on the left-hand side of the screen)

The figure below illustrates the EIV common design.

3.2.2 HUD Navigation Bar

The HUD Navigation bar is displayed at the top of the page. It includes a series of hypertext links to help you quickly and easily navigate to information appearing on the HUD Web site. Click on a link to launch the associated Web page. The following link options are available:

- **HUD Home** – This link opens the main HUD web site.
- **PIH Home** – This link opens the Public and Indian Housing web page.
- **EIV Home** – This link opens the EIV System Information web page which contains useful information about EIV, links to related web pages and from which EIV manuals and forms may be downloaded.
- **Search** – This link opens the Search and Index page on the HUD Web site.
- **Email** – This link opens the Web page providing HUD departmental listings and its e-mail contact information.

3.2.3 Navigation Panel

The EIV Navigation Panel (also referred to as the Left-side Navigation Panel) is displayed on the left side of each EIV Web page. It provides the user an access to those system functions enabled by the user's role(s). Each function has its own hypertext link and is grouped within category.

Because EIV security is controlled by role and organization level, the options appearing on the left-side navigation panel will vary, based on the user's role(s) and organization level. As an example, the following is a listing of all the links that a Headquarter (HQ) user with Occupancy Specialist role would find on the navigation panel.

Link Functions	Description
Back to Secure Systems	Terminates the current EIV session, logs the user off the EIV application, and displays the WASS Main page. Because the user already has signed on through WASS, the user is still connected to WASS.
Back to EIV Main Page	Navigates user to the EIV Announce Page.
Program Office Selection	Available to users assigned with both PIH and Office of Housing roles. Enables the user to choose Program Type.
Debts Owed to PHA's and Terminations	
<ul style="list-style-type: none"> • Search for Former Tenant 	Navigates to the page for the Search for Former Tenant function. Use this page to search for individuals who owe debts to PHA's anywhere in the nation or who have had leases terminated or been evicted from Public Housing or had their Housing Choice Voucher program participation ended.
<ul style="list-style-type: none"> • Enter/Update Information 	Navigates to the Notice Page of the Enter/Update Information Screen. Use this function to enter/edit debt information for former tenants. (Note: This report is displayed only for users who also have been assigned the Program Administrator role)
<ul style="list-style-type: none"> • Debts Owed to PHA's & Terminations Report 	Navigates to the search page for Debts Owed to PHA's & Terminations Report. Use this page to view Debts Owed to PHA's & Terminations statistical data for a specified region.
Income Information	
<ul style="list-style-type: none"> • By Head of Household Information 	Navigates to the Search for Head of Household Information page. Use this page to search for head of household income data.
<ul style="list-style-type: none"> • By Reexamination Month 	Navigates to the Search for Head of Household page and allows generation of summary reports by Program Type, Reexamination Month and Participant Code (all three together). It allows the user to select and generate the following summary reports: <ul style="list-style-type: none"> • Income Summary Report • New Hires Report • Income Discrepancy Report • Failed Verification Report • Failed EIV Pre- Screening Report • No Income Report

Link Functions	Description
<ul style="list-style-type: none"> • New Hires Report 	Navigates to the page from which the user may generate a New Hires report based on program Type, Reexamination Month and Region.
Verification Reports	
<ul style="list-style-type: none"> • Existing Tenant Search 	Navigates to the page from which the user may enter a SSN to learn whether an applicant already receives housing subsidies from PIH or Multi-family programs.
<ul style="list-style-type: none"> • Multiple Subsidy Report 	Navigates to the page from which the user may launch a report on Household members whom HUD records indicate received assistance from Multiple PHA or in both Public Housing and Section 8 programs within the same PHA. Use this report to view the basic information including the Member identifiers and PHAs and or project/ contract numbers of the Household member with subsidies
<ul style="list-style-type: none"> • Identity Verification Report 	Navigates to the page from which the user may launch the Identity Verification Report the scope of which will be according to the user's organization level and the scope of which may be filtered/narrowed by Program type, Reexamination Month, and Region. Use this report to view the results of SSA Identity Test and EIV Pre-Screening Test for a household member.
<ul style="list-style-type: none"> • Immigration Report 	Navigates to the page from which the user may launch the Immigration Report. Use this report to view the household members who have an IMS/PIC-assigned alternate identification number (Alt ID), citizenship code of ineligible non-citizen or who are pending verification.
<ul style="list-style-type: none"> • Deceased Tenants Report 	Navigates to the page from which the user may launch the Deceased Tenants Report and allows generation of report based on the Program type, Reexamination Month, and Region.
<ul style="list-style-type: none"> • Income Discrepancy Report 	Navigates to the Income Discrepancy Report page. Use this page to view Income Discrepancy statistical data for a specified region. Users, with a role assigned based on their need to know, may access household data that will include personal information including SSN.
External Links	
<ul style="list-style-type: none"> • DHS SAVE System 	An external link (http://www.uiscis.gov/portal/site.usc) navigating the user to the U.S. Citizenship and Immigration Services (UCIS) Verification Information Logon Page for the SAVE System.
User Manual	Navigates to the EIV User Manual. The manual may be downloaded or printed from here.
Get Adobe Acrobat Reader	Opens Web page (external website link) from which Adobe Acrobat reader may be downloaded. A copy of the Acrobat reader must reside on your PC in order to view the User Manual.

3.2.4 User Name

The logged in user name will be displayed on top of the navigation panel as illustrated below.

3.2.5 Standard Features

EIV has the following standard features:

- Masking of Date of Birth
- Masking of Social Security Number
- Sorting capability
- Pagination capability
- Privacy Act Statement
- EIV User Identification
- Printer- friendly version
- Download to Excel

Masking of Date of Birth

To maintain tenant privacy, the date of birth information is masked. The masking replaces the month and day values with an (X), displaying only the year value for verification purposes. For example, if a tenant's Date of birth is 06/06/1949, EIV will display the date of birth as, XX/XX/1949.

Masking of Social Security Number

To maintain Tenant privacy, the Social Security Number information is masked except in the identity verification report and income discrepancy report. The masking replaces the first five digits of the SSN with an asterisk (*), displaying only the last four numbers for verification purposes. For example, if a tenant's SSN is 999-99-9999, EIV displays the number as ***-**-9999. Only groups judged to need access to income information along with personal identifiers are given access to the household level of the Income Discrepancy Report. Reasons for access are that the groups either need the information for further research of the tenant's actual income or investigation to validate a large apparent discrepancy. All others have access only to the summary level, which is required for income discrepancy analysis.

Sorting Capability

The user interface equips most reports with sort icons that give the user control over the way the information on the table is displayed. For example, on the Income Discrepancy Report, the values displayed on the columns can be sorted. Adjacent to the column title is a pair of triangular icons used for this sorting functionality. Clicking the top triangle will rearrange the column in an ascending order

(A-Z), while clicking the bottom triangle will rearrange the column in a descending order (Z-A). The sorting action will sort the whole population of the records in the search result and will display the information in groups of 50 per page.

Pagination Capability

Search results are displayed in groups of 50 records per page. Where there are more than 50 records in the search results, EIV has links to the other groups of records through the Next Group link. Navigation to the next group of pages, previous group of pages, first page and last page of the search results are provided to allow the user to access different sets of search results.

Privacy Act Statement

The Privacy Act Statement “**Confidential Privacy Act Data. Civil and Criminal penalties apply to misuse of this data.**” is displayed on the screen and printed on each page of reports containing household and income information.

EIV User Identification

As a security measure, printer-friendly report displays and output, list at the bottom of each page, the name and user ID (partial, with first 3 characters masked) of the user who requested it.

Printer-Friendly Version

The System provides printer-friendly versions for most reports. The printer-friendly version of a report may be accessed by clicking the **Printer-Friendly Version** link, provided just below the header section of the online report. When the link is clicked, the system opens a pop-up window displaying the printable view of the online report. The report may be printed by clicking the **Print** button, provided in the pop-up window.

Download to Excel

The system provides the option to download many online reports into Microsoft Excel format spreadsheets. Users may download the report by clicking the **Download to Excel** link provided below the header section of the online report. When clicked, the system provides user with a download dialogue box. Based on the user selection, either the report is downloaded and saved or opened as a temporary Excel file.

3.3 System Modules

3.3.1 Debts Owed to PHA's and Terminations Module

The Debts Owed to PHA's and Terminations module allows users to access information concerning former tenants who left owing a debt to a PHA or who had their voucher terminated for cause.

The EIV online system allows EIV PIH users to access the following reports under this module:

- Search for Former Tenant
- Enter / Update Information (only users with the PHA - Program Administrator role*)
- Debts Owed to PHA's and Terminations Report

Every night, EIV calculates and generates the Debts owed to PHA's and Terminations Report data automatically.

Section 4.1 of this document provides the full description of Search for Former Tenant, Enter/ Update Information, and Debts Owed to PHA's and Terminations Report.

* The Enter/ Update Information function is available ONLY at the PHA level, for the users with Program Administrator role.

3.3.2 Income Information Module

The EIV online system allows EIV PIH users to access income and benefits information collected from NDNH and SSA.

A PIH user may search for income information through the following options:

- By Head of Household Information
- By Reexamination Month
- New Hires Report

Section 4.2 of this document describes the search and access of income information for PIH tenants by Head of Household, by Reexamination Month and New Hires report.

3.3.3 Income Discrepancy Report Module

The Income Discrepancy Report compares the tenant's projected income as reported on form HUD-50058 to the actual income data compiled by EIV from NDNH and SSA.

Each weekend, EIV runs a Batch process that calculates and generates updated Income Discrepancy Report data. Data included in the Income Discrepancy Report is based on a set of pre-determined discrepancy comparison criteria. Once calculated, income discrepancy data will remain in the EIV database until the next scheduled calculation date. Out-of-date data are purged during the calculation process. This means that if you need an Income Discrepancy Report from the current week to place in the file in support an action, you must print that report during the same week, before the data are updated.

Section 4.3 of this document describes the income discrepancy calculation and the generation of Income Discrepancy report.

3.3.4 Verification Reports Module

The EIV online system allows EIV PIH users to access the following verification reports:

- Existing Tenant Search
- Multiple Subsidy Report
- Identity Verification Report
- Immigration Report
- Deceased Tenants Report
- Income Discrepancy Report

Section 4.4 of this document provides full description of the Existing Tenant Search, Multiple Subsidy Report, Identity Verification Report, and Deceased Tenants Report.

3.4 Practices to be followed when working with EIV

3.4.1 Protecting Privacy Act Information

Because EIV contains sensitive Privacy Act information, it is extremely important that you avoid leaving the system, printouts or downloads containing personal information unattended at your desk or where they may be seen if you have visitors. If you are done working using EIV for the day or if you will not need it for a while, the best practice is to close the browser window and either file or shred any printed output containing personal information. The easiest way to distinguish printed output containing Privacy Act information from summary reports is that the printouts containing Privacy Act information have the Privacy Act warning at the bottom of each page.

All HUD laptop users are required to have McAfee Disk Encryption installed. The same software will be being installed on HUD PC's. McAfee Disk Encryption will encrypt files being saved to portable media including USB drives, CDs, DVDs and external hard drives.

PHA users should avoid putting EIV reports with personal information or extracts of EIV reports containing personal information on laptops and other portable media and never unless that media is protected by software complying with the FIPS 140-2 encryption standard. A National Institute of Standards and Technologies list of vendors with validated FIPS 140-2 software may be found at <http://csrc.nist.gov/groups/STM/cmvp/documents/140-1/1401vend.htm>. PKZip 12, also used by HUD, has a compliant encryption option.

It should be kept in mind that IMS also contains information protected by the Privacy Act, so the same rules and practices apply.

3.4.2 Shifting Between EIV and other WASS Systems

If you need to exit EIV to work in another WASS system such as IMS/PIC, click on the **Back to Secure Systems** link to log out of EIV as shown below. This will bring you to the WASS Main Menu from which you may access other WASS systems to which you have been granted access. When you are done working in another system, from the WASS main menu, click on the **Enterprise Income Verification (EIV)** link and a new session of EIV will be opened.

3.4.3 If You Need to Leave Your Desk

Please do not leave your PC unattended with either EIV or WASS active. If WASS is active, someone can reenter EIV or access another WASS system to which you have access merely by clicking on the WASS link. If you intend to return to EIV or another system accessed through WASS, please activate a screen saver while you are away from your desk or if you have visitors. However, if you do not return within 30 minutes, your access to EIV and to WASS will have timed out.

3.4.4 When You Are Done Working with EIV

When you are done working in EIV, and if you do not intend to work in another WASS system, it is important to exit both EIV and WASS by closing the browser. This may be accomplished by clicking on **Back to Secure Systems** from the top of the left-side menu and, once at the Secure Systems page, clicking on the **Logout** button and then clicking on **OK**. However, it is far simpler to close the browser

window by clicking on the “X” in the upper-right-hand of the browser window. This may be done from within EIV.

3.4.5 It is Your Responsibility to Protect EIV

Please remember that if you do not close the browser window to exit from EIV and WASS, those systems remain active for 30 minutes and it is possible to access EIV or other systems again without entering a password.

If you do not protect the system access that you have been granted through your WASS ID, you run the risk of being held accountable for what someone else may do.

4.0 USING THE SYSTEM (ONLINE)

4 USING THE SYSTEM (ONLINE)

This section provides a detailed description of Debts Owed to PHA's and Terminations, Income Information, and Verification Reports modules available via EIV online.

4.1 Debts Owed to PHA's and Terminations Module

Under the **Debts Owed to PHA's and Terminations** Module, the following options are available

- Search for Former Tenant
- Enter/Update Information (users with the PHA - Program Administrator role)
- Debts Owed to PHA's and Terminations Report

4.1.1 Search for Former Tenant

The **Search for Former Tenant** displays the information of an applicant or participant, to determine if the individual owes a debt to another PHA anywhere in the nation, or has been terminated or evicted from the Public Housing and Housing Choice Voucher programs

The former tenant's SSN can be searched through the screen shown below. The system also allows you to search with one or a combination of the following fields:

The screenshot shows the 'Enterprise Income Verification' web application. The page title is 'Enterprise Income Verification' and the breadcrumb trail is 'HUD Home > PIH Home > EIV Home > Search > Email'. The main heading is 'Debts Owed to PHAs & Terminations >> Search for Former Tenant'. Below this, there is a search form with the following fields and options:

- Search for Former Tenant - Enter one or a combination of the following data fields and click on Get Information:
- Enter Household Member's Social Security Number: [] - [] - []
- Enter Household Member's Last Name: [] exact match [v]
- Enter Household Member's Date of Birth (mm/dd/yyyy): []
- Buttons: Get Information, Clear
- Red text below the form: * Search by only Date of Birth is not permitted. Enter Last name and Date of Birth.

A left sidebar contains navigation links: Back to Secure Systems, Back to EIV Main Page, Program Office Selection, Debts Owed to PHAs & Terminations, Search for Former Tenant, Enter/Update Information, By SSN, and By Patch.

The resulted report, as illustrated below, will show the Head of Household (HOH) information related to the debt/ termination reasons along with the Household Member List and Notice to Head (including Co-Head, if any).

The report displays the following information for the HOH.

- Date of Initial Entry
- Date of Update
- Updated By
- PHA Code
- Program Type
- PHA Name
- Project
- PHA Address
- PHA Telephone Number
- PHA Fax Number

- Former Tenant Address
- End of Participation Date
- Bankruptcy
- Debt Owed to PHA
- Repayment Agreement
- End of Participation Status
- Default on Repayment Agreement
- Head of Household Name
- Social Security Number
- Date of Birth

The user may print the report by clicking on **Printer Friendly Version** link in the upper-right hand corner of the report. The printer-friendly page contains the first name, last name, and user ID (partial) of the user who is printing the page along with the Privacy Act statement. When finished reviewing the printer-friendly version, click the Close (X) button or File → Close to return to the online page

4.1.2 Enter/Update Information

The Enter/Update Information is used to generate a list of EOP Tenants. Users with the Program Administrator role may use documented sources to enter information concerning the debt balance amount owed to the PHA or concerning the circumstances under which a tenant was evicted or had their lease or voucher terminated.

Two ways data can be entered and updated for EOP families:

- By SSN
- By Batch

When the user clicks on By SSN link the system will display debt owed notice page. Once continued from the notice page, the system will display the following screen:

When the user enters a HOH SSN that has an EOP record and clicks the Get Information button, the following screen will be displayed. If there are no EOP records for the entered SSN, a message will be displayed stating that no records are found

If you search for an SSN for which you are not authorized (outside your office jurisdiction) or the record has been deleted, you will be presented with the following message “You are not authorized to enter/update information for SSN entered”.

The records could have been deleted in two ways.

- Manual deletion of records
- HUD automated deletion program, which deletes all EOP records that are more than 60 days old and have no Debt or Termination information recorded

The clear button will clear the entries entered in the SSN boxes so that new SSN can be entered for the search.

Confidential Privacy Act Data. Civil and Criminal penalties apply to misuse of this data.

4.1.3 Debts Owed to PHA's and Terminations Report

The Debts Owed to PHA's and Terminations Report is used to generate a report concerning former tenants who have a debt balance or who were evicted or owe to PHA's concerning the circumstances under which a tenant was evicted or had their lease or voucher terminated.

4.1.3.1 Report Generation

Every night (as part of nightly Batch processing) a job runs that updates EIV tables with records of tenants with HUD form 50058 EOP actions. The Batch job also produces statistics summarizing the number of households and total debt amount owed to PHA's at different HUD levels. The report covers household members in the households that have had EOP actions dated within 15 months from the date of report generation. In addition to this, HUD now automatically deletes EOP records that are more than 60 days old and no Debt or Termination information is recorded.

4.1.3.2 Debts Owed to PHA's and Terminations Report Filtering

Access the Debts Owed to PHA's and Terminations Report Selection page by clicking the **Debts Owed to PHA's and Terminations Report** link (under the Debts Owed to PHA's and Terminations module) on the EIV Navigation panel. The **Debts Owed to PHA's and Terminations Report – Report Selection** page is shown below. Use this page to filter the scope of the data appearing on the Debts Owed to PHA's and Terminations Report. Once you have selected your filter options, click the **Get Report** button to generate the Debts Owed to PHA's and Terminations Report reflecting your choices.

The screenshot shows the EIV system interface. The top navigation bar includes 'HUD Home', 'PIH Home', 'EIV Home', 'Search', and 'Email'. The main heading is 'Enterprise Income Verification'. Below this, the page title is 'Debts Owed to PHAs & Terminations Report >> Report Selection'. The 'Select Program Type' section has a dropdown menu set to 'All PIH Programs'. The 'Select Region' section has radio buttons for 'HUD HQ', 'STATE', 'HUB', 'FO', 'TARC', and 'PHA'. Each radio button is followed by a dropdown menu: 'STATE' is set to 'ALL', 'HUB' is set to '10HSEA Seattle Hub', 'FO' is set to 'OAPH SEATTLE HUB OFFICE', 'TARC' is set to 'PB1 Cleveland TARC', and 'PHA' is set to 'AK001 - AK001 AHFC'. A 'Get Report' button is located at the bottom of the form. A callout box on the left side of the page points to the 'Debts Owed to PHA's and Terminations Report' link in the navigation menu.

The **Debts Owed to PHA's and Terminations Report – Report Selection** page provides the following filtering options:

Program Type – This option provides the capability to filter data by Program Type – All PIH Programs, Public Housing or Section 8. By default, the value is set to **All PIH Programs** when the page displays.

Region – This option controls the scope of the data included on the report. Report data are aggregated by security level for the entire HUD hierarchy, i.e., HUD HQ, States - all or individual, HUB, TARC, Field Office, and PHA. The combination of your assigned role and security level determines the extent of the data that will be accessible.

Your role assignment provides you with access to up to six organizational levels. Only those that you are permitted to access are displayed on the page when it opens. Only one organization level option can be selected at a time.

The following region options are available:

- **HUD HQ** – This option provides those with IDs of Headquarters scope with access to nationwide data and the option to select data at all levels. The option as shown on the screen below only is displayed if your role assignment provides you with access to national data at all levels.

- State** - This option provides full access for those with IDs of Headquarters scope. The option as shown on the screen below only is displayed if your role assignment provides you with the access to national data at all states.

A drop-down list provides you with all the available State selection options. The ALL option will enable you to pull the report for all the states. To select an individual state, scroll through the list and highlight one to select it. Only one selection can be active at a time.

- HUB** – This option provides access to the data associated with Field Offices and the PHA’s within their jurisdiction. For example, if your security level and role assignment permit you to access data associated with a HUB (e.g., 2APH New York HUB Office), you will be able to view data for one, several, or all of the Field Offices and PHA’s associated with that HUB. A drop-down list provides you with all the available HUB selection options. The list will include only the HUB that your security level and role allows you to access.
- Field Office** – This option provides access to the data associated with Field Offices and the PHA’s within their jurisdiction. The scope of access is governed by your security level and role assignment. A drop-down list provides you with the available Field Office selection options. The list will include only those Field Offices that your security level and role allow you to access.
- TARC** – This option provides access to the data associated with TARC’s and the PHA’s within their jurisdiction. The scope of access is governed by your security level and role assignment.
- PHA** – This option provides access to the data associated with a PHA. The scope of access is governed by your security level and role assignment. If your access is restricted to this level, the report selection page would appear as follows:

A drop-down list provides you with all the available PHA selection options. The list will include only those PHA's that your security level and role allow you to access. Scroll through the list to locate you the desired PHA location. Only one selection can be active at a time. PHA Users who need access to information concerning tenants in another PHA may request and gain that access with the written approval of the manager of that PHA.

4.1.3.3 Debts Owed to PHA's and Terminations Statistics Report

All details appear on the Debts Owed to PHA's and Terminations Report page. Although the scope of report detail may vary, the same page format is used to convey the data

The results data are displayed in a tabular format. Each table (referred to as a Statistics table) is labeled to indicate the security level for which the data applies. There is a record in the table for each entity included in the results data.

The Debts Owed to PHA's and Terminations Report page includes a separate table for the selected region (parent) as well as any subordinate organizations (children). The scope of detail available to you is based on your security level and role assignment. For example, if your access is limited to an individual PHA, you will only be able to view the statistics and detail associated with the assigned PHA. In contrast, if your access includes the entire HUD hierarchy, you will be able to view the statistics and detail associated with every organizational security level.

When more than one level of detail is available, the highest level is displayed first, on the page. Each successive level of detail is displayed in a separate table. The appearance of a hypertext link (in red and underlined) in a Statistics table indicates that an additional level of detail is available with data. Click the hyperlink to view the next level of detail. For example, at the Field Office level, there is a record for each associated PHA. Click on the appropriate PHA, if it has a hyperlink, to view the associated detail.

On the top statistics table you will find the following information:

Office – Shows the organization level chosen from the selection page

- HUD Headquarters
- STATE with the State name selected or ALL
- HUB with the HUB name selected
- TARC with TARC name selected
- Field Office with the Field Office name selected
- PHA with the PHA name selected

Program Type – Shows Program Type you have selected in the search criteria for this report. If 'All PIH Programs' is selected from the search criteria, statistics are displayed in 3 columns – ALL, Public Housing, and Section 8.

Number of Reported EOP Families– Shows the total number of households with an EOP 50058 dated within last 15 months. Please note that any EOP records that do not have recorded Debt or Termination information will be removed from the system and those records will not appear here.

Number of Reported Families with Debts Owed to PHA's & Terminations – Shows the total number of families who owe debt to PHA's for the selected region and program type.

Percentage of Reported Families with Debts Owed to PHA's & Terminations – Shows the percentage of families who owe debt to PHA's for the selected region and program type.

Total Amount of Debt Owed to PHA – Shows the amount of debts owed to PHA's for the selected region/level.

On the bottom statistical table shows the following information:

Security Level – In this column you will find a record for each entity associated with the level next to the selected region (e.g., if the region selected is HUD HQ, the next level is HUB). You can click the hypertext link associated with the security level label to view additional detail as appropriate. Possible entities appearing in this column include the following:

- HUB
- Field Office
- PHA
- Individual Households

Program Type – If 'All PIH Programs' was selected from the search criteria, 3 rows of statistics will be displayed for each sub-organization i.e., for ALL, Public Housing, and Section 8.

Total Number of Reported EOP Families – Number of EOP families for the sub-region.

Number of Reported Families with Debts Owed to PHA's & Terminations – Shows the total number of families (households) that owe debt to PHA's for sub-region.

Total Amount of Debt Owed to PHA – Shows the amount of debts owed to PHA's for the sub- region.

Note: The last row displays the totals for each of the data columns

4.1.3.4 Debts Owed to PHA's and Terminations Statistics Report Examples

Please use this section to get familiar with the look and feel of the *Debts Owed to PHA's & Terminations Report*. Notice there is a separate section for each security level view of the report.

4.1.3.4.1 HUD HQ Level View

When viewed from the HUD Headquarters level, the Debts Owed to PHA's and Terminations Report includes a summary at the top and totals at the bottom. To view data for a particular HUB, click the hyperlink associated with it.

The screen below is an example of HUD Headquarters Statistics Report when **All PIH Programs** is selected from the Program Type drop-down list.

The report displays the following information for each former program participant who owes debt to PHA's or has been terminated or evicted from the Public Housing and Voucher Programs.

- HOH SSN
- HOH Name
- Debt Owed to PHA
- Bankruptcy
- Reason for Termination
- Project

The SSNs in the report are masked with last four digits revealed.

The report has the standard features of *Printer-Friendly Version*, *Download in Excel*, *Pagination* and *EIV User Identification* as stated in section 3.2.5.

4.2 Income Information Module

A PIH user may search for income information through the following options:

- By Head of Household
- By Reexamination Month
- New Hires report

4.2.1 Income Information - By Head of Household

4.2.1.1 By Head of Household Search Option

This function enables an authorized user to access the income records for current tenants, by entering personal identifiers for the Head of Household. A user can access tenant's income data using one of the following query options:

- Search by Head of Household Social Security Number
- Search by Head of Household Last Name and Participant Code
- Search by Head of Household Date of Birth and Participant Code

(Note: Search results vary based upon the role/roles assigned to the user.)

HQ, HUB's, TARC's, and Field Offices users are restricted to their respective areas for tenant information. PHA users (which may include PHA contractors) may gain access to information pertaining to more than one PHA by providing documentation signed by the manager of the additional PHA(s).

- **Head of Household Social Security Number** – Because a Social Security Number is a unique identifier, no other information is required to execute a search.
- **Head of Household Last Name** – **MUST** be accompanied by a Participant Code. User can perform search based on 2 options: exact match by providing the complete Last Name, **OR** begins with by providing the beginning letters (one or more) of the household member's Last Name.
- **Head of Household Date of Birth** – **MUST** be accompanied by a Participant Code (which is the same as PHA Code).
- **Head of Household Participant Code** – A Participant Code **must** be selected when searching by Last Name or Date of Birth. Use the drop-down list to select the appropriate Participant Code.

To search for income data for a household, please follow these steps:

1. Click the **By Head of Household** Information link in the left-hand navigation panel.
2. Choose a query criterion and fill in the fields accordingly.
3. Click the **Get Information** button.

(Note: Searching just by the Participant Code does not yield any data and should be selected in combination with HOH's Last Name or HOH's Date of Birth.)

4.2.1.2 By Head of Household Search Result

If you search by HOH's Last Name or Date of Birth, the **Search Results** page is displayed with the list of households meeting the selection criteria entered, as shown below.

Enterprise Income Verification HUD Home PIH Home EIV Home Search Email

Income Information >> By Head of Household >> Search Results

Search Result for Last Name Beginning with ABA under Participant Code NY005
 Click the head of household's name to view the Head of Household Summary Report page.
 The month and day values in the Head of Household Date of Birth field have been masked for security reasons.

4.2.2 Income Information - By Reexamination Month

4.2.2.1 By Reexamination Month - Search options

This function enables authorized users to access third-party income records for existing tenants based on the tenant's Reexamination month.

When viewing or requesting third-party income records, it is important to remember that your search results vary depending on your authorizations (e.g., PHA or HQ security level).

Note: HQ, HUB's, TARC's, and Field Offices are restricted to their respective areas for information. PHA users, if they qualify, may gain access to more than one PHA.

Note: PHA users need have development assigned to them (individual ones or all) under their PHA to access Income Information by Re-Examination Month.

To search for income data based on the Reexamination month, follow these steps:

1. Click the **By Reexamination Month** link in the left-hand navigation panel.

The **Search by Reexamination Month** page as shown below is displayed.

Enterprise Income Verification HUD Home PIH Home EIV Home Search Email

Income Information >> By Reexamination Month

Select Program Type, Reexamination Month and Participant Code. Click Get Report to retrieve Summary Reports:

Select Program Type: [Dropdown] All PIH Programs

Select Reexamination Month: [Dropdown] October

Select Participant Code: [Dropdown] Select a Participant Code

Get Report

Navigation Panel:

- Back to Secure Systems
- Back to EIV Main Page
- Debts Owed to PHAs & Terminations
- Search for Former Tenant
- Debts Owed to PHAs & Terminations Report
- Income Information
 - By Head of Household
 - **By Reexamination Month**
 - New Hires Report
- Verification Reports

By Reexamination Month link

2. Select from the following search criteria:

- **Program Type** (All PIH Programs, Public Housing, Section 8)
- **Reexamination Month**

- **Participant Code** (the values in the drop down menu are restricted according to your role and organization level and role. You MUST select a Participant Code to search.)
3. Click the **Get Report** button.

4.2.2.2 By Reexamination Month Search Result

A summary of the search results is displayed in the lower half of the as shown below.

The screenshot shows the 'Enterprise Income Verification' web application. The breadcrumb trail is 'Income Information >> By Reexamination Month >> Summary Reports'. The search filters are: Select Program Type: All PIH Programs, Select Reexamination Month: All, Select Action Type: All, and Select Participant Code: NC043 Troy Housing Authority. A 'Get Report' button is visible. Below the filters is a table titled 'Summary Reports as of June 30, 2012'.

Report Type	Number of Households	Number of Members
Failed EIV Pre-Screening Report	4	4
Failed SSA Identity Test Report	1	1
Income Discrepancy Report	1	--
Income Report	97	151
New Hires Report	4	4
No Income Report	4	12

The Summary Reports shows the number of households and family members under the Income Report, New Hires Report, Income Discrepancy Report, Failed Verification Report, Failed EIV Pre-Screening Report, and No Income Report for the selected Program Type, Reexamination Month and Participant Code. The following information is displayed:

- Report Type
- Number of Households
- Number of Household members

Please refer to Section 4.2.2.3 for instructions for the By Reexamination Month Report Summary.

4.2.2.3 By Reexamination Month Summary Reports

As is shown above, the Reexamination Month Summary Reports page provides hyperlinks (in red with underlines) to six reports:

- [Income Report](#)
- [New Hires Report](#)
- [Income Discrepancy Report](#)
- [Failed SSA Identity Test Report](#)
- [Failed EIV Pre- Screening Report](#)
- [No Income Report](#)

The page displays the number of households and number of members. If there are no households for any of the reports, the message **"No record has been found for the selection criteria"** is displayed. If at least one household is included in the search results for a report type, the report name becomes an active link that would allow you to view the summary and detail information for all the included households.

Important:

- You must select a reexamination month. When the “All” option is selected, the link will be provided on the report only if the number of households count is less than 1000. This restriction has been put in place because searches with larger results will time out before they can complete.
- If the report selection results in zero records for any of the six reports, no link will be displayed for that report

4.2.2.3.1 Income Report

1. To view the list of tenants with income information, click the **Income Report** link under the **Report Type** column.
2. Once you click on the link, the **Income Report** screen is displayed as shown below.

Income Information >> By Reexamination Month >> Reports Summary >> Summary Income Report

Summary Income Report as of June 30, 2012

 Report Generated By - HEIXXX FIRST - HEIV08 LAST - uiv

The **By Reexamination Month – Summary Reports - Income Report** page is displayed with two sections:

- Income Report Summary
- Detail List (with tabs for Summary Reports and Detail Reports)

The **Income Report Summary** section has the following information:

- Participant Code: (with PHA Code and PHA Name)
- Program Type: (with Program Type)
- Reexamination Month: (with Month)
- Action Type: (With Type)
- Households with Income: (Number of Households)

The Detail List section contains the **Summary Reports** and **Detailed Reports** as two different tabs.

The **Summary Reports** (default tab) shows the following fields:

- Head of Household (HOH) SSN
- HOH Last Name
- HOH First Name
- HOH DOB

- Project (applicable to Public Housing households and displays Project Name and Project Number)
- Unit Code
- Unit Address

This report also provides sorting based on **HOH Last Name** and **Project** fields. The screen displays the Privacy Act statement as described in Section 3.2.5.

3. When **Public Housing** is selected as Program Type, the Income Report provides the option to select a specific Project from the drop-down list as shown below in order to filter the list of households based on the selected Project.

The screenshot shows the 'Enterprise Income Verification' interface. At the top, there are navigation links: HUD Home, PIH Home, EIV Home, Search, and Email. The breadcrumb trail reads: Income Information >> By Reexamination Month >> Reports Summary >> Summary Income Report. The main content area displays a 'Summary Income Report as of June 30, 2012' with the following details:

Participant Code:	NC043 Troy Housing Authority
Program Type:	Public Housing
Reexamination Month:	All
Action Type:	All
Households With Income:	1

Below the report, there is a search bar for 'HOH Last Name' with a dropdown menu for 'Project' set to 'All'. A callout box labeled 'Project Drop-down list' points to this dropdown menu. The search results show '1 - 1 of 1 Households' and a table with the following data:

HOH SSN	HOH First Name	HOH Last Name	HOH DOB	Project	Unit Code	Unit Address
***-**-7859	WATANA	ALCORN	09/11/1973	NC043000001 PROJECT UNNAMED	101029	TU OIBZMTU 742 101029, TROY NC 27371

4. You can look at the information for an individual by clicking on the link on the SSN as illustrated below.
5. You can search sections of the report output by clicking on the first letter of the Last Name as shown below:

Search By HOH Last Name : [A](#) [B](#) [C](#) [D](#) [E](#) [F](#) [G](#) [H](#) [I](#) [J](#) [K](#) [L](#) [M](#) [N](#) [O](#) [P](#) [Q](#) [R](#) [S](#) [T](#) [U](#) [V](#) [W](#) [X](#) [Y](#) [Z](#) [All](#)

Employment Information

You may print a single household member income Report using the **Print Household Member Information** link as highlighted in the above screen shot.

You may download the Summary Reports data in Excel. This download option is particularly useful for users at PHA's with a large volume of tenant reports or who wish to load the data into another program such as Microsoft Access. Please refer to Appendix B for instructions on how to download Excel-format files.

The Excel spreadsheet will contain the same information (HOH SSN, HOH Last Name, HOH First Name, HOH DOB, Project, Unit Code, and Unit Address) as shown on the EIV online application screen.

6. From this page, you can acquire an income control number (ICN) as described in Section 4.2.3.3. The **Printer Friendly page with ICN** link provides the users with the capability to print with the income summary report with an associated ICN for each household in the report. The First name, last name, and partial User ID of the logged-in user who is printing the page comes up along with the Privacy Act data on all the pages of the report.
7. When back in the EIV online application, click the **Detail Reports** tab and the screen shown below is displayed.

- Head of Household's Name
- Head of Household's Social Security Number (masked for privacy)
- Head of Household's Date of Birth (Day and Month are masked)
- For each family member in the household:
 - Family Member Name
 - Family Member SSN
 - Date of Birth
 - Relationship
 - Verification Status
 - Employment Information
 - Wages
 - Unemployment Benefits
 - Social Security Benefits
 - Dual Entitlement
 - Medicare Data
 - Supplemental Security Income Benefits
 - Disability

8. When **Public Housing** or **Section 8** is selected for Program Type on the Summary Report page, the report is filtered to display only that data.
9. In the Income Detail Report Page, Click the Printer-friendly Version link to generate a paper version of the Income Detail Report page. The system opens a pop-up window displaying the printable view of the income detail report. Click the browser Print button to launch the Print dialog box. The page printed using the Printer-Friendly link or the equivalent EIV screens contains personal tenant information. As result, the report or screen also display the first name, last name, and User ID of the logged-in user who is printing the page along with the Privacy Act statement described in Section 3.2.5.
10. If there is a debt owed/termination record within EIV for a household member, the system will display a warning message in red text on the household income report for that household member.

Note: SSN Masking – Due to privacy concerns, only the last 4 digits of SSNs are displayed (***-**-1234) or contained in the download to Excel for this report.

4.2.2.3.2 New Hires Report

1. To view the list of households with members where at least one member has a New Hire record for the selected month or period, click the **New Hires Report** link under the **Report Type** column.

2. When the following link is clicked: **By Reexamination Month – Reports Summary – New Hires Report**, a screen with 2 sections is displayed:

- New Hires Summary Report
- Summary Reports list

The **New Hires Summary Report** section has the following information:

- Participant Code: (with PHA Code and PHA Name)
- Program Type: (with Program Type)
- Reexamination Month: (with Month and Year)
- Period Reviewed: New hires records received within 180 days of the date when the weekend Summarization job ran, unless the previous job(s) failed in which case the period covered is increased to cover records that otherwise would not be available.
- Households with New Hires: (number of Households with new hires reported within the period reviewed.)
- Members with New Hires: (number of Household Members with new hires reported within the period reviewed.)

8. When **Public Housing** or **Section 8** is selected from the Program Type on the Summary Report page, the same selection is carried over to the Detail Reports page.

Note: SSN Masking – Due to privacy concerns, only the last 4 digits of SSNs are displayed (***-**-1234) for this report or contained in the download to Excel format.

4.2.2.3.4 Failed SSA Identity Test Report

1. To view the list of tenants for whom SSA was unable to provide income or benefit information and the reason for the missing information, click the **Failed SSA Identity Test Report** link under the **Report Type** column.
2. When the link is clicked, the **By Reexamination Month – Reports Summary - Failed SSA Identity Test Report** page is displayed with 2 sections:
 - Failed SSA Identity Test Summary
 - Summary Reports list

The screenshot displays the 'Enterprise Income Verification' interface. The top navigation bar includes links for HUD Home, PIH Home, EIV Home, Search, and Email. The main content area shows a breadcrumb trail: 'Income Information >> By Reexamination Month >> Reports Summary >> Failed SSA Identity Test Report'. Below this, a summary table provides details for the report as of September 30, 2012:

Participant Code:	AL001 BIRMINGHAM
Program Type:	All PIH Programs
Reexamination Month:	October
Action Type:	All
Number of Households with SSA Screening Deficiency:	3

Options for 'Download in Excel' and 'Printer Friendly Version' are available. Below the summary is a search bar for HOH Last Name with an alphabetical index (A-Z and All). The results section shows '1 - 3 of 3 Households' and lists the following failed verification reports:

HOH SSN	HOH Name	HOH DOB	Member SSN	Member Name	Member DOB	Failed Verification Description	Date of Verification
***-**-8881	BMTUOVK JYTH	11/10/1989	***-**-6666	FMEKEA ZYUZYFD	03/13/2007	Verification failed - Date of birth matched, but surname did not match with SSA records	12/02/2011
***-**-4987	IKEVTMB ZYULEG	01/31/1981	***-**-5786	ZJEMC ZYTOMBK	12/14/2011	Verification failed - SSN not found in SSA records 421675186	05/02/2012

The **Failed Verification Report Summary** section has the following information:

- Participant Code: (with PHA Code and PHA Name)
- Program Type: (with Program Type)
- Reexamination Month: (with Month and Year)
- Action Type: (with Action Type)
- Number of Households with SSA Screening Deficiency: (Number of Households)

The second section contains the list of households and household members that failed the SSA verification. It shows the following information:

For Head of Household:

- HOH SSN
- HOH Name
- HOH DOB
- Project (applicable to Public Housing households and displays Project Name and Project Number)

For each family member that failed verification:

- Member SSN
- Member Name
- Member DOB
- Failed Verification Description

The Failed Verification Report has pagination capability and displays the Privacy Act statement as described in Section 3.2.5.

- When **Public Housing** is selected from the Program Type, the Failed Verification Report provides the option to select a specific Project from the drop-down list as shown below in order to filter the list of households based on the selected Project.

Member SSN	Member Name	Member DOB	Failed EIV Pre-screening Description	
***-**-4775	FMEVMFKMN_Q1VME	10/26/2005	Failed effective date check...	

The **Failed EIV Pre - Screening Report Summary** section has the following information:

- Participant Code: (with PHA Code and PHA Name)
- Program Type: (with Program Type)
- Reexamination Month: (with Month and Year)
- Action Type: (with Action Type)
- Number of Households Failed EIV Pre- Screening Deficiency: (Number of Households)
- Number of Households with Failed Effective Date Check (Overdue Annual Reexam) Deficiency: (Number of Households)
- Number of Households with Failed SSN Check (Invalid SSN) Deficiency: (Number of Households)
- Number of Household Members with Failed SSN Check (Invalid SSN) Deficiency: (Number of Members)

The second section contains the list of households and household members that failed EIV Prescreen. It shows the following information:

For Head of Household:

- HOH SSN
- HOH Name
- HOH DOB
- Project (applicable to Public Housing households and displays Project Name and Project Number)

For each family member that failed EIV Prescreen:

- Member SSN
- Member Name

- Member DOB
- Failed EIV Pre- Screening Description

The Failed EIV Pre-Screening Report has pagination capability and displays the Privacy Act statement as described in Section 3.2.5.

3. When **Public Housing** is selected from the Program Type, the Failed EIV Pre-Screening Report provides the option to select a specific Project from the drop-down list as shown below in order to filter the list of households accordingly.

Income Information >> By Reexamination Month >> Reports Summary >> Failed EIV Pre-Screening Report

4. The link to Printer Friendly version of the Failed EIV Pre-Screening Report is also provided. When clicked, the system opens a pop-up window displaying the printable view of the Failed EIV Pre-Screening Report. The report can either be printed by clicking **Print** button provided in the pop-up window or by File>>Print to launch the Print dialog box. This page also contains the first name, last name, and partial user ID of the user who is printing the page along with the Privacy Act statement as described in Section 3.2.5. When finished requesting the printed version of the page, click the Close (X) button or File → Close to return to the Failed EIV Pre-Screening Report page.
5. You may download the Summary Reports data in Microsoft Excel. This download option is particularly useful for PHA's with a large volume of tenant reports or who wish to load the data into another program such as Microsoft Access.

Please refer to Appendix B for instructions on how to download Excel-format files.

The Microsoft Excel spreadsheet will contain the same information applicable the report as filtered and displayed on screen -- Project Name and Project Number, Member SSN, Member Name, Member Date of Birth, and Failed Verification Description.

Appendix A provides a complete listing of the error messages that may be generated and displayed by the system.

Note: SSN Masking – Due to privacy concerns, only the last 4 digits of SSNs are displayed (***-**-1234) for this report or contained in the download to Excel format.

4.2.2.3.6 No Income Report

1. To view the list of tenants whose identities were validated by the SSA but did not or have never received income or SS/SSI benefits; please click the **No Income Report** link under the **Report Type** column.
2. When the link is clicked, the **By Reexamination Month – Reports Summary -No Income Report** page is displayed with 2 sections:
 - o No Income Summary
 - o Summary Reports list

You can search sections of the report output by clicking on the first letter of the Last Name as shown below:

- Participant Code: (with PHA Code and PHA Name)
- Program Type: (with Program Type)
- Reexamination Month: (with Month and Year)
- Households With No Income: (Number of Households)

The second section contains the list of households with no income. The list shows the following information:

- HOH SSN
- HOH Name
- HOH DOB
- Project (applicable to Public Housing households and displays Project Name and Project Number)
- Unit Code
- Unit Address

The No Income Report has pagination capability and displays the Privacy Act statement as described in Section 3.2.5.

- When **Public Housing** is selected from the Program Type, the No Income Report provides the option to select a specific Project from the drop-down list as shown below in order to filter the list of households based on the selected Project.

- You may download the Summary Reports data in Microsoft Excel. This download option is particularly useful for PHA’s with a large volume of tenant reports or who wish to load the data into another program such as Microsoft Access.

Please refer to Appendix B for instructions on how to download Excel-format files.

The Microsoft Excel spreadsheet will contain the same information (HOH SSN, HOH Name, HOH DOB, Project - applicable to Public Housing households and displays Project Name and Project Number, Unit Address) as shown on the EIV online application screen.

- In addition, a link to access Printer Friendly version of the No Income Report is provided. When clicked, the system opens a pop-up window displaying the printable view of the No Income Report. The report can either be printed by clicking **Print** button provided in the pop-up window or by File>>Print to launch the Print dialog box. This page also contains the first name, last name, and user ID of the user who is printing the page along with the Privacy Act statement as described in Section 3.2.5. When finished requesting the paper version of the page, click the **Close (X)** button or File → Close to return to the No Income Report page.

Note: SSN Masking – Due to privacy concerns, only the last 4 digits of SSNs are displayed (***-**-1234) for this report or contained in the download to Excel format.

4.2.3 Accessing the Household Detail Information

4.2.3.1 Household Detail Information

The Income Information section provides four options for accessing Household Detail Information:

- Through the Income Information – By Head of Household, search by Head of Household’s Social Security Number.
- Through the Income Information – By Head of Household, Search Result and clicking a particular Last Name or First Name from the list of households.
- Through the Income Information – By Reexamination Month – Income Report Summary list and clicking a particular SSN from the list of households.
- Through the Income Information – By Reexamination Month – Income Discrepancy Report Summary list and clicking a particular SSN from the list of households

As result of use of the first two options described above, tabs for the Summary Report, Certification Page, Income Report and Income Discrepancy Report are displayed as shown below:

4.2.3.1.1 Household Summary Report

The Household Summary Report as shown below is displayed under the **Summary Report** tab and shows information on the Head of Household (Name, Social Security Number, Date of Birth, Program Type, Project Name, Unit Address, Participant Code, Annual Reexamination Date, Tenant Data from Form 50058, Most Recent Type of Action, Effective Date) and family members' information (Member SSN, Member First Name, Member Last Name, Date of Birth, Age, Identification Verification Status). The Family Members table, the Identity Verification Status shows one of the following messages:

Message	Description
Verified	Tenant SSN, Last name, and DOB combinations have been verified by SSA
Not Verified	Tenant record has not been sent to SSA for verification yet.
Failed	Tenant SSN, Last name and DOB combination verification failed by SSA.
Deceased	Tenant with SSN, Last name and DOB combination is deceased.

From this page, you can acquire an income control number (ICN) as described in Section 4.2.3.3.

4.2.3.1.2 Income Report

The Income Report is displayed under the Income Report tab and shows the following information for all members of the household, where available:

- Employment Information
- Wages Table
- Unemployment Benefits Table
- Social Security Benefits Table
- Dual Entitlement Table
- Medicare Data Table
- Supplemental Security Benefits Table
- Disability Table

The last 8 quarters for wages and unemployment benefits and the last 8 changes for Social Security benefits and dual entitlement/pending dual entitlement data are displayed by the system. These components are described below.

The **Wages and Benefit Report for Household of <Name>** table displays the features associated with the Head of Household: PHA Code, PHA Name, Annual Reexamination Date, Address, Most Recent Type of Action, Program Type, Project, Form 50058 as of, Effective Date, Head of Household <Name>, Social

Security Number (masked for privacy) and Date of Birth (masked for privacy).

Employment Information			

Summary Section

The **Employment Information** table includes the tenant’s employment Information (W-4), if available. If no data are available, the text “EIV received no Employment (W4) data.” is displayed. The table presents the Hire Date, Hire State, the employer’s Federal Employer Identification Number (FEIN), Employer Name and Address, and the Date Received by EIV. It should be noted that for all types of EIV data (not just W-4 data), often the usefulness of employer information may be problematic in that the entity that reports may be a corporate headquarters, payroll office or accounting firm located far from the place of employment.

Household Member:	zmrgizsh BVOIVWWZ	SSN:	***-**-2878

Employment Information

The **Wages** table includes all types of income. If the Tenant is not employed, the text “EIV received no income data” is displayed. Wage information is aggregated according to the quarter in which the wage was received. The table includes a record for each reporting quarter. The most recent quarter is listed first. The table displays the Pay Period, Amount, the employer’s FEIN, Employer Name and Address, and the Date Received by EIV.

The **Unemployment Benefits** table provides benefit history information. If the Tenant is employed and does not receive unemployment benefits, the text “EIV received no benefit data.” is displayed. There is a record in the table for each benefit period included in the quarterly results. The table displays the Pay Period, Amount, and the Date Received by EIV.

Reference between the gross and net benefit may include the Medicare premium and/or additional deductions, such as garnishments, which are not listed on this report.

Unemployment Benefits		
Pay Period	Amount	Date Received by EIV
Q3 of 2010	\$224.00	11/18/2010
Q2 of 2010	\$0.00	11/18/2010

Wages

Unemployment Benefits

The **Social Security Benefits** table provides information about the current status of this entitlement, including Payment Status Code, Date of Current Entitlement, and Net Monthly Benefit as well as a verification data.

Unlike wage and unemployment records, which are aggregated quarterly by EIV, Social Security records are aggregated by periods of uniform payment status. The beginning and end dates of these benefit records reflect those provided directly from State Verification Exchange System (SVES), with each row indicating a change in entitlement amount or reflect that benefits were not due.

The Lump Sum table provides the accumulated payment for all months through the month preceding the current operating month, including those that precede the eight changes displayed by EIV.

If the Tenant does not receive Social Security Benefits, the text “EIV received no benefit data.” is displayed.

The **Dual Entitlement** table is located directly beneath the Social Security Benefits Table. Despite the name “Dual Entitlement”, a household member may have as many as six entitlements. If the Tenant does not receive any Dual Entitlements, the text “EIV received no benefit data.” is displayed in that section.

If a response for dual entitlements has been received, the table includes a Verification Data column, providing the Claim Number, Payment Status Code, Date of Current Entitlement, Net Monthly Benefit if Payable, and the Payee Name and Address. Directly to the right of the Verification Data column is the Benefit History column, providing a disbursement history by gross amount.

The amount in the Gross Benefit column refers to the total entitlement before applicable deductions. If deductions apply, this figure will be different from the Net Monthly Benefit displayed in the Verification

Data column. The date of the Dual Entitlement benefit records are from the data provided by SSA, with each row indicating a change in entitlement amount or that benefits were not paid.

If the dual entitlement response is pending from SSA, the table includes a Dual Entitlement Response Pending column and the list of Claim Numbers pending receipt of response.

Social Security Benefits		Verification Data		Benefit History	
Payment Status Code:	K7 - Health Insurance benefits (HIB) S/MIB terminated	Date:		Gross Benefit	
Date of Current Entitlement:	11/1994				
Net Monthly Benefit if Payable:	\$298.00				
Payee Name and Address:	YKKS Z TDMGU 0 CSUYS RP NVLYAQUOJ LI				
		Lump Sum			
		Date		Amount	
		03/01/2008		\$0.00	
Date Received by EIV: 04/04/2008					
Dual Entitlement		Verification Data		Benefit History	
Claim Number#:	C2	Date	Gross Benefit		
Payment Status Code:	AD - Adjusted for dual entitlement	12/2007	\$268.00	Benefits not paid	
Date of Current Entitlement:	4/1995	12/2006	\$262.00	Benefits not paid	
Net Monthly Benefit if Payable:	\$298.00	12/2005	\$254.00	Benefits not paid	
Payee Name and Address:	YKKS Z TDMGU 32 OGVGBHMLC AQ EKWNSNCQVX DN	12/2004	\$244.00	Benefits not paid	
		12/2003	\$237.00	Benefits not paid	
		12/2002	\$232.00	Benefits not paid	
		12/2001	\$229.00	Benefits not paid	
		7/2001	\$229.00	Benefits not paid	
Date Received by EIV: 04/04/2008					

The **Medicare Data** table includes a Verification Data column and the Payee Name and Address. To the right of the Verification Data column are the Insurance Premium, Buy-In Start, and Buy-In Stop details.

If the Tenant does not receive Medicare Data, the text “EIV received no benefit data.” is displayed in that section.

Medicare Data		Verification Data		Premium	Buy-in	Buy-in Start	Buy-in Stop
Payee Name and Address:	IMCHZ Y TFXMMDOXA 838 T FBXPEQKN BSN ID EVEDDRAXWO PD	Hospital Insurance:	\$0.00	N	Not Available	Not Available	
		Supp. Med. Insurance:	\$96.40	N	Not Available	Not Available	
Date Received by EIV: 04/02/2008							

The **Supplemental Security Benefits** table includes a Verification Data column, providing information about the current status of this entitlement: Payment Status Code, Alien Indicator, SSI Monthly Assistance Amount (Current), State Supplemental Amount (Current), and the Payee Name and Address. To the right is the Payment History of Net Benefits Paid column, identifying the date and type of monthly supplemental security benefit payments from both Federal and State sources: Date, Federal Amount, State Amount, and Type of Payment.

If the Tenant does not receive Supplemental Security Benefits, the text “EIV received no benefit data” is displayed in that section. The **Disability Table** displays the status “Yes” or “No” and the Onset Date.

4.2.3.2 Printing the Household Information

On the Income Report Page, Click the **Print-All** link to generate a paper version of the consolidated Household Information from the Summary Report tab, Income Report tab and Income Discrepancy Report tab.

The screenshot shows the 'Enterprise Income Verification' interface. At the top, there are navigation links: HUD Home, PIH Home, EIV Home, Search, and Email. Below this, the breadcrumb trail reads 'Income Information >> By Head of Household >> Summary Report'. There are four tabs: 'Summary Report' (selected), 'Certification Page', 'Income Report', and 'Income Discrepancy Report'. A 'Print-All' link is located in the top right corner of the report area, with a callout box pointing to it that says 'Print-All Link'. The main content area is titled 'Head of Household Identifiers' and contains the following information:

Name:	zmrgizsh BVOIVWWZ
Social Security Number:	***-**-2878
Date of Birth (mm/dd/yyyy):	XX/XX/1988
Program Type:	Public Housing
Project:	BLODGETT HOMES
Unit Address:	gh sg0 ghvd 477 JACKSONVILLE FL 32209
Participant Code:	FL001
Annual Reexamination Date:	10/01/2011
Tenant Data from Form 50058 as of:	11/23/2010
Most Recent Type of Action:	1-New Admission
Effective Date:	10/25/2010

Below this is a section for 'Household Members' with a table:

Member SSN	Member First Name	Member Last Name	Date of Birth	Age	Relationship	Identity Verification Status
***-**-2878	zmrgizsh	BVOIVWWZ	XX/XX/1988	23	Head	Verified

The system opens a pop-up window displaying the printable view of the household’s information. When clicked, the system opens a pop-up window displaying the printable view of the Household Information. The report can be printed by clicking the **Print** button provided in the pop-up window. This page printed using the Printer-Friendly link or EIV screens contains the first name, last name, and partial user ID of the user who is printing the page along with the Privacy Act statement as described in Section 3.2.5. When you have finished requesting the printed version of the page, click the pop-up window’s File → Close to return to the Household Income Details page.

4.2.3.3 Acquiring an Income Control Number (ICN)

An Income Control Number (ICN) may be assigned from the Household Summary and Income Record Status page. The ICN is potentially useful as proof that EIV was accessed. The ICN is recommended for use as a marker in the tenant file if EIV material is filed elsewhere. Please follow these steps to generate an ICN:

- Click By Head of Household Information in the left navigation panel, enter the search criteria, and click Search.
- Click on the appropriate tenant record to open the Household Summary and Income Record Status page.
- Click the **Provide ICN** button, appearing on the Household Summary and Income Status Record page below.

4.2.4 Income Information - New Hires Report

The New Report provides statistical information at the HQ, State, HUB, FO, TARC and PHA levels of the number of households and household members with new hires in the last 180 days based on EIV processing date.

4.2.4.1 Report Generation

On a weekly basis (as part of the weekend Batch processing), PIH households and household members are evaluated for new hires information and statistics are computed on the number of households and household members with new hires including the individual information. Each week, the new statistics and the corresponding individual information generated are stored in EIV and overwriting the previous week's statistics and individual information. Users relying on New Hires information for a particular period are advised to print that report before it is overwritten.

4.2.4.2 New Hires Report Filtering

Access the New Hires Report page by clicking **the New Hires Report** link on the EIV Navigation panel. The **New Hires Report – Report Selection** page displays as illustrated below.

Use this page to filter the scope of the data appearing on the New Hires Report. Once you have selected your filter options, click the **Get Report** button to generate the New Hires Report reflecting your choices.

The **New Hires Report** page provides you with the following filter options:

Program Type – This option provides the capability to filter data by Program Type – All PIH Programs, Public Housing or Section 8. By default, the value is set to **All PIH Programs** when the page displays.

Reexamination Month – This option provides the capability to filter data by Reexamination Month – All or a specific month of the year. By default, the value is set to **“All”** when the page displays.

Action Type – This option provides the capability to filter data by Action Type from the following options:

- All
- 1-New Admission
- 2-Annual Reexam
- 3-Interim Reexam
- 4- Portability Move-in
- 14-Historical Adjustment

Note: Action Type dropdown will be enabled only if PHA radio button is selected

Region – This option controls the scope of the data included on the report. Report data are aggregated by security level for the entire HUD hierarchy, i.e., HUD HQ, State, HUB, TARC, Field Office, and PHA. Your assigned role along with the security level as assigned determines the extent of the data that will be accessible.

Your role assignment provides you with access to up to six organizational options. Only those that you are permitted to access are displayed on the page when it opens. Only one organizational option can be selected at a time.

The following organizational options are available:

- **HUD HQ** – This option provides those with IDs of Headquarters scope with access to nationwide data and the option to select data at all levels. The option as shown on the screen below only is displayed if your role assignment provides you with access to national data at all levels.

- **State** - This option provides full access for those with IDs of Headquarters scope. The option as shown on the screen below only is displayed if your role assignment provides you with the access to national data at all states.

A drop-down list provides you with all the available State selection options. ALL option will enable you to pull the report for all the states. Scroll through the list to locate the desired State. Highlight it to select. Only one selection can be active at a time.

- **HUB** – This option provides access to the data associated with Field Offices and the PHA’s within their jurisdiction. For example, if your security level and role assignment permit you to access data associated with a HUB (e.g., 2APH New York HUB Office), you will be able to view data for one, several, or all of the Field Offices and PHA’s associated with that HUB. If your access is at this level, the New Hires Report page would appear as shown below.

A drop-down list provides you with all the available HUB selection options. The list will include only those HUBS that your security level and role allow you to access. If your assigned scope of access does not include HUB data, this option will not be displayed in the Region selection component.

Scroll through the list to locate the desired HUB location. Highlight it to select. Only one selection can be active at a time.

- **Field Office** – This option provides access to the data associated with Field Offices and the PHA’s within their jurisdiction. The scope of access is governed by your security level and role assignment. If your access is at this level, the EIV New Hires Report page would appear as shown below.

A drop-down list provides you with all the available Field Office selection options. The list will include only those Field Offices that your security level and role allow you to access. If your assigned scope of access does not include Field Office data, this option will not appear in the Region selection component.

Scroll through the list to locate the desired Field Office. Highlight it to select. Only one selection can be active at a time.

- **TARC** – This option provides access to the data associated with TARC’s and the PHA’s within their jurisdiction. The scope of access is governed by your security level and role assignment. If your access is at this level, the New Hires Report page would appear as shown below.
- **PHA** – This option provides access to the data associated with a PHA. The scope of access is governed by your security level and role assignment. If your access is restricted to this level, the New Hires Report page would appear as follows:

A drop-down list provides you with all the available PHA selection options. The list will include only those PHA’s that your security level and role allow you to access. Scroll through the list to locate you the desired PHA location. Only one selection can be active at a time. PHA users who need access to information concerning tenants in another PHA may request and gain that access with the written approval of the manager of that PHA.

4.2.4.3 New Hires Statistics Report

All Summary and Report details appear on the New Hires Report page. Although the scope of report detail may vary, the same page format is used to convey the data

The results data are displayed in a tabular format. Each table (referred to as a Statistics table) is labeled to indicate the security level to which the data applies. There is a record in the table for each entity included in the results data.

The New Hires Report page includes a separate table for the selected organization (parent) as well as any subordinate organizations (children). The scope of detail available to you is based on your security level and role assignment. For example, if your access is limited to an individual PHA, you will only be able to view the statistics and detail associated with the assigned PHA. In contrast, if your access includes the entire HUD hierarchy, you will be able to view the statistics and detail associated with each security level.

When more than one level of detail is available, the highest level is displayed first on the page. Each successive level of detail is displayed in a separate table. The appearance of a hypertext link in a record (appearing underlined in red in a Statistics table) indicates that an additional level of detail is available. Click the hyperlink to view the next level of detail. For example, at the Field Office level, there is a record for each associated PHA. Click on the appropriate PHA, if it has a hyperlink, to view the associated detail.

On the top statistics table you will find the following information:

Security Level – Shows the Region selected from the selection page

- HUD Headquarters
- State with the State name selected
- HUB with the HUB name selected
- TARC with TARC name selected
- Field Office with the Field Office name selected
- PHA with the PHA name selected

Reexamination Month – Shows the Reexamination Month you have selected in the search criteria for this report.

Period of Review – Shows the 180 date range for which household members are reviewed for new hires information.

Program Type – Shows Program Type you have selected in the search criteria for this report will be displayed. If ‘All PIH Programs’ was selected from the search criteria, three columns will be displayed – ALL, Public Housing, and Section 8.

Number of Households – Shows the total number of households where one of more household members have new hires information for the selected Program Type and Reexamination Month during the last 180 days.

Total Number of Household Members – In this column you will find information about the number of household members with new hires information for the selected Program Type and Reexamination Month during the last 180 days.

On the bottom statistical table shows the following information:

Security Level – In this column you will find a record for each entity associated with the level next to the selected organization (e.g., if the organization selected is HUD HQ, the next level is HUB). You can click the hypertext link associated with the security level label to view additional detail, as appropriate.

Possible entities appearing in this column include the following:

- HUB
- Field Office
- PHA
- Individual Households

Program Type – In this column, you will find the Program Type you have selected in the search criteria for this report will be displayed. If ‘All PIH Programs’ was selected from the search criteria, three columns will be displayed – ALL, Public Housing, and Section 8.

Number of Households – In this column you will find information about the number of households where one or more household members has new hires information during the last 180 days.

Total Household Members – In this column you will find information about the number of households’ members with new hires information during the last 180 days.

4.2.4.4 New Hires Statistics Report Examples

Use this section to get familiar with the look and feel of the New Hires Statistics Report. Please note that there is a separate section for each security level view of the report.

4.2.4.4.1 HUD HQ Level View

When viewed from the HUD Headquarters level, the New Hires Report includes a summary HUD HQ Statistics (top statistics table) and HUB statistics (bottom statistics table). To view data for a particular HUB, click the hyperlink associated with it.

The screen below is an example of HUD Headquarter Statistics Report when **All PIH Programs** is selected from the Program Type drop-down list.

4.3 Income Discrepancy Report Module

The Income Discrepancy Report compares the tenant’s projected next year’s income as reported in form HUD-50058 to the actual income data compiled by EIV.

Before beginning to work with the Income Discrepancy Report, it is important to have a thorough understanding of the concepts that govern the tenant income evaluation and income discrepancy calculation process. This will be useful in understanding what data are used in compiling the report tables and why data concerning some tenants cannot be used. The process consists of the following activities:

- Identifying the Period of Income
- Identifying Projected Income
- Identifying the Actual Income reported during the Period of Income
- Prorating Actual Income
- Calculating Income Discrepancies
- Discrepancy Analysis
- Report Generation

Please use the information in the following sections to learn more about each of these processes and activities.

4.3.1 Identifying the Period of Income (PI)

The Period of Income provides the timeline governing the collection of the data used to determine whether or not a discrepancy exists between projected household income (as reported on form HUD-50058) and actual income (income data that was available in EIV at the time the projection was made).

By comparing projected and actual income for the same period, the system determines whether a discrepancy exists and measures its size.

The period of income is determined using the following events to assist in setting the specific time span that will be taken into consideration when collecting and calculating income data:

- **Form HUD-50058 Effective Date** – This is the effective date appearing on the form HUD-50058 for the identified tenant. It is used to calculate the Period of Income Start and End Date values.
- **Period of Income Start Date** – This date represents the starting point for the income period. It is calculated by EIV based on the effective date associated with the form HUD-50058 for the tenant. It is assumed that the Period of Income Start Date is 15 months prior to the effective date on form HUD-50058.
- **Period of Income End Date** – This date represents the end of the period of income and is assumed to be 3 months prior to the effective date on form HUD-50058. It is also the tenant interview date. The Period of Income End date is, 12 months from the Period of Income Start Date.
- **Threshold Date** – This is the date EIV calculates the Income Discrepancy Report data.
- **Window of Form HUD-50058 Selection** – This date is used to help locate the most recent form HUD-50058 record in the current database. In order to be selected, the effective date of the form HUD-50058 must fall within a period of 3 to 15 months prior of the Threshold Date.

4.3.2 Identifying Projected Income

Projected income information is used as the baseline for discrepancy calculations. It is derived from the form HUD-50058 records stored in the IMS/PIC database. The income projection information is used to determine whether or not a given household should be included in the Income Discrepancy Report. The determination is made using the following evaluation criteria:

- Selected Form HUD-50058 records will come directly from the current IMS/PIC database. There is no need to access the IMS/PIC Historical database to obtain projected household income information.
- EIV will review the current IMS/PIC database to locate the most recent form HUD-50058 record (for a household) that falls in the timeline of 3 to 15 months prior to the Threshold Date. The most recent record falling within that timeline will be used as the source for projected income information.
- Form HUD-50058 records with an effective date that falls within the specified 3 to 15 month's timeline, and includes an action type of 1-7, 9, 10, 12, or 14, will be included in the Income Discrepancy Report calculations.

Action Types - included in Income Discrepancy Report calculations	Definition
1	New Admission
2	Annual Reexamination
3	Interim Reexamination

Action Types - included in Income Discrepancy Report calculations	Definition
4	Portability Move-in (VO only)
5	Portability Move-out (VO only)
7	Other Change of Unit
9	Annual Reexamination Searching (VO only)
10	Issuance of Voucher (VO only)
12	Flat Rent Annual Update (PH only)
14	Historical Adjustment

- Data from households that lack SSA verification or which have failed SSA verification will not be included in the calculations.
- If a form HUD-50058 record does not meet the qualification criteria, the household will be excluded from the Income Discrepancy Report.

4.3.3 Identifying the Actual Income reported during the Period of Income

Actual income information is used to evaluate the accuracy of an income projection. It is compared to the projected income value stored on the form HUD-50058 associated with a household. **If there is a difference between the projected value and the actual (reported) income value, the difference is referred to as a discrepancy.** Discrepancies that meet or exceed the threshold percentage entered by the user are included in the data collection.

EIV information is not considered to be conclusive proof if a tenant challenges that it is not current or complete. One factor is time lag in the collection of SSA and NDNH data. In such cases, the employment information, including the “new hires” information will help the PHA research the tenant’s income.

4.3.4 Prorating Actual Income

When the period of income includes a Period of Income Start Date that coincides with income reporting quarters, the income is simply added for those quarters. In those cases where an income record overlaps the start or end of the period of consideration, the income will be prorated, based on the following calculation:

- First Quarter Income = (quarter income value/period of time) * length of time in period. For example, if the income is within the period of consideration for 2 of 3 months, the calculation would be (quarter income value / 3 months) * 2 months.
- Sum the quarter income that occurs within the period of consideration. This should be 3 quarters of data.
- Add the final quarter of income data. Quarter income = (quarter income value / period of time) * (length of time considered).

4.3.5 Calculating Income Discrepancies

Once projected and actual income data have been captured, the discrepancy evaluation process begins. EIV conducts two separate evaluations for the Income Discrepancy Report generation process. The outcome determines whether or not the results should be included in the Income Discrepancy Report.

When included, the results of both calculations appear on the Head of Household Information page. You reach this page by drilling down to the lowest level of detail on the Income Discrepancy report.

- Statistics
- Households Exceeding Threshold

4.3.5.1 Statistics Table

The Statistics Table provides summary results. This section lists details including the threshold percentage based on which the report is calculated. The summary details include the total number of households evaluated, households that exceed threshold, percentage of households that exceed threshold, Outliers (households exceed the threshold by twice the designated amount), percentage of Outliers, total amount of annual discrepancy (Actual), and the total amount of annual discrepancy (projected income calculated based on annualized last quarter data). Use the Households with Income Discrepancy table to view more detailed information about the results appearing in this table. Click a Social Security Number to view the associated household detail. To learn more detail, please use the Head of Household table.

4.3.5.2 Households with Income Discrepancy Table

The Households with Income Discrepancy table provides a record for each household where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff value. **The value causing the household to appear on the report is highlighted.** The Outlier column provides a record for each household where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff value by at least twice the amount. The sort feature (the up and down arrows) is provided to sort data in each column.

The discrepancy is reported as follows:

- **Discrepancy (Actual)** – displays the annual discrepancy in income data for the designated household.
- **Discrepancy (Annualized Last Quarter)** – displays the discrepancy annualized from the last quarter’s income for the designated household.
- **Outliers** – displays a ‘Y’ to indicate if the household has exceeded the threshold by twice the amount and ‘N’ otherwise.
- **Head of Household** Information Page section – to learn more about how to use the information provided.
- Income discrepancies are calculated in the following manner::
- **Discrepancy 1** – Entire period of consideration versus income projection is calculated as follows:
(Projected Annual Wages and Benefits from form HUD-50058) – (Reported Annual Wages and Benefits as derived from EIV data)
- **Discrepancy 2** – Last quarter of period of consideration annualized against projection is calculated as follows:
 - Actual EIV Income = final quarter income data (prorated as first and final quarter income in calculating total income for period of income against projection) * 4 quarters.
 - Projected Annual Wages and Benefits from form HUD-50058 – Actual EIV Income.

4.3.6 Discrepancy Analysis

Once the income discrepancy calculations are completed, EIV analyzes the results to determine whether a household should be included in the Income Discrepancy Report. The analysis compares the results to a pre-defined EIV system value — Discrepancy Cutoff.

The Discrepancy Cutoff variable establishes the monetary value that the calculated discrepancy must exceed in order for the household to be included in the Income Discrepancy Report. By default, this value is set to -\$2,400. This means that the discrepancy between the actual annual income value and the projected income must be at least \$2,400 or greater in order to appear on the report.

For example, if the projected income for a household was \$10,000 but the actual income was \$14,000, the difference of \$4,000 is greater than the established cutoff value, qualifying it to appear on the report. Conversely, if the projected income for a household was \$10,000 but the actual income was \$12,000, the difference of \$2,000 is less than that of the established cutoff value, disqualifying that record from being used in the report.

When making the determination whether a household should be included in Income Discrepancy Report data, EIV always uses the higher of the two calculated discrepancy values. For those households being included in report data, the report calculates whether the discrepancy exceeds pre-determined threshold values (5% to 100% by increments of 5 %).

4.3.7 Report Generation

Income Discrepancy Report data gathering and calculations are computed automatically according on a weekly basis. The data are collected, analyzed, and stored in the EIV database according to the previously specified criteria. The obsolete data set is overwritten with the current data. Users relying on data from a particular Income Discrepancy Report are advised to print that report before it is overwritten.

4.3.8 Income Discrepancy Report Filtering

Access the Income Discrepancy Report page by clicking the Income Discrepancy Report link on the EIV Navigation panel. The **Income Discrepancy Report – Report Selection** page displays as illustrated below.

Enterprise Income Verification HUD Home PIH Home EIV Home Search Email

Verification Reports >> Income Discrepancy Report >> Report Selection

Select Program Type, Reexamination Month, Threshold Value and Action Type*:

Program Type: All PIH Programs

Reexamination Month: ALL

Threshold: 5 %

Action Type: All

Select Region:

- HUD HQ
- STATE: ALL
- HUB: 10HSEA Seattle Hub
- FO: OAPH SEATTLE HUB OFFICE
- TARC: PB1 Cleveland TARC
- PHA: AK001 - AK001 AHFC

*For PHA Region Report Only

Use this page to filter the scope of the data appearing on the Income Discrepancy report. Once you have selected your filter options, click the **Get Report** button to generate the Income Discrepancy Report reflecting your choices.

The **Income Discrepancy Report** page provides you with the following filter options:

- **Program Type** – This option provides the capability to filter data by program type – All PIH Programs, Public Housing or Section 8. By default, the value is set to All PIH Programs when the page displays.
- **Reexamination Month** – This option provides the capability to filter data by Reexamination Month – All or specific month of the year. By default, the value is set to “All” when the page displays.
- **Threshold %** – This option provides the capability to filter data by threshold percentage. This means only the data for those households where the amount of the discrepancy exceeds a specified percentage are included on the report. You can adjust the range of the filter from 5 to 100 percent in increments of 5 percentage points. The larger the percentage the smaller the data set and vice versa.
- **Action Type** – This option provides the capability to filter data by Action Type with the following choices:
 - All
 - 1-New Admission
 - 2-Annual Reexam
 - 3-Interim Reexam
 - 4- Portability Move-in
 - 14-Historical Adjustment

The Action Type dropdown will be enabled only if the PHA radio button is selected.

- **Region** – This option controls the scope of the data included on the report. Report data are aggregated by security level for the entire HUD hierarchy, i.e., HUD HQ, State, HUB, TARC, Field Office, and PHA. Your assigned role along with the assigned security level determines the extent of the data that will be used.

Your role assigned role provides you with access to up to five organizational options. Only those that you are permitted to access are displayed when the page opens. Only one organizational option can be selected at a time.

The following organizational options are available based on the screen shot displayed above:

- **HUD HQ** – This option provides those with IDs of Headquarters scope with access to nationwide data and the option to select data at all levels. This option as shown on the screen below only is displayed if your role assignment provides you with access to national data at all levels.
- **State** - This option provides full access for those with IDs of Headquarters scope. This option as shown on the screen below only is displayed if your role assignment provides you with access to national data at all states.

A drop-down list provides you with all the available State selection options. Scroll through the list to locate the desired State. Highlight it to select. Only one selection can be active at a time. There is an option All to select all the states. If All is selected then the statistics are brought up from all the states.

- HUB** – This option provides access to the data associated with Field Offices and the PHA’s within their jurisdiction. For example, if your security level and role assignment permit you to access data associated with a HUB (e.g., 2APH New York HUB Office), you will be able to view data for one, several, or all of the Field Offices and PHA’s associated with that HUB. If your access is at this level, the Income Discrepancy Report page would appear as shown below.

A drop-down list provides you with all the available HUB selection options. The list will include only those HUBS that your security level and role allow you to access. If your assigned scope of access does not include HUB data, this option will not be displayed in the Region selection component.

Scroll through the list to locate the desired HUB location. Highlight it to select. Only one selection can be active at a time.

- Field Office** – This option provides access to the data associated with Field Offices and the PHA’s under the Field Office. The scope of access is governed by your security level and role assignment.

If your access is at this level, the Income Discrepancy Report page would appear as shown below.

A drop-down list provides you with all the available Field Office selection options. The list will include only those Field Offices that your security level and role allow you to access. If your assigned scope of access does not include Field Office data, this option will not be displayed in the Region selection component.

Scroll through the list to locate the desired Field Office location. Highlight it to select. Only one selection can be active at a time.

- TARC** – This option provides access to the data associated with TARCs and the PHA’s within their jurisdiction. The scope of access is governed by your security level and role assignment. If your access is at this level, the Income Discrepancy Report page would appear as shown below.
- PHA** – This option provides access to the data associated with a PHA. The scope of access is governed by your security level and role assignment. If your access is restricted to this level, the EIV Income Discrepancy Report page would appear as follows:

Enterprise Income Verification HUD Home PIH Home EIV Home Search Email

Verification Reports >> Income Discrepancy Report >> Report Selection

Select Program Type, Reexamination Month, Threshold Value and Action Type:

Program Type: All PIH Programs

Reexamination Month: ALL

Threshold: 5 %

Action Type: All

Select Region:

PHA OH001 - Columbus Metropolitan Housing Authority

Get Report

A drop-down list provides you with all the available PHA selection options. The list will include only those PHA's that your security level and role allow you to access. Scroll through the list to locate you the desired PHA location. Only one selection can be active at a time. PHA Users who need access to information concerning tenants in another PHA may request and gain that access with the written approval of the manager of that PHA.

4.3.9 Income Discrepancy Statistics Report

All Summary and Report details appear on the Income Discrepancy Report page. Although the scope of report detail may vary, the same page format is used to convey the data. For your convenience and ease of use, the page title is amended to indicate the scope of data included. For example, if you selected the HUD HQ organizational option, then you would be on the HUD Headquarters Income Discrepancy Report page.

On the Income Discrepancy Report page you will find the results of the discrepancy analysis you have requested. Result data are displayed in a tabular format. Each table (referred to as a Statistics table) is clearly labeled to indicate the security level to which the data applies. There is a record in the table for each entity included in the results data.

The Income Discrepancy Report page includes a separate table for the selected organization (parent) as well as any subordinate organizations (children). The scope of detail available to you is based on your security level and role assignment. For example, if your access is limited to an individual PHA, you will only be able to view the statistics and detail associated with the assigned PHA. In contrast, if your access includes the entire HUD hierarchy, you will be able to view the statistics and detail associated with each security level.

When more than one level of detail is available, the highest level is listed first on the page. Each successive level of detail is displayed in a separate table. The appearance of a hypertext link in a record (underlined in red in a Statistics table) indicates that an additional level of detail is available. Click the hyperlink to view the next level of detail. For example, at the Field Office level, there is a record for each associated PHA. Click on the appropriate PHA, if it has a hyperlink, to view the associated detail.

Based on the access provided at the role level, the details of Outlier and Threshold Income Information will be hidden/displayed. This access is determined by the System Administrator.

On a top statistics table you will find the following information:

Security Level – Shows the organization selected from the Report selection page. Possible values are:

- HUD Headquarters
- STATE
- HUB
- TARC
- Field Office
- PHA

Threshold Percentage – Shows the selected value in the search criteria for this report generation. The percentage is measured as the variance (plus or minus) beyond which a tenant record is included in a report listing and in report summary calculations.

Reexamination Month – Shows the Reexamination Month you have selected in the search criteria for this report.

Program Type – Shows the Program Type you have selected in the search criteria for this report. If 'All PIH Programs' was selected from the search criteria, three columns will be displayed – ALL, Public Housing, and Section 8.

Total Number of Households Evaluated – Shows the total number of households associated with the selection criteria used in the income discrepancy analysis. If 'All PIH Programs' was selected as the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding total or number in each column.

Households that Exceed Threshold – Shows the information about the number of households where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff percentage value. If 'All PIH Programs' was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding total or number in each column.

Percentage of Households exceeding threshold – Shows the percentage of the number of households is displayed where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff value. If 'All PIH Programs' was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding total or number in each column.

Outliers (Threshold *2) – This field will be displayed only if the access to view this information has been granted by the System Administrator. Shows the information about the number of households where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff value by at least twice the amount. If 'All PIH Programs' was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding total or number in each column.

Percentage of Households exceeding threshold that are outliers – This field will be displayed only if the access to view this information has been granted by the System Administrator. Shows the percentage of outliers where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff value by at least twice the amount. If 'All PIH Programs' was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding total or number in each column.

Net Annual Income Discrepancy (Actual) – This field will be displayed only if the access to view this information has been granted by the System Administrator. Shows discrepancy between the actual income and the reported income by the tenant is computed based on the income reports for the last four quarters. If 'All PIH Programs' was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding net total.

Net Annual Income Discrepancy (Annualized Last Quarter) – This field will be displayed only if the access to view this information has been granted by the System Administrator .Shows the discrepancy between the actual income and the income projected by the tenant as computed based on the income reported for last quarter. If ‘All PIH Programs’ was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding net total.

The bottom statistics table shows the following:

Security Level – In this column you will find a record for each entity associated with the level next to the organization selected (e.g., if organization selected is HUD HQ, the next level is HUB). Click the hypertext link associated with the security level label to view additional detail, as appropriate. Possible entities appearing in this column include the following:

- HUB
- Field Office
- PHA
- Individual Households

Program Type – In this column, you will find the Program Type you have selected in the search criteria for this report will be displayed. If ‘All PIH Programs’ was selected from the search criteria, three columns will be displayed – ALL, Public Housing, and Section 8.

Total Number of Households Evaluated – In this column you will find information about the total number of households associated with the selection criteria used in the income discrepancy analysis. If ‘All PIH Programs’ was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding total or number in each column.

Households that Exceed Threshold – In this column you will find information about the number of households where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff percentage value. If ‘All PIH Programs’ was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding total or number in each column.

Net Annual Income Discrepancy - Actual – This field will be displayed only if the access to view this information has been granted by the System Administrator. In this column the discrepancy between the actual income and the reported income by the tenant is computed based on the income reports for last four quarters. If ‘All PIH Programs’ was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8. with the corresponding net total.

Net Annual Income Discrepancy - Annualized Last Quarter – This field will be displayed only if the access to view this information has been granted by the System Administrator .In this column the discrepancy between the actual income and the reported income by the tenant is computed based on the income reported for last quarter. If ‘All PIH Programs’ was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8 with the corresponding net total.

Outliers (Threshold *2) – This field will be displayed only if the access to view this information has been granted by the System Administrator. In this column you will find information about the number of households where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff value by at least twice the amount. If ‘All PIH Programs’ was selected from the Program Type search criteria, three columns will be displayed – ALL, Public Housing, and Section 8, with the corresponding total or number in each column.

4.3.9.1 Income Discrepancy Statistics Report Examples

Please use this section to get familiar with the look and feel of the Income Discrepancy Statistics Report. There is a separate section for each security level view of the report.

4.3.9.1.1 HUD HQ Level View

When viewed from the HUD Headquarters level, the Income Discrepancy Report includes the HUD Headquarters Statistics (top statistics table) and HUB Statistics (bottom statistics table). To view data for a particular HUB, click the red underlined hyperlink associated with it.

The screen below is an example of HUD Headquarter Statistics Report when **All PIH Programs** is selected from the Program Type drop-down list.

Income Discrepancy Report without Income and Outlier Information

You can download the report in Excel format by clicking the Download in Excel link as illustrated above.

When the link is clicked, it gives the user to save the file or open the file. The details of Downloading a file to Excel is illustrated in Appendix B of this document.

To view the HUD Headquarter Statistics for **Public Housing** program type, select **Public Housing** in the **Program Type** selection in the **Income Discrepancy Report Selection** page.

To view the HUD Headquarter Statistics Report for **Section 8** program type, select **Section 8** in the **Program Type** selection in the **Income Discrepancy Report Selection** page.

When Public Housing or Section 8 program type is selected, the sort capability is available for HUB, Households Evaluated, Households that Exceed Threshold, Net Income Discrepancy – Actual, Net Income Discrepancy – Annualized Last Quarter and Outliers (Threshold *2) fields. Please refer to Section 3.2.5 for description of how to use sorting in online report tables.

4.3.9.1.2 State Level View

When viewed from the HUB level, the Income Discrepancy Report includes State Statistics (top statistics table) as well as the PHA Statistics (bottom statistics table) within the selected State. The user has an option to pull data for all the states by selecting ALL option in state field. To view data for a particular PHA, click the hyperlink associated with it.

The screen below is an example of State Statistics Report when **All PIH Programs** is selected from the Program Type drop-down list.

Income Discrepancy Report without Income and Outlier Information

You can download the report in Excel format by clicking the Download in Excel link as illustrated above.

When the link is clicked, it gives the user the option to save or open the file. The details of Downloading a file to Excel is illustrated in Appendix B of this document.

To view the State Statistics for **Public Housing** program type, select **Public Housing** in the **Program Type** selection in the **Income Discrepancy Report Selection** page.

To view the State Statistics Report for **Section 8** program type, select **Section 8** in the **Program Type** selection in the **Income Discrepancy Report Selection** page.

When **Public Housing** or **Section 8** is selected from the program type drop-down list, the sort capability is available for PHA, Households Evaluated, Households that Exceed Threshold, Net Income Discrepancy – Actual, Net Income Discrepancy – Annualized Last Quarter and Outliers (Threshold *2) fields. Please refer to Section 3.2.5 for description of how the sorting works.

4.3.9.1.3 HUB Level View

When viewed from the HUB level, the Income Discrepancy Report includes HUB Statistics (top statistics table) and the Field Offices Statistics (bottom statistics table) within the HUB. To view data for a particular field office, click the red underlined hyperlink which is displayed if there is data.

The screen below is an example of HUB Statistics Report when **All PIH Programs** is selected from the Program Type drop-down list.

4.3.9.1.6 Households with Income Discrepancy

The Household level of the Income Discrepancy Report provides a record for each household where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff value. The value causing the household to appear on the report is highlighted. The Outlier column provides a record for each household where the discrepancy between the projected income and the actual income exceeded the designated threshold cutoff value by at least twice the amount. Sorting is available for any of the columns.

The discrepancy is reported as follows:

- **Annual Income Discrepancy (Actual)** – displays the annual discrepancy in income data for the designated household.
- **Annual Income Discrepancy (Annualized Last Quarter)** – displays the discrepancy annualized from the last quarter’s income for the designated household.
- **Outliers** – displays a ‘Y’ to indicate if the household has exceeded the threshold by at least twice the amount and ‘N’ otherwise.

4.3.9.1.7 PHA Statistics – Printer-Friendly Version and Download in Excel

You can print the PHA Discrepancy Report Statistics by clicking on the Printer-friendly version link as illustrated on the previous page. When clicked, a pop-up window as shown on the screen below will appear and you can click the **Print** button to send the information to the printer. The First name, last

name, and partial User ID of the logged in user who is printing the page comes up along with the Privacy Act data on all the pages of the report.

Income Discrepancy Report without Income and Outlier Information

4.3.9.1.8 Household Income Discrepancy Report

This page launches as a pop-up window when one of the Social Security Number hyperlinks, appearing on the Household Income Discrepancy Report page, is clicked. Click the **Close (X)** button - to close the window and return to the Income Discrepancy Report.

Print

Summary Report	Certification Page	Income Report	Income Discrepancy Report
Head of Household Information			
Name:	rwmzi i HKROORSK		
Social Security Number:	37		
Program Type:	Public Housing		
Project:	ANCHORAGE SOUTH		
Effective Date of Action:	04/01/2010		
Annual Reexamination Date:	04/01/2011		
Projected Annual Wages and Benefits from Form HUD-50058:	\$0.00		
Period Of Income for Discrepancy Analysis	01/01/2009 - 12/31/2009		
Discrepancy Analysis	Actuals	Annualized Last Quarter	
Reported Annual Wages and Benefits from EIV Data:	\$35,652.00	\$28,536.00	
Amount of Annual Income Discrepancy:	(\$35,652.00)	(\$28,536.00)	
Amount of Monthly Income Discrepancy:	(\$2,971.00)	(\$2,378.00)	
Percentage of Income Discrepancy:	(100%)	(100%)	
<small>Note: Negative numbers represent potential under reporting of income. Please discuss this income discrepancy with the tenant. Positive numbers represent potential decrease in tenant income.</small>			

The updated Head of Household Information page provides you with both actual and historical data. The Discrepancy Analysis section of the page provides results of the income analysis process. It provides actual and annualized last quarter data. There is a column for each type of data — Actual and Annualized Last Quarter Data. There are tabs provided in the page to navigate to the Summary Report and Income Report for the particular Household. Associated with each column are the following criteria:

Reported Annual Wages and Benefits from EIV Data – This field identifies the actual income reported to EIV for the designated income period.

Amount of Annual Income Discrepancy – This field identifies the value of the discrepancy in the annual income that caused the household to be included in the report data. Negative currency values are represented in parenthesis. For example, -\$800 is represented as (\$800). When this value causes the household to be used in the report, it is displayed in bold typeface.

Amount of Monthly Income Discrepancy – This field identifies the value of the discrepancy in the monthly income that caused the household to be included in the report data. Negative currency values are represented in parenthesis. For example, -\$800 is represented as (\$800). When this value causes the household to be used in the report, it is displayed in a bold typeface.

Percentage of Income Discrepancy – This field identifies the percentage by which the threshold cutoff value has been exceeded for this household. Negative percentage values are represented in parenthesis. For example, -75% is represented as (75%).

4.4 Verification Reports Module

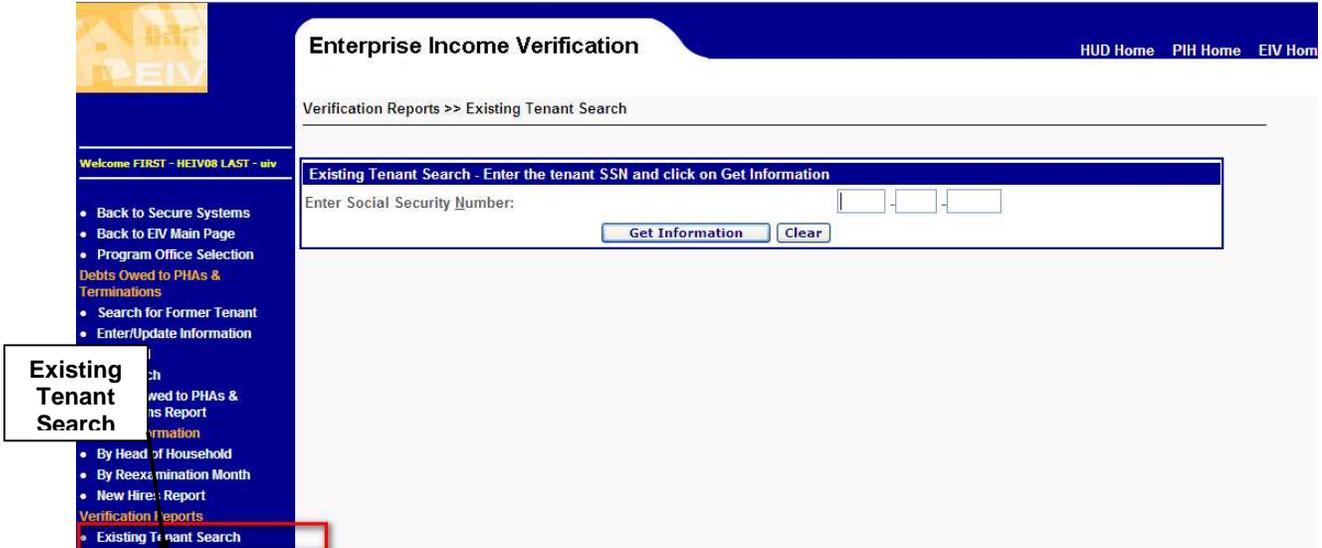

Under the Verification Reports Module, the following options are available

- Existing Tenant Search
- Multiple Subsidy Report
- Identity Verification Report
- Deceased Tenants Report
- Immigration Report
- Income Discrepancy Report

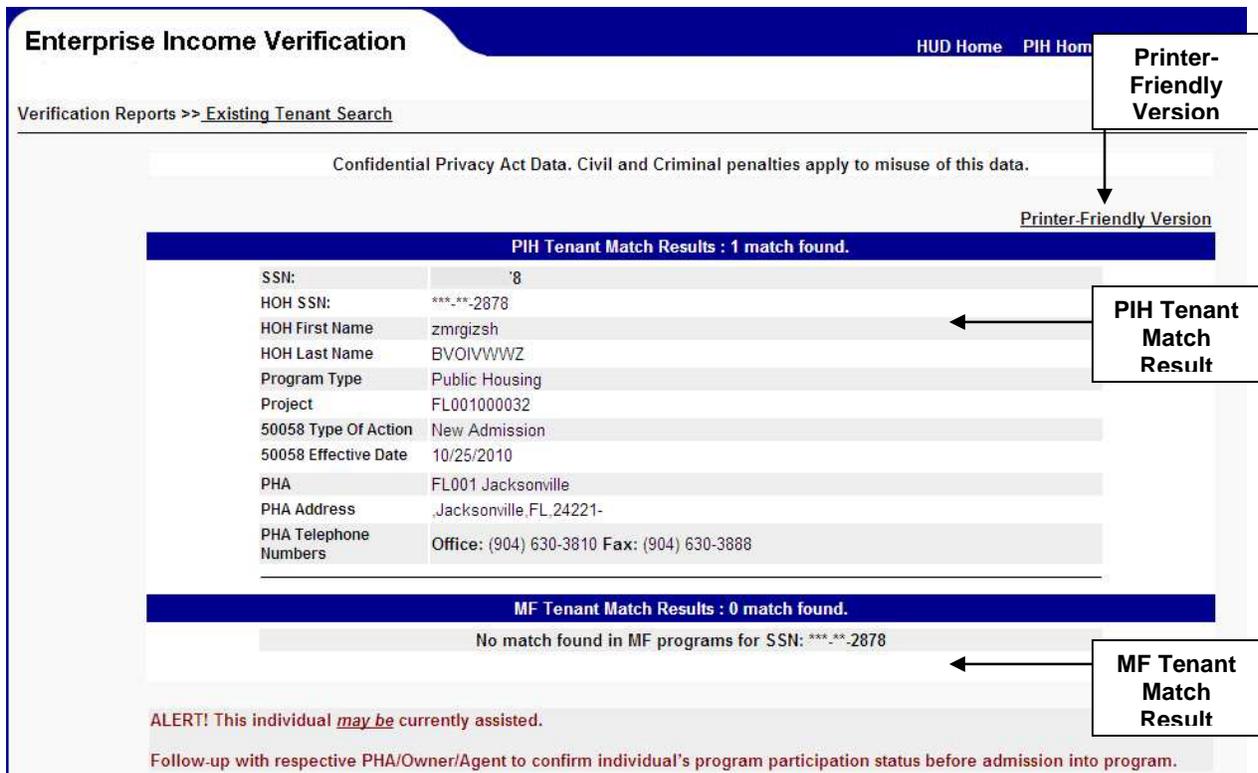

4.4.1 Existing Tenant Search

The Existing Tenant Search module displays the information whether the person (whose SSN is entered in the search screen) may be receiving housing subsidies in PIH or Multifamily Housing (MF) programs.

The person's SSN can be entered through the screen illustrated below.

When the SSN is entered, the result page as illustrated below will show some basic information of the households (in PIH and MF) in which the person may be receiving subsidy.

The user has the capability to print the result page through the **Printer Friendly Version** link. When clicked, the system opens a pop-up window displaying the printable view of the result page. The report can be printed by clicking the **Print** button provided in the pop-up window. The page whether printed using the Printer-Friendly link or EIV screens contains the first name, last name, and partial user ID of the user who is printing the page along with the Privacy Act statement as described in Section 3.2.5. When finished requesting the printed version of the page, click the Close (X) button or File → Close to return to the online page

4.4.2 Multiple Subsidy Report

The Multiple Subsidy Report is used to identify households that receive assistance either in multiple PHA's within PIH or in both PIH and Multifamily programs for selected PHA's. The report considers only the tenants with verified status.

4.4.2.1 Report Generation

On a weekly basis (as part of the weekly Batch processing), PIH households and household members with verified status are evaluated for tenants receiving multiple subsidies and summary and detail data required for online reports are created. The reports exclude the household members who are not verified, who are in the households that are EOP, Action type of Port-Out, or have not had 50058 recertification within 15 months from the date when the report was generated

4.4.2.2 Multiple Subsidy Report Selection

Access the Multiple Subsidy Report page by clicking the Multiple Subsidy Report link (under the **Verification Reports** module) on the EIV Navigation panel. The **Multiple Subsidy Report – Report Selection** page displays as illustrated below.

The **Multiple Subsidy Report – Report Selection** page provides the following filtering options:

Region Selection:

- **By Field Office** – This option provides access to the data associated with Field Offices and the PHA's in their jurisdiction. The scope of access is governed by your security level and role assignment.
- **By Participant Code:** This option provides access to the data associated with PHA's. The scope of access is governed by your security level and role assignment.

Household Member Search Option:

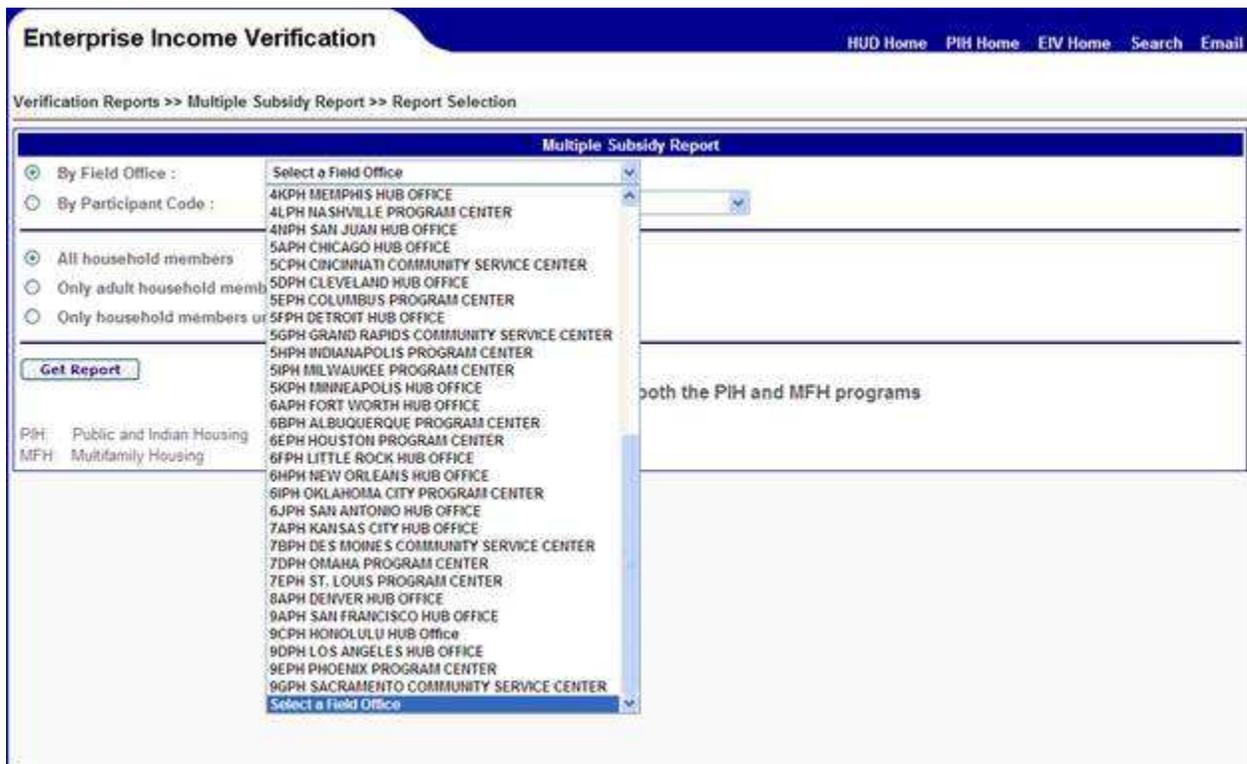

- **All Household Members:** to provide the complete list of household members whose SSN is displayed more than once in a PIH/MFH program.
- **Only adult Household Members:** Filters the data to list only those household members whose age is 18 or greater as of the effective date of the current 50058 and whose SSN is displayed more than once in a PIH/MFH program.
- **Only Household Members under the age of 18:** Filters the data to list only those household members whose age is under 18 as of the effective date of the current 50058 and whose SSN is displayed more than once in a PIH/MFH program.

Use this page to filter the scope of the data appearing on the Multiple Subsidy Report. Once you have selected your filter options, click the **Search** button to generate the Multiple Subsidy Report for the selected organization and options.

4.4.2.2.1 By Field Office Option

The Field Office option provides access to the data associated with Field Offices and the PHA’s within their jurisdiction. The scope of access is governed by your security level and role assignment.

If your access is at this level, the Multiple Subsidy Report page would appear as shown below letting the user select a Field Office or a PHA.

Scroll through the list to locate the desired Field Office location. Highlight it to select. Only one selection can be active at a time.

When viewed from the Field Office level, the Multiple Subsidy Report includes statistics for the Field Office as well as the PHA’s within the Field Office jurisdiction. The report displays the data in 2 sections:

The top section, which is the Multiple Subsidy Field Office Report Summary, contains the following information:

- Field Office
- Total Number of Households
- Total Number of Household Members
- Program Type
- Household Member Selection

The bottom section displays the statistics for each PHA under the FO with following fields:

- PHA
- Total Number of Households
- Total Household Members

The screen below is an example of a Field Office Statistics Report. Please note that those offices with data are shown in red and underlined indicating that there is a hyperlink to a report.

Member Information

Household Information

The User has the standard features of *Printer-Friendly Version* and *Download in Excel* as described in section 3.2.5. The user can also print single Household Member information separately by clicking the **Print Household Member information** link against each Household Member Information header.

Please refer to Appendix B for instructions on how to download Excel-format files.

4.4.2.2.3 By PHA Level Option

This option provides access to the report associated with PHA's. The scope of access is governed by your security level and role assignment.

If your access is at this level, the Multiple Subsidy Report page allows you to select a PHA from a list of PHA's you have access to.

For full description of the resulting page when By PHA level option is selected, please refer to Section 4.4.2.2.2.

4.4.3 Identity Verification Report

The Identity Verification Report provides information at the HQ, State, HUB, FO, TARC and PHA levels of the number of households and household members who successfully verified by SSA, who failed SSA verification or failed the EIV Pre-Screening process, which rules out IDs such as those with SSN's with all 9's, Last Name missing and who are pending verification.

4.4.3.1 Report Generation

On a weekly basis (as part of the weekly Batch processing), PIH households and household members are evaluated for verification statistics and information on individual household and members is stored in the EIV database. Users relying on statistical data on a regular basis should make a printed copy of the report before the data are overwritten by next weekly Batch processing.

4.4.3.2 Identity Verification Report Filtering

Access the Identity Verification Report page by clicking the Identity Verification Report link (under the Verification Reports module) on the EIV Navigation panel. The Identity Verification Report – Report Selection page is displayed as illustrated below.

The screenshot shows the 'Enterprise Income Verification' web application. The navigation menu on the left includes 'Identity Verification Report' which is highlighted with a red box and a callout. The main content area has the following fields:

- Program Type:** All PIH Programs
- Reexamination Month:** All
- Action Type:** All
- Select Region:**
 - HUD HQ
 - STATE
 - HUB (10HSEA Seattle Hub)
 - FO (OAPH SEATTLE HUB OFFICE)
 - TARC (PB1 Cleveland TARC)
 - PHA (AK001 AHFC)

A 'Get Report' button is located at the bottom of the form area.

Use this page to filter the scope of the data appearing on the Identity Verification Report. Once you have selected your filter options, click the **Get Report** button to generate the Identity Verification Report reflecting your choices.

The **Identity Verification Report** page provides you with the following filter options:

Program Type – This option provides the capability to filter data by program type – All PIH Programs,

Public Housing or Section 8. By default, the value is set to All PIH Programs when the page displays.

Reexamination Month – This option provides the capability to filter data by Reexamination Month – All or for a specific month (January to December). By default, the value is set to **“All”** when the page displays.

Action Type – This option provides the capability to filter data by Action Type from the following choices:

- All
- 1-New Admission
- 2-Annual Reexam
- 3-Interim Reexam
- 4- Portability Move-in
- 14-Historical Adjustment

Action Type dropdown will be enabled only if PHA radio button is selected.

Region – This option controls the scope of the data included on the report. Report data are aggregated by security level for the entire HUD hierarchy, i.e., HUD HQ, State, HUB, TARC, Field Office, and PHA. The combination of your assigned role and security level determines the extent of the data that will be accessible.

Your role assignment provides you with access to up to five organizational options. Only those that you are permitted to access are displayed on the page when it opens. Only one organizational option can be selected at a time.

The following organizational options are available:

- **HUD HQ** – This option provides those with IDs of Headquarters scope access to nationwide data and the option to select data at all levels. The Identity Verification Report Selection page is displayed as shown below.

- **State** - This option provides full access for those with IDs of Headquarters scope. This option only is displayed if your role assignment provides you with access to national data. If your access is set at this level, the Identity Verification Report Selection page is displayed as shown below.

A drop-down list provides you with all the available State selection options. Scroll through the list to select a desired State or use the ALL option, displayed as the first item in the list, to pull the report for all states. Highlight the desired option to select it. Only one selection can be active at a time.

- **HUB** – This option provides access to the data associated with Field Offices and the PHA’s within their jurisdiction. For example, if your security level and role assignment permit you to access data associated with a HUB (e.g., 2APH New York HUB Office), you may select data for the HUB or select Field Offices or PHA’s associated with that HUB. If your access is at this level, the Identity Verification Report Selection page is displayed as shown below.

A drop-down list provides you with all the available HUB selection options. The list will include only those HUBs that your security level and role allow you to access. If your assigned scope of access does not include HUB data, this option will not be displayed in the Region selection component.

Scroll through the list to locate the desired HUB location. Highlight it to select. Only one selection can be active at a time.

- **Field Office** – This option provides access to the data associated with Field Offices. The scope of access is governed by your security level and role assignment.

If your access is at this level, the Identity Verification Report Selection page is displayed as shown below.

A drop-down list provides you with all the available Field Office selection options. The list will include only those Field Offices that your security level and role allow you to access. If your assigned scope of access does not include Field Office data, this option will not be displayed in the Region selection component.

Scroll through the list to locate the desired Field Office location. Highlight it to select. Only one selection can be active at a time.

- **TARC** – This option provides access to the data associated with TARC's and the PHA's within their jurisdiction. The scope of access is governed by your security level and role assignment. If your access is at this level, the Identity Verification Report Selection page is displayed as shown below.
- **PHA** – This option provides access to the data associated with a PHA. The scope of access is governed by your security level and role assignment. If your access is restricted to this level, the Identity Verification Report page is displayed as shown below.

A drop-down list provides you with all the available PHA selection options. The list will include only those PHA's that your security level and role allow you to access. Scroll through the list to locate you the desired PHA location. Only one selection can be active at a time. PHA Users who need access to information concerning tenants in another PHA may request and gain that access with the written approval of the manager of that PHA.

4.4.3.3 Identity Verification Statistics Report

All Household and Household Member details appear on the Identity Verification Report page. Although the scope of report detail may vary, the same page format is used to convey the data.

The result data are displayed in a tabular format. Each table (referred to as a Statistics table) is labeled to indicate the security level to which the data applies. There is a record in the table for each entity included in the results data.

The Identity Verification Report page includes a separate table for the selected organization (parent) as well as any subordinate organizations (children). The scope of detail available to you is based on your security level and role assignment. For example, if your access is limited to an individual PHA, you will only be able to view the statistics and detail associated with the assigned PHA. In contrast, if your access includes the entire HUD hierarchy, you will be able to view the statistics and detail associated with each security level.

When more than one level of detail is available, the highest level is displayed first on the page. Each successive level of detail is displayed in a separate table. The appearance of a hypertext link in a record (appearing underlined in red in a Statistics table) indicates that an additional level of detail is available. Click the hyperlink to view the next level of detail. For example, at the Field Office level, there is a record for each associated PHA. Click on the appropriate PHA, if it has a hyperlink, to view the associated detail.

Note: The Statistics table displays household information when the Household Statistics tab is selected and displays household member information when the Household Member Statistics tab is selected.

4.4.3.3.1 Household Statistics Report

On the top statistics table you will find the following information:

- **Security Level** – Shows the organization selected from the selection page
 - HUD Headquarters
 - State with the State name selected
 - HUB with the HUB name selected
 - TARC with TARC name selected
 - Field Office with the Field Office name selected
 - PHA with the PHA name selected
- Reexamination Month
- Program Type
- Number of Households (Excluding EOP)
- Number of Households with All Household Members Verified
- Percentage of Households Verified
- Number of Households Failed EIV Pre-Screening
- Percentage of Households Failed EIV Pre-Screening
- Number of Households Failed SSA Identity Test
- Percentage of Households Failed SSA Identity Test
- Number of Households Pending Verification
- Percentage of Households Pending Verification

On the bottom, the **Household Statistics** tab shows the following information in a table:

- **Security Level** – In this column you will find a record for each entity associated with the level next to the selected region (e.g., if the organization selected is HUD HQ, the next level is HUB). You can click the hypertext link associated with the security level label to view additional detail as appropriate. Possible entities appearing in this column include the following:
 - HUB
 - Field Office
 - PHA
 - Individual Households
- Program Type –If ‘All PIH Programs’ was selected from the search criteria, 3 rows will be displayed – ALL, Public Housing, and Section 8.
- Number of Households (Excluding EOP)
- Number of Households with All Household Members Verified
- Percentage of Households Verified
- Number of Households Failed EIV Pre-Screening
- Percentage of Households Failed EIV Pre-Screening
- Number of Households Failed SSA Identity Test
- Percentage of Households Failed SSA Identity Test
- Number of Households Pending Verification
- Percentage of Households Pending Verification

Note: The Program Level Report provides sorting functionality and displays totals for each data field.

4.4.3.3.2 Household Members Statistics Report

On the top statistics table you will find the following information:

- Security Level – Shows the Region selected from the selection page
 - HUD Headquarters
 - State with the State name selected
 - HUB with the HUB name selected
 - TARC with TARC name selected
 - Field Office with the Field Office name selected
 - PHA with the PHA name selected
- Reexamination Month
- Program Type
- Number of Household Members (Excluding EOP)
- Number of Household Members Verified
- Percentage of Household Members Verified
- Number of Household Members Failed EIV Pre-Screening
- Percentage of Household Members Failed EIV Pre-Screening
- Number of Household Members Failed SSA Identity Test
- Percentage of Household Members Failed SSA Identity Test
- Number of Household Members Pending Verification
- Percentage of Household Members Pending Verification

On the bottom, the **Household Statistics** tab shows the following information in a table:

- Security Level – In this column you will find a record for each entity associated with the level next to the selected organization (e.g., if the organization selected is HUD HQ, the next level is HUB). You can click the hypertext link associated with the security level label to view additional detail as appropriate. Possible entities appearing in this column include the following:
 - HUB
 - Field Office
 - PHA
 - Individual Households
- Program Type – If ‘All PIH Programs’ was selected from the search criteria, 3 rows will be displayed – ALL, Public Housing, and Section 8.
- Number of Household Members (Excluding EOP)
- Number of Household Members Verified
- Percentage of Household Members Verified
- Number of Household Members Failed EIV Pre-Screening
- Percentage of Household Members Failed EIV Pre-Screening
- Number of Household Members Failed SSA Identity Test
- Percentage of Household Members Failed SSA Identity Test
- Number of Household Members Pending Verification
- Percentage of Household Members Pending Verification

Note: The Program Level Report provides sorting capability and displays totals for each data field in the bottom table.

4.4.3.4 Identity Verification Statistics Report Examples

Please use this section to get familiar with the look and feel of the Identity Verification Statistics Report. As mentioned above, each level of report displays data for Households and Household Members in two separate tabs.

4.4.3.4.1 HUD HQ Level View

When HUD HQ organization is selected, a nationwide Identity Verification Report is displayed. This may be filtered for program.

The screen below illustrates the *Household Statistics* of HUD Headquarters Identity Verification Report when **All PIH Programs** is selected from the Program Type drop-down list.

HUD Headquarters Statistics as of 10/08/2011										
HUB		Number of Household Members (Excluding EOP)	Number of Household Members Verified	Percentage of Household Members Verified	Number of Household Members Failed EIV Pre-Screening	Percentage of Household Members Failed EIV Pre-Screening	Number of Household Members Failed SSA Identity Test	Percentage of Household Members Failed SSA Identity Test	Number of Household Members Pending Verification	Percentage of Household Members Pending Verification
<u>10HSEA</u> <u>Seattle Hub</u>	All	258,941	161,626	62.42%	78,553	29.56%	3,086	01.18%	17,696	06.83%
	Public Housing	44,147	28,877	65.41%	12,140	27.50%	807	01.83%	2,323	05.26%

To view the Identity Verification report by **Public Housing** program type, select **Public Housing** in the **Program Type** selection in the **Identity Verification Report Selection** page.

To view the Identity Verification report for **Section 8** program type, select **Section 8** in the **Program Type** selection in the **Identity Verification Report Selection** page.

4.4.3.4.2 State Level View

The State drop down provides user a capability to select ALL or an individual State. When ALL is selected in State dropdown, the report displays the statistics for all the states, without further drop down.

The State level report for an individual state displays statistics for each PHA under the state and provides drill down to PHA.

To view the Identity Verification report by **Public Housing** program type, select **Public Housing** in the **Program Type** selection in the **Identity Verification Report Selection** page.

To view the Identity Verification report for **Section 8** program type, select **Section 8** in the **Program Type** selection in the **Identity Verification Report Selection** page.

4.4.3.4.3 HUB Level View

When HUB organization is selected, the Identity Verification Report for HUB is displayed.

To view the Identity Verification report by **Public Housing** program type, select **Public Housing** in the **Program Type** selection in the **Identity Verification Report Selection** page.

To view the Identity Verification report for **Section 8** program type, select **Section 8** in the **Program Type** selection in the **Identity Verification Report Selection** page.

4.4.3.4.4 Field Office Level View

When FO organization is selected, the Identity Verification Report for Field Office is displayed.

To view the Identity Verification report by **Public Housing** program type, select **Public Housing** in the **Program Type** selection in the **Identity Verification Report Selection** page.

To view the Identity Verification report for Section 8 program type, select Section 8 in the Program Type selection in the Identity Verification Report Selection page.

4.4.3.4.5 PHA Level View

When PHA organization is selected, the Identity Verification Report for PHA displays results in three tabs:

- Failed EIV Pre-Screening
- Failed SSA Identity Test
- Pending Verification

4.4.3.4.5.1 EIV Pre- Screening Deficiencies Report

To view the list of households and household members that were not sent to SSA for verification because they failed the EIV pre-screening test, click the **EIV Pre- Screening Deficiencies** tab.

When the tab is selected, the **EIV Pre- Screening Deficiencies Report** is displayed with 2 sections as follow:

The screenshot shows the 'Enterprise Income Verification' interface. The main content area displays the 'EIV Pre-Screening Deficiencies' report for HUD. The report includes the following summary statistics:

EIV Pre-Screening Deficiencies as of 09/30/2012	
Participant Code:	AK001 AHFC
Program Type:	All PIH Programs
Reexamination Month:	All
Action Type:	All
Number of Households with Failed EIV Pre-Screening Deficiency:	22
Number of Households with Failed Effective Date Check (Overdue Annual Reexam) Deficiency:	17
Number of Households with Failed SSN Check (Invalid SSN) Deficiency:	6
Number of Household Members with Failed SSN Check (Invalid SSN) Deficiency:	6

Below the summary statistics, there are links for [Download in Excel](#), [Printer Friendly Version](#), and [Error Description Help](#). A callout box points to these links with the text: **Printer-Friendly Version link Download in Excel Link Error Description Help**.

The report also shows a table of household members with failed EIV Pre-Screening:

Member SSN	Member Name	Member DOB	Failed EIV Pre-Screening Description
***-**-3726	MFUEVMFK JBYZVM	11/21/1972	Failed effective date check.
***-**-8054	IJMEZZSJM JBYZVM	10/15/1995	Failed effective date check.

The first section is the **EIV Pre-Screening Deficiencies Report as of <Date>**. It shows the following information:

- Participant Code: (with PHA Code and PHA Name)
- Program Type: (with Program Type)
- Reexamination Month: (with Month and Year)

- Households that Failed EIV Pre- Screening Test: (Number of Households)

The second section contains the list of households and household members that failed EIV Prescreen. It shows the following information:

For Head of Household:

- HOH SSN
- HOH Name
- HOH DOB
- Project (applicable to Public Housing households and displays Project Name and Project Number)

The following information is shown for each family member that failed EIV Pre- Screening Test:

- Member SSN
- Member Name
- Member DOB
- Failed EIV Pre- Screening Description

When **Public Housing** is selected as the Program Type, the **EIV Pre-Screening Deficiencies** Report provides the option to select a specific Project from the drop-down list as shown below:

The screenshot displays the 'Enterprise Income Verification' interface. The main content area is titled 'EIV Pre-Screening Deficiencies as of 09/30/2012'. It includes a summary table with the following data:

Participant Code:	AK001 AHFC
Program Type:	Public Housing
Reexamination Month:	All
Action Type:	All
Number of Households with Failed EIV Pre-Screening Deficiency:	22
Number of Households with Failed Effective Date Check (Overdue Annual Reexam) Deficiency:	17
Number of Households with Failed SSN Check (Invalid SSN) Deficiency:	6
Number of Household Members with Failed SSN Check (Invalid SSN) Deficiency:	6

Below the summary table, there is a 'Project' dropdown menu set to 'All' and a 'Go' button. A callout box labeled 'Project Drop-down List' points to this dropdown. To the right of the dropdown are links for 'Download in Excel', 'Printer Friendly Version', and 'Error Description Help'. Below the dropdown, it indicates '1 - 22 of 22 Households'. At the bottom, a table lists household members:

Member SSN	Member Name	Member DOB	Failed EIV Pre-Screening Description
***-**-3726	MEJUEVMEK JBYZVM	11/21/1972	Failed effective date check

The report has the standard features of Printer- Friendly Version, Download in Excel format, pagination and User Identification as described in section 3.2.5. For instructions on how to download report in Excel format, please see *Appendix B*.

Appendix A provides a complete listing of the error messages that may be generated and displayed by the system.

Note: SSN Masking – Due to privacy concerns, only the last 4 digits of SSNs are displayed (***-**-1234) for this report or contained in the download to Excel format.

4.4.3.4.5.2 SSA Screening Deficiencies

To view the list of households and household members that failed the SSA Identity Test, click the **SSA Screening Deficiencies** tab.

When the tab is selected, the **SSA Screening Deficiencies** is displayed with 2 sections as follow:

The first section contains the **Failed Verification Report as of <Date>** with the following information:

- Participant Code: (with PHA Code and PHA Name)
- Program Type: (with Program Type)
- Reexamination Month: (with Month and Year)
- Households that Failed Verification: (Number of Households)

The second section contains the list of households and household members that failed SS Identity test. It shows the following information:

For Head of Household:

- HOH SSN
- HOH Name
- HOH DOB
- Project (applicable to Public Housing households and displays Project Name and Project Number)

For each family member that failed EIV Pre- Screening Test:

- Member SSN
- Member Name
- Member DOB
- Failed Verification Description

When **Public Housing** is selected as the Program Type, the **Failed SSA Identity Test** report at PHA level provides the option to select a specific Project from the drop-down list as shown below:

Enterprise Income Verification HUD Home PIH Home EIV Home Search Email

Verification Reports >> Report Selection >> PHA Statistics

Note: SSN Masking – Due to privacy concerns, only the last 4 digits of SSNs are displayed (***-**-1234) for this report or contained in the download to Excel format.

4.4.4 Immigration Report

The Immigration Verification Report provides statistical information at the HQ, State, HUB, FO, TARC and PHA levels of the number of households and household members who have an IMS/PIC-assigned alternate identification number (Alt ID), citizenship code of ineligible noncitizen or pending verification.

4.4.4.1 Report Generation

On a weekly basis (as part of the weekly Batch processing), PIH households and household members are evaluated for immigration and statistics are computed and information on individual household and members stored in the EIV database. Users relying on statistical data on a regular basis should make a printed copy of the report before the date is overwritten by the next weekly Batch processing.

4.4.4.2 Immigration Report Filtering

Access the Immigration Report page by clicking the Immigration Report link (under the Verification Reports module) on the EIV Navigation panel. The Immigration Report – Report Selection page is displayed as illustrated below.

Use this page to filter the scope of the data appearing on the Immigration Report. Once you have selected your filter options, click the **Get Report** button to generate the Immigration Report reflecting your choices.

The **Immigration Report** page provides you with the following filter options:

Program Type – This option provides the capability to filter data by program type – All PIH Programs, Public Housing or Section 8. By default, the value is set to All PIH Programs when the page displays.

Reexamination Month – This option provides the capability to filter data by Reexamination Month – All or for a specific month (January to December). By default, the value is set to **“All”** when the page displays.

Action Type – This option provides the capability to filter data by Action Type from the following options:

- All
- 1-New Admission
- 2-Annual Reexam
- 3-Interim Reexam
- 4- Portability Move-in
- 14-Historical Adjustment

Action Type dropdown will be enabled only if the PHA radio button is selected

Region – This option controls the scope of the data included on the report. Report data are aggregated by security level for the entire HUD hierarchy, i.e., HUD HQ, State, HUB, TARC, Field Office, and PHA. The combination of your assigned role and security level determines the extent of the data that will be accessible.

Your role assignment provides you with access to up to five organizational options. Only those that you are permitted to access are displayed on the page when it opens. Only one organizational option can be selected at a time. Only one organizational option can be selected at a time.

The following organizational options are available:

- **HUD HQ** – This option provides those with IDs of Headquarters scope access to nationwide data and the option to select data at all levels. The Immigration Report Selection page is displayed as shown below.

- **State** - This option provides full access for those with IDs of Headquarters scope. This option only is displayed if your role assignment provides you with access to national data. If your access is set at this level, the Immigration Report Selection page is displayed as shown below.

A drop-down list provides you with all the available State selection options. Scroll through the list to select a desired State or use the ALL option displayed as the first item in the list, which pulls the report for all states. Highlight the desired option to select it. Only one selection can be active at a time.

- **HUB** – This option provides access to the data associated with Field Offices and the PHA’s within their jurisdiction. For example, if your security level and role assignment permit you to access data associated with a HUB (e.g., 2APH New York HUB Office), you may select data for the HUB or select Field Offices or PHA’s associated with that HUB. If your access is at this level, the Immigration Report Selection page is displayed as shown below.

A drop-down list provides you with all the available HUB selection options. The list will include only those HUBs that your security level and role allow you to access. If your assigned scope of access does not include HUB data, this option will not be displayed in the Region selection component.

Scroll through the list to locate the desired HUB location. Highlight it to select. Only one selection can be active at a time.

- **Field Office** – This option provides access to the data associated with Field Offices. The scope of access is governed by your security level and role assignment.

If your access is at this level, the Immigration Report Selection page is displayed as shown below.

A drop-down list provides you with all the available Field Office selection options. The list will include only those Field Offices that your security level and role allow you to access. If your assigned scope of access does not include Field Office data, this option will not be displayed in the Region selection component.

Scroll through the list to locate the desired Field Office location. Highlight it to select. Only one selection can be active at a time.

- **TARC** – This option provides access to the data associated with TARC's and the PHA's within their jurisdiction. The scope of access is governed by your security level and role assignment. If your access is at this level, the Immigration Report Selection page is displayed as shown below.
- **PHA** – This option provides access to the data associated with a PHA. The scope of access is governed by your security level and role assignment. If your access is restricted to this level, the Immigration Report page is displayed as shown below.

A drop-down list provides you with all the available PHA selection options. The list will include only those PHA's that your security level and role allow you to access. Scroll through the list to locate you the desired PHA location. Only one selection can be active at a time. PHA Users who need access to information concerning tenants in another PHA may request and gain that access with the written approval of the manager of that PHA.

4.4.4.3 Immigration Statistics Report

All Household and Household Member details appear on the Immigration Report page. Although the scope of report detail can vary, the same page format is used to convey the data

The result data are displayed in a tabular format. Each table (referred to as a Statistics table) is labeled to indicate the security level to which the data applies. There is a record in the table for each entity included in the results data.

The Immigration Report page includes a separate table for the selected organization (parent) as well as any subordinate organizations (children). The scope of detail available to you is based on your security level and role assignment. For example, if your access is limited to an individual PHA, you will only be able to view the statistics and detail associated with the assigned PHA. In contrast, if your access includes the entire HUD hierarchy, you will be able to view the statistics and detail associated with each security level.

When more than one level of detail is available, the highest level is displayed first, on the page. Each successive level of detail is displayed in a separate table. The appearance of a hypertext link in a record (appearing underlined in red in a Statistics table) indicates that an additional level of detail is available. Click the hyperlink to view the next level of detail. For example, at the Field Office level, there is a record for each associated PHA. Click on the appropriate PHA, if it has a hyperlink, to view the associated detail.

Note: Just as other reports the Statistics table shows the information for Households when the Household Statistics tab is selected, and shows the information for Household Members when the Household Member Statistics tab is selected.

4.4.4.3.1 Household Statistics tab

On the top statistics table you will find the following information:

- **Security Level** – Shows the Region selected from the selection page
 - HUD Headquarters
 - State with the State name selected
 - HUB with the HUB name selected
 - TARC with TARC name selected
 - Field Office with the Field Office name selected
 - PHA with the PHA name selected
- **Reexamination Month** – Shows the Reexamination Month you have selected in the search criteria for this report will be displayed.
- **Program Type** – Shows Program Type you have selected in the search criteria for this report will be displayed. If ‘All PIH Programs’ was selected from the search criteria, three columns will be displayed – ALL, Public Housing, and Section 8.
- **Number of Households (Excluding EOP)** – Shows the total number of households where one of more household members have who have an IMS/PIC-assigned alternate identification number (Alt ID), citizenship code of ineligible noncitizen or pending verification.
- **Households with IMS/PIC-assigned ALT ID** – Shows the number of households in which at least one household member has an IMS/PIC-assigned ALT ID (line 3n of form HUD-50058/MTW = H***** or begins with an alpha character).
- **Percentage of Households with IMS/PIC-assigned ALT ID** – Shows the percentage of households in which at least one household member has an IMS/PIC-assigned ALT ID (line 3n of form HUD-50058/MTW = H***** or begins with an alpha character).
- **Households with Ineligible Noncitizens** – Shows the number of households in which at least one household member has a citizenship code of ineligible noncitizen (line 3i of form HUD-50058/MTW = IN).
- **Percentage of Households with Ineligible Noncitizens**– Shows the percentage of households in which at least one household member has a citizenship code of ineligible noncitizen (line 3i of form HUD-50058/MTW = IN).
- **Households with Pending Verification**– Shows the number of households in which at least one household member has a citizenship code of pending verification (line 3i of form HUD-50058/MTW = PV).
- **Percentage of Households with Pending Verification**– Shows the percentage of households in which at least one household member has a citizenship code of pending verification (line 3i of form HUD-50058/MTW = PV).

On the bottom, the **Household Statistics** tab shows the following information in a table:

- **Security Level** – In this column you will find a record for each entity associated with the level next to the selected organization (e.g., if the organization selected is HUD HQ, the next level is HUB). You can click the hypertext link associated with the security level label to view additional detail as appropriate. Possible entities appearing in this column include the following:

- HUB
- Field Office
- PHA
- Individual Households
- Program Type –If ‘All PIH Programs’ was selected from the search criteria, 3 rows will be displayed – ALL, Public Housing, and Section 8.
- Number of Households (Excluding EOP)
- Households with IMS/PIC-assigned ALT ID
- Percentage of Households with IMS/PIC-assigned ALT ID
- Households with Ineligible Noncitizens
- Percentage of Households with Ineligible Noncitizens
- Households with Pending Verification
- Percentage of Households with Pending Verification

Note: The Program Level Report provides sorting functionality and displays totals for each data field.

4.4.4.3.2 Household Members Statistics tab

On the top statistics table you will find the following information:

Security Level – Shows the Region selected from the selection page

- HUD Headquarters
- State with the State name selected
- HUB with the HUB name selected
- TARC with TARC name selected
- Field Office with the Field Office name selected
- PHA with the PHA name selected

Reexamination Month – Shows the Reexamination Month you have selected in the search criteria for this report will be displayed.

Program Type – Shows Program Type you have selected in the search criteria for this report will be displayed. If ‘All PIH Programs’ was selected from the search criteria, three columns will be displayed – ALL, Public Housing, and Section 8.

Number of Household Members (Excluding EOP) – Shows the total number of household Members who have an IMS/PIC-assigned alternate identification number (Alt ID), citizenship code of ineligible noncitizen or pending verification.

Household Members with IMS/PIC-assigned ALT ID – Shows the number of household members who have an IMS/PIC-assigned ALT ID (line 3n of form HUD-50058/MTW = H***** or begins with an alpha character).

Percentage of Household Members with IMS/PIC-assigned ALT ID – Shows the percentage of household members who have an IMS/PIC-assigned ALT ID (line 3n of form HUD-50058/MTW = H***** or begins with an alpha character).

Household Members with Ineligible Noncitizens – Shows the number of household members who have a citizenship code of ineligible noncitizen (line 3i of form HUD-50058/MTW = IN).

Percentage of Households with Ineligible Noncitizens– Shows the percentage of household members who have a citizenship code of ineligible noncitizen (line 3i of form HUD-50058/MTW = IN).

Households with Pending Verification– Shows the number of household members who have a citizenship code of pending verification (line 3i of form HUD-50058/MTW = PV).

Percentage of Households with Pending Verification– Shows the percentage of household members who have a citizenship code of pending verification (line 3i of form HUD-50058/MTW = PV).

On the bottom, the **Household Members Statistics** tab shows the following information in a table:

- Security Level – In this column you will find a record for each entity associated with the level next to the selected organization (e.g., if the organization selected is HUD HQ, the next level is HUB). You can click the hypertext link associated with the security level label to view additional detail as appropriate. Possible entities appearing in this column include the following:
 - HUB
 - Field Office
 - PHA
 - Individual Households
- Program Type –If ‘All PIH Programs’ was selected from the search criteria, 3 rows will be displayed – ALL, Public Housing, and Section 8.
- Number of Household Members (Excluding EOP)
- Household Members with IMS/PIC-assigned ALT ID
- Percentage of Household Members with IMS/PIC-assigned ALT ID
- Household Members with Ineligible Noncitizens
- Percentage of Household Members with Ineligible Noncitizens
- Household Members with Pending Verification
- Percentage of Household Members with Pending Verification

Note: The Program Level Report provides sorting functionality and displays totals for each data field.

4.4.4.4 Immigration Statistics Report Examples

Please use this section to get familiar with the look and feel of the Immigration Statistics Report. As mentioned above, each level of report displays data for Households and Household Members in two separate tabs.

4.4.4.4.1 HUD HQ Level View

When HUD HQ organization is selected, a nationwide Immigration Report is displayed. This may be filtered for program.

The screen below illustrates the *Household Statistics* of HUD Headquarters Immigration Report when **All PIH Programs** is selected from the Program Type drop-down list.

4.4.5 Deceased Tenants Report

The Deceased Tenants Report provides statistical information at the HQ, State, HUB, FO, TARC and PHA levels of household members who are deceased, based on information provided by the SSA. At the PHA level, the report provides a list of tenants who are deceased.

4.4.5.1 Report Generation

On a weekly basis (as part of the weekly Batch processing), PIH households and household members are evaluated for verification, statistics are computed and information on individual household and household members is stored in the EIV database. Users relying on statistical data on a regular basis should make a printed copy of the report before the date is overwritten by the next weekly Batch processing cycle.

4.4.5.2 Deceased Tenants Report Filtering

Access the Deceased Tenants Report page by clicking the Deceased Tenants Report link (under the Verification Reports module) on the EIV Navigation panel. The Deceased Tenants Report – Report Selection page is displayed as illustrated below.

Get Report

Use this page to filter the scope of the data appearing on the Deceased Tenants Report. Once you have selected your filter options, click the **Get Report** button to generate the Deceased Tenants Report reflecting your choices.

The Deceased Tenants Report page provides you with the following filter options:

Program Type – This option provides the capability to filter data by program type – All PIH Programs, Public Housing or Section 8. By default, the value is set to All PIH Programs when the page displays.

Reexamination Month – This option provides the capability to filter data by Reexamination Month – All or by specific month. By default, the value is set to “All” when the page displays.

Household Type - This option provides the capability to filter data by Household Type – All Households, Single Member Households, and Multiple Member Households. By default, the value is set to “All Households” when the page displays.

Action Type – This option provides the capability to filter data by Action Type from the following options:

- All
- 1-New Admission
- 2-Annual Reexam
- 3-Interim Reexam
- 4- Portability Move-in
- 14-Historical Adjustment

Action Type dropdown will be enabled only if PHA radio button is selected

Region – This option controls the scope of the data included on the report. Report data are aggregated by security level for the entire HUD hierarchy, i.e., HUD HQ, State, HUB, TARC, Field Office, and PHA. Your assigned role (along with the assigned security level) determines the extent of the data that will be accessible.

Your role assignment provides you with access to up to five organizational options. Only those that you are permitted to access are displayed on the page when it opens. Only one organizational option can be selected at a time.

The following organizational options are available:

- **HUD HQ** – This option provides those with IDs of Headquarters scope with access to nationwide data and the option to select data at all levels. This option only is displayed if your role assignment provides you with access to national data at all levels. The Deceased Tenants Report Selection page is displayed as shown below.

Enterprise Income Verification HUD Home PIH Home EIV Home Search Email

Verification Reports >> Deceased Tenants Report >> Report Selection

HUD HQ

STATE All

HUB 10HSEA Seattle Hub

FO 0APH SEATTLE HUB OFFICE

TARC PB1 Cleveland TARC

PHA AK001 AHFC

*For PHA Region Report Only

Get Report

- **State** - This option provides full access for those with IDs of Headquarters scope. This option only is displayed if your role assignment provides you with access to national data at all states. If your access is set at this level, the Deceased Tenants Report Selection page is displayed as shown below.

A drop-down list provides you with all the available State selection options. It also provides an option to select ALL. Scroll through the list to locate the desired State or select all states. Highlight it to select. Only one selection can be active at a time.

- **HUB** – This option provides access to the data associated with Field Offices and the PHA’s within their jurisdiction. For example, if your security level and role assignment permit you to access data associated with a HUB (e.g., 4HJAC Jacksonville HUB), Field Offices or PHA’s associated with that HUB. If your access is at this level, the Deceased Tenants Report Selection page is displayed as shown below.

A drop-down list provides you with all the available HUB selection options. The list will include only those HUBs that your security level and role allow you to access. If your assigned scope of access does not include HUB data, this option will not be displayed in the Region selection component. Scroll through the list to locate the desired HUB location. Highlight it to select. Only one selection can be active at a time.

- **Field Office** – This option provides access to the data associated with Field Offices. The scope of access is governed by your security level and role assignment.

If your access is at this level, the Deceased Tenants Report Selection page is displayed as shown below. A drop-down list provides you with all the available Field Office selection options. The list will include only those Field Offices that your security level and role allow you to access. If your assigned scope of access does not include Field Office data, this option will not be displayed in the Region selection component.

Scroll through the list to locate the desired Field Office location. Highlight it to select. Only one selection can be active at a time.

- **TARC** – This option provides access to the data associated with TARC’s and the PHA’s within their jurisdiction. The scope of access is governed by your security level and role assignment. If your access is at this level, the Deceased Tenants Report Selection page is displayed as shown below.
- **PHA** – This option provides access to the data associated with a PHA. The scope of access is governed by your security level and role assignment. If your access is restricted to this level, the Deceased Tenants Report page is displayed as shown below.

A drop-down list provides you with all the available PHA selection options. The list will include only those PHA’s that your security level and role allow you to access. Scroll through the list to locate you the desired PHA location. Only one selection can be active at a time. PHA Users who need access to information concerning tenants in another PHA may request and gain that access with the written approval of the manager of that PHA.

4.4.5.3 Deceased Tenants Statistics Report

On the Deceased Tenants Report page, results data are displayed in a tabular format. Each table (referred to as a Statistics table) is labeled to indicate the security level to which the data applies. The result data are displayed in a tabular format. Each table (referred to as a Statistics table) is labeled to indicate the security level to which the data applies. There is a record in the table for each entity included in the results data.

HUD HQ Deceased Tenants Report as of 10/08/2011												
HUB		Households With Deceased Members	% of Households With Deceased Members	# of Single Member Deceased Households	% of Single Member Deceased Households	Deceased Members	Members Deceased Less Than 1 Year		Members Deceased More Than 1 Year		Members Deceased With No Deceased Date	
							Count	%	Count	%	Count	%
	All	238	00.21%	114	47.90%	239	45	18.83%	134	56.07%	60	25.10%
10HSEA Seattle Hub	Public Housing	43	00.21%	19	44.19%	44	7	15.91%	28	63.64%	9	20.45%
	Section 8	195	00.21%	95	48.72%	195	38	19.49%	106	54.36%	51	26.15%

The Deceased Tenants Report page includes a separate table for the selected organization (parent) as well as any subordinate organizations (children). The scope of detail available to you is based on your security level and role assignment. For example, if your access is limited to an individual PHA, you will only be able to view the statistics and detail associated with the assigned PHA. In contrast, if your access

includes the entire HUD hierarchy, you will be able to view the statistics and detail associated with each security level.

When more than one level of detail is within the scope of the report selected, the highest level is displayed first. Each successive level of detail is displayed in a separate table. The appearance of a hypertext link in a record (appearing underlined in red in a Statistics table) indicates that an additional level of detail is available. Click the hyperlink to view the next level of detail. For example, at the Field Office level, there is a record for each associated PHA. Click on the appropriate PHA, if it has a hyperlink, to view the associated detail.

On the top statistics table you will find the following information:

Office – Shows the organization selected from the selection page

- HUD Headquarters
- State with the State name selected
- HUB with the HUB name selected
- TARC with TARC name selected
- Field Office with the Field Office name selected
- PHA with the PHA name selected

Reexamination Month – Shows the Reexamination Month you have selected in the search criteria for this report.

Program Type – Shows Program Type you have selected in the search criteria for this report. If 'All PIH Programs' was selected from the search criteria, three columns will be displayed – ALL, Public Housing, and Section 8.

- Total number of households evaluated
- Total number of household members evaluated
- Number of households with one or more deceased members
- Percentage of households with one or more deceased members
- Number of deceased members
- Percentage of deceased members

On the bottom, the statistical table shows the following information:

Security Level – In this column you will find a record for each entity associated with the level next to the selected organization (e.g., if the organization selected is HUD HQ, the next level is HUB). You can click the hypertext link associated with the security level label to view additional detail as appropriate.

Possible entities appearing in this column include the following:

- HUB
- Field Office
- TARC
- PHA
- Individual Households

Program Type – In this column, you will find the Program Type you have selected in the search criteria for this report will be displayed. If 'All PIH Programs' was selected from the search criteria, three columns will be displayed – ALL, Public Housing, and Section 8.

In a Statistics table you will find the following information:

- PHA Code
- PHA Name
- Program Type
- Reexamination Month
- Household Type
- Action Type
- Total Number of Households Evaluated
- Total Number of Household Members Evaluated
- Number of Households With Deceased Household Members
- Percentage of Households With Deceased Household Members
- Number of Deceased Household Members
- Percentage of Deceased Household Members
- Number of Deceased Single Member Households
- Percentage of Deceased Single Member Households
- Household Members Deceased Less Than **6 Months** (Revise logic from 1 year to 6 months))
- Household Members Deceased More Than **6 Months** (Revise logic from 1 year to 6 months)
- Household Members With No Date of Death

To view the Deceased Tenants Report by **Public Housing** program type, select **Public Housing** in the **Program Type** selection in the **Deceased Tenant Report Selection** page.

To view the Deceased Tenants for **Section 8** program type, select **Section 8** in the **Program Type** selection in the **Deceased Tenant Report Selection** page.

Note: The Program Level Report provides sorting functionality and displays totals for each data field.

4.4.5.4.2 State Level View

When State is selected, the Deceased Tenants Report for State is displayed. The user can pull up the report by the Program type and the Reexamination month. The screen layout for the State level report is designed similarly to the HUD HQ level report.

The bottom statistics include the data for all PHA's under the selected State when program type is equal to ALL. There is no sorting functionality for columns if Program Type is equal to All or if All states are selected.

4.5 Special Instructions for Error Correction

All PHA EIV Access issues are handled by EIV Coordinator(s) within local HUD Field Offices (F/O's). If local HUD F/O's EIV Coordinators are unable to resolve the issue they will contact REAC-EIV on behalf of PHA Users.

Any problems with WASS should be reported to the REAC Technical Assistance Center (TAC) at **1-888-245-4860** or select **“Contact Us”** on the REAC Online website. (<http://www.hud.gov/offices/reac/support/tac.cfm>).

4.6 Caveats and Exceptions

Not applicable

5.0 USING THE SYSTEM (BATCH)

5 USING THE SYSTEM (BATCH)

This section provides a brief description of EIV PIH Batch processing.

5.1 PIH Batch Processing

The PIH Batch Processing covers the following:

- SSA Request File creation and transmission – covers the creation of SSA monthly request file and transfer of files from the Batch server to the [IBM Mainframe](#)IBM Mainframe
- SSA Response processing – covers the loading of SSA response data into EIV database
- NDNH Monthly and Quarterly Request File creation and transmission - covers the creation of NDNH monthly request file and transfer of files from the Batch server to the IBM Mainframe
- NDNH – Monthly and Quarterly Response File processing – covers the loading of SSA response data into EIV database
- PIH Summarization – covers the computation of tenant’s projected annual income, computation of tenant’s actual annual income, computation of tenant’s income discrepancy, analysis of the discrepancy and aggregation the tenant’s income discrepancy at the HQ, HUB, Field Office, and PHA levels and Program Type and Reexamination Month level. It also includes analysis of the households for new hires, multiple subsidy and household members whose IDs failed verification. Statistics counts are rolled up at the PHA level, Field Office level, State level, TARC level and HUD HQ level.
- Weekly Usage Report – generation of statistics on the number of times the online pages were accessed during the reporting week, the total number of users that logged into EIV per day during the reporting week and the number of users that logged into EIV per hour from 8:00am to 8:00pm during the reporting week.
- PHA Usage Report – generation of statistics on the number of PHA’s that accessed the online system during the last 30 days and last 180 days.

EIV online users are not given access to Batch processing.

5.2 Special Instructions for Error Correction

Not Applicable.

5.3 Caveats and Exceptions

Not Applicable.

5.4 Input Procedures and Expected Output

Not Applicable

6.0 QUERYING

6 QUERYING

6.1 Query Capabilities

EIV receives SS and SSI data on a monthly basis from SSA and receives wages, unemployment benefits and W-4 data on a monthly/quarterly basis via Batch-processing. EIV does not provide users with query access to EIV databases.

Queries of SSA or NDNH data for individual tenant SS, SSI benefit, and income information are available using the EIV online application system.

6.2 Query Procedures

Not Applicable.

7.0 REPORTING

7 REPORTING

This section provides description of the reports available to EIV PIH users.

7.1 Report Capabilities

EIV provides the following online reports for PIH users:

1. Debts Owed to PHA's and Terminations:

- **Search for Former Tenant** shows information about former tenants who have debts owed to PHA's or who have been evicted or lost their lease or voucher.
- **Debts Owed to PHA's and Terminations Report** provides statistics on the Total Number of Reported EOP Families, Number of Families with debts owed to PHA's or Terminations, and Total Amount of Debt Owed for the selected level.
- **Enter/Update Information** displays the information of former tenants with form 50058 dated within last 15 months and allows user to enter debt information for these tenants.

2. Income Discrepancy Statistics Reports:

For all the levels of Threshold Report, if the access is granted at the role level, the users will be able to see Income and Outlier Information

- **HUD Headquarters Income Discrepancy Statistics Report** provides statistics on the Total Number of Households Evaluated, Households that Exceed Threshold, Percentage of Households exceeding threshold, Number of Outliers, Percentage of Households exceeding threshold that are outliers, Annual Income Discrepancy (Actual) total and Annual Income Discrepancy (Annualized Last Quarter) total at the HUD Headquarters level.
- **STATE Income Discrepancy Statistics Report** provides statistics on the Total Number of Households Evaluated, Households that Exceed Threshold, Percentage of Households exceeding threshold, Number of Outliers, Percentage of Households exceeding threshold that are outliers, Annual Income Discrepancy (Actual) total and Annual Income Discrepancy (Annualized Last Quarter) total for an individual STATE level and/ or for all states.
- **HUB Income Discrepancy Statistics Report** provides statistics on the Total Number of Households Evaluated, Households that Exceed Threshold, Percentage of Households exceeding threshold, Number of Outliers, Percentage of Households exceeding threshold that are outliers, Annual Income Discrepancy (Actual) total and Annual Income Discrepancy (Annualized Last Quarter) total at the HUB level.
- **FO Income Discrepancy Statistics Report** provides statistics on the Total Number of Households Evaluated, Households that Exceed Income Discrepancy, Percentage of

Households exceeding threshold, Number of Outliers, Percentage of Households exceeding threshold that are outliers, Annual Income Discrepancy (Actual) total and Annual Income Discrepancy (Annualized Last Quarter) total at the FO level.

- **TARC Income Discrepancy Statistics Report** provides statistics on the Total Number of Households Evaluated, Households that Exceed Threshold, Percentage of Households exceeding threshold, Number of Outliers, Percentage of Households exceeding threshold that are outliers, Annual Income Discrepancy (Actual) total and Annual Income Discrepancy (Annualized Last Quarter) total at the TARC level.
- **PHA Income Discrepancy Statistics Report** provides statistics on the Total Number of Households Evaluated, Households that Exceed Threshold, Percentage of Households exceeding threshold, Number of Outliers, Percentage of Households exceeding threshold that are outliers, Annual Income Discrepancy (Actual) total and Annual Income Discrepancy (Annualized Last Quarter) total at the PHA level

3. By Program Type and Reexamination Month Summary Reports:

- **Income Report Summary** shows income information for those households due for reexamination in the selected month and who currently receive or previously received SS/SSI benefits or income.
- **New Hires Report** provides a list of households where at least one member has a New Hires record for the selected month or period and the members in these households.
- **Income Discrepancy Report Summary** shows those households with income discrepancy between the tenant's projected income from Form 50058 and the total for SSA/SSI benefits, wages and unemployment benefits collected by EIV from SSA and NDNH for the same period.
- **Failed Verification Report Summary** shows those households and family members in households due for reexamination for which SSA was unable to provide benefit information because the ID information (SSN, Last Name, and Date of Birth combination) of household members did not pass SSA ID verification routines. It also provides the issues identified by SSA in assessing the tenant ID information that led to the verification failure.
- **Failed EIV Pre-Screening Report Summary** shows those households and household members that were not sent to SSA for verification because their ID's failed the EIV Pre-Screening test.
- **No Income Report** provides a list of the tenants, whose identity was verified by SSA based on the SSN/Last Name/Date of Birth combination, but did not or had never receive SS/SSI benefits or income.

4. Verification Reports

- **Existing Tenant Search** provides feedback as to whether or not an applicant may already be receiving subsidy from PIH or Multifamily programs.
- **MultiSubsidy Tenant Report** shows a list of tenants who receive assistance in multiple PHA's or PIH programs or in both PIH and Multifamily programs.
- **Identity Verification Report** shows statistics on number of households and the number of households that have been verified by SSA, which failed SSA verification and failed EIV pre-screening.

-
- **Immigration Report** shows the household members who have an IMS/PIC-assigned alternate identification number (Alt ID), citizenship code of ineligible noncitizen, or who are pending verification.
 - **Deceased Tenants Report** shows statistical information at the HQ, State, HUB, FO, TARC and PHA levels of household members who are deceased, based on information provided by SSA. At the PHA level, the report provides a list of tenants who are deceased.

5. Individual Household specific Reports:

- **Summary Report** shows the Head of Household Identifiers and the list the family members in the household. This report is also available with a generated ICN number.
- **Certification Page** PHA User certification section for PHA's and Household Members to acknowledge that the household income has been verified and validated by PHA
- **Income Report** shows the Head of Household Identifiers and the wages and benefits information for each family member in the household.
- **Income Discrepancy Report** shows the Head of Household Identifiers and a comparison of the tenant's projected income from the form HUD 50058 compared to the income information for the same period in EIV.

7.2 Report Procedures

Please refer to Section 4 on instructions on how to generate the reports enumerated above.

APPENDIX A – LIST OF ERROR MESSAGES ON THE FAILED VERIFICATION REPORT

Error Description	Explanation
Member SSN not sent to SSA – Invalid SSN	The tenant’s record was not sent to the SSA because the SSN failed the preliminary validation checks conducted by TASS.
Member SSN not sent to SSA – Live-in aide or foster child	The tenant’s record was not sent to the SSA because the relationship code indicated that the individual was a live-in aide or foster child. The income of these two categories of family members may not be included in eligibility and rent calculations.
Verification failed – SSN not found in SSA records	The tenant’s SSN is not a valid number issued by the SSA. Note: The message also includes the SSN reported in SSA.
Verification failed – SSN was not verified by SSA	The tenant’s SSN is not a valid number issued by the SSA
Verification failed – Surname matched, but date of birth did not match with SSA records	The tenant’s identity was not verified because while the Surname matched with SSA records, the Date of Birth did not match. However, based on the SSN/Last Name combination, SSA has indicated that the tenant <u>does not receive SS/SSI</u> benefits.
Verification failed – Date of birth matched, but surname did not match with SSA records	The tenant’s identity was not verified because while the Date of Birth matched with SSA records, the Surname did not match. However, based on the SSN/Date of Birth combination, SSA has indicated that the tenant <u>does not receive SS/SSI</u> benefits.
Verification failed – SS benefits cannot be disclosed due to discrepancy in date of birth	The tenant’s identity was verified by SSA based on the SSN/Last Name combination and the tenant <u>is receiving SS</u> benefits. However, due to the discrepancy in the Date of Birth, the benefit information cannot be disclosed.
Verification failed – SS benefits cannot be disclosed due to discrepancy in name	The tenant’s identity was verified by SSA based on the SSN/Date of Birth combination and the tenant <u>is receiving SS</u> benefits. However, due to the discrepancy in the Last Name, the benefit information cannot be disclosed.
Verification failed – SSI benefits cannot be disclosed due to discrepancy in date of birth	The tenant’s identity was verified by SSA based on the SSN/Last Name combination and the tenant <u>is receiving SSI</u> benefits. However, due to the discrepancy in the Date of Birth, the benefit information cannot be disclosed.
Verification failed – SSI benefits cannot be disclosed due to discrepancy in name	The tenant’s identity was verified by SSA based on the SSN/Date of Birth combination and the tenant <u>is receiving SSI</u> benefits. However, due to the discrepancy in the Last Name, the benefit information cannot be disclosed.
Verification failed – SS and SSI benefits cannot be disclosed due to discrepancy in date of birth	The tenant’s identity was verified by SSA based on the SSN/Last Name combination and the tenant <u>is receiving both SS and SSI</u> benefits. However, due to the discrepancy in the Date of Birth, the benefit information cannot be disclosed.
Verification failed – SS and SSI benefits cannot be disclosed due to discrepancy in name	The tenant’s identity was verified by SSA based on the SSN/Date of Birth combination and the tenant <u>is receiving both SS and SSI</u> benefits. However, due to the discrepancy in the Last Name, the benefit information cannot be disclosed.

APPENDIX B – INSTRUCTIONS ON DOWNLOADING MICROSOFT EXCEL FORMAT FILES

When the **Download in Excel** link is clicked, the File Download pop-up window is displayed. You can choose to use either the **Open** or **Save** button.

The following steps describe how to download the reports that match the search criteria specified by the user.

1. From the Income Summary or Income Discrepancy Summary or Failed Verification or No Income Report, click the **Download in Excel** hyperlink.
2. The File Download dialogue box is displayed. Click the **Save** button.

3. The Save As dialogue box is displayed as shown below.
4. Once the file has been saved, open it using Microsoft Excel or compatible software to view the report.
